The hard-to-pronounce names—"We had a kicker Gurks, Gerkin (the name was Ryan Gehrts—pronounced Gertz), I never did learn how to say. (Steve) Oliveira (Oliverra), I couldn't get his name out right either."

The five Maryville coaches whose teams have heard Shields' voice—"(Jim) Renfro, (Ken) Shepherd, (Don) Rawls, (Ted) Wilson, (Don) Story, all fine men, all excellent coaches."

And mainly, the time spent at the games—"The years have been rewarding. What better way to watch a game you liked to play, and a team which is your favorite, and do it in the best seat in the house."

CREDIT CARD CAP PROPOSAL

HON. WYCHE FOWLER, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. FOWLER. Mr. Speaker, although I understand that the Subcommittee on Consumer Affairs and Coinage recently rejected a cap on credit card interest, I respectfully resubmit my credit card cap proposal for the members consideration. It is my firm belief that the interest charged on bank credit cards is out of hand and that Congress must force banks to respond to the marketplace. I have spoken with many of you about my proposal. I offer it again for your consideration.

A SALUTE TO "MAINSTREET"

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. PORTER. Mr. Speaker, I want to take this opportunity to recognize an outstanding example of community service provided by the MainStreet department stores of Chicago, IL. The store developed an educational program entitled, "Safety Starts With Me" designed to help young children distinguish the potential dangers associated with child abduction. "Safety Starts With Me" is a 40-minute presentation attended by children grades K–4 during school assemblies.

Hosted by a local magician in the role of the "Mayor of MainStreet," the show addresses the issues of strangers and how to avoid abduction. Through magic, games and role playing the emcee creates an atmosphere of fun used to instill confidence rather than fear while teaching children to deal with dangerous situations effectively.

Through a series of entertaining skits the program focuses on three specific situations

in which children may encounter strangers. These include car strangers, telephone strangers, and doorbell strangers.

The end of the show serves to reinforce the three magic words which can be applied in all dangerous or fearful situations. The phrase "Say No, Run, Tell Someone," is repeated in order to reemphasize its importance for the childrens' safety.

In light of the increasing awareness surrounding the tragedy of child abduction, I am pleased to inform you of MainStreet's initiative in establishing the MainStreet child safety show. It represents a practical response to the anxieties shared by all of us with young children. The more we educate our children about potentially dangerous situations, the safer they will be in our communities. With our encouragement and support, hopefully we will see even greater participation.

On behalf of the parents and children of Illinois, I acknowledge the invaluable service provided by the staff and management at MainStreet department stores.

THE NEW RACE PROGRAM

HON. VIC FAZIO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. FAZIO. Mr. Speaker, in July I joined several of my colleagues on the Budget Committee, Chairman BILL GRAY, Mr. MARVIN LEATH, Mr. TOM DOWNEY, Mrs. BARBARA BOXER, and Mr. CHET ATKINS, on a factfinding mission to the Far East. Our trip included a visit to Thailand, where I had the opportunity to meet Thai officials and discuss rice export policy, a topic of great importance to the Thais as well to rice growers in my district.

The Thais forced their concern on the current U.S. rice program. As you know, the farm bill we approved last December included provisions which were intended to put rice producers in the United States on equal footing with their counterparts elsewhere in the world. In my view, the new program has been very successful thus far and rice growers in my district are pleased with its results. The Thais, however, did not agree.

They made the same claims to us as they charged in the U.S. press earlier this year, mainly that the U.S. rice program would devastate the Thai rice industry. Thai agricultural officials claimed exports would drop precipitiously by 1 to 1.5 million tons in 1986 from a 4-million-ton level in 1985 and that export earnings would decline from $1 billion last year to less than $800 million. Thailand's exports to Africa and the Middle East—the largest markets for Thai rice—were predicted to drop as much as 50 percent. While these forecasts brought forth loud complaints from Thailand, they were also taken very seriously by officials in our own State Department, who believed the program could affect United States relations with a key ally in Southeast Asia.

Fortunately, none of these fears have borne fruit.

In early August, a mere 5 months after Thai and State Department officials said the bottom would fall out of the world rice market, front page articles appeared in Bankok's major English-language dailies proclaiming that Thailand—already the world's No. 1 rice exporter—was set to enjoy its biggest exporting year ever. The Thais shipped 2.9 million tons of rice to overseas buyers during the first 7 months of 1986—a rate almost 4 percent higher than the alltime record 1984 crop year and 12 percent over the same period for 1985. Further, despite fears that the lower loan rate called for in the U.S. rice program would drive the world price downward, the price has instead stabilized, and started to increase in the past several months.

It is my understanding that the Thai's concern with the rice program hinged upon provisions in the 1985 farm bill which permit the Secretary of Agriculture to base the U.S. loan rate on the world market price instead of setting an artificial price floor far above the world price, as the old farm bill required. U.S. rice producers could sell their rice abroad at the world market price and receive payments from the Treasury for the difference between the world price and the current loan rate.

The Thais contend that the provisions unfairly subsidize United States rice producers and permit them to sell their rice at predatory levels. No matter how low the world price goes, they claimed, the U.S. farmer would be able to sell lower knowing the Treasury would cover his losses.

In fact, in order to soften the effect of the rice program on Thailand and other rice exporters, the United States has not engaged in predatory pricing and has followed, not led, world price movements. Obviously, the rice program has had an effect on Thai rice exports, as the stated intention of the rice program is to increase United States rice exports. But in the 5 months since its inception the U.S. rice program has not incurred significant harm upon Thai rice producers; instead, the opposite seems to be the case.

Meanwhile, the new rice program has been a shot in the arm for the beleaguered U.S. rice industry. In the 4 years between 1981 and 1985 U.S. rice exports fell from 3 million metric tons to 1.8 million metric tons, while Thai rice exports rose from 2.7 million metric tons in 1980 to 4 million metric tons in 1985. Thai exports may exceed 4.5 million metric tons this year. California rice growers were particularly hard hit by the drop in U.S. rice exports: between 1980 and 1985 exports of processed California rice fell 72 percent—from 1.3 metric tons to 0.3 million metric tons. Rice production in the State has fallen accordingly: in 1980 rice production in California was 1.65 million metric tons; by 1985 the level had fallen to 1.34 million metric tons.

In recent months, however, U.S. rice producers have seen a dramatic turnaround. Total U.S. rice exports from April to July of this year are 107 percent higher than they were for the same period in 1985 and advance sales for next year are up over 118 percent from last year's level. Not only are rice exports soaring, but forfeitures to the Commodity Credit Corporation have fallen over 50 percent—resulting in an estimated $140 million savings to the taxpayer. The increase in exports are having a rippling effect in hundreds of rice growing communities in California, Texas, Arkansas, Louisiana, Mississippi, and Florida, where local truckers, millers, bankers, elevator operators, brokers, and shippers are all enjoying the rewards of increasing rice sales overseas.

Meanwhile, the Thais and our other rice-growing competitors will have to get used to the fact that U.S. rice producers will again be tough adversaries in international markets. The Rice Millers' Association recently set an example of just how tough they can be by petitioning the U.S. Trade Representative to investigate the Japanese Government's use of unfair barriers to rice imports. If the Japanese fully liberalized their rice market their imports could rise from two-tenths of 1 percent to 37 percent of domestic consumption. This would create a huge new market for U.S. rice producers.

The Rice Millers' action, in combination with the new rice program, present our rice producers with innovative alternatives to past policies and should provide an orderly transition from dependence on Government to reliance on the marketplace.

KILDEE PAYS TRIBUTE TO THE ST. GEORGE ORTHODOX CHURCH

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. KILDEE. Mr. Speaker, I rise today to bring to the attention of my colleagues and the Nation an event that will be held September 21, 1986, in Flint, MI, commemorating the founding of the St. George Orthodox Church. On this day the St. George Orthodox Church will celebrate its 50th anniversary.

Historic St. George Orthodox Church can trace its humble beginnings to the determined efforts of several pious Arab immigrants. In 1936, the group began to meet in the homes of parishioners to worship together. In 1938, the devoted congregation initiated construction of the St. George Orthodox Church at its initial location in the north end of Flint. For the next 30 years St. George served as the center of orthodox worship for Flint's Arab American community. Its current building, a recipient of the Society of American Architects gold medal, was erected in 1971 to meet the needs of a parish which had grown from 25 to over 150 families. Through its 50 years in existence, the St. George Orthodox Church has faithfully served its parishioners and the community in a very unselfish and admirable manner, preserving both its rich Arab culture and orthodox tradition of worship.

Mr. Speaker, the St. George Orthodox Church continues to represent a warm and friendly home for community ethnic activities and as a cathedral of worship where the spiritual needs of parishioners are fulfilled in the traditional orthodox Christian faith. Under the spiritual leadership of its current rector, Rev. Father Basil Kalekas, St. George continues its fine record of providing Christian leadership and a base for ethnic tradition within the community. It is indeed a great honor for me to

pay tribute to the esteemed church on the occasion of its 50th anniversary.

NAACP FREEDOM SUNDAY

HON. PETER W. RODINO, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. RODINO. Mr. Speaker, it will be my great honor to speak at the 72d annual NAACP Freedom Sunday Observance on September 21 in Newark.

This year's ceremonies will take place at the Mount Calvary Missionary Baptist Church, Rev. J. Wendell Matson, pastor. The guest speaker is Rev. Dr. Calvin O. Butts III, executive minister of the Abyssinian Baptist Church in New York City. Reverend Butts will discuss the great historical role played by the NAACP and churches in forging a more fair and compassionate America.

Mr. Speaker, the Freedom Sunday Observance is of special significance to me and to thousands of Americans who care deeply about justice and equality. It is a time to reflect upon the difficult struggles—sit-ins, marches and legislative battles—necessary to bring to the laws of the land a respect for citizens of all races and creeds. It is a time to celebrate the warm friendships forged in those difficult times. And it is a time to recommit ourselves to the challenges that lie ahead—challenges posed by those in the Reagan administration who seek to turn back the clock on civil rights and return to a constitutional "dark ages."

Mr. Speaker, I salute civil rights champions like Keith Jones, president, Newark NAACP; John D. Woods, first vice president; Dolores C. Carter, second vice president; Daisy Stokes, secretary; Denise McCoy, assistant secretary; and Mamie Hale, treasurer, all of the Newark branch of the NAACP. Thanks to their devotion to justice and equality and their hard work, this Nation will remain a place where all of its citizens are free to pursue and realize their dreams.

HONORING THE HISPANIC FAMILY OF THE YEAR

HON. ESTEBAN EDWARD TORRES

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. TORRES. Mr. Speaker, on Friday, September 19, 1986, the second annual Hispanic Family of the Year banquet will be held in Los Angeles, CA. This event will honor Hispanic families for exemplary community service, teamwork, and individual growth. This important program helps to promote family unity, cultural pride, and provide role models for the Hispanic community.

I am honored to serve as cochairman of this year's program along with Mrs. Barbara Bush. The program is also endorsed by the American Family Society, whose national chairwoman is Mrs. Nancy Reagan. The program in Los Angeles County was founded by Bernard and Evelyn Kemp to recognize the significant community contributions of Hispanic families.

On behalf of my colleagues, I want to commend the 19 families who have been nominated by community organizations for this prestigious honor. The following families are to be commended for their exemplary achievements and contributions to their community and family: Jesus and Emma Acosta of Los Angeles, Hon. Benjamin III and Emma Aranda of Torrance, Jaime and Armida Caro of Los Angeles, Pedro and Onelia Chirino of Panorama City, Octavio and Caruca Costa of Los Angeles, Castulo and Beatriz De La Rocha of Hacienda Heights, Anthony and Kathryn De Los Reyes of Los Angeles, Frank and Elva Donnell of Lennox, Angel and Ida Gaitan of San Marino, Robert and Ofelia Guzman of Montebello, Jaime and Blanca Jarrin of San Marino, Mrs. Manuela Urbina Knecht of Los Angeles, Gregorio and Guadalupe Aguilar Lopez of Los Angeles, Elco and Lupe Miramontes of Hacienda Heights, Milton and Belia Navarrete of San Gabriel, Juan and Winnie Sanchez of Huntington Park, Mrs. Virginia Serna of Santa Monica, Ethridge and Gilda Altagracia Smith of Woodland Hills, and Luis and Ruth Valera of Valencia.

The nominated families provide a wide range of community services, from collecting food for needy families, to participation in volunteer community education, youth gang violence reduction programs and child guidance clinics.

I am particularly pleased to be part of this program that recognizes the important role that families play in our society. Several of the nominated families are from my own district and I ask that my colleagues join me in recognizing all of these families for their contributions to our country.

PENN STATE WILKES-BARRE CELEBRATES 70 YEARS

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. KANJORSKI. Mr. Speaker, I am pleased to bring to your attention the 70th anniversary of the Wilkes-Barre chapter of the Pennsylvania State University. The Wyoming Valley has benefited greatly from the presence of the Wilkes-Barre campus of Penn State, and I am proud to join in congratulating the chapter on its anniversary.

In the fall of 1916 a community group worked with the Wilkes-Barre Rotary and Chamber of Commerce and approached officials at Penn State to request a local chapter for the Wilkes-Barre area. That November, the first classes were held in the Wilkes-Barre High School building, where approximately 150 students enrolled in courses on surveying, reinforced concrete, mechanics, and advanced mathematics. The chapter was then called the engineering extension school.

By 1922, increased interest resulted in the establishment of a 3-year course in engineering, the only one of its kind in the region. During World War II, the extension school expanded to provide tuition-free courses in more than 27 subject areas to help the country in its production of war materials. After the war, veterans in the area benefited from the addition of day classes to the formerly evening-only schedule, and the school became the Wyoming Valley Day Technical Institute. The school moved to the Guthrie Building in Wilkes-Barre's north end section in 1950, and in 1953 a 2-year Associate Degree Program for engineering was initiated.

The former residence of Mr. and Mrs. John Conyngham in Lehman became the permanent campus in the mid-1960's, as a gift from Mr. and Mrs. Richard Robinson. Carriage houses on the property were converted into a student commons, and later student lounges and a bookstore were added. The 48-acre campus was named the Penn State/Wilkes-Barre campus when the first classes on the new property were held in the fall of 1968.

Today more than 900 students and 100 faculty members call Penn State Wilkes-Barre home. A gymnasium is scheduled to be completed by 1988, and a new center of technology is being planned. After 70 years of excellence, Penn State Wilkes-Barre has proven to be a tremendous asset to the community, and it is a great pleasure for me to join students, alumni, faculty members, and every member of the community in wishing Penn State Wilkes-Barre well on its 70th birthday.

PERSONAL EXPLANATION

HON. WILLIAM F. CLINGER, JR.

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. CLINGER. Mr. Speaker, on September 11, 1986, I intended to vote against the McCollum amendment to H.R. 5484, the Omnibus Drug Act, but I am recorded as having voted for this amendment. I would like the record to show that I did, in fact, want to vote against this amendment.

FLIGHT OF THE VIN FIZ

HON. RICHARD T. SCHULZE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. SCHULZE. Mr. Speaker, I am pleased today to have this opportunity to call my col-

leagues attention to the 75th anniversary of a great American historical event, the first transcontinental airplane flight.

On September 17, 1911, a 32-year-old flyer named Calbraith Rodgers, took off from Sheepshead Bay, Long Island, in a Model EX Wright biplane, for an 84-day voyage to the coast of California.

The biplane was christened The Vin Fiz, after the financial backers of the event. The Vin Fiz Co. officials also sponsored a private train that paralelled the flight of the Vin Fiz across the country. The train passengers included Rodger's wife, Mabel, managers, mechanics, workmen, and representatives of the Vin Fiz Co.

Rodgers piloted the Vin Fiz up the Erie Railroad line of Pennsylvania, across the farmlands of Ohio and Indiana to Chicago, over the Mississippi River to Kansas City, through the heartland of America to Dallas, Austin and San Antonio, along the southern borders of New Mexico and Arizona, to Phoenix, and completed his cross country odyssey in Long Beach, CA.

By the time Rodgers landed in Long Beach, he had covered 4,231 miles, (railroad mileage), in 82 hours and 4 minutes at an average speed of 51.56 mph in a voyage that included more than 80 stops in 76 different towns.

Calbraith Perry Rodgers was immediately elevated to hero status. His name and story graced the front pages of our Nation's newspapers. He was the grand marshall for Pasadena's Rose Day parade. He received a gold medal from President William Howard Taft in recognition for his courage and spirit that characterizes a man as a hero.

Men of this caliber deserve continual recognition throughout the years. They are the role models for our children and constitute the stories in our history books. Calbraith Perry Rodgers exemplifies the freedom and determination that characterizes our country. I am sure that my colleagues will join me in honoring the 75th anniversary of this great achievement.

SALUTING PHILIP H. POWER

HON. CARL D. PURSELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. PURSELL. Mr. Speaker, I would like to take this opportunity to compliment one of my constituents for his outstanding work. Mr. Philip Power recently was honored by the National Alliance for Business as that group's "Business Volunteer of the Year."

Phil serves as chair of the Michigan Job Training Coordinating Council, and it was through this role the National Alliance for Business recognized him for the outstanding work in training individuals for work and jobs.

It almost goes without saying that the value of job training work in a State such as Michigan—which has been hit hard by unemployment in recent years—is beyond measure.

Through his efforts, others have found ways to make a living and to continue supporting themselves and their families.

Phil Power also contributes to the betterment of Michgan's Second Congressional District through his role as owner of an important local newspaper group—the Observer & Eccentric Newspapers.

Community journalism long has been the backbone of an informed society and Phil's company continues to make its contributions to that tradition.

Mr. Speaker, I believe it's worthwhile to encourage and support the efforts of civic-minded persons such as Philip Power.

It wasn't too many years ago that Phil served as a staff member here in the House, so I believe it's only fitting that his recent accomplishments be recognized here in the House today. On behalf of the people of my district, I thank Phil for his work and contributions to our community.

A NEAR RECESSION JUSTIFICATION FOR DEFUSING GRAMM-RUDMAN-HOLLINGS

HON. EDWARD R. ROYBAL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 17, 1986

Mr. ROYBAL. Mr. Speaker, Congress recognized the special circumstances of a recession or near recession when it enacted Gramm-Rudman-Hollings. Special provisions were incorporated expressly for the purpose of defusing Gramm-Rudman-Hollings when our enconomy could no longer absorb its impact. I believe that we have reached just such a state of affairs. I believe that it is time to defuse Gramm-Rudman-Hollings for fiscal year 1987.

How do we justify defusing Gramm-Rudman-Hollings? We need only look at the "recession trigger" language in Gramm-Rudman-Hollings. If real economic growth is "less than I percent for two consecutive quarters," the recession provisions would trigger. Let me assure you that we are "whisker close" to pulling the recession trigger.

Over the past two quarters, real economic growth has slowed dramatically. Over the last two quarters, real growth has averaged less than 1 percent (1.1 percent in the previous quarter; 0.6 percent in the last quarter). If the Gramm-Rudman-Hollings recession trigger had read "averaging less than 1 percent for two consecutive quarters," the recession trigger would be pulled for fiscal year 1987 and the process of defusing Gramm-Rudman-Hollings would begin.

As our Nation nears recesion levels, Gramm-Rudman-Hollings must be defused for fiscal year 1987 and the justification is a U.S. economy in near recession.

I and many other Members of Congress believe that past cuts and the good faith efforts of our appropriations, reconciliation and tax legislation will reduce the 1987 deficit as low as is appropriate given the state of the economy. Now is not the time to place further stress on an already shaky economy.

INTRODUCTION OF THE ARMS EXPORT REFORM ACT OF 1986

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. LEVINE of California. Mr. Speaker, today I, along with Congressmen SMITH of Florida, SMITH of New Jersey, and MORRISON of Connecticut, are introducing the Arms Export Reform Act of 1986. The purpose of this legislation is to enhance Congress' ability to fulfill its foreign policy role in the are of arms sales. Senator BIDEN, along with his colleagues, Senators PELL and BOSCHWITZ, are simultaneously introducing an identical bill in the other body.

Mr. Speaker, nowhere is the desire to get a handle on administration of the law more apparent than in the overlapping, sensitive fields of foreign affairs and national security. The device most frequently relied upon in recent years to carry out these congressional purposes was the one- and two-House resolutions of approval or disapproval of proposed executive branch actions in the area of foreign affairs.

All this was changed when the Supreme Court handed down its famous INS versus Chadha decision, holding a one-House legislative veto unconstitutional, and a subsequent High Court ruling in United States Senate versus Federal Trade Commission, invalidating a two-House veto provision. Both these decisions have had widespread implications for foreign policy.

What I am concerned with today is the impact of these Supreme Court actions on the legislative veto as they relate to arms exports.

The basic statutory control mechanism regulating transfers, sales and leases of arms is the Arms Export Control Act [AECA]. The original law established a procedure enabling Congress to receive advance notification of significant U.S. arms transfers to foreign nations and to disapprove such transfers by concurrent resolution. The AECA provides for legislative vetoes in three general circumstances: First, cash, credit, or commercial sales of defense articles and services; Second, third country transfers of U.S. Government-supplied defense articles and services; and third, leases or loans of U.S. defense articles. Sections 36(b)(1), 36(c)(1), and 63(a)(1) stipulate three monetary thresholds beyond which a sale is subject to congressional disapproval.

Because the Chadha decision held the one-House veto unconstitutional, it was necessary to enact into law a constitutional mechanism which would give Congress a role in decisions related to arms sales. Therefore, I introduced in the House, and Senator CRANSTON iftroduced in the Senate, identical bills to provide for expedited procedure for joint resolutions of disapproval introduced pursuant to section 36(b) of the Arms Export Control Act. This bill became law earlier this year. Unlike concurrent resolutions, joint resolutions must go through the same procedure as bills. That is, they must be passed by both bodies and presented to the President for action, thus fulfilling the Constitution's presentment requirements.

As we all will readily recall, earlier this year Congress was engaged in a major battle with the administration over arms sales to Saudi Arabia. Originally the administration planned to propose a $1 billion arms sales package for that country. The package reportedly was to include Sidewinder, Stinger, and Harpoon missiles, Blackhawk combat helicopters, and other sophisticated equipment for F-5 and F-15 combat aircraft. Because of congressional opposition to the magnitude of the sale, the administration changed its plans and sent to Congress a $354 million arms sales package of Stinger, Sidewinder, and Harpoon missiles.

As the leader in the House of the fight to oppose this sale, I had the unique opportunity to view the intricacies of the legislative process as they relate to these important and controversial arms sales. What I saw gave me cause for great concern.

In the first round, both the House and Senate voted overwhelmingly to disapprove the missile sale to Saudi Arabia. In the House the vote on the resolution of disapproval was 356 to 62; in the Senate 73 to 22. Predictably, the President vetoed the resolution. However, after dropping the controversial Stingers from the package, and after unrelenting arm twisting on the part of the administration, the Senate failed to override the President's veto by only one vote.

In essence, this highly controversial arms sale to a country in perhaps the most volatile region of the world survived the legislative process with the support of only 14 percent of the House and one-third plus one of the Senate.

Clearly, the legislative process as it now stands is improperly weighted. That such controversial, important sales can survive with such scant congressional support makes a mockery of the legislative process and Congress' decisionmaking role in an area of such great importance to our national security and national interest. There must be a better way to make major foreign policy decisions.

The purpose of the legislation I am introducing today is to better enable Congress to fulfill its role in decisions pertaining to important arms sales, and to enable it to better execute its responsibilities in the foreign policy area. This bill would ensure that if major foreign policy initiatives like these controversial arms sales are to survive, they must do so with the support of a majority of the Congress, not a minority.

This bill would amend the Arms Export Control Act in two ways.

First, it would change the definition of sales which would be subject to congressional approval. The three thresholds the AECA stipulates beyond which a sale is subject to congressional disapproval are $14 million for major defense equipment, $50 million for defense articles or services, and $200 million for design and construction projects. Any sale above these levels requires formal notification of Congress, which may then act to disapprove a sale.

Under provision of this bill, Congress would continue to receive notification of all sales above these thresholds. What would change is the criterion governing which sales would be subject to congressional consideration. The bill, while still requiring notification for sales above the already mentioned thresholds, would completely eliminate the congressional review process for all sales of nonsensitive weapons and equipment. However, it would require that all sales of sensitive weaponry, no matter what the dollar amount, be subject to congressional review and action.

The bill defines sensitive weapons as:

Those items of types and classes currently used or to be used by the Armed Forces of the United States (other than the Army National Guard or the Air National Guard or a Reserve component of an Armed Force of the United States) or produced solely for export, as follows:

(1) Turbine-powered military aircraft; rockets; missiles, anti-aircraft artillery and associated control, target acquisition and electronic warfare equipment and software;

(2) Helicopters designed or equipped for combat operations;

(3) Main battle tanks and nuclear-capable artillery; and

(4) Submarines, aircraft carriers, battleships, cruisers, frigates, destroyers, and auxiliary warships.

The purpose of this change is to focus the congressional review system where it should be focused—on especially important and controversial arms sales—while allowing the executive branch to proceed unencumbered on more routine sales.

Second, this bill would change the mechanism of congressional approval or disapproval of arms sales. Present law distinguishes two categories of nations. The first are NATO and NATO member countries, the Anzus countries, which are Australia and New Zealand and Japan. Because the strong presumption in the case of sales to any of these countries is that Congress will consider them favorably, the AECA provides a shorter review period of 15 days for sales to them.

This bill would maintain the favored standing of sales to these countries, and would add "any country which is a party to the Camp David accords or an agreement based on such accords." That is, both Egypt and Israel would be added to the above list of nations.

Thus, this legislation provides that nations with favored standing regarding arms sales are those with which we are formally allied and those which are the two principal recipients of American military aid. There is a historical consensus regarding U.S. arms transfers to these nations. This bill would continue to reflect a presumption in favor of such transfers, which would continue to be subject only to a joint resolution of disapproval.

What would change under this legislation is the procedure for governing the sale of highly sophisticated weaponry to all other nations. For them, a new procedure would be established requiring affirmative congressional action to approve any major sales. This would mean, in essence, that for these other nations there would be no presumption of favor of any such transfer.

Thus, the proposed transfer of sophisticated U.S. arms would have to be approved by a majority of both Houses, rather than the currently required one-third plus one in either House.

As in the present law, however, there would be a provision allowing the President to circumvent the requirement of congressional approval if he certifies "that an emergency exists which requires the proposed sale, export, lease, or loan, as the case may be, in the vital national security interests of the United States."

In summary, this bill completely removes all nonsensitive sales from the need for congressional approval, allowing the executive branch to act immediately on certain arms sales. Where approval is required, this bill provides that a joint resolution of approval will be subject to expedited procedure, enabling prompt consideration by both Houses. These procedures should allow for swift dispensation of both noncontroversial and controversial sales, while allowing Congress to focus its attention on those of special foreign policy and national security significance.

Mr. Speaker, this is an important piece of legislation which will ensure Congress its rightful and constitutional role in the consideration of matters of national security and national interest, and in the formulation of foreign policy. Let those nations that wish to purchase sophisticated arms from the United States be under no illusion that the Executive can make promises of sales, on his own, without input from Congress. Let them understand that the President can no longer act on matters of great foreign policy and national security importance without congressional approval. Whether the Executive likes it or not, Congress is an equal partner in the formulation of foreign policy. This bill would enhance our ability to fulfill our responsibilities and obligations to this Nation to carry out this important role.

I hope my colleagues will join me in supporting this legislation.

H.R. —

A bill to require specific congressional authorization for certain sales, exports, leases, and loans of defense articles, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Arms Export Reform Act of 1986".

SEC. 2. (a) Notwithstanding any other provision of law, in the case of—

(1) any letter of offer to sell under the Arms Export Control Act,

(2) any application by a person (other than with regard to a sale under section 21 or 22 of the Arms Export Control Act) for a license for the export of, or

(3) any agreement involving the lease under chapter 6 of the Arms Export Control Act, or the loan under chapter 2 of part II of the Foreign Assistance Act of 1961, to any foreign country or international organization for a period of one year or longer of,

any item described in subsection (d), before such letter of offer or license is issued or before such agreement is entered into or renewed, the President shall submit to the Speaker of the House of Representatives and to the chairman of the Committee on Foreign Relations of the Senate a numbered certification containing—

(A) in the case of a letter of offer to sell, the information described in section 36(b)(1) of the Arms Export Control Act and section 36(b)(2) of such Act, as redesignated by section 3(a)(2) of this Act,

(B) in the case of a license for export (other than with regard to a sale under section 21 or 22 of such Act), the information described in section 36(c) of such Act, as amended by section 3(b)(1) of this Act, and

(C) in the case of such an agreement, the information described in section 62(a) of such Act unless section 62(b) of such Act applies,

without regard to the dollar amount of such sale, export, lease, or loan.

(b) Notwithstanding any other provision of law and except as provided in subsection (e)—

(1) no letter of offer may be issued under the Arms Export Control Act with respect to a proposed sale,

(2) no license may be issued under such Act with respect to a proposed export, and

(3) no lease may be made under chapter 6 of such Act and no loan may be made under chapter 2 of part II of the Foreign Assistance Act of 1961,

of any item described in subsection (d) to a country or international organization (other than a country or international organization described in subsection (c)) unless the Congress enacts a joint resolution or other provision of law authorizing such sale, export, lease, or loan, as the case may be.

(c) Except as provided in subsection (e), no such letter of offer or license may be issued and no such lease or loan may be made with respect to a proposed sale, export, lease, or loan, as the case may be, of any item described in subsection (d) to the North Atlantic Treaty Organization (NATO), any member country of such Organization, Japan, Australia, New Zealand, or any country which is a party to the Camp David Accords or an agreement based on such Accords, if the Congress within fifteen calendar days after receiving the appropriate certification enacts a joint resolution prohibiting the proposed sale, export, lease, or loan, as the case may be.

(d) The items referred to in subsections (a), (b), and (c) are those items of types and classes currently used or to be used by the Armed Forces of the United States (other than the Army National Guard or the Air National Guard or a Reserve component of an Armed Force of the United States) or produced solely for export, as follows:

(1) turbine-powered military aircraft; rockets; missiles; anti-aircraft artillery, and associated control, target acquisition and electronic warfare equipment and software;

(2) helicopters designed or equipped for combat operations;

(3) main battle tanks and nuclear-capable artillery; and

(4) submarines, aircraft carriers, battleships, cruisers, frigates, destroyers, and auxiliary warships.

(e) The requirements of subsections (b) and (c) shall not apply if the President states in his certification that an emergency exists which requires the proposed sale, export, lease, or loan, as the case may be, in the vital national security interests of the United States. If the President so states, he shall set forth in the certification a detailed justification for his determination, including a description of the emergency circumstances which necessitate the immediate issuance of the letter of offer or license for export or lease or loan and a discussion of the vital national security interests involved.

(f)(1) Except as otherwise provided in this paragraph and paragraph (3), any joint resolution under subsection (b) or (c) shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976. For purposes of consideration of a joint resolution under subsection (c)(1), the motion to discharge provided for in section 601(b)(3)(A) of such Act may be made at the end of 5 calendar days after the resolution is introduced. If a joint resolution under subsection (b) deals with more than one certification, the references in section 601(b)(3)(A) of such Act to a resolution with respect to the same certification shall be deemed to be a reference to a joint resolution which relates to all of those certifications.

(2) For the purpose of expediting the consideration and adoption of joint resolutions under subsections (b) and (c), a motion to proceed in the House of Representatives to the consideration of any such resolution after it has been reported by the Committee on Foreign Affairs shall be highly privileged.

(3) If the text of a joint resolution under subsection (b) contains more than one section, amendments which would strike out one of those sections shall be in order, but amendments which would add an additional section shall not be in order.

(4)(A) The joint resolution required by section (b) is a joint resolution the text of which consists only of one or more sections, each of which reads as follows: "The proposed to described in the certification submitted pursuant to section 2(a) of the Arms Export Reform Act of 1986 which was received by the Congress on (Transmittal number) is authorized.". with the appropriate activity, whether sale, export, lease, or loan, and the appropriate country or international organization, date, and transmittal number inserted.

(B) The joint resolution required by subsection (c) is a joint resolution the text of which consists of only one section, which reads as follows: "That the proposed to described in the certification submitted pursuant to section 2(a) of the Arms Export Reform Act of 1986 which was received by the Congress on (Transmittal number) is not authorized.", with the appropriate activity, whether sale, export, lease, or loan, and the appropriate country or international organization, date, and transmittal number inserted.

SEC. 3. (a) Section 36(b) of the Arms Export Control Act is amended—

(1) by striking out the last two sentences of paragraph (1) and by striking out paragraphs (2) and (3); and

(2) by redesignating paragraphs (4) and (5) as paragraphs (2) and (3), respectively.

(b) Section 36(c) of such Act is amended—

(1) by striking out "(c)(1)" and inserting in lieu thereof "(C)"; and

(2) by striking out paragraphs (2) and (3).

(c)(1) Section 62(a) of such Act is amended by striking out "Not less than 30 days before" and inserting in lieu thereof "Before".

(2) Section 63 of such Act is repealed.

(3) Section 64 of such Act is redesignated as section 63.

SEC. 4. The provisions of this Act shall apply with respect to any letter of offer or license for export issued, or any lease or loan made, after the date of enactment of this Act.

THE LEAGUERS CELEBRATE 40 YEARS OF HELPING THE YOUTH OF NEWARK

HON. PETER W. RODINO, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. RODINO. Mr. Speaker, this year marks the 40th anniversary of one of Newark's finest organizations dedicated to nurturing the city's greatest resource—its young people.

In 1946, a group of caring businessmen and professionals, led by Dr. Reynold Burch and his wife, Mary, established an organization aimed at providing educational, social, recreational, and cultural opportunities to black youngsters in need of a helping hand, a sense of direction.

At a time when our Nation paid pitifully little attention to the hopes and dreams of the black community, the Leaguers stepped in to fill that void and to provide scholarships, social activities, counseling, and job training to black youngsters in Newark.

I applaud the Leaguers—particularly its leaders, founders Mary and Reynold Burch, and executive director, Shiela Oliver—and their fine contributions to our community. Thanks to them, black youngsters in Newark will get the opportunity to make their dreams come true.

Mr. Speaker, I include the following article on the Leaguers, which was published by the Newark Star Ledger on August 18, 1986.

LEAGUERS HISTORY REFLECTS FOUR DECADES OF SOCIAL TRENDS AMONG YOUTH—DESPITE CHANGE, GROUP CONTINUES TO SURVIVE, GROW

(By Dan Holly)

Through the eyes of the Leaguers Inc., one gets a fascinating view of the changes in Newark, and perhaps society as a whole, over the past 40 years.

The organization has offered educational, social recreational and cultural programs to the city's youth for four decades, and its staff has been in a good position to judge social trends.

Perhaps the most notable trend—and the most depressing one to Shiela Oliver, the executive director—is that there has been little change, if any, in the conditions that prompted the group's formation.

And attitudes have changed for the worse, she said.

When the Leaguers was formed in 1946, in an effort to motivate black youths to pull themselves up from poverty, people placed more faith in the up-from-the-bootstraps philosophy, Oliver said.

There is still poverty, but the emphasis on "instant gratification" makes it more difficult to get youth to concentrate on their future, she now believes.

Glorification of materialism in the media, drug abuse and the breakdown of the family structure—all of these have "made it tough working with a population of young people," she said.

As the Leaguers prepares to celebrate its 40th anniversary in November—when the group will honor its most distinguished alumna, singer Dionne Warwick—the executive director rejoiced that the organization has not only survived, but is prospering. As another milestone, it moved in January into new headquarters at 731 Clinton Ave., a renovated supermarket.

Over the years, Oliver said, the Leaguers has had to keep pace with changing times and circumstances.

"If you look at our 40-year history, it can be divided into three segments," she noted. "In the first 15, we were staunchly, staunchly into scholarships, pre-college preparation and broadening people socially," she said.

"When we moved into the 1960s, the Leaguers, because of the environment it was located in, began to reassess itself. We thought we needed to become community advocates, perhaps become issue-oriented."

At that time, she said, the group's board of trustees experienced a change, going from fewer businessmen and professionals to "grass roots," she said. One sign of the times, in 1969, was the establishment of a black studies hall in where Afro-American history was taught.

"In the '60s, we began to focus on systemic problems, but we focused so much on the system that we drew attention away from the fact that every individual is responsible for what becomes of him or herself," she said.

The moving force behind the Leaguers always has been its founder, Mary Burch, whose motto is "opportunity through education." She and her husband, Dr. Reynold Burch, for whom the new headquarters is named, were responsible for not only bringing in donations from institutions and wealthy individuals, but for establishing its philosophy and the tone given its programs and projects.

Mrs. Burch retired as executive director several years ago and named Oliver as her worthy successor.

Until the late 1970s, the nonprofit organization was funded totally by private donations, Oliver said. Now, it receives funding from the city, state and federal government. The program now has 46 staff members and serves 1,000 young people.

Today, the Leaguers serves many more people than the teenagers Mary and Reynold Burch first wanted to help find "self-realization, diligence and mature citizenship."

"What the past five years or so has shown us is that the Leaguers must begin to intervene at an earlier age," Oliver said.

As a result, preschool and afterschool programs for first- through sixth-graders have been established.

The Leaguers has also expanded its work into such areas as family counseling, employment and job training. And, the Clinton Avenue headquarters now serves as the senior citizen service center for the city's South Ward.

South Ward Councilman Donald Payne, a Leaguer alumni, credits the group with helping decide on a career in public service. He remembers his high school guidance counselor telling him that he had good "manual dexterity."

His experiences as a Leaguer, he said, had "a great deal to do" with his entrance into politics rather than some other field, he said.

"I remember how we all went down to the state Legislature in 1949," he said. "A bunch of black kids going to the Statehouse? In 1949 that was unheard of . . . They (the Burches) gave us a positive view about ourselves as young people."

Today's participants are just as fortunate.

Joanne Smith, a 16-year-old Vailsburg High School student, is spending the summer taking classes in music, recreation and career exploration.

As part of the program, she and her friends went to a taping of "Midday With Bill Boggs" in New York.

"That's an experience I'll never forget," she said.

N.Y. POST ON TARGET: DANILOFF AFFAIR A DISGRACE

HON. JIM COURTER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. COURTER. Mr. Speaker, the New York Post is absolutely correct to call the deal made for reporter Nicholas Daniloff "a national disgrace." I was astonished by the President's approval of the notion of any deal at all, and I hope that he moves immediately to rectify his mistake.

The forementioned commentary by the Post will be of interest to my colleagues.

[From the New York Post, Sept. 13, 1985]

THE DANILOFF AFFAIR: A NATIONAL DISGRACE

The deal that Washington made with Moscow to free Nick Daniloff is, from the American standpoint, an unmitigated disgrace. From the Soviet vantage point, the episode is a triumph.

The administration's natural desire to liberate an innocent American from a KGB prison cell reflected the sentiments of the nation at large—the concern of the American people for the captive journalist was real and heartfelt.

But permitting a linkage of any sort between the fate of Daniloff, an innocent victim of a KGB frame-up, and that of Gennady Zakharov, an accused spy, has had the inevitable effect of legitimating and rewarding Soviet coercion.

Nick Daniloff is no spy. The U.S. knows this. Moscow knows it. And President Reagan, in a rare personal letter to Mikhail Gorbachev, said—indeed pledged—just that: Daniloff is not an American agent.

What he is—as Secretary of State George Shultz reiterated yesterday—is a hostage; an American citizen seized by the Kremlin in order to force Washington to alter its conduct toward an accused Soviet agent.

And that, in fact, is just what happened. Moscow won.

This case may well instruct future adversaries as to how and why—when dealing with the U.S. government—hostage-taking can work.

Indeed for Shultz—in the course of explaining what Washington will do with Zakharov, in return for Daniloff's release—actually to have acknowledged that the U.S. government still considers Daniloff a hostage, is nothing short of extraordinary.

It represents a virtual invitation to Moscow to take an American hostage—a journalist, a ballet dancer, whatever—any time the FBI nabs a Soviet spy over here.

The only thing more extraordinary, in this whole affair, is the Soviet Union's sheer gall—not to speak of the U.S. government's abject capitulation.

All this from an administration headed by Ronald Reagan? Jimmy Carter might well have showed more backbone.

The details of the U.S.-Soviet deal are of little consequence—though it's interesting to note that Washington agreed, not just to a linkage between the two cases, but to absolutely parity: Daniloff to the custody of his ambassador, Zakharov to the custody of his.

A perfect equation—between a veteran correspondent for *U.S. News and World Report* and a Soviet UN employe who'd been paying thousands of dollars, over several years, for what he believed to be classified military documents.

There may well be, down the road, an attempt by the U.S. to cloud the transaction: to trade Zakharov for, say, a famous Soviet dissident (with Nick Daniloff's return home, a sidebar to the swap).

But who, even then, will be fooled by the camouflage? What happened in this affair is plain.

The only thing left to hope for, in this whole unhappy business, is that Washington's surrender was prompted—largely, at least—by humanitarian considerations. Let's hope, in other words, that Daniloff's personal wellbeing was the administration's dominant concern.

That, to be sure, would be disquieting in itself. But not nearly so troubling as the possibility that Washington's capitulation was animated by a desire not to scuttle the Shultz-Shevardnarze talks—or, heaven forbid, the Great Event: the Reagan-Gorbachev summit.

For if the administration is so anxious for a U.S.-Soviet diplomatic rapprochement that it's prepared to abandon principle altogether—*as well as* any sense of *realpolitik*—then the ship of state is indeed in dire straits.

THE D.C. AIDS INSURANCE ACT IS ANTI-CONSUMER

HON. WILLIAM E. DANNEMEYER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. DANNEMEYER. Mr. Speaker, I commend this letter to my colleagues for their review:

COMMITTEE AGAINST D.C. ACT 6-170—OPEN LETTER TO MEMBERS OF CONGRESS

DEAR CONGRESSMEMBER: As co-sponsors of the proposed referendum to reject D.C. Act 6-170, the "AIDS Insurance Act", we would like to urge the Congress to take appropriate legislative action to reject the AIDS Insurance Act for the following reasons:

I. The AIDS Insurance Act is anti-consumer:

D.C. Act 6-170 basically forces insurers to treat persons in high risk categories for AIDS as standard risks, even though persons testing positive for the AIDS antibody are at considerably higher risk for premature death and costly medical care. (E.g., a recent Center for Disease Control study reported in the Progressive Review (formerly known as the D.C. Gazette) finds that the per patient hospital cost for AIDS averages $147,000.)

Requiring insurers to treat persons at high risk for AIDS as standard risks will force insurance rates up. Low and moderate income persons will, as a result, either be forced to "go bare" (do without insurance) or to pay more in order to subsidize AIDS, so they can provide themselves and their families with insurance protection.

D.C. Act 6-170's draconion penalties—up to $10,000 *per day* for insurers (a cute legal fiction whereby each day a violation continues, even while it is being litigated, counts as a separate violation)—and the actuarial uncertainties it poses (particularly for smaller companies), have forced several out of the District. This substantially reduces competition, resulting in higher prices, potentially poorer quality, and limited consumer choice. D.C. Act 6-170 is a consumer rip off!

II. D.C. Act 6-170 is discriminatory:

This Act treats AIDS—a disease typically contracted through illegal lifestyle choices (sodomy and intravenous drug use)—differently from the way insurers treat other diseases. By prohibiting insurers from denying insurance to high-risk persons and for five years from charging them higher rates, and by even prohibiting insurers from trying to ascertain whether an applicant is in a high-risk category, while continuing to permit insurers to engage in such practices in other areas (e.g., persons with diabetes or a family history of heart disease, smokers, drivers below age 25, etc.), D.C. Act 6-170 accords preferential treatment to persons at risk for AIDS.

Because a disproportionate number of AIDS patients in D.C. are white (about half in a city two-thirds black), the AIDS Insurance Act could have the effect of regressively redistributing income by having black folks subsidize whites. D.C. Act 6-170 is not race-neutral in its effects—it most painfully penalizes persons struggling up the economic ladder, trying to break out of poverty and welfare dependence, who need insurance protection, in D.C. a group which is overwhelmingly black.

By forcing insurance rates up, individuals and religious and other non-profit institutions which provide insurance coverage to their employees could be forced to subsidize a lifestyle they find objectionable on religious or ethical grounds. We believe this is contrary to the spirit of religious freedom so dearly embroidered into the American cultural fabric.

III. Congress, in fulfilling its constitutional responsibility to "exercise exclusive legislation in all cases whatsoever" over the District of Columbia (Article I, Section 8 of the U.S. Constitution), has ample grounds based on national interest for overturning the D.C. AIDS Insurance Act.

Preventing the discriminatory effects described in the preceding section from taking effect.

If affordable insurance becomes scarce in D.C., it may become difficult for the Federal Government to attract and hold qualified personnel. Members of Congress may even find their staffs having difficulties with insurance if costs go up too much—a possibility if D.C. becomes a mecca for persons in high risk categories.

If D.C. becomes a mecca for persons infected with AIDS and intravenous drug users, it will cease to be a place Americans from all over this country hold in high regard as their Nation's Capital and desire to visit as tourists.

In some quarters this bill is being touted as model legislation. Some suggest that Gov. Cuomo in New York is awaiting the outcome of Congress' legislative action on the D.C. AIDS Insurance Act before deciding whether to recommend something similar in New York. This bill has more than just local implications.

A legislative victory for the D.C. AIDS Insurance Act would send a very strange kind of message to the national public. Congress, which five years ago disapproved a D.C. Council-passed bill legalizing sodomy, would now authorize its subsidization—as well as the subsidization of intravenous drug use—the two most prevalent causes of AIDS accounting for 90 percent of total cases nationally.

We would like to draw a distinction between homosexuality and sodomy. Homosexuality is a state of the human condition. Irrespective of whether it is inherent, chosen freely, or some of both, just because one is homosexual does not mean that one has to sodomize, just as a never-married heterosexual does not have to fornicate. Whether Congress eventually prohibits discrimination against persons because of their sexual orientation remains for the future to tell. But, for Congress to implicitly legitimize sodomy by letting D.C. Act 6-170 stand before barring discrimination based on sexual orientation puts the cart-before-the-horse to say the least. It issues the contradictory message that sodomy is all right, even though homosexuality has no legal sanction.

IV. D.C. Act 6-170 is rife with technical problems:

Part of the reason D.C. citizens did not catch on to this bill until it had passed is because the title and "short title" ("summary statement" would be a better term than "short title") are vague and misleading. (The title and "short title" are all that are listed in the "Council Calendar of the Week" mailed out to Advisory Neighborhood Commissioners, civic leaders, etc., and very often are all that active citizens have available to them to use to determine whether or not to pursue an issue since they could not possibly request and digest copies of every bill in the Council.)

The Act's title, "Prohibition of Discrimination in the Provision of Insurance Act of 1986" hardly prohibits most forms of discrimination. Though its title gives no indication of this, it only prohibits certain alleged forms of "discrimination" as relates to AIDS.

The Act's "short title" which summarizes the bill addresses two points—prohibition of testing and exclusion of benefits. It gives no hint to the average reader of the "Council Calendar of the Week" that it also prohibits taking demographic, personal, and other non-medical statistical factors (i.e., "age, marital status, geographic area of residence, occupation, sex, sexual orientation, or any similar factor" to quote the Act's language) into account, or that it prohibits for five years insurers charging differential premiums for persons in high-risk categories, or that it, after five years, places additional regulatory obstacles before insurers requesting differential premiums.

In their lawsuit against the referendum, the plaintiffs (who include the Act's sponsor, D.C. Council member John Ray) even concede that the bill's short title is "inaccurate and misleading". (See attached excerpt from court filing.) The summary statement ultimately adopted by the Court is widely different from the Council's language which was never seriously considered by any of the parties to the case based on their presentations. (See sample petition form side one also attached.)

If citizens can be required to have an accurate and impartial summary statement before the matter can be placed before the electorate, is it not only fair that the Council be required to do the same before it passes legislation and transmits it to Congress. Too often the Council makes rules for everybody else, while exempting itself. This "don't-do-as-I-do, do-as-I-say" attitude is the kind of irresponsible exercise of power that Congressional review was intended to check.

In their lawsuit, Council member Ray, et al. sought to block the referendum by claiming D.C. Act 6-170 is part of the D.C. Human Rights Act, and, therefore, not proper subject for referendum, despite the fact that the Act is codified in the insurance code and contains no provision that it is part of the Human Rights Act. Clearly, Congress is being asked to buy a "pig-in-a-poke".

We do not wish to imply that these anomalies represent any conscious effort by the D.C. Council to fool the public. Rather, we raise these concerns to demonstrate that D.C. Act 6-170 is poorly crafted legislation and merits rejection on Technical and procedural—as well as substantive—grounds. That D.C. citizens have doubts about this legislative concoction is evidenced by the fact that in the two brief weeks referendum petitions were being circulated, approx. 4,000 signatures were gathered. At this rate, had we had the six months initiative petitioners would be given, we would have accumulated 50,000 signatures—four times the required number!

V. The AIDS Insurance Act is a slap in the face to Congress for rejecting the "Sex Reform Act" in 1981:

In 1981 the D.C. Council passed a bill to recognize the notion that a husband could rape his wife. Slipped into the bill was an obscure rider repealing the legal prohibitions on sodomy and fornication. Religigus and civic leaders petitioned Congress for disapproval of the legislation and the House of Representatives (in pre-Chada days when a one-House veto sufficed for disapproving D.C. criminal code changes) decisively voted to reject the Council-passed bill. This year, the D.C. Council passes a law saying insurance companies have to provide insurance to high-risk persons at standard rates and everybody else has to pay for it, even while continuing to permit insurers to deny benefits and charge higher rates to law-abiding applicants for a variety of conditions—including those the applicant has no ability to control. Congress as an institution ought act with consistency. Congress cannot vote to criminalize sodomy, as it did five years ago, and turn around and sanction subsidizing its consequences—particularly in a manner which accords special preference to sodomy-related conditions. Congress will be the laughing stock of the District Building if it fails to reject the AIDS Insurance Act, and may face further legislation in the same vein, like a ressurrected "Sex Reform Bill".

We do not petition Congress for redress of grievances in this matter lightly and with-

out forethought. We recognize homerule was Congress' sincere attempt to begin a gradual process of ending colonial governance of the Nation's Capital which would put us on the path to full self-determination at some later juncture. It is for this reason that we sought to undo the AIDS Insurance Act through local mechanism, first approaching the Council and asking its members to support action to remand the matter to the electorate, and, stiffly rebuffed there, the Board of Elections and Ethics seeking referendum.

We gave the Mayor and all Councilmembers signed copies of the attached letter. We verbally suggested to Councilmember Ray that Council action calling the bill back would prevent whatever embarrassment might befall homerule by Congresssional disapproval. The Councilmember brushed aside our proposal by pointing out "Congressional disapproval is part of homerule.". While at first astounded by this observation, later reflection indicates its accuracy. Congressional disapproval was part of the package D.C. voters endorsed in the Homerule Referendum; indeed many of those desiring fuller self-determination (Statehood) voted against the Homerule Referendum.

In retrospect we can see that homerule was poorly structured—it ignored the Founding Fathers' guiding wisdom and 200 years of subsequent history. Where national and State constitutions have sanctioned division of power between Federal, State, and local government levels, and established large bi-cameral legislatures, Congress vested the usual powers and legislative scope of a state legislature and a modern big-city council with some Federal responsibilities in a single legislative body one-third the size of the nation's smallest lower house in the nation's smallest state! The Founding Fathers, who realized that no person's property or rights are secure so long as the legislature is in session, structured inefficiencies and checks-and-balances into legislative bodies—very few of which Congress included in the D.C.'s legislature, modelling it after a standard city council.

The Founding Fathers were very concerned that the system they were crafting ought have ample checks-and-balances, even though they had little concern for, and some opposed, notions of universal suffrage which have become accepted at subsequent junctures in American history. A system lacking proper checks-and-balances is clearly the greater anathema to the Founding Fathers. Yet, except for Mayoral veto, itself subject to Council override, Congressional review is virtually the only check-and-balance on a system with scarce few. To insure that there is some check-and- balance in the system Congress must, from-time-to-time, review and reject D.C. legislation on its merits. To fail to do so accords the kind of unbridled power to the D.C. Council that the Founding Fathers would have abhorred.

Homerule is not an end in itself; it is rather a means to achieve local self-determination and universal suffrage. Yet, it is the D.C. Council that stacks the referendum process against the electorate by requiring the same number of signatures be gathered in the couple of weeks or months of Congressional review to stop a Council action as petitioners for initiative would have six months to gather. It is the D.C. Council whose referendum law excludes major categories of legislation ("human rights" and budgetary matters) from the referendum process. And it is the city council whose members go to court seeking to block citizen efforts to carry ballot measures to the electorate so there can be real self-determination in this city.

When the city politicians cry "Homerule", these cries should be seen not as advocacy for universal suffrage or local self-determination, but rather as bids for frustrating any effort to check the Council's unbridled power. Such cries should not cower Congress into acquiescing to the AIDS Insurance Act. The "Homerule Argument" is not an empty drum which beaten upon makes an enormous noise, but which inside is completely hollow. Congressional review is an integral and indispensable part of homerule as now structured.

Indeed, Congressional review is necessary to prevent a civic abomination—a legislature lacking check-and-balance. Sen. Helms, by successfully sponsoring Senate action attaching to the Debt Ceiling Bill language sufficient to reject D.C. Act 6-170, has afforded Congress the opportunity to stop the AIDS Insurance Act. We urge all members of Congress to support Sen. Helms' amendment, and any other action that may be put forward to reject D.C. Act 6-170, the AIDS Insurance Act.

Respectfully,

REV. JOHN D. BUSSEY.
DINO JOSEPH DRUDI.

SOVIET CANCER PATIENTS SEEK RIGHT TO TREATMENT

HON. JAMES J. FLORIO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. FLORIO. Mr. Speaker, my recent visit to the Soviet Union included a number of meetings with Soviet refuseniks that continue to fight for the right to leave the Soviet Union and join their families in circumstances where they can live in freedom. My meeting with a group of cancer victims and their families was one of the most moving experiences of the entire visit and I wanted to share with my colleagues my impressions of this meeting with a group of very courageous individuals.

Inna Kitrosskaya-Meiman, Tatjana Kheifetz-Bogolmonaya, and Benjamin Charny are not unique in their long-term efforts to obtain visas from the Soviet Government in order to emigrate and join families and friends living in Israel and the United States. Their tragedy, shared by thousands of Soviet Jews in similar straits, is further compounded by the fact that all three have been stricken with serious forms of cancer while waiting for visas that never come. All three have some hope of further treatment in the West where there has been significant progress in successfully treating some forms of cancer. All three have, by necessity, undergone operations and painful treatments that have not worked and have exacerbated other ailments. All three have repeatedly applied to the OVIR for visas to emigrate but have been repeatedly denied. Yet all three are continuing their efforts to leave the Soviet Union and show their courage and humanitarianism by serving as models for other refuseniks.

I returned firmly convinced that the only way to pressure the Soviet authorities to allow these individuals the right to emigrate to seek further treatment and the right to be reunited with their families at such a difficult time is to ensure that international attention be brought to this situation and that government leaders hold the Soviet authorities accountable for their lack of action.

I would like to direct the attention of my colleagues to a news conference held last week on Capitol Hill to publicize the plight of these victims of a cruel regime. Several members of the other body were joined by the families of the refuseniks as well as by two National Cancer Institute physicians and the chief of the U.S. delegation to the International Conference on Security and Cooperation in Europe. They were able to receive a call from several of the patients calling from Moscow.

I wanted to share with my colleagues a Washington Post article which details this conference. I call attention to this situation in order to underscore the tragedy of the system the refuseniks face daily—a system that is so rigid that even a life-threatening disease such as cancer and the prospect of better treatment is not enough to convince the Soviet authorities that the freedom of movement and emigration is essential. The article follows:

[From the Washington Post, Sept. 12, 1986]

A REFUSENIK CANCER WARD—PHONE CALL TO UNITED STATES FROM AILING SOVIETS UNDERSCORES BATTLE OF DISEASE AND POLITICS

(By Cristine Russell)

Until the phone rang, it was a standard sort of Washington news conference in a crowded Senate office building room. Eight Senators, joined by a U.S. ambassador and top cancer researchers, had come to publicize the plight of five Soviet citizens with advanced cancer who have been refused permission to join their families and seek treatment in the West.

Several of the family members, who had flown in from California, New York and Massachusetts, sat quietly on folding chairs nearby. But the statements stopped and the tears began when Tatyana Bogomolny and several of the other patients called from her Moscow apartment.

It was early evening there, lunchtime here, as the 47-year-old breast cancer patient began an emotional talk with her father and sister, their conversation switching frequently between English and Russian.

"How do you feel?" asked Natasha Sverbilov, now of San Francisco. "I'm trying to be brave . . ." said Bogomolny, who underwent a mastectomy last year and also had chemotherapy once the cancer was found to have spread. "The best cure for us would be to be reunited with our families," she said.

Bogomolny and the other cancer patients are Jewish refuseniks who had first been denied permission to emigrate from the Soviet Union before they became seriously ill, and continue to be turned down.

They went public with their problems in a Moscow news conference last June and since then support has grown across the United States and Canada, spearheaded by physicians and politicians.

"Their situation is deadly urgent," said Dr. Gerald Batist, a cancer researcher from Montreal who examined some of the patients on a trip to the Soviet Union last spring and has since founded the International Cancer Patients Solidarity Committee on their behalf.

Batist said that, as cancer patients, they deserve the right to a second medical opinion and possible experimental therapies that might not be available in the Soviet Union. And, he added, "they have a right to live in a supportive environment in facing the real possibility of death. This means being with their families."

He was joined by two National Cancer Institute physicians, Dr. Bruce Chabner, head of the division of cancer treatment, and Dr. Steven A. Rosenberg, the surgeon spokesman for the team that treated President Reagan for colon cancer last year and the developer of a highly experimental new immunolgical cancer therapy.

"They should be allowed to leave, while there is still time," said Chabner. A number of American and Canadian medical centers have offered free medical care, said Batist.

Bipartisan Senate supporters from Massachusetts, California, New Jersey, Colorado, New York, Illinois, Arizona and other states largely stressed the need to place humanitarian concerns above politics.

"We'd like to put aside global politics," said Sen. Frank R. Lautenberg (D-N.J.) "The request is very simple: Give them a chance to live."

"We're not talking about politics . . . What we're talking about is health and family," said Sen. Pete Wilson (R-Calif.).

But Sen. Alfonse M. D'Amato (R-N.Y.) and Ambassador Warren Zimmerman, chief of the U.S. delegation to the international conference on security and cooperation in Europe later this year, spoke of possible linkage of the cancer patients to other issues. "When we get to Vienna, we will put this case in the forefront of our efforts in dealing with the Soviets," said Zimmerman, charging the Soviets with breaking the Helsinki accords' commitment to "reunification of families."

Tatyana Bogomolny was denied permission to leave as recently as June, said her sister Natasha Sverbilov. She noted that Tatyana's husband, Benjamin, who has sought to leave since 1966, has even been named in the "Guinness Book of World Records" as the Russian who has waited longest for an exit visa. Meanwhile, 26 of their relatives have been allowed to go, leaving the couple alone to cope in dealing with her illness, said Sverbilov. "She is in a very stressful condition."

The other Soviet cancer patients listed in a new appeal from Lautenberg and other senators sent yesterday to Soviet leader Mikhail Gorbachev include:

Benjamin Charny, 48, of Moscow, who has a skin cancer called malignant melanoma, a tumor on his neck and a serious heart condition.

Inna Meiman, 53, of Moscow, who has cancer of the spine. She reportedly has undergone four operations in the last three years and is being treated with chemotherapy; her tumor is considered inoperable in the Soviet Union. She is married to human rights activist and mathematician Naum Meiman.

Rimma Bravve, 31, of Moscow, has advanced ovarian cancer now considered untreatable there.

Leah Mariasin, of Riga, Latvia, who has had several tumors since 1980.

In addition, Lautenberg said a 7-year-old Odessa boy, Edward Erlikh, is dying of leukemia and needs a bone marrow transplant. He said the boy's New York relatives have offered to pay for it and care for him.

DONALD BECKLEY: PEACE CORPS VOLUNTEER OF THE YEAR

HON. THOMAS J. TAUKE

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. TAUKE. Mr. Speaker, it is with great pleasure that I rise today to honor Donald Beckley, a constituent of mine from Bellevue, IA. Don is one of the three Peace Corps volunteers who have been named "Volunteer of the Year" and will be honored this weekend during ceremonies celebrating the Peace Corps' 25th anniversary.

Don applied for a Peace Corps post in May 1983. A year later he won his assignment and sold his auto and farm equipment repair shop. On July 1, 1984, Don arrived in Chikai, Niger, the village he has called "home" for the past 2 years.

During those 2 years, Don has learned to dine on camel and has become accustomed to chasing scorpions. He has suffered two bouts of amoebic dysentery.

His primary work has been on a project originally begun in 1975 by a Canadian priest. "Project Tapis Vert"—Project Green Carpet—is aimed at turning sub-Sahara sands into a green area for the farmers and nomadic herders who live there. Although Don's main goal was to teach the villagers to maintain their five automobiles and other machines, he has helped install six windmills for pumping water, an irrigation system, and a biogas unit that converts animal manure to methane gas.

And it is for this hard work that Don Beckley has been named the Peace Corps "Volunteer of the Year" from the Africa region.

Over 120,000 individuals from across America, from every walk of life and of every age have served as Peace Corps volunteers in over 90 countries since its inception in 1961. There are currently more than 5,700 volunteers serving in 64 countries.

Today, my home State of Iowa has nearly 125 active Peace Corps volunteers. Since 1961, some 675 Iowans have served in the Peace Corps. Don Beckley exemplifies not only his fellow Iowans, but the more than 120,000 individuals who, during the past 25 years, have served as Peace Corps volunteers. And, of the nearly 6,000 volunteers presently serving in 64 countries, we in Iowa are deeply honored that Don has been chosen to receive this highest of Peace Corps recognitions.

Don Beckley, who will return to Chikai, Niger on October 1, understands fully that the goals of the Peace Corps—to promote a better understanding of Americans abroad and greater knowledge of the Third World here at home—are but a prerequisite for a peaceful and better world.

Don's parents, Bob and Mary, and several of his 11 brothers and sisters are visiting Washington this week to attend the ceremonies honoring their son and brother. I know that they are all singularly proud of Don's achievements. I join with them and many other Iowans in paying my utmost respect to Don for the fine work he has accomplished for his country and the high honor being bestowed upon him.

Mr. Speaker, I am submitting for the RECORD the following article from the August 10, 1986 Dubuque, IA Telegraph Herald which details Don's 2 years in the Peace Corps.

The article follows:

MECHANIC GETS PEACE CORPS AWARD

[By Ross Blalema]

BELLEVUE, IOWA.—Don Beckley of rural Bellevue, a tall lanky Iowa farm boy, always had a soft spot in his heart for the television images of starving people shown in ads for charities.

So he sold his auto and farm equipment repair shop to his older brothers, and became a Peace Corps volunteer in Niger, Africa, to help subsistence farmers there.

While dining on camel meat, chasing scorpions from camp and suffering two bouts of amoebic dysentery during the 25-month assignment, he never imagined he would be chosen as one of three Peace Corps award winners worldwide.

Peace Corps officials named Beckley, 27, Volunteer of the Year from the Africa region in July.

As the mechanic-turned-humanitarian puts it: "I just can't believe that a country boy like me without a college education can win an award like that, but I guess I can. The only way I could get my name in the paper before was with a speeding ticket, but now I have no problem."

Beckley, his parents, Bob and Mary Beckley of rural Bellevue, and a few of his 11 brothers and sisters will travel to Washington, D.C., next month to participate in the Peace Corps' 28th anniversary ceremony. Beckley and two other volunteers—chosen from about 6,000 workers serving in 83 countries—will receive their awards on Sept. 21.

The next day he is scheduled to meet President Reagan in the Rose Garden for congratulatory words. Beckley seems calm about the meeting.

"I know a lot of Iowa farmers that have a message for me to give him," he says with an easy grin.

The former 4-H leader applied for a Peace Corps post in May 1983 and was accepted in summer 1984. After a five-day training session in Philadelphia, he flew to Niger (pronounced NI-JEAR), a former French colony now ruled by military dictatorship. He began work there July 1, 1984.

Beckley was a cog in a project begun in 1975 by a Canadian priest. "Projet Tapis Vert" (Project Green Carpet) is aimed at turning sub-Sahara sands into a green area for the farmers and nomadic herders. Recent droughts have killed many of the herders' goats and cattle, and forced the nomads to become beggars in Niamey, the largest city near Beckley's home village of Chikaj.

Although Beckley's main goal was to teach the villagers to maintain their four Toyota Land Cruisers, one British Land Rover and other machines, he also helped install six windmills for pumping water, an irrigation system, a bio-gas unit that converts-animal manure to methane gas, and acres of wire fences.

His toughest job was learning French which he started during a three-month crash course in Niger, and learning the native language of the House, the tribe he primarily helped.

He blamed the food and water for his dysentery bouts. To avoid the spicy, sometimes contaminated food, he used his Yankee in-

genuity in an offbeat way. The villagers frequently asked him to repair their motorcycles, and Beckley performed the work in exchange for chickens.

He bought a leg of meat once in a market, and didn't learn until after the purchase that it was camel, not beef.

"You've got to cook the heck out of it," he says. He compares the taste to venison.

Because car parts are expensive (tires are $300 each and alternators are $450), Beckley and his chief trainee, Ibrahim Abdou, learned to use materials at hand for spot repairs. Beckley received a budget from the Peace Corps, and occasionally traveled to Niamey for vital car parts.

Volunteer John DeMarco, an electrical engineer from Canada, designed a system of hinges that would allow easier erection of the Nebraska-made windmills.

"You're forced to use your brain more than you ever were in the United States," Beckley says.

Although the Hausa farmers' techniques of donkey-drawn plows and hand cultivation won't help American farmers, Americans can learn something from the religious Hausa, he insists.

"The Muslims are really, really close to God," he says. "No matter how bad the situation is, they are still happy people."

The Northeast Iowa Technical Institute-Peosta graduate also admires the Hausa customs, which include a weekly tom-tom during which young men court women at a drum-accompanied dance. The men approach the dancing women and hold money to the women's foreheads. The men release the bills, and the women grab for the falling money to accept the date.

Beckley will return to Niger Oct. 1, and continue his work for three months. He doesn't regret joining the Peace Corps because it has prompted several job offers, but he does question trying to rapidly modernize a proud and colorful people.

His advice to other Peace Corps volunteers is: "Put your heart and soul in it. That's all you can do. Be honest with the people and it's going to come back to you tenfold. Don't be worried that you don't have enough education because if you have any education, you have more than they do."

PEACE CORPS

HON. THOMAS E. PETRI

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. PETRI. Mr. Speaker, since the Peace Corps was founded in 1961, over 3,000 citizens from the State of Wisconsin have served in that organization, helping to bring improved health, skills, and a better way of life to the underdeveloped world. It is with a great deal of pride that I can count myself in that number.

The Peace Corps isn't for everybody. But for those who want to offer help to others, and who want to learn more about themselves by meeting the challenges of life in distant lands, the Corps can provide one of life's most rewarding experiences.

From time to time, I have recommended that the people of Wisconsin's Sixth District consider service in the Peace Corps. Now that the Corps is celebrating its 25th anniversary, I am pleased to repeat that recommendation. And in honor of the Corps, I would like to insert in the RECORD at this point my weekly column of September 12, 1986. The column is entitled "The Toughest Job You'll Ever Love."

THE TOUGHEST JOB YOU'LL EVER LOVE

One of the most rewarding periods of my life was the time I spent as a Peace Corps volunteer in Somalia. Now, with the Peace Corps celebrating its 25th Anniversary this month, I'm happy to join with tens of thousands of former volunteers in praise of this valuable organization. And to those who have thought that they might like to join the Corps, I'd like to repeat the Corps' slogan. "It's the Toughest Job You'll Ever Love!"

The Peace Corps is looking for a wide range of volunteers with specific skills. Particularly needed are people with experience in special education, agriculture, forestry, math, and health.

Also, there is a wide range of additional assignments including: civil engineering; nutrition and home economics; the skilled trades such as auto/diesel mechanics, general construction, carpentry, and electricity; and business, such as accounting, cooperative formation, and general business management. U.S. citizens with a college degree or at least two years' experience in any of these or related fields are encouraged to apply.

Since 1961, over 120,000 Americans have served as Peace Corps volunteers in developing nations around the world. Currently, close to 6,000 volunteers serve in 62 countries. Peace Corps volunteers are tackling some of the most critical problems facing developing countries today.

In addition to the personal satisfaction gained from sharing their skills and energy with the people of the host countries, Peace Corps volunteers gain valuable career experience. And by facing the challenges of Peace Corps service, volunteers almost inescapably learn a great deal about themselves, and about others as well.

Although it is a volunteer program, there are substantial tangible benefits in Peace Corps service. Volunteers receive paid transportation to and from their assigned country, extensive training particularly in the language of the country, a monthly living allowance for expenses while in service, health care, vacation time and a readjustment allowance of $175 per month served payable upon completion of the two year assignment (approximately $4,200).

In addition, volunteers receive non-competitive eligibility for federal jobs for one year following service. This is a valuable benefit for those interested in federal employment upon return.

Any U.S. citizen with a commitment to helping others and a willingness to devote two years of his or her life to fulfilling that commitment is eligible to apply for Peace Corps service.

Although the minimum age is 18, very few applicants under 21 have the skills or experience to qualify for an assignment. But on the other hand, there is no upper age limit. Many seniors and retired people think the Peace Corps is exclusively for young people. But in fact that isn't so. The Peace Corps needs the skills and experience of older Americans.

For further information, write: Peace Corps Recruiting Office, Old Federal Building, Room 104, 212 Third Avenue, South, Minneapolis, MN 55401.

THE POLICE FOUNDATION

HON. PETER W. RODINO, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. RODINO. Mr. Speaker, I would like to pay tribute here to an organization that has been contributing to the whole realm of law enforcement issues since it was established 16 years ago. This is the Police Foundation, an organization dedicated to improving police work and public safety through a comprehensive program of research and experimentation.

Police work may be the most difficult and demanding of occupations. Police officers are putting their lives on the line day after day. So it is critical that we find ways to help the police carry out their work safely and productively. To assist the police really translates into a better and safer society for us all.

It is prescisely in this mission of improving American police work that the Police Foundation has excelled over the years. Through research and experimentation, the foundation has made significant contributions to the control of crime and the maintenance of public safety in the United States. In so doing, the organization has made police work more effective and productive—and our Nation a safer place to live.

Over the years I have had the great privilege of knowing the president of the foundation, Hubert Williams, who previously served as the police director in my hometown of Newark, NJ. Under his direction, the foundation has furthered its ouput of high quality material, and I congratulate him for its successes.

As chairman of the Judiciary Committee, I value the work produced by the Police Foundation. This organization is contributing to American life in a vitally important way that few others can match. The tangible results of the foundation's research—helping to save lives and reduce fear—are things every American can appreciate.

SALUTE TO PEACE CORPS

HON. JIM COURTER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 18, 1986

Mr. COURTER. Mr. Speaker, as one of five Members of the House who enjoyed the challenges of service in the Peace Corps before coming to Washington, I wish to salute the Corps for a quarter century of service to the world. The experiences the volunteers had and the efforts they made have had profound effects in many foreign countries. But they are as valuable to us here at home. We enjoy the benefit of the international good will Peace Corps volunteers engender. We also have among us 120,000 former volunteers, and through them we learn a great deal about the culture, geography, and interests of peoples living all over the world.

My own service began in 1967 in Venezuela. I was one of a group of city planners and

attorneys. In the town of Valera, volunteers such as myself worked at establishing a municipal tax system and improving the roads and sanitation systems. You could see the tangible changes we made, and you still can see them now. Over the years, I have looked back on my service in Valera with such pleasure that I have given a great deal of thought to rejoining the Corps some time after my 60th year.

It is good to know that more than 5,000 Americans are serving abroad this year, but I am troubled about what budget cuts may bring. Last year, the Congress saw fit to aim for 10,000 volunteers; today we have barely half that many, and there is talk of further reductions. Both my own Peace Corps experience and my judgments about America's foreign relations lead me to believe that the Corps is a splended medium of both foreign aid and public diplomacy, and we should do all that is necessary to enhance its strength.

HOUSE OF REPRESENTATIVES—*Friday, September 19, 1986*

The House met at 10 a.m. and was called to order by the Speaker pro tempore [Mr. FOLEY].

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
September 18, 1986.

I hereby designate the Honorable THOMAS S. FOLEY to act as Speaker pro tempore on Friday, September 19, 1986.

THOMAS P. O'NEILL, Jr.,
Speaker of the House of Representatives.

PRAYER

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Remind us, O gracious God, that we are all bound together in this covenant of life which You have freely given. As we become aware of this unity we possess and our common aspirations and shared values, make us more responsible to assist each other, to care for one another's needs, to use our resources for those less fortunate and to remember others in prayer and concern. Bless and encourage each person who seeks to use the gift of faith in acts and deeds of love. Amen.

THE JOURNAL

The Speaker pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed without amendment a bill of the House of the following title:

H.R. 4260. An act to provide the Small Business Administration continuing authority to administer a program for small innovative firms, and for other purposes.

The message also announced that the Senate had passed with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 2032. An act to amend the Securities Exchange Act of 1934 to provide improved protection for investors in the government securities market, and for other purposes;

H.R. 5175. An act making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 1987, and for other purposes;

H.R. 5205. An act making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1987, and for other purposes; and

H.R. 5234. An act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1987, and for other purposes.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4421) "An act to authorize appropriations for fiscal years 1987, 1988, 1989, and 1990 to carry out the Head Start, Follow Through, Dependent Care, Community Services Block Grant, and Community Food and Nutrition Programs, and for other purposes".

The message also announced that the Senate agrees to the amendment of the House to the bill (S. 1963) "An act to direct the Secretary of the Interior to convey certain interest in lands in Socorro County, NM, to the New Mexico Institute of Mining and Technology."

The message also announced that the Senate agrees to the amendments of the House to the joint resolution (S.J. Res. 207) "Joint resolution to designate November 1, 1985, as 'National Philanthropy Day'."

The message also announced that the Senate insists upon its amendments to the bill (H.R. 5175) an act making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 1987, and for other purposes, requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. SPECTER, Mr. HATFIELD, Mr. MATTINGLY, Mr. DOMENICI, Mr. LAUTENBERG, Mr. HARKIN, and Mr. STENNIS to be the conferees on the part of the Senate.

The message also announced that the Senate insists upon its amendments to the bill (H.R. 5205) an act making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1987, and for other purposes, requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. ANDREWS, Mr. COCHRAN, Mr. ABDNOR, Mr. KASTEN, Mr. D'AMATO, Mr. HATFIELD, Mr. CHILES, Mr. STENNIS, Mr. BYRD, and Mr. LAUTENBERG to be the conferees on the part of the Senate.

The message also announced that the Senate insists upon its amendments to the bill (H.R. 5234) an act making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1987, and for other purposes, requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. MCCLURE, Mr. STEVENS, Mr. LAXALT, Mr. GARN, Mr. COCHRAN, Mr. ANDREWS, Mr. RUDMAN, Mr. WEICKER, Mr. BYRD, Mr. JOHNSTON, Mr. LEAHY, Mr. DECONCINI, Mr. BURDICK, Mr. BUMPERS, and Mr. HOLLINGS to be the conferees on the part of the Senate.

WILLIAM B. PENNEKAMP

(Mr. NATCHER asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. NATCHER. Mr. Speaker, the House has lost one of its most able employees and the Office of Official Reporters one of its most valuable floor reporters with the passing on September 1 of William B. Pennekamp at the age of 58.

Bill had, as a highly experienced court reporter and expert Gregg shorthand writer, joined the House staff in 1974. He worked steadily until a brief illness this past summer which resulted in a diagnosis of cancer and his ultimate death just before the House was scheduled to resume its session after Labor Day.

Before coming to Washington, Bill had a long career as a court reporter, working as an official reporter in various jurisdictions, more recently as a reporter for the Court of Common Pleas in Cleveland, OH. He was a veteran of the U.S. Navy and following the Korean war had completed a tour of duty as a civil service appointee, serving in both Japan and South Korea. A native of Wisconsin, he graduated from high school and later from Gregg College in Chicago, where he received his training for the reporting profession. Before his work in Cleveland and his appointment in Washington, he had fulfilled court reporting assignments in Florida and Lincoln, NE.

Court and legislative reporters are often identified as quiet professionals

who perform their duties without fanfare. In that respect, Bill was typical, but in his competence and professional skill he was most atypical. He had, in his work with the House, acquired a high level of competence and special knowledge and his willingness to share it with younger, less experienced members of the staff earned him a reputation as a valuable team member.

Bill's legacy—the mark he left on the House—is epitomized by the printed words in volumes of the CONGRESSIONAL RECORD. The words and phrases of countless speeches and debates reached the pages of the RECORD through the conduit of Bill's interpretive mind and his fountain pen. And there is yet another mark of excellence he has left behind for us here in the Capitol. Bill had developed an interest in calligraphy, and after several years of instruction and practice, he eventually became so skilled that friends and acquaintances prevailed upon him to produce samples of his work.

In a lighter mood, Bill was fond of calling himself "just a country boy who can be easily confused," but those who knew him saw in him a delightful mixture of depth of character and simplicity.

His passing has left a void in the offices of the Official Reporters that can never be filled completely, and, Mr. Speaker, all who knew him are truly saddened at the loss of a real friend.

Mr. Speaker, I am attaching a copy of the obituary which appeared in the Washington Post, as follows:

William B. Pennekamp, 58, a shorthand stenographer with the U.S. House of Representatives, died of lung cancer Sept. 1 at his home in Alexandria.

Mr. Pennekamp was born in Tennyson, Wis., and served in the Navy. He was a shorthand stenographer in Florida, Korea and Japan before joining the stenographic reporting staff of the House of Representatives in 1974.

Survivors include four brothers, Lawrence, of Kieler, Wis, George, of Potosi, Wis., Joseph, of Cassville, Wis., and Ralph, of Edgerton, Wis.; and four sisters, Alice Pennekamp, Gertrude Reese and Ada Osterholz, all of Platteville, Wis., and Marie Van Natta of Belmont, Wis.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair wishes to announce that 1-minute speeches will be postponed until the end of the day.

EXTENDING DATE BY WHICH THE HOUSE MUST VOTE ON HOUSE JOINT RESOLUTION 723, COMPLYING WITH CERTAIN REQUIREMENTS OF BUDGET AND EMERGENCY DEFICIT CONTROL ACT OF 1985

Mr. COELHO. Mr. Speaker, I ask unanimous consent that the date by which the House must vote on House Joint Resolution 723, pursuant to section 254(a)(4) of Public Law 99-177, be extended until September 25, 1986, and that the joint resolution shall not be in order for consideration in the House unless called up by the chairman of the Committee on the Budget or his designee, or unless called up by the ranking minority member of said committee or his designee.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. MICHEL. Reserving the right to object, Mr. Speaker, I shall not object, but I think that we probably owe the House some explanation of what we are really doing here.

Mr. COELHO. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I yield to the gentleman from California.

Mr. COELHO. Mr. Speaker, basically as I understand it we are permitting the privileged status of this resolution to be extended until Thursday.

Mr. MICHEL. Mr. Speaker, I might say that it has been with the full discussion by both sides of the aisle by which we have come to this agreement. By the dates prescribed under Gramm-Rudman we were to have made a decision, come to some resolution, by Monday. I think that it is pretty well agreed on both sides that we really would prefer to have the reconciliation measure, at least have an attempt to resolve that, before making a determination on whether or not it really would be necessary for us to get to the point where we would have to sequester and all the other things that follow.

So this is really to the advantage of all of us. I think that if we agree to this unanimous-consent request, put that over until Thursday——

Mr. COELHO. That is correct.

Mr. MICHEL. Then in the meantime, as I understand, the distinguished majority leader is here, we would be taking up the reconciliation and the continuing resolution prior to consideration of this, and I think that that will then probably further be disclosed in a discussion of the program for next week.

Mr. COELHO. We will be taking that up on Wednesday.

Mr. MICHEL. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT AMENDMENTS OF 1986

The SPEAKER pro tempore. Pursuant to House Resolution 536 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 2482.

□ 1008

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 2482) to amend the Federal Insecticide, Fungicide, and Rodenticide Act, and for other purposes, with Mr. MCHUGH in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose on Thursday, September 18, 1986, title I of the text of H.R. 5440, which is considered as an original bill for the purpose of amendment, was open for amendment at any point.

Are there further amendments to title I?

Mr. DE LA GARZA. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I take this time to remind Members again of what I mentioned briefly yesterday before we started debate on this legislation. I get the feeling somehow that we cannot relate, as we speak of pesticides, insecticides, and so forth, to the extent to which what we are dealing with in this legislation is related to the whole food chain, to farmers, who are having a most difficult time, to the quality and type of food which is eventually available to the consumer, to the cost of that food as the consumer eventually gets it in the markets or in the restaurants, and to the protection of the ecological balance of the entire ecosystem basically.

I want us to think of that and not necessarily that we are thinking of chemical companies or formulators or applicators, or who buys or who does not buy or who registers or who does not register.

□ 1010

In the end we are speaking of the farmer and the costs and tools that he needs for the production of food and fiber which gives this country the best quality food in the world, in the history of the world for the lowest amount of disposable income per family in the world, in the history of the world. This fungicide, pesticide, rodenticide, these chemicals are part of the tools which the farmers use for that productivity, for that quality which you get at the store, that you get in a beautiful apple, or beautiful vegetables, or in cereals or other grains that you get, or the beef, or the lamb at the supermarket. It is not a miracle in itself. It is that you had a dedicated farmer who produced them.

He needed the tools and to have the tools, some of which could have dangerous consequences to the ecological

system, or to mankind, or the farmer himself, we need a regulator and we need to provide the basic law that regulates. So that is what we do here. We regulate from the registration, from the research, all the way to the final use.

I want our colleagues as they vote to understand, and hopefully support the committee who has dedicated itself to bringing to you the best legislation possible. As I mentioned, it is not perfect, because perfect legislation is an impossibility. But there are many technical areas that would be very difficult for a Member just to draft offhand an amendment. I would hope that Members would support the committee who has the technical language that will do what we hope is the intent of the vast sector of the population to give us that protection, to give us that safety, but yet to allow the farmer the tools to continue giving us that quality food at those prices that we have in this great country of ours.

Farmers are having a very difficult time. Since the Great Depression, this is probably the most difficult time agriculture has had. Without those tools it would be very difficult for many of them to survive.

So it is not the small and the big, it is not East and West, it is not North and South, but it is government's responsibility to work with the farmer, and it is our responsibility to see that we strike a balance between the need of the farmer, the collective need of society, and our responsibility as human beings to the protection of the ecosystem.

I hope Members will support the committee throughout the process during the day and that we can conclude this legislation today.

AMENDMENT OFFERED BY MR. MARLENEE

Mr. MARLENEE. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MARLENEE: Page 43, line 7, insert after "section 16(b)." the following new sentence:

"Notwithstanding any other provision of law, no attorneys fees or expenses shall be awarded for any civil action brought under this section for failure to meet deadlines."

Mr. BERMAN. Mr. Chairman, I reserve a point of order on the amendment.

Mr. MARLENEE. Mr. Chairman, what this amendment does is to assist in the expediting of the process of testing and evaluation by avoiding the draining off of funds for litigation, funds that are desperately needed to complete the process and to meet deadlines.

This bill sets up the impossible task of meeting 1,100 deadlines. It then handicaps EPA by saying we are going to short you $50 million. Then, in shortsightedness, the bill exacerbates the problem by allowing that if they do not meet the deadlines, we are going to allow nonprofit groups and individuals to bring lawsuits against EPA, and EPA will use your funds that you could have used to meet further deadlines, use those funds to pay their attorney fees, pay the fees of anyone who wants to sue EPA if they have not met a deadline.

A tremendous catch-22 is therein created with 1,100 deadlines, $50 million short in funds to meet those deadlines, lawsuits that pay attorneys less money to complete the work, more time lost, more lawsuits until this whole merry-go-round collapses into a cloud of star-sprinkled dust where the attorneys go drifting off in a state of euphoria.

This amendment ends that abuse by allowing the litigant to pick up his own legal fees, not the taxpayer, not the farmer, not the folks who pay $150,000 to $500,000 per application for a registration, but those who brought the suits because one of the 1,100 deadlines was missed.

Make no mistake about it, lawsuits will be filed. The first incentive to file is that many nonprofits have in-house counsel that do not make the kinds of wages they think they should be entitled to, and the bill, without my amendment, is berry-picking heaven. It sure enhances their salaries and the coffers of the organization that files the suit.

The second incentive to file a lawsuit is that under the Equal Access to Justice Act, which applies to this bill and EPA, the courts have already awarded exorbitant fees to environmental activists as a reward for filing lawsuits.

For example, the third judicial circuit awarded the National Resources Defense Council [NRDC], $34,375.85 when that group filed suit because EPA failed to meet notice and comment requirements for rulemaking under the Clean Water Act (*NRDC* v. *EPA*, 703 F.2d 700). In another case, the NRDC and three other environmental groups were awarded $100,976.14 when they brought suit to compel EPA to perform certain nondiscretionary acts in connection with section 307 of the Federal Water Pollution Control Act (*NRDC* v. *Costle*, 12 E.R.C. 1181).

The theory is that the public benefits because the lawsuit forces the agency to act. However, these suits are really a convenient way for the plaintiffs and their attorneys to pour some more money into their coffers. Rarely, if ever, have these lawsuits forced the agency to do more than they are already doing, because the problem is a lack of revenue, and that problem is exacerbated because money is drained off for litigation.

The administration supports the enactment of my proposed amendment.

I include for the record a letter from the U.S. Department of Justice.

The letter follows:

U.S. DEPARTMENT OF JUSTICE,
OFFICE OF LEGISLATIVE AND INTERGOVERNMENTAL AFFAIRS,
Washington, DC, September 16, 1986.

Hon. RON MARLENEE,
House of Representatives,
Washington, DC.

DEAR CONGRESSMAN MARLENEE: Attorney General Meese has asked me to respond to your letter of July 31, 1986, regarding your proposed amendment to H.R. 2482, the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) Amendments of 1986. The Administration supports the enactment of your proposed amendment.

The amendment you propose provides: "Notwithstanding any other provision of law, no attorneys fees or expenses shall be awarded for any civil action brought under this section for failure to meet deadlines."

As you note in your letter, H.R. 2482 would impose a great many deadlines for Environmental Protection Agency (EPA) action, which the Agency has already stated it cannot meet. In turn, EPA will be faced with lawsuits to compel agency action which could result in liability for attorneys' fees and expenses under the Equal Access to Justice Act (EAJA). Similarly, the recent Resource Conservation and Recovery Act and Safe Drinking Water Act Amendments assign the EPA a long list of new deadlines with the attendant exposure to lawsuits and fee awards.

Our records indicate that over $2.6 million have been awarded against the United States in 61 attorneys' fees cases handled by the Land and Natural Resources Division alone since 1980. Attorneys' fees provisions, for the most part, provide little or no guidance as to when an award of attorneys' fees is appropriate, or what constitutes a reasonable award. *See generally, City of Riverside* v. *Rivera*, 106 S.Ct. 2686 (1986). Indeed, in some cases, attorneys' fees awards have greatly exceeded the relief obtained by the parties to the preceeding.

In addition, deadline cases tend to be both legally and factually straightforward. As a result, unbridled fee awards may attract abusive litigation, the real object of which is a fee award rather than the advancement of the environmental goals of FIFRA. Clearly, the taxpayers' money spent on attorneys' fees awards and the administrative expenses of defending such actions is better spent to implement substantive statutory provisions.

Therefore, we concur with your conclusion that allowing attorneys' fees for breaches of every statutory deadline makes little sense and we support your proposed amendment to the 1986 FIFRA Amendments. At a minimum, some restraint on the amount of fee awards should be imposed in deadline cases. The problem of such relatively unproductive litigation could also be addressed through a cap on the allowable hourly rate which courts may award. Please contact us if we can be of any additional assistance on this important matter.

The Office of Management and Budget has advised this Department that there is no objection to the submission of this report from the standpoint of the Administration's program.

Sincerely,

JOHN R. BOLTON,
Assistant Attorney General.

Mr. MARLENEE. In a letter dated September 16, 1986, the U.S. Department of Justice concurs in my conclusion that allowing attorneys' fees for breaches of every statutory deadline

makes little sense and supports the proposed amendment.

The letter, furthermore, notes that the Justice Department records indicate that over $2.6 million have been awarded against the United States in 61 attorneys' fees cases handled by the Land and Natural Resources Division alone since 1980. Attorneys' fees provisions, according to the Justice Department, for the most part, provide little or no guidance as to when an award of attorneys' fees is appropriate, or what constitutes a reasonable award.

□ 1020

I believe that my amendment is particularly important for FIFRA due to the very unusual step that the House Agricultural Committee is taking to make registrants pay user fees to EPA to conduct the program to reregister pesticides.

The justification for the reregistration fees is that the committee believed that the public could not afford to pay the cost of the program. This fact alone supports my amendment since the public, which cannot afford to pay for reregistration, also cannot afford to pay attorney's fees to other groups to oversee the program. Oversight of this program and the job of ensuring that EPA meets the requirements of reregistration is a task for Congress, not for the courts and litigants.

This amendment has no impact on farmers and producers. It precludes the award of attorneys' fees only for lawsuits to enforce reregistration deadlines. Farmers would be very unlikely to file a reregistration deadline suit. As a representative of a farm State, I can assure you that this amendment will not affect in any way a farmer or a producer's right to ask for attorneys' fees under the EAJA in a legitimate action under FIFRA to vindicate rights abused by EPA.

My amendment ensures that EPA will be able to direct its resources toward the running of the reregistration program, rather than having them siphoned off in the form of attorneys' fees. The amendment is very limited in scope and applies only to the reregistration section of FIFRA. It preserves completely the right of any individual or group to sue EPA to enforce a deadline. It simply provides that any such lawsuit is funded by the litigant himself, not by the taxpayer.

I would appreciate your support of my amendment as written to H.R. 2482.

Mr. ROBERTS. Mr. Chairman, I rise in support of the gentleman's amendment.

Mr. Chairman, there are some who say that this entire FIFRA bill is little more than a congressional enforcement of legal deadlines. I think it is much more than that, but I think it is a point to be made; there are deadlines all throughout this bill; and as the gentleman has pointed out, under the Equal Access to Justice Act, as amended, in 1985.

This bill would then allow the awarding of attorneys fees for deadline suits by public interest groups. Now, FIFRA is referenced in the bill, so all of the deadline suits under FIFRA would be subject to reimbursement out of the Agency's budget; but we are into user fees.

More to the point, those fees are paid as that cost is passed onto the farmer-stockman. That means a large portion of the user fees would be going to pay attorney fees for the deadline suits.

Now, I do not want to perjure the intent of any public interest group. The record of the EPA on this matter is a very legitimate issue, and without public citizen groups, why I think obviously that catalyst for speedy action and even this bill would not exist.

I would like to refer to a letter that I have received, or a copy of a letter that went to the Speaker from 21 pesticide user groups or farm groups.

In that letter, they are pointing out to the Speaker that there is little doubt that lawsuits will be filed to force EPA to somehow redirect its resources to meet these deadlines. These suits are common; they consist of little more than a simple recitation of the fact that the deadline has not been met.

Mr. MARLENEE. Mr. Chairman, will the gentleman yield?

Mr. ROBERTS. I yield to the gentleman from Montana.

Mr. MARLENEE. Mr. Chairman, I think if we want to pipeline taxpayers' money into the legal departments of environmental groups, let us be honest about it: Let us vote by directly appropriating it to those causes. But then again, maybe that is exactly what this vote will be about.

Mr. ROBERTS. Reclaiming my time, Mr. Chairman, the gentleman makes an excellent point, and we raised that amendment in the full committee, in the Committee on Agriculture, but that particular version lost because we did not want to pay for it out of the appropriated funds.

It was not an intent to muzzle any interest group; it was simply how we pay for it. These awards, however, could be disastrous in light of the fact that the reregistration program mandated by this bill is still some $50 million short, and so the direct cost to the public is very high. Generally, about $50,000 per lawsuit to simply pay the attorneys fees.

This amendment would simply ensure that EPA would be able to direct its finances toward the running of the reregistration program; in other words, to make the FIFRA reform bill work rather than having them siphoned off in the form of these attorneys fees.

The amendment is very limited in scope, it applies only to the reregistration section of FIFRA; it preserves completely the right of any individual or group to sue the EPA to enforce a deadline; I am for that, I do not quarrel with that.

This simply provides that any such lawsuit is funded by the litigant himself, and not by the taxpayer.

POINT OF ORDER

Mr. BERMAN. Mr. Chairman, I make a point of order against the amendment.

The CHAIRMAN. The gentleman will state it.

Mr. BERMAN. Mr. Chairman, I make the point of order that the amendment offered by the gentleman from Montana is in violation of clause 7 of House rule XVI which prohibits the consideration of amendments on a subject different from that under consideration. Mr. Chairman, the amendment offered by the gentleman from Montana carves out an exemption from the Equal Access to Justice Act, which authorizes the awarding of legal fees in certain cases brought against the Federal Government. The bill before us, H.R. 2482, amends the Federal Insecticide, Fungicide, and Rodenticide Act which concerns itself solely with the regulation of pesticides. Neither FIFRA nor this bill address the issue of the awarding of legal fees. Indeed, the amendment offered by the gentleman says that "Notwithstanding any other provision of law," indicating clearly that he intends to reach outside the scope of this bill and the law which it amends. The amendment goes to a totally different and nongermane matter to the business before the committee, and on this basis I ask that the point of order be sustained.

The CHAIRMAN. Does the gentleman from Montana [Mr. MARLENEE] wish to be heard on the point of order?

Mr. MARLENEE. Yes, Mr. Chairman.

Mr. Chairman, my amendment, I submit, is germane for the following reasons:

First, the title of the bill it is for "other purposes" than amending FIFRA.

Second, other examples of enactments amended by this bill or by the underlying FIFRA Act are: the Federal Hazardous Substances Act; the Poison Prevention Packaging Act; the Federal Food Drug and Cosmetics Act; and title 5 of the United States Code.

Third, the section and the bill reauthorize programs and funding for the pesticide programs. It also adds a new program (reregistration—section 3A of FIFRA) that is amended by my amendment. Both the section and the bill relate to fees and funding for the

reregistration program. Some of that funding for the reregistration program will come from fees assessed against registrants (see page 42 of the bill) and some will come from appropriated funds (section 816 of the bill).

My amendment would state how some of those funds could not be utilized and I submit does not violate the rules of the House on germaneness.

Fourth, my amendment is narrowly drawn and applies only to "fees or expenses shall be awarded for any civil action brought under this section for failure to meet deadlines."

Representatives from the Environmental Protection Agency and others have estimated that as high as over 1,000 deadlines are included in section 3A of the bill.

Yesterday on this floor in the debate we were told that this bill was underfunded by $48 million when an amendment to increase registrant's fees was considered and defeated.

Certainly my amendment that relates directly to that underfunding of the bill can be considered as germane to this bill.

Fifth, this bill, other than the section I am amending, contains provisions relating to the actions against the United States for just compensation (page 53, section 202, under section 1491, title 28, United States Code), and amends section 3(c)(D) of the FIFRA A t relating to the payment of fees to arbitrators and utilizing the Federal Mediation and Conciliation Service.

The bill also contains provisions relating to the false statement statute (18 U.S.C. 1001) and prosecutions thereunder.

Sixth, section 9 of the FIFRA Act gives the EPA Administrator authority to obtain and execute warrants and section 12 authorizes the Administrator to make certain certification to the U.S. Attorney General. Section 701 of the act discusses patent term extension for registrations of pesticides.

The foregoing merely illustrate the diversity of the provisions contained in the bill and the underlying FIFRA that, I submit, argue for the germaneness of my amendment.

Seventh, I understand, although I have not seen the basis of Mr. Berman's point of order, that it asserts the nongermaneness of my amendment based on the fact that it amends the Equal Access to Justice Act.

However, section 2412 (b) and (d) of title 28 (Equal Access to Justice Act) specifically provide with respect to fees and expenses of attorneys that those subsections only apply "Unless expressly prohibited by statute," (subsection (b)) and "Except as otherwise specifically provided by statute," (subsection (d)).

It is submitted that this bill which reauthorizes the FIFRA programs and funding can be utilized to effect the exception provided for in the Equal Access to Justice Act. It is therefore submitted that my amendment is germane to this bill.

The CHAIRMAN (Mr. McHUGH). The Chair is prepared to rule.

The gentleman from California makes the point of order that the amendment offered by the gentleman from Montana [Mr. MARLENEE] is not germane to the text of title I of H.R. 5440. The amendment waives all provisions of law which would otherwise permit the awarding of attorneys fees in FIFRA-related court cases.

The Chair would first note that the gentleman's argument reaches into and relates to titles of the bill which have not yet been reached in the amendment process.

The law being waived, moreover, is not the FIFRA law, but is the Equal Access to Justice Act, a law within the jurisdiction of another committee and a law not amended or referenced in the pending title of the bill. Nothing in title I amends existing law pertaining to judicial review and procedures.

The gentleman from Montana has made the point correctly that the Equal Access of Justice Act says that there can be exceptions specified by other statutes.

□ 1030

However, that does not remove jurisdiction from the Judiciary Committee or necessarily change the test of germaneness of amendments to other laws. And therefore, in the opinion of the Chair, the amendment addresses an issue within the jurisdiction of another committee and is not germane to the pending title.

The Chair therefore sustains the point of order.

Are there additional amendments to title I?

AMENDMENT OFFERED BY MR. BEDELL

Mr. BEDELL. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. BEDELL: After line 24, page 44 of the bill, add the following section and renumber subsequent sections accordingly:

NEUROTOXICOLOGICAL AND BEHAVIORAL EFFECTS TESTING

SEC. 106. Section 3 (7 U.S.C. 136a) is amended by adding a new subsection (h) as follows:

"The Administrator shall develop methods for testing to accurately detect neurotoxic and behavioral effects of pesticides, and their ingredients, and shall, as such methods are developed, require to the extent appropriate and necessary, that data from such testing be submitted by persons seeking to obtain or maintain pesticide registrations."

Mr. BEDELL. Mr. Chairman, I offer this amendment on behalf of our colleague, Mr. BROWN of California. It is my understanding that it has been explained to all parties and there is no objection to the amendment.

This amendment is not a major item in this bill, but it does plug one small hole which was left in the revisions which we are considering. I urge adoption of the amendment.

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. BEDELL. I yield to the gentleman from Kansas.

Mr. ROBERTS. I thank the gentleman for yielding.

I just want to inform the gentleman and my colleagues that we have no objection on our side and wish to associate myself with the remarks of the gentleman.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Iowa [Mr. BEDELL].

The amendment was agreed to.

The CHAIRMAN. Are there additional amendments to title I?

If there are no additional amendments to title I, the Clerk will designate title II.

The text of title II is as follows:

TITLE II—INFORMATION DISCLOSURE

SEC. 201. PUBLIC RIGHT TO KNOW.

(a) FACT SHEETS AND REPORTS.—Section 7 (7 U.S.C. 136e) is amended by adding at the end thereof the following new subsection:

"(e) PUBLIC RIGHT TO KNOW.—

"(1) Any producer operating an establishment in any State shall prepare or obtain a fact sheet complying with this subsection for each active ingredient manufactured or used at the establishment. The producer shall maintain copies of the fact sheet at the establishment and shall furnish a copy to any person on request.

"(2) Each fact sheet for an ingredient required under paragraph (1) shall—

"(A) contain the chemical name, each common name, and any trade name of the ingredient and a summary of relevant health, safety, and environmental data concerning the ingredient, and

"(B) be revised as often as is necessary to reflect current information about the ingredient.

The Administrator may require a fact sheet to be amended to provide accurate and clear information to the public.

"(3) Each producer to whom this subsection applies shall furnish to the Administrator annually, in accordance with regulations published by the Administrator, a report that includes—

"(A) for each establishment operated by the producer in any State, the name of each ingredient for which a fact sheet is required that is manufactured or used at that establishment, and

"(B) for each ingredient for which a fact sheet is required, the location of each establishment where such ingredient is manufactured or used by the producer, and

"(C) a current copy of each required fact sheet.

"(4) The fact sheets required by paragraph (1) and the annual reports required by paragraph (3) shall be available to the public.".

(b) CONFIDENTIAL INFORMATION.—Section 7(d) (7 U.S.C. 136e(d)) is amended by inserting "and production locations" after "names".

SEC. 202. DATA DISCLOSURE TO STATES.

(a) STATES.—Section 10 (7 U.S.C. 136h) is amended by adding at the end thereof the following new subsection:

"(h) DATA DISCLOSURE TO STATES.—

"(1) IN GENERAL.—The Administrator may disclose to a State any data or information acquired under this Act if the State assures the Administrator, and the Administrator determines, that the submitter of the data or information will receive no less protection with respect to the disclosure and use of the data or information by the State than is provided by section 3 and this section.

"(2) ACTION FOR JUST COMPENSATION.—For the purpose of any action that may lie against the United States for just compensation under section 1491 of title 28, United States Code—

"(A) the disclosure or use of data or information provided by the Administrator under paragraph (1) to a State in a manner inconsistent with this section or section 3 shall be considered a taking of property, and

"(B) the act of a State with respect to such data or information shall be considered an act of the United States.

"(3) REQUIRED DISCLOSURE.—The Administrator shall disclose to a State any data or information acquired under this Act if the State assures the Administrator, and the Administrator determines, that—

"(A) the submitter of the data or information will receive no less protection with respect to the disclosure and use of the data or information by the State than is provided by section 3 and this section, and

"(B) the law of the State allows the submitter of the data or information to recover just compensation in a civil action against the State for losses resulting from the disclosure or use of the data or information by the State or its employees or agents in a manner inconsistent with section 3 or this section.".

(b) DATA SYSTEM.—Section 31 (7 U.S.C. 136y) is redesignated as section 33 and the following new section is inserted after section 30:

"SEC. 31. COLLECTION, DISSEMINATION, AND USE OF DATA.

"(a) DATA SYSTEMS.—The Administrator shall establish, administer, and be responsible for the continuing activities of a committee within the Environmental Protection Agency that shall design, establish, and coordinate an efficient system, within such agency, for the collection, dissemination to other Federal departments and agencies or States, and use of the data submitted to the Administrator under this Act. The Administrator shall ensure the completion, within 36 months after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986, of the design and implementation of the system and procedures required by this subsection. The agency committee so established shall solicit advice from data users outside the Federal Government through means of a permanent advisory committee that shall consist of representatives from private groups, State governments and organizations, and industry, and other representatives as may be appropriate.

"(b) DATA RETRIEVAL.—The Administrator, in consultation and cooperation with the Secretary of Agriculture and other heads of appropriate Federal and State departments and agencies, shall design, establish, and coordinate an efficient and effective system for the retrieval of pesticidal, toxicological, and other scientific data that could be useful to the Administrator in carrying out this Act. Systematized retrieval shall be developed for use by all Federal and State departments and agencies with responsibilities in the area of regulation or study of pesticides and their effect on man and the environment.

"(c) INDEX.—In designing and implementing the systems required by subsections (a) and (b), the Administrator shall index information by pesticide name, Chemical Abstracts Service registry number, establishment site, and submitter so that information can be retrieved in a timely and useful manner.

"(d) REPORT.—The Administrator, within 24 months after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986, shall submit a report to Congress on the progress made in designing and implementing the systems for information management required by this section. The report shall address the handling of information submitted before the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986 as well as the procedures established to ensure that collection of information after such date will comply with this section.

"(e) CONFIDENTIALITY.—Dissemination of information and data collected under this section to any State shall be subject to section 10.

"(f) AUTHORIZATION.—There are authorized to be appropriated for fiscal years 1987, 1988, 1989, 1990, and 1991 such sums as may be necessary to carry out this section.".

AMENDMENT OFFERED BY MR. COLEMAN OF MISSOURI

Mr. COLEMAN of Missouri. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. COLEMAN of Missouri: Page 56, insert after line 19 the following:

SEC. 203. NOTICE FOR STORED CANCELLED OR SUSPENDED PESTICIDES.

(a) NOTICE.—Section 6 (7 U.S.C. 136d) is amended by redesignating subsection (f) as subsection (g) and by inserting after subsection (e) the following:

"(f) NOTICE.— Any producer or exporter of pesticides, registrant of a pesticide, applicant for registration of a pesticide, applicant for or holder of an experimental use permit, pesticide testing facility, commercial applicator, or any person who distributes or sells any pesticide which has in its possession any pesticide which has had its registration canceled or suspended under this section shall notify the Administrator and appropriate State and local officials of—

"(1) such possession,

"(2) the quantity of such pesticide in its possession, and

"(2) the place at which such pesticide is stored.

The Administrator shall transmit a copy of each notice submitted under this subsection to the regional office of the Environmental Protection Agency which has jurisdiction over the place of pesticide storage identified in the notice.".

(b) ENFORCEMENT.—Subparagraph (K) of section 12(a)(2)(7 U.S.C. 136j) is amended to read as follows:

"(K) except as provided in section 6(a)(1), to violate any cancellation of a registration of a pesticide under section 6 and to fail to submit a notice in accordance with section 6(f);".

Page 2, in the table of contents, insert at the end of title II the following:

Sec. 203. Notice for stored cancelled or suspended pesticides.

Mr. COLEMAN of Missouri [during the reading]. Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Missouri?

There was no objection.

Mr. COLEMAN of Missouri. Mr. Chairman, I ask unanimous consent, further, that, in that amendment which was published in the RECORD, as required under the rule, on page H6961, the word "and" following "section 6" in paragraph (b) entitled "ENFORCEMENT" be struck and insert in lieu thereof the word "or".

Is there objection to the request of the gentleman from Missouri?

There was no objection.

The text of the amendment, as modified, is as follows:

Amendment offered by Mr. COLEMAN of Missouri, as modified: Page 56, insert after line 19 the following:

SEC. 203. NOTICE FOR STORED CANCELLED OR SUSPENDED PESTICIDES.

(a) NOTICE.—Section 6 (7 U.S.C. 136d) is amended by redesignating subsection (f) as subsection (g) and by inserting after subsection (e) the following:

"(f) NOTICE.—Any procedure or exporter of pesticides, registrant of a pesticide, applicant for registration of a pesticide, applicant for or holder of an experimental use permit, pesticide testing facility, commercial applicator, or any person who distributed or sells any pesticide which has in its possession any pesticide which has had its registration cancelled or suspended under this section shall notify the Administrator and appropriate State and local officials of—

"(1) such possession,

"(2) the quantity of such pesticide in its possession, and

"(2) the place at which such pesticide is stored.

The Administrator shall transmit a copy of each notice submitted under this subsection to the regional office of the Environmental Protection Agency which has jurisdiction over the place of pesticide storage identified in the notice.".

(b) ENFORCEMENT.—Subparagraph (k) of section 12(a)(2)(7 U.S.C. 136j) is amended to read as follows:

"(K) except as provided in section 6(a)(1), to violate any cancellation of a registration of a pesticide under section 6 or to fail to submit a notice in accordance with section 6(f);".

Page 2, in the table of contents, insert at the end of title II the following:

Sec. 203. Notice for stored cancelled or suspended pesticides.

Mr. COLEMAN of Missouri. Mr. Chairman, just over 1 month ago, ethylene dibromide, commonly known as EDB, was discovered leaking from 1- and 5-gallon containers in the basement of a warehouse in St. Joseph, MO. The leak was found by two policemen who, while investigating a possi-

ble burglary, were overcome by the fumes of this toxic pesticide. At the time, the only government officials who knew that 64,000 gallons of EDB were stored at this warehouse were employees of the EPA Office of Pesticides here in Washington. Local fire and health officials were unaware of the presence of the EDB, officials of the Missouri Department of Natural Resources and regional EPA officials did not know of the location of the stored pesticide. Had there been a fire at this warehouse, the responding firefighters would not have known that EDB and 245-T, which contains dioxin, were stored in the warehouse and that they had a chemical fire on their hands. A fire at this warehouse could have caused serious injury and have had long-term environmental consequences.

In the near future, EPA will be reviewing the registrations on more than 600 pesticides. EPA foresees suspending several of these registrations, which will mean even more pesticides will be placed in storage for indefinite periods of time.

The problem with putting suspended or canceled pesticides into storage is that the containers pesticides are stored in for sale are not designed to last for long periods of time. For example, the containers that St. Joseph EDB were stored in were not meant to last for more than 1 year. Since EDB is a corrosive material and it has been sitting in these containers for 3 years, it is not surprising that many of these containers were found leaking.

Today I am offering two amendments to H.R. 2482, to provide the Environmental Protection Agency as well as State and local officials with the authority they need to deal with the difficult problem of suspended or canceled pesticides in offsite storage facilities.

My amendments take the first steps in closing a wide gap in Federal law by providing for oversight on the storage of suspended or canceled pesticides. I have consulted with the EPA on the texts of these amendmets and they believe that these initiatives provide new mechanisms which are workable and would help in ensuring that suspended and canceled pesticides are handled safely.

My first amendment requires that any producer, seller, exporter, distributor of pesticides, a commercial applicator or pesticide testing facility that has possession of a pesticide which has had its registration canceled or suspended must notify the administrator of EPA and the appropriate local and State officials of the location, type and quantity of a suspended or canceled pesticide they have in storage. Included in this amendment is the requirement that the EPA Administrator notify the regional office with jurisdiction over the stored suspended or canceled pesticide.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. COLEMAN of Missouri. I yield to the gentleman from Texas, the chairman of the committee.

Mr. DE LA GARZA. I thank the gentleman for yielding.

Mr. Chairman, we think the gentleman makes a positive contribution to this legislation, and we would have no objection to his amendment on this side.

Mr. COLEMAN of Missouri. I thank the gentleman for those comments.

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. COLEMAN of Missouri. I yield to the gentleman from Kansas.

Mr. ROBERTS. Mr. Chairman, I know of no objections to this amendment and commend the gentleman from Missouri for offering this amendment.

The public right-to-know section is one of the positive things that is in the FIFRA rewrite that we are considering today. The public is concerned over chemicals that are being produced and manufactured in their hometowns. They have a right to know that the plant down the street is producing toxic substances.

The local police and fire officials have the right to know. It helps them plan for emergencies and know what types of equipment to have on hand.

The FIFRA rewrite we are considering establishes the requirement that chemical manufacturers supply material data safety sheets to the EPA so that these can be distributed to concerned public officials and citizens.

However, the gentleman from Missouri has discovered a point in the FIFRA bill that Agriculture Committee overlooked. Our bill only covers current manufacturing and processing facilities. It doesn't address that warehouse that appears to be storing only harmless products but has, in fact, become a dumping ground or storage site for canceled or suspended pesticides. I commend the gentleman from Missouri for the amendment. It is a worthwhile addition to FIFRA and I urge my colleagues to support it.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. COLEMAN of Missouri. I yield to the gentleman from Iowa.

Mr. BEDELL. I thank the gentleman for yielding.

Mr. Chairman, I also wish to commend the gentleman from Missouri for his amendment, I support the amendment and believe it improves the bill.

Mr. COLEMAN of Missouri. Mr. Chairman, I thank my colleagues for their voices of support.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Missouri [Mr. COLEMAN], as modified.

The amendment, as modified, was agreed to.

AMENDMENT OFFERED BY MR. COLEMAN OF MISSOURI

Mr. COLEMAN of Missouri. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Chair would inquire, is this amendment directed to title II?

Mr. COLEMAN of Missouri. Mr. Chairman, I believe it is to title III.

Mr. Chairman, since the amendment relates to what I just did, I would ask unanimous consent to offer this amendment out of order since it relates directly to the previous amendment and by explanation thereof.

The CHAIRMAN. Is there objection to the request of the gentleman from Missouri?

Mr. DE LA GARZA. Mr. Chairman, reserving the right to object, we have no objection to the amendment or to the unanimous-consent request made by the gentleman.

Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN. Is there objection to the request of the gentleman from Missouri?

There was no objection.

The CHAIRMAN. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. COLEMAN of Missouri: Page 88, line 8, insert after the comma the following: "and to enter any place where a pesticide which has had its registration cancelled or suspended under section 6 is stored".

Mr. COLEMAN of Missouri (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Missouri?

There was no objection.

Mr. COLEMAN of Missouri. Mr. Chairman, we just agreed to an amendment requiring notification of canceled pesticides and their location. This amendment authorizes the EPA to inspect facilities where canceled or suspended pesticides are stored. Since reporting in and of itself is not sufficient to ensure the safety of people living and working near stored suspended or canceled pesticides, I believe that it is essential to give EPA the discretionary authority to conduct inspections at storage facilities. This authority should be invoked in cases of high volumes of suspended or canceled pesticides in long-term storage.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Missouri [Mr. COLEMAN].

The amendment was agreed to.

The CHAIRMAN. Are there any further amendments to title II?

If not, the Clerk will designate title III.

The text of title III is as follows:

TITLE III—REVIEW AND CANCELLATION

SEC. 301. PUBLIC INTERIM ADMINISTRATIVE REVIEW.

(a) SECTION 3(c)(8).—Paragraph (8) of section 3(c) (7 U.S.C. 136a(c)(8)) is amended to read as follows:

"(8) PUBLIC INTERIM ADMINISTRATIVE REVIEW PROCEEDINGS.—

"(A) IN GENERAL.—A public interim administrative review process to determine whether the use of a pesticide (including a category of pesticides) may cause unreasonable adverse effects on the environment shall be conducted in accordance with this paragraph.

"(B) CRITERIA FOR INITIATING A PUBLIC INTERIM ADMINISTRATIVE REVIEW.—

"(i) Criteria for initiating a public interim administrative review of a pesticide shall be set forth in regulations published by the Administrator.

"(ii) Such criteria shall be established on the basis of levels of risk and may include consideration of currently available exposure data.

"(iii) Absence of exposure data shall not delay or preclude initiation of a public interim administrative review. The Administrator may decline to initiate a public interim administrative review solely on the basis of exposure only if adequate data on all relevant means of exposure have been considered.

"(C) REVIEW REQUIREMENT.—The Administrator may not initiate a public interim administrative review process to develop a risk-benefit evaluation of the ingredients of a pesticide or any of its uses before initiating a formal action to cancel, suspend, or deny the registration of such pesticide required under this Act unless such public interim administrative review process is based on a validated test or other significant evidence raising prudent concerns of unreasonable adverse risk to man or to the environment.

"(D) PREREVIEW NOTICE PROCEDURES.—

"(i) On receipt of information respecting a pesticide demonstrating that the criteria for initiating a public interim administrative review established under subparagraph (B) have been met, the Administrator shall immediately notify all registrants of such pesticide and provide the registrants with appropriate information and an explanation of the manner in which the criteria have been met.

"(ii) Not later than 30 days after receipt of a notice provided under clause (i), a registrant may respond to such notice.

"(iii) Not later than 60 days after the Administrator provided a notice under clause (i) concerning a pesticide, the Administrator shall determine whether a public interim administrative review of the pesticide shall be initiated.

"(E) NOTICE.—If the Administrator intends to initiate a public interim administrative review of a pesticide that is registered for agricultural uses, the Administrator shall notify the Secretary of Agriculture of the intention to initiate such review and the reasons therefor.

"(F) REVIEW PROCEDURE.—

"(i) Any public interim administrative review proceeding shall be initiated and conducted in accordance with regulations published by the Administrator. Such regulations shall provide that a public interim administrative review shall include—

"(I) a notice of initiation of the public interim administrative review and opportunity for public comment on such notice,

"(II) a notice of a preliminary determination and opportunity for public comment on such notice, and

"(III) a notice of a final determination,

except that such regulations may authorize the Administrator to combine or forgo any such notice.

"(ii) Any proposed determination of the Administrator shall be submitted to the Scientific Advisory Panel established under section 25(d) at its next scheduled meeting for comment solely on relevant scientific issues. The public may submit comments to the Scientific Advisory Panel concerning such issues.

"(iii) The notice of the initiation of a public interim administrative review or the notice of a preliminary determination shall state the basis for such review or determination and include a request for any additional data needed and a bibliography of all scientific data and studies and expert analyses concerning the risks or benefits of the pesticide that are under review. Information in the bibliography shall be made available to the public consistent with the requirements of section 10. The Administrator shall determine, to the extent feasible, before the initiation of the public interim administrative review which data in the bibliography may be disclosed to the public under section 10(d)(1). If the Administrator receives additional data concerning such risks or benefits, the Administrator, within 30 days after receiving the additional data, shall revise the bibliography to reflect such data and make the revised bibliography available to the public.

"(iv) Not later than 90 days after the publication of a notice of the initiation of a public interim administrative review or a notice of a preliminary determination, comments may be submitted on such review or determination. Any person who submits comments shall disclose to the Administrator all scientific data and studies and expert analyses in such person's possession concerning the risks or benefits of the pesticide that are under review that were not included in the bibliography included in such notice. If such person receives additional scientific data or studies or expert analyses of such data or studies that were not included in such bibliography, the person shall disclose such scientific data, studies, and expert analysis to the Administrator within 30 days after receipt.

"(v) Not later than 18 months after the initiation of a review, the Administrator shall decide which regulatory action (if any) to take regarding the pesticide that is the subject of the review and shall publish the decision.

"(vi) The time limits specified in this subparagraph may not be extended, except in exceptional circumstances in which—

"(I) additional data critical to a fair and accurate determination of risks posed by the pesticide subject to review are required,

"(II) the extension is for a period limited to the time required to obtain such data on an expedited basis and in no event to exceed 1 year, and

"(III) the Administrator acted to obtain the additional data at the time the public interim administrative review was initiated unless the Administrator could not have reasonably known of the need for such data at such time.

"(G) JUDICIAL REVIEW.—Any person may seek judicial review under section 16(a) of the failure of the Administrator to act within the time period prescribed under this paragraph.".

(b) SCIENTIFIC ADVISORY PANEL.—The first sentence of section 25(d) (7 U.S.C. 136w(d)) is amended by striking out "The" and inserting in lieu thereof "Except with respect to a referral under section 3(c)(8)(F), the".

(c) APPLICATION OF AMENDMENTS.—The amendments made by this section shall apply to public interim administrative reviews under section 3(c)(8) of the Federal Insecticide, Fungicide, and Rodenticide Act initiated after January 1, 1987.

SEC. 302. PROCEEDINGS UNDER SECTION 6.

Section 6 (7 U.S.C 136d) is amended by redesignating subsection (f) as subsection (i) and by inserting after subsection (e) the following:

"(f) HEARING PROCEDURES AFTER PUBLIC INTERIM ADMINISTRATIVE REVIEW.—

"(1) GENERAL RULE.—Subsection (d), as modified by the special rules of paragraphs (2) and (3) of this subsection, shall govern any hearing under subsection (d) that results from the Administrator's final determination in a public interim administrative review proceeding under section 3(c)(8) that is initiated after January 1, 1987, that includes an opportunity for comment on a notice of preliminary determination issued in connection with such review, and for which the time between the first public notice for such review under section 3(c)(8)(F) and the close of the last comment period provided for such review is not less than 180 days.

"(2) REQUEST FOR HEARING.—Any person who is adversely affected by a decision of the Administrator respecting a pesticide (including a person without an economic interest in such pesticide) following a public interim administrative review described by paragraph (1) may request, or intervene in, a hearing in the manner provided by subsection (b)(2)(B) within 30 days after such decision. A person may request a hearing, or intervene in a hearing, only if that person submitted comments during the public interim administrative review proceeding and otherwise complied with section 3(c)(8)(F).

"(3) PROCEDURES.—

"(A) At the request of a party, the administrative law judge conducting the hearing may receive into evidence portions of the public interim administrative review record and other evidence if the party demonstrates that such portions of the record and other evidence are relevant and material to the disputed issues and are not unduly repetitious and a competent witness is made available to be cross-examined on all matters relating to such evidence. Direct testimony of witnesses concerning scientific data or studies that were not, but could have been, obtained and submitted in the public interim administrative review proceeding by the exercise of due diligence by the offering party shall not be admissible.

"(B) The right of other parties to confront and cross-examine witnesses with respect to such evidence shall be preserved with respect to material issues of adjudicative fact, so long as such cross-examination is not unduly repetitious.

"(C)(i) Not later than 120 days after the administrative law judge is appointed, prehearing matters shall be completed and the hearing shall commence.

"(ii) The administrative law judge may establish a schedule for prehearing matters, including discovery and motions, and shall ensure that the hearing schedule is met. The administrative law judge shall issue such orders as are appropriate for the purpose of simplifying and clarifying issues,

specifying the order of presentation of witnesses, and allocating the time for cross-examination, briefing, and decision.

"(iii) Discovery shall be permitted after the expiration of 120 days after the appointment of the administrative law judge on a determination by the administrative law judge that (I) such discovery shall not in any way unreasonably delay the proceeding, (II) the information to be obtained is not otherwise obtainable, and (III) such information has significant probative value and is necessary to obtain relevant evidence needed to resolve a material issue in dispute.

"(D) Any challenge to—

"(i) the authority to issue, or

"(ii) the procedural correctness of the issuance of,

any notice of intent to cancel or change classification or to any request for a hearing or motion to intervene shall be filed with the administrative law judge not later than 30 days before the commencement of the evidentiary phase of the hearing.

"(E) Not later than 30 days before the hearing commences, each party shall make available to the other parties the names of the expert and other witnesses the party expects to call, together with a brief narrative summary of their expected testimony and a list of all documents and exhibits that the party expects to introduce into evidence. Thereafter, witnesses, documents, or exhibits may be added and narrative summaries of expected testimony amended on motion by a party.

"(F) If new studies become available that were not available during the public interim administrative review, the administrative law judge, on request of any party and when in the judgment of the administrative law judge it is necessary, may submit such studies to the Scientific Advisory Panel established under section 25(d) for supplemental comment on an expedited basis under such time limits as may be established by the administrative law judge.

"(G) The administrative law judge shall schedule the presentation and examination of witnesses so that the presentation of evidence is completed within 60 days after the commencement of the hearing, except that the schedule shall not prejudice the right of a party to present evidence. The person who requested a hearing on an issue shall have the burden of going forward to present an affirmative case and shall have the burden of proof as to that issue.

"(H) A hearing conducted in accordance with this subsection shall be completed and the Administrator shall make a final decision within 300 days after the issuance of the notice that gave rise to the hearing. The time limit imposed by this subparagraph may not be extended, except in exceptional circumstances in which such extension is essential for a fair and accurate determination of pivotal facts central to the proceeding. In no event may such time limit be extended more than 180 days. Any other time limit imposed by this paragraph may be extended for good cause.

"(I) Failure to complete a hearing and make a final decision within the time period prescribed by subparagraph (H) shall be grounds for a civil action in a district court of the United States seeking an order to establish a schedule requiring the prompt completion of the hearing, but shall not be grounds for termination of the hearing or for making a final decision respecting the pesticide that is the subject of the hearing.".

SEC. 303. CANCELLATION AND CHANGE IN CLASSIFICATION OR LABELS.

Subsection (b) of section 6 (7 U.S.C. 136d(b)) is amended to read as follows:

"(b) CANCELLATION AND CHANGE IN CLASSIFICATION OR LABELS.—

"(1) NOTICE OF CANCELLATION OR CHANGE IN CLASSIFICATION.—

"(A) If it appears to the Administrator that a pesticide or its labeling or other material required to be submitted does not comply with this Act or, when used in accordance with widespread and commonly recognized practice, generally causes unreasonable adverse effects on the environment, the Administrator may issue a notice of intent—

"(i) to cancel its registration or to change its classification together with the reasons (including the factual basis) for the action of the Administrator, or

"(ii) to hold a hearing to determine whether or not its registration should be canceled or its classification changed.

"(B) A notice issued under subparagraph (A) shall be sent to each registrant of the pesticide with respect to which the notice is issued and shall be made public.

"(C) In determining whether to issue a notice under subparagraph (A), the Administrator shall include among those factors to be taken into account the impact of the action proposed in such notice on production and prices of agricultural commodities, retail food prices, and otherwise on the agricultural economy.

"(D)(i) Not later than 60 days before sending a notice to a registrant or making public such notice under subparagraph (B), whichever occurs first, the Administrator shall provide the Secretary of Agriculture with a copy of the proposed notice under subparagraph (A) and an analysis of the impact of the proposed action on the agricultural economy. The Secretary of Agriculture shall provide comments on such notice and analysis to the Administrator within 30 days after receiving the copy of such notice.

"(ii)(I) If the Secretary of Agriculture provides such comments in writing within 30 days after receiving the copy of such notice, the Administrator shall publish in the Federal Register (with the notice) the comments of the Secretary and the response of the Administrator with regard to the comments of the Secretary.

"(II) If the Secretary of Agriculture does not provide such comments in writing within 30 days after receiving the copy of such notice, the Administrator may notify the registrant and make public the notice at any time after such 30-day period.

"(iii) The time requirements imposed by this subparagraph may be waived or modified to the extent agreed on by the Administrator and the Secretary of Agriculture.

"(E) If the Administrator finds that suspension of a pesticide registration is necessary to prevent an imminent hazard to human health, the Administrator may waive the requirements of notice to the Secretary of Agriculture prescribed by subparagraph (D) and submission to the Scientific Advisory Panel under section 25(d) and proceed in accordance with subsection (c).

"(2) HEARING.—

"(A) The action proposed in a notice issued under paragraph (1)(A) shall become final and effective at the end of 30 days after receipt by the registrant or publication of a notice issued under paragraph (1)(B), whichever occurs later, unless within that time—

"(i) the registrant makes the necessary corrections, if possible, or

"(ii) a request for a hearing is made by a person adversely affected by the notice.

"(B) Whenever a request for a hearing is made, the request shall—

"(i) identify with particularity the findings and conclusions of the decision of the Administrator that are disputed, and

"(ii) include a complete statement of the reasons and factual basis that support the request for a hearing.

"(C) Any party to the proceeding may identify findings and conclusions in dispute.

"(D) If a hearing is held pursuant to such a request or the determination of the Administrator under paragraph (1)(A)(ii), a decision pertaining to registration or classification issued after completion of such hearing shall be final.

"(E) On receipt of a request for a hearing from a person without an economic interest in the pesticide with respect to which the hearing is requested, the Administrator shall convene such hearing if the request presents a substantial issue of fact, as determined by the Administrator, pertaining to whether such pesticide poses an unreasonable risk to man or the environment.

"(3) FACTORS.—In taking any action under paragraph (1), the Administrator shall—

"(A) consider restricting a use or uses of a pesticide as an alternative to cancellation and fully explain the reasons for such restriction, and

"(B) consider the impact of such action on production and prices of agricultural commodities, retail food prices, and otherwise on the agricultural economy, and publish in the Federal Register an analysis of such impact.

"(4) LABEL CHANGES.—

"(A) The Administrator may notify the registrant of a pesticide of a label change proposed by the Administrator that may be made by rulemaking under subparagraph (B) and provide that the registrant may submit comments to the Administrator on such proposed change in the 30-day period beginning on the date of the receipt of such notice. If a registrant who is notified by the Administrator of a proposed label change notifies the Administrator that the registrant does not object to such change, such change shall take effect as prescribed by the Administrator. If a registrant who is notified by the Administrator of a proposed label change does not submit comments to the Administrator in such 30-day period, the Administrator shall send such registrant a second notice stating that, if such registrant does not submit any comments to the Administrator in the 30-day period beginning on the date the registrant receives the second notice, the registration of such registrant shall be cancelled without a hearing or further notice. The registration of a registrant who does not submit comments on a second notice within such 30-day period shall be cancelled without a hearing or further notice. If in response to a notice under this subparagraph a registrant submits comments to the Administrator objecting to a proposed label change, the Administrator may proceed under subparagraph (B).

"(B) The Administrator may require changes to the label of a pesticide by informal rulemaking under this paragraph unless the changes—

"(i) are equivalent to a cancellation of a use,

"(ii) render the pesticide unmarketable, or

"(iii) otherwise have a major economic impact on persons affected by such changes.

If the Administrator may not require changes to the label of a pesticide by informal rulemaking under this paragraph because of clause (i), (ii), or (iii), the Administrator may only require such changes by a proceeding authorized by other provisions of this Act.

"(C) After the promulgation of a regulation under subparagraph (B), the Administrator shall notify each registrant of the pesticide subject to the regulation of the label change required by the regulation and provide a 30-day period for each registrant to apply to the Administrator for an amendment to the registration to comply with the regulation. If a registrant does not apply for such an amendment within such period, the Administrator shall issue a notice of intent to cancel the registration of such registrant in accordance with paragraph (2). For purposes of paragraph (2), such notice shall be deemed to have been issued under paragraph (1).

"(D) A registrant or user of a pesticide subject to a regulation issued under subparagraph (B) may request a hearing under subsection (d) on such regulation in accordance with paragraph (2). The scope of the hearing shall be limited to—

"(i) whether the pesticide complies with the regulation,

"(ii) whether the regulation by its terms is applicable to such pesticide, and

"(iii) whether, because of significant information that was not (and could not reasonably have been) presented in the proceeding wherein the regulation was promulgated, it would be unreasonable to require such pesticide to comply with the regulation.

"(E)(i) Except as provided in clause (ii), in an action under 16(e) for review of a regulation issued under subparagraph (B), the court, on request, shall postpone the effective date of the regulation until completion of the review action if the petitioner shows—

"(I) a likelihood of success on the merits in such action, and

"(II) that the implementation of the regulation before completion of the action would cause a risk of substantial harm to the petitioner.

"(ii) A court in a review action under section 16(e) shall not postpone the effective date of a regulation issued under subparagraph (B) if the Administrator shows that failure to implement the regulation before completion of the action would cause a risk of substantial harm to health or the environment.".

SEC. 304. PUBLIC HEARINGS AND SCIENTIFIC REVIEW.

Section 6(d) (7 U.S.C. 136d(d)) is amended—

(1) by striking out the fifth through ninth sentences,

(2) in the tenth sentence—

(A) by striking out "(including the report of the Academy)", and

(B) by striking out "90 days thereafter" and inserting in lieu thereof "18 months after issuance of the notice that gave rise to the hearing",

(3) by inserting before the last sentence the following: "The time period prescribed by the preceding sentence may be extended by the Administrator under extraordinary circumstances for not more than one year.", and

(4) in the heading, by striking out "AND SCIENTIFIC REVIEW".

SEC. 305. ADMINISTRATIVE CHANGES.

(a) AMENDMENT TO SECTION 6.—Section 6 (7 U.S.C. 136d) is amended by inserting the following new subsection after subsection (f) (as added by section 302):

"(g) GENERAL PROVISIONS.—

"(1) VOLUNTARY CANCELLATION.—A registrant at any time may request that any of its pesticide registrations be cancelled or be amended to delete one or more uses. Before acting on any such request, the Administrator shall publish in the Federal Register a notice of the receipt of the request. Thereafter the Administrator may approve such a request.

"(2) PUBLICATION OF NOTICE.—A notice of denial of registration, intent to cancel, suspension, or intent to suspend issued under this Act, a notice issued under subsection (d)(4) or (e)(5)(A) of section 3A, or a notice issued under the third sentence of subsection (b)(4)(A) shall be published in the Federal Register and shall be sent by certified mail, return receipt requested, to the registrant's or applicant's address of record on file with the Administrator. If the mailed notice is returned to the Administrator as undeliverable at that address, if delivery is refused, or if the Administrator otherwise is unable to accomplish delivery of the notice to the registrant or applicant after making reasonable efforts to do so, the notice shall be deemed to have been received by the registrant or applicant on the date the notice was published in the Federal Register.

"(3) EXISTING STOCKS.—The Administrator may permit the continued use, the continued distribution or sale, or both, of existing stocks of a pesticide whose registration is cancelled under any provision of this Act to such extent, under such conditions, during such periods, and for such uses as the Administrator may specify if the Administrator determines that such distribution, sale, or use is not inconsistent with the purposes of this Act and will not cause unreasonable adverse effects on the environment.

"(4) ADDITIONAL INFORMATION.—If at any time after the registration of a pesticide the registrant has additional information regarding unreasonable adverse effects on the environment of the pesticide, the registrant shall submit such information to the Administrator. For purposes of this paragraph, the term 'information' includes factual information and expert opinion regarding risks or benefits.".

(b) CONFORMING AMENDMENTS.—

(1) SECTION 3(c)(6).—Section 3(c)(6) (7 U.S.C. 136a(c)(6)) is amended by striking out the period at the end and inserting in lieu thereof the following: "except as otherwise provided in this paragraph. A request for a hearing under section 6 shall be made within 30 days after the receipt of such notification. The Administrator may issue regulations governing the right to a hearing under section 6 with regard to the denial of any application for the registration of a pesticide containing an ingredient that was cancelled under section 6. Under such regulations, due weight shall be given to the desirability of finality of prior proceedings and determinations and the extent that the applicant had an opportunity to participate in earlier proceedings. Section 6(g)(2) applies with respect to the publication of a notice of a denial of a registration.".

(2) SECTION 6(a)(2).—Section 6(a) (7 U.S.C. 136d(a)) is amended—

(A) by striking out paragraph (2), and

(B) by striking out "(1) PROCEDURE.—", by striking out ": *Provided*" and all that follows in the first sentence and inserting in lieu thereof a period, and inserting the matter in paragraph (1) after the subsection heading so that it is flush with the full left-hand margin of the section.

(3) SECTION 6(e).—Paragraph (1) of section 6(e) (7 U.S.C. 136d(e)) is amended by striking out ": *Provided*" and all that follows in that paragraph and inserting in lieu thereof a period.

SEC. 306. CANCELLATION OF REGISTRATION BASED ON FALSE OR INVALID DATA.

Section 6 (7 U.S.C. 136d) is amended by inserting the following new subsection after subsection (g) (as added by section 305(a)):

"(h) SUSPENSION AND CANCELLATION OF REGISTRATION BASED ON FALSE OR INVALID DATA.—

"(1) NOTICE.—The Administrator shall immediately issue an order of suspension and a notice of intent to cancel the registration of a pesticide if—

"(A) before the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986, the Administrator has previously determined in the Industrial Biotest validation process conducted by the Administrator that data submitted by the registrant of the pesticide to the Administrator in support of such registration were invalid,

"(B) the data referred to in subparagraph (A)—

"(i) have not been replaced as of the effective date of such Act, or

"(ii) are in the process of being replaced on the effective date of such Act but are not submitted to the Administrator by April 1, 1988, and

"(C) such data are material to the registration.

"(2) INVALID DATA.—If, after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986, the Administrator determines that invalid data are submitted by a registrant to the Administrator in support of a registration of a pesticide, the Administrator may—

"(A) require the registrant to submit valid replacement studies or data on an expedited schedule and to submit interim progress reports, or

"(B) issue a notice of intent to cancel such registration if the Administrator determines that such action would be in the public interest, taking into account the scope of the invalid data and the need to use the data to determine whether the pesticide may cause unreasonable adverse effects on the environment.

"(3) FALSE DATA.—If a registrant willfully submits material data known to be false in support of the registration of a pesticide, the Administrator shall immediately issue notices of intent to suspend and cancel such registration.

"(4) HEARING.—

"(A) Any suspension or cancellation under this subsection shall become final and effective at the end of the 30-day period beginning on the date of receipt by the registrant of a notice issued under this subsection unless during such period a request for a hearing is made by a person adversely affected.

"(B) A hearing under this paragraph shall be conducted in accordance with the procedures prescribed by subsection (c) or (d), as appropriate.

"(C) In the case of a hearing held with respect to action proposed to be taken under paragraph (1), the only matters for resolution shall be whether—

"(i) in response to a notice of the Administrator issued under section 3(c)(2)(B) or other formal notice, data previously determined by the Administrator to be invalid—

"(I) have not been replaced as of the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986, or

"(II) are in the process of being replaced on the effective date of such Act but are not submitted to the Administrator by April 1, 1988, and

"(ii) the data are material to the registration.

"(D) In the case of a hearing held with respect to action proposed to be taken under paragraph (2), the only matters for resolution shall be whether data are invalid, material, and necessary to adequately determine whether a pesticide may cause unreasonable adverse effects on the environment.

"(E) In the case of a hearing held with respect to action proposed to be taken under paragraph (3), the only matters for resolution shall be whether a registrant willfully submitted material data known to be false.

"(F) A decision after completion of a hearing conducted under this paragraph shall be final.

"(G) Notwithstanding any other provision of this Act, a hearing shall be held, and a determination made, under this subsection within 75 days after the receipt of a request for such hearing.".

The CHAIRMAN. Are there any amendments to title III?

If not, the Clerk will designate title IV.

The text of title IV is as follows:

TITLE IV—RECORDS AND INSPECTIONS

SEC. 401. RECORDS.

(a) SECTION 8.—Section 8 (7 U.S.C. 136f) is amended to read as follows:

"SEC. 8. RECORDS.

"(a) AUTHORITY TO REQUIRE RECORDS.—The Administrator, by regulation, may require any producer or exporter of pesticides, registrant, applicant for registration, applicant for or holder of an experimental use permit, pesticide testing facility, or commercial applicator, or any person who distributes or sells any pesticide—

"(1) to prepare, and to maintain for reasonable periods of time, such records as the Administrator finds to be necessary for the effective implementation or enforcement of this Act,

"(2) to furnish to the Administrator reports stating the location where the records are maintained, and

"(3) to furnish a copy of any such record to the Administrator on written request.

Except as provided in subsections (c), (d), and (e), the Administrator may not require any person who distributes or sells at retail a registered pesticide that is not subject to a restricted use classification under section 3 to prepare, maintain, or furnish any record under this subsection with respect to such pesticide.

"(b) LIMITATIONS.—The Administrator may not, under the authority of subsection (a), require any person to maintain records of—

"(1) financial data, sales data, or pricing data,

"(2) personnel data, except for data concerning exposure of employees to pesticides or ingredients of pesticides, or concerning health effects on employees that could reasonably be attributable to such exposure, or

"(3) research or test data (other than data relating to registered pesticide, data relating to any pesticide for which an application for registration or for an experimental use permit has been filed, or data relating to testing at a pesticide testing facility).".

(b) DEFINITION.—Section 2 (7 U.S.C. 136) (as amended by section 105(c)) is amended by adding at the end the following:

"(hh) PESTICIDE TESTING FACILITY.—The term 'pesticide testing facility' means any person that conducts any test, study, survey, or investigation of the properties, effects, or behavior of any pesticide (or any ingredient, metabolite, or degradation product thereof) on its own behalf or on behalf of any registrant, applicant for registration, or other person who sells or distributes the pesticide (or contemplates selling or distributing it). The term does not include any person solely on account of such person's participation as a cooperator in field testing of a pesticide in compliance with an experimental use permit under section 5.".

(c) CONFORMING AMENDMENTS.—The second sentence of section 26(c) (7 U.S.C. 136w-1(c)) is amended—

(1) by striking out "8(b) of this Act" and inserting in lieu thereof "9",

(2) by striking out "9(a) of this Act" and inserting in lieu thereof "9", and

(3) by striking out "Not withstanding the provisions of section 2(e)(1) of this Act" and inserting in lieu thereof "Notwithstanding section 2(kk)".

SEC. 402. INSPECTIONS.

(a) SECTION 9(a).—Section 9(a) (7 U.S.C. 136g(a)) is amended to read as follows:

"(a) AUTHORITY TO ENTER, INSPECT, AND COPY.—Officers or employees of the United States or of any State, duly designated by the Administrator, are authorized at reasonable times, as provided by this section—

"(1) to enter any place where any pesticide, active ingredient, or device is distributed or sold, to inspect and obtain samples of any pesticide, active ingredient, or device being distributed or sold at such place or of any packaging or labeling of any such pesticide, active ingredient, or device,

"(2) to enter any place where there are located any records required under this Act or any place reported under section 8(a) as a location where such records are maintained, to inspect and obtain copies of such records,

"(3) to enter any pesticide testing facility, to inspect the facility and the testing being conducted at the facility and to inspect and obtain copies of any records required by or under the authority of this Act to be maintained by the pesticide testing facility, and

"(4) to enter any place where such officer or employee has reason to believe that the Act has been or is being violated by any person other than a person acting in the capacity of a private applicator, to inspect such place to obtain evidence of such violation.".

(b) SECTION 9(b).—Section 9(b) (7 U.S.C. 136g(b)) is amended to read as follows:

"(b) WARRANTS.—Officers or employees of the United States or of any State, duly designated by the Administrator, are empowered to obtain and execute warrants authorizing—

"(1) entry for the purposes of this section,

"(2) inspection and copying of all records required under this Act, and

"(3) seizure of any pesticide or device that is in violation of this Act.".

(c) PROCEDURE AND COORDINATION.—Section 9 (7 U.S.C. 136g) is further amended by adding at the end the following:

"(d) PROCEDURE.—Before any entry or inspection of any premises not open to the general public is made under this section, the person conducting the inspection shall present to the person in charge of the premises appropriate credentials, and a written statement of the reason for the entry or inspection and whether a violation of this Act is suspected. Each entry or inspection shall be commenced and completed with reasonable promptness. If the person conducting the entry or inspection obtains any samples of pesticides or devices, before leaving the premises such person shall give to the person in charge of the premises a receipt describing the samples and, if requested and practicable, a portion of each such sample equal in volume or weight to the portion retained. If an analysis of any such sample is made, a copy of the results of such analysis shall be furnished on request to the person in charge of the premises.

"(e) COORDINATION.—The Administrator shall coordinate actions taken under this section with actions taken under other Federal laws for the purpose of avoiding duplication of inspections.".

The CHAIRMAN. Are there any amendments to title IV?

If not, the Clerk will designate title V.

The text of title V is as follows:

TITLE V—EXPORTS

SEC. 501. DEFINITION OF MISBRANDED.

Section 2(q)(1) (7 U.S.C. 136(q)(1)) is amended—

(1) by striking out "or" at the end of subparagraph (G),

(2) by striking out the period at the end of subparagraph (H) and inserting after the close quotation marks "; or", and

(3) by adding at the end thereof the following new subparagraph:

"(I) in the case of a pesticide intended for export that is substantially similar in composition and use pattern to a pesticide registered under section 3, the label is not written in an appropriate language as required by section 17(a)(4)(A) or does not contain the same health, safety, and hazard precautions as the pesticide registered under section 3, unless such precautions on the label are in conflict with the law of the importing country.".

SEC. 502. DEFINITION OF IMPORTING COUNTRY.

Section 2 (7 U.S.C. 136) (as amended by section 401(b) of this Act) is amended by adding at the end thereof the following new subsection:

"(ii) IMPORTING COUNTRY.—The term 'importing country' means the first country to which a pesticide, device, or active ingredient, subject to the notification requirements of section 17(a), is exported from the United States.".

SEC. 503. PESTICIDES AND DEVICES INTENDED FOR EXPORT.

(a) IN GENERAL.—Subsection (a) of section 17 (7 U.S.C. 136o(a)) is amended to read as follows:

"(a) PESTICIDES AND DEVICES INTENDED FOR EXPORT.—

"(1) VIOLATIONS.—Notwithstanding any other provision of this Act, no pesticide or device, or active ingredient used in producing a pesticide, intended solely for export to any foreign country shall be considered in violation of this Act when prepared or packed according to the specifications or directions of the foreign purchaser, except that producers of such pesticides and devices and active ingredients used in producing pesticides shall be subject to section 2(p), subparagraphs (A), (C), (D), (E), (G), (H), and (I) of section 2(q)(1), subparagraphs (A), (B), (C)(i), (C)(iii), and (D) of section 2(q)(2), sections 7 and 8, and paragraphs (2), (3), and (4) of this subsection.

"(2) RESTRICTED USE OR UNREGISTERED PESTICIDES.—

"(A) This paragraph applies to a pesticide, device, or active ingredient—

"(i) for which a restricted use classification has become effective under section 3,

"(ii) for which a cancellation or suspension has become effective under section 6,

"(iii) the registration of which has been voluntarily withdrawn by the registrant, if such withdrawal is associated with concern over potential adverse public health or environmental effects, or

"(iv) that is not registered under section 3 for any use.

"(B) No pesticide, device, or active ingredient described in subparagraph (A) may be exported to any foreign country by any person unless, at least 30 days before the first shipment each year of such pesticides, devices, or active ingredients to such country, such person has—

"(i) notified, under paragraph (3), the person importing the pesticide, device, or active ingredient and the appropriate government regulatory office in the importing country,

"(ii) received written evidence that the notification was delivered to the appropriate government regulatory office, and

"(iii) submitted a copy of the notification (in English) and evidence of delivery to the Administrator.

"(C) Documents referred to in subparagraph (B) shall be made available to the public, on request.

"(3) NOTIFICATION SPECIFICATIONS.—The notification required under paragraph (2) shall be made in an appropriate language and shall contain the following information—

"(A) the name of the pesticide and the common and chemical names of each active ingredient,

"(B) the name and address of the person exporting the pesticide, device, or active ingredient,

"(C) the name and address of the person importing the pesticide, device, or active ingredient,

"(D) the name and address of the appropriate government regulatory office in the importing country,

"(E) a statement of the reasons why the registration of the pesticide was cancelled, suspended, voluntarily withdrawn, or the pesticide is not registered in the United States or is classified for restricted use, and the list of restrictions, and

"(F) the name and address of the office of the United States Environmental Protection Agency that, on request by the importer or official of the importing country, can provide additional information on the pesticide, device, or active ingredient.

"(4) LABELS.—

"(A) The label of a pesticide intended for export from the United States shall be written in an appropriate language.

"(B) Except as provided in section 2(q)(1)(H), such label may not refer to compliance with the laws of the United States unless the label also contains or is accompanied by a description of the relevant requirements of such laws.

"(5) RECORDS.—The Administrator, by regulation, may require any person subject to this subsection to prepare, maintain, and submit such records as may be necessary to carry out this subsection.".

(b) EFFECTIVE DATES AND IMPLEMENTATION.—

(1) Section 17(a) (2) and (3) of the Federal Insecticide, Rodenticide, and Fungicide Act (as amended by subsection (a) of this section) shall become effective 90 days after the date of enactment of this Act.

(2) Not later than 30 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency shall publish in the Federal Register a list of the names, addresses, and international telecommunications codes of appropriate regulatory offices required to receive notices under section 17(a)(2)(B) of the Federal Insecticide, Rodenticide, and Fungicide Act, as amended by subsection (a).

(3) Not later than 180 days after the date of enactment of this Act, and annually thereafter, the Administrator shall revise the list required under paragraph (2).

(4) Not later than 90 days after the date of enactment of this Act, the Administrator shall publish in the Federal Register preliminary guidelines regarding—

(A) the form of the notification required under section 17(a) of the Federal Insecticide, Rodenticide, and Fungicide Act, as amended by subsection (a),

(B) translation of the notification and labels required under such section 17(a) into the appropriate language,

(C) preparation and retention of records under such section 17(a), and

(D) procedures for public access to documents submitted by exporters under such section.

SEC. 504. CANCELLATION NOTICES FURNISHED TO FOREIGN GOVERNMENTS.

Subsection (b) of section 17 (7 U.S.C. 136o(b)) is amended to read as follows:

"(b) NOTICES OF REGULATORY ACTION FURNISHED TO FOREIGN GOVERNMENTS.—

"(1) ISSUANCE.—Whenever—

"(A) a registration, or a cancellation or suspension of the registration, of a pesticide becomes effective or ceases to be effective, or

"(B) a pesticide is classified for restricted use,

the Administrator shall promptly transmit through the Secretary of State a notice, at such time and annually thereafter, to the appropriate governmental regulatory offices of other countries and to appropriate international agencies.

"(2) CONTENTS.—A notice under paragraph (1) shall include—

"(A) the reasons for the regulatory action taken,

"(B) for canceled or suspended registrations, information concerning other pesticides that are registered under section 3 and that could be used in lieu of such pesticide, and

"(C) the name and address of the office of the United States Environmental Protection Agency that, on request, can provide additional information on the pesticide.".

The CHAIRMAN. Are there any amendments to title V?

If not, the Clerk will designate title VI.

The text of title VI is as follows:

TITLE VI—CERTIFICATION AND TRAINING

SEC. 601. CERTIFICATION, TRAINING, AND RECORD-KEEPING FOR PESTICIDE APPLICATORS.

(a) DEFINITIONS.—

(1) Section 2(e) (7 U.S.C. 136(e)) is amended to read as follows:

"(e) APPLICATOR.—

"(1) COMMERCIAL APPLICATOR.—

"(A) Except as provided in subparagraph (B), the term 'commercial applicator' means a person (whether or not the person is a private applicator with respect to some uses) who—

"(i) uses or supervises the use, for any purpose or on any property, of any pesticide that is classified for restricted use,

"(ii) uses or supervises the use of any pesticide for hire as the principal part of the person's business or work, or

"(iii) as an employee of a person described in clause (ii), uses or supervises the use of any pesticide.

"(B) The term does not include a person who uses or supervises the use of a pesticide as described in paragraph (2).

"(2) PRIVATE APPLICATOR.—The term 'private applicator' means a person who uses or supervises the use of any pesticide that is classified for restricted use for purposes of producing any agricultural commodity—

"(A) on property owned or rented by such person or such person's employer, or

"(B) on other property if applied without compensation (other than trading of personal services between producers of agricultural commodities).

"(3) CERTIFIED APPLICATOR.—The term 'certified applicator' means a commercial or private applicator who is certified under section 4.

"(4) UNDER THE DIRECT SUPERVISION OF A CERTIFIED APPLICATOR.—Unless otherwise prescribed by its labeling, a pesticide shall be considered to be applied under the direct supervision of a certified applicator if it is applied by a person acting under the direct supervision and the instructions and control of a certified applicator who is available if and when needed, even though such certified applicator is not physically present at the time and place the pesticide is used.".

(2) Section 2 (as amended by section 502) is amended by adding at the end the following:

"(jj) PESTICIDE DEALER.—

"(1) Except as provided in paragraph (2), the term 'pesticide dealer' means any person who, in the ordinary course of business, distributes or sells any pesticide that is classified for restricted use or designated under section 8(d)(2).

"(2) Such term does not include a person who only distributes or sells pesticides that are classified for general use and that are not designated under section 8(d)(2).".

(b) SECTION 4.—

(1) Section 4 (7 U.S.C. 136b) is amended by adding at the end the following:

"(d) PROVISIONS REGARDING COMMERCIAL APPLICATORS.—

"(1) It shall be a violation of this Act for any person to use any pesticide as a commercial applicator unless such person is—

"(A) a certified commercial applicator, or

"(B) a registered commercial applicator under the direct supervision of a certified applicator who is a certified commercial applicator.

"(2) To be considered to be a certified commercial applicator, a person, at a minimum, shall—

"(A) have met the standards prescribed under subsection (a) and have received training—

"(i) prescribed by the State agency, including training in the material referred to in subsection (g),

"(ii) conducted by a trainer who has met the requirements prescribed under subsection (h), and

"(iii) that satisfies the minimum standards for training programs prescribed under subsection (h),

"(B) have had field, institutional, or industrial experience in pesticide use and application,

"(C) have passed an examination prescribed by such State agency, and

"(D) possess a valid commercial applicator certification issued by such State agency.

"(3) To be considered to be a registered commercial applicator, a person, at a minimum, shall—

"(A) have received training—

"(i) prescribed by the State agency, including training in the material referred to in subsection (g), and

"(ii) conducted by a trainer who has met the requirements prescribed under subsection (h), and

"(B) possess a valid registration issued by such State agency.

A person may obtain a registration by providing to the State agency a report, signed and dated by the trainer and by the person who received the training, stating that the prescribed minimum training has been provided and received.

"(e) PROVISIONS REGARDING PRIVATE APPLICATORS.—

"(1) A restricted use pesticide shall be considered to have been applied by, or under the direct supervision of, a certified private applicator only if it is applied by a person who is either—

"(A) a certified private applicator, or

"(B) a supervised private applicator who uses the pesticide under the direct supervision of a certified private applicator.

"(2) To be considered to be a certified private applicator, a person, at a minimum, shall—

"(A) have met the standards prescribed under subsection (a) and have received training—

"(i) prescribed by the State agency, including training in the material described in subsection (g),

"(ii) conducted by a trainer who has met the requirements prescribed under subsection (h), and

"(iii) that satisfies the minimum standards for training prescribed under subsection (h), and

"(B) possess a valid private applicator certification issued by such State agency.

"(3) To be considered to be a supervised private applicator, a person, at a minimum, shall have received basic instruction—

"(A) prescribed by the State agency or based on material prescribed by such State agency, including basic instruction material concerning the use of appropriate pesticide application and safety procedures, appropriate clothing and protective equipment for pesticide applications, the detection of common symptoms of pesticide poisoning, the means of obtaining emergency medical treatment, hazards posed by pesticides to workers, the public health, and the environment, and the requirements of applicable laws, regulations, and labeling, and

"(B) given by a certified private applicator, a commercial applicator who is certified in the pest control category appropriate for the instruction being provided, or a trainer who has met the requirements prescribed under subsection (h).

The State agency may require the employer of a supervised private applicator to confirm that the basic instruction described in subparagraph (A) has been received.

"(f) RECERTIFICATION AND REREGISTRATION.—Each certified applicator and each registered commercial applicator within a State shall undergo refresher training and be recertified or reregistered within a period established by the State agency of such State. Such period may not be more than 5 years. The refresher training shall be prescribed by the State agency and shall include training in the materials referred to in subsection (g) and in the relevant requirements of other subsections of this section and sections 3(d), 12, and 14. To be recertified, an applicator, at a minimum, shall meet the requirements of paragraphs (2)(A), (2)(B), and (2)(D) of subsection (d) or the requirements of paragraphs (1) and (2) of subsection (e). To be reregistered, a commercial applicator, at a minimum, shall meet the requirements of subsection (d)(3).

"(g) TRAINING MATERIAL.—The Administrator, in consultation with the Secretary of Agriculture, shall develop training material on the use of appropriate procedures for the application of pesticides, safety procedures for pesticide application, clothing and protective equipment for pesticide application, the detection of common symptoms of pesticide poisoning, the means of obtaining emergency medical treatment, hazards posed by pesticides to workers, the public health, and the environment, specific commercial application categories, and the requirements of applicable laws, regulations, and labeling. Within 12 months after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986, the Administrator, in consultation with the Secretary of Agriculture, shall revise and make current such material and thereafter shall update such material as needed.

"(h) MINIMUM STANDARDS FOR TRAINERS AND TRAINING PROGRAMS.—

"(1)(A) The Administrator shall establish within one year after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986—

"(i) minimum standards of competency, and experience or expertise, for trainers referred to in subsection (d), and

"(ii) minimum standards for the training programs referred to in subsection (d).

"(B) Training programs prescribed by any State under subsection (d) shall comply with the minimum standards established by the Administrator under subparagraph (A) not later than 2 years after the effective date of such standards. If on the expiration of such 2-year period a State's training program fails to meet such minimum standards, or if a State fails to prescribe such a program, the Administrator shall notify the State of such failure. After receipt of a notice, a State shall have 90 days to bring its training program into compliance with such standards. If on expiration of such 90-day period, the State's training program does not meet such standards, the Administrator shall prescribe such training programs referred to in subsection (d) for use in such State.

"(2)(A) The Administrator shall establish within 2 years after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986—

"(i) minimum standards of competency, and experience or expertise, for trainers referred to in subsection (e), and

"(ii) minimum standards for the training programs referred to in subsection (e).

"(B) Training programs prescribed by any State under subsection (e) shall comply with the minimum standards established by the Administrator under subparagraph (A) not later than 2 years after the effective date of such standards. If on the expiration of such 2-year period a State's training program fails to meet such minimum standards, or if a State fails to prescribe such a program, the Administrator shall notify the State of such failure. After receipt of a notice, a State shall have 90 days to bring its training program into compliance with such standards. If on expiration of such 90-day period the State's training program does not meet such standards, the Administrator shall prescribe the training programs referred to in subsection (e) for use in such State.

"(i) PRIVATELY ADMINISTERED TRAINING PROGRAMS.—A State agency may approve any privately administered training program that it determines meets—

"(1) the requirements established under this section, or

"(2) requirements established by the State agency,

whichever are more stringent.

"(j) ENFORCEMENT OFFICER TRAINING.—Federal and State field personnel responsible for on-site observations and inspections of pesticide use shall have training that, as a minimum, includes training covering materials specified in subsection (g) for the commercial application categories for which they are assigned enforcement responsibility.

"(k) SEPARATE STANDARDS.—In establishing standards under this section applicable to applicators, the Administrator shall establish separate standards for commercial applicators and private applicators.

"(l) STATE AGENCY DEFINED.—For purposes of this section, the term 'State agency' means the agency of a State that is designated under subsection (a)(2)(A) if the State has primary enforcement responsibility for pesticide use violations, as provided for by section 26. In the case of a State that does not have such primary enforcement responsibility or that does not have an agency designated under subsection (a)(2)(A), a reference to a State agency shall be considered a reference to the Administrator.".

(2)(A)(i) Except as provided in clauses (ii) and (iii), subsection (d) of section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (as added by paragraph (1)) shall take effect in a State on the expiration of the period prescribed by subsection (h) of such section within which training programs of such State under subsection (d) are to be in compliance with minimum standards prescribed by the Administrator of the Environmental Protection Agency under subsection (h).

(ii) If an applicator in a State is certified as a commercial applicator under subsection (a) of section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act before the effective date prescribed by clause (i) and the Administrator has determined that the previous certification or recertification requirements in that State do not conform to the requirements of subsection (d) of such section, such applicator shall be recertified—

(I) within 2 years after the date the training programs of such State under subsection (d) comply with such minimum standards of the Administrator, or

(II) within such earlier time as the State may prescribe.

(iii) The requirements of subsection (d) of section 4 for registered commercial applicators shall take effect 1 year after the expiration of the period prescribed by subsection (h) of such section within which training programs of such State under subsection (d) are to be in compliance with minimum standards prescribed by the Administrator

of the Environmental Protection Agency under subsection (h).

(B)(i) Except as provided in clauses (ii) and (iii), subsection (e) of section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (as added by paragraph (1)) shall take effect in a State on the expiration of the period prescribed by subsection (h) of such section within which training programs of such State under subsection (e) are to be in compliance with minimum standards prescribed by the Administrator of the Environmental Protection Agency under subsection (h).

(ii) If an applicator in a State is certified as a private applicator under subsection (a) of section 4 before the effective date prescribed by clause (i) and the Administrator has determined that the previous certification or recertification requirements in that State do not conform to the requirements of subsection (d) of such section, such applicator shall be recertified—

(I) within 2 years after the date the training programs of such State under subsection (e) comply with such minimum standards of the Administrator, or

(II) within such earlier time as the State may prescribe.

(iii) The requirements of subsection (e) of section 4 for supervised private applicators shall take effect 1 year after the expiration of the period prescribed by subsection (h) of such section within which training programs of such State under subsection (e) are to be in compliance with minimum standards prescribed by the Administrator of the Environmental Protection Agency under such subsection.

(C) The requirements of subsection (j) of section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (as added by paragraph (1)) shall take effect 1 year after the Administrator issues the training materials specified in subsection (g) of such section.

(c) SECTION 8.—

(1) Section 8 (7 U.S.C. 136f) (as amended by section 401) is amended by adding at the end the following:

"(c) RECORDS OF APPLICATORS.—

"(1) COMMERCIAL APPLICATORS.—The Administrator shall require each commercial applicator to maintain records of each pesticide application, including the identity and amount of pesticide applied and the date and location of such application, for a period of 2 years after each such application.

"(2) PRIVATE APPLICATORS.—No regulations issued by the Administrator to carry out this Act may require any private applicator to maintain any records or file any reports or other documents.

"(d) RECORDS OF PESTICIDE DEALERS.—The Administrator, by regulation, shall require each pesticide dealer to maintain a record of each sale or distribution of—

"(1) a pesticide classified for restricted use, and

"(2) any other pesticide designated for purposes of this subsection by the Administrator by regulation because the pesticide may cause significant adverse effects on health or the environment.

Such records shall include the identity of the pesticide sold or distributed, the identity of the person to whom the pesticide was distributed or sold, the date of the distribution or sale, and the amount of the pesticide distributed or sold. A pesticide dealer shall maintain the records required under this subsection for 3 years after the date of the distribution or sale.

"(e) ACCESS.—

"(1)(A) Any pesticide dealer or commercial applicator shall afford to any employee or former employee of such dealer or applicator access to records required to be kept under subsections (c) and (d) that directly relate to the employee's employment duties.

"(B) Any pesticide dealer or commercial applicator shall afford to any customer of such dealer or applicator access to the records that directly relate to any pesticide that the customer purchased from the dealer or that relate to any pesticide application made by such an applicator at the request of the customer or under a contract with a customer.

"(C) Each State enforcement agency, as part of an investigation or enforcement action in response to a formal complaint, shall make available reports of the findings of such investigation or action to the complainant. On the request of a complainant, such agency shall provide in a timely manner a progress report or interim report that contains, at a minimum, the records required to be kept under subsections (c) and (d) and obtained in the investigation or action.

"(D) The records for which access is provided under subparagraph (A), (B), or (C) shall be accessible within 30 days after a request made under such subparagraph, except that if necessary to protect the public health or in a medical emergency, such records shall be provided as soon as possible, but no later than 24 hours after the request is made.

"(2) A copy of any record to be required to be maintained under subsection (c) or (d) shall be submitted to a State agency that has primary enforcement authority under section 26 on request by such State agency to the commercial applicator or dealer required to maintain such records.

"(f) INFORMATION FOR EMPLOYEES.—An employer who uses or supervises the use of a pesticide shall know or have access to the brand name and common or chemical name of the pesticide and to the safety, first aid, and antidote information listed on the labeling of the pesticide and shall be responsible for promptly making such information available, on request, to any employee exposed to the pesticide and to treating medical personnel.".

(2) Section 11 (7 U.S.C. 136i) is repealed.

(d) SECTION 12.—Section 12(a)(2) (7 U.S.C. 136j(a)(2)) is amended by striking out "or" at the end of subparagraph (O), by striking out the period at the end of subparagraph (P) and inserting in lieu thereof a semicolon, and by adding after subparagraph (P) the following:

"(Q) to obtain and use records acquired under section 8(e) in furtherance of a commercial purpose;".

The CHAIRMAN. Are there any amendments to title VI?

If not, the Clerk will designate title VII.

The text of title VII is as follows:

TITLE VII—DATA COMPENSATION

SEC. 701. DEFENSIVE DATA.

(a) AMENDMENTS.—

(1) Section 3(c)(2)(B)(ii) (7 U.S.C. 136a(c)(2)(B)(ii)) is amended to read as follows:

"(ii)(I) Each registrant of a pesticide for which a notice is issued under clause (i) shall provide evidence within 90 days after receipt of such notification that it is taking appropriate steps to secure the additional data that are required under such notice.

"(II) Each registrant of a pesticide that contains an active ingredient that is only used for application in the production of food, feed, or fiber shall, by the ninetieth day after notification, agree to develop jointly the additional data concerning that active ingredient that are required under such notice or to share in the cost of developing such data and advise the Administrator of their intent. Any such registrant who agrees to develop jointly, or to share in the cost of producing, the data shall be entitled to examine and rely upon such data in support of maintenance of such registration.

"(III) In the case of any other pesticide, two or more registrants of such pesticides may agree to develop jointly, or to share in the cost of developing, such data if they agree and advise the Administrator of their intent within 90 days after notification. Any such registrant who agrees to develop jointly, or to share in the cost of producing, the data shall be entitled to examine and rely upon such data in support of maintenance of such registration.

"(IV) If a pesticide contains active ingredients that are used for application in the production of food, feed, or fiber and for other purposes, the registrants of the pesticide who are subject to a requirement to submit additional data shall be subject to subclause (II) or (III), whichever the majority of the registrants of the pesticide shall agree to.".

(2) The first sentence of section 3(c)(2)(B)(iv) (7 U.S.C. 136a(c)(2)(B)(iv)) is amended by inserting after "under this subparagraph" the following: "or if the Administrator determines that a registrant has failed to take the action required by clause (ii)(II)".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect with respect to notices issued under section 3(c)(2)(B) of the Federal Insecticide, Fungicide, and Rodenticide Act after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986.

SEC. 702. DATA COMPENSATION AND ARBITRATION.

Section 3(c)(1)(D)(ii) (7 U.S.C. 136a(c)(1)(D)(ii)) is amended by inserting "(I)" after "(ii)" adding at the end the following:

"(II) If the term of a patent for a pesticide registered under this section is extended after the date of enactment of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986 under an Act of Congress that amends title 35, United States Code, to authorize an extension of the term of a patent for a pesticide that had not expired before the date of enactment of such Act of Congress irrespective of the date the pesticide completed a regulatory review period as defined in such title, the amount of compensation to be paid under arbitration under subclause (I) for the use of data submitted to the Administrator for such pesticide shall be a fair share of the cost of producing the data plus a value premium not to exceed that share, as determined in the arbitration process.

"(III) In the case of a pesticide the term of the patent for which has expired, the terms and amount of compensation, for data that was submitted for such pesticide, to be paid by a person who intends to file an application for registration of a pesticide that cites such data may be fixed before the submission of such application by arbitration under subclause (I) initiated by such person. The arbitration shall be binding on the original data submitter and shall be binding

on such person after the date such persons's application is submitted. Each party to the first arbitration under this subclause to determine the terms and amount of compensation for the use of particular data shall share equally in the payment of the fees and expenses of the arbitrators and shall each pay its own attorney's fees. In all subsequent arbitrations under this subclause to determine the terms and amount of compensation for the use of such data, the party to such subsequent arbitration who seeks to cite the data of the original data submitter shall pay the fees and expenses of the arbitrators and the attorney's fees of the original data submitter. The provisons of subclause (I) apply to arbitrations under this clause, except as otherwise provided in this subclause.".

The CHAIRMAN. Are there any amendments to title VII?

If not, the Clerk will designate title VIII.

The text of title VIII is as follows:

TITLE VIII—GENERAL

Subtitle A—Amendments to the Federal Insecticide, Fungicide, and Rodenticide Act

SEC. 801. STATE REGISTRATIONS.

Section 24(c) (7 U.S.C. 136v(c)) is amended—

(1) by striking out the period at the end of paragraph (1) and inserting in lieu thereof a comma and the following: "and such registration shall expire and be of no further effect, without further action by the Administrator—

"(A) at the end of the period, if any, provided as the duration of the registration by the State that approved it, or

"(B) 10 days after the date the Administrator publishes in the Federal Register a notice stating that the State that issued the registration has informed the Administrator that the State no longer desires the registration to continue in effect.", and

(2) by adding at the end of paragraph (2) the following: "The Administrator shall establish criteria that define the conditions under which a special local needs registration may be disapproved, taking into account geographic patterns of use.".

SEC. 802. DEFINITIONS.

(a) AMENDMENTS.—

(1) SECTION 2(bb).—Section 2(bb) (7 U.S.C. 136(bb)) is amended by adding at the end the following: "For purposes of this subsection, the term 'man' includes unborn human beings from the moment of conception.".

(2) SECTION 2(ee).—Section 2(ee) (7 U.S.C. 136(ee)) is amended—

(A) by inserting before the comma at the end of clause (1) "unless the labeling specifically prohibits deviation from the specified dosage, concentration, or frequency", and

(B) in clause (3), by inserting after "labeling" the following: "unless the labeling specifically states that the product may be applied only by the methods specified on the labeling".

(3) NEW DEFINITION.—Section 2 (as amended by section 601(a)(2)) is amended by adding at the end the following:

"(kk) TO DISTRIBUTE OR SELL.—The term 'to distribute or sell' means to distribute, sell, offer for sale, hold for distribution, hold for sale, hold for shipment, ship, deliver for shipment, release for shipment, or receive and (having so received) deliver or offer to deliver. The term does not include the holding or application of registered pesticides or use dilutions thereof by any applicator who provides a service of controlling pests without delivering any unapplied pesticide to any person so served.".

(b) CONFORMING AMENDMENTS.—

(1) Section 3(a) (7 U.S.C. 136a(a)) is amended to read as follows:

"(a) REQUIREMENT OF REGISTRATION.—Except as provided by this Act, no person in any State may distribute or sell to any person any pesticide that is not registered under this Act.".

(2) Section 12(a) (7 U.S.C. 136j(a)) is amended—

(A) in paragraph (1) by striking out "distribute, sell, offer for sale, hold for sale, ship, deliver for shipment, or receive and (having so received) deliver or offer to deliver, to any person—" and inserting in lieu thereof "distribute or sell to any person—", and

(B) in paragraph (2)(F) by striking out "to make" and inserting in lieu thereof "to distribute or sell, or to make".

SEC. 803. INFORMATION REQUESTED.

Section 7 (7 U.S.C. 136e) (as amended by section 201) is amended by adding at the end the following:

"(f) INFORMATION REQUESTED.—Consistent with section 3507(a)(1) of title 44, United States Code, the Administrator shall catalogue and retrieve data in such manner as to eliminate or reduce burdensome requests to registrants for submission of information, particularly those requests that require the submission of duplicate confidential data.".

SEC. 804. COOPERATIVE AGREEMENTS.

Section 23(a) (7 U.S.C. 136u(a)) is amended to read as follows:

"(a) COOPERATIVE AGREEMENTS.—The Administrator may enter into cooperative agreements with States and Indian Tribes for the following:

"(1) To delegate to any State or Indian Tribe the authority to cooperate in the enforcement of this Act through the use of its personnel or facilities, to train personnel of the State or Indian Tribe to cooperate in the enforcement of this Act, and to assist States and Indian Tribes in implementing cooperative enforcement programs through grants.

"(2) To provide an amount equal to 50 percent of the anticipated cost of each State or Indian tribe, as agreed under such cooperative agreements, of conducting training programs for certification of applicators. Funds shall be distributed among States and Indian tribes on a formula basis, as developed cooperatively between the Secretary of Agriculture and the Administrator.

"(3) To provide an amount equal to 50 percent of the anticipated cost to each State or Indian tribe, as agreed under such cooperative agreements, of conducting pesticide certification and licensing programs, and in the case of a State, for administering the State plan of each State approved under section 4(a)(2). Funds shall be distributed among the States and Indian tribes on a formula basis as specified by the Administrator.

There are authorized to be appropriated such sums as may be necessary for cooperative agreements and grants under this subsection.".

SEC. 805. SCIENTIFIC ADVISORY PANEL.

Section 25(d) (7 U.S.C. 136w(d)) is amended—

(1) by striking out "consist of 7 members" and inserting in lieu thereof "be permanent and consist of 9 members", and

(2) by striking out the sentence beginning "The advisory panel established".

SEC. 806. AUTHORITY FOR EPA ACTION.

The second sentence of section 27(a) (7 U.S.C. 136w-2(a)) is amended to read as follows: "If a State—

"(1) does not promptly initiate appropriate investigative action after receiving such referral, or

"(2) does not initiate appropriate enforcement action within 90 days after receipt of such referral,

the Administrator may act on such complaint or information in accordance with this Act.".

SEC. 807. EXPIRATION OF STATE PRIMARY ENFORCEMENT RESPONSIBILITY.

Section 26 (7 U.S.C. 136w-1) is amended by adding at the end the following:

"(d) EXPIRATION.—Notwithstanding subsections (a) and (b), the primary enforcement responsibility of a State under this section for pesticide use violations shall expire on January 1, 1989, unless the Administrator determines that the State has the authority to impose civil and criminal penalties at least equal to those provided in section 14.".

SEC. 808. UNLAWFUL ACTS.

(a) SECTION 12(a).—Section 12(a) (7 U.S.C. 136j(a)) (as amended by section 601(d)) is amended—

(1) by amending paragraph (1)(A) to read as follows:

"(A) any pesticide that is not registered under section 3 or whose registration has been cancelled or suspended, except to the extent that distribution or sale otherwise has been authorized by the Administrator under this Act;",

(2) by amending paragraph (2)(B) to read as follows:

"(B) to refuse to (i) prepare, maintain, or submit any records required by or under this Act, (ii) submit any reports required by or under this Act, or (iii) allow any entry, inspection, copying of records, or sampling authorized by this Act;",

(3) by amending paragraph (2)(J) to read as follows:

"(J) to violate any suspension order issued under section 3(c)(2)(B), 3A, or 6;",

(4) by amending paragraph (2)(K) to read as follows:

"(K) to violate any cancellation order issued under this Act;",

(5) in paragraph (2)(M), by striking out "section 8" and inserting in lieu thereof "this Act", and

(6) by adding at the end paragraph (2) the following:

"(R) to willfully falsify all or part of any information relating to the testing of any pesticide (or any ingredient, metabolite, or degradation product thereof), including the nature of any protocol, procedure, substance, organism, or equipment used, observation made, or conclusion or opinion formed, submitted to the Administrator, or that the person knows will be furnished to the Administrator or will become a part of any records required to be maintained by this Act;

"(S) to willfully submit to the Administrator data known to be false in support of a registration; or

"(T) to violate any regulation issued under section 3(a), 19(a), 25(c)(3), or 25(f) of this Act.".

(b) ACTS OF OFFICERS, AGENTS, ETC.—

(1) Section 12 (7 U.S.C. 136j) is amended by adding at the end the following:

"(c) ACTS OF OFFICERS, AGENTS, ETC.—When construing and enforcing the provisions of this Act, the act, omission, or fail-

ure of any officer, employee, agent, or other person acting for or employed by any person shall be deemed to be the act, omission, or failure of such person as well as that of the person employed.".

(2) Paragraph (4) of section 14(b) (7 U.S.C. 1361(b)) is repealed.

SEC. 809. PENALTIES AND SUBPOENAS.

(a) SECTION 14(a).—Section 14(a) (7 U.S.C. 1361(a)) is amended—

(1) by amending paragraph (1) to read as follows:

"(1) IN GENERAL.—

"(A) Any registrant, applicant for a registration, producer, or pesticide testing facility that violates any provision of this Act may be assessed a civil penalty by the Administrator of not more than $25,000 for each offense. If a registrant, applicant for a registration, producer, or pesticide testing facility violates any provision of this Act after violating the same or similar provision of this Act, the Administrator may assess a civil penalty of not more than $50,000 for such subsequent violation.

"(B) Any—

"(i) commercial applicator of restricted use pesticides, or

"(ii) any other person not described in subparagraph (A) who distributes or sells pesticides or devices,

that violates any provision of this Act may be assessed a civil penalty by the Administrator of not more than $10,000 for each offense. If such person violates any provision of this Act after violating the same or similar provision of this Act, the Administrator may assess a civil penalty of not more than $20,000 for such subsequent violation.",

(2) by amending paragraph (2) to read as follows:

"(2) PRIVATE APPLICATOR.—Any private applicator who violates any provision of this Act subsequent to receiving a written warning from the Administrator or following a citation for a prior violation, and any other person not included in paragraph (1) that violates any provision of this Act, may be assessed a civil penalty by the Administrator of not more than $1,000 for each offense. If such person violates any provision of this Act after violating the same or similar provision of this Act, the Administrator may assess a civil penalty of not more than $2,000 for such subsequent violation. The Administrator may waive the requirement for a warning or citation for a first offense by a private applicator if the Administrator determines that the violation was intentional or caused significant harm to health or the environment.",

(3) by adding at the end of paragraph (3) the following: "If the person neither resides nor has its principal place of business in the United States, the Administrator may designate a site for the hearing in the United States that is reasonably convenient for the parties.", and

(4) in the first sentence of paragraph (4), by inserting "the economic benefit (if any) resulting from the violation," after "to continue in business,".

(b) SECTION 14(b).—

(1) Section 14(b)(1) (7 U.S.C. 1361(b)(1)) is amended to read as follows:

"(1) IN GENERAL.—

"(A) Any registrant, applicant for a registration, producer, or pesticide testing facility that knowingly violates any provision of this Act shall be fined not more than $50,000 or imprisoned for not more than one year, or both.

"(B) Any commercial applicator of a restricted use pesticide, or any other person not described in subparagraph (A) who distributes or sells pesticides or devices, that knowingly violates any provision of this Act shall be fined not more than $25,000 or imprisoned for not more than one year, or both.".

(2) Section 14(b)(2) (7 U.S.C. 136l(b)(2)) is amended (A) by striking out "$1,000" and inserting in lieu thereof "$2,000", and (B) by striking out "30" and inserting in lieu thereof "60".

(c) SUBPOENAS.—Section 14(a) (7 U.S.C. 136l(a)) is amended by adding at the end the following:

"(6) SUBPOENAS.—The Administrator, in connection with administrative proceedings under this subsection, may issue subpoenas compelling the attendance and testimony of witnesses and subpoenas duces tecum and may request the Attorney General to bring an action to enforce any subpoena issued under this paragraph. The district courts of the United States shall have jurisdiction to enforce such subpoenas and impose sanctions.".

SEC. 810. CONGRESSIONAL REVIEW.

Section 25(a)(4) (7 U.S.C. 136w(a)(4)) is amended to read as follows:

"(4) CONGRESSIONAL REVIEW OF REGULATIONS.—Simultaneously with the promulgation of any rule or regulation under this Act, the Administrator shall transmit a copy thereof to the Secretary of the Senate and the Clerk of the House of Representatives. The rule or regulation shall not become effective until the passage of 60 calendar days after the rule or regulation is so transmitted.".

SEC. 811. REVIEW OF REGULATIONS.

Section 16 (7 U.S.C. 136n) is amended by adding at the end thereof the following:

"(e) REVIEW OF REGULATIONS.—

"(1)(A) Any regulation issued under this Act and first published in the Federal Register in final form after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986 shall be reviewable only as provided by this subsection. Any person may obtain judicial review of the regulation by filing a petition for review in the United States court of appeals for the circuit wherein the person resides or has its principal place of business or in the United States Court of Appeals for the District of Columbia Circuit. Any petition under this paragraph for review of a regulation shall be filed within 120 days after the date of promulgation of the regulation as designated by the Administrator in the Federal Register.

"(B) Any refusal by the Administrator of a petition to modify or rescind a regulation issued under this Act shall be reviewable only as provided by this subsection. Any person may obtain judicial review of the refusal by filing a petition for review in the United States court of appeals for the circuit wherein the person resides or has its principal place of business or in the United States Court of Appeals for the District of Columbia Circuit. Any such petition for review of a refusal to modify or rescind a regulation shall be filed within 120 days after such refusal.

"(C) The scope of review under subparagraph (A) or (B) shall be as specified in section 706 of title 5, United States Code. The commencement of a proceeding under subparagraph (A) or (B), unless specifically ordered by the court to the contrary, shall not operate as a stay of the regulation.

"(2) A regulation issued by the Administrator or a refusal by the Administrator of a petition to modify or rescind a regulation issued under this Act shall not be subject to judicial review—

"(A) in any suspension, cancellation, or denial proceeding under this Act or in any appeal therefrom, or

"(B) in any proceeding under section 13 or 14(a), or subsection (c), or in any appeal therefrom except on request of a person who, as an agricultural producer, is adversely affected by such action.

"(3) If a person who is a party to a proceeding described in subparagraph (A) or (B) of paragraph (2) that is based on a regulation issued under this Act petitions the Administrator to modify or rescind such regulation, the application of such regulation in the proceeding shall be stayed until the Administrator issues a final decision on the petition.

"(4) As used in this subsection, the term 'agricultural producer' means a nongovernmental producer of agricultural commodities who (A) uses or supervises the use of any pesticide for the production of such commodities on property owned or rented by the producer or the producer's employer, or (B) without compensation other than the trading of personal services, assists another agricultural producer with the application of pesticides on such producer's land.".

SEC. 812. DELEGATION AND COOPERATION.

Section 22 (7 U.S.C. 136t) is amended by adding at the end the following:

"(c) EFFECT ON CERTAIN OTHER LAWS.—The Administrator, in exercising any authority under this Act, shall not, for the purposes of section 4(b)(1) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 653(b)(1)), be deemed to be exercising statutory authority to prescribe or enforce standards or regulations affecting occupational safety or health to the extent that the Administrator and the Secretary of Labor by agreement specify that such exercise of authority by the Administrator under this Act is not to be considered an exercise of statutory authority for purposes of section 4(b)(1). To ensure the safety and health of workers, the Administrator and the Secretary of Labor shall seek to reach such agreements and to coordinate the exercise of their statutory authority.".

SEC. 813. INDEMNITY REPORT BY EPA.

Section 15 (7 U.S.C. 136m) is amended by adding at the end the following:

"(c) REPORT.—If the Administrator takes an action that under subsection (a) requires the payment of indemnification, the Administrator shall report to the Committee on Agriculture of the House of Representatives, the Committee on Agriculture, Nutrition, and Forestry of the Senate, and the Committees on Appropriations of the House of Representatives and the Senate—

"(1) the action taken that requires the payment of indemnification,

"(2) the reasons for taking such action,

"(3) the estimated cost of the payment,

"(4) the effect such payment would have on the budget of the Administrator to implement this Act without a specific additional appropriation for the payment, and

"(5) a request for the appropriation of funds for such payment.".

SEC. 814. GROUNDWATER AUTHORITY.

The Act (as amended by section 202) is amended by adding after section 31 the following:

"SEC. 32. GROUNDWATER AUTHORITY.

"(a) IN GENERAL.—The Administrator, as appropriate and necessary, shall use the authorities under this Act to provide for the

protection of drinking water and groundwater against contamination by pesticides.

"(b) USE OF OTHER AUTHORITIES.—In carrying out subsection (a), the Administrator shall use maximum contaminant levels established under title XIV of the Public Health Service Act, whenever available, as groundwater residue guidance levels.

"(c) CONSULTATION WITH STATES.—In carrying out subsection (a), the Administrator shall consult with, and take into account the views of, the States on—

"(1) the distinction between drinking water, shallow groundwater that is not a potential source of drinking water, and groundwater that is a potential source of drinking water,

"(2) degradation of pesticides in groundwater, and

"(3) appropriate means for responding to and preventing pesticide contamination of drinking water and groundwater.

"(d) CONSULTATION WITH SECRETARY OF AGRICULTURE.—In carrying out subsections (a) and (c), the Administrator shall consult with the Secretary of Agriculture.".

SEC. 815. WORKER HEALTH AND SAFETY.

Section 25 (7 U.S.C. 136w) is amended by adding at the end the following:

"(f) WORKER HEALTH AND SAFETY.—

"(1)(A) The Administrator, as soon as practicable, shall promulgate regulations that require the protection, as appropriate and necessary, of employees who mix, load, or apply pesticides and agricultural employees who work in pesticide-treated areas.

"(B) The Administrator shall promulgate regulations that provide for the training, as appropriate and necessary, of employees who mix, load, or apply pesticides. Any training requirement that may be established by the Administrator under this subparagraph shall not apply to any person who is required to receive the training described in subsection (d) or (e) of section 4.

"(C) For purposes of subparagraphs (A) and (B), the term 'employees' does not include employees occupationally exposed to pesticides or pesticide residues as a result of the use of pesticides on livestock or other animals.

"(2)(A) The Administrator shall promulgate regulations under paragraph (1) for employees not described in subparagraph (B) not later than 3 years after the date of enactment of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986.

"(B) The Administrator shall provide a period of at least 6 months for comments on proposed regulations issued under paragraph (1) that apply to agricultural employees who mix, load, or apply pesticides or who work in pesticide-treated areas. Such regulations shall be promulgated not later than 2 years after the date of enactment of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986.

"(3) Not later than 6 months after the date of the publication of the notice of proposed rulemaking issued for the regulations for employees described in paragraph (2)(B) to be promulgated under paragraph (1), the Secretary of Agriculture shall submit to the Administrator a report on the impact, cost, and effectiveness of such regulations on the agricultural community. The Secretary shall submit a copy of such report to Congress.

"(4) Simultaneously with the promulgation of regulations under paragraph (1), the Administrator shall transmit a copy of such regulations to the Secretary of the Senate and the Clerk of the House of Representatives. Such regulations may not become effective until the expiration of 120 days after the date such regulations are so transmitted.".

SEC. 816. AUTHORIZATION FOR APPROPRIATIONS.

Effective October 1, 1986, section 33 (7 U.S.C. 136y) (as redesignated by section 202(b)) is amended to read as follows:

"SEC. 33. AUTHORIZATION FOR APPROPRIATIONS.

"There is authorized to be appropriated to carry out this Act (other than sections 23(a) and 31) $78,363,500 for fiscal year 1987, of which not more than $13,735,500 shall be available for research under this Act, $87,414,200 for fiscal year 1988, of which not more than $14,343,600 shall be available for research under this Act, $91,673,400 for fiscal year 1989, of which not more than $14,978,200 shall be available for research under this Act, $98,305,800 for fiscal year 1990, of which not more than $15,625,900 shall be available for research under this Act, and $106,808,700 for fiscal year 1991, of which not more than $16,300,100 shall be available for research under this Act.".

Subtitle B—Other Provisions

SEC. 821. LIABILITY.

(a) PESTICIDE USE.—An agricultural producer shall not be liable in any action brought after the effective date of this Act under any Federal statute for damages caused by pesticide use unless the producer has acted negligently, recklessly, or intentionally. Proof that the agricultural producer used the pesticide in a manner consistent with label instructions shall create a rebuttable presumption that the agricultural producer did not act negligently.

(b) FIFRA PENALTIES.—An agricultural producer shall not be held liable in an action brought under section 14 of the Federal Insecticide, Fungicide, and Rodenticide Act for civil penalties for a violation of section 12(a)(2)(G) of such Act unless the producer used the pesticide in a manner inconsistent with its labeling. Proof that the pesticide was used in a manner consistent with its label instructions shall create a rebuttable presumption that the agricultural producer did not violate such subsection.

(c) DEFINITION.—As used in this section, the term "agricultural producer" means a nongovernmental producer of agricultural commodities who (1) uses or supervises the use of any pesticide for the production of such commodities on property owned or rented by the producer or the producer's employer, or (2) without compensation other than the trading of personal services, assists another agricultural producer with the application of pesticides on such producer's land.

SEC. 822. EVALUATION BY THE COMPTROLLER GENERAL.

(a) EVALUATION.—The Comptroller General of the United States shall conduct an evaluation of the programs and activities authorized by the amendments to the Federal Insecticide, Fungicide, and Rodenticide Act made by this Act and shall make a final report of such evaluation to Congress no later than December 31, 1988. The Comptroller General shall include in such evaluation the effect that the Federal Insecticide, Fungicide, and Rodenticide Act, as amended by this Act, is having on the cost and availability of pesticides to farmers as well as other producers of food and fiber. Such evaluation shall include an analysis of the reregistration program under such Act and any program conducted by the Administrator of the Environmental Protection Agency under such Act relating to groundwater.

(b) RECORDS.—For the purpose of conducting program evaluations required under subsection (a), the Comptroller General, or the duly authorized representatives of the Comptroller General, shall have access to and the right to examine all documents, papers, records, data, pesticide study documentation, or other recorded information within the possession or control of the Administrator of the Environmental Protection Agency or within the possession or control of pesticide registrants subject to regulation under the Federal Insecticide, Fungicide, and Rodenticide Act. The Comptroller General and the representatives of the Comptroller General shall be subject to the same restrictions regarding the disclosure of trade secret information as are the employees of the Environmental Protection Agency.

SEC. 823. IR4 PROGRAM.

Section 2(c) of the Act of August 4, 1965 (7 U.S.C. 450i(c)), is amended by inserting before the first sentence after paragraph (2) the following: "The Secretary in making grants under paragraph (2)(B) shall provide support for the interregional project number 4 program (commonly referred to as the 'IR4 program').".

SEC. 824. PESTICIDE RISK RATING.

(a) STUDY.—Subject to subsection (b), the Administrator of the Environmental Protection Agency shall contract with the Board of Agriculture of the National Academy of Sciences to conduct a study to determine the feasibility of establishing an environmental risk rating for pesticides used in the production of agricultural commodities. Such risk rating shall take into consideration methods of application, chronic and acute toxicity, and anticipated losses to and persistence in the environment. In conducting the study, the National Academy of Sciences shall seek information and advice from recognized public and private sector scientists and provide opportunity for public comment on the preliminary findings relating to the development of a risk rating. The National Academy of Sciences shall report the findings of such study to the Administrator and to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate within 18 months after the date of the enactment of this Act.

(b) LIMITATION.—The study required by subsection (a) shall be conducted at such cost as the Administrator, in consultation with the National Academy of Sciences, may establish.

(c) CONTRACT AUTHORITY.—The authority of the Administrator to enter into contracts under this section shall be effective only to such extent or in such amounts as are provided in advance in appropriation Acts.

SEC. 825. STUDY OF NONAGRICULTURAL PESTICIDES.

The Administrator of the Environmental Protection Agency shall study and report to Congress within one year after the date of the enactment of this Act on the pesticide volume, use sites, and target insects for nonagricultural pesticides.

SEC. 826. DIOXIN STUDY.

The Administrator of the Environmental Protection Agency shall collect and analyze samples of human breast milk for residues of isomers of chlorinated dioxins and dibenzofurans. Not later than 2 years after the date of the enactment of this Act, the Administrator shall report to Congress the findings from the analysis of such samples.

SEC. 827. PESTICIDE DRIFT.

The Administrator of the Environmental Protection Agency, within 2 years after the date of enactment of this Act, shall report to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate on the incidence and potential adverse effects on human health and the environment of the drift of pesticides from the site of application at the time of application.

SEC. 828. SURVEY OF NATURALLY OCCURRING AGENTS THAT ACT AS PESTICIDES.

The Administrator of the Environmental Protection Agency shall conduct a survey to determine what research has been, or is being, conducted to establish the extent to which agents that act as pesticides are manufactured by plants and thereby exist naturally in fruits, vegetables, grains, legumes, and oilseeds commonly consumed by persons in the United States. The Administrator shall provide a report on the findings of the survey to the Committee on Agriculture of the House of Representatives and to the Committee on Agriculture, Nutrition, and Forestry of the Senate not later than December 31, 1987, and shall release such findings to the public. The report shall include information on the extent to which such naturally occurring agents have been identified, the nature of such agents, and the extent to which such agents have been shown to be toxic, carcinogenic, or mutagenic.

The CHAIRMAN. Are there any amendments to title VIII?

AMENDMENT OFFERED BY MR BEDELL

Mr. BEDELL. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. BEDELL: Page 134, strike out line 5 and all that follows through line 6 on page 135 and insert in lieu thereof the following:

SEC. 814. GROUNDWATER AUTHORITY.

(a) DEFINITIONS.—Section 2 (7 U.S.C. 136) (as amended by section 802) is amended by adding at the end the following:

"(11) GROUNDWATER.—The term 'groundwater' means water below the land surface in a zone of saturation.

"(mm) RELIABLE ANALYTICAL DATA.—The term 'reliable analytical data' means scientific information that verifies the presence of a pesticide in a groundwater sample and that is of a reliable scientific quality according to generally recognized standards and good laboratory practices for sampling and analysis of pesticides in groundwater.

"(nn) POTENTIAL SOURCES OF DRINKING WATER.—The term 'potential sources of drinking water' means the portion of an aquifer or aquifer system that contains sufficient quantity and is of sufficient quality to supply potable water to a drinking water well, taking into account (1) geographic considerations and depth to drinking water, (2) and State criteria or guidelines for siting new wells established under section 1428 of the Pacific Health Service Act or other State authority, and (3) shallow groundwater that is not potential drinking water.

"(oo) DRINKING WATER WELL.—The term 'drinking water well' means a well or spring currently supplying water for human consumption.

"(pp) GROUNDWATER SAMPLING POINT.—The term 'groundwater sampling point' means a public or community water supply, a private water supply, a spring, or a monitoring well or other groundwater source if the well or source is reasonably designed and of adequate depth to permit the collection of representative groundwater samples.

"(qq) GROUNDWATER RESIDUE GUIDANCE LEVEL.—The term 'groundwater residue guidance level' means groundwater residue guidance level established under section 1429 of the Public Health Service Act.".

(b) AUTHORITY.—The Act (as amended by section 202) is amended by adding after section 31 the following:

"SEC. 32. PROTECTION OF GROUNDWATER.

"(a) NOTIFICATION.—

"(1) REQUIREMENT.—When a registrant of a pesticide obtains or learns of reliable analytical data that a pesticide has—

"(A) been detected at any groundwater sampling point and no groundwater residue guidance level has been issued for the pesticide under subsection (e),

"(B) has been detected at a groundwater sampling point at a concentration higher than known previously to have been reported to the Administrator at such groundwater sampling point, or

"(C) has been detected at any groundwater sampling point at a concentration at or greater than 20 percent of the groundwater residue guidance level issued for the pesticide under subsection (e),

the registrant shall file a report containing such information within 15 working days with both the Administrator, the State in which the groundwater sampling point is located, and the owner of the property in which the groundwater sampling point is located, if known.

"(2) CONTENT OF REPORT.—A report required by paragraph (1) for detection of a pesticide shall contain information known to the registrant of the pesticide on the level of detection of the pesticide, the frequency of detection of the pesticide, location (including depth) where the pesticide was detected, date of the pesticide detection, well construction if the pesticide was detected in a well, soil type where the pesticide was detected, and analytical method used to make the pesticide detection, including information on the precision, accuracy, and limits of the method of detection and any quality assurance and control procedures used in the pesticide detection.

"(b) REVIEW FOR FURTHER ACTION.—Upon receiving information of a detection of a pesticide at any groundwater sampling point, the Administrator shall promptly review the information to determine the reliability of the detection and to determine whether further action should be taken to protect groudwater.

"(c) MONITORING.—

"(1) CONFIRMATION OF DETECTIONS.—If the Administrator receives reliable, analytical data indicating that—

"(A) a pesticide has been detected in a drinking water well,

"(B) the concentration of the pesticide equals or exceeds any groundwater residue guidance level issued under subsection (d) for that pesticide, and

"(C) the presence of the pesticide in the drinking water well may be the result of use of the pesticide in accordance with the labeling on the pesticide or widespread and commonly recognized practices involving the pesticide,

the Administrator may require the registrant of the pesticide detected to conduct such analysis of samples of groundwater from the drinking water well involved as is necessary to determine whether the pesticide is present at a concentration that equals or exceeds such groundwater residue guidance level. A monitoring requirement imposed under this paragraph shall be completed within 90 days of notice to the registrant. The procedures of section 3(c)(2)(B) shall govern any monitoring requirement imposed under this paragraph.

"(2) REQUIREMENT FOR MONITORING.—If the Administrator determines that additional data on the presence of a pesticide in groundwater are required to maintain in effect an existing registration of the pesticide, the Administrator may, under section 3(c)(2)(B), require the registrant of the pesticide to conduct groundwater monitoring. The Administrator shall consult with the Secretary of Agriculture, the heads of other appropriate Federal agencies, and the States concerning the design and scope of monitoring requirements imposed under this paragraph. The design and the scope of the monitoring requirement should take into account all relevant information, including the magnitude and frequency of the detection of the pesticide involved, pattern of pesticide use and soil types involved in the detection, physical and chemical properties of the pesticide, rainfall patterns, well construction if the pesticide was detected in a well, rates of degradation, reliability and analytical accuracy of the detection, and results of State or other sponsored monitoring. To the extent feasible, monitoring should be at representative geographical and hydrogeological areas associated with locations and conditions of concern as determined by the Administrator.

"(3) JUDICIAL REVIEW.—Monitoring requirements imposed under paragraph (2) shall be subject to judicial review under section 16.

"(d) RESPONSE TO GROUNDWATER CONTAMINATION.—

"(1) REQUIREMENT.—If the Administrator determines that a pesticide is present in a drinking water well at a concentration that exceeds the final groundwater residue guidance level applicable to the pesticide and that the presence of the pesticide in the drinking water well may be the result of use of the pesticide in accordance with the labeling on the pesticide or as a result of widespread and commonly recognized practice involving the pesticide, the Administrator shall notify the State in which the drinking water well is located of the Administrator's determination and shall provide it with all information relevant to the determination. Such State shall take action within 90 days of such notification to prevent potential adverse effects on human health and the environment from such pesticide. In taking such action, the State shall take appropriate action regarding the sale or use of the pesticide detected at such drinking water well to bring and retain concentrations of the pesticide at such drinking water well at or below the final groundwater residue guidance level applicable to the pesticide.

"(2) ACTION BY THE ADMINISTRATOR.—

"(A) if a State does not have the authority to take the action required by paragraph (1) with respect to a pesticide detected in a drinking water well or fails to take such action within the time period prescribed by such paragraph, the Administrator shall take appropriate action under this Act to bring and retain the concentration of the pesticide detected at such drinking water well at or below the final groundwater residue guidance level applicable to the pesticide and may take such other action under this Act as the Administrator deems necessary to prevent potential adverse effects on human health and the environment from

the pesticide. If the Administrator takes such action, the Administrator shall publish notice of the action in the Federal Register and take appropriate steps to inform the registrant of the pesticide involved, potentially affected persons, and interested members of the public. Such notice shall specify the findings and conclusions upon which such action was based.

"(B) Any person adversely affected by action taken under subparagraph (A) or the failure of the Administrator to take such action may request an expedited hearing, under the procedures in section 6(c)(2), to determine whether the action was taken in accordance with subparagraph (A) or whether the Administrator was required to take action. Such a hearing shall be held and a determination made within 75 days from the date of the receipt of the request for the hearing.

"(C) The Administrator shall provide reasonable procedures for petitions to modify or terminate an action taken under subparagraph (A) when the drinking water well involved no longer has the pesticide in a concentration that exceeds the applicable groundwater residue guidance level and will likely remain below such level.

"(3) JUDICIAL REVIEW.—Judicial review of actions taken under this subsection shall be governed by section 16.

"(e) REGISTRATION AMENDMENTS.—

"(1) REQUIREMENT.—

"(A)(i) After reviewing reliable analytical data, the Administrator shall determine whether there is a reasonable likelihood that the groundwater residue guidance level for a pesticide will be exceeded in drinking water wells in different localities. If the Administrator determines that there is a reasonable likelihood that the groundwater residue guidance level for a pesticide will be exceeded in drinking water wells in different localities, the Administrator shall promptly require amendments to the registration of the pesticide with respect to which the finding was made that are reasonably necessary to ensure that use of the pesticide in accordance with the amended registration will not cause the final groundwater residue guidance level involved in the finding to be exceeded in drinking water wells. The Administrator shall make any such determination public.

"(ii) If the Administrator proposes to require registration amendments under clause (i) for a pesticide, the Administrator shall notify the registrant of the pesticide of such amendments and shall publish notice of such proposal in the Federal Register. Such notice shall include the Administrator's determination whether the presence of the pesticide in drinking water wells appears to have been the result of the use of the pesticide in accordance with its labeling or the result of widespread and generally recognized practice.

"(B) After reviewing reliable analytical data, the Administrator shall determine whether there is a reasonable likelihood that the groundwater residue guidance level for a pesticide will be exceeded in potential drinking water in different localities. If the Administrator determines that there is a reasonable likelihood that the groundwater residue guidance level for a pesticide will be exceeded in potential drinking water in different localities, the Administrator shall promptly require amendments to the registration of the pesticide with respect to which the finding was made that are reasonably necessary to ensure that use of the pesticide in accordance with the amended registration will not cause the final groundwater residue guidance level involved in the finding to be exceeded in potential drinking water. If the Administrator proposes to require registration amendments under this subparagraph for a pesticide, the Administrator shall notify the registrant of the pesticide of such amendments. In establishing such amendments, the Administrator shall—

"(i) meet the procedural requirements of subparagraph (A)(ii),

"(ii) take into account information submitted by States on land or groundwater use classification or other governmental actions that could affect when groundwater may be used for drinking water, and

"(iii) consider the views of the Secretary of Agriculture, the heads of other appropriate Federal agencies, and States as required in paragraph (2).

"(2) CONSULTATION WITH STATES.—In taking action under paragraph (1), the Administrator shall consult with the Secretary of Agriculture and the State where the pesticide involved has been detected in any groundwater sampling point and each other State in which there is significant use of the pesticide. The Administrator shall notify such State of the Administrator's determination that there is a reasonable likelihood that a groundwater residue guidance level will be exceeded and shall, in accordance with section 10(h), provide the State with all information relevant to this determination. Each State that is notified under this paragraph shall promptly provide the Administrator with information that is relevant to taking action under paragraph (1) and shall make recommendations with respect to any proposed registration amendments.

"(3) SCOPE OF AMENDMENTS.—

"(A) Amendments to the registration of a pesticide under paragraph (1) may include—

"(i) limitations on the purposes for and locations at which the pesticide may be used, considering factors such as environmentally sensitive areas and conditions,

"(ii) limitations on the rate at which the pesticide is applied,

"(iii) limitations on the time or frequency of pesticide use,

"(iv) limitations on the method of pesticide application, storage, handling, or disposal,

"(v) reporting or other requirements, including label changes or changes in classification,

"(vi) requirements for the training or certification of pesticide applicators or other persons using the pesticide,

"(vii) required site specific responses, or

"(viii) any other requirement to ensure that the applicable groundwater residue guidance level will not be exceeded.

"(B) Amendments to the registration of a pesticide under paragraph (1) should, to the extent feasible, be directed to the same or similar use of the pesticide, same or similar geographical and hydrogeological areas, and other similar conditions that led to the determination under subparagraph (A) or (B) of paragraph (1).

"(C) In taking regulatory action under paragraph (1), the Administrator may use recommendations made by a State under paragraph (2).

"(D) In requiring amendments to the registration of a pesticide under paragraph (1), the Administrator shall consider the effect of any voluntary actions by registrants or other persons, including actions by a State, to prevent the groundwater residue guidance level involved from being exceeded and to comply with other environmental laws.

"(4) PROCEDURE.—Registration amendments under paragraph (1) shall be imposed in accordance with the procedural requirements of this Act.

"(f) INFORMATION ON PESTICIDES IN GROUNDWATER.—The Administrator may collect and make available through a public information file information concerning the detection of pesticides in any groundwater sampling point. The file may, among other things, summarize for each pesticide that has been detected in groundwater, based on reliable analytical data, whether the pesticide has been detected at a concentration that exceeds the applicable groundwater residue guidance level and whether the presence of the pesticide in groundwater appears to have been caused by the use of the pesticide in compliance with this Act.

"(g) TECHNICAL ASSISTANCE TO STATES.—The Administrator shall provide technical information to States to assist in implementing this section. Subject to section 10(h), the technical information provided respecting a pesticide shall include data on the toxicity, environmental fate, or physical or chemical characteristics of the pesticide, predictive modeling, exposure and other relevant subjects. In addition, the Administrator shall provide information, to the extent reasonably available, on alternative methods of pest control and on agricultural or other management practices that could minimize the presence of pesticides in groundwater.

"(h) SPECIAL REVIEW.—Upon receiving reliable analytical data that a pesticide has been detected above the applicable groundwater residue guidance level but not in a drinking water well or potential drinking water, the Administrator may initiate a public interim administrative review under section 3(c)(8) to determine whether the pesticide may cause unreasonable adverse effects on the environment from such use.

"(i) EFFECT ON OTHER PROVISIONS.—Nothing in this section shall limit the authority of the Administrator or of any State under other provisions of this Act or under any other law.".

(c) GROUNDWATER RESIDUE GUIDANCE LEVEL.—Section 1412 of the Public Health Service Act is amended by adding at the end the following:

"(f)(1) The Administrator, on the Administrator's own initiative, may issue a groundwater residue guidance level for a pesticide registered under the Federal Insecticide, Fungicide, and Rodenticide Act. The Administrator shall issue a groundwater residue guidance level for a pesticide whenever the Administrator registers or reregisters a pesticide under such Act if the Administrator determines that the pesticide has the potential to leach into groundwater. In addition, the Administrator shall issue a groundwater residue guidance level of a pesticide if—

"(A) based on reliable analytical data, the pesticide has been detected at groundwater sampling points in 3 different geographical areas,

"(B) based on reliable analytical data, the pesticide has been detected in a drinking water well or wellfield that serves a population of over 500 people, or

"(C) a Federal agency or a State petitions the Administrator to set a groundwater residue guidance level for the pesticide.

(2)(A) If the Administrator has promulgated or promulgates a maximum contaminant level under subsection (b)(3) that applies to a pesticide, the groundwater residue

guidance level required under paragraph (1) for the pesticide shall be set at such level within 30 days of being required under such subsection.

"(B) If a maximum contaminant level that would be applicable to a pesticide for which a groundwater residue guidance level is required by paragraph (1) has not been established under subsection (b)(3), the Administrator, in the Administrator's discretion, may use a health advisory level established under this Act in establishing such groundwater residue guidance level. The groundwater residue guidance level established by the Administrator for such pesticide shall reflect the level of the pesticide in drinking water at which no known or anticipated adverse effects on the health of persons occur, the need for an adequate margin of safety, the nature of the toxic effects caused by the pesticide, and the validity, completeness, and adequacy of data about the pesticide. If all required chronic, oncogenicity, reproduction, or teratogenicity data are absent or invalid for the pesticide, the groundwater residue guidance level for the pesticide shall be at the limit of detection. If any required chronic, oncogenicity, reproduction, or teratogenicity data are absent or invalid for the pesticide, the groundwater residue guidance level for the pesticide shall include an additional margin of safety that takes into account the absence of such data.

"(3)(A) Before issuing a final groundwater residue guidance level for a pesticide, the Administration shall publish an interim groundwater residue guidance level for the pesticide in the Federal Register and allow public comment for at least 30 days. During the public comment period, the Administrator shall invite comment on the level involved from the Secretary of Agriculture and States.

"(B) If the Administrator is required under paragraph (1) to issue a groundwater residue guidance level for a pesticide and the groundwater residue guidance level is to be issued under paragraph (2)(B), the Administrator shall issue an interim groundwater residue guidance level for the pesticide within 30 days after the requirement to issue the groundwater residue guidance level takes effect.

"(C) Within 3 months after establishing an interim groundwater residue guidance level, the Administrator shall establish a final groundwater residue guidance level. Until a final groundwater residue guidance level is established under paragraph (1) for a pesticide, an interim groundwater residue guidance level established for the pesticide shall remain in effect.

"(4) The Administrator may revise a groundwater residue guidance level for a pesticide. The Administrator shall allow at least 30 days for public comment on any proposed revision.

"(5) An interim groundwater residue guidance level shall not be subject to judicial review before the expiration of 3 months after its issuance. Judicial review of any final groundwater residue guidance level or failure to establish an interim or final groundwater residue guidance level shall be governed by section 1448. A groundwater residue guidance level established under paragraph (2)(A) shall not be subject to judicial review.".

Page 131, line 7, strike out "or", in line 10 strike out the period and insert in lieu thereof "; or", and after line 10 insert the following:

"(U) to violate any action required under section 32(e)(2).".

Mr. BEDELL (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Iowa?

There was no objection.

Mr. BEDELL. Mr. Chairman, this amendment is intended to provide a framework for monitoring and responding to pesticide contamination in ground water. Consistent with current authority under FIFRA, the thrust of the amendment is to regulate use of the pesticide found in ground water, rather than to regulate ground water itself as provided under other environmental statutes.

Briefly, the amendment requires those holding pesticide registrations to report to EPA and the States any reliable analytical data that indicates that pesticides have been discovered in ground water. In addition, EPA must establish certain trigger levels—called ground water residue guidance levels [GRGL's]—that would force action by the States and EPA in response to potentially harmful levels of pesticides detected in ground water.

If the EPA Administrator determines that a pesticide is present in a drinking water well at a level that exceeds the ground water residue guidance levels, the Administrator must notify the State in which the contamination occurs and allow the State 90 days to take action to address the problem. The State must act to prevent potential adverse effects on human health and the environment, and must seek to bring the level of pesticide contamination at or below the ground water residue guidance level. In taking steps to reduce contamination below the guidance level, the State has authority to regulate the sale or use of the pesticide.

If the State does not act as required then the EPA Administrator must use authority under FIFRA to bring and retain the concentration of the pesticide in the drinking water well below the ground water residue guidance level or take such other actions under FIFRA as the Administrator deems necessary to prevent adverse effects on human health and the environment.

In cases where the Administrator believes, based on reliable analytical data, that a ground water residue guidance level for a pesticide will be exceeded in drinking water wells or potential drinking water wells in different localities, the Administrator must promptly require amendments to the registration of the pesticide in order to ensure that the guidance levels will not be exceeded.

In determining whether there is a "reasonable likelihood" that the ground water residue guidance level will be exceeded, the Administrator shall consider the concentration of the pesticide detected relative to the ground water residue guidance level. There shall be a presumption that pesticides detected above 25 percent of the ground water residue guidance level meet the "reasonable likelihood" standard, unless the Administrator determines that the reasonable likelihood standards has not been met after considering the circumstances surrounding the presence of the pesticide in ground water, taking into account all relevant information, including the frequency and time of occurrence at the site of detection and elsewhere, use patterns, soil types, physical and chemical properties of the pesticide, rainfall patterns, well construction, analytical accuracy, and rates of degradation.

Mr. Chairman, throughout this amendment, EPA is directed to work with the States, the Department of Agriculture, and affected individuals to assure that pesticide contamination in ground water is addressed in a manner that recognizes the special local and regional nature of ground water problems.

Finally, Mr. Chairman, I would like to emphasize that in crafting this amendment, considerable care was given to working within existing FIFRA authority to regulate use of the detected pesticide. Responsibility for addressing problems related to ground water per se is left to the authorities under other environmental statutes.

I urge adoption of the amendment.

□ 1045

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. BEDELL. I yield to the gentleman from Kansas.

Mr. ROBERTS. Mr. Chairman, I would like to associate myself with the remarks of my friend and colleague, and want to inform my colleagues we have no objection to this amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Iowa [Mr. BEDELL].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. ROBERTS

Mr. ROBERTS. Mr. Chairman, I offer an amendment.

The CHAIRMAN. Has this amendment been printed in the RECORD?

Mr. ROBERTS. The amendment has been printed in the RECORD, Mr. Chairman.

The Clerk read as follows:

Amendment offered by Mr. ROBERTS: Section 821(a) of the text of H.R. 5440 (the Amendment in the Nature of a Substitute to H.R. 2482), is amended (page 138, lines 2 through 10) to read as follows:

"SEC. 821. LIABILITY FOR LAWFUL APPLICATION

(a) PESTICIDE USE AND NO PRIVATE RIGHT OF ACTION.—(1) Liability under Federal environmental statutes for the costs of response

or damage incurred with respect to a release or threatened release into the environment of a pesticide shall, in any case where the application was in compliance with label instructions and other applicable law, be imposed on the registrant or other responsible parties, not the agricultural producer. There shall be a rebuttable presumption that the application was in compliance with label instructions and otherwise lawful. For purposes of the preceding sentence, the terms "damages", "response", "release", and "Environment" shall have the meanings assigned them of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980. The term "Federal environmental statutes" means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, the Clean Water Act, the Resource Conservation and Recovery Act, the Safe Drinking Water Act, and this Act. Neither this section nor any other provision of this Act shall be construed, interpreted or applied to preempt or, except as provided above, displace liability under other Federal, or State laws, whether statutory or common.

(2) Nothing in this section shall be construed as conferring a private right of action on any person for the purposes of this Act or any other Federal law.

Mr. ROBERTS (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Kansas?

There was no objection.

Mr. ROBERTS. Mr. Chairman, I have an amendment at the desk dealing with producer liability. FIFRA is an agricultural statute that spells out the rights, duties, and responsibilities of agricultural producers who apply pesticides. FIFRA is a licensing statute for agricultural chemicals.

A chemical manufacturer of pesticides applies for a registration and a label from the Environmental Protection Agency. The EPA approves that label, which the farmer is bound by FIFRA to follow or he will be in violation of Federal law and subject to penalty. Implicit in this is the simple fact that under FIFRA as long as the producer can prove in a court of law that he has applied the pesticide in accordance with label instructions the farmer is not liable for monetary damages, equitable remedies such as providing a table water, site cleanup costs, and any other remedies that do not include criminal penalties or fines.

However, in recent years the question of liability and the meaning of the pesticide label has come in to question on issue of farmer liability. The amendment I am offering today would say that if the farmer can prove that he has applied the pesticide according to the label, then the liability for damages will be shifted to the registrant and other responsible parties who created and approved the label.

The question can be raised, does my amendment leave the public unprotected? It does not. My amendment merely allocates responsibility among the parties according to the circumstances which are under their responsibility and control. Contamination by a pesticide arises from one of two sources—either the product is unsafe, or it was not used properly. If the product was unsafe the manufacturer should be held liable; if the product was not used according to label instructions then the farmer is held liable. Either way the public is protected.

I understand that this provision also clarifies the problems that other committees have with the liability section contained in the bill.

I urge my colleagues to support this amendment. This amendment merely shifts the liability to where it belongs—the manufacturer of pesticides or the producer who has not acted responsibly in applying and using the pesticide.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. ROBERTS. I yield to the gentleman from Iowa.

Mr. BEDELL. Mr. Chairman, I want the gentleman from Kansas to know that I certainly support the amendment. I think it is an excellent amendment, and we support it on this side.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. ROBERTS. I yield to the chairman of the full committee, the gentleman from Texas.

Mr. DE LA GARZA. Mr. Chairman, I thank the gentleman for yielding to me.

Mr. Chairman, I have only one question to clarify the legislative intent. Is the thrust of the gentleman's amendment directed only at agricultural producers, at pesticide or chemical use in an agricultural endeavor?

Mr. ROBERTS. That is correct.

Mr. DE LA GARZA. Not in any other use?

Mr. ROBERTS. No; not industrial.

Mr. DE LA GARZA. So when the gentleman says in the text of his amendment not the agricultural producer, that means the initial use, because the beginning language is somewhat broad and does not clearly define, we are speaking of a use solely in an agricultural endeavor?

Mr. ROBERTS. I think the gentleman makes an excellent point. It is the intent of this gentleman and of this amendment to limit the scope of this amendment to that as the gentleman has described.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. ROBERTS. I yield to the gentleman from Iowa.

Mr. BEDELL. Mr. Chairman, I thought the gentleman was offering a slightly different amendment.

Mr. Chairman, I have a substitute which I would like to offer. The only change is one sentence, which reads, "* * * unless the producer has acted negligently, recklessly, or with the intent to misuse such pesticide."

Mr. ROBERTS. Mr. Chairman, I have no objection to that substitute, and am always encouraged when the gentleman is able to improve our mutual legislation.

AMENDMENT OFFERED BY MR. BEDELL AS A SUBSTITUTE FOR THE AMENDMENT OFFERED BY MR. ROBERTS

Mr. BEDELL. Mr. Chairman, I offer an amendment as a substitute for the amendment.

The Clerk read as follows:

Amendment offered by Mr. BEDELL as a substitute for the amendment offered by Mr. ROBERTS: Section 821(a) of the text of H.R. 5440 (the Amendment in the nature of a Substitute to H.R. 2482), is amended (page 138, lines 2 through 10) to read as follows:

SEC. 821. LIABILITY FOR LAWFUL APPLICATION.

(a) PESTICIDE USE AND NO PRIVATE RIGHT OF ACTION.—(1) Liability under Federal environmental statutes for the costs of response or damage incurred with respect to a release or threatened release into the environment of a pesticide shall, in any case where the application was in compliance with label instructions and other applicable law, be imposed on the registrant or other responsible parties, not the agricultural producer, unless the producer has acted negligently, recklessly, or with the intent to misuse such pesticide. There shall be a rebuttable presumption that the application was in compliance with label instructions and otherwise lawful. For purposes of the preceding sentence, the terms "damages", "response", "release", and "environment" shall have the meanings assigned them of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980. The term "Federal environmental statutes" means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, the Clean Water Act, the Resource Conservation and Recovery Act, the Safe Drinking Water Act, and this Act. Neither this section nor any other provision of this Act shall be construed, interpreted or applied to preempt or, except as provided above, displace liability under other Federal or State laws, whether statutory or common.

(2) Nothing in this section shall be construed as conferring a private right of action on any person for the purposes of this Act or any other Federal law.

Mr. BEDELL (during the reading). Mr. Chairman, I ask unanimous consent the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Iowa?

There was no objection.

Mr. BEDELL. Mr. Chairman, this is the very same amendment as was offered by my friend, the gentleman from Kansas, only with the addition of the words, "* * * unless the producer has acted negligently, recklessly, or with the intent to misuse such pesticide," in the body of the amendment.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. BEDELL. I yield to the gentleman from Texas.

Mr. DE LA GARZA. Mr. Chairman, the gentleman from Kansas stated he had no objection, and certainly we have no objection.

The CHAIRMAN. The question is on the amendment offered by Mr. BEDELL as a substitute for the amendment offered by Mr. ROBERTS.

The amendment offered as a substitute for the amendment was agreed to.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Kansas [Mr. ROBERTS], as amended.

The amendment, as amended, was agreed to.

AMENDMENT OFFERED BY MR. GLICKMAN

Mr. GLICKMAN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. GLICKMAN: Page 137, redesignate section 816 as section 817 and insert before line 8 the following:

SEC. 816. ANTIMICROBIAL STANDARDS.

(a) GENERAL.—Section 3 (7 U.S.C. 136a) is amended by adding at the end thereof the following new subsection:

"(h) ANTIMICROBIAL STANDARDS.—

(1) "STANDARDS.—The Administrator shall—

"(A) establish efficacy standards for antimicrobial control agents (including disinfectants) used to control pest microorganisms that pose a threat to human health, including standards for disinfectants used in hospitals and other health care facilities,

"(B) conduct representative monitoring (including testing) of the compliance of the agents with the standards, and

"(C) implement an enforcement program under which the agents must comply with the standards or be prohibited from sale or distribution as an antimicrobial agent.

"(2) DEFINITION.—As used in paragraph (1), the term 'efficacy' means the capacity of an antimicrobial control agent (including a disinfectant) to produce the desired effect or the effectiveness of such an agent.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect 60 days after the date of enactment of this Act.

Page 3, redesignate the item relating to section 816 as an item relating to section 817 and insert before such item the following:

816. Antimicrobial standards.

Page 154, line 3, strike out "after" and insert in lieu thereof "at the end of" and insert after line 4 the following:

"(h) Antimicrobial standards.

"(1) Definition.

"(2) Standards.".

Mr. GLICKMAN (during the reading). Mr. Chairman, I ask unanimous consent the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Kansas?

There was no objection.

Mr. GLICKMAN. Mr. Chairman, I discussed this amendment with Mr. BEDELL and Mr. ROBERTS, and I think the EPA is also agreeable to this amendment, but I want to explain it very quickly.

This amendment would require the Administrator of the EPA to establish, monitor, and enforce efficacy standards for antimicrobial control agents used to control pest microorganisms that pose a threat to human health.

Primarily, once I get through the scientific jargon, what I am talking about here is disinfectants, disinfectants used in hospitals.

More than 3,000 disinfectants are registered with the EPA. They are intended to destroy germs that cause tuberculosis, typhoid fever, pneumonia, blood poisoning, food poisoning, strep throat, influenza and staphylococcus infection. Hospital disinfectants are used to clear floors, walls, bed table tops, medical equipment and certain instruments that are inserted into the body.

For the 3 years before the Federal lab in Beltsville, which did testing on these agents, was closed, the failure rate for disinfectants selected for testing because of questionable effectiveness was 46 percent, 59 percent, and 72 percent for the 3 years.

Without EPA monitoring of efficacy, the current failure rate of antimicrobials is unknown. However, recently the EPA admitted there was a generic efficacy problem, and estimated that there would be a 20-percent failure rate if all registered disinfectants were tested.

□ 1055

Let me just state the problem is very serious. Disinfectants, if they fail to kill bugs, germs, they create an enormous possibility for infections in medical facilities around this country. In fact, during the past 5 to 10 years, we have had a dramatic increase in infections in hospitals in America. There may be other reasons for this, but the purpose of the amendment is merely to require the EPA to begin this kind of testing program. Again, requiring the Administrator to monitor efficacy requirements for basically disinfectants and antimicrobial control agents in hospitals. The EPA basically says that this is a serious problem, and I am hopeful that the committee will accept the amendment.

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. GLICKMAN. I yield to the gentleman from Kansas.

Mr. ROBERTS. I would like to associate myself with the gentleman's remarks. I know that he has worked long and hard on this amendment, as has his father. In this regard, we have no objections to it.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. GLICKMAN. I yield to the gentleman from Iowa.

Mr. BEDELL. I certainly have no objection and support the amendment and congratulate the gentleman on his amendment.

Mr. SCHEUER. Mr. Chairman, will the gentleman yield?

Mr. GLICKMAN. I yield to the gentleman from New York.

Mr. SCHEUER. I strongly support the gentleman's amendment.

Mr. Chairman, hospitals, some hospitals are becoming quickly places that are dangerous to our health. I think about 20,000 Americans die of these so-called nosocomium infections which are hospital-derived infections. Infections that patients do not have when they go to the hospital but they have as a gift of the hospital when they leave.

This is an urgently needed amendment. When the program was stopped by this administration it was assumed that States would take over the testing, but they have not. There are only four States that have. This is a pitful gap in our arsenal against sickness and death. Even when hospitals want to do the job, and the overwhelming majority of them do; they all do, they do not have the tools to do it because they do not have the resources to do that kind of testing themselves. The States are not doing it. Now that the Federal Government is not doing it, nobody is doing it.

We urgently need this amendment.

Mr. GLICKMAN. Mr. Chairman, I would just make one final comment.

This proposal for testing is supported by industry, the Chemical Specialty Manufacturers' Association and is supported by hospital officials around this country. Now that we are not doing any testing, we jeopardize people who have to go into hospitals. I think we need to start the testing again. Hopefully the amendment will be adopted.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Kansas [Mr. GLICKMAN].

The amendment was agreed to.

The CHAIRMAN. Are there further amendments to title VIII?

AMENDMENT OFFERED BY MR. SCHEUER

Mr. SCHEUER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SCHEUER: Page 143, insert the following after line 5:

SEC. 829. PESTICIDE RESISTANCE MANAGEMENT PROGRAM.

(a) PROGRAM.—The Administrator of the Environmental Protection Agency shall establish a Pesticide Resistance Management Program—

(1) to conduct research on pesticide resistance and pesticide resistance management techniques to control or reduce the development of pesticide resistance,

(2) to develop and demonstrate such management techniques, and

(3) in cooperation with the Secretary of Agriculture, to disseminate information obtained from the Program to appropriate entities, including growers and their organizations, manufacturers, pesticide advisors, pesticide applicators, State agriculture officials, and cooperative State extension services.

In establishing and conducting the Program the Administrator may, as appropriate, consult with the Science Advisory Panel established under section 25(d) of the Federal Insecticide, Fungicide, and Rodenticide Act.

(b) TRAINING REQUIREMENTS.—The Administrator may include training in pesticide resistance and pesticide resistance management techniques as part of the minimum standards established for commercial pesticide applicators by the Administrator under section 4(h) of the Federal Insecticide, Fungicide, and Rodenticide Act.

Page 3, in the table of contents, add after the item relating to section 828 the following:

Sec. 829. Pesticide resistance management program.

Mr. SCHEUER (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. SCHEUER. Mr. Chairman, the bill before us today is an excellent bill and contains many new important programs. It does not, however, address one issue that is becoming increasingly important both to farmers and to environmentalists. That is the alarming increase in the number of insects and other pests which have grown resistant to pesticides and which no longer can be either killed or controlled by pesticides.

Entire classes of once highly effective pesticide compounds have now been rendered entirely useless due to the fact that a genetic defense has been built among the insect and pest population of our country.

Seventeen species of insects are now resistant to all of the five classes of chemical compounds in existence, including the ones that are the result of recent products of highly sophisticated, high-tech research and development.

Already we have no effective pesticides against some major crop pests. In Long Island, for example, in the State in which I serve, New York State, potato farmers have no effective pesticides against one of the potato crop's major insect predators.

The prestigious National Academy of Science warned in a 1986 report:

The bright future for crop protection and public health has resulted in the introduction of synthetic organic pesticides is now open to serious question because of an alarming increase in resistance.

Mr. Chairman, our traditional answer to pesticide resistance; that is, switching to another pesticide, is rapidly becoming impossible because finding effective new chemical pesticides is being made more difficult and more expensive all the time as resistance grows and grows and grows. Compounding this problem and making the problem all the more difficult is the fact that many pests that develop resistance to one group of chemicals also turn out to be resistant to other groups of chemical pesticides.

This tragedy is not just one that afflicts our country; it has global significance. It is represented in human terms, starkly and tragically by the World Health Organization's ill-fated attempt in the 1970's to control malaria mosquitos by the widespread use of DDT.

Now the malarial mosquito is widely resistant to DDT and malaria is surging back in epidemic proportions. Unfortunately, scientists fear that DDT-resistant genes will not only protect mosquitos against DDT but against other pesticides that are available too.

Fortunately, we do have an answer, and scientists all over the world are working on pesticide management techniques. These management techniques can greatly retard the development of pesticide resistance. For example, the National Academy of Science report that I just read from very briefly includes a number of options that can help. Developing new sequences for pesticide applications, and alternating and rotating the use of pesticides.

The amendment that I have proposed would give EPA for the first time explicit authority to address this urgent problem. The amendment will direct the EPA to establish a pesticide resistance management program to conduct research and testing on management methods which can enable us to control the growing pesticide resistance among the insect predators.

The amendment also directs EPA, in consultation with the Secretary of Agriculture, to share the information developed by the program with farmers, farm organizations, and pesticide manufacturers and applicators.

Mr. Chairman, pesticide resistance cannot be dismissed as a future problem. The problem is now. Unless we take action now to reduce the explosive growth of pesticide resistance, we may find ourselves in the 21st century with an exhausted chemical arsenal against pests, facing 19th century ravages of nature on our health, our crops, and our environment.

I urge my colleagues to support this modest step.

Mr. DE LA GARZA. Mr. Chairman, will the gentleman yield?

Mr. SCHEUER. I yield to the gentleman from Texas.

Mr. DE LA GARZA. I apologize for interrupting the gentleman but he has made such a good case and we think that he has a good and positive amendment which contributes and enhances our legislation, we would have no objection to accepting the amendment on this side.

Mr. SCHEUER. I thank the gentleman.

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. SCHEUER. I yield to the gentleman from Kansas.

Mr. ROBERTS. I want to also thank the gentleman for his contribution. The thought occurs to me, I wonder in the legislative history or in the discussion of this bill we can single out the Longworth Building cockroach as one of the first test case studies. I have long been concerned about that; I think that would be an excellent test case to start with right there in regard to the thrust of the gentleman's amendment.

Mr. Chairman, I support the amendment; we have no objection to it.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. SCHEUER. I yield to the gentleman from Iowa.

Mr. BEDELL. I wish to commend the gentleman for not only his amendment but for his interest in so many issues of this type and for the great work he does in that regard.

Mr. SCHEUER. I thank the gentleman from Iowa.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New York [Mr. SCHEUER].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. LEVINE OF CALIFORNIA

Mr. LEVINE of California. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. LEVINE of California: Page 143, insert after line 5 the following:

SEC. 429. STUDY.

The Administrator of the Environmental Protection Agency, in cooperation with the Commissioner of the Food and Drug Administration, shall conduct a thorough evaluation of the health effects of DDT and other contamination of fish in Santa Monica Bay, California and in surrounding waters. The evaluation shall include an assessment of—

(1) the level of contamination of edible fish caught in the Bay and surrounding waters,

(2) the rate of consumption of contaminated fish from the Bay and surrounding waters by residents of Santa Monica and Los Angeles, California, and surrounding communities, and

(3) the health risks associated with the consumption of such contaminated fish.

The Administrator shall complete the evaluation within 6 months of the date of the enactment of this Act and shall report the results of the evaluation to the Congress.

Mr. LEVINE of California (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. LEVINE of California. Mr. Chairman, I rise today in support of my amendment which would direct the Administrator of the Environmental Protection Agency, in cooperation

with the Commissioner of the Food and Drug Administration, to conduct a thorough evaluation of the health effects on consumers who eat fish which contain unacceptably high levels of DDT and other pesticides.

My concern about this matter arises from a situation in my district. During the last 2 years, fish caught in the Santa Monica Bay have been found to have potentially dangerous levels of DDT and other toxic chemicals. Every day local fishermen catch and sell fish from the bay to local stores, restaurants, and wholesalers.

Signs have been posted along area beaches by the California State Department of Health Services warning pregnant women, children, and others not to swim in the bay or eat the fish caught in its waters. Because of concern about the issue, some local restaurants have found it necessary to assure their customers that they do serve locally caught fish.

Yet, no one really knows what effects, if any, will result from the consumption of fish caught in the Santa Monica Bay, or elsewhere, which contain high levels of DDT or other pesticides. The reason for this is that there have been no EPA studies of the human health consequence of eating contaminated fish.

For 26 years, the Montrose Chemical Co., which produced one-half of the world's DDT before the pesticide was banned, had a permit to dump DDT into Santa Monica Bay. It discharged 400 to 600 pounds of DDT daily between 1946 and 1972. In 1972, the Environmental Protection Agency, in acknowledging the adverse affects of the uses of DDT on public health and the environment, canceled all approved agricultural uses of the pesticide.

Unfortunately, the damage had already been done to the Santa Monica Bay. Fourteen years later, we are experiencing a situation where fish that are caught in the bay now contain large concentrations of DDT. Some experts believe that this poses a threat to those who eat them.

A Loma Linda University research team has concluded that commercially sold fish caught in waters off southern California have the highest overall concentration of DDT found anywhere in the Nation. Their findings were made after examination of more than 150 individual fish bought from a half dozen supermarkets and fresh fish markets. David Steinman, who organized the survey, said that nearly all species, including white croaker, cod, rockfish, and ocean perch, had concentrations of DDT and PCB's that were up to 50 times above that of the national average.

In a hearing before the Subcommittee on Health and the Environment, Los Angeles City Deputy Mayor Tom Houston noted that DDT is the No. 1 indentified health hazard in the bay. Dr. David Brown, of the southern California coastal water research project, has testified that in a survey, fish collected from Malibu Beach had two to six times the contamination levels of fish ever collected in Commencement Bay in Puget Sound, which is a superfund site. Dr. Brown also noted that fish from the Santa Monica Bay had up to 20,000 times higher concentration of DDT than fish from Commencement Bay.

There are other sources of major concern that are contributing to the contamination of fish in the bay. It seems to me that, for much too long, the Santa Monica Bay has been considered a waste repository for public and private entities. The Chevron Corp. was fined in June 1985, for dumping excessive amounts of treated refinery wastes into the bay. These included grease, ammonia, chromium, and other chemical byproducts. Although Chevron has a license to pump treated wastewater from its refinery into the bay by pipeline, it is required to keep the refinery byproducts at certain levels to minimize pollution.

Last month, the Department of Justice filed suit against Chevron, charging them with 880 violations of Federal pollutant discharge limits since 1981 and for fines that could total as much as $8.8 million. On February 14, 1986, for example, Chevron was cited for exceeding its allowable limit of 2,155 pounds of oil and grease for the day by dumping 20,922 pounds into the bay.

Between September 1984 and September 1985, 2.8 million gallons of raw sewage were discharged into the bay by the city of Los Angeles' Hyperion Waste Treatment Plant. As a result of these and other raw sewage spills, the city was fined and the California Department of Health Services posted signs warning against swimming in certain parts of the bay. On Labor Day Weekend 1985, a 100,000-gallon spill forced the closing of Will Rogers Beach State Park.

In addition to these concerns, every day the city of Los Angeles discharges approximately 600 tons of sludge 7 miles out into the bay. These solids contain most of the toxics and heavy metals leaving the Hyperion Treatment Plant.

Mr. Chairman, this is not a parochial issue affecting a few residents in the area. The Santa Monica Bay beaches are the most heavily used recreational beaches in the country. Every year, millions of people from all over the country flock to the area to use our beaches. In addition, fish caught in the bay are sold to consumers locally and in other States.

It is vital that an assessment be made of the potential dangers involved from eating fish caught in the bay and elsewhere, with high concentrations of DDT and other dangerous substances. It is my hope that this legislation will help provide that much needed information.

□ 1105

Mr. de la GARZA. Mr. Chairman, will the gentleman yield?

Mr. LEVINE of California. I am happy to yield to the gentleman from Texas.

Mr. de la GARZA. Mr. Chairman, we share the concern of our distinguished colleague, the gentelman from California [Mr. LEVINE] and would be very happy to cooperate with him in his endeavor.

We have no objection to the amendment on this side.

Mr. LEVINE of California. I thank the committee chairman.

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. LEVINE of California. I am happy to yield to the gentleman from Kansas.

Mr. ROBERTS. Mr. Chairman, I also want to thank the gentleman for his contribution and would just simply make the observation that this proves once again that beef is a very healthy product and that if consumers have a choice, certainly they should be eating more beef, as opposed to the fish.

I am not trying to perjure the gentleman's product out there in California, but beef is a very healthy product.

Mr. LEVINE of California. Mr. Chairman, I thank the gentleman.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from California [Mr. LEVINE].

The amendment was agreed to.

MODIFICATION OF AMENDMENT OFFERED BY MR. ROBERTS, AS AMENDED

Mr. BEDELL. Mr. Chairman, I ask unanimous consent that technical corrections be permitted on the Roberts liability amendment, as amended by my substitute.

The CHAIRMAN. Without objection, the request is agreed to.

There was no objection.

The text of the amendment offered by Mr. ROBERTS, as amended, as modified, is as follows:

Section 821(a) of the text of H.R. 5440 (the amendment in the nature of, a substitute to H.R. 2482), is amended (page 138, lines 2 through 10) to read as follows:

"SEC. 821. LIABILITY FOR LAWFUL APPLICATION.

"(a) Pesticide Use and No Private Right of Action—

"(1) Liability under Federal environmental statutes for the costs of response to, or damage incurred with respect to, a release or threatened release into the environment of a pesticide shall, in any case where the application was in compliance with label instructions and applicable law, be imposed on the registrant or other responsible party and not on the agricultural producer unless the agricultural producer has acted negligently, recklessly, or with the intent to misuse such pesticide. There shall be a re-

buttable presumption that the application of the pesticide was in compliance with label instructions and otherwise lawful. For purposes of the preceding sentence, the terms 'damages', 'response', 'release', and 'environment' shall have the meanings assigned them by the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, and the term 'Federal environmental statutes' means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, the Clean Water Act, the Resource Conservation and Recovery Act, title XIV of the Public Health Services Act, and this Act. Neither this section nor any other provision of this Act shall be construed, interpreted, or applied to preempt or, except as provided in this paragraph, displace liability under other Federal or State laws, whether statutory or common.

"(2) Paragraph (1) shall not be construed as conferring a private right of action on any person for the purposes of this Act or any other Federal law."

The CHAIRMAN. Are there any further amendments to title VIII?

If not, the Clerk will designate title IX.

The text of title IX is as follows:

TITLE IX—CLARIFYING AND TECHNICAL AMENDMENTS

SEC. 901. CLARIFYING AMENDMENTS.

(a) SECTION 3.—

(1) Section 3(a) (7 U.S.C. 136a(a)) (as amended by section 802(b)) is amended by adding at the end the following: "To the extent necessary to prevent unreasonable adverse effects on the environment, the Administrator may by regulation limit the distribution, sale, or use in any State of any pesticide that is not registered under this Act and that is not the subject of an experimental use permit under section 5 or an emergency exemption under section 18.".

(2) Section 3(d) (7 U.S.C. 136a(d)) is amended—

(A) in paragraph (1)(A), by striking out "on the initial classification", and

(B) in paragraph (1)(C), by striking out the colon preceding clause (i) and inserting in lieu thereof a period, by striking out clause (i), by striking out "(ii)", and by running in the material after "restricted use." so that the margin is the same as the margin of paragraph (1)(C).

(3) Section 3(c)(7)(A) (7 U.S.C. 136a(c)(7)(A)) is amended—

(A) by striking out "submit" each place it occurs and inserting in lieu thereof "submit or cite",

(B) by striking out "submission" and inserting in lieu thereof "submission or citation", and

(C) by striking out "submitted" and inserting in lieu thereof "submitted or cited".

(b) SECTION 4.—The last sentence of section 4(a)(1) (7 U.S.C. 136b(a)(1)) is amended by inserting "by regulation" after "may".

(c) SECTION 7.—Section 7(c) (7 U.S.C. 136e(c)) is amended—

(1) by striking out "shall inform the Administrator" and inserting in lieu thereof "shall, in accordance with regulations promulgated by the Administrator, submit to the Administrator a report",

(2) by striking out "of the" and inserting in lieu thereof "describing", and

(3) by striking out "information" and inserting in lieu thereof "report".

(d) SECTION 25.—Section 25(c) (7 U.S.C. 136w(c)) is amended—

(1) by inserting "or by regulation" after "hearing", and

(2) in paragraph (5), by striking out "prescribe regulations requiring" and inserting in lieu thereof "require".

SEC. 902. TECHNICAL AMENDMENTS.

(a) SECTION 2.—Section 2 (7 U.S.C. 136) is amended—

(1) in subsection (c), by striking out "if:" and inserting in lieu thereof "if—",

(2) in subsections (p)(2) and (u), by striking out "Health, Education, and Welfare" and inserting in lieu thereof "Health and Human Services",

(3) in subsection (q)(2)(A), by striking out "if:" and inserting in lieu thereof "if—",

(4) in subsection (q)(2)(C)(iii), by striking out ": Provided, That" and inserting in lieu thereof ", except that",

(5) by striking out in subsection (u) ": *Provided*, That" and inserting in lieu thereof ", except that", by striking out "(1)(a)", by striking out "or (b)", by striking out "(2) that" and inserting in lieu thereof "that", and by striking out "an article covered by clause (1) of this proviso" and inserting in lieu thereof "a new animal drug", and

(6) by striking out in subsection (ee) ": *Provided*, That the term" and inserting in lieu thereof ", except that the term", by striking out "or" before clause (4), by striking out ": *Provided further*, That the term also shall not include" and inserting in lieu thereof ", (5)", by striking out "or any use" and inserting in lieu thereof "or (6) any use", and by striking out ": *And provided further*, That after" and inserting in lieu thereof a period and "After".

(b) SECTION 3.—Section 3 (7 U.S.C. 136a) is amended—

(1) by striking out ": *Provided*, That such" in subsection (c)(1)(D)(i) and inserting in lieu thereof a period and "Such",

(2) by striking out the semicolons at the end of clauses (i), (ii), and (iii) of subsection (c)(1)(D) and inserting in lieu thereof a period, by striking out "except as" in subsection (c)(1)(D)(ii) and inserting in lieu thereof "Except as", and by striking out "after expiration" in subsection (c)(1)(D)(iii) and inserting in lieu thereof "After expiration",

(3) in subsection (c)(1)(D), by striking out "subsection (c)(2)(D) of this section" and inserting in lieu thereof "paragraph (2)(D)",

(4) in subsection (c)(1)(D)(ii), by striking out "subparagraph (D)(i) of this paragraph" and inserting in lieu thereof "clause (i)",

(5) in subsection (c)(1)(D)(iii), by striking out "subparagraphs (D)(i) and (D)(ii) of this paragraph" and inserting in lieu thereof "clauses (i) and (ii)",

(6) by striking out ": *Provided*, That the" in subsection (c)(2)(B)(iv) and inserting in lieu thereof a period and "The",

(7) in subsection (c)(2)(B)(v), by striking out "subsection (c)(1)(D) of this section" and inserting in lieu thereof "paragraph (1)(D) of this subsection",

(8) by striking out "subsection (c)(5) of this section" in subsection (c)(7) each place it occurs and inserting in lieu thereof "paragraph (5)" and by striking out ": *Provided*, That if" in subsection (c)(7)(A) and inserting in lieu thereof a period and "If",

(9) by striking out ", provided that if" in subsection (d)(1)(A) and inserting in lieu thereof a period and "If" and by striking out ": *Provided, however*, That the" in such subsection and inserting in lieu thereof a period and "The",

(10) in subsection (d)(1)(C)(ii), by amending the last sentence to read as follows: "Any such regulation shall be reviewable in accordance with section 16(e).", and

(11) by striking out ": *Provided*, That as" in subsection (f)(2) and inserting in lieu thereof a period and "As".

(c) SECTION 4.—Section 4 (7 U.S.C. 136b) is amended—

(1) in subsection (a)(1), by striking out ": *Provided, however*, That the" and inserting in lieu thereof a period and "The", and

(2) by striking out ": *Provided*, That such" in subsection (c) and inserting in lieu thereof a period and "Such".

(d) SECTION 5.—Section 5(g) (7 U.S.C. 136c(g)) is amended by striking out ": *Provided*, That such" and inserting in lieu thereof a period and "Such".

(e) SECTION 6.—Section 6 (7 U.S.C. 136d) is amended—

(1) in subsection (c), by striking out "Agency" each place it occurs and inserting in lieu thereof "Administrator",

(2) in subsection (c)(1), by running into the second sentence the undesignated paragraph in that subsection,

(3) in subsection (c)(3), by striking out "(i)" and inserting in lieu thereof "(A)" and by striking out "(ii)" and inserting in lieu thereof "(B)", and

(4) in subsection (e)(2), by striking out ": *Provided*, That the" and inserting in lieu thereof a period and "The".

(f) SECTION 10.—Section 10 (7 U.S.C. 136h) is amended—

(1) by striking out ": *Provided*, That the" in subsection (d)(1) and inserting in lieu thereof a period and "The",

(2) by striking out ": *Provided further*, That this" in subsection (d)(1) and inserting in lieu thereof a period and "This", and

(3) by striking out ": *Provided*, That where" in subsection (d)(3) and inserting in lieu thereof a period and "Where".

(g) SECTION 12.—Section 12(a)(2)(F) is amended by striking out ": *Provided*, That it" and inserting in lieu thereof a period and "It".

(h) SECTION 13.—Section 13 (7 U.S.C. 136k) is amended—

(1) in subsection (b), by taking the last sentence in paragraph (3) and inserting it after such paragraph as a full measure sentence, and

(2) in subsection (c), by striking out ": *Provided*, That upon" and inserting in lieu thereof a period and "On".

(i) SECTION 15.—Section 15(a) (7 U.S.C. 136m(a)) is amended by striking out "(i)" and "(ii)".

(j) SECTION 16.—Subsection (a) of section 16 (7 U.S.C. 136n) is amended to read as follows:

"(a) DISTRICT COURT REVIEW.—Except as otherwise provided in this Act, the refusal of the Administrator to cancel or suspend a registration or to change a classification not following a hearing and other final actions of the Administrator not committed to agency discretion by law are judicially reviewable by the district courts of the United States.".

(k) SECTION 17.—Section 17 (7 U.S.C. 136o) is amended—

(1) by striking out ": *Provided*, That the" in subsection (c) and inserting in lieu thereof a period and "The", and

(2) by striking out ": *And provided further*, That all" in subsection (c) and inserting in lieu thereof a period and "All".

(l) SECTION 18.—The heading for section 18 (7 U.S.C. 136p) is amended by inserting "AND STATE" after "FEDERAL" and by running in the second sentence after the first sentence.

(m) SECTION 19.—Section 19(a) (7 U.S.C. 136q(a)) is amended by striking out "can-

celed under section 6(c)" and inserting in lieu thereof "suspended under section 6(c) and canceled".

(n) SECTION 21.—Section 21 (7 U.S.C. 136s) is amended—

(1) by inserting "SECRETARY OF AGRICULTURE.—" before "The" in subsection (a),

(2) by inserting "VIEWS.—" after "(b)", and

(3) by inserting "NOTICE.—" after "(c)".

(o) SECTION 24.—Section 24 (7 U.S.C. 136v) is amended—

(1) by inserting "STATE REGULATION.—" after "(a)",

(2) by inserting "UNIFORMITY.—" after "(b)", and

(3) by inserting "ADDITIONAL USES.—" after "(c)".

(p) SECTION 25.—Section 25 (7 U.S.C. 136w) is amended—

(1) in subsection (a)(3), by striking out "Committee on Agriculture and Forestry" and inserting in lieu thereof "Committee on Agriculture, Nutrition, and Forestry", and

(2) in subsection (e), by striking out ": *Provided*, That whenever" and inserting in lieu thereof a period and "Whenever".

(q) SECTION 26.—Section 26 (7 U.S.C. 136w-1) is amended—

(1) by inserting "IN GENERAL.—" after "(a)" in subsection (a),

(2) by inserting "SPECIAL RULES.—" after "(b)" in subsection (b),

(3) by inserting "ADMINISTRATOR.—" after "(c)", and

(4) in subsection (a)(1), by striking out "; *Provided*, That the" and inserting in lieu thereof ", except that the".

(r) SECTION 27.—Section 27 (7 U.S.C. 136w-2) is amended—

(1) by inserting "REFERRAL.—" after "(a)",

(2) by inserting "NOTICE.—" after "(b)", and

(3) by inserting "CONSTRUCTION.—" after "(c)".

SEC. 903. TABLE OF CONTENTS AMENDMENTS.

The table of contents contained in section 1(b) (7 U.S.C. prec. 121) is amended—

(1) by striking out the item relating to section 2(e) and inserting in lieu thereof the following:

"(e) Applicator.
"(1) Commercial applicator.
"(2) Private applicator.
"(3) Certified applicator.
"(4) Under the direct supervision of a certified applicator.";

(2) by adding at the end of the items relating to section 2 the following:

"(ff) Outstanding data requirement.
"(1) In general.
"(2) Factors.
"(gg) Antimicrobial.
"(hh) Pesticide testing facility.
"(ii) Importing country.
"(jj) Pesticide dealer.
"(kk) To distribute or sell.";

(3) by striking out the term relating to section 3(a) and inserting in lieu thereof the following:

"(a) Requirement of registration.";

(4) by striking out the item relating to section 3(c)(8) and inserting in lieu thereof the following:

"(8) Public interim administrative review.
"(A) In general.
"(B) Criteria for initiating a public interim administrative review.
"(C) Review requirement.
"(D) Prereview notice procedures.
"(E) Notice.
"(F) Review procedure.
"(G) Judicial review.";

(5) by adding at the end of the items relating to section 3(c) the following:

"(9) Preregistration access to data.";

(6) by amending the item relating to section 3(g) to read as follows:

"(g) Priority list and data requirements for inert ingredients.
"(1) Establishment of list.
"(2) Publication of list.
"(3) Judicial review.
"(4) Number of ingredients.
"(5) Additional data.
"(6) Evaluation.
"(7) Construction.";

(7) by inserting after the items relating to section 3 the following:

"Sec. 3A. Reregistration of registered pesticides.
"(a) General rule.
"(b) Special authorities of Administrator.
"(1) Guidelines.
"(2) Monitoring.
"(3) Suspensions and penalties.
"(c) Reregistration phases.
"(d) Phase one.
"(1) Priority for reregistration.
"(2) Reregistration lists.
"(3) Judicial review.
"(4) Notice to registrants.
"(e) Phase two.
"(1) In general.
"(2) Notice of intent to seek or not to seek reregistration.
"(3) Missing or inadequate data.
"(4) Time periods.
"(5) Cancellation and removal.
"(f) Phase three.
"(1) Information about studies.
"(2) Time periods.
"(3) Cancellation.
"(g) Phase four.
"(1) Independent review and identification of outstanding data requirements.
"(2) Time periods.
"(h) Phase five.
"(1) Data review.
"(2) Reregistration and other actions.
"(i) Compensation of data submitter.
"(j) Fees.
"(1) Initial fee for food or feed pesticide active ingredients.
"(2) Final fee for food or feed pesticide active ingredients.
"(3) Fees for other pesticide active ingredients.
"(4) Reduction or waiver of fees for minor use and other pesticides.
"(5) Other fees.
"(6) Apportionment.
"(k) Exemption of certain registrants.
"(l) Reregistration fund.
"(m) Judicial review.";

(8) by adding at the end of the items relating to section 4 the following:

"(d) Provisions regarding commercial applicators.
"(e) Provisions regarding private applicators.
"(f) Recertification and registration.
"(g) Training material.
"(h) Minimum standards for trainers and training programs.
"(i) Privately administered training programs.
"(j) Enforcement officer training.
"(k) Separate standards.
"(l) State agency defined.";

(9) by striking out the items relating to section 6(a)(1) and 6(a)(2);

(10) by striking out the item relating to section 6(b) and inserting in lieu thereof the following:

"(b) Cancellation and change in classification or labeling.
"(1) Notice of cancellation or change in classification.
"(2) Hearing.
"(3) Factors.
"(4) Label changes.";

(11) by amending the item relating to section 6(d) to read as follows:

"(d) Public hearings.";

(12) by striking out the item relating to section 6(f) and inserting in lieu thereof the following:

"(f) Hearing procedures after public interim administrative review.
"(1) General rule.
"(2) Request for hearing.
"(3) Procedures.
"(g) General provisions.
"(1) Voluntary cancellation
"(2) Publication of notice.
"(3) Existing stocks.
"(4) Additional information.
"(h) Suspension and cancellation of registration based on false or invalid data.
"(1) Notice.
"(2) Invalid data.
"(3) False data.
"(4) Hearing.
"(i) Judicial review.";

(13) by adding at the end of the items relating to section 7 the following:

"(e) Public right to know.
"(f) Information requests.";

(14) by striking out the items relating to section 8 and inserting in lieu thereof the following:

"Sec. 8. Records.
"(a) Authority to require records.
"(b) Limitations.
"(c) Records of applicators.
"(d) Records of pesticide dealers.
"(e) Access.
"(f) Information for employees.";

(15)(A) by amending the item relating to section 9(a) to read as follows:

"(a) Authority to enter, inspect, and copy.";

and

(B) by adding at the end of the items relating to section 9 the following:

"(d) Procedure.
"(e) Coordination.";

(16) by adding at the end of the items relating to section 10 the following:

"(h) Data disclosure to States.
"(1) In general.
"(2) Action for just compensation.
"(3) Required disclosure.";

(17) by striking out the items relating to section 11;

(18) by adding at the end of the items relating to section 12 the following:

"(c) Acts of officers, agents, etc.";

(19) by adding at the end of the items relating to section 14(a) the following:

"(6) Subpoenas.";

(20) by striking out the item relating to section 14(b)(4);

(21) by adding at the end of the items relating to section 15 the following:

"(c) Report.";

(22) by adding at the end of the items relating to section 16 the following:

"(e) Review of regulations.";

(23) by striking out the items relating to subsections (a) and (b) of section 17 and inserting in lieu thereof the following:

"(a) Pesticides and devices extended for export.
"(1) Violations.
"(2) Restricted use or unregistered pesticides.
"(3) Notification specifications.
"(4) Labels.
"(5) Records.
"(b) Notices of regulatory action furnished to foreign governments.
"(1) Issuance.
"(2) Contents.";

(24) by amending the item relating to section 18 to read as follows:

"(Sec. 18. Exemption of Federal and State agencies.";

(25) by adding below the item relating to section 21 the following:

"(a) Secretary of Agriculture.
"(b) Views.
"(c) Notice.";

(26) by adding at the end of the items relating to section 22 the following:

"(c) Effect on certain other laws.";

(27) by adding below the item relating to section 24 the following:

"(a) State regulation.
"(b) Uniformity.
"(c) Additional uses.";

(28) by adding at the end of the items relating to section 25(a) the following:

"(4) Congressional review of regulations.";

(29) by adding at the end of the items relating to section 25 the following:

"(e) Peer review.
"(f) Worker health and safety.";

(30) by adding below the item relating to section 26 the following:

"(a) In general.
"(b) Special rules.
"(c) Administrator.
"(d) Expiration.";

(31) by adding below the item relating to section 27 the following:

"(a) Referral.
"(b) Notice.
"(c) Construction.";

and

(32) by striking out the item relating to section 31 and inserting in lieu thereof the following:

"Sec. 31. Collection, dissemination, and use of data.
"(a) Data systems.
"(b) Data retrieval.
"(c) Index.
"(d) Report.
"(e) Confidentiality.
"(f) Authorization.

The CHAIRMAN. Are there any amendments to title IX?

If not, the Clerk will designate title X.

The text of title X is as follows:

TITLE X—EFFECTIVE DATE

SEC. 1001. EFFECTIVE DATE.

Except as otherwise provided in this Act, the amendments made by this Act shall take effect upon the expiration of 60 days after the date of enactment of this Act.

The CHAIRMAN. Are there any amendments to title X?

If not, the Clerk will designate title XI.

The text of title XI is as follows:

TITLE XI—TOLERANCES AND INTERNATIONAL COOPERATION

SEC. 1101. TOLERANCES FOR AGRICULTURAL COMMODITIES.

(a) REVOCATIONS AND SUSPENSIONS.—Section 408 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a) is amended by adding at the end the following:

"(p)(1)(A) If the registration of each pesticide containing a specific active or inert ingredient registered for use on a particular raw agricultural commodity—

"(i) has been cancelled by the Administrator under the Federal Insecticide, Fungicide, and Rodenticide Act,

"(ii) has voluntarily been cancelled under such Act, or

"(iii) has voluntarily been withdrawn under such Act,

due in whole or in part to risks to humans, the Administrator, not later than 60 days after the effective date of such cancellation or after receipt of information of such withdrawal, shall revoke any tolerance established under subsection (b) for residues of such pesticide chemical in or on such commodity or any exemption from the need for such tolerance established under subsection (c). In revoking a tolerance or an exemption from a tolerance, the procedures required under section 553 of title 5, United States Code, shall be used.

"(B) The effective date of a revocation under subparagraph (A) may be delayed to permit distribution in commerce of food that bears residues of the active or inert ingredient as the result of—

"(i) the use of the cancelled pesticide before the date of its cancellation,

"(ii) the use of existing stocks of such pesticide as authorized under the order cancelling the registration of the pesticide, or

"(iii) unavoidable residual environmental contamination.

"(2) If the registration of each pesticide containing a specific active or inert ingredient registered for use on a particular raw agricultural commodity has been suspended by the Administrator under the Federal Insecticide, Fungicide, and Rodenticide Act due in whole or in part to risks to humans, the Administrator, not later than 60 days after the effective date of such suspension, shall suspend any tolerance established under subsection (b) for residues of such pesticide chemical in or on such commodity or any exemption from the need for such tolerance established under subsection (c). The effective date of such suspension may be delayed to permit distribution in commerce of food that bears residues of the active on inert ingredient as the result of—

"(A) the use of the suspended pesticide before the date of its suspension,

"(B) the use of existing stocks of such pesticide as authorized under the order suspending the registration of the pesticide, or

"(C) unavoidable residual environmental contamination.

In suspending a tolerance or an exemption from a tolerance, the procedures required under section 553 of title 5, United States Code, shall be used. The suspension of a tolerance or an exemption from a tolerance for a pesticide chemical shall be effective as long as the registration of the pesticide to which the tolerance or exemption is applicable is suspended under the Federal Insecticide, Fungicide, and Rodenticide Act. If the registration of the pesticide ceases to be suspended and is not cancelled under such Act, the Administrator shall rescind any such suspension of a tolerance or exemption.

"(3) At the time the Administrator makes a determination under section 3A(h)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act regarding an ingredient of a pesticide, any tolerance established under subsection (b) for residues of a pesticide chemical that is or contains such ingredient or any exemption from the need for such a tolerance established under subsection (c) shall be reassessed and tolerance or exemption shall be established, amended, or revoked as necessary.".

(b) PROCEDURE.—Section 408(m) of such Act (21 U.S.C. 346a(m)) is amended by striking out "The" and inserting in lieu thereof "Except as provided in subsection (p), the".

SEC. 1102. COOPERATION IN INTERNATIONAL EFFORTS.

Subsection (d) of section 17 (7 U.S.C. 136o(d)) is amended to read as follows:

"(d) COOPERATION IN INTERNATIONAL EFFORTS.—The Administrator shall—

"(1) in cooperation with the Secretary of State, other appropriate Federal agencies, and nongovernmental and international organizations, actively participate in international efforts to develop improved pesticide research and regulatory programs,

"(2) provide foreign countries with technical assistance to develop comprehensive pesticide regulatory programs,

"(3) within 1 year after the effective date of the Federal Insecticide, Fungicide, and Rodenticide Act Amendments of 1986, and every 3 years thereafter, conduct and publish a survey of all countries that import pesticides from United States exporters or from which the United States imports agricultural commodities, to ascertain what procedures are in place in each country—

"(A) regarding registration, labeling, and training to ensure safe handling, transportation, application, and disposal of pesticides, and

"(B) to control residues on foods to meet tolerances established under United States law, and

"(4) report to Congress annually on the activities conducted under this subsection and the results thereof.".

AMENDMENT OFFERED BY MR. ROBERTS

Mr. ROBERTS. Mr. Chairman, I offer an amendment made in order under the rule.

The Clerk read as follows:

Amendment offered by Mr. ROBERTS: At the end of title XI, insert a new section 1103 as follows:

SEC. 1103. FOOD PRODUCTION AND MARKETING UNIFORMITY.

The Federal Insecticide, Fungicide, and Rodenticide Act is amended by adding at the end thereof a new section as follows:

"SEC. 34. FOOD PRODUCTION AND MARKETING UNIFORMITY.

"(a) INTENT.—It is the intent of Congress to assure a safe and reasonably priced food supply for consumers. In order to achieve this goal, it is declared to be the express intent of Congress to require national uniformity in the regulation of the levels of residues of pesticides in or on food in order to permit national marketing of all food products without jurisdictional barriers.

"(b) NATIONAL UNIFORMITY.—(1) Except as provided in subsections (e) and (h), no State or political subdivision thereof may establish, continue in effect, or enforce any requirement or prohibition that—

"(A) directly or indirectly establishes a permissible level for a residue of a pesticide in or on food, if such a level has been established under a Federal law or a regulation or other enforcement requirement issued thereunder, and

"(B) is not identical with the requirements or prohibitions of such Federal law and of the regulations and enforcement requirements issued thereunder,

if the use of the pesticide resulting in the residue is registered with the Administrator on the basis of data meeting the requirements of paragraph (2) of this subsection or if the use of the pesticide resulting in the residue has not been registered with the Administrator, or has been registered with the Administrator on the basis of data meeting the requirements of paragraph (2) of this subsection and later canceled or suspended, and the permissible level for the residue has been established or reaffirmed by the responsible Federal official on or after the date of enactment of this subsection.

"(2) For purposes of this subsection, a pesticide shall be deemed to be registered with the Administrator with respect to a use on the basis of data meeting the requirements of this paragraph if—

"(A) the initial registration or reregistration of the pesticide for that use was approved under section 3(c)(5) of this Act on or after April 25, 1985, or

"(B) the initial registration or reregistration of the pesticide for that use was approved under section 3(c)(5) of this Act prior to April 25, 1985, on the basis of data determined by the Administrator to meet the requirements of the provisions in 40 C.F.R. part 158 that became effective on April 25, 1985.

"(c) CONCURRENT JURISDICTION.—(1) Any State or political subdivision thereof may exercise concurrent jurisdiction over the levels of residues of pesticides in or on food for the purpose of enforcing requirements or prohibitions identical with those established in such Federal law and in the regulations and interpretations issued thereunder.

"(2) For purposes of paragraph (1), the Federal official responsible for the implementation of any Federal law referred to in subsection (b)(1) shall—

"(A) cooperate with and provide relevant information to State and local officials engaged in the regulation of the levels of residues of pesticides in or on food; and

"(B) provide training and enter into contracts with such officials to facilitate more effective uniform national regulation of the levels of residues of pesticides in or on food, except that the authority to enter into contracts under this paragraph shall be to such extent or in such amounts as are provided in appropriations acts.

"(d) PETITION.—(1) Any State may petition the Federal official responsible for the implementation of a Federal law referred to in subsection (b)(1) to adopt by regulation as a Federal requirement or prohibition an existing or proposed State requirement or prohibition relating to the levels of residues of pesticides in or on food.

"(2) Within 180 days after receipt of any such petition, such Federal official shall, after receiving comments from the scientific Advisory Panel established under section 25(d) containing an evaluation of relevant data and risk to human health—

"(A) respond specifying the substantive action that is being taken on such petition; and

"(B) if such action includes the adoption of a new Federal requirement or prohibition, initiate the appropriate administrative proceeding to implement such action.

"(3)(A) If such Federal official fails to respond or to initiate any appropriate action within the 180 days specified in paragraph (2) of this subsection, the State which submitted the petition may, notwithstanding the provisions of subsection (b), establish and enforce within its own jurisdiction the requirement or prohibition which was the subject of the petition, as an interim requirement or prohibition.

"(B) Such an interim requirement or prohibition may be contested by any person under the declaratory judgment provisions of section 2201 of title 28, United States Code, on the ground that the interim requirement or prohibition does not meet the standards established in paragraphs (1) and (2) of subsection (e). In any such action, the State shall bear the burden of proving that such interim requirement or prohibition meets such standards.

"(C) Such an interim requirement or prohibition may remain in effect until—

"(i) the Federal official takes action on the petition and initiates any appropriate administrative proceeding pursuant to paragraph (2) of this subsection and such action rejects the interim requirement or prohibition, or

"(ii) a court determines that the interim requirement or prohibition has not been shown by the State to meet the standards established in paragraphs (1) and (2) of subsection (e),

whichever occurs earlier.

"(e) EXEMPTIONS.—Upon petition of a State, the Federal official responsible for the implementation of a Federal law referred to in subsection (b)(1) may, by regulation promulgated after notice and opportunity for an oral hearing, exempt from subsection (b), under such conditions as may be prescribed in such regulation, a requirement or prohibition of such State relating to the levels of residues of pesticides in or on food in that State if such requirement—

"(1)(A) is justified by compelling local conditions or

"(B) is justified because the subject matter regulated by such requirement or prohibition is primarily local in nature and the Federal official responsible for the implementation of such Federal law is not exercising jurisdiction over the subject matter regulated by such requirement or prohibition, and

"(2)(A) protects an important public interest that would otherwise be unprotected,

"(B) would not cause any food to be in violation of any applicable requirement or prohibition under Federal law, and

"(C) would not unduly burden interstate commerce.

"(f) ADVISORY COMMITTEE.—For purposes of assuring effective and uniform implementation of all laws regulating the levels of residues of pesticides in or on food, the Federal officials responsible for implementation of such Federal laws shall establish an advisory committee comprised of eleven State and local officials engaged in the regulation of the levels of residues of pesticides in or on food.

"(g) RESPONSIBLE FEDERAL OFFICIAL.—A petition submitted under subsection (d) or (e) shall be acted upon by the highest Federal official responsible for the implementation of the Federal law involved, which authority shall not be delegated. The advice of the advisory committee established under subsection (f) shall be obtained before action is taken upon any such petition unless the petition relates to an imminent hazard determination under subsection (h).

"(h) IMMINENT HAZARD.—(1) Notwithstanding the provisions of subsection (b), a State may establish and enforce within its own jurisdiction any requirement or prohibition which directly or indirectly establishes a permissible level for a residue of a pesticide in or on food if—

"(A) after an opportunity for written comment and a public hearing, it has been demonstrated that—

"(I) the permissible level for a residue of that pesticide in or on food established under a Federal law or a regulation or interpretation issued thereunder constitutes an imminent hazard to public health in that State because it presents a substantial risk of serious harm to human health, and

"(II) the additional protection provided by such requirement or prohibition is necessary to prevent such imminent hazard, and

"(B) within ten days after the state announces that it is promulgating the requirement or prohibition, the State has submitted a petition under subsection (d) or (e).

"(2) Any requirement or prohibition established or enforced under paragraph (1) may be contested by any person under the declaratory judgment provisions of section 2201 of title 28, United States Code, on the ground that such requirement or prohibition does not meet the standards established in subparagraph (A) and (B) of paragraph (1). In any such action, the state shall bear the burden of proving that such requirement or prohibition meets such standards.

"(3) Any requirement or prohibition established or enforced under paragraph (1) may remain in effect until—

"(A) The Federal official takes action on the petition submitted under subsection (d) or (e) and such action rejects such requirement or prohibition, or

"(B) a court determines that the requirement or prohibition has not been shown by the State to meet the standards established in subparagraphs (A) and (B) of paragraph (1),

whichever occurs earlier.".

Mr. ROBERTS (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Kansas?

There was no objection.

Mr. ROBERTS. Mr. Chairman, this is the Stenholm-Roberts uniform tolerance amendment that many of our colleagues have heard so much about via the "Dear Colleague" route and personal conversations.

As you recall, a few years ago when EDB was the front burner issue, several States took it upon themselves to establish tolerances that were different from the Federal tolerance. That created what I believe to be a burden on interstate commerce, and for farmers, and for all of those who are involved in marketing our national food products, as well as the consumer. You had the situation where flour, pancake mixes, and so forth, were legal in one State and not in another State.

Let me put it another way. Aunt Jemima was OK in Oklahoma, but not in Texas; Betty Crocker could be marketed in the State of Massachusetts, perhaps, but not in the State of Maine.

For instance, in my district I have one of the largest makers of frozen pizza in the world. But if that pizza maker had used flour containing EDB those pizzas might have been legal for sale in one State and not in another State. This is I believe an extremely unfair burden on interstate commerce.

The uniform tolerance amendment I am offering today is supported by numerous trade, producer, and farm groups. There are, Mr. Chairman, 60 farm organizations who are in support of the Stenholm-Roberts version. However, they would like to say that the Federal tolerance is the final word. The amendment that Mr. STENHOLM and I are offering is a compromise version of what they want. We have the compromise.

I am offering this amendment as a compromise version that would establish the federal tolerance uniform, if the chemical has completed the reregistration process outlined in the FIFRA bill.

If, in fact, this bill is such a good reform, if, in fact, we go through 600 chemicals and we are Ivory Soap pure to the extent that science can determine it, then and then only does our uniform tolerance apply. Or if the chemical has been registered after April 25, 1985, this date was chosen because it is the date that EPA issued the regulation spelling out precisely what the data requirements are for a chemical to be registered. Let me stress that point again.

The uniform tolerance amendment that we are supporting would apply only to those chemicals that have been given a clean bill of health by the EPA and FDA through this reform bill.

This amendment would only apply to those chemicals that have a complete data package on file at EPA. States would still have the right to set tolerances as they see fit on the old chemicals.

Any public interest group, any State that has any desire to send up the warning flag on any old chemical that has not been washed through this reform bill, they can do that. They can still do that under this amendment.

One final point: to safeguard the States' ability to establish lower tolerances the amendment contains a petition process whereby States could petition the Federal Government to establish a stronger tolerance and as an additional safeguard it grants the States imminent hazard authority to impose tolerances.

Imminent hazard, 30 days, forces the EPA to move. It makes little sense for us to have the EPA and the FDA to establish tolerances based upon, hopefully, the best scientific evidence, then have States establish their own tolerances in some cases without scientifically valid reasons.

More to the point, this FIFRA bill has a focus of getting all of the chemicals now registered, reregistered and making sure that they have complete data package on file at the EPA. If EPA does the job that we have outlined in the new FIFRA bill there shouldn't be a need for different tolerances by each State on these new or reregistered chemicals.

This is a crucial issue for farmers, for stockmen, for agricultural producers, for shippers, for everybody in our national food-marketing chain and for the consumer as well.

I urge my colleagues to support the Stenholm-Roberts uniform tolerance amendment.

Mr. Chairman, the Food Production and Marketing Uniformity Amendments of 1986 add a new section 33 to the Federal Insecticide, Fungicide, and Rodenticide Act [FIFRA] to provide for national uniformity in the regulation of the levels of residues of pesticides in or on food in order to permit national production and marketing of all food products without jurisidictional barriers.

BACKGROUND

These amendments are needed because virtually every State has one or more laws regulating the levels of residues of pesticides in or on food, and repeated attempts to achieve national uniformity in the enforcement of these laws been unsuccessful. Pesticides are of critical importance to food production in this country, and our nationwide food production and marketing system depends upon uniformity in their regulations.

The growth of State and local laws: In the early days of this country, food was consumed where it was grown. As urban cities began to develop in the 1800's, local food markets were established to fill the need. Town ordinances were adopted to regulate the food supply in those days. As our cities grew larger, and food distribution expanded, county laws were established to regulate the food supply as well. By the mid-1800's, States were also enacting regulatory laws in this area. Because food production and distribution was still primarily a local or regional matter throughout the 1800's, however, there was no Federal law establishing a nationwide food safety policy until after 1900.

The enactment of Federal laws: Shortly after 1900, Congress enacted two laws to regulate pesticides in food: the Food and Drugs Act of 1906, and the Insecticides Act of 1910. Because of the narrow interpretation of the Commerce Clause by the Supreme Court at that time, however, both statutes were very limited in their jurisdiction. Food produced and distributed locally was not covered. Supreme Court decisions during the early 1900's therefore ruled that these Federal laws did not preclude different requirements in State and local laws.

Both of these early Federal laws were subsequently replaced by more modern laws that regulate virtually every aspect of the safety of pesticides in food: the Federal Food, Drug, and Cosmetic Act of 1938, and the Federal Insecticide, Fungicide, and Rodenticide Act of 1947, both of which have since been amended numerous times. By the time these laws were enacted, however, it was too late for them to serve as a made for State and local legislation or to make enactment of State and local legislation unnecessary in this areas. The tradition of State and local laws regulating the levels of pesticides in food was already well-established and has continued to this day.

The repeated failure of non-legislative attempts to achieve national uniformity: Following enactment of the Food and Drugs Act of 1906, FDA's predecessor agency, the USDA Bureau of Chemistry, mode major efforts to achieve national uniformity in this area. The 1914 Annual Report of the Bureau of Chemistry reported cooperative efforts with State officials that "should very largely overcome the lack of uniformity." A report on the progress achieved during the first 10 years under the 1906 act, contained in the 1917 annual report, related attempts to deal with "much confusion and apparent conflict between the local and Federal laws and the local and Federal administration of the laws," resulting in "extra cost, which naturally was passed on to the ultimate consumer." The 1921 annual report similarly reflected the fact that "both officials and manufacturers complained greatly of the lack of uniformity in the exercise of food control by the Federal and State Governments":

Lack of uniformity increases the cost of doing business, and the increased cost is usually passed on to the consumer. It arises not merely from differences in the various laws but also from differences in the interpretation of the laws by the officials and the application by them of different standards to the same product in different jurisdictions.

FDA has repeatedly sought to deal with this problem in the years since then.

State and local officials have also been concerned about this problem. The Association of Food and Drug Officials [AFDO], whose membership includes regulatory officials from all of the States, was formed in 1897 for the purpose of producing national uniformity in food and drug regulation and has continuously urged that principle ever since. In 1941, for example, the association's president criticized "trade barriers that forced many producers and manufacturers to live under the virtual dictatorship of localized bureaucracy" and urged State food and drug officials to discourage the enactment of laws that make it impossible for legitimate industry of one State to engage in trade in another under conditions which are fair and equitable." That year, AFDO adopted a resolution expressing "disapproval of the tendency toward the enactment of legislation which constitutes definite barriers to commerce between the States." Numerous similar resolutions have been adopted by AFDO since then. Nonetheless, in 1973 the association passed yet another resolution acknowledging, as well as disapproving, "a growing trend that * * * some States and local agencies are passing laws, regulations, or ordinances which are inconsistent with the principle of uniformity to which AFDO is committed." More recently, AFDO has established still another committee to study the matter.

Numerous other national reports have reflected on, and disapproved, nonuniform laws and regulations in this area. In 1939, a USDA report on "Barriers to Internal Trade in Farm Products" found varying or inconsistent State requirements created increasingly serious barriers to national food distribution. A study conducted by the Public Administration Service for FDA in 1963 on State and local food and drug programs concluded that:

The general food and drug laws of the States fail to reveal a basic uniformity among themselves or an adequate correspondence with federal legislation. * * * Differences in law and regulations are excessive, and many serve no useful purpose; the total body of state and local food and drug laws is a confusing and disjointed mass.

The National Commission on Food Marketing, established by Congress in 1964 to appraise the marketing structure of the food industry, stated that "conflicts among the profusion of State regulations * * * are a significant burden on interstate trade in food products" and concluded that:

We therefore believe that a concerted effort should be made to effect uniformity among State regulations that obstruct trade in foods across State lines."

The Report of the White House Conference of Food, Nutrition and Health in 1969 similarly found that "under present Federal, State and local law, different and often inconsistent regulatory requirements prevail throughout the Nation" and that these requirements:

result in artificial trade barriers that impede the orderly marketing of foods, hinder sound nutrition, raise the cost of new foods to consumers, and directly interfere with the public interest. * * * This situation cannot be justified on public health grounds, and reflects the lack of any attempt to establish and maintain a national policy on foods that reflects the interest of consumers.

The Report of the White House Conference therefore recommended "Uniform application of all regulatory requirements throughout the Nation, enforceable by Federal, State, and local officials."

Congress has also recognized the unproductive burden that inconsistent State requirements impose upon farmers, food processors, and consumers. The 1906 House report on the legislation that ultimately became the Food and Drugs Act of 1906 stated that:

the laws and regulations of the different States are diverse, confusing, and often contradictory. What one State now requires the adjoining State may forbid. Our food products are not raised principally in the States of their consumption.

State boundary lines are unknown in our commerce, except by reason of local regulations and laws, such as State pure-food laws. It is desirable, as far as possible, that the commerce between the States be unhindered.

When Congress considered enactment of a new national food and drug law in the 1930's, the 1935 Senate report on that legislation, which ultimately became the Federal Food, Drug, and Cosmetic Act of 1938, acknowledged the "problem of uniformity" and stated that the "States have unanimously urged the Federal Government to take leadership in modernizing existing law." Neither the 1906 act nor the 1938 act expressly required national uniformity, however, and such uniformity has therefore not been achieved.

None of these nonlegislative attempts have brought the country closer to national uniformity in the regulation of the safety of pesticide in or on foods. It is apparent that nonlegislative approaches have repeatedly failed and will continue to fail in the future.

The importance of pesticides to food production: Pesticides make a major contribution to a plentiful and wholesome food supply by protecting it from insect destruction and insect-carried disease. USDA has estimated that losses due to pests, insects, and disease run as high as 40 percent in some countries. The National Academy of Sciences has stated that, in the United States, insect control annually prevents about $6.5 billion in agriculture losses. Pesticides thus increase farm income, reduce inflation in food costs, and permit American families to spend less of their income on food.

The critical need for uniformity in a nationwide food production and marketing system: Although food production and marketing began as an entirely local matter in the early 1800's, the United States has now become one large nationwide food market. Pesticides are used in food production throughout the country, and that food is in turn distributed in every State throughout the Nation. Local and even regional markets have disappeared.

Nonuniform laws, regulations, and other requirements have a direct and immediate impact upon food production. Conflicting prohibitions or requirements for residues of pesticides in food, or different labeling requirements, discourage food processors from using the food, confuse and scare food retailers and consumers, add substantial cost to the distribution and marketing of food, and thus disrupt farm markets and reduce farm income. Uniform national regulation of the levels of residues of pesticides in or on food is essential to a sound national agricultural program.

Inconsistent determinations, or additional regulatory requirements, result in an enormous economic burden upon consumers, for no public health benefits. Taxpayers should support a single uniform pesticide residue level determination, not duplicative determinations in every State throughout the country. Conflicting or additional regulatory requirements in different jurisdictions require the food industry to pay more for compliance, disrupt normal marketing practices, and thus increase food prices to consumers.

Citizens who live in one part of the country are no less entitled to protection than those who live in another. Our citizens also travel widely throughout the country, and are entitled to the same protection in every State they visit. Determinations about the levels of residues of pesticides in or on food must therefore be consistent in every jurisdiction in this country.

State and local enforcement of uniform requirements for the levels of residues of pesticides in or on food will enhance a safe food supply throughout the country and thus increase consumer protection. Deploying State and local resources away from duplicative and conflicting pesticide residue level determinations, and into enforcement of uniform national regulatory policies, represents the wisest expenditure of public funds.

In an article published in 1983, the Counsel to the Vice President stated that President Reagan's New Federalism initiative, which is designed to encourage greater responsibility at the State and local level, includes:

Recognition that state and local administration of regulatory programs may conflict in some instances with other goals of regulatory relief or with other important federal interests. For example, individual states may operate specific programs more effectively than the federal government, but the combined effect of disparate state regulatory standards may intolerably burden interstate commerce, thus requiring uniform federal regulation.

Recognizing "the need for a strong central government to promote commerce and other Federal interests," he distinguished between those matters that are primarily local in nature and those that involve such "burdens on interstate commerce" that national uniformity is required.

In December 1984, the Administrative Conference of the United States issued a report and recommendation that echoed these principles. While recognizing that "State governments are normally in a better position than the Federal Government to determine the types of regulations that will serve the interest of the States' citizens," the report also found that "States sometimes have an incentive, however, to impose regulations that advance State interests at the expense of other States' interests or of national interests." The report concluded that, because of the limited "checks on State regulation that harms the national interest":

states possess, in practice, the power to make regulatory choices that produce net benefits within the state but that produce substantial net detriments on a national

level. Without an additional federal constraint on state regulatory power, states can be expected to regulate in this manner frequently.

The Administrative Conference therefore recommended that Congress and the Federal agencies directly address the problem of national uniformity in regulatory policies in order to protect nationwide interests.

THE FOOD PRODUCTION AND MARKETING UNIFORMITY AMENDMENTS OF 1986

These amendments reflect the intent of Congress to assure a safe and reasonably priced food supply for consumers. They protect the interests of food producers, food distributors, and food consumers alike.

The purpose of the amendments: The amendments are designed to assure national uniformity in both the determinations of permissible levels of pesticide residues in or on food and the resulting regulatory requirements and prohibitions involved in the regulation of the levels of pesticide residues in or on food. Federal laws, regulations, and enforcement requirements will be controlling throughout the country. State and local officials will enforce these Federal determinations, thus assuring more widespread, complete, and thorough application of these uniform determinations. To make certain that any local needs are not overlooked however, the amendments also provide for exemptions from the general rule of national uniformity where they are justified.

The coverage of the amendments: The amendments provide for national uniformity in the regulation of the levels of pesticide residues in or on food under two Federal statutes: The Federal Food, Drug, and Cosmetic Act and the Federal Insecticide, Fungicide, and Rodenticide Act. Under these statutes, EPA registers pesticides, establishes tolerances for residues in or on raw agricultural commodities of a pesticide registered for use with those commodities, and promulgated food additive regulations for residues in processed food made from the raw agricultural commodities for which a pesticide has been registered. FDA establishes concern levels, action levels, tolerances, enforcement levels, and other forms of regulatory requirements—including prohibitions—for pesticide residues for which EPA has not taken appropriate action under its authority, establishes all requirements for food labeling related to the safety of pesticides, and enforces both EPA and FDA pesticide requirements as they relate to food products. Taken together, these Federal statutes authorize EPA and FDA to regulate every aspect of the safety of pesticides in or on food.

These amendments refer throughout to regulation of the levels of "residues of pesticides in or on food." This is intended to be given a very broad interpretation, and to include any inert ingredient, metabolite, breakdown product, or similar substance in or on food that results from the use of a pesticide.

The two categories of decisions involved: The amendments are carefully limited to grant national uniformity with respect to only two categories of Federal and State decisions regarding permissible pesticide residues in or on food. Any other decision relating to pesticide residues, that does not fall within one of these two categories, is not subject to the requirement of national uniformity under these amendments and therefore is subject to the general legal principles established by the judiciary relating to burden on interstate commerce and the supremacy of Federal law.

The first category of pesticide residue decisions for which national uniformity applies includes any pesticide residue resulting from a registered use, where that use was registered under section 3(c)(5) of FIFRA on the basis of data meeting current EPA requirements. Uses registered under other provisions of FIFRA—for example, conditional registration under section 3(c)(7)) are thus not included.

The amendments define the requirements of current data by reference to the regulations prepared by EPA to establish data requirements for pesticide registration which were proposed in 47 Fed. Reg. 53191 (November 24, 1982), promulgated in 49 Fed. Reg. 42856 (October 24, 1984), and made effective in 50 Fed. Reg. 16234 (April 25, 1985), and are now codified in C.F.R. part 158. Although promulgated by EPA in final form on October 24, 1984, these regulations became effective, after congressional review, on April 25, 1985. Accordingly, any registration of a pesticide use approved by EPA under section 3(c)(5) on or after April 25, 1985, is automatically deemed to have been approved on the basis of current data requirements.

It is apparent that many registrations of pesticide uses approved by EPA prior to April 25, 1985, were also approved on the basis of data that satisfy current EPA requirements. Probably all of the registrations approved by EPA after the regulations were promulgated on October 24, 1984, virtually all of the registrations approved by EPA after the regulations were proposed on November 24, 1982, and many of the registrations approved while the regulations were under consideration prior to November 24, 1982, were approved on the basis of data that met the requirements contained in the regulations as now found in 40 C.F.R. part 158. Accordingly, the amendments provide that all registered use that have in fact been determined to meet the requirements of those regulations, in the form in which they were promulgated on October 24, 1984, and became effective on April 25, 1985, are also subject to the national uniformity provisions.

In accordance with congressional mandate, EPA has begun a detailed process of reregistration of fold pesticides, to assure that they meet modern standards. Until the uses of these old pesticides are reregistered, they are not subject to the national uniformity provisions in these amendments. Once any use of an old pesticide has been reregistered on the basis of data satisfying the requirements of 40 CFR part 158 as they were promulgated on October 24, 1984, and became effective on April 25, 1986, however, it would be fully subject to the provisions on national uniformity.

Once a pesticide use has been approved on the basis of current data requirements, a permissible residue level in or on food may be established under a Federal law or a regulation or enforcement requirement—including any prohibition—thereunder in a variety of ways—for example, by the passthrough provision in the proviso in section 402(a)(2) of the Federal Food, Drug, and Cosmetic Act, or by a food additive regulation in section 409 of the act, or by an action level or other regulatory decision issued by FDA. All of these actions would be equally subject to national uniformity.

Because science is constantly evolving, new information may be required at some time in the future for any pesticide use registered or reregistered on the basis of data meeting or equivalent to the requirements of 40 CFR part 158 as they were promulgated on October 24, 1984, and became effective on April 25, 1985. The requirements in those regulations may change, or new data may be required for a particular pesticide. This would not mean that the pesticide use was no longer subject to national uniformity. National uniformity would continue to apply under these statutory provisions, and States would be authorized to request that EPA or FDA establish new Federal requirements or prohibitions or grant exemptions for the States, and could take their own immediate action if an imminent hazard existed, as provided elsewhere in the amendments. Thus, the amendments provide balance by preserving the principle of national uniformity, where decisions were based on the specified EPA data requirements, but allowing the States to press for new decisions where new information warrants a change.

The second category of pesticide residue decisions for which national uniformtiy applies relates to those uses that have not been registered and are not intended to be registered, or that were registered on the basis of current requirements and later were canceled or suspended. For example, accidental contamination of food with a pesticide, resulting from an inherently unregistered use, requires EPA and FDA to determine whether the residue precludes use of the food. This can arise with both domestic and foreign food. Similarly, when a pesticide use that was registered on the basis of data satisfying the current requirements of 40 CFR part 158 is no longer permitted, and its registration is thus canceled or suspended, residues may nonetheless remain in the food chain for some time and EPA and FDA must therefore establish permissible levels outside the registration process. It would not include such pesticides as EDB, which was not registered on the basis of current data requirements.

In all of these situations involving unregistered uses, only those determinations that are made or reaffirmed after the date of enactment of these Amendments will be subject to national uniformity. EPA and EDA must make an affirmative new determination with respect to any permissible food residue level resulting from an unregistered use of a pesticide before national uniformity would apply under the amendments. This provision is therefore entirely prospective in its application.

The types of regulatory decisions included: The amendments apply to a variety of regulatory decisions made by EPA and FDA within the scope of the two Federal statutes involved. These include decisions made under the two statutes in the form of formal regulations and informal enforcement requirements. EPA and FDA decisions relating to the levels of residues of pesticides in or on food may, for example, be announced through promul-

gated regulations or through other enforcement requirements—including prohibitions—such as FDA action levels and enforcement levels, which are adopted by the agencies as official regulatory positions. The U.S. Supreme Court recently confirmed FDA's power to regulate food contaminants through informal enforcement requirements in lieu of formal tolerances in Young versus Community Nutrition Institute, June 17, 1986.

It is important that EPA and FDA make available to the States their formal and informal enforcement requirements, on a timely basis. This can be accomplished through routine administrative action, as part of the Federal-State cooperative provisons in these amendments.

Federal decisions covered by the amendments may come in the form of specific regulatory requirements or prohibitions, or in the form of explicit conclusions that no enforcement or other regulatory action is justified. For example, EPA and FDA may impose limits on residues, a requirement for information to appear on product labels, or posters in stores or restaurants, or may specifically decide any or all of these are not warranted. EPA may exempt a pesticide from the requirement of a specific tolerance in food, thus permitting any level lawfully to occur in that food. FDA may conclude that de minimis residues are safe and should not be the subject of enforcement action. All of these types of explicit Federal regulatory decisions establish a permissible level for a pesticide in or on food and thus are included within the amendments.

These amendments do not, however, cover regulatory decisions relating to the safety or pesticides other than in or on food. Thus, the amendments do not relate to the registration or application of pesticides. They do not in any way cover the safety of workers who manufacture pesticides or the safety of workers who are applying pesticides to foods or who are in the vicinity when pesticides are applied to food.

Nor do these amendments cover regulatory inaction that is not based upon an explicit decision made by EPA or FDA. Only a specific Federal determination relating to a permissible level for a residue of a pesticide in or on a food is covered by these amendments. An FDA decision not to bring enforcement action against illegal pesticide levels because of a lack of resource or other priorities would not preclude State enforcement action. The failure of the Federal agencies to make a determination about the safety of a pesticide residue would also leave the States free to take their own action, until EPA or FDA make a specific regulatory decision on the matter. Thus, the amendments make certain that only documented explicit Federal determinations trigger the requirement of national uniformity.

Once an explicit Federal determination is made relating to a permissible level of a residue of a pesticide in or on food, a State or local government cannot establish a different requirement or prohibition, either directly or indirectly. Thus, a State could not ban food meeting the Federal level, or take any other form of enforcement action based on that level, such as imposing civil fines or criminal penalties. Nor could the State use other indirect means to impose its own regulatory burdens relating to a pesticide residue level permitted under Federal law, such as a labeling requirement or posters in stores and restaurants, where EPA campaign directed at undermining the Federal determination. Once permissible Federal levels are explicitly set, they establish a uniform national system of regulation unless and until a State obtains an exemption pursuant to subsection (e) or (h) of these amendments authorizing it to impose its own local requirements or prohibitions.

Federal-State cooperation: The amendments explicitly provide that State and local officials may exercise concurrent jurisdiction with EPA and FDA to enforce requirements or prohibitions indentical with those established under Federal law. Such State and local enforcement will greatly strengthen consumer protection. To facilitate uniform national regulation, the amendments require EPA and FDA to cooperate with State and local officials by providing relevant information and training programs, and by entering into contracts for enforcement activities as authorized by appropriations statutes. These requirements reflect a longstanding joint commitment of Federal and State officials to uniform national enforcement of regulatory requirements and prohibitions relating to the levels of residues of pesticides in or on food.

Adoption of State requirements as Federal requirement: The amendments reflect the fact that State, with long experience in the regulation of food, may well have useful suggestions for improving EPA and FDA implementation of the Federal statutes regulating the levels of pesticide residues in or on food. Any State may petition EPA or FDA to adopt by regulation, as a Federal requirement or prohibition, an existing or proposed State requirement or prohibition. The responsible Federal official must submit a State petition and any supporting data to the Scientific Advisory Panel established under section 25(d) of FIFRA, and must receive comments from the Panel prior to taking final action on the petition. Within 180 days after receipt of any such petition, EPA or FDA must respond, specifying the substantive action that is being taken on it, either granting or denying the petition in whole or in part. If that substantive action is a denial of the petition, that ends the matter except for any court appeal. If that substantive action grants the petition, in whole or in part, EPA or FDA must also initiate, within that statutory 180-day period, whatever administrative proceedings are required to implement it. This would ordinarily be a notice of proposed rulemaking.

Thus, the amendments require a substantive decision by EPA or FDA, and any implementing action, within 180 days. The Federal agencies are granted no discretion in complying with this time limit. It is intended that any failure to comply with the 180-day requirement would be handled by a mandamus order from a Federal court, requiring immediate compliance.

If the Federal agencies nonetheless do not provide a substantive decision and any implementing action within the required 180 days, the State is authorized to establish in its own jurisdiction the requirement or prohibition that is the subject of its petition, on an interim basis. This interim requirement or prohibition can be contested by any person through a declaratory judgment action in the courts. If such a challenge is brought, the State bears the burden of proving that the interim requirement or prohibition meets the statutory standards. The interim requirement or prohibition will remain in effect until the Federal agency rules on the underlying petition and initiates any appropriate administrative action, or a court determines that the interim requirement or prohibition does not meet the statutory standards, whichever occurs earlier.

These provisions will assure State officials that their voices will be heard, and will require EPA and FDA to review and take prompt action upon any State suggestion. In this way, the experience of State officials will be directly reflected in Federal decisions.

Exemptions for States: Although, as a general rule, requirements and prohibitions involving the levels of residues of pesticides in or on food should be uniform throughout the country, there may be come situations where exceptions are justified on a local basis. The amendments therefore specifically allow States to petition EPA and FDA for an exemption from the general rule of national uniformity. The responsible Federal official must submit a State petition to the Scientific Advisory Panel established under section 25(d) of FIFRA, and must receive comments from the Panel prior to taking any action on the petition. The Federal agency involved may promulgate a regulation granting such an exemption, after notice and opportunity for an oral hearing, under whatever conditions are appropriate to protect Federal interests.

To justify such an exemption, the State must demonstrate either that there are compelling local conditions or that the subject matter involved is primarily local in nature and the Federal agencies are not exercising jurisdiction over it. If the matter involves national rather than local conditions, the prior remedy is for the State to request Federal action rather than a location exemption. In both cases, the exemption must be further justified by a showing that the State requirement or prohibition protects an important public interest, would not cause any food to be in violation of Federal law, and would not unduly burden interstate commerce. Under these circumstances, a State would be permitted, through the exemption, to impose its own nonuniform requirement or prohibition that is in addition to or different from the Federal requirements and prohibitions, but no other jurisdiction could do so without obtaining its own exemption.

The State and Local advisory committee: Because a truly effective uniform national implementation of all laws regulating the levels of residues of pesticides in or on food depends upon strong State and local cooperation, the amendments provide for the establishment by EPA and FDA of an advisory committee comprised of eleven State and local officials engaged in this area of regulation. This advisory committee is charged with assuring that State and local interests are fully protected and considered in EPA and FDA decisions relating to the levels of residue of pesticides in or on food. It is responsible for coordinating the views of all State and local officials work-

ing in this area, for presentation to EPA and FDA, and in turn disseminating important information from EPA and FDA to State and local governments. In this way, communication and coordination will be substantially improved and more effective enforcement of the law will be fostered throughout the country.

The highest Federal official must decide the matter: State officials uniformly fear that Federal agencies will pay little or no attention to their petitions. To add further assurance that this will not happen, the amendments provide that any petition by a State requesting that the Federal agency adopt a State requirement or prohibition or that the State be granted an exemption, must be decided by the highest Federal official responsible for the implementation of the Federal law involved—for example, the Commissioner of FDA or the Administrator of EPA. This authority cannot be delegated. Before that highest Federal official decides the matter, moreover, the advice of the advisory committee comprised of State and Local officials must also be obtained, except where an imminent hazard is involved. These provisions thus assure that State petitions will receive adequate review and attention at the highest level of the Federal Government.

Exemptions to prevent an imminent hazard: The amendments also recognize the need for a State to establish, within its own jurisdiction, a requirement or prohibition that is necessary to prevent an imminent hazard. After the State has provided an opportunity both for written comment and for a public hearing, the State is authorized to adopt its own permissible level for a pesticide residue in or on food that is different from the Federal level if it has been demonstrated that there is an imminent hazard to public health and that the additional protection provided by the State is necessary to prevent that immiment hazard. An imminent hazard is defined as a hazard that presents a substantial risk of serious harm to human health. Within 10 days after announcing that a requirement or prohibition is being promulgated under this provision, the State must submit a petition to the responsible Federal agency for a Federal requirement under subsection (d) or for an exemption under subsection (e). If no such petition is submitted, the State action is automatically void.

Like the interim level that can be established when a Federal agency fails to respond to a petiton within the 180-day statutory period, the imminent hazard level can remain in effect only until such time as the Federal agency takes appropriate action on the petition submitted by the State or a court rules that the State level does not meet the statutory standards. Any person may challenge the State level through a declaratory judgment action in the courts, and the State bears the burden of demonstrating compliance with the statutory standards.

This provision recognizes the need of State officials to have adequate authority to protect the public health within their jurisdictions, without imposing an undue burden on interstate commerce. Where an imminent hazard has in fact been shown to exist, based upon an adequate public record, State officials remain free to take action to prevent that hazard. Where no such hazard exists, however, the general rule of national uniformity would continue to prevail.

AMENDMENT OFFERED BY MR. PANETTA TO THE AMENDMENT OFFERED BY MR. ROBERTS

Mr. PANETTA. Mr. Chairman, I offer an amendment to the amendment.

The Clerk read as follows:

Amendment offered by Mr. PANETTA to the amendment offered by Mr. ROBERTS: Strike out all after the section designation of the proposed new section and insert in lieu thereof the following:

UNIFORM TOLERANCES AND FOOD ADDITIVE REGULATIONS.

(a) TOLERANCES.—Section 408 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a) is amended by redesignating subsections (m), (n) and (o) as subsections (n), (o), and (p), respectively, and by adding after subsection (l) the following:

"(M)(1)(A) The Administrator may be regulation prescribe that a tolerance established under subsection (d) or (e) for a pesticide described in subparagraph (B) shall be uniform through the States if the Administrator determines that—

"(i) uniformity in the tolerance is necessary to prevent significant disruption of the marketing of raw agricultural commodities containing such pesticide, and

"(ii) variations from the tolerance are not necessary to protect human health.

In promulgating a regulation under this subparagraph, the Administrator shall respond to comments submitted by States in the rulemaking proceeding.

"(B) The pesticide chemical referred to in subparagraph (A) is a pesticide chemical—

"(i) that was registered after the date of the enactment of this subsection under section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act,

"(ii) that was reregistered after such date under section 3(g) of such Act, or

"(iii) that was registered under such section 3(c)(5) or reregistered under such section 3(g) before the date of the enactment of this subsection on the basis of data submitted to the Administrator which met the requirements of part 158 of 40 Code of Federal Regulations as in effect April 25, 1985.

"(C) Any interested person may petition the Administrator for the issuance of a regulation under subparagraph (A). The Administrator shall, within 180 days of the date of the submission of a petition, determine if the regulation proposed in the petition meets the criteria prescribed in clauses (i) and (ii) of such subparagraph. If the Administrator determines that a regulation proposed in a petition meets such criteria, the Administrator shall issue such regulation as a proposed regulation.

"(2) Except as authorized by paragraph (3), no State may establish or enforce a tolerance for a pesticide chemical in or on a raw agricultural commodity which is different from a tolerance established under subsection (d) or (e) for such pesticide chemical if the Administrator has prescribed uniformity for the tolerance under paragraph (1).

"(3)(A) A State may petition the Administrator for authority to establish in the State a tolerance which is more stringent than a tolerance for which the Administrator has prescribed uniformity under paragraph (1).

"(B)(i) A petition under subparagraph (A) for a tolerance shall be supported by—

"(I) scientific data about the pesticide chemical subject to the tolerance or chemically related pesticides, data on the consumption of food treated with the pesticide, data on exposure of humans to the pesticide, or information about the pesticide that reasonably raises concerns about the effect of the pesticide on human health, and

"(II) data or information described in subclause (I) that has been developed since the date the regulation of the Administrator

under paragraph (1)(A) prescribing uniformity for the tolerance took effect, that was unavailable at the time the regulation took effect, that was not considered by the Administrator at the time the regulation was promulgated, or that shows that the uniformity prescribed for the tolerance cannot be supported by the data or information used by the Administrator in promulgating the uniformity regulation.

"(ii) A petition under subparagraph (A) shall be referred to an advisory committee appointed in accordance with subsection (g).

"(iii) Not later than the expiration of 180 days after the date a petition which meets the requirements of clause (i) is filed with the Administrator, the Administrator shall authorize the action requested by the petition or deny the petition. The Administrator may deny the petition only if the Administrator determines that the action requested by the petition is unnecessary to protect human health in the State of the petitioner.

"(4)(A) Except as provided in subparagraph (B), if a processed food—

"(i) contains a raw agricultural commodity containing a pesticide for which a tolerance, established under subsection (d) or (e), has been made uniform under paragraph (1), and

"(ii) is not adulterated under the proviso in section 402(a)(2),

no State may establish a tolerance for such pesticide in such processed food which is different from the tolerance made uniform under paragraph (1).

"(B) If a State has had a petition approved under paragraph (3) authorizing the State to establish a more stringent tolerance for a pesticide, such State may establish a tolerance for such pesticide in such processed food which is more stringent that the tolerance made uniform under paragraph (1).".

"(b) FOOD ADDITIVE REGULATIONS.—Section 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 348) is amended by adding at the end the following:

"Uniform Food Additive Regulations

"(j)(1) The Administrator shall by regulation prescribe that a food additive regulation issued under subsection (c) or (d) for a pesticide in a food containing a raw agricultural commodity which contained such pesticide for which a uniform tolerance was established under section 408(m)(1)(A) with respect to such commodity shall be uniform throughout the States if the Administrator determines that variations from the food additive regulation are not necessary to protect human health.

"(2) Except as authorized by paragraph (3), no State may establish or enforce a food additive regulation for a food which is different from a food additive regulation issued under subsection (c) or (d) which is applicable to such food if the Administrator has prescribed uniformity for the food additive regulation under paragraph (1).

"(3) If the Administrator has promulgated a regulation under paragraph (1) establishing uniformity for a food additive regulation for a food containing a raw agricultural commodity which contained a pesticide for which a uniform tolerance was established under section 408(m)(1)(A) with respect to such commodity and if a State has had a petition approved under section 408(m)(3) authorizing the State to establish a tolerance which is more stringent than such tolerance, such State may establish a food additive regulation for such food which is more stringent than the food additive regulation for which uniformity has been prescribed.".

Mr. PANETTA (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. PANETTA. Mr. Chairman, this amendment to the amendment that I offer seeks to deal with the concerns that have been raised by the gentleman from Kansas with regard to the uniform standards, but also seeks in addition to that to establish an appropriate balance between the Federal responsibility and the State responsibility to protect public health.

Public health and safety is a responsibility not just of the Federal Government, but also of State governments. That balanced responsibility has to be recognized.

There is a common goal here, not an adversial goal, that hopefully a common goal of trying to set limits or tolerances for the amount of pesticide residue that can appear in a food product. That common goal is one in which both the Federal Government and State governments ought to be able to join in trying to establish just exactly what those levels are.

Today as the bill is reported, States have the opportunity to establish stricter standards. They have that power under existing law.

The problem that the gentleman from Kansas [Mr. ROBERTS] points out, and I believe it is a legitimate problem, is the problem of where you have a food product that is in interstate commerce and in which 50 States establish the possibility of 50 different standards; although I must point out that that has never happened, but if the States were to do that, you would have 50 different standards and, indeed, it seems to me you would have the potential of disrupting interstate commerce, a disruption that would impact on farmers, it would impact on food processors and it would impact on retailers. I understand that and I think that is a legitimate concern.

The Roberts solution, however, goes to the extreme, to the other extreme, which is basically to say that the EPA will automatically preempt all State tolerances with no process for State input prior to the development of those tolerances, and that concerns me.

Why does that concern myself and I think others?

First of all, the EPA does not have the best record and the EPA is the first to tell you that they have not done a very good job in terms of being able to register and reregister and to reassess all the pesticides. We are talking about 50,000 pesticides, and they are the first to say they have not done a very good job; so there is some concern about allowing a Federal agency that does not have a very good track record to now be able to automatically determine what the tolerance levels will be.

Second, the States do have good evidence. They have health departments, they have agencies, they are looking at the same facts.

What is wrong with allowing the States to participate in a rulemaking process that makes this evidence available to the Federal Government?

This proposal, or the amendment offered by the gentleman from Kansas, does not provide for that process.

Let me give you one example of what took place in my district. It does not relate necessarily to pesticides, but it is a type of it. It is frost ban. Frost ban is a bacteria in which experimentations are now being conducted to see if it can be used to prevent frost from appearing on various plants.

The EPA decided, without talking to the State, and without talking to local government, that they would allow the test to take place in what was supposed to be an isolated area. The EPA never went to our county. They never talked to the State officials. They never talked to the local officials, but they decided that this was a good place for a test in an isolated area. When you looked at the area, it was right next to a major residential area in our county.

Now, that was the judgment of the EPA, but they did not look at the State and the local level for their input.

Now, that is the kind of a precedent that I am afraid of establishing with the Roberts proposal.

The CHAIRMAN. The time of the gentleman from California has expired.

(By unanimous consent, Mr. PANETTA was allowed to proceed for 3 additional minutes.)

Mr. PANETTA. What my amendment basically does, Mr. Chairman, is it gives the EPA the power to establish uniform standards. I agree with that. They ought to have that power. They ought to be able to establish standards where they can prove that there is a disruption in terms of interstate commerce and it does not jeopardize public health, and that is another requirement in my amendment.

If they proceed to do that, then the State is given the opportunity to participate in that process through rulemaking. This is the process that is used by a number of agencies. You propose a regulation, you go through rulemaking, you allow the States basically to have their input in that process. If the States feel that the final rule does not apply, then they have

the right to petition for a change as well.

What this does, let me point out to the membership, what this does it protects the ability of the States to participate in the process.

Yes, the EPA can establish a standard; yes, the EPA can move toward doing a uniform standard where it feels interstate commerce is disrupted, but it gives the State input into that process.

Let me conclude by saying this. We are not just talking here about rules and procedures and regulations. We are talking about a matter of public health. We are talking about the problem and the potential of cancer, of birth defects. We are talking about an impact that could affect literally millions of American citizens. We are talking about 50,000 pesticides that today have been fully reassessed and hopefully under this legislation will be reassessed and put up to current standards.

We are talking about an EPA that does not have an efficient record, a good track record of being able to do the job today.

So does it not make good sense where it involves the public health to give the States the ability to participate in this process with the information that they have and to establish a procedure that gives the State input into that process?

If we get this amendment, then not only can we establish uniform tolerances that benefit farmers and benefit producers and benefit retailers, but we also, and more importantly, protect the public interest in that process.

Mr. Chairman, I urge the committee to vote for the amendment to the amendment.

AMENDMENT OFFERED BY MR. STENHOLM AS A SUBSTITUTE FOR THE AMENDMENT OFFERED BY MR. ROBERTS

Mr. STENHOLM. Mr. Chairman, I offer an amendment as a substitute for the amendment.

The Clerk read as follows:

Amendment offered by Mr. STENHOLM as a substitute for the amendment offered by Mr. ROBERTS: Page 162, insert after line 16 the following:

(c) NATIONAL UNIFORMITY.—The Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.) is amended by adding after section 412 the following new section 413:

"FOOD PRODUCTION AND MARKETING UNIFORMITY

"SEC. 413. (a) INTENT.—It is the intent of Congress to assure a safe and reasonably priced food supply for consumers. In order to achieve this goal, it is declared to be the express intent of Congress to require national uniformity in the regulation of the levels of residues of pesticides in or on food in order to permit national marketing of all food products without jurisdictional barriers.

"(b) NATIONAL UNIFORMITY.—(1) Except as provided in subsections (e) and (h), no State or political subdivision thereof may establish, continue in effect, or enforce any requirement or prohibition that—

"(A) directly or indirectly establishes a permissible level for a residue of a pesticide in or on food, if such a level has been established under a Federal law or a regulation or other enforcement requirement issued thereunder and

"(B) is not identical with the requirements or prohibitions of such Federal law and of the regulations and enforcement requirements issued thereunder if the use of the pesticide resulting in the residue is registered with the Administrator of the Environmental Protection Agency on the basis of data meeting the requirements of paragraph (2) of this subsection or if the use of the pesticide resulting in the residue has not been registered with the Administrator, or has been registered with the Administrator on the basis of data meeting the requirements of paragraph (2) of this subsection and later cancelled or suspended, and the permissible level for the residue has been established or reaffirmed by the responsible Federal official on or after the date of enactment of this subsection.

"(2) For purposes of this subsection, a pesticide shall be deemed to be registered with the Administrator of the Environmental Protection Agency with respect to a use on the basis of data meeting the requirements of this paragraph if—

"(A) the initial registration or reregistration of the pesticide for that use was approved under section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act on or after April 25, 1985, or

"(B) the initial registration or reregistration of the pesticide for that use was approved under section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act prior to April 25, 1985, on the basis of data determined by the Administrator of the Environmental Protection Agency to meet the requirements of the provisions in 40 CFR part 158 that became effective on April 25, 1985.

"(c) CONCURRENT JURISDICTION.—(1) Any State or political subdivision thereof may exercise concurrent jurisdiction over the levels of residues of pesticides in or on food for the purpose of enforcing requirements or prohibitions identical with those established in such Federal law and in the regulations and interpretations issued thereunder.

"(2) For purposes of paragraph (1), the Federal official responsible for the implementation of any Federal law referred to in subsection (b)(1) shall—

"(A) cooperate with and provide relevant information to State and local officials engaged in the regulation of the levels of residues of pesticides in or on food; and

"(B) provide training and enter into contracts with such officials to facilitate more effective uniform national regulation of the levels of residues of pesticides in or on food, except that the authority to enter into contracts under this paragraph shall be to such extent or in such amounts as are provided in appropriations acts.

"(d) PETITION.—(1) Any State may petition the Federal official responsible for the implementation of a Federal law referred to in subsection (b)(1) to adopt by regulation as a Federal requirement or prohibition an existing or proposed state requirement or prohibition relating to the levels of residues of pesticides in or on food.

"(2) Within 180 days after receipt of any such petition, such Federal official shall, after receiving comments from the Scientific Advisory Panel established under Section 25(d) of the Federal Insecticide, Fungicide, and Rodenticide Act containing an evaluation of relevant data and risk to human health—

"(A) respond specifying the substantive action that is being taken on such petition; and

"(B) if such action includes the adoption of a new Federal requirement or prohibition, initiate the appropriate administrative proceeding to implement such action.

"(3)(A) If such Federal official fails to respond or to initiate any appropriate action within the 180 days specified in paragraph (2) of this subsection, the State which submitted the petition may, notwithstanding the provisions of subsection (b), establish and enforce within its own jurisdiction the requirement or prohibition which was the subject of the petition, as an interim requirement or prohibition.

"(B) Such an interim requirement or prohibition may be contested by any person under the declaratory judgment provisions of section 2201 of title 28, United States Code, on the ground that the interim requirement or prohibition does not meet the standards established in paragraphs (1) and (2) of subsection (e). In any such action, the State shall bear the burden of proving that such interim requirement or prohibition meets such standards.

"(C) Such an interim requirement or prohibition may remain in effect until—

"(i) the Federal official takes action on the petition and initiates any appropriate administrative proceeding pursuant to paragraph (2) of this subsection and such action rejects the interim requirement or prohibition or

"(ii) a court determines that the interim requirement or prohibition has not been shown by the State to meet the standards established in paragraphs (1) and (2) of subsection (e),

whichever occurs earlier.

"(e) EXEMPTIONS.—Upon petition of a state the Federal official responsible for the implementation of a Federal law referred to in subsection (b)(1) may, after receiving comments from the Scientific Advisory Panel established under Section 25(d) of the Federal Insecticide, Fungicide, and Rodenticide Act containing an evaluation of relevant data and risk to human health, by regulation promulgated after notice and opportunity for an oral hearing, exempt from subsection (b), under such conditions as may be prescribed in such regulation, a requirement or prohibition of such State relating to the levels of residues of pesticides in or on food in that State if such requirement—

"(1)(A) is justified by compelling local conditions or

"(B) is justified because the subject matter regulated by such requirement or prohibition is primarily local in nature and the Federal official responsible for the implementation of such Federal law is not exercising jurisdiction over the subject matter regulated by such requirement or prohibition, and

"(2)(A) protects an important public interest that would otherwise be unprotected,

"(B) would not cause any food to be in violation of any applicable requirement or prohibition under Federal law, and

"(C) would not unduly burden interstate commerce.

"(f) ADVISORY COMMITTEE.—For purposes of assuring effective and uniform implementation of all laws regulating the levels of

residues of pesticides in or on food, the Federal officials responsible for implementation of such Federal laws shall establish an advisory committee comprised of eleven State and local officials engaged in the regulation of the levels of residues of pesticides in or on food.

"(g) RESPONSIBLE FEDERAL OFFICIAL.—A petition submitted under subsection (d) or (e) shall be acted upon by the highest Federal official responsible for the implementation of the Federal law involved, which authority shall not be delegated. The advice of the advisory committee established under subsection (f) shall be obtained before action is taken upon any such petition unless the petition relates to an imminent hazard determination under subsection (h).

"(h) IMMINENT HAZARD.—(1) Notwithstanding the provisions of subsection (b), a State may establish and enforce within its own jurisdiction any requirement or prohibition which directly or indirectly establishes a permissible level for a residue of a pesticide in or on food if—

"(A) after an opportunity for written comment and a public hearing, it has been demonstrated that—

"(I) the permissible level for a residue of that pesticide in or on food established under a Federal law or a regulation or interpretation issued thereunder constitutes an imminent hazard to public health in that State because it presents a substantial risk of serious harm to human health, and

"(II)) the additional protection provided by such requirement or prohibition is necessary to prevent such imminent hazard, and

"(B) within ten days after the State announces that it is promulgating the requirement or prohibition, the State has submitted a petition under subsection (d) or (e).

"(2) Any requirement or prohibition established or enforced under paragraph (10 may be contested by any person under the declaratory judgment provisions of section 2201 of title 28, United States Code, on the ground that such requirement or prohibition does not meet the standards established in subparagraphs (A) and (B) of paragraph (1). In any such action, the State shall bear the burden of proving that such requirement or prohibition meets such standards.

"(3) Any requirement or prohibition established or enforced under paragraph (1) may remain in effect until—

"(A) the Federal official takes action on the petition submitted under subsection (d) or (e) and such action rejects such requirement or prohibition or

"(B) a court determines that the requirement or prohibition has not been shown by the State to meet the standards established in subparagraphs (A) and (B) of paragraph (1),

whichever occurs earlier."

Mr. STENHOLM (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

The CHAIRMAN. The Chair would like to be clear on this. As the Chair understands, this is a substitute for the Roberts amendment?

Mr. STENHOLM. That is correct, Mr. Chairman.

The CHAIRMAN. The gentleman from Texas [Mr. STENHOLM] is recognized for 5 minutes in support of his substitute amendment.

Mr. STENHOLM. Mr. Chairman, the only change that I make in the substitute is that we amend the Food and Drug Act, rather than the FIFRA Act.

This is a further attempt on the part of the gentleman from Kansas [Mr. ROBERTS] and myself and those others who are extremely interested in the question of uniformity and State tolerances.

This is a further attempt for us to meet those objections, particularly the objections from the Energy and Commerce Committee and the chairman of that committee, the gentleman from Michigan [Mr. DINGELL], concerning jurisdictional problems.

I think this amendment offered as a substitute should be the final answer to questions of all those who have concerns in two areas of this amendment; one is on the question of States rights and the State's position concerning the uniformity question and whether or not Federal law shall supersede State law, and also the amendment of the gentleman from California a moment ago in which he spoke of the health concerns.

I would like to associate myself with every remark that the gentleman from California [Mr. PANETTA] made concerning the health concerns of this entire issue. That is not the question that we are debating at this moment, though.

The question now is uniformity and whether or not we can have a law of the magnitude of this law that meets the health concerns of all the citizens of the United States and at the same time provides for the constitutional restraints and requirements that we have concerning the regulation of commerce, and I want to speak to both of those issues.

The general issue of preemption, and for those of my colleagues who are concerned about the States' rights issue in this argument, let me submit this:

Since the turn of the century federal legislation under the commerce clause has penetrated deeper and deeper into areas once occupied by the regulatory power of the States. One result is that state laws on subjects about which Congress has legislated have been more and more frequently attacked as being incompatible with the acts of Congress.

The constitutional principles of preemption, in whatever particular field of law they operate, are designed with a common end in view: to avoid conflicting regulation of conduct by various official bodies which might have some authority over the subject matter.

* * * the power to regulate commerce is the power to prescribe conditions and rules for the carrying-on of commercial transactions, the keeping-free of channels of commerce, the regulating of prices and terms of sale. Even if the clause granted only this power, the scope would be wide, but it extends to include many more purposes than these.

From what am I quoting? I am quoting from the Constitution of the United States of America, the Analysis and Interpretation of June 29, 1972. Quoting further:

To be sure, in cases of flat conflict between an act or acts of Congress regulative of such commerce and a state legislative act or acts, from whatever state power ensuing, the act of Congress is today recognized, and was recognized by Chief Justice Marshall, as enjoying an unquestionable supremacy.

Again, I come back to a basic and fundamental point, and this is the issue between the amendment offered by the gentleman from Kansas [Mr. ROBERTS] and myself, the amendment offered by Mr. PANETTA and the amendment offered as a substitute that I offer on behalf of the gentleman from Kansas [Mr. ROBERTS] and myself.

We all agree on the need for maximum protection of the general public of the United States concerning the use of insecticides, fungicides, pesticides, and so forth. We all agree to that.

The basic question is whether or not we can have 50 individual interpretations of this law without infringing and completely destroying interstate commerce under the Constitution of the United States. The question is uniformity.

Now, let me answer and point out further what is in the Roberts-Stenholm amendment, as amended. We provide for three opportunities for a State to petition the EPA for a pesticide residue tolerance.

To those who suggest that in our amendment we are precluding States from having a say-so in what is in fact a health hazard for an individual State or community, you have not read the amendment.

We provide for three things:

First, following a State's determination of an imminent hazard; if you have an imminent hazard, we have it in our amendment that allows that State to recognize that and to petition the EPA for action.

Second, we require, or to request an exemption from a Federal tolerance because of compelling local circumstances.

Again, the gentleman from California makes a very compelling argument and certainly we have recognized that in our amendment in the spirit of compromise to provide for where you have local circumstances you have the wherewithal within this legislation and within our amendment.

□ 1130

The CHAIRMAN. The time of the gentleman from Texas [Mr. STENHOLM] has expired.

(By unanimous consent, Mr. STENHOLM was allowed to proceed for 5 additional minutes.)

Mr. STENHOLM. Mr. Chairman, the third point concerning our States and the issues, and the fact that the gentleman from Kansas [Mr. ROBERTS] and I in our amendment recognize the importance of listening to our States, and working with our States, we provide the opportunity to request that an existing or proposed State requirement be adopted as a Federal requirement.

Within this general construct, the question has been raised as to whether a State can petition and receive approval for a tolerance different from a Federal tolerance based on scientific considerations, for example, gaps in the data base or new scientific studies.

Another way of stating this question is whether, based solely on scientific grounds, two different standards of safety for a pesticide residue level could or should exist in the United States. Where we have States and Federal Government making independent judgments, can we have this?

With regard to case 1, imminent hazard, a different State tolerance would be justified if there was increased consumer risk from exposure to a pesticide residue. This could occur as a result of ground water contamination or an accident involving misapplication of a pesticide. Clearly, the determination of increased risk is a scientific determination arising from relatively limited regional conditions and necessitating immediate action.

With regard to case 2, exemption based on local conditions, a different State tolerance also would be justified if there was increased consumer risk arising from those conditions. This too, is a scientific determination.

With regard to case 3, "an existing or proposed State requirement," a request for a different tolerance would arise as a result of different scientific views of consumer risk, generally attributable to different interpretations of data, data gaps or new data. In such circumstances, different State and Federal tolerances would be illogical, and would create unequal consumer protection with respect to the same product exposure. The approach that should be taken in this case is to submit the petition for an evaluation by the Science Advisory Panel established by FIFRA for this purpose. The Panel's safety determination should be applied on a nationally uniform basis.

Mr. Chairman, I conclude my remarks by again saying that the basic issue that we will vote on today is whether or not we believe that we can have the free exchange of interstate commerce and have the possibility reigning at any time that we can have 50 individual States' determinations of what in fact is a safe tolerance for various chemicals, et cetera.

My argument, and the reason that we offer this amendment, and the reason that we have offered this again as a compromise to meet the valid concerns of the Committee on Energy and Commerce, particularly those of the chairman, the gentleman from Michigan [Mr. DINGELL], is that in fact we cannot have interstate commerce, we cannot have the free exchange, by going in the direction of the amendment of the gentleman from California [Mr. PANETTA]. It just will not allow interstate commerce to move without disruption that will in fact be costly and will not prove anything of significance.

Not all States disagree, and I would conclude by saying that Missouri, Michigan, and North Carolina have shown their support in letters which I have in front of me. AFDO, the Association of Federal Drug Organizations. I have a very strong letter from Mary Heflin of Connecticut in which she says:

> We believe this bill, the Stenholm-Roberts amendment, through its petitioning process provision, provides the individual States with an opportunity for its public voice to be heard. Other provisions also insure the State's role in the regulatory process.

This is the association of State officials that has taken a deep and abiding look at this and has come to the same conclusion as so many other organizations and individuals concerned about the free exchange of interstate commerce, and they support and we urge Members to support the Roberts-Stenholm amendment, as amended.

Mr. LUKEN. Mr. Chairman, will the gentleman yield?

Mr. STENHOLM. I am delighted to yield to the gentleman from Ohio.

Mr. LUKEN. Mr. Chairman, I would like the gentleman to respond to the issue of the burden of proof. I understand that the burden of proving a negative in this instance, or so it is charged, would be on the EPA in order to establish national uniformity. Will the gentleman respond to that?

Mr. STENHOLM. Which amendment?

Mr. LUKEN. Not under your amendment, under the other amendment.

Mr. STENHOLM. Under the other amendment, the gentleman is entirely correct. I understand.

Mr. PANETTA. Mr. Chairman, will the gentleman yield?

Mr. STENHOLM. I yield to the gentleman from California.

Mr. PANETTA. I thank the gentleman for yielding.

Mr. Chairman, the gentleman is referring obviously to the amendment that we have made to the amendment. It does not change the burden of proof. What it requires is that EPA establish that there is an impact on interstate commerce. That is the whole point here. If it affects interstate commerce, then EPA has to show that, in fact, that is the case.

What the Roberts amendment does is presume interstate commerce is affected in terms of tolerances.

Mr. STENHOLM. Mr. Chairman, I would submit that the amendment of the gentleman from California will not only presume it, but will make it almost impossible to determine uniformity.

Mr. WAXMAN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in support of the Panetta amendment.

Since 1906, when the predecessor of the Federal Food, Drug, and Cosmetic Act was enacted, States have had the authority to set tougher pesticide residue levels. We now hear from food companies that this longstanding State authority should be repealed.

The food companies argue that States have already abused their authority and will continue to do so in the future. They predict a confusing maze of different State standards that disrupt interstate commerce.

Their claims are unfounded. History does not bear them out.

There are 400 food use pesticides. States have regulated two of them. In both cases, the pesticides were declared to be carcinogenic by EPA. States took action to protect their citizens when EPA failed to act.

States have been responsible and restrained. Their record is not the real issue, though. The food companies are really concerned about the future. They fear the EPA will not do the job this bill requires of them. They fear that States will become increasingly active as EPA plods through years of reviewing the safety of the pesticides now in use.

The food companies want Congress to eliminate the possibility that States might regulate pesticides in the name of public health. They want the States preempted—totally and unconditionally.

I understand there is a potential for disruption in our nationwide food marketing system if there are multiple State standards in addition to the EPA standard. I am prepared to support an amendment that provides the companies with assurance that it will not happen. In addressing their concern, though, we cannot ignore that there are other important issues that also must be resolved.

Is the public protected from unsafe pesticide residue levels when the States are preempted?

Do the States have the opportunity to be heard on their health concerns before preemption occurs?

Is anyone determining whether preemption is needed in any particular case?

These three questions are the best measure of whether we are acting responsibly. The Roberts amendment fails badly because it answers "no" three times. The Panetta compromise was created specifically to address these three questions.

I would like to take a moment to contrast the major points of these two amendments.

The Roberts amendment is based on the presumption that preemption is needed in every case. In other words, the marketing of every food containing a pesticide residue is subject to disruption. Under the Roberts amendment, preemption is automatic. There will be no review by EPA to determine that preemption needs to occur.

In contrast, the Panetta compromise calls on EPA to review the facts. If two sensible tests are met, then EPA would preempt the States. If food products which are moving in a nationwide distribution system will be disrupted when a State sets a more stringent standard, and if the EPA residue level will protect everyone in the country, then EPA can preempt the States.

We should not preempt unless we know that it is needed, and that the EPA standard will protect public health. If we are going to prohibit a State from regulating pesticides to protect a particular group that the State believes is vulnerable, EPA must determine that its standard will take care of the State's concern. For instance, a State may believe that its children or an ethnic group consume larger than average amounts of a particular food. In such a case, the EPA standard may subject them to serious health risks.

The Panetta compromise authorizes preemption, but with the necessary evaluation that it is needed and will be done well.

Under the Roberts amendment, States have no input before preemption occurs. States do get to participate in an advisory committee. But, an advisory committee is a poor trade for the right to regulate.

In contrast, the Panetta compromise protects the States by guaranteeing them the opportunity to comment on EPA-proposed preemption before preemption would occur. If the States are to be preempted, we must at least give them the opportunity to explain any health concerns they have. For example, one of EPA's greatest weaknesses is its lack of updated information on how much of a particular food with a specific pesticide is consumed. States could be invaluable sources of this consumption data. After the States commented, EPA can know whether or not the tolerance that EPA proposes to make uniform will protect the health concerns of the States.

In the final analysis, the most important test is whether people will be subjected to unsafe pesticide residues after States are preempted. The Roberts amendment fails again.

Under the Roberts amendment, a State may petition EPA for the authority to set a stronger standard in the State. The criteria are so strict, though, that States cannot act to remedy a serious health concern. The Roberts amendment only allows a State to address "local conditions." But, as we all know, health hazards presented by pesticides on food are not local matters. Even in the face of new scientific data identifying a pesticide as a carcinogen, States could do nothing under the Roberts amendment.

In contrast, the Panetta compromise lets States set more stringent pesticide residue levels if they present EPA with new information and EPA determines that the stronger State standard is necessary to protect human health.

The Roberts amendment does not just preempt the States; it endangers public health. Given EPA's current track record, we have no reason to believe that future EPA tolerances will adequately protect human health. The Roberts amendment preempts the States nevertheless.

The Panetta compromise also preempts the States. But it does so in a thoughtful and balanced way. EPA will be authorized to prevent undue disruption in our nationwide food marketing system. States will have ample opportunity to make their views known. Public health will be protected by the mandate that EPA consider the health concerns raised by the States and other interested parties.

The Panetta compromise balances these different interests in a fair and effective way. I urge support for the compromise.

□ 1140

Mr. GREEN. Mr. Chairman, will the gentleman yield?

Mr. WAXMAN. I am pleased to yield to my colleague from New York.

Mr. GREEN. Mr. Chairman, I rise to commend the gentleman from California for his statement and to support the Panetta compromise. It seems to me that, particularly after the Supreme Court decision in the Garcia case in which the Court just about told the case that if they are going to be protected in their traditional intergovernmental immunities they must look to the Congress rather than the courts for that protection, it would come with ill grace for us now to be sweeping the traditional rights that States have had—the police power of the States to protect the health and safety of their citizens.

The Panetta amendment recognizes the traditional role of the State in our Federal system. The Panetta amendment recognizes that States know better than Federal bureaucrats here in Washington, often at large distances away, the problems of their citizenry and the local conditions that they face.

At the same time, the Panetta compromise does indeed vindicate the right of a national government when interstate commerce is being interrupted to deal with that situation.

I urge my colleagues to support the Panetta compromise.

Mr. ROBERTS. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the Waxman-Panetta amendment.

Mr. Chairman, I guess this is Friday and we are in Washington, we are still in session. I had a little doubt there for a while because when I am hearing people like CHARLIE STENHOLM, and PAT ROBERTS, and TOM LOEFFLER, and a Mr. Bliley from Virginia, and Mr. LOTT and others who are cosponsors of the Stenholm-Roberts approach are opposed to States rights, I thought it might be Alice in Wonderland, and especially in regards to the gentleman from California, Mr. WAXMAN, who is a known defender, and rightly so, of strong Federal involvement to protect public health and has now assumed the championship of States rights. We are a little bit turned around.

There is nobody in this Congress that is more determined to protect States rights. This is not States rights, this is States fights.

We had six States in the northeastern part of the United States who rightly, who rightly were complaining about the record of the EPA in not standing up to the issue of public safety. That is what this bill is all about. That is why we force deadlines on the EPA. That is why we mandate that they take this reform.

Those six States, all of them have different standards for EDB. It is a matter of record, and the same thing now applies to the preservative for peanuts and for apples.

If, in fact, that is the case, if, in fact, it is an unsafe pesticide, let us get it through this FIFRA reform bill, but then make the tolerance level for all 50 States.

No process for State input. The gentleman simply has not read the amendment or is just reaching a different conclusion. States have every opportunity to come in and set stringent standards. But yet, yes, the burden of proof is on that State, so that this State does not set a standard that will disrupt the marketing of every farmer every stockman, every food shipper, every consumer that would like to buy any products.

Frost damage in California. Let the record show for my good friend and colleague from California, Mr. PANETTA, I am opposed to frost damage in California, and I am opposed to EPA practices that would come in and not recognize the gentleman's problem.

That has been part of the reason why we are so supportive of this total FIFRA reform bill.

Let me also say that the proponents, yes, food companies too, and the gentleman from California talks about food companies, food companies as if it were a pejorative—my word, what would the food companies want unless it were safe products to market to consumers all around America? Yes, the food companies want our bill, the Stenholm-Roberts bill. But, as I said before, so do 60 farm organizations, and 60 farm organizations oppose the Waxman amendment or the Waxman-Panetta version of this bill.

Why? Because we are all concerned about public safety and health. That is why we have the doggone bill in the first place.

As I indicated before, maybe one of the big concerns is access by the public, State involvement prior to this process in terms of the whole business of uniform tolerance. The gentleman from California [Mr. PANETTA] will try to make the argument, has made the argument that under Stenholm-Roberts tolerances would be automatic, would provide no opportunity for public comment. Read the bill. The whole bill involves the process of public involvement. One of the major provisions of the bill is section 101 entitled preregistration access to data. This enables public entities and other interested persons the opportunity to look at health and safety data and allow them to have all sorts of public comment on that data for 60 days. The whole bill does that.

So the data that the EPA bases its tolerances upon is available for public comment.

Mr. PANETTA. Mr. Chairman, will the gentleman yield?

Mr. ROBERTS. I am happy to yield to the gentleman from California.

Mr. PANETTA. I thank the gentleman for yielding.

If the gentleman believes that States should be part of the process, then what objection does the gentleman have to allowing States to participate in a rulemaking process before the uniform standard is established?

Mr. ROBERTS. The only grounds for denying a State petition to establish a different tolerance would be for EPA to formally determine a variance that was unnecessary to protect human health. And, in addition, the gentleman also says that that action is needed to prevent significant disruption. The gentleman knows that no EPA administrator, and by the way, they have the current authority to do that right now, but if the gentleman is unhappy with the EPA now, no uniform tolerance has ever been set because, as the gentleman knows, no EPA administrator is bound to do that. So you have to come in with the burden of proof first to have the uniform tolerance, and then the State comes in. If you folks in California have every good reason to come in for more stringent tolerances, hey, I will join you. I will go down there to EPA with your good friend and your colleague, and your Governor, and your State health officials, and we will go in there and we will press for more stringent standards. But our scientific evidence has to be at least equal to the scientific advisory panel that the gentleman supported in the whole FIFRA bill.

Mr. PANETTA. Again, the gentleman really has avoided an answer to the question. The basic question is why not allow the States to participate in the rulemaking process. If the gentleman wants to listen to the States, build the process to let them do it.

□ 1150

Mr. STENHOLM. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. Without objection, the gentleman from Texas [Mr. STENHOLM] is recognized for 5 minutes.

There was no objection.

Mr. STENHOLM. Mr. Chairman, I would like to answer the question of the gentleman from California [Mr. PANETTA] in saying in the amendment, the substitute that we offer, we provide under section 34(d), any State may petition the Federal official responsible for the implementation of the Federal law referred to under subsection. We provide that.

We also provide that, where there is an imminent health hazard, that State may in fact move on its own; but the burden of proof is on the State. That is the difference between the gentleman's approach and mine.

The gentleman's approach says, "Let the State be preeminent." That is where we get into the problem of interstate commerce. What we are saying is, "Let's go through, let's give the States, let's use all of the knowledge and the wisdom provided in all of our States." Let us utilize that, but let's do it under a law of uniformity that will avoid those problems like EDB and like some of the other problems we are running into today, in which you have a judgment not substantiated by scientific knowledge and reason.

Mr. PANETTA. Mr. Chairman, will the gentleman yield?

Mr. STENHOLM. I yield to the gentleman.

Mr. PANETTA. I thank the gentleman for yielding, and I thank him for pointing out that provision, because that provision is at the heart of the difference between the Panetta compromise and the Roberts compromise.

Essentially, Mr. Chairman, that petition process only takes place after EPA has established the uniform tolerance level, and it is only at that point that the State can then come in.

Under the Panetta compromise, the State can present that evidence during the rulemaking process leading to a uniform standard. That is the basic difference here.

Are you going to listen to the States after the Federal Government has acted, or are you going to listen to the States before they have acted to establish a uniform tolerance level?

Mr. STENHOLM. Mr. Chairman, if I can reclaim my time, the answer is both. The Stenholm-Roberts does both. We listen before and after and make them a part of the process; you do not.

Mr. SYNAR. Mr. Chairman, I rise in opposition to the substitute amendment.

Mr. Chairman, for those who are watching out there in their offices and for those who are following this debate, this is one of the most interesting debates we are going to have on an issue that involves not only the Agriculture Committee and those committees that have jurisdiction over the EPA; and I suspect that when the vote finally comes, people are going to rush in here, and as we too often do, we are going to summarize this debate in the context of, it is a States rights issue, it is a non-States rights issue; it is an issue of whether or not there is going to be free exchange of commerce.

Well, as everyone knows, I am from Oklahoma, and my family has for three generations been involved in agriculture; and I would be first in line to tell you the benefit that we have had from the use of pesticides and chemicals in agriculture; that it has helped make this country the greatest country in the world in the production of food fiber.

I would also say that there is a great growing concern in this country with respect to our farmers and ranchers that maybe we have used things in the past that may not be in the best long-term health interests of the public.

What is at issue today is not the health risk of this Nation, because there is not a person that will speak on this issue on either side that will, that could be classified as someone who is not concerned about the protection of the consumer.

My dear friend from Texas, Mr. STENHOLM, has said that this issue is an issue of uniformity, an issue where we do not want to have 50 State standards so that a company would have to meet 50 different State standards in order to sell their products.

He has also said that, in his estimation, that this violates the commerce clause of our Constitution and that unless we are able to accept the Stenholm-Roberts substitute, we will have a violation of the free exchange of commerce in our country.

Well I really, with all due respect, must disagree with the gentleman from Texas [Mr. STENHOLM], because I think the burden of proof is on him, Mr. Chairman, to show that because of the present structure that we have, that there has been that "interruption of free exchange of commerce."

Over the last 40 years, only twice have States ever intervened in order to try to protect their citizens against what they considered a potential problem. Why did they intervene? Did they intervene because they wanted to overdo what the Federal Government was doing? Did they want to set a standard that was so high to interrupt the exchange of those products? No.

The record is very clear, and as chairman of the Subcommittee on Environment, Energy, and Natural Resources which has oversight jurisdiction over EPA, the reason that the States have intervened, on both occasions, is because the EPA has refused to do its job, very simply.

In the case of EDB, it took them 10 years, 10 years to make a decision. Ten years of unnecessary exposure to the American public of a product that we know is cancer causing.

Now, I think those who are arguing for this substitute today really have the burden on them to prove that this type of change, in eliminating the States as part of the process, is necessary. I say that is is not. In fact, I think that if one looks at what the oversight committees on EPA have done in the last couple of years, we can conclude that what the gentleman from Texas [Mr. STENHOLM] and the gentleman from Kansas [Mr. ROBERTS] are trying to do is premature. Premature.

Not only is it unnecessary, Mr. Chairman, but it is premature very simply because the hearings have pointed out time and time again that we have a dismal failure of a program down at EPA in protecting the American public.

If the American public cannot turn to its Federal Government and EPA to protect them, by gosh, we ought to be able to let our State health departments and our States at least protect them.

Now, this amendment may be a good amendment 1 year from now, 2 years from now, because I think with the oversight work that we have done, EPA is beginning to clean their act up in this area; but it is premature.

So I ask those who are considering, and who are watching this: Do not summarize this issue as one of the commerce clause or States rights, do not summarize it as being pro health protection or antihealth protection, or proagriculture or antiagriculture or pro commerce or anticommerce.

Look at the structure that exists today in this country. Look at what exists at EPA. Look at their failure. Look at their track record. Anyone who would objectively look at that would take great credence in the fact that we are going to allow our States to do that.

Mr. DINGELL. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the Panetta amendment.

Mr. Chairman, as indicated, I rise today to urge my colleagues to vote for the Panetta amendment to Roberts-Stenholm.

I am keenly aware of the problems and the disruption to commerce which can result when pesticides are not uniformly treated nationally, and I recognize the strong need to do so; but I am also very much concerned about the need of States to participate in this process for the protection of their citizens, and the needs of individual States to exercise their powers to protect their citizens in special circumstances.

I find the provisions of the Roberts-Stenholm amendment to be deficient in this particular. I believe there are other reasons to support the amendment offered by the gentleman from California [Mr. PANETTA]; and that is that new information must be able to be utilized when it comes from science into Government, both to strengthen the requirements of regulations with regard to pesticide applications and pesticide residue.

Failure to do this raises real possibility that essentially the law will find that it freezes in place provisions which provide either inadequate protection for consumers or inadequate opportunity for liberalization of existing rules and regulations, to enhance the needs of agriculture, to protect the producers or to afford processors of food the opportunities to move forward with substances which might otherwise be banned, either in toto or in sufficient part as to cause an adverse situation with regard to the food distribution chain.

I believe that my colleague from California, Mr. PANETTA, has worked hard to compromise a difficult problem. His actions, I believe would balance the need to safeguard human health against the need to protect interstate commerce.

I find no prejudice to the free flow of goods across our State line under the Panetta substitute. The amendment acknowledges both the deliberative processes of EPA and the historic rights of the States to participate when necessary not only in the decisionmaking process, but also in the protection of their citizens from special circumstances.

□ 1200

It also sets reasonable standards when non-Federal tolerances can be overturned. It permits the use of new information in a speedy way, but it protects processors from frivolity, frivolous misbehavior, unwise intervention, the actions of cranks, and it ensures that the actions of EPA will be taken in instances of this kind in a deliberative and a careful fashion to ensure that new information enters the decisionmaking process in a timely fashion.

Regrettably, both the committee bill and the Roberts-Stenholm amendment are deficient in these circumstances. The balances and the safeguards that I find in the Panetta amendment are not present in the Roberts-Stenholm amendment.

I urge my colleagues very strongly to support the Panetta amendment. It does no hurt to industry but it affords a necessary balance to the process and it assures necessary protection to citizens and an assurance to citizens and industry alike that the process will work fairly for the benefit and the protection of all.

Mr. Chairman, I yield back the balance of my time.

Mr. DURBIN. Mr. Chairman, I move to strike the requisite number of words.

Let me say at the outset that I find myself in a difficult position on this particular amendment because I have such high regard for the various proponents of both sides. I know them from my experience on the House Committee on Agriculture to be people of good will who are genuinely looking for solutions to very difficult problems.

I might also add that this bill is long overdue. I want to salute my colleague, BERKLEY BEDELL of Iowa, for his yeoman efforts to make certain that this issue comes before the Congress.

Let me add one other footnote before I address this particular amendment. I am a member of the Committee on Appropriations and as such we have jurisdiction over the Food and Drug Administration. This bill is a necessary effort by the Congress to address domestic standards in the United States for the application of pesticides and the like. But let us not overlook the fact that we in America consume so many products, particularly fruits and vegetables imported from overseas, that the inspection standards that are being applied to them do not necessarily meet the level which most Americans would be happy to hear.

For instance, I was advised by the Administrator of the FDA that only 3 percent, 3 percent of the fruits and vegetables imported into the United States are inspected to determine what kind of pesticide residue levels they bring to the consumers at our stores. And of that 3 percent that are inspected, 30 percent are in noncompliance. Almost a third of the imported fruits and vegetables that we eat do not meet the standards that we are

now establishing for domestic producers in our country.

This speaks not only to the necessity of this bill but to address the very real need to make certain that we look to our imports as well.

Now, I come from a farming area in Illinois, and there is a genuine concern. The concern—and I might address my question first to the gentleman from California; the concern is this, if in fact we harvest our corn or soybeans, if we apply some pesticide in the process, if we are going to put our product into national or international commerce, what protects us from the possibility that one State might say, "We are establishing a standard where your pesticide that you used in Illinois on the corn or the soybean crop is unacceptable," thereby making certain that our product that we would otherwise like to sell in commerce could not be exported to that State? What protection is there for that producer?

Mr. PANETTA. Mr. Chairman, will the gentleman yield?

Mr. DURBIN. I would be happy to yield to the gentleman from California [Mr. PANETTA].

Mr. PANETTA. I thank the gentleman for yielding.

That is the exact problem that I think the Roberts amendment tries to legitimately address, which is the interruption in interstate commerce, and the need for a uniform standard. What this proposal, my compromise, tries to do is to require for the first time in clear law that the EPA shall establish uniform standards. But it goes beyond that because it says that where—and I address the gentleman specifically to page 2 of the amendment M1(c)—where any interested person, be it a farmer, be it a company, be it a retailer, whatever, any interested person may petition the Administrator for the issuance of a regulation, in other words for the issuance of a uniform standard and the Administration shall—this is not "may," not a discretionary power on the part of EPA—the Administrator shall within 180 days of the submission of that petition determine if the regulation proposed in the petition meets the criteria we lay out within the legislation.

So we have built in a mandate, a mandate, a clear mandate that when a petition is filed for a uniform standard, the head of the EPA must move within 180 days.

Mr. DURBIN. If the gentleman would continue this dialog, I am concerned about the case where such a petition is filed and let us say that the Illinois corn producer is concerned about the established standard in some State, and has petitioned the EPA, is now waiting for the 180-day period to expire and for the decision to be made, what if EPA for lack of resources or staff fails to make that decision within 180 days, what recourse does that producer or farmer have to make certain that he has his day in court?

Mr. PANETTA. Mr. Chairman, will the gentleman continue to yield?

Mr. DURBIN. I yield to the gentleman.

Mr. PANETTA. Like any clear mandate that we establish in law where we say the Administrator shall, if the Administrator fails to do that, then the recourse is to go to court and get an order to require that the Administrator abide by the clear statement in the law. So the most we can do in any instance is make it a mandatory requirement on the part of the Administrator and then if the Administrator, in view of that clear mandate, turns away from it, then a court can clearly order the Administrator to proceed.

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. DURBIN. I would be happy to yield to the gentleman from Kansas.

Mr. ROBERTS. I thank the gentleman for yielding.

I would like to respond, if I could. That is the basic difference in this approach. Under the Stenholm-Roberts approach, uniform tolerance is the norm, and States may come back for more stringent kinds of tolerances.

(On request of Mr. ROBERTS and by unanimous consent, Mr. DURBIN was allowed to proceed for 2 additional minutes.)

Mr. ROBERTS. Under the Panetta substitute or amendment, let me repeat again the agency may—it is discretionary with the Administrator—may grant uniformity only after certifying, No. 1, that action is needed to prevent significant disruption in interstate commerce. Now, I do not know whether or not the EPA Administrator would think that your corn producers and the problems they would go through with EDB, which was the case in the past year—and we do not use any EDB anymore, that is not the case—or maybe the peanut grower or maybe the apple grower in regard to one pesticide that is under question now, I do not know if he is going to act or not because I do not know to what extent a significant disruption would amount to. But I doubt it.

Then the second requirement is variations from the tolerance are not necessary to protect human health.

We have heard a lot of talk about EPA here and how they drag their feet and have not acted. What EPA Administrator is going to do that knowing he is going to face a court case? I submit to you that your corn producer would know, under the Stenholm-Roberts approach, that the norm is in fact tolerance. He could predict that that pesticide used on his crop would in fact, after it is washed clean through this whole FIFRA reform process, that he could use that and market his crop.

Now, EPA currently has such discretionary power to assert uniformity. Did they do it with EDB? No. Did they do it with daminozide, I think it is called, which is the pesticide that was used? We are right now in that process. Maine and Massachusetts have different uses for that product. What does the peanut grower have to do? What does the apple grower have to do? What we want to do is to get that chemical washed through this process and declare it safe. Under our approach that producer is protected because the tolerance is uniform. Under the other approach it is discretionary and the producer is left simply hanging in the air.

The CHAIRMAN. The time of the gentleman from Illinois has expired.

(By unanimous consent, Mr. DURBIN was allowed to proceed for 2 additional minutes.)

Mr. DURBIN. If I may ask my colleague from Kansas—what confidence does he have if we were establishing responsibility of the Federal EPA to set these standards, that they either have the resources or the will to do so? I have to share the feelings of the speech made by my colleague, Mr. SYNAR of Oklahoma, that to this date the EPA because either of volume of work or of policy decisions made has not shown the initiative to establish the standard in the very case that the gentleman mentioned, EDB.

Mr. ROBERTS. Mr. Chairman, will the gentleman continue to yield?

Mr. DURBIN. I would be happy to yield.

Mr. ROBERTS. I thank the gentleman.

That is precisely the concern of this gentleman. It was, over the past 4 years in working with Mr. BROWN and working with Mr. BEDELL to give the Office of Pesticide Programs and Enforcement, Dr. John Moore, the ability to do this. I was part of an effort to provide the Moore funds for more personnel to do this. That is why we are going through user fees to pay for it.

This legislation at best is a deadline enforcement bill, if you will, to get EPA to do its job. For those who want that part of it, once we get there from here and force EPA to do that job, then it seems to us that that tolerance level should be uniform in all 50 States.

We are going to do that job.

Mr. DURBIN. I thank the gentleman.

Mr. STENHOLM. Mr. Chairman, will the gentleman yield?

Mr. DURBIN. I would be happy to yield to my colleague from Texas.

Mr. STENHOLM. I thank the gentleman for yielding.

Mr. Chairman, I think the gentleman brings up the fundamental question, and I hope that the gentleman is not satisfied with the answer Mr. PA-

NETTA gave him regarding his amendment and its approach to that question, the disruption, because he does not provide for it. We do within our amendment. In that situation where a corn grower in Illinois has raised and produced a crop and has entered it into the commerce into the sale process and a State determines that something is wrong with that particular corn because of some misapplication or something that has been derived scientifically, we provide in our amendment that a State may petition and within 10 days action be granted, within 10 days. Now, the gentleman from California has told you that at that point there is 180 days in which the administrator may, not shall, may promulgate the regulations.

Mr. DURBIN. If I may reclaim my time, I think the language is mandatory, it uses the word "shall." I thank the gentleman.

Mr. Chairman, I yield back the balance of my time.

Mr. MILLER of California. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the Panetta amendment.

Mr. Chairman and Members of the House, I rise in support of the Panetta compromise amendment which I think strikes that balance between the rights of the States to govern and to protect its citizens and the need for industry to make sure that the stream of commerce can be continued.

I think that position as outlined struck support within the National Governors Association which has gone on record as supporting the Panetta approach, to a number of Governors who have taken it upon themselves to write the Congress in support of the Panetta approach, including the State of Massachusetts, Vermont, Wisconsin, New Jersey, South Carolina, West Virginia, Minnesota, New York, Florida, Maine, Texas, California, my own Governor has taken time out. It is bipartisan. I think they recognize it. You are talking about some of the major agricultural States in this country and States also that are very diverse in their agricultural products and putting them into the streams of commerce throughout the entire year for a number of different uses.

We also see that this compromise has struck that balance between the agricultural community, the chemical community and the environmental community. The fact of the matter is it allows something that so many people historically have gotten up and asked for, that is the continue right of local governments to exercise this prerogative and to be effective. And if you do not go for this, what you really have is the notion that the States are an afterthought, after the Federal Government makes up its mind, after the Federal Government has completed a process that may or may not be effective, that may or may not lend itself to local consideration, then the States are brought in after that.

The Panetta amendment is very reasonable, it has been worked out after weeks and weeks of negotiation, and I think that the House ought to support this and let us move on and get what is a very, very important piece of legislation in terms of the protections of the consumers, of our food products in this country. We have gone through the hassle of EDB where it took illnesses on the part of workers, on the part of consumers, the daminozide where we now see our children threatened with the possibility of cancer-producing agents in their bodies, where we saw foot-dragging, where we saw States sought to respond and did. The fact of the matter is we have not seen great disruption where even more leeway is given currently to the States than would be given under the Panetta amendment.

Finally, I would like to thank Congressman BEDELL, who I think has done an outstanding job in processing this legislation, getting it to the floor before we adjourn so we can address this. I would hope that my colleagues would understand that the Panetta amendment is supported by the National Governors Association. I believe they only take a position when two-thirds of the members go on record favoring that position; that they represent both consumer States and large agricultural States, diverse agricultural States. It also reconciles both the industry and consumers.

I would just hope that we would come to a vote on this, we would do it with a great sense of urgency and in understanding that the Panetta amendment allows that process to continue to work with the best interests of our consumers at heart.

The CHAIRMAN. The question is on the amendment offered by the gentleman from California [Mr. PANETTA] to the amendment offered by the gentleman from Kansas [Mr. ROBERTS].

The question was taken, and the Chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. STENHOLM. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 157, noes 183, not voting 91, as follows:

□ 1225

The Clerk announced the following pair:

On this vote:

Mr. Russo for, with Mr. Barnard against.

Messrs. LIPINSKI, MILLER of Washington, GONZALEZ, and PRICE changed their votes from "no" to "aye."

So the amendment to the amendment was rejected.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Mr. WEISS. Mr. Chairman, on rollcall No. 398, the Panetta amendment to H.R. 2482, had I been present—and I missed that vote because of congressional business off the Hill—I would have voted "aye."

□ 1235

The CHAIRMAN. The question is on the amendment offered by the gentleman from Texas [Mr. STENHOLM] as a substitute for the amendment offered by the gentleman from Kansas [Mr. ROBERTS].

The amendment offered as a substitute for the amendment was agreed to.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Kansas [Mr. ROBERTS], as amended.

The question was taken; and the chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. PANETTA. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 214, noes 121, not voting 96, as follows:

[Roll No. 399]

□ 1245

The Clerk announced the following pairs:

On this vote:

Mr. Lewis of Florida for, with Mr. Dixon against.

Mr. Packard for, with Mr. Hawkins against.

Mr. Ireland for, with Mr. Campbell against.

Mr. ROYBAL changed his vote from "aye" to "no."

So the amendment, as amended, was agreed to.

The result of the vote was announced as above recorded.

The CHAIRMAN. The question is on the amendment in the nature of a substitute, as amended.

The amendment in the nature of a substitute, as amended, was agreed to.

The CHAIRMAN. Under the rule, the Committee rises.

Accordingly the Committee rose; and the Speaker pro tempore [Mr. HOYER] having assumed the chair, Mr. MCHUGH, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 2482) to amend the Federal Insecticide, Fungicide, and Rodenticide Act, and for other purposes, pursuant to House Resolution 536, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment to the amendment in the nature of a substitute adopted by the Committee of the Whole? If not, the question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. MARLENEE

Mr. MARLENEE. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. MARLENEE. I am opposed to the bill in its present form, Mr. Speaker.

PARLIAMENTARY INQUIRY

Mr. GLICKMAN. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. GLICKMAN. Mr. Speaker, at what point would it be appropriate to reserve a point of order on the motion to recommit?

The SPEAKER pro tempore. After it is read.

The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. MARLENEE moves to recommit the bill, H.R. 2482 (as amended by H.R. 5440) to the Committee on Agriculture with the instructions that it adopt the following amendment and forthwith report it back to the House:

Amendment to the text of H.R. 5440 (the amendment in the nature of a substitute to H.R. 2482), after page 163, line 21, insert the following new title:

TITLE XII—LIMITATION ON USE OF FUNDS

FEES AND EXPENSES IN CIVIL ACTIONS

SEC. 1201. The Act is amended by inserting the following new section after section 31:

"SEC. 32. Notwithstanding any other provision of law, no attorneys fees or expenses shall be awarded for any civil action brought under section 3(a) of this Act for failure to meet deadlines.".

POINT OF ORDER

Mr. GLICKMAN. Mr. Speaker, I make a point of order.

The SPEAKER pro tempore. The gentleman will state his point of order.

Mr. GLICKMAN. Mr. Speaker, I make a point of order on the motion to recommit that the motion is not germane under clause 7 of rule XVI of the rules of the House. The language of this motion to recommit is substantially identical to an amendment that was offered on this floor which the Chair ruled nongermane.

The rule of germaneness as previously applied by this body applies to the instructions in a motion to recommit a bill to the Committee of the House, so I make the point of order that the motion to recommit is not germane.

The SPEAKER pro tempore. Does the gentleman from Montana wish to be heard on the objection?

Mr. MARLENEE. I do, Mr. Speaker.

Mr. Speaker, my amendment, I submit, is germane for the following reasons:

The title of the bill is for "other purposes" than amending FIFRA.

Other examples of enactments amended by this bill or by the underlying FIFRA Act are the Federal Food, Drug and Cosmetics Act.

The bill authorizes a program and funding for the pesticide program. It also adds a new program, reregistration, new section 3(a) of FIFRA. Both this section and the bill relate to fees and funding for the Reregistration Program. Some of that funding for the Reregistration Program will come from fees assessed against registrants (see page 42 of H.R. 5440) and some will come from appropriated funds.

My amendment would state how some of those funds could not be utilized, and I submit does not violate the rules of the House on that germaneness.

The bill (title VIII) is rife with references to courts and court review.

My amendment is narrowly drawn and applies only to "fees or expenses that shall be awarded for any civil action brought under section 3(a) of the act for failure to meet deadlines."

□ 1300

The SPEAKER pro tempore (Mr. HOYER). The Chair is prepared to rule.

The gentleman from Kansas [Mr. GLICKMAN] makes a point of order that the amendment proposed by the instructions in the motion to recommit offered by the gentleman from Montana [Mr. MARLENEE] is not germane. Volume III, section 2709 of Cannon's Precedents indicates that it is not in order to include in a motion to recommit instructions to insert an amendment not germane to the section of the bill to which offered. While an earlier version of this amendment was held not germane when offered as an amendment to title I of the bill being read title by title, this amendment proposes to add a new title at the end of the bill limiting the award of attorneys' fees in certain civil actions brought under section 16 of the FIFRA law. The test of germaneness is now properly measured against the bill taken as a whole. The Chair notes that section 202 of the bill deals with civil actions against the United States for just compensation, and that the bill extensively amends other sections of the FIFRA law in titles VIII and IX. In the opinion of the Chair, since the bill already deals with issues relating to administrative procedure and judicial review of actions taken under this act, the amendment is germane to the bill as a whole, and the point of order is overruled.

The gentleman from Montana [Mr. MARLENEE] is recognized for 5 minutes in support of his motion to recommit.

Mr. MARLENEE. Mr. Speaker, I will only take a moment to explain what this motion to recommit with instructions does.

It expedites the process of testing and evaluation by avoiding the draining off of funds for litigation that are desperately needed to complete the process to meet deadlines.

This bill sets up the impossible task of meeting 1,100 deadlines. It then handicaps EPA by saying, "We are going to short you $50 million." Then in shortsightedness the bill exacerbates the problem by allowing groups to file lawsuits—nonprofit groups and individuals—against EPA, and then takes the money for that litigation, those people who brought the litigation, takes the money out of funds that could be used to meet the deadlines.

This is a tremendous catch-22 situation which we have created. We have 1,100 deadlines, $50 million short, lawsuits to pay attorneys' fees, less money to complete the work, more time lost, more lawsuits, until this whole merry-go-round collapses into a cloud of star-sprinkled dust where the attorneys go drifting off in a state of euphoria with their fists full of money.

This amendment ends that abuse by allowing the litigant to pick up his own legal fees, not the taxpayer, not the farmer, not the folks who paid the $150,000 to $500,000 for fees for application to get registration, but those who brought the lawsuit on a failure to meet a deadline which is going to only be extended by the Department of Justice anyway, or by EPA anyway.

Make no mistake about it, lawsuits will be filed. The first incentive is to file, because many nonprofits have in-house counsel that do not make the kind of wages that they think that they should be entitled to, and the bill without my amendment is berry-picking heaven for those people.

The second incentive to file the lawsuits is that under the Equal Access to Justice Act, which applies to this bill and to EPA, the courts have already awarded exorbitant fees to environmental activists as a reward for filing lawsuits.

I want to reemphasize that the Equal Access to Justice Act will still apply to all other sections of the bill. The only place that the instructions in this amendment apply to are in missing deadlines, the 1,100 deadlines that we have set up in this bill.

Mr. Speaker, I urge a "yes" vote for recommitment with instructions.

Mr. ROBERTS. Mr. Speaker, will the gentleman yield?

Mr. MARLENEE. I am happy to yield to the gentleman from Kansas.

Mr. ROBERTS. Mr. Speaker, I rise in support of the motion to recommit offered by the gentleman from Montana [Mr. MARLENEE].

Mr. Speaker, I submit for the RECORD a letter from the Department of Justice in support of the gentleman's position, and a letter from 16 farm groups also in support of the gentleman's position.

U.S. DEPARTMENT OF JUSTICE,
OFFICE OF LEGISLATIVE AND INTERGOVERNMENTAL AFFAIRS,
Washington, DC, September 16, 1986.

Hon. RON MARLENEE,
House of Representatives, Washington, DC

DEAR CONGRESSMAN MARLENEE: Attorney General Meese has asked me to respond to your letter of July 31, 1986, regarding your proposed amendment to H.R. 2482, the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) Amendments of 1986. The Administration supports the enactment of your proposed amendment.

The amendment you propose provides: "Notwithstanding any other provision of law, no attorneys fees or expenses shall be awarded for any civil action brought under this section for failure to meet deadlines."

As you note in your letter, H.R. 2482 would impose a great many deadlines for Environmental Protection Agency (EPA) action, which the Agency has already stated it cannot meet. In turn, EPA will be faced with lawsuits to compel agency action which could result in liability for attorneys' fees and expenses under the Equal Access to Justice Act (EAJA). Similarly, the recent Resource Conservation and Recovery Act and Safe Drinking Water Act Amendments assign the EPA a long list of new deadlines with the attendant exposure to lawsuits and fee awards.

Our records indicate that over $2.6 million have been awarded against the United States in 61 attorneys' fees cases handled by the Land and Natural Resources Division alone since 1980. Attorneys' fees provisions, for the most part, provide little or no guidance as to when an award of attorneys' fees is appropriate, or what constitutes a reasonable award. See generally, *City of Riverside* v. *Rivera*, 106 S.Ct. 2686 (1986). Indeed, in some cases, attorneys' fees awards have greatly exceeded the relief obtained by the parties to the proceeding.

In addition, deadline cases tend to be both legally and factually straightforward. As a result, unbridled fee awards may attract abusive litigation, the real object of which is a fee award rather than the advancement of the environmental goals of FIFRA. Clearly, the taxpayers' money spent on attorneys' fees awards and the administrative expenses of defending such actions is better spent to implement substantive statutory provisions.

Therefore, we concur with your conclusion that allowing attorneys' fees for breaches of every statutory deadline makes little sense and we support your proposed amendment to the 1986 FIFRA Amendments. At a minimum, some restraint on the amount of fee awards should be imposed in deadline cases. The problem of such relatively unproductive litigation could also be addressed through a cap on the allowable hourly rate which courts may award. Please contact us if we can be of any additional assistance on this important matter.

The Office of Management and Budget has advised this Department that there is no objection to the submission of this report from the standpoint of the Administration's program.

Sincerely,

JOHN R. BOLTON,
Assistant Attorney General.

AN IMPORTANT LETTER FROM PESTICIDE USERS VITALLY INTERESTED IN PRECLUDING REREGISTRATION FEES FROM BEING USED TO PAY FOR ATTORNEYS' FEES IN LAWSUITS BROUGHT TO ENFORCE DEADLINES IN THE REREGISTRATION SECTION OF H.R. 2482

SEPTEMBER 16, 1986.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker of the House of Representatives, Washington, DC.

DEAR CONGRESSMAN O'NEILL: We are writing to urge your support of the enclosed amendment to H.R. 2482 that will be offered during consideration of the bill by the entire House of Representatives. This amendment, sponsored by Congressman Ron Marlenee (R-MT), would preclude the awarding of attorney's fees to prevailing plaintiffs in lawsuits brought to enforce numerous deadlines in the reregistration section of this bill.

There is no specific attorney's fee provision in FIFRA or in H.R. 2482. However, the Equal Access to Justice Act (EAJA), 28 U.S.C. Section 2412(d), directs the courts to award attorneys' fees to a prevailing party in a suit against the United States unless the court finds that the position of the U.S. is substantially justified. H.R. 2482 specifically states that EPA's failure to meet reregistration deadlines is subject to judicial review and authorizes lawsuits by anyone when EPA misses a deadline. Therefore, these lawsuits brought under FIFRA could result in large attorneys' fees being awarded to the plaintiffs.

There is little doubt that lawsuits will be filed to force EPA to somehow redirect its resources to meet the reregistration deadlines. These suits are increasingly common and consist of little more than a recitation of the deadline, the fact that it has been missed and a request that the court order EPA to act. If the deadline has indeed been missed, EPA often agrees that it did in fact miss the deadline, usually because of insufficient resources and other demands. The Agency then consents to a new court-ordered, realistic "deadline". However, because EPA often acknowledges that it has missed the deadline, the court rules in favor of the plaintiff and pursuant to the EAJA, the plaintiff is entitled to attorney's fees (which may run as high as $150 per hour). Therefore, it is conceivable that a good portion of the revenues collected for reregistration (up to $150,000 per active ingredient in a pesticide) will be used to pay attorneys' fees awarded in deadline suits. These awards could be disastrous in light of the fact that the reregistration program mandated by H.R. 2482 is at least $48 million short. The direct cost to the public is very high-generally about $50,000 per lawsuit to pay plaintiff's attorneys' fees.

The Marlenee amendment would ensure that EPA would be able to direct its finances toward the running of the reregistration program, rather than having them siphoned off in the form of attorneys' fees. The amendment is very limited in scope and applies only to the reregistration section of FIFRA. It preserves completely the right of any individual or group to sue EPA to enforce a deadline. It simply provides that any such lawsuit is funded by the litigant himself, not by the taxpayer.

The groups listed below, and the hundreds of thousands of individuals we represent, respectfully urge your support of the Marlenee amendment to H.R. 2482, as written.

American Association of Nurserymen.

Mr. MARLENEE. Mr. Speaker, the Justice Department does in fact strongly support this position.

Mr. GLICKMAN. Mr. Speaker, I rise in opposition to the motion to recommit.

Mr. Speaker, in the first place, it is important to know that the Committee on Agriculture rejected this amendment.

In the second place, it is important to know that we have something called the Equal Access to Justice Act,

which says that private parties can get their lawyers' fees reimbursed from the Government if the Government acts improperly. That is applied pretty much across the board.

What we do in this amendment is say, "However, if the EPA does not do their job, if they do not reregister pesticides on time, if they act improperly, in those cases, when you try to force the Government to do what is right, you cannot get your legal fees."

The effect of this will be to take all the pressure off the EPA for meeting their deadlines. If the Members here and our constituents want to make sure that the EPA is properly registering pesticides, we need this club over their head to make sure that they do it the right way. That is why we have the Equal Access to Justice Act across the board, the club over the head of the Government to make sure that they are responding in the right way.

To do the proper environmental thing, and to comply with the Equal Access to Justice Act, I urge Members to vote down this amendment.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. MARLENEE. Mr. Speaker, I demand a recorded vote.

A recorded vote was refused.

So the motion to recommit was rejected.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. DE LA GARZA. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 329, noes 4, not voting 98, as follows:

[Roll No. 400]

□ 1320

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN THE ENGROSSMENT OF H.R. 2482

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that in the engrossment of the bill, H.R. 2482, the Clerk be authorized to make certain technical and clerical changes, including spelling, section numbers and cross-references in error, and the Bedell technical amendments printed on page H7069 of the RECORD of September 17, 1986.

The SPEAKER pro tempore (Mr. HOYER). Is there objection to the request of the gentleman from Texas?

There was no objection.

The Bedell technical amendments referred to are as follows:

Page 44, strike out lines 4 though 9 and insert in lieu thereof the following:

(2) Section 2(u) (7 U.S.C. 136(u) is amended by striking out "and" immediately before the first clause (2) and by adding after "dessicant" a comma and the following: "and (3) any substance or mixture of substances intended for purposes described in subsection (gg)".

Page 116, line 12, insert "and by" before "adding".

Page 140, line 17, strike out "the Board of Agriculture of".

Page 161, line 10, strike out "on" and insert "or".

Page 161, line 10, strike out "ingredient" and insert "ingredient".

Page 162, line 10, insert "such" after "and".

Page 158, after line 10, strike out the item relating to subsection (d).

GENERAL LEAVE

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 2482, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

PERMISSION FOR COMMITTEE ON AGRICULTURE TO HAVE UNTIL MIDNIGHT, SEPTEMBER 20, 1986, TO FILE REPORT ON H.R. 5407

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that the Committee on Agriculture be permitted to have until midnight, September 20, 1986, to file its report on H.R. 5407.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

PERMISSION FOR COMMITTEE ON MERCHANT MARINE AND FISHERIES TO FILE REPORT ON H.R. 5262, BAYOU SAUVAGE URBAN NATIONAL WILDLIFE REFUGE

Mr. THOMAS of Georgia. Mr. Speaker, I ask unanimous consent that the Committee on Merchant Marine and Fisheries have until 6 p.m. on Friday, September 19, 1986, to file the report on H.R. 5262, legislation to establish the Bayou Sauvage Urban National Wildlife Refuge.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

Mr. WALKER. Mr. Speaker, reserving the right to object, I do so to ask the gentleman, has this been cleared with the minority? We do not seem to have a record of it.

Mr. THOMAS of Georgia. If the gentleman will yield, yes, it has been cleared with the minority.

Mr. WALKER. Is the bill that the gentleman is filing the report on H.R. 3252?

Mr. THOMAS of Georgia. The gentleman is correct; yes.

Mr. WALKER. 3252.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

LEGISLATIVE PROGRAM

(Mr. MICHEL asked and was given permission to address the House for 1 minute.)

Mr. MICHEL. Mr. Speaker, I would like to inquire of the distinguished majority whip the program for next week.

Mr. FOLEY. Mr. Speaker, will the distinguished minority leader yield?

Mr. MICHEL. I yield to the gentleman from Washington.

Mr. FOLEY. Mr. Speaker, we will conclude the business of the House, except for some unanimous-consent requests today; and when we adjourn today we will adjourn to meet at noon on Monday.

There are 24 suspensions under the suspension rule scheduled for Monday. Unless Members wish, I will not read them. They will be voted on on Tuesday; all votes occurring or ordered on those 24 suspensions will be postponed until Tuesday.

On Tuesday, September 23, the House will meet at noon and consider four suspensions, designating the rose as the national floral emblem; the Dwight David Eisenhower Centennial Commission Act; the Bayou Sauvage Wildlife Refuge; and the Maine Central Railroad dispute settlement. With these suspensions, again, any votes will be taken after the debate.

Also to consider H.R. 4134, the age discrimination in employment; and the NASA authorization for 1987; open rule, 1 hour of debate. The age discrimination bill has a modified open rule, 1 hour of debate.

On Wednesday and the balance of the week, the House will meet at 10 a.m. and consider the Omnibus Budget Reconciliation Act, subject to a rule being granted; continuing appropriations, subject to a rule being granted; and the Tax Reform Act.

□ 1330

A rule has already been granted on that by unanimous consent. That has been cleared for action.

I should advise Members that there is a very high probability of a Friday session next week.

In accordance with the earlier announcement of the leadership, Fridays are probable days for the scheduling of action on the floor with votes, and that will apply to next week as it has to this week. So Members should assume that there will be a session from 10 a.m. until 3 p.m. next Friday with recorded votes.

I do not have a precise schedule for that day. It will depend on action on other bills earlier in the week. But the probability is extremely high.

Mr. MICHEL. And is it not true on Wednesday then we would definitely take up reconciliation first, as the first order of business?

Mr. FOLEY. Yes. The plan is to adopt a rule, to go to the Rules Committee on Tuesday for the reconciliation bill, take that up on Wednesday before the continuing appropriations.

Mr. MICHEL. Yes. And if perchance there was to be a possible action on a joint House-Senate Budget Committee report, say for example sequestering, it would not take place until Thursday, is that not correct?

Mr. FOLEY. Well, under the unanimous-consent agreement that has been reached this morning that is subject to being called up only by the chairman of the Committee on the Budget or his designee or the ranking Republican member, Mr. LATTA, or his designee. But I would assume that those two Members would not wish to call up any sequestration assuming the adoption of a satisfactory reconciliation act.

Mr. MICHEL. And on the tax bill is it more likely to come up on Thursday?

Mr. FOLEY. Thursday.

Mr. MICHEL. Definitely on Thursday?

Mr. FOLEY. I believe it will be on Thursday. I cannot give the gentleman an assurance that it is not possible that some of this legislation may be coming up on Friday, but there is no plan to bring the tax bill up on Friday. The assumption is it will be Thursday.

Mr. MICHEL. Well, I just have several of the Members of the Committee on Ways and Means on the floor. I would hope that that printed report will be available to Members.

Mr. FOLEY. I am told the report will be available on Saturday, tomorrow.

Mr. MICHEL. Tomorrow, in other words.

Mr. FOLEY. Yes. I hope there is not sufficient distrust that they thought that I meant Saturday a week from now.

Mr. ARCHER. Will the gentleman yield further on the scheduling of the tax bill?

Mr. MICHEL. I yield to the gentleman from Texas.

Mr. ARCHER. There is no opportunity or possibility that it will come up on Wednesday?

Mr. FOLEY. No; we are not planning for the bill to come up then.

Mr. ARCHER. Thursday would be the earliest possible date then for debate on the tax bill.

Mr. FOLEY. Yes; the gentleman is correct.

Mr. ARCHER. I thank the gentleman.

Mr. MICHEL. I yield to the gentleman from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding.

I have just a question: The gentleman has indicated a very strong possibility of a Friday session. From what I have been hearing discussed here, I do not hear from the schedule that we have been presented that there would be any real need for a Friday session based upon that schedule. Are we expecting additional legislation to come to the floor that is giving the gentle-

man a reason to suggest a Friday session?

Mr. FOLEY. Possibly we will take up some rules that would be adopted next week, on Friday. It is anticipated the Committee on Rules will be acting on some bills, and it is possible Friday would be a day on which rules would be considered.

I again repeat: Members should not assume the likelihood of a Friday session being canceled. They should assume the strong possibility, if not the certainty, that Friday will be a working day with votes. I do not like to put it in terms of odds, but the odds are about 10 to 1 that we will be voting on Friday.

Mr. MICHEL. Might I make the observation that if we are serious about getting out on October 3 I think it is absolutely imperative that we do some of the kinds of things that the gentleman is talking about on next Friday in order to be in a position the following week to drive toward that adjournment, if that is the will of the House.

Mr. WALKER. If the gentleman would yield further, I understand that. I think that that makes a lot of sense. The only problem is with taking up rules that that is in fact something that could be done on Thursday rather than doing it on Friday.

What I am concerned about is that there may be major legislation sitting around that we are planning to bring up that we are not seeing reflected in the schedule.

Mr. FOLEY. Let me give the gentleman a supposition which I hope does not occur, but in the event that a rule on one of the major bills was not agreed to and it was necessary to go back and do another rule and to consider that rule again, this would be one of the factors that could push us into a Friday session.

So I just tell the gentleman that there are not only contingencies but there are also possibilities of other legislation having rules granted that we would want to consider those rules or perhaps do some general debate in order to move the House forward. As the distinguished leader has said, we are struggling to achieve an October 3 adjournment date. That is going to be difficult at best. I think it would require us working on Fridays from now until the end of the session, and next Friday will be a working day, in my judgment.

Mr. WALKER. I thank the gentleman for yielding.

Mr. LUNGREN. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I yield to the gentleman from California.

Mr. LUNGREN. I thank the gentleman for yielding.

I just noticed I guess there are about 32 separate legislative items here. One that is not, and I would assume it is not just an oversight, is the immigration bill. Judging from this calendar should we feel that in fact there is no hope that the immigration bill will be scheduled for action next week?

Mr. FOLEY. No; I do not think we should assume there will be no action on the immigration bill next week. The Committee on Rules is meeting on the bill on Tuesday, and it is possible that the rule might be considered later in the week. The scheduling time that has been originally set for the committee to consider the bill on the floor was next week, but because of the changes in the schedule on the continuing resolution and the reconciliation bill, it now appears impossible to actually consider the bill next week and the schedule was tentatively set for the 29th and 30th. The chairman of the Judiciary Committee, who is in the Chamber, has advised us that on that day he, as chief manager on the part of the managers of the House in the impeachment proceedings in the other body, together with the ranking member of the committee and other prominent Members on both sides of the aisle, will be engaged in the impeachment proceeding before the full Senate. It is thus our task now to try to find a date before the adjournment of the House and Senate in which to conclude the legislation.

We are not slack in our efforts in finding a date. This is an unfortunate problem that many significant members, important members, ranking members of the Judiciary Committee, including its chairman and its ranking Republican member, are engaged in an historical trial in the other body on a matter which requires their presence. They are, in effect, the prosecuting managers on behalf of the House.

So the scheduling of that bill on that date now appears impossible.

Mr. LUNGREN. If the gentleman would yield further, I appreciate the gentleman's comments, and I am sure the people living on the Southwest border will be relieved to know that we are not slack in our responsibilities in attempting to deal with this. It may be just coincidence but the gentleman will recall two Congresses ago this was put to the very end in a lame duck session, and of course we failed to act, even get it out of the House. Two years ago in the last Congress, we worked on it very, very late, got it through a conference very late, only with a month to deal with it. Now the gentleman is telling me because of other circumstances, unfortunate as they may be, we will at best hope to have this on the floor in the last 5 days, have scheduled, and then maybe be able to go to a conference and have it completed.

Mr. FOLEY. We can accommodate the original dates by a change in the other body's calendar on the trial. But that would be a changed circumstance. But I cannot promise the gentleman that that is going to happen. We just have to deal with this reality as it occurs. The gentleman is a member of the committee. He knows there is an historic impeachment trial in the other body. We have not experienced one in this country for 50 years. Under the Constitution, as the gentleman knows it is the charge of the House of Representatives to present the evidence of the full Senate. That is a matter that just unfortunately appears to be at this moment on the 29th and 30th to be in direct conflict, and it is required that the chairman of the Committee on the Judiciary as the chief manager, and the ranking Republican member and other members be present in the other body if the present other body's schedule is as presently announced.

Mr. LUNGREN. I understand what the gentleman is saying. I am just saying some of us were saying to the leadership on the other side of the aisle last January and last year that we would find ourselves in exactly the spot we have now, on immigration reform. The gentleman says we have not had a major impeachment in 50 years. That is true.

I do note on the Suspension Calendar we are commending the Peace Corps' 25th and the ACDA 25th anniversary. We might be here next year having an anniversary date of 25 years since we last dealt with immigration in a comprehensive fashion. That is the problem. Maybe I should have gone in that direction for commemorative legislation and then we would have accomplished something.

But I appreciate the excuses we have now, and I realize they are sincere. But this is precisely what we suggested was going to happen to us last year and the year before, and again it is occurring.

Mr. FOLEY. I hope the gentleman will attempt to be constructive.

Mr. RODINO. Mr. Speaker, will the gentleman yield?

Mr. MICHEL. I yield to the gentleman from New Jersey.

Mr. RODINO. Only for a moment, and only because the majority whip indicated some suggestion that possibly the other body might be able to change that date. That has been written into the resolution under which the impeachment issue was taken up in the other body. That is set on the beginning of the week of the 29th that the other body, the full Senate will take up this impeachment.

ADJOURNMENT TO MONDAY, SEPTEMBER 22, 1986

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 12 noon on Monday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. FOLEY. Mr. Speaker, I ask unanimous consent that business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

DESIGNATION OF HON. THOMAS S. FOLEY TO ACT AS SPEAKER PRO TEMPORE TO SIGN ENROLLED BILLS AND JOINT RESOLUTIONS UNTIL SEPTEMBER 23, 1986

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
September 19, 1986.

I hereby designate the Honorable Thomas S. Foley to act as Speaker pro tempore to sign enrolled bills and joint resolutions until Tuesday, September 23, 1986.

THOMAS P. O'NEILL, Jr.,
Speaker of the House of Representatives.

The SPEAKER pro tempore. Without objection, the designation is agreed to.

There was no objection.

EXTENDING SBA PILOT PROGRAMS UNDER SECTION 8 OF SMALL BUSINESS ACT

Mr. MITCHELL. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 2787) to extend through fiscal year 1988 SBA pilot programs under section 8 of the Small Business Act, with Senate amendments thereto, and concur in the Senate amendments.

The Clerk read the title of the bill.

The Clerk read the Senate amendments, as follows:

Page 1, after line 2, insert:

TITLE I—SMALL BUSINESS PILOT PROGRAMS

Page 1, line 3, strike out "SECTION 1." and insert "SEC. 101.".

Page 1, line 9, strike out "SEC. 2." and insert "SEC. 102.".

Page 1, line 13, strike out "SEC. 3." and insert "SEC. 103.".

Page 2, after line 2, insert:

TITLE II—TECHNOLOGY TRANSFER INSTITUTE AUTHORIZED

SEC. 201. (a) The Secretary of Education (hereafter in this title referred to as the "Secretary") is authorized to provide financial assistance, in accordance with the provisions of this title, to pay the Federal share of the cost of construction and related expenses for the establishment of the Technology Transfer Institute at the University of Bridgeport, located at Bridgeport, Connecticut, to be used to revitalize the competitiveness of small business industry in America, particularly in the international marketplace, and to serve as a regional demonstration center transferring emerging technology to small businesses.

(b)(1) No financial assistance may be made under this section unless an application is made at such time, in such manner, and continuing or accompanied by such information as the Secretary may reasonably require.

(2) The Federal share may not exceed 50 percent of the cost of the project authorized by this title.

(c) There are authorized to be appropriated such sums, not to exceed $10,000,000, as may be necessary to carry out the provisions of this title. Funds appropriated pursuant to this section shall remain available until expended.

Mr. MITCHELL (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Maryland?

Mr. BEREUTER. Reserving the right to object, I reserve the right simply to give the gentleman from Maryland an opportunity to explain the purpose of the legislation, and I yield to the gentleman for that purpose.

Mr. MITCHELL. I thank the gentleman for yielding.

Mr. Speaker, this legislation was introduced by our late colleague, the gentleman from New York [Mr. ADDABBO] in June 1985, reported in December 1985. The purpose of the bill is to extend through 1988 two pilot programs administered by the SBA, the procurement pilot program and the surety bond waiver pilot program.

Under both of these programs which have been in operation under the last pilot program, which proved to be successful, the House passed the bill under suspension of the rules by voice vote on December 16, 1985. The other body did not amend the substantial provisions of the House bill, but instead on June 25, 1985, added an amendment authorizing a technological transfer institute at the University of Bridgeport.

That is the only change that was made. Yesterday I was advised that the Senate amendment which would be within the jurisdiction of the House Committee on Education and Labor, we got clearance from that committee and we were also advised that this is acceptable to the ranking minority member on the Small Business Committee, Congressman MCDADE.

Mr. BEREUTER. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Maryland?

There was no objection.

A motion to reconsider was laid on the table.

COMMEMORATING 100TH ANNIVERSARY OF THE BIRTH OF DAVID BEN-GURION

(Mr. YATES asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. YATES. Mr. Speaker, I am filing today a House concurrent resolution to commemorate the 100th anniversary of the birth of David Ben-Gurion, the first Prime Minister of the State of Israel and the man generally acknowledged to be the person most responsible for the creation of that nation.

The Ben-Gurion Centennial, proclaimed by Israel's parliamentary body, the Knesset, will take place from October 19, 1986, until May 4, 1987. Its celebration will take place in Israel, in the United States and many other countries. President Ronald Reagan will act as honorary chairman of the Ben-Gurion Centennial Committee for the United States.

Mr. Speaker, I am appending to my statement a brief summary of the high points in Ben-Gurion's career. I am also appending a copy of the House concurrent resolution I have filed today.

DAVID BEN-GURION

"He was born before he had a homeland, he was a leader in war before he had an army, he became a statesman before he had a state. He derived his strength from imagination."

So writes Shimon Peres, Prime Minister of Israel, of his mentor, David Ben-Gurion. Clearly, Ben-Gurion was the soul of his nation. But how did such a remarkable life take shape?

He was named David Yosef Gryn at his birth in Plonsk, Poland, under Czarist Russian rule, on October 16, 1886. As a teenager, he founded the Zionist Ezra Society. At 29, he emigrated to Palestine, an act he considered his second birth and later commemorated by changing his surname to Ben-Gurion

In 1915, expelled from Palestine by the Turkish government, he set sail for New York where he continued his activities on behalf of his brethren. The year 1917 saw two events that deeply affected his life: the Balfour Declaration, proclaiming support for Palestine as the Jewish homeland and his marriage to Paula Munweiss, with whom he would have three children.

Years of challenge followed as Ben-Gurion was elected in 1920 to be the head of Histadrut, the Israel Federation of Labor. In 1935, Ben-Gurion assumed the leadership of the Jewish Agency, the de facto Jewish government in Palestine.

The Biltmore Conference held in 1942 proclaimed that the establishment of a Jewish State was the goal of the Jews

worldwide. In the aftermath of World War II, Ben-Gurion reluctantly acceded to the United Nations' decision to partition Palestine into two states, Arab and Jewish. On May 14, 1948 he proclaimed the establishment of the State of Israel. President Harry Truman, on behalf of the United States of America, recognized the Jewish State just eleven minutes later. Hours later, in his dual role as Prime Minister and Minister of Defense, Ben-Gurion found himself defending the new nation against the invading armies of five Arab countries.

At the height of his powers, Ben-Gurion moved again to live the life of a pioneer. He needed to participate in what he had been preaching for all those years, the greening of the desert. In December of 1953, he retired to a kibbutz in the Negev Desert, but destiny would not let him rest. In 1955, then 69 years old, he was called back to head the government during a crisis and served as Prime Minister until 1960. Political defeat and disappointment followed and the "Old Man," as he was affectionately called, retired once again and finally to the Negev Desert, where he spent his time quietly studying, writing, and reading with friends. He died on December 3, 1973 at the age of 87.

H. CON. RES. 392

Concurrent resolution commemorating the 100th anniversary of the birth of David Ben-Gurion.

Whereas David Ben-Gurion is a man of great historical importance, not only to the Jewish people but to all people striving for freedom;

Whereas his leadership made realizable the ingathering of the exiles that brought millions of homeless Jews scattered throughout the world to Israel where they were united with each other and with their ancient homeland;

Whereas the Declaration of Independence of the State of Israel, a milestone in the life of David Ben-Gurion, echoes our own Declaration in its recognition of the universal equality of man;

Whereas as Israel's first Prime Minister and Minister of Defense, Ben-Gurion led the newly formed State through its most difficult period, directing the desperate efforts to secure Israel's survival and independence;

Whereas his pragmatic solutions to Israel's overwhelming problems, paralleled with his desire to create a society based on justice and peace, guided the fledgling State and formed the values on which Israel rests today and the basis for what Israel strives for in the future;

Whereas Ben-Gurion's vision of the Greening of the Desert through the application of science and technology continues to be an important aspect of Israel, as well as a factor that can help solve food production problems in arid regions all over the world;

Whereas this year marks the hundredth anniversary of the birth of David Ben-Gurion, leader of his people for two generations;

Whereas the United States and Israel share many of the same fundamental values of democracy and freedom, and a common history of accepting immigrants from all over the globe: Now, therefore, be it

Resolved by the House (the Senate concurring), That the Congress of the United States, in this the centennial of David Ben-Gurion's birth, joins in the celebration of this great statesman, urges all Americans to take note of this commemoration, and applauds The David Ben-Gurion Centennial Committee of the United States of America in its work promoting the yearlong national celebration of David Ben-Gurion and his achievements: Be it further

Resolved, That the Congress urges the President of the United States to issue a proclamation in honor of this celebration.

❑ 1345

OIL IMPORT FEE

(Mr. LUJAN asked and was given permission to address the House for 1 minute.)

Mr. LUJAN. Mr. Speaker, in the past I have been what you might call lukewarm to cool in my feelings toward oil import fees. Like many of my colleagues, I basically believe in the free market system.

In recent months, however, it has become apparent that the United States is about to be victimized by a slick maneuver on the part of OPEC to control the world oil markets for many years to come.

I strongly believe that OPEC has as one of its goals the elimination of the independent oil producer in the United States. They also aim to put an end to other high-cost exploration around the world, particularly in China and in the North Sea.

Once that happens—when the majority of our independent producers have been forced out of business—the price of oil will start to climb and the United States will be at the mercy of the Saudis and other OPEC countries.

I have been joined by some of my colleagues in asking the President to impose an oil import fee under section 232 of the Trade Expansion Act of 1962. Under the provisions of that act, the President is supposed to act when imports are a threat to national security and when it is apparent that a vital domestic industry is threatened.

There is no question but what this is a national security issue. And if the present trend continues, the majority of our independent oil producers will be out of business within a year.

The independent producers have always been the backbone of the Nation's oil industry. If they are forced out of business, consumers everywhere will start paying the price.

What we have right now is not a free market system at work, but an organized long-term program to dominate world oil markets.

I hope the President acts soon on an oil import fee. If he does not, this body will soon have the opportunity to do so when we consider the budget reconciliation resolution.

It is time we take action. It will produce some badly needed revenues, perhaps $10 billion next year, it will save many of our stripper oil wells which otherwise will be lost forever, and it will be an important step toward maintaining national energy security.

MORNING IN AMERICA

(Mr. VOLKMER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VOLKMER. Mr. Speaker, 2 years ago we were told it was morning in America. Missouri family farmers wanted to believe morning had arrived, a new day had begun. But for many, night has now fallen.

The family farmer today believes three things: This administration misled them with its theory of lower prices/higher exports; this administration is content to sit back while many family farmers suffer; and the administration and others, including the Farm Bureau, are anticipating the death of the family farmer.

My farmers are looking at bumper crops this fall. But they are also looking at the lowest prices since the early 1970's. If lower prices mean higher exports, then right now our export numbers would be going off the charts. They aren't. In fact, in the past few months we have imported more agricultural products than we exported. And still this administration and the Farm Bureau call for lower prices. Dick Johnston, president of the Missouri Farm Bureau, last week called for lower prices. My farmers can't afford lower prices. I know this administration realizes lower prices are ruining family farmers. And I suspect that has been the adminstration's plan all along. Morning in America to the administration and to the Farm Bureau conjures up visions of the Sun rising on huge corporate farmers, not on our family farmers.

TAX REFORM IS ON COLLISION COURSE WITH TAXPAYERS

(Mr. MARLENEE asked and was given permission to address the House for 1 minute to revise and extend his remarks.)

Mr. MARLENEE. Mr. Speaker, I would urge the people of this country not to let their Congressman steamroller them. I would want them to beware the runaway steamroller of tax reform or simplification is on a collision course with the taxpayers of America.

Not only does so-called tax reform smash IRA's, investment credit, capital gains, and other incentives to create jobs and productivity, but the great tax simplification fraud is also paving the way for tax increases.

The engineer of the tax reform steamroller himself, the House Ways and Means Committee chairman, has said, "everyone knows we need a tax increase" and "the increase in revenue should come through higher progressive taxes on income."

The plot is simple: Trade deductions for lower rates, then raise the rates. And middle America pays again.

Stripped of tax shelters by the fraud of tax simplification, taxpayers will have no protection from these higher progressive taxes.

The runaway steamroller of tax reform is on a collision course all right. Everything in its way will be laid flat. Taxpayers will be flat broke, and the economy will be flat on its back.

I urge everyone to speak out now and oppose the tax simplification fraud. It is easier to do it now than when you are flat on your back.

A TRIBUTE TO N.J. FORD, A POLITICAL PATRIARCH

(Mr. JONES of Tennessee asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. JONES of Tennessee. Mr. Speaker, yesterday Mr. N.J. Ford, the father of our colleague Representative HAROLD FORD, was laid to rest in Memphis, TN. I call this to the attention of our colleagues in the event they might want to extend their sympathies to HAROLD and his family.

I also bring it up at this time because Mr. N.J. Ford, and the legacy he leaves, is worthy of our admiration and our respect. He was a man who faced the difficulties of discrimination in the South, who rose above them, and who was not content with letting the status quo remain so. He instilled in his family the desire and the need to be active and constructive in their community. Consequently, 4 of his 12 children have been elected to public office. Three, including our colleague HAROLD FORD, continue to serve their people in a public capacity.

It is the kind of heritage that all of we Americans can be proud of and it is that devotion and commitment to his community and his race that N.J. Ford leaves to his children, his grandchildren, all Tennesseans, and all Americans. We can all be proud that N.J. Ford shared his visions with us. We can be thankful that we will personally continue to share his vision through his son and our colleague HAROLD FORD.

I am inserting in the RECORD the newspaper clipping that appeared in the Memphis Commercial Appeal newspaper this morning in memory of Mr. N.J. Ford and extend my deepest sympathy to his family.

N.J. FORD "GOES HOME" IN A CELEBRATION—SENATORS, MAYORS, CONGRESSMEN ATTEND POLITICAL PATRIARCH'S FUNERAL

(By Michael Kelley and Terry Keeter)

Memphis's best-known political patriarch was buried yesterday to a chorus of praise from the city's black community and a number of white admirers as well.

"We're celebrating N.J. Ford's homegoing, you all—it's a celebration," said Rev. Samuel Billy Kyles. And mourners at the Pentecoastal Temple Institutional Church of God in Christ took the admonition to heart.

Speakers were applauded, singers, including Carla Thomas and Maggie Bratcher were cheered, and a successful man's life was reviewed with admiration. Mr. Ford, whose close, intimate circle of friends called him Brother, was the father of Harold Ford, a U.S. Representative; John Ford, a state senator, James Ford, a city councilman; Emmitt Ford, a former state representative, and eight other children.

Mr. Ford died suddenly on Saturday at the age of 72.

In the front row at his funeral service were Tennessee's U.S. Sens. Jim Sasser and Albert Gore, Jr., Democratic gubernatorial candidate Ned McWherter, Public Service Commissioner Jane Eskind and Mr. Ford's widow, Vera.

Four of Harold Ford's fellow Democratic House members—Rep. Ron Dellums of California, Rep. Louis Stokes of Ohio, Rep. Mickey Leland of Texas, and Rep. Charles Rangel of New York—attended. Also present was Tennessee Lt. Gov. John Wilder.

Shelby County's six state senators—including Republicans Curtis Person and Leonard Dunavant—and most of the county's House members were prsent, as was Steve Hewlett, the Democratic nominee for the PSC seat being vacated by Mrs. Eskind.

Mayor Dick Hackett and county Mayor Bill Morris were both there along with a number of members of the City Council and county commission.

The auditorium, which holds 2,500 people, was filled with admirers.

The body lay in a slate-colored casket adorned with red and white roses and carnations, sprays of red, white and pink roses, antheriums and carnations flanking it on the royal blue carpet.

The music included a violin solo by Shelly Branch, one of Mr. Ford's 40 grandchildren.

The eulogy was delivered by Dr. Benjamin L. Hooks, executive director of the NAACP. Messages of condolence came from such figures as Jesse Jackson of Operation PUSH.

"He came up in a time when he rode in the back of the streetcar, in the front of the train, and sat in the third balcony in the movie theater," Dr. Hooks said.

"Yet he lived to see the day when we would drive the trains, own the buses and sit wherever we wanted in the movie theater . . .

"He lived to see a son in the Congress, another in the Senate . . . another in the City Council, and he, himself, a delegate to a constitutional constitution.

"From the back side of Southwest Shelby County, he leaped to the pinnacle . . . because there was something within him that would not yield to obvious circumstances."

Bishop J.O. Patterson of the Church of God in Christ said: He raised his family during a period "when fathers felt responsible for for their children."

Burial was in Ford's Chapel AME Zion Church Cemetery.

AMERICAN MIA'S AND POW'S IN VIETNAM

(Mr. SMITH of New Jersey asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of New Jersey. Mr. Speaker, the difficult and the heartbreaking mission of accounting for American POW's and MIA's in Southeast Asia continues.

Currently there are over 110 active cases of live sightings under investigation by DIA, at least 63 of those cases deal with Americans held prisoner.

In testimony before the House task force on POW/MIA's of which I am a member, former Director of DIA General Tighue, said "I would not be at all surprised if there are today some 50 American military personnel still alive in Vietnam."

Last February, Mr. Speaker, I joined several members of our task force in Hanoi for talks with high level Vietnamese officials.

Our meetings with Deputy Foreign Minister Hoang Bich Son, who heads the POW/MIA effort for the Vietnamese produced some significant breakthroughs.

Mr. Son admitted that there may be American servicemen in Vietnam, but he emphasized that they were not under his government's control. The Vietnamese could be signaling that they now are looking for a way to "find" some Americans while at the same time, "saving face." For years they have adamantly contended that there were no Americans in Vietnam. Additionally, Mr. Son said that three search teams were formed to investigate "live sightings" and to continue the search for remains of deceased U.S. servicemen. Mr. Son held out the possibility that American investigators might join Vietnamese search teams in the near future. He said he hoped this "humanitarian" issue could be resolved within 2 years.

Clearly the time has come, Mr. Speaker, to accelerate our efforts so as not to leave a single stone unturned. American POW/MIA's deserve no less.

MARKET-ORIENTED SECTOR SPECIFIC TALKS

(Ms. KAPTUR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. KAPTUR. Mr. Speaker, just last month, the United States sent a team of negotiators to Tokyo to begin the new round of bilateral trade talks regarding auto parts. These negotiations, the market-oriented sector specific [MOSS] talks, are essential in a time of $70 billion deficits with Japan, half of that being in autos and auto parts. With a $15 billion share of our market, Japanese firms use less than 2 percent of United States manufactured parts in their production in Japan. But even more disturbing is that many of the parts imports coming into this country from Japan as original equipment parts are being shipped

directly to Japanese transplant auto assemblies here in the United States. The real shame is that makers of these parts are not competing fairly with American manufacturers because American manufacturers aren't even allowed to bid on the business. How can we let this happen in our own country.

The U.S. negotiators thus far have missed two key negotiating points. First, foreign investment must be included in the MOSS negotiations, because many of the barriers our companies face in getting a two-way street in trade are imbedded in the closed relationship between Japanese manufacturers and Japanese suppliers, both the United States and in Japan. Our companies and our workers are imploring the administration and the Japanese Government to consider the effects of direct foreign investment in the United States by the Japanese and to recognize the effects that these behavioral impediments have on free and fair trade.

Finally, Mr. Speaker, we must set targets for the Japanese to purchase American-made automotive parts. Because of the nature of the barriers present, there will be no other way to measure success than by numbers. American automotive parts companies hold about 23 percent of the world auto market, and less than 1 percent of the market in Japan. We should expect that within 5 years, we would hold 23 percent of the Japanese market, and 75 percent of our own market. As a Member of the House auto parts caucus watching these negotiations. I am expecting great things, and Japan should be certain that we will measure such success.

□ 1355

HOUSE CONCURRENT RESOLUTION 129, LEGISLATION TO CREATE COMMISSION TO FREE U.S. POW'S IN SOUTHEAST ASIA

(Mr. DREIER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DREIER of California. Mr. Speaker, I rise today to once again remind this body that there are still over 2,400 missing Americans in Southeast Asia. As we mark POW/MIA Recognition Day, I think we should also recognize the families of these missing heroes.

Despite the efforts of the past three administrations, the families have waited patiently as the fates of their husbands, fathers, sons, and brothers have been held hostage—some for over 20 years now. Just as America sought to gain the release of the hostages held in Iran and just as we seek to free those in Lebanon, it should be our urgent duty to account for missing servicemen in Vietnam and Laos.

In an attempt to review this effort, I am particularly pleased to announce that, as of today, nearly 240 of our colleagues have agreed to cosponsor House Concurrent Resolution 129 to establish a congressional commission to free U.S. POW's who are being held in Southeast Asia. This commission would be named for that great American who invested so much of his own time and effort for our POW's—Mr. H. Ross Perot.

Mr. Speaker, I want to thank my colleagues who have signed on to this legislation and I urge the House to consider it favorably before we adjourn this session. Let's bring our missing men home at last.

CONGRESS MUST ACT TO BAN THE SCRAMBLING OF TELEVISION SIGNALS

(Mr. WISE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WISE. Mr. Speaker, I speak today in behaof of the satellite dish owners of the United States and particularly West Virginia. There is a scrambling problem, Mr. Speaker. In many rural areas there is not adequate television reception. In other areas, cable TV is either not accessible, not affordable or simply not available.

Now, more and more program producers are scrambling their signals. The result is a blackout in many rural areas. No one objects to a fair price but $400 for a decoder plus a high monthly fee simply is too much. Many of us have been pushing for lower prices, but so far we have not been successful. We need to be able to put pressure to accomplish this.

Already I have cosponsored three bills to stop scrambling or at least ban it for 2 years while we try and work our way through this problem. In furthering this, I have also signed a discharge petition to bring the bill to the floor to stop scrambling.

Our hope is to bring it to the floor for immediate consideration and to put the pressure on that we so badly need. To guarantee fair-priced and adequate television viewing, this Congress must act soon to ban scrambling of television signals. I hope others will join me in this effort.

GRAVE HUMAN RIGHTS SITUATION OF IOAN CONSTANTINE RUTA

(Mr. FRENZEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.

Mr. FRENZEL. Mr. Speaker, I would like to invite the attention of the Members of this House the grave human rights situation of Mr. Ioan Constantine Ruta of Bucharest, Romanio. Mr. Ruta has been imprisoned since February of this year on charges of "bribery" in the Jilava secret police prison in Bucharest. He was detained shortly after his wife, Mrs. Rodica Ruta was granted political asylum in the United States. Mr. Ruta and his daughter Alina are waiting for exit permits to join Mrs. Ruta in the United States.

Last week Alina Ruta was finally granted permission to see her father. Prior to this visit she had been permitted to see him only once. Mr. Ruta, who entered prison with a heart condition, told his daughter that he had suffered two heart attacks since his detention. He has also lost 70 pounds and is suffering from a liver ailment.

Despite assurances from the Romanian Embassy that Mr. Ruta is in good health, I have learned that Mr. Ruta is not receiving any medical treatment. Recently, at a court hearing on Mr. Ruta's case, three doctors testified that he should be transferred to a hospital. Repeated requests by Alina to supply medication to her father have all been denied.

I have always been a strong supporter of most-favored-nation status for Romania. Among other reasons, the renewal of MFN each year allows us to evaluate human rights in Romania. Unfortunately, my patience with the Romanians wears thin when presented with such serious human rights violations like those against Mr. Ruta. It is violations like this which encourage Members of Congress to oppose MFN status.

I have written a letter to President Ceausescu of Romania requesting his personal assistance in the transfer of Mr. Ruta to a hospital and providing him with appropriate medical treatment. I will report to the House on his response.

FAIRNESS CALLED FOR IN ROMANIAN INCIDENT

(Mr. WOLF asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WOLF. Mr. Speaker, I want to rise in support of what Congressman FRENZEL said with regard to the case of the individual who is being held by the Romanian Government. We, today, got a letter signed by about 30-some Members of Congress who support modifying or doing away with the MFN.

I want to tell the Romanian Government something clearly: If you do not allow this individual to get out of jail and be released and get medical treatment and sent to the United States, we in this body are going to knock out MFN. So here is a chance for Presi-

dent Ceausescu. Release this guy and show that you mean something or, if you do not, you are going to lose MFN.

THE HOPES OF ALL HUMANITY

(Mr. WEISS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WEISS. Mr. Speaker, Soviet Foreign Secretary Shevardnadze has arrived in the United States to discuss with Secretary of State Shultz the upcoming summit meeting between President Reagan and Secretary Gorbachev. The hopes of all of humanity rest on the outcome of those meetings because the very future of humanity may in fact depend on our two leaders, the leaders of these two major superpowers, taking steps toward the reversal of the nuclear arms race.

The House of Representatives a few weeks ago in adopting the Department of Defense authorization bill adopted a provision by a margin of 80 votes which mandated a moratorium on the testing of nuclear explosives of over 1 kiloton so long as the Soviet Union itself adheres to that same test.

It is to be hoped that President Reagan will follow the lead of the House and undertake to negotiate with the Soviet Union a comprehensive test ban agreement.

It is time for the Reagan administration to get serious about banning nuclear explosions once and for all.

Nuclear testing permits the superpowers to develop new weapons that are more powerful, more accurate, and more dangerous than ever before. It helps drive the arms race forward.

For this reason every President from Dwight Eisenhower through Jimmy Carter has pursued a comprehensive test ban treaty. For this reason, the American public wholeheartedly supports a test ban. For this reason, both the House of Representatives and the Senate have previously passed nonbinding resolutions calling on the President to reopen negotiations with the Soviet Union. And for this reason, the House recently passed as part of the Department of Defense authorization bill a ban on nuclear tests over 1 kiloton.

But up to this moment Ronald Reagan would have none of it. He is the first President of the nuclear age who does not include a comprehensive test ban treaty as one of his major foreign policy objectives. He has ignored the pleas of the American people to negotiate. He has ignored the will of Congress. And he has ignored the overtures of the Soviets, who have refrained from nuclear testing for more than a year and have permitted seismic monitoring equipment to be placed in their nation by United States scientists.

The President claims that a test ban can't be verified. He claims that we need to explode our weapons to see if they really work. But these claims are simply not true. The real reason the President clings to nuclear testing is that a ban will threaten the development of new weapon systems, including the dangerous and costly star wars program.

If the President persists in his position he will be responsible for a monstrous arms race on Earth and in space. Better by far if he and Mr. Gorbachev take the path of peaceful cooperation and arms control.

A ban on nuclear testing will be a major step forward in the fight to achieve a freeze and eventual reductions in nuclear arms. We must continue to work through the legislative channels to enact a bilateral ban on nuclear testing. And we must pressure the administration to make a comprehensive test ban treaty an important part of any summit agenda.

We can achieve a nuclear test ban. We can achieve a freeze and reductions in nuclear arms. We can achieve a safer future for all of humanity.

WE NEED AN INCREASE IN THE OIL IMPORT TARIFF

(Mr. DORGAN of North Dakota asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORGAN of North Dakota. Mr. Speaker, I want to echo the sentiments expressed by Mr. LUJAN earlier. I think it is time for an oil import tariff in this country, and next week, a couple of my colleagues and I, during reconciliation on the Ways and Means Committee, intend to offer that subject once again.

What we were previously required to pay to the OPEC countries we are now unwilling to pay to ourselves to help reduce the Federal deficit. An oil import tariff makes sense on a couple of fronts: First, it would help reduce the Federal deficit; and second, behind it we could once again revive some domestic energy exploration.

The proposal we would offer would have some carveouts for home heating fuel, for agricultural use, but by and large it would establish a $22 floor and a variable tariff on the world price to that floor.

I think Mr. LUJAN said it quite well:

It is time for this government to seriously consider, at a time when our oil imports are radically increasing once again, it is time for us to consider an oil import tariff in this country.

It is especially time when we are searching for such desperately needed revenue to reduce the Federal deficit. To impose that tariff, dedicate the revenue to drive down the Federal deficit, and then allow the domestic exploration industry to once again be somewhat revived.

ANY INCREASE IN OIL IMPORT TARIFF IS A BAD IDEA

(Mr. WALKER asked and was given permission to address the House for 1 minute.)

Mr. WALKER. Mr. Speaker, over the last several days we have heard a number of calls on the floor for either raising the oil import tariffs or raising gasoline taxes. Let us understand that when anybody takes that particular position what they are really saying to the American people is we want to raise the price of your home heating oil and we want to raise the price of transportation. We want to increase inflation in this country because energy prices are spread across the whole economy. We want to damage the economic recovery that is taking place because higher inflation means higher interest rates. We are really talking about something that will have a massive economic impact to the detriment of the consumers of this country and to the detriment of our economy as a whole.

It is a bad idea; it ought not be endorsed by this Government or by this Congress.

□ 1405

AGRICULTURE IN THE GATT

The SPEAKER pro tempore (Mr. WEISS). Under a previous order of the House, the gentleman from Nebraska [Mr. BEREUTER] is recognized for 5 minutes.

Mr. BEREUTER. Mr. Speaker, on Monday, September 15, 1986, the United States and the other 91 nations that are members of the General Agreement on Tariffs and Trade [GATT] began a new round of global trade talks at Punta del Este, Uruguay, which this Member hopes will result in the broader coverage of trade items under GATT and a GATT that is more effective in reducing unfair trade practices.

This Member is confident that the interests of the United States will be well represented by my constituent, our U.S. Special Trade Representative, Ambassador Clayton Yeutter. He is an exceedingly knowledgeable and energetic trade representative who has a reputation as a tough negotiator and the most knowledgeable person on agriculture ever to serve in that position.

The need for the United States to negotiate aggressively and successfully at the new GATT round is necessitated by an ever increasing trade deficit and a growing impatience and anger on the part of the American people with the unfair trading practices of our foreign trading partners. These meetings, preliminary to any new

round of multilateral trade negotiations under GATT, will therefore have an important impact on the future ability of this country to compete fairly, and thus successfully, in the world market.

I am pleased to see that this administration expressed the intent to take a very tough stand on trade issues at these preliminary meetings to set the agenda for the new GATT round. I am also pleased that the administration is willing to walk away from the GATT round in Uruguay if most or all of America's five top priorities are not included in the agenda. These priorities include:

First, a workable definition of, and an end to, export subsidies in farm trade;

Second, stricter international rules against piracy of intellectual property;

Third, an end to barriers to trade in services;

Fourth, free flows of investment funds; and

Fifth, strengthening of GATT's dispute settlement procedures.

Mr. Speaker, one of the two highest level priorities for the next GATT round, along with bringing services under the GATT umbrella, is the definition and phasing out of agricultural export subsidies. The United States has early support in that effort from 14 agricultural exporting nations, including such major producers as Australia, Canada, and Argentina. For that reason, I would like to take a few minutes today to discuss why it is absolutely crucial that agricultural export subsidies be included in the agenda for the new GATT round.

I think most Members of the House are aware that agricultural exports and trade are vital factors in the wellbeing of our Nation's economic system. Employment for one-quarter of our Nation's work force is linked to our ability to maximize opportunities arising in the domestic and world market for basic agricultural commodities and value-added products.

In my own State of Nebraska, for example, agricultural exports generate more than $5 billion in economic activity within the State each year. Cash receipts of $2.6 billion from exports in 1984 accounted for 31 percent of the State's total agricultural sales. Farmers in Nebraska derived $85 million in net income from exports in 1984. Agricultural exports account for nearly 30,000 of the State's farm and nonfarm workers. Feed grains and products, Nebraska's leading export commodity, accounts for over one-half of the State's agricultural revenue—$1.13 billion. This same export also accounts for 12 percent of the Nation's total export of feed grain products.

The United States is still the largest exporter of agricultural commodities and products in the world, despite the fact that our farm export sales have declined from a peak of $43.8 billion in 1981 to an estimated $27.5 billion this year. Nationally, crops from nearly two out of five acres harvested were exported in 1984. During that same year, nearly half of the wheat, soybeans, rice, cotton, and sunflower seeds produced in the United States were exported, and more than one-third of the tobacco, feed grains, and tallow were also exported.

In recent years, U.S. agriculture has suffered a serious and substantial setback in agricultural trade. A variety of factors has contributed to the recent decline in U.S. agricultural competitiveness. Only some of these factors, such as fluctuations in exchange rate values and levels of worldwide economic growth, can logically be said to arise from a free play of world economic forces. More often, the outcome of competition in world markets results from the direct actions of government.

Unfair trade practices of other nations lessen our opportunities in our own market and in markets overseas. Unfortunately, reform of domestic policies must take place in an international context. Such policies are the subject of conflicting agendas and loyalties, and of jurisdictional privilege. In an increasingly competitive environment, efforts to overturn the unfair trade practices of other sovereign nations becomes greatly more difficult.

In setting the agenda for the new GATT round, the European Community, and the French in particular, have indicated a reluctance to include the subject of agricultural subsidies in the upcoming GATT discussion. However, inclusion of agriculture in the GATT should ultimately be just as much in the interest of citizens of France as it is in the interest of the citizens of the United States of America.

It is clearly in the self-interest of the United States and the European Community as a whole to negotiate some international rules on agricultural subsidies that will begin to reduce the level of fiscal insanity and farm income instability that prevails as a result of agricultural trade today.

In recent years, both the United States and Western Europe are putting enormous amounts of financial resources in agriculture. We are both stimulating agricultural production at a time when there are insufficient markets for that production. It is an incongruous situation that simply must be changed.

In many agricultural products, the international market share for the United States has been going down while the international market share for European Community exports has been going up. This is primarily the result of the EC's very aggressive export subsidy policy, and until some recent progress, a very passive export policy on the part of the United States.

For the first time in many years, the United States is becoming more active in using export subsidy programs. This has created concerns not only in Western Europe, but also other export competitors in developing countries which are hurt by the process.

From an economic standpoint, most of what is happening in the world of agriculture today makes very little sense. Where is the wisdom of our actions when the taxpayers of Western Europe, the taxpayers of the United States and their consumers on both continents are paying the price—particularly in the European Community? Other producing countries like Australia and even lesser developed nations are also paying the price in reduced world price levels that is cutting into their incomes.

There are practical solutions to even what appear to be some of the most intractable problems facing U.S. agriculture in the world trade arena. During the past year, this Member has been an active participant in a commission created by this Congress to study the problems associated with the decline in U.S. agricultural exports.

The National Commission on Agricultural Trade and Export Policy in June of this year issued its final report which contains its recommendations that will increase U.S. agricultural exports. An emphasis on the problems of agricultural trade subsidies and barriers in the next GATT negotiation was a major issue addressed by the Agricultural Export Commission. In regard to GATT, the Commission made the following recommendations:

GATT Reform

The following reforms should be undertaken in respect to the GATT:

(a) Achievement of tighter GATT enforcement powers.

The enforceability of GATT rulings is undermined by the consensus nature of GATT decision-making, the veto power of signatories, and the absence of binding requirements on signatories in the event of a finding of unfair export subsidization. The rule of unanimous consent should be eliminated. The current GATT process makes it too easy for GATT violators to sidestep their treaty obligations. The process should be undergirded by automatic and admissible retaliatory actions that are binding on all GATT signatories.

(b) Clarification of Criteria Relating to Unfair Trade Practices contained in the Subsidies and Countervailing Duties Code & Article XVI of GATT.

Current criteria contained in the Subsidies Code governing GATT definition of export subsidies need greater clarification. The Subsidies Code was intended to refine the definition of admissible and inadmissible trade practices referred to in Articles VI, XVI and XIII of the GATT. In practice, however, the Code provides cover and lends an air of legitimacy to trade practices that

are clearly in violation of fair trade precepts.

Export subsidies applied to primary products should face the same restrictions as are currently applied to subsidies on non-primary products. Every effort should be made to provide for specific prohibition of such subsidies regardless of current criteria, which allows such practices in the event that their use does not result in exports above an "equitable share" of world markets.

Consideration should be given to amendment to GATT to allow the imposition of countervailing duties on subsidized imports without a finding of injury to a domestic industry or at a lower standard of injury than the present "material injury" standard.

(c) Extension of GATT applicability to State trading activities.

State trading activities are common in world agricultural trade and yet issues arising from the incidence of unfair state trading are unaddressed by GATT. State selling agencies engage in export subsidy and dumping activities and state importing agencies engage in preferential, "closed door" purchasing; however, it is currently virtually impossible to determine the extent of their involvement. GATT rules are needed to govern the activities of state trading organizations to include:

(i) Provision for greater transparency on exporter and importer sales transactions, as to prices, credit terms, or other transactions by state exporting and importing organizations;

(ii) Tightening of state practices in regard to export sales at prices different from internal sales prices, and internal sales prices unrelated to world prices;

(iii) Open bidding for all imports.

(d) Improved and Expedited Dispute Settlement within GATT.

GATT dispute mechanisms are currently far too cumbersome and slow. By contrast, determinations of the International Trade Commission and subsequent Executive action in countervailing and anti-dumping cases are subject to a much more stringent and legally binding time constraint.

The Commission believes that time constraints and procedures under Section 301 of the Trade Act of 1974 should be no less binding than legislatively mandated requirements under Section 201-203 of the 1974 Act, and Section 337 and Title VII of the 1930 Tariff Act.

Consideration should be given to the following improvements in the GATT dispute settlement process:

(i) Allow the Director-General of GATT to intervene more effectively to bring disputing parties into mediation and arbitration;

(ii) Bind disputing parties to voluntarily agree in advance to submit their case to a neutral arbitration panel and to abide by the panel's decision.

(iii) Designate pre-selected, non-governmental individuals, rather than government representatives, to serve on "expert panels";

(iv) Establish a reasonable timetable for consideration and action by "experts"; and provide uniform guidelines for information to be contained in such reports;

(v) Provide for automatic publication of all panel reports. The adoption of or alteration of panel recommendations should be separated from the panel report.

(e) Retain Appropriate Safeguards and Retaliatory Capabilities to Ensure Greater Cooperation in Trade Matters.

The United States government and U.S. negotiators in international fora should have appropriate ammunition to aggressively pursue international cooperation in trade matters. Great care should be taken in the selection and preparation of U.S. negotiators. In addition, as recommended elsewhere, to encourage timely action on 301 cases, the U.S. Trade Representative should be required to take retaliatory action against nations utilizing unfair trade practices within 15 to 18 months of the filing of a 301 petition, except if (a) he determines within such time that action in respect to the 301 petition is unwarranted; (b) determination is made by appropriate and binding GATT mechanisms that the U.S. position is unsubstantiated; or (c) agreement is entered into with the offending nation to eliminate such practices.

Appropriate attention should be given to the maintenance of programs designed to protect U.S. industries from the effect of unfair import competition.

As we proceed with the meetings in Punta del Este, Uruguay, preparatory to a new GATT round, the administration and this Congress should keep in mind that American agriculture is under unprecedented assault by foreign governments employing aggressive and unfair trade practices.

Today, despite the desire of this administration, there is in reality almost no free market in world agriculture. Furthermore, policies of government, rather than market forces, increasingly dictate the terms and conditions under which competition takes place. If this situation continues to prevail, the U.S. Government must take a far stronger position on matters of trade.

Trade barriers beget trade barriers and unfair import competition begets protectionism. As a rule, there are always more losers than winners in a trade war. However, if the major trade issues affecting the United States are not going to be addressed in a new GATT round, the U.S. Government should be prepared and willing to utilize, and then actually use, all appropriate retaliatory capabilities, and employ all other effective means to counter the disruptive affect of foreign export subsides, nontariff and tariff trade barriers and unfair import competition on American agriculture and food industries. That is the view of this Member of Congress and I urge the administration to take this approach.

FHA ASSISTANCE TO SALAMANCA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. LUNDINE] is recognized for 5 minutes.

Mr. LUNDINE. Mr. Speaker, today I am introducing a bill designed to provide a very special kind of assistance to a small city in our district, Salamanca, NY. This provision is noncontroversial: It was part of the housing bill which has already passed the House of Representatives.

This legislation enables the Federal Housing Administration to ensure, under the provisions of the National Housing Act, residential mortgages secured by property located on land that is within the Allegany Reservation of the Seneca Indian Nation. This revenue-neutral provision is of paramount importance to Salamanca.

The city of Salamanca is in a unique situation. Approximately 85 percent of the land upon which the city is located lies within the Allegany Reservation of the Seneca Nation of Indians. The Indian lands are occupied under 99-year leases which are due to expire in 1991. The leases were ratified by Congress in February of 1892, under authority of two special acts of Congress.

The impending expiration of these leases and the uncertainties surrounding the method of renewal or renegotiation of the leases have been causing extreme economic hardships for the citizens of Salamanca. While the lease situation has resulted in a gradual erosion of the city's economic base for nearly 10 years, the situation is becoming increasingly urgent due to the complete lack of mortgage financing in the community. As of January 1, 1985, the city's lending institutions have refused to make any loans in Salamanca beyond a 5-year-term.

The lack of available financing for industrial, commercial, and even residential transaction has brought most economic activity to a standstill. Failure to address this problem will continue to have serious implications for the city's ability to attract new business, create jobs, and stimulate economic growth. The lack of money for residential mortgages has been a tremendous hardship for families wishing or needing to relocate, as well as for those families wishing to purchase a home in Salamanca.

If there is any community in the country that needs or deserves FHA assistance, it is certainly Salamanca. This city desperately needs the rejuvenation that FHA insurance of residential mortgages will make possible. While the ultimate resolutions of this problem must be achieved by the city and the Seneca Nation, the situation in Salamanca is now so serious I feel that outside assistance is essential. Time is running out for Salamanca. Adoption of the legislation I am introducing today will give the city the boost it desperately needs and deserves.

This measure is revenue neutral. Further it does not represent an unreasonable risk for FHA. The law under which these leases were ratified in 1892 clearly allows for renewal of the leases; the only unresolved question is the terms of the renewal. All parties involved have a common interest in assuring that these terms are reasonable that they foster residential and commercial growth for Salamanca's future.

I urge the Members of this body to pass this legislation expeditiously.

THE TAX BILL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. ARCHER] is recognized for 60 minutes.

Mr. ARCHER. Mr. Speaker, I come again to the floor of the House, as I

have the last 2 days, to shed additional light on the forthcoming broad-based tax revision bill which is expected to be on the floor Thursday of next week for debate and vote.

I think it is extremely important that we understand the impact of the provisions of the bill so that the American people, as well as my colleagues here in the House and in the other body, will be able to cast an intelligent vote.

This bill is frequently called the tax simplification bill and nothing could be farther from the truth. It should be called the tax increase complexity bill.

We now know for the first time, because the bill was officially filed in writing with the House yesterday, late, that it contains 2,400 new pages in the document that we will vote on next week.

Currently, if you wish to practice tax law, it takes 33 feet of shelf space just for the volumes of the Internal Revenue Code and the IRS regulations that one must have as a resource in order to understand the law.

That does not include all of the pages of judicial decisions which must also be considered. This new broad-based revision bill, and I call it that rather than a reform bill because reform implies that it is in a total way good, with its additional 2,400 pages that will be passed on by the Congress next week will add many, many additional new feet of shelf space for the volumes that must be looked on in order to interpret and determine what the code is. It will not be a reduction in the amount of regulations or pages of the Tax Code. It will not be a reduction in the amount of outside private activity that will be required on the part of private practitioners to deal with the increased number of IRS agents which this documents anticipated.

□ 1415

Now, make no mistake about it, it is complexity, not simplicity. There are other features in the bill, of course, that are good, but one of them is not simplicity.

A part of the bill that my colleagues, the gentleman from Illinois [Mr. CRANE] and the gentleman from Minnesota [Mr. FRENZEL] did not discuss last night in any great depth was what is going to happen to those people who have retirement programs and have contributed their own dollars after taxation, not tax deductible dollars, but their own dollars, put them aside in anticipation of having a retirement benefit when they reach that age?

Well, what is going to happen to them, and it is going to happen retroactively, is that they will in effect be doubled taxed on their earnings. They paid taxes once on the money that they put into their fund. When the retirement benefits come out and they receive their own money back, they will pay taxes once again on these retirement benefits.

I classify that as being unfair. I think it weighs on the scales of balance of what is fair and unfair in this bill.

Mr. Speaker, I yield to the gentleman from Virginia [Mr. WOLF] who has a very, very strong interest in this area, for what comments the gentleman would like to make at this time.

Mr. WOLF. Mr. Speaker, I want to thank the gentleman from Texas [Mr. ARCHER] for taking the leadership, and the gentleman from Illinois [Mr. CRANE] on this effort to recommit.

To those who are listening back in their offices and those who are listening in their homes throughout this country, what we would urge you to do after you listen to the gentleman from Texas [Mr. ARCHER] and the gentleman from Illinois [Mr. CRANE] is to tell your Congressmen and Senators to support next week the motion to recommit of the gentleman from Texas [Mr. ARCHER].

Let me give you a couple reasons why. The people who ought to be listening to what I am going to say are a certain category of people.

One, if you are a policeman or if you are a friend or related to a policeman, this what I am going to say affects you. If you happen to be a congressional staffer or mother or father or uncle or aunt of a congressional staffer, this affects you. If you happen to be a fireman, this affects you. This is your bill. If you happen to be a State or local or country employee or executive, this impacts on you. If you happen to be an FBI agent or DEA agent or a cancer researcher at NIH or something like that, this bill affects you.

If you have to be cutting your Social Security checks, this affects you, or quite frankly, if you are getting a Social Security check, this really impacts on you.

So the rest of you can kind of tune out maybe, but those of you, 20 million of you, this what I am going to say impacts on you.

Let me just tell you, like many in the House, I see the need for tax reform. I wholeheartedly support the elimination of special preferences and loopholes and believe that all individuals and corporations should pay their fair taxes. Everyone I think would agree with that.

I support the intent of the legislation to make the Tax Code more fair and simpler.

Unfortunately, this bill that we have before us, which will be here next week, as the gentleman from Texas [Mr. ARCHER] said, is very complex. It is not simple; but I think more important than that, it is not fair. It is unfair. It is really a very unfair piece of legislation.

Let me put the question to you that hundreds of my constituents and people all over this country have asked in letters in the last week alone. Why should public servants who contribute to and pay taxes, as the gentleman from Texas [Mr. ARCHER] said on their retirement plans be targeted, be impacted?

It is almost like the people on the Ways and Means Committee and the people on the Senate Finance Committee zeroed in on these individuals. There must be some reason why.

Is it fair to single out the 20 million individuals at local, State, and Federal levels, who make this country work, teachers—and I forgot to mention, if you are a teacher and you are watching, or the husband or the wife of a teacher, or if you are a student watching, this impacts on your teachers. It impacts on teachers very severely. These are men and women who have dedicated their lives to the public good and should they have to pay for this package to the tune of $1.8 billion in 1987 and $2 billion thereafter?

The conference committee did not stop at repealing the 3-year recovery period. As Congressman ARCHER said, they also made the provision retroactive.

Supporters of tax reform ask why the poor should bear the burden of taxation in this country. I ask in reference, why should the public servants bear this burden?

Let me read a letter to you that I just received the other day, and I wish all the Members of the House could hear this, because I know if you heard this letter you would vote for the motion to recommit of the gentleman from Texas [Mr. ARCHER].

I want to tell the Members who are listening and the people back in their homes in Buffalo and Toledo and other places——

The SPEAKER pro tempore (Mr. WEISS). If the gentleman will desist for a moment, under the rules, and the Chair thinks the gentleman is aware of this, but may have forgotten, whatever addresses or comments are made have to be addressed to the Members of the body and not to anyone else who may be in an audience elsewhere.

Mr. WOLF. I thank the Speaker.

I would direct these comments to my colleagues to listen to this letter. This just came in the other day. It says:

DEAR MR. WOLF: I am sending this letter to you to try to get your support against the discrimination against government workers who are about to retire as I am. I am 61 years old and 3 months short of retiring and suddenly they are trying to slip the rug from under me by not giving me an opportunity before taking taxes from my annuity.

I first started working for the government in 1943—

And I would tell the Members that many of the people who are being hurt the most are veterans, many vet-

erans who work for the Government who were originally veterans would be hurt very much. Let me continue with the letter:

I first started working for the government in 1943, but took time out to raise my children and started back to work in December of 1959 when my husband became disabled. Since that time the government took taxes from me on the money they took out of my salary to put into the retirement fund. Believe me, it was difficult in those days to take care of a family of six on a Grade-3 salary. Anyway, about six years ago my husband had a stroke and is very disabled physically and mentally and I have severe hypertension and planned to retire at the end of December. I tried and tried to get solid information—

And she underlines "solid information—

about the tax bill and how it would affect me.

Parenthetically, I might say to my colleagues, and I know they will understand this, Members of Congress have tried and tried to get information and have not been able to get information, so I understand what she is saying.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield for a question?

Mr. ARCHER. Yes, I am happy to yield to the gentleman from Texas for the purpose of asking a question of the gentleman from Virginia.

Mr. GONZALEZ. Mr. Speaker, I thank my colleague from Texas.

The reason I rise is that it has to do with the confusion surrounding just what the tax bill really finally looks like, but also with respect to the statement the gentleman made in which he indicated that State and local retirees would be taxed.

My understanding, the last report I had was that really the gross unfairness of that provision was that the Federal retirees were being singled out and that local and State retirees were being exempted. Which is right?

Mr. ARCHER. Well, I would say to the gentleman that although we still do not have a printed copy, hopefully by tomorrow afternoon we will and we can look at the wording in it.

People have been asked to cast their votes up to this point without knowing what the document is and many are already committed, and I think that is unfortunate; but what we do understand at this time is that all retirees who have contributed their own funds into their retirement program, after tax dollars, funds that have already been taxed, who currently under the law when they begin to draw their retirement benefits get that back without taxation, which is appropriate, are now prohibited from getting their money back in the first 3 years and must spread it out over whatever their actuarial life is and that applies to any retiree, any program where there has been a contribution with after-tax dollars by the employee.

My understanding is—again not having seen the document—that it will apply uniformly to everyone who fits in that category and I assume that is the understanding of my colleague, the gentleman from Virginia, and of the gentleman from Illinois.

Mr. WOLF. Mr. Speaker, if the gentleman will yield, that is correct. That is the understanding that I have and, of course, if that is the case, and that is what we have been told, that is absolutely terrible; but should the gentleman be right or should it be that just Federal employees are covered and not State and local, that would be equally bad, because then you would be really discriminating against these people.

Mr. GONZALEZ. I agree with that. The question I was raising was whether or not in effect this final version does contain the exemption of the local and State retirees.

Mr. ARCHER. My understanding, I will say to my friend from Texas, is that it does cover State and local employees, the same as it does Federal employees.

Mr. GONZALEZ. Mr. Speaker, I thank the gentleman.

Mr. CRANE. Mr. Speaker, will the gentleman yield on that point?

Mr. ARCHER. I am happy to yield to the gentleman from Illinois.

Mr. CRANE. Mr. Speaker, that is also my understanding. I have had numerous communications from people back home in Illinois, schoolteachers, policemen, firemen, as indicated by the gentleman from Virginia; that is also their understanding of what is in the bill, too.

I thank the gentleman for yielding.

Mr. WOLF. Mr. Speaker, if I could just continue to read this letter.

Mr. ARCHER. I yield to the gentleman from Virginia.

Mr. WOLF. The letter goes on that her husband had suffered a stroke and had been disabled and since that time the Government took taxes from her. She says:

Believe me, it was difficult in those days to take care of a family of six on a Grade-3 salary. Anyway, about six years ago my husband had a stroke and is very disabled physically and mentally and I have severe hypertension and planned to retire at the end of December.

I tried and tried to get some solid information about the tax bill and how it would affect me. It was a deep, dark mystery, until suddenly they decided to take that one part of its pertaining to people who could not help themselves or make any changes in their planning and "put one over on them". I call that dirty pool.

I certainly think some kind of clause should be grandfathered in the bill so that it would not affect persons who had no opportunity to change their plans. At best, I will barely get enough to support us. I have a second trust that will be paid off in a little over two years and I had been planning in the past eight years that just about the time it would be paid in full I would have to start paying income taxes and it would just about take care of it. That has been my plan for the past eight years.

Now what can I do, go to jail for nonpayment of income taxes or do I lose my house? I really haven't had many choices. There is only so much pie and it is already spread pretty thin.

Mr. Speaker, I will not go through all these other letters, but I will submit these other letters for the RECORD.

I think what we are trying to say here, and I will be very brief, you may want to support this bill. You may think it is a good bill. If that is the attitude of my colleagues, although I disagree, I respect that clearly, but you can still vote for the bill on final passage and then vote before that for the motion to recommit of the gentleman from Texas [Mr. ARCHER]. The motion to recommit, and the gentleman from Texas [Mr. ARCHER] will spend more time explaining this, will simply send the bill back to the conference committee and say to the conference committee: Correct these points: One, allow an individual to retire effective January 1, 1987, and elect whether or not they want to retire without being hurt. Give the policemen on the beat in the city of Cleveland, Buffalo, or Toledo the opportunity to decide, do they want to leave? Give the teacher an opportunity to decide if he or she wants to leave. Give the FBI agent who is working on that organized crime case and wants to finish it the opportunity to see if he or she wants to leave. Give the person at NASA the opportunity, who is working on a shuttle launch situation, the opportunity to make that decision.

So all we are asking is that the retroactivity provision and this provision and other provisions be taken out.

I want again to thank the gentleman from Texas [Mr. ARCHER] and the gentleman from Illinois [Mr. CRANE] for their efforts with this motion to recommit.

This I think may be the key vote in the Congress. This may actually be the key vote. You can still vote for the bill on final passage, but you can still put an element of fairness and a sense of fairness back into this provision to take care of those people who have been dedicated public servants. My dad was a policeman for 20-some years in the city of Philadelphia. These are policemen who risk their lives to protect us and our loved ones; teachers who have taught our youngsters, as the father of five children; firemen who have helped us when our houses were in danger; rescue squad people who have come out in the middle of the night in all types of weather, and local and county executives who have helped in so many different ways; FBI agents that have cracked down on organized crime; drug enforcement agents that work to keep drugs out of our schools; cancer researchers at

NIH, all these people who have paid such a tremendous price for us, this motion to recommit, the Archer motion to recommit, will give them relief, and that I think is something that every Member should seriously consider doing.

□ 1430

I know that there might be some Members who will say, "I don't know that I want to go against the leadership. I don't know that I want to be against Senator PACKWOOD or the chairman of the Committee on Ways and Means."

Well, you do not have to be against them completely. You can vote to represent these public servants and still vote for final passage, but the key vote, and I would ask all of my colleagues, please, in the interests of fairness, support the Archer motion to recommit. It is a good vote, it is a fair vote, and it is a vote that will really improve this bill.

Mr. Speaker, like many in this House, I see the need for tax reform. I wholeheartedly support the elimination of special preferences and loopholes, and believe that all individuals and corporations should pay their fair share of taxes. I support the intent of this legislation—to make the Tax Code more fair. Unfortunately, the bill that we have before us today is grossly unfair.

Let me put to you the question that hundreds of my constituents have asked me in letters in the last week alone: Why should public servants who contribute to and pay taxes on their retirement plans be targeted in this bill?

Is it fair to single out the 20 million individuals at the local, State and Federal level who make this country work—the teachers, policemen and firemen who educate our children and protect our families? Is it just that these men and women who have dedicated their lives to the public good should have to pay for this tax package to the tune of $1.8 billion in 1987 and $2 billion every year thereafter? Some who wrote me said they would lose anywhere from $6,700 to $15,000.

The conference committee did not stop at repealing the 3-year recovery period. They also made this provision retroactive. So not only are these public servants losing money on which they have already paid taxes, but they are told it is too late to do anything about it. This is not fair and it is not sound public policy.

Supporters of tax reform ask why the poor should bear the burden of taxation in this country; I ask you, in reference to this provision—why should public servants bear that burden?

Following are excerpts from letters received on this serious issue:

DEAR MR. WOLF: I am sending this letter to you to try to get your support against the discrimination against government workers who are about to retire as I am.

I am 61 years old and 3 months short of retiring and suddenly they are trying to slip the rug from under me by not giving me an opportunity to retire before taking taxes from my annuity.

I first started working for the government in 1943, but took out time to raise my children and started back to work in December of 1959 when my husband became disabled. Since that time the government took taxes from me on the money they took out of my salary to put into the retirement fund. Believe me it was difficult in those days to take care of a family of 6 on a grade 3 salary. Anyway about 6 years ago my husband had a stroke and is very disabled (physically and mentally) and I have severe hypertension, and plan to retire the end of December. I tried and tried to get some *solid information* about the tax bill and how it would affect me. It was a deep dark mystery until suddenly they decided to take that one part of it pertaining *to people who could not help themselves* or make any changes in their planning and "put one over on them." I call it dirty pool.

I certainly think some kind of clause should be grandfathered in the bill so it would not affect persons who have no opportunity to change their plans. At best I will barely get enough to support us. I have a 2nd trust that will be paid off in a little over two years and I had been planning for the past 8 years that just about the time it would be paid in full, I would have to start paying income taxes and it would just about take care of it. *That has been my plan for the past 8 years. Now, what can I do?* Go to jail for nonpayment of income taxes? Or do I lose my house? I really haven't many choices. There is only so much pie and it is already spread pretty thin.

* * * * *

I agree that we must all share the tax burden; however, the fact that the bill proposes a retroactive date does not seem fair or equitable. I believe some advance notice of changes in the law affecting [public servants'] employment should be given. This will provide time for each person to decide his future with government, especially if he or she is already eligible for retirement.

* * * * *

I am a federal employee eligible for retirement and have planned on this tax-free period. I have been waiting on clarification of the new retirement bill passed in early June of this year and how the new tax bill would affect my retirement. Without an understanding of how these bills affect our retirement system, it has been impossible to make an intelligent decision.

Additionally, we have received no official information regarding the possibility of a retroactive date on this section of the tax bill from our agency heads, personnel offices or elected representatives.

If this provision is made retroactive, then employees should be permitted to retire retroactive to June 30, 1986, prior to the retroactive date of this section of the tax bill.

* * * * *

Elimination of the three-year pension recovery rule * * * in the joint version of the proposed tax act, without reasonable grandfathering or even an appropriate window to effect retirement, is unconscionable and basically dishonest in nature. Not only was the proposed elimination not grandfathered, but it was made retroactive to 30 June of this year. The so-called "retirement window" cannot be considered a legitimate window, because there was disagreement between House and Senate and the actual content of the final tax act proposal was unknown. In addition, no one actually believed that honorable men would seriously consider, much less agree upon, such a shockingly unfair, unjust proposal as retroactive elimination of the pension recovery rule.

I hope some sense of fairness and decency will prevail and that the elimination of the pension recovery rule will be deleted or, at least, appropriately amended so * * * at least, as serious reasonable retirement window is included.

* * * * *

I work for NASA and, as I am sure you are aware, we are in the process of trying to rebuild the civil space program. In May, the new Administrator was confirmed with the understanding that he would be expected to lead us toward an effective recovery. He asked that I continue to work for the Agency during this recovery effort, even though I had been giving consideration to retirement. At the time I knew that if the provisions of the tax reform act became effective before I retired, my net income would be much less than if I retired immediately and I would never recover the loss even if the tax rates were lowered to the percentage levels in the Senate version. I decided, however, to continue to work for the time being in the belief that Congress would not pass a retroactive change in the conditions under which we work. As I understand it, the present bill does just that.

[By my calculations, the net reduction in my net retirement benefits after taxes would be a loss of approximately $17,000.] The real effect, however, will be more than this amount because of the adverse effects on prior investments.

I've been willing, though not anxious, to work the 50-60 hour weeks when necessary to contribute to the recovery [of the space program], but I am sure you would agree that it is unreasonable that I should lose money in the process.

I know several other NASA officials who are in the same situation * * *.

This letter comes from a nuclear chemist/health physicist employed with the U.S. Nuclear Regulatory Commission:

This [retroactive] change is totally unfair, but what's worse is that people aren't even going to be afforded the opportunity to retire before the change goes into effect.

As a Federal employee, I relied on the government's promise that I would be able to receive my contribution to my retirement pension (which I have already paid taxes on) before I began receiving the taxable portion of my annuity. I made plans for my retirement based on the current tax law and now the law could be changed without even allowing me to plan for the impact of that change.

I've been responsible in planning for my retirement. It is time for the Congress to be responsible, too.

The frustration felt by these individuals is best expressed by this constituent:

* * * I am a federal employee. I take my position seriously and I want you to know there are those of us who are performing important functions by working for the government. We are not here for a free ride, and we do not deserve the mistreatment rent upon us. We are not dumb, we are not asleep, and we are observing the decisions and actions being made by legislators * * *."

Mr. ARCHER. Mr. Speaker, I thank the gentleman for his contribution, and I particularly compliment my colleague, the gentleman from Virginia [Mr. WOLF], for his hard work in

behalf not only of his constituents, but in behalf of fairness under this bill.

He has very poignantly articulated one of the problems of retroactivity which permeates the bill, and it is an important area of unfairness. I think, quite frankly, in my own view if we are going to change the rules of the game on how we tax retirement benefits, we should give at least a 5-year prospective date so that people have a chance to be able to rearrange their plans, and I think that a minimum of 5 years is absolutely essential.

Mr. FRENZEL. Mr. Speaker, will the gentleman yield?

Mr. ARCHER. I yield to the gentleman from Minnesota.

Mr. FRENZEL. I thank the gentleman for yielding and for taking the special order.

Mr. Speaker, I want to salute also the gentleman from Virginia [Mr. WOLF] for the kind of appeal that he has made.

He has mentioned of course only one brand of retroactivity in this bill. We also have retroactivity in interest deductions, retroactivity in capital gains payments, retroactivity in carry-forward of ITC credits, retroactivity of passive income limitation, and when you go through the bill, you find all this retroactivity. My point is, I will tell the gentleman from Texas, that when the Congress has altered tax law before, it has not done it in this way. Our precedent has always been to give those people who are on the edge of investment decision, retirement, purchase of a house, whatever, a little chance to get used to the new system to make their own changes in their own financial conditions, and have the fully effective date be a few years down the road to let Americans plan for these kinds of problems.

Of course, as the gentleman from Virginia has pointed out so effectively, there are an awful lot of people out there who have wanted to retire, who have been looking at this bill. Suddenly they find that the bill is almost a fait accompli and they have no way to get through the window of retirement no matter how long they have planned.

Some of these are people who have been told by their bosses, "Just stay with me until the tax bill is passed," or, "Just stay with me; you'll have a chance to get out when you want to." They do not have a chance to get out. Their plans have been made.

Mr. CRANE. Mr. Speaker, will the gentleman yield?

Mr. ARCHER. I yield to the gentleman from Illinois.

Mr. CRANE. I thank the gentleman for yielding.

Mr. Speaker, I again want to congratulate the gentleman from Texas [Mr. ARCHER] for calling attention to some of the unintended consequences of this so-called tax reform bill. We have heard from our good colleague, the gentleman from Virginia [Mr. WOLF], of the impact on pensions with respect to those people who worked in government, whether at the national or the State level, or are publicly employed, but I have a specific case study which I would like to work through with the Members—in fact, three of them—that were called to my attention. One of these is in my district, one is in a neighboring congressional district in Illinois, and one is in Missouri.

In the first—and I will preserve their anonymity by using pseudonyms—Mr. and Mrs. Smith are a retired couple. He was a union electrician. They receive a pension of about $25,000 a year. Their additional dividend and interest income has brought their modest retirement income to $36,000.

Mr. Smith unfortunately is suffering from glaucoma and is now blind, and his wife, Mrs. Smith, became severely ill last year, and the couple has $7,500 in unreimbursed medical expenses.

Their total income, to work through these figures, is $36,000, as I indicated, they have a $7,500 medical expense, and currently they can deduct $5,700 of that, but under the change in the Tax Code, they will only be able to deduct $4,800 of that. Their $250 sales tax deduction will be lost under this bill, and their miscellaneous deductions amounting to $300 will be lost.

The tax paid under the current law is $3,000, and in 1987, with this change, for this elderly retired couple with the husband now blind and his wife having medical problems, they will pay in 1987 a 13-percent tax increase over what they are paying under current law; namely $3,375, and in 1988, when we are told that the five rates that will be in effect for 1987 will then be reduced to three rates of 33 percent, 28 percent, and 15 percent, their tax increase is 16 percent for 1988, or $3,460.

We were told during the debate on this subject that we were taking care of those people who were disadvantaged. To be sure, we got 6 million people off the tax rolls altogether. On the other hand, there are instances such as I have just cited that are not unique. I know that you can reproduce the Smiths' case many, many times over.

Let me give Members yet another example, the one from Missouri. This couple, whom we will call the O'Briens, ages 75 and 70 respectively, have a meager pension of $15,000. They have interest and dividend income of $200. Since Mr. O'Brien is chronically ill, the couple had to sell some stock to pay the high medical expenses resulting from his illness, $250 gross capital gain to pay $7,200 in unreimbursed medical expenses. They make a small charitable contribution also to their local church.

The new tax law will raise them from the current 11-percent bracket to the 15-percent bracket of the new bill, and to work through the figures, in their situation they currently pay $270 in Federal income taxes. Next year, if this becomes law, in 1987 they suffer a 104-percent tax increase. They go to $550 in taxes. In 1988 they suffer a 138-percent tax increase, and they will be paying $640.

To get to the specifics of their situation: pension income of $15,000; interest and dividends, $200; gross capital gains, $850; medical expense, $7,200; plus a small charitable deduction and sales tax deduction.

So, looking at people who are suffering as a result of this in the retirement brackets, it is not confined just to those who are going to be disadvantaged as a result of the new treatment for public employees when they go into retirement. The various provisions of this bill I think hamper and in some instances very severely when you are talking of the modest kinds of income involved in the cases of the two couples that I have just cited.

Once more, I would stress that this was an unintended consequence, but until we get to revision of the Tax Code, which may be 2 years down the line dealing with these kinds of unintended consequences, in the meantime there is going to be severe injury to those who should be least exposed to that kind of injury.

Mr. ARCHER. Mr. Speaker, the gentleman has given us a much, much better insight into some of the particular applications that will result from this legislation.

□ 1440

We do know even from the proponents that many middle income Americans will have tax increases under this bill. Many middle income Americans will have tax increases, although they continually tout the fact that it is going to be a rate reduction.

You have begun to cite some of the specific types of Americans who will have tax increases. Certainly in the instance where people have higher medical bills, they should not be the ones to pay tax increases under what is being presented as a tax reform bill in the name of fairness.

Mr. CRANE. If the gentleman will yield further, I could not agree with you more.

Let me give you another hypothetical, but it is one that I think we can all relate to. We were assured that lower income and middle income people were going to be given a break with this tax legislation. The gentleman talks about that lower income person. He is in all probability a renter. He does not own his home. As a renter, with the changes in the Tax Code, Martin Feldstein provided a breakdown analysis of

exactly what is going to happen to those people who own rental properties. It is going to result, he concluded, in a rental increase from anywhere from 10 to 15 percent.

So you assume this couple in his hypothetical paradigm is making $25,000 a year. They will experience a $20 a month cut in their taxes, to be sure. But they will also probably be paying in the neighborhood of $500 a month for their apartment, and as a result they are going to suffer an apartment rental increase of $50 to $75. It dwarfs the tax cut they will be enjoying.

In addition to that, this same couple are people who normally buy on time, and with the loss of the consumer credit interest deduction, how is that going to affect this individual if he is paying for his car on an installment basis, and he probably is, if he is buying a refrigerator on an installment basis, which he probably is, or a stove, or a television, or any other article? That is before you get to the potential impact if, perish the thought, they sustain unreimbursed medical expenses which are adversely impacted, too.

So I think it is clear that this bill does not address the objectives that we set forth for ourselves, and it contains a potential for enormous injury.

One final point I would mention on the care for middle income. That is an arbitrary definition. During the conference, we took the range $20,000 to $50,000 and we said we will define that as middle income for the sake of the debate.

When you phase out the IRA's on a joint return starting at $40,000, you are talking about the bottom rung of middle income. That is a husband making $20,000 and a wife making $20,000. So it is clear that whether you are looking at lower middle, or lower, or middle income that the bill does not meet the standard that we set for ourselves at the beginning.

Mr. FRENZEL. Mr. Speaker, will the gentleman yield?

Mr. ARCHER. I am happy to yield to the gentleman from Minnesota.

Mr. FRENZEL. Mr. Speaker, I just want to follow up on the point of the gentleman from Illinois. That low income renter who is going to get a $10 a month tax cut and a $40 a month rental increase is also going to have the cost of nearly everything he or she buys increased, because there is a transfer of tax liability from individuals to corporations of roughly $120 billion in this bill, more or less. Corporations, of course, are going to integrate those costs into their price structure. The price of things that that family buys are going to go up.

So, not only is the tax cut going to be dwarfed by the rent increases, it is also going to be dwarfed by the increase of clothing, of food, of school books, of everything, you name it, cars, et cetera.

I thank the gentleman for yielding.

Mr. ARCHER. I yield to the gentleman from Illinois [Mr. CRANE].

Mr. CRANE. I thank the gentleman for yielding further. I focused here on the injury to the people in lower income brackets up through middle income. But to give you another example of inequities, the accounting firm of Arthur Young pointed out that the tax rate for a family of 6 with income between $71,900, and $214,999 would be 33 percent in 1988, while the rate would be only 28 percent for a 6-member family with income over $214,000.

Mr. ARCHER. So the six-member family with $1 million of income is paying a lower marginal rate than those who have under $200,000?

Mr. CRANE. Right, between $71,000 and $214,000 they are in a 33-percent rate with these givens, and yet you go beyond that, and as you say, become a millionaire and you are paying a lower rate.

Mr. ARCHER. If the gentleman will yield back just a minute, I think it is very, very important we reiterate this over and over again. The proponents of this bill cite that it is a two-tiered tax rate, and they claim that is a simplification. Even if it were only two tiers, you would still have to go to the rate schedule to determine which tier you are in, so it really does not matter whether you have two tiers or whether you have 10 or 15 tiers. You find your income level, go to the rate schedule, find out what your tax is. There is no simplification in that.

The reality though is in 1987, under this so-called tax reform bill, there are five tiers of rate differentials with a maximum of 38½ percent. The proponents do not talk about that. It is written into the law. It will be the legal tax rate schedule for 1987.

In 1988, if the bill is not changed before that time, there will be a three-tier rate schedule which will vary depending upon the number of exemptions that you have, and will be extremely difficult for people to understand. But it will have a top marginal rate, as you mentioned, not of 28 percent, but 33 percent. That should be clearly understood by the people of this country. It is not a top marginal rate of 28 percent, no matter what the proponents of the bill say.

Mr. CRANE. If the gentleman will yield further, I think the gentleman's point cannot be stressed enough. In this Arthur Young study they cited yet another example of this.

A couple filing jointly with no dependents and earning more than $71,900 would remain in the 33-percent bracket until their earnings topped $171,090. An individual with no dependents, say, with earnings between $34,150 and $100,000 would be in the 33-percent bracket, and then he would fall back to 28 percent after that, according to this accounting firm calculation.

But it is complicated, as you say. You cannot describe that as a simplification of the code on the one hand.

But it has these built-in inequities that really just confound one when you hear the charge made that this bill conforms to the criteria of fairness, which was one of the important considerations, and simplicity.

Let me add just one other thing, and this is from Stanford economist Michael Boskin, who is an expert on tax legislation. He pointed out that this bill is inherently unstable, and he is predicting tax changes in the future already. But in addition, he said there will be a tremendous technical corrections bill which may change interpretations of the new law even before its effective date.

Then he went on and he said, "In all, the reform plan has been tremendously oversold. The notion that this is simplification," he said, "is ridiculous."

Mr. ARCHER. I think he also commented that the one thing that is certain about this bill, in the midst of all of the other uncertainties, is that it will require a tax repair bill in the next Congress. And if there is something that we should shoot for in taxes in this country, it is certainty, so that people can know where they are going, they can make their plans and not be juggled around from one year to the next with new rules.

We have been having massive tax changes now in 1981, in 1982 and in 1984. Now in 1986 we are talking about this wholesale revision, and in 1987 and 1988 we are going to be making changes again, and that is not what we need in the United States, in my opinion.

I think all of us agree that we are for reform, we are for true reform. We are for the types of things that are not going to make us come back the very next year in order to undo the frailties and the flaws and the inequities in the bill that we pass.

□ 1450

If we send this bill back to the conference committee, we will have a chance to focus on these; it will be more time expended to determine what is in the bill, and we will have a chance that we can have a bill returned that would be true tax reform.

Mr. CRANE. Mr. Speaker, if the gentleman will yield again, the gentleman's pending motion, which will occur on the day of the discussion and debate of the conference report, and as I understand it that now appears to be next Thursday, will come at the end of that debate.

That means that we have 6 days left before this body will render a judgment on something so sweeping in scope and with such portentous possible consequences based upon what the tax experts tell us, based upon what the economists tell us, based upon the various econometric studies that have been run on it, that I think our colleagues would be well-advised to heed the gentleman from Texas' [Mr. ARCHER] appeal for support on his motion that will be proposed at that time to recommit the bill with some guidelines to try and remedy these various obvious flaws and defects in this legislation.

We have waited a long time to arrive at a consensus that our code is Byzantine and too complicated for anyone but the most arcane experts in tax law to understand; that our Tax Code also is grossly unfair when one big corporation a couple of years ago could make $6.5 billion in profits this year and actually get a $283 million tax rebate, and a mom and pop operation is out there paying their fair share of the taxes, and we certainly know that it is not capable of producing the kind of growth that potentially it could when we provide such disincentives in the code to savings and investment, as already exist.

Those colleagues hopefully will have a chance to talk to their constituents over the weekend while they are home, and most of them will be leaving town for their districts; and I think the people back home have based upon reports that have appeared in print, they have a growing perception of the deficiencies and the impact that will be felt by them, and sooner rather than later; and as a result we will have colleagues better prepared to jump on the bandwagon and support my colleagues' motion to recommit when that is presented next Thursday.

Mr. ARCHER. Mr. Speaker, the renowned economist, Alan Greenspan said before the Joint Economic Committee earlier this week that there are at least 20 major problems in this bill. The difficulty is that we do not know what they are.

Perhaps as a result of the colloquy that we are having here on the floor and which we had last night, more of the Members will have an opportunity to perhaps project what some of these problems are; but there are still many others that even we cannot anticipate when you have such a small amount of time to try to examine a bill that is containing the complexities that this bill has within its framework.

An interesting thing is that as the tax accounts tell us, that under the new bill, it will cost twice as much for the same preparation as it did under the current law, and I have had many accountants tell me that, saying, "How am I going to explain to my clients next year that this wonderful tax reform bill is going to cost them twice as much for my fees to prepare their returns?"

Mr. CRANE. And that will not be deductible, either, will it?

Mr. ARCHER. Well, that is the point I was going to make; and that is proof of the complexities.

The interesting thing is that the bill, in the name of fairness, not only increases the cost of preparation but it for the first time denies the deductibility for tax purposes of that cost, as it does many other ligitimate business expenses that people undertake for the purpose of earning income. Legitimate cash expenses for the purpose of earning income which are currently carried as miscellaneous deductions on the return in the current code, will be forced to exceed 2 percent of the adjusted gross income provision.

So the first 2 percent of adjusted gross income will no longer be deductible, and the tax preparer's fee is going to be the first part of what is not deductible under this bill.

I yield to the gentleman from Illinois.

Mr. CRANE. I thank the gentleman for yielding, and would like to comment on another group that is going to be adversely impacted that is hardly one that this is an appropriate time to injure; and that is the people in our farming community.

We all know the tragic plight of the American farmer. He is far and away the most efficient producer that ever walked the face of this Earth, and yet when he puts his efficiency together with God's blessing and is favored with sunshine and rain in the appropriate season, he invariably comes in, as our Illinois farmers will again this year, with an all-time bumper crop.

Sad to say, when that happens it has the effect of pushing the price of his product through the basement; and so even when the farmer succeeds, too often times he does not enjoy the benefits of that success, and that is divorced from the tragic plight of our farmers in the Southeastern States who, because of drought early on this season, had to plow their corn crops under.

Now, because of the uncertainties in the farming community of our income year to year, one of the major reasons for what is called income averaging, when you have a good year and make out very well in contrast to maybe 2 or 3 lean years, you can spread your tax obligation out over several years.

We debated in the conference, when they talked about elimination of income averaging; Well, what about the farmer? We have many farmers in desperate straits right now and there was, I thought, a consensus that we were going to at least exempt the farmer from the elimination of income averaging.

However, Mr. Speaker, to the best of our knowledge, and we could be pleasantly surprised, maybe, if something went on unbeknownst to us, to reinsert the American farmer with regard to this income averaging opportunity, something I do not think we reasonably expect to see.

Income averaging will be gone for the American farmer. In addition to that, you cannot engage in big time farming today without an enormous investment in equipment and machinery, and he is going to lose his investment tax credits, and many of his decisions going several years into the future may well have rested primarily upon the availability of the investment tax credit and the retroactive repeal of that going back to January of this year is one more area where the American farmer is going to be hit.

Then in terms of capital gains, we know that that farmer, if he has been in a fairly modest profit picture, notwithstanding the heavy investment in his equipment and land, that farmer may be pushed from an effective capital gains rate of 15 percent. In this bill he could be pushed from that up to 33 percent.

In other words, a doubling or a trebling of his capital gains tax; and that is one of those areas where a lot of people, as they contemplate leaving the farms, and they have been doing that consistently since the early 1800's, under our current Tax Code that farmer has built up an equity in that farm, and he is not going to see, with the sale of that, such a devastating impact on his ultimate retirement when he leaves the farm.

Mr. ARCHER. I would say further to the gentleman that there are many farmers who bought their land at a very low price, but over the years have been forced to mortgage it for increasing amounts in order to continue to operate.

It may be that they are pressed into a position today that they have got to sell their property in order to pay their loan; or they may be foreclosed on today.

Even in the event of foreclosure, they would be faced with a capital gains tax of significant dimensions because the property would be sold at a value above what they paid for it.

That capital gains hits at a 61-percent increased level, from 20 percent to 33 percent, in a very, very tough way on that type of individual.

Mr. CRANE. Mr. Speaker, will the gentleman elaborate more fully on why, with changes in our treatment of banks, why those banks might be more inclined to foreclose on that family farm than to give that farmer a chance, maybe over a couple of years, to get back on his feet?

Mr. ARCHER. Well, in my opinion, at one of the worst possible times,

when our banking establishment is more fragile since it was in the Depression years, in fact there have been more writeoffs of loans in the last year, since 1936, that do change the provisions in the Tax Code that permits banks to accumulate reserves in anticipation of losses and adds to the stability on which we all depend when we make a deposit of our savings with that bank, to pull out from underneath them the ability to develop those reserves on a tax deductible basis, could not be more untimely.

□ 1500

But in addition the new law would require, if passed, that the only deduction for bad debts that the bank could take was when they actually foreclose. So if that is the only way they can get their tax reduction, there is going to be more pressure on them to quickly foreclose rather than to try to work along with the farmer who is having difficulty making his loan payments to the bank. The pressures will be now toward more expeditious foreclosure in a shorter term.

Mr. CRANE. In short, if the gentleman will yield further, at a time when our farmers are suffering, at a time when we have this very frightening fragility within the banking community, we have chosen to hammer on both of them. And I think in connection with the banks the point the gentleman makes about the number of bad loans being without precedent since 1936, he also is aware that the 100th bank failed this year, just this week, and that we are going to be faced with more bank failures this year than last year and last year set a record since the Great Depression.

The head of the Federal Deposit Insurance Corporation has increased the number of banks totally on his troubled list from 1,150 in January of this year to over 1,400 at the present time. The situation was so critical with just a discussion of this tax bill that Paul Volcker, the head of the Federal Reserve System, made an urgent appeal to the chairman of the Committee on Ways and Means, to at least exempt 20 fairly good-sized banks, mostly in oil patch States, from the application of the loss of this bad debt reserve deduction for fear that we might have 20—and these all would be over $500 million in assets because under $500 million they still enjoy the bad debt reserve. But we are talking of fairly big banks, the possibility of 20 of them going belly up if this kind of exemption of application of this change in the code were not made for them.

Mr. ARCHER. I would say to the gentleman that Mr. Volcker was joined by the President of the United States through his Secretary of the Treasury, Mr. James Baker, in urging the very same thing. But the conference committee paid no heed. And they take this hit at the loan loss reserves of the banks.

Mr. CRANE. There is another area, and it is intimately related, I think, with the plight of banking, and that is the gentleman's home State of Texas, and it is not confined to Texas. It affects Louisiana, Oklahoma, it even affects Illinois. We had a little resurgence in oil production when the price of oil was up there pushing $40 a barrel. But any oil-producing State, the changes in the banking code when there have been extensions more than the ordinary in our other States that are not necessarily oil States, the extension of loans by these banks to the oil and gas industry were quite significant, and that, sad to say, was coincident with the plummeting price of oil and the devastating impact that that has had on the oil and gas industry.

We had, and correct me if I am wrong because you are an expert from down there in an oil State, but my understanding is 4,500 producing wells as recently as 1981——

Mr. ARCHER. Drilling rigs.

Mr. CRANE. I am sorry, drilling rigs. And that number was down to 653 by July of this year.

Mr. ARCHER. That is right.

Mr. CRANE. This is a virtual state of depression, not recession but depression that exists in the oil and gas industry in this country. Under the provisions of this bill at a time when that industry is suffering depression, the tax bill would come forward and add another estimated $10 billion in tax burden on that depressed industry over the next 5 years.

Now, even if one thinks that that is an advisable thing to do, I would suggest that this is bad timing. There are a number of the hints of reform in this tax bill that I, myself, under different circumstances could probably support, but not when you have the kind of fragility that exists in the oil and gas industry, in agriculture, in banking, in building and construction trades. Multifamily units, they are predicting, are going to be cut in half next year.

New construction starts, if this bill becomes law, we have it in heavy manufacturing industry and we choose this time to come in and bash capital-intensive industries which are struggling enough right now to try to remain competitive in world markets. Instead of providing assistance to guaranteeing that, this bill moves in the exact opposite direction.

I think it was an overstatement when we had the Textile Protection Act up to compare it to Smoot-Hawley. That was an exaggeration, to be sure. But with the trade deficit this year going higher than it was last year and at a time when we have a lot of heavy industry that is still struggling—and they have made their calls here to Washington to try to get some dispensations against competition from abroad—we are disadvantaging them in the changes proposed in this Tax Code. And what that could produce next year is a swarm of people from virtually every industry in this country crawling over this body demanding that we put the tariff walls up in this country to protect American industry here at home at the expense of the consumer, but to protect American industry and that in turn could produce something that does bear a marked resemblance to the Smoot-Hawley bill in 1930, which threw the tariff walls up and guaranteed the commencement of that Depression which became worldwide and endured for a decade. And I thank the gentleman for yielding.

Mr. ARCHER. The gentleman has made an outstanding contribution. Certainly the reason for the effort to pass a textile tariff bill or quota bill, the effort of the steel industry to obtain protection is because we are losing jobs. We are losing jobs by the hundreds of thousands to foreign imports. This bill, interestingly enough, has its most adverse impact on those industries that are having the most difficult job competing with foreign imports. They get hit the hardest. The result, as the gentleman has ably pointed out, is that many of them will not be able to survive.

What is important to all Americans and should be to our colleagues here is that means jobs, that means jobs for Americans.

It also means an extra impact in a negative way on the budget deficit because if the jobs are not there and people are laid off, unemployment compensation is going to go up and the Government budget is going to be strained further by paying the unemployment compensation benefits and all the rest of it that is entailed.

It has been contended over the years that a 1-percent increase in unemployment is a $25 billion extra cost to the Federal Government. At a time when our deficits are growing and we are having so much difficulty coping with them, at least getting a majority of both bodies of this Congress to do anything that is adequate, here we are talking about jeopardizing more jobs.

You know, I wish as I look our here that there were more colleagues on the floor today to join in with us and to be able to begin to try to understand what is in this broad based tax reform bill. I can only hope that the printed record which is being transcribed now and which will be available in the CONGRESSIONAL RECORD, will be looked at by all of our colleagues so that the very, very intense information and comprehensive information that we are presenting today, as we did yesterday and the day before, will be carefully studied and

that a judgment can be made on this bill from a knowledgeable standpoint.

I sometimes think that I am cursed as a Member of Congress because I try to read the fine print. Sometimes it is a lot easier not to read the fine print and to just vote on the rhetoric. This is one of those bills where we cannot afford to do that, in my opinion.

I yield to the gentleman from Illinois.

Mr. CRANE. I could not agree more heartily with our distinguished spokesman on the Committee on Ways and Means, the gentleman from Texas [Mr. ARCHER].

I want to reassure everyone of another point, and that is, as witnessed by the presence of our other distinguished colleague from Texas from the other side of the aisle today, and our distinguished colleague on the other side of the aisle from Washington last might who participated in our special order, that this is not a partisan consideration.

The fact of the matter is on both sides of the aisle I know there are many Members troubled by the increased understanding of deficiencies in this bill, who did not have the opportunity for any input into the bill. When the gentleman in the well presents his motion to recommit this bill next Thursday with instructions to address some of these egregious flaws, that will be the only opportunity that our colleagues will have to have had any input. In fact, there was, I must say, precious little input from our side of the aisle in the crafting of it. In fact, increasingly there was precious little input from any number of Members of the House or the other body as the respective cochairmen handled most of the details.

But the opportunity will occur for Members on both sides of the aisle to get behind the motion to recommit that will be submitted by the gentleman in the well and they will then have the opportunity to be able to confirm to their constituents back home that they had a chance to make a difference and they determined to make that difference in a positive way to give this country a code that is truly simplified, is truly fair and is truly calculated to produce growth.

I thank the gentleman for yielding.

Mr. ARCHER. I yield to the gentleman from Minnesota for any closing comments that he may like to make.

Mr. FRENZEL. I thank the gentleman for yielding. I am grateful for the opportunity to participate in this special order to talk about the tax reform bill that will confront this body probably next Thursday. It is a very big bill. It comes highly recommended by the President, the chairmen of our tax writing committees, the press seems infatuated by the bills. All we hear about are its advantages.

I think what the gentleman's special order has done is to present the other side of the coin. To me the coin is much more heavily weighted on the other side. The fact that this bill presents negative growth, it is against capital, it is antisavings, it is tough on manufacturing, tough on export, tough on banking, tough on housing, tough on education, tough on charities, you go right down the list, most of the values that America holds high, most of our economic ambitions are all frustrated by this bill. I am delighted to have participated.

MY ADVICE TO THE PRIVILEGED ORDERS

The SPEAKER pro tempore (Mr. WEISS). Under previous order of the House, the gentleman from Texas [Mr. GONZALEZ] is recognized for 60 minutes.

Mr. GONZALEZ. Mr. Speaker, I rise to remind my colleagues that I have been speaking out on these matters, as today we saw clearly just a few minutes ago, that are so agitating us, at a time when we were not agitated.

I go back to my second year in the House of Representatives, 1963. As a member of the Banking and Currency Committee, as it was then designated, I was very much intrigued by the fact that that year was the first year that under a new chairman, another very distinguished colleague from Texas, Wright Patman, we inaugurated for the first time in committee procedure the 5-minute rule. That is, each member would be recognized for no less than 5 minutes, no matter how lowly he was on the totem pole in that committee.

My first year in 1962, there was no such rule, and the chairman, who was quite up in years, called actually only two committee meetings, full committee meetings of the Committee on Banking and Currency in that 2d session of the 87th Congress in 1962.

So that in 1963 I was very much intrigued by the request of the then Secretary of the Treasury, one of those who were in the Kennedy Cabinet known as the bipartisan Cabinet. You will remember President Kennedy had two of the most powerful members of his Cabinet that were members of the Republican Party, his Secretary of Defense McNamara and his Secretary of the Treasury, Mr. Dillon.

□ 1515

Mr. Dillion appeared before our committee and was appearing on behalf of the repeal of the silver transactions tax.

I was sitting and listening to the very informative discussion a few minutes ago by my colleagues with respect to the tax dilemma, and I could not help but think and rethink and go back over the trail, mentally speaking, going back to that discussion on the silver transaction tax and the repeal of it.

First, I know that the silver transaction tax was a wartime-imposed tax. I remembered that the private ownership of gold, for instance, in 1932, in an attempt to resolve then the terrible financial dilemma that the country faced and the closing of all of the national banks, and part of the package of laws that were passed under emergency situations, included the limitation of the purchase by private American citizens of gold, and the reason, of course, goes to the rather complicated history. But essentially what it meant was the banks had taken their depositors' money and had set it up to the New York investment stock speculative markets in the middle and late twenties who, in turn, invested in what was then the high-yields, and those were the Government bonds of some countries that do not even exist any longer, but who as of today's "developing countries" would never had had the means of paying off those loans.

But among the recipients of the benefits of the credit that they derived was the Japanese Imperial Government. Interestingly enough, in 1921 they floated 20-year bonds to mature in 1941 and, of course, we got the payment at Pearl Harbor.

The German Government, through the brilliant wizard, Hjalmar Schacht, who also had dual citizens—he was an American when he was here. He spent quite a bit of time in Wisconsin and was also a Wall Street international financier. He was also a German citizen. If he ever set foot in Germany, he was a German citizen. He turned out to be the great Hitler financial wizard. It was his idea that today, ironically, has been reinstituted on this question of world trade and international finance. Of course, the whole object was for the debtor nations, and the only creditor nation in World War I was the United States, to get away, of course, in Germany's case, the prostration of the imposed harsh terms of the Versailles Treaty, which imposed onerous reparations on the German people, and, of course, later became the basis in fact for the rise of such a monstrous development as the Hitlerian era.

We are living through an equivalent period of time, and have been since about the sixties or the middle sixties.

I spoke first when Mr. Dillon came before us, and I had my 5 minutes, when I asked him, "Why are you now seeking the outright repeal of the silver transactions tax, which was a war-imposed tax?"

He said, "Because, as I have explained before, the commercial demand for silver is so great that our use of silver"—that is we were then monetizing our currency with both

gold and silver—he said, "We will not be able to maintain the very, very tradition of monetized coinage or currency and, besides that, the commercial enterprises are hard put because of the development of electronics and photography, the use of silver has just simply risen exponentially.

I said, "Well, but then is that not the reason why you imposed the silver transaction tax to begin with during war?"

He blinked his eyes. He said, "I'm afraid I don't understand your question. What are you driving at?"

I said, "The real reason, as I understand my history, for the imposition of the silver transaction tax as well as other what we call control laws during war was to, one, control speculation and war profiteering and the like."

He said, "Well, yes, but the war is over with."

I said, "But not the conditions that existed during war and continue in what we call times of peace."

Then I remember that I think I spoke a little too much when I said, "You know, I don't believe that we have terminated World War II. There is no peace treaty."

I will say that again tonight. I think we in the United States forget that there really is not any termination of a formal nature in the way of a peace treaty to World War II. We have over 300,000 troops in Germany alone, and the sequel of the Korean war causes us to maintain 45,000 in Korea in a very volatile situation. All of those imply international financial transactions that impact on what we like to say is our American standard of living.

So my 5 minutes were up and I asked unanimous consent that I ask Mr. Dillon in writing at a subsequent date for the questions. One of those additional questions was, "What are you prepared to do if we repeal the transaction tax on silver to obviously control what will be a speculative market?"

When I finally got the printed copy of the proceedings with the reply, I had no reply.

The truth is that that is today one of the most highly speculative areas of endeavor in the world, as is the gold market.

In January 1976 the United States actually allowed for what we call the private holding of gold by individual citizens without any protection. I alone in the subcommittee and in the Banking Committee resisted the repeal of the 1932 act with respect to gold on the basis that, at the time the act was placed, there were at least some limitations in law on speculating in gold. Those were all going to be repealed.

The only thing I had again was the first time that the Chairman of the Federal Reserve Board called me and asked me to have breakfast with him. That was the first time. He said, "You know, you are right. However, we are committed to having private ownership. We have reached an era in the world's development where demonetization of currencies is the thing. The world never has produced enough gold to make it a practical or a feasible medium. And the truth of the matter is that the dollar is still and will continue to be into the indefinite future the international basic unit of exchange."

Then I remembered what I had been told in 1963, when Mr. Dillon said in answer to the last question that the chairman and the unanimous consent allowed me to.

I said, "Well, if the repeal does not resolve the reduced nature of the silver market and the supply, and you have this continuing, how long do you think it will be before it will impact on us to the point where we will have to remove silver and gold from our currency?"

He said, "Oh, not until the foreseeable future."

□ 1525

That was April 1963. Exactly 2 years later in 1965 in April they came back to ask us to demonetize our currency and we did. If you will look, if you still have any coins, even a dime that is dated 1964 you might hold onto it; it has some silver content. After 1965, we had what we call the copper clads, and this is the reason for it.

Emerson says that when the Treasury is empty or broke and has no gold it resorts to paper. Well, of course, that has always been true. More importantly, the main thing involved as I see it and continues to be the issue is that at no time since 1923 have the Congress nor the executive branch of the Government actually functioned as it was contemplated initially in the version approved by the Congress of the Federal Reserve Board Act of 1913.

This is further complicated by the fact that we are talking about a subject matter as the gentlemen a few minutes ago were talking about the complications of a tax measure, but that does not mean that they are so esoteric, that they are so involved or complicated that an average citizen does not have an idea what is going on. They may not know all of the jargon involved but they know when they have been rooked.

The truth of the matter is that going back to that early 1960 period, then the first credit crunch on June the 19th, 1966, which was the first time in the history of our country, something that did not even happen during the height of the Civil War, the financial institutions, the main ones, overnight jacked up the prime interest rate by 1 percent.

Now, the prime interest rate as was defined on June the 19th, 1966, is not the same prime interest rate as defined today in 1986. We will not go into that because I know that by then everybody among my colleagues will be thoroughly confused.

The main thing is that, as Louis Carroll says in "Alice in Wonderland," "The issue is not the words; the issue is who has the power."

What we have done in our country is to turn over the power to those interests that from time immemorial, unrestrained, and who could be the restraining hand? Only the Government as chosen by the people to look out for its interests could be that restraining force. Only the absence of the restraining force has allowed such entities as the Federal Reserve Board, which is not a Federal agency, it does not even have an Inspector General. They fight us tooth and nail whenever we introduce any measure calling for an audit or what I would call an independent audit. They say they have an audit; they do not have any IG. They have had scandals; they can get away with it.

So I find it hard to get excited when the same people that have refused to want to look at that come in and vote for the 1981 Reagan recovery tax bill. That is what they called it. The economic recovery and reform tax bill of 1981. That was the one that Mr. Reagan said had to pass, and it did, with the help of enough so-called members of the majority party and a solid backup vote on the part of the minority Members of the House.

Today, for those same voices who voted for that bill to decry the fact that you have billion-dollar corporations that are not only not paying any taxes, meaning income taxes, but are deriving over $250, $300 million in tax benefits in that. That law made it possible for them to buy the tax credits from lesser corporations that they can do anything with.

What we are witnessing in the United States, sadly, is the passage of control from the people through their elected Representatives, be they in the legislative branch or in the executive branch, their total inability to control, even in a minimal way, those who now have arrogated to themselves the power to dictate the destinies of our country insofar as fiscal, monetary or generally economic matters are concerned. That means standard of living for America.

Why is that? Because those oligarchical interests in our country, megabank corporations, they may be based in the United States, but they do not have any allegiance to the United States. Their allegiance is to the profit, and if they can make profit speculating against the dollar as all of them have, since we went on a floating

exchange basis in 1971 when Mr. Nixon devalued the dollar and took us off the Gold Exchange System. I did not hear too much outcry. In fact, there was not one newspaper in our country that defined it as a devaluation of the dollar. Not in 1971, when we had the second devaluation. We called it that because then we had to pass a resolution that emanated from the Banking Committee. I think I was about the lone one that voted "no," but I gave my reasons then.

What we are seeing today is the ultimate consequences of a debauchery based on inordinate greed because all through history, as I started to say a while ago, these forces, wherever they have existed, in any country under any clime, are never satiated. They are insatiable. The more they have, the more they want. These are these powerful, oligarchical, financing banking institutions. Our corporate structure is so interconnected today, or they use the words in banking jargon, "interlocked," that it is all one, little pinnacle of oligarchical control that is ruling, totally for the first time, the dictates of the policies that we say should emanate from the Congress. The national policymaking body. The representatives of the people. Together with the President. After all, the Constitution does give the President certain legislative prerogatives. He comes before us; he has the power to submit bills to the Congress. He does. That is the way it ought to be.

But the Federal Reserve Board has run amok. It accounts to nobody. Certainly nobody on Earth. We all, I am sure, ultimately are accountable to the God almighty, but I do not see any avenging angel coming down from heaven to rule the Federal Reserve roost. Rather, they have become more powerful. But, as all such entities, as all such groups of men, they can meet their match. Then we can see for ourselves the suffering entailed to our entire Nation, which is what is happening to us. Whether it is in the farm area: whether it is in the Rust Belt area. Remember that these crises have come to us piecemeal. I can remember over 10 years ago, 14 years ago, a distinguished Member from Pennsylvania, John Dent, taking this floor, speaking day after day and certainly there was no TV coverage; nobody could accuse him of talking to a TV audience.

He was saying, "We have been sold out. My area will see blight. It will see unemployment."

□ 1535

"It will see the producing center of our community dormant, idle, nonproducing." I believe that the most unfortunate thing of all, as reported in today's newspaper, is the President of the United States going down to a southern State, Louisiana, and instead of saying, "I promised you leadership to resolve these problems," the headlines say that he blames the Democrats.

I do not think the article said Jimmy Carter any longer. Finally, after some 6 years, he has left poor old Jimmy Carter alone, but for 4 years, 5 years after he had the power, he was still blaming Jimmy Carter for everything. I think that is tragic because, as the distinguished colleagues who were discussing the tax issue just before me said, these are bipartisan problems. They affect us all. They are not susceptible to partisan solution. But they are, of course, susceptible to solution.

The pathetic thing is that not all of us can say that we were sucked in from the beginning, beginning, as I said, in 1963. Mr. Dillon did not get my vote. Unfortunately, what I felt in my bones turned out to be right. He did not get my vote later.

Mr. Bill Simon, the Secretary of the Treasury when he pushed for a return to the private ownership of gold with no restrictions, no reenactment of the laws that had restrained somewhat, and again that was the second time I was called to have breakfast by the then Chairman of the Federal Reserve Board who said, "Well, I will agree with you to this extent: that we have got to have some controls" What he meant was on the banks.

In the meanwhile, a Senator, still in the Senate from Carolina, put in a provision in a bill that was not germane, but it had to be passed, and this was just about a year after 1976, so it must have been 1977, which provides for gold indexing of contracts.

You say, what is that? What that meant was that it threw all of our international transactions in competition with countries that had never accepted demonetization, such as France. Let me point out by way of parenthesis that about two-thirds of the treasure that we sank in Vietnam—and I used to say this and I was not shouting it because I did not want to join those that were adding to the cacophony, raising their fists and saying, "Hey, hey, LBJ, how many babies have you killed today?" I did not think that added to anything. I was critical. I tried to control my criticism. I tried to be constructive, but I used to say to some of his advisers, and it angered them, I think we can do more good and I think history will show if we were to get that $30 billion figure, which reached $30 billion in 1965, that you are putting in Vietnam and just convert it to dollar bills, put it into C130's or C5A's, pull our boys out and then just throw all our money out there and we will get more good from that than what we are doing.

Mr. BEREUTER. Mr. Speaker, will the gentleman yield?

Mr. GONZALEZ. I am delighted to yield to the gentleman from Nebraska.

Mr. BEREUTER. Mr. Speaker, while the gentleman from Texas confers with the gentleman from Maryland [Mr. HOYER], I just wanted to say that I want to commend the gentleman from Texas for his continued effort to inform his colleagues here on the floor to establish a record on this important set of events that has taken place.

The gentleman and I do not always agree but I always appreciate the candor and the ability that he brings to his speeches.

I want to thank the gentleman for his continuing efforts to educate this House and also the American people.

Mr. GONZALEZ. Mr. Speaker, I deeply thank the gentleman from Nebraska [Mr. BEREUTER], who serves on the same committee with me, the Committee on Banking, Finance, and Urban Affairs, and who comes from an area that has been very hard hit, but which has been the wonder of the world in food and fiber production. The fact is that it is a sorry, sorry confession to make that just in the last year, or little bit more, for the first time, we are importing more food into the United States than that which we are exporting. In other words, our economy has been reversed.

We are also, unlike World War I and World War II, now the biggest debtor in the world. That had not happened since 1914 when Teddy Roosevelt decided to build the Panama Canal. We did not have the credit resources. We had to go to Paris, France, and borrow $40 million; $40 million then was like a billion today. $40 million from the French bankers, the traditional gold-holders, if not gold-hoarders.

France has never, never said we no longer consider gold as a main basis of a reserve. So what I am coming up to, and I wanted to round out because I think we ought to know this, if we are going to resolve the problem of the farmer; if we are going to resolve the problem of the laborer in our production belt, and instead of a rust belt, make it a gold buckle belt; if we are going to resolve the problem of the standard of living which has deteriorated in America for all, but particularly the dangerous trend where we are developing a class system like in Europe, a proletariat and these regressive tax bills, the most regressive of all being in 1971 because it gave away $755 billion. This year, at the beginning of this year, we reached that $700 billion giveaway. To whom? By taking off that tax burden from the richest individuals, the richest corporations. We sank our country in a monstrous debt, never before a sum quite by any country or combination of any countries in the world.

In the meanwhile, in Europe, whether you take the 6, what they call the Group of 6 or the Group of 10, they have developed, as I have said here,

several years, going back to 1979, when they first unveiled it, that we are confronted with the gravest threat to our creditor standing in the history of our Nation, even when we were a colony.

In fact, the revolution was fought basically for that purpose, so that the Americans in the new world would determine their destinies through the allocation of credit resources and not somebody in England who said, "No matter how good you can manufacture cloth in Philadelphia, you cannot manufacture. You send us the raw goods; we will manufacture them in Leeds and Manchester and we will send them back to you."

That was the merchantile system. It is a travesty. It is a shame. It is a sin that when we are about and have not quite reached the 200th anniversary of our form of government, that will not be until 1989, that we would have been put in this debased situation of a reverse merchantile system where we are no longer a producing nation; we are a consuming nation, and the President boasts of his economic recovery, all of which is based on an illusion because it is based on borrowed money. What is worse; it is borrowed foreign money, which is fickle and certainly not consecrated to the greatest interest of the greatest number in America.

What has happened here more immediately that has gone completely unnoticed, as far as I know, my voice is the only in either House that has mentioned the ECU, the European Currency Unit, the EMS, the European Monetary System. The whole purpose of that is to supplant the dollar as the international unit of currency.

□ 1545

They have started in a big way as of the beginning of this year. They put it in place 1 month before Mr. Reagan went to Germany on May 1, 1985; but all we read about was his trip to the German cemetery to honor foreign Nazis; but you did not read the real thing and that was that these ministers finally gave an accomplished fact to Mr. Reagan's—whoever he took, the Secretary of the Treasury or whoever else, and that is because in Palermo, Italy, exactly 1 month before in April, the finance ministers from these European countries met there and finally fleshed out the European currency unit, the European monetary system.

Why? Because between the 6, and much more with the 10, their gold holdings as reserves exceeded what we had by way of gold.

The Secretary of the Treasury, Mr. Simon, told me in January 1976, he said, "We are even going to sell it, Henry. We are going to even sell it."

I said, "But how can you do that? It is going to end up in the vaults of the bank of France."

He said, "No, we are going to limit the bids to 9 central banks."

I could not believe it. What was to prevent a proxy from putting the bid behind it and it ended up in the vaults of France, anyway.

This is what I said to the advisers of a good friend, President Johnson. He did not know much about international finance. He was not arrogant, either. He admitted to it. I was saying that, well, two-thirds of your money is going in the form of gold into France, because French Indochina even to this day has far more cultural ties, industrial ties and commercial ties, than with any other country.

Unfortunately, we have failed to understand that. We have reached the point, though, where now we are in a dog-eat-dog quandary. There huge mastadon institutions that are fearing bankruptcies are doing everything they can, thrashing about, trying to swallow each other up.

I cannot feel very much indignation for some poor guy that in the mistaken belief that he can save his little bank by investing in a speculative venture is found guilty of violating the SEC laws and is put in jail.

We come back to what the English people going through similar times, except perhaps on a different scale, but comparatively the same would say, "The law locks up both man and woman who steal the goose from off the common, but lets the greater felon loose who steals the common from the goose."

Mr. Speaker, at this point I place into the RECORD two articles that appeared in today's New York Times, Friday, September 19. One of them is entitled "Sharp Drop in Dollar's Value Fails to Cut U.S. Trade Deficit," and the second one in section D, page D-1, "Dollar Off After Baker Comments."

The articles are as follows:

[From the New York Times, Sept. 19, 1986]

SHARP DROP IN DOLLAR'S VALUE FAILS TO CUT U.S. TRADE DEFICIT

(By Clyde H. Farnsworth)

WASHINGTON.—A year ago the five major industrial powers forged a historic compact to drive down the value of the dollar in hopes of easing a crushing trade imbalance.

The drop in the dollar has been stunning. Since the meeting of the five nations last Sept. 22 at the Plaza Hotel in New York, the dollar has plunged 55 percent in value against the yen and 40 percent against the West German mark.

But the broader objectives of correcting trade flows and reinforcing international cooperation have proved stubbornly elusive.

ANOTHER RECESSION IS FEARED

The United States faces a trade deficit approaching $200 billion this year—up sharply from $148.5 billion in 1985—along with a rising clamor for protectionism and increasing strife with its leading trading partners over their reluctance to spur economic growth.

"Deep fissures in the world economy" have appeared, Paul A. Volcker, chairman of the Federal Reserve Board, told a gathering in Venice last month.

Things are so serious that some economists are warning that if the rest of the world does not grow fast enough to buy more American products, the United States will stumble into another recession. And a slowing of the American economy, in turn, would likely choke off demand for foreign goods, thus touching off a dangerous downward spiral throughout the world.

"Frankly, I'm very worried about the recessionary danger," said Rimmer de Vries, senior vice president of the Morgan Guaranty Trust Company. "We're not getting the growth abroad."

Robert D. Hormats, a former senior Reagan Administration economic official and now an investment banker with Goldman, Sachs & Co. said, "I think we must call a Plaza II meeting to deal with the trade imbalances that are threatening economic disaster."

Plaza I, the secretly convened Sunday gathering a year ago that produced the agreement to lower the dollar's value, was born out of the huge and prolonged rise in the currency from mid-1980 until February 1985, the largest such movement in history.

U.S. TRADE AFFECTED

By lifting prices of exports and lowering prices of imports, the inflated dollar undermined American international competitiveness.

The Plaza participants—the United States, Japan, Britain, France and West Germany—reasoned that deflating the dollar would help put world trade back in balance, setting the stage for more stable and consistent growth. But economists say several factors deprived the accord of its expected results.

The concentration of the monetary changes on too small a cluster of currencies, leaving out several of the United States' most important trading partners.

The preference of many foreign companies to reduce profits or even take losses rather than cede market share in the United States.

The reluctance of West Germany and Japan to spur economic growth, which would enhance American export opportunities, for fear of renewed inflation.

The immediate perverse effect in all devaluations. The trade deficit at first widens because, with the lower value of the dollar, imports come in at a higher value. It is only later that higher prices curb their volume.

The erosion of the American agricultural trade balance because of foreign subsidies and a global grain surplus.

The growing pressure on debtor countries to use their export earnings to pay interest to banks on their foreign debt instead of buying goods from the United States and other industrial countries.

NEW TALKS SEPT. 26

Finance ministers from the five countries involved in the Plaza accord customarily meet several times a year. They conferred at the economic summit conference last May in Tokyo and at the Interim Committee meeting of the International Monetary Fund last April.

The question of the trade imbalances is certain to arise at a session they are tentatively scheduled to hold in Washington on Sept. 26, on the eve of the annual meeting of the International Monetary Fund and the World Bank. This session of the finance ministers could conceivably lead to some fresh monetary decisions affecting trade.

Meanwhile, major trading nations are locked in tough debate in Punta del Este,

Uruguay, over the shape of a future trading system that could open up markets for the United States in data transmission, insurance and other services in which the American economy has special strength.

PROFITS AND JOBS AFFECTED

Although the dollar began to ease in early 1985, Treasury Secretary James A. Baker 3d invited his counterparts from West Germany, Japan, Britain and France to New York last September to hasten the process.

Mr. Baker's action came in response to enormous pressure from American business and labor whose profits and jobs were being hurt by the high dollar.

It marked the reversal of an earlier policy of benign neglect, in which Washington did little to influence the dollar's market movements. Yet the dollar may have been primed to move in any case, as some economists have noted.

"The market was ready for a change, ready, we may say, with the benefit of hindsight, to prick the speculative bubble that in 1984 developed and pushed the dollar to its excessive high," Gottfried Haberler, resident scholar of the American Enterprise Institute, wrote in the recent paper.

AN IMPLICIT THREAT

In the Plaza accord, which spoke of closer cooperation to "encourage" a weaker dollar, was the implicit threat of dollar sales from government treasuries. Market operators took note and sold dollars more quickly than they might have otherwise.

But the plan to push the dollar lower relative to the currencies of the other four participants had a flaw that did not become apparent until months after the meeting. The currencies of other important trading partners did not rise with those of the Plaza countries. Indeed, about half of American trade by volume is with countries whose currencies have stayed flat or even declined against the dollar.

Against both the peso of Mexico, this country's third-most-important trading partner, after Canada and Japan, and the cruzeiro of Brazil, which is No. 12, the dollar is now sharply higher.

The Canadian dollar is still below the level of last Sept. 22, at the time of the Plaza meeting. South Korea's currency, the won, moves with the dollar. Taiwan's dollar has appreciated a modest 10 percent.

All these countries have built large trade surpluses with the United States.

CURRENCY SHIFTS SOUGHT

Mindful of the devaluation gap, American negotiators are now seeking discussions with a number of these countries to increase the value of their currencies, Commerce Secretary Malcolm Baldrige told Congress earlier this month. He singled out the Canadian dollar as a currency that should be stronger.

The Federal Reserve Board's "Trade-weighted U.S. Dollar Index" has fallen more than 30 percent from its peak in February 1985. But because of the exclusion of Mexico, Brazil, Taiwan, South Korea, Hong Kong and others from this indicator, the decline is exaggerated, many economists say.

Steve H. Hanke, a professor of economics at Johns Hopkins and chief economist of Friedberg Commodities Management Inc. of Chicago, placed the dollar's real fall at "6 to 7 percent" on the border trade-weighted basis.

While ushering in some new currency talks, the Plaza agreement also set off what some are calling "the war of the growth rates."

Underlying the accord was the pledge of the five countries to more closely coordinate their economic policies. Each participant outlined intentions to provide "a more balanced expansion with low inflation."

The United States said it would "implement fully" a budget deficit reduction package. West Germany promised "vigorous, job-creating growth in the context of stable prices and low interest rates." Japan said it would increase private consumption and investment and provide a "progrowth environment for the private sector"

The zenith of cooperation was reached last March when coordinated policies led to interest rate cuts by the United States, West Germany and Japan. In the United States there have now been four successive cuts in the Federal Reserve discount rate, which stands at 5½ percent, the lowest level since 1977.

CHARGES TRADED

But in recent months there have been mutual recriminations as the United States has stepped up pressure on West Germany and Japan to increase economic growth, while those countries have criticized the United States for laxity in reducing its budget deficit.

To try to get its way, the United States has been using the dollar as a kind of monetary battering ram, some analysis say.

Mr. Baker and Mr. Volcker have warned both Bonn and Tokyo that Washington might be forced to let the dollar fall even more against the mark and the yen if those countries did not cut their interest rates further or take other steps to increase growth.

[On Wednesday, West German and Japanese central bankers reiterated earlier statement that they did not expect to cut their interest rates. In reaction, Mr. Baker again said that the dollar might need to decline further. On Thursday, the currency fell below two marks to the dollar, the lowest point in five years.]

By raising export prices, the higher mark and yen tend to have a depressing effect on the German and Japanese economies.

Yet both countries are afraid of stoking the fires of inflation, which they say could result from greater economic stimulus.

This view finds strong political support, especially in West Germany, which fears inflation more than most countries because of the hyperinflation of the 1920's that helped to usher in the Hitler era.

"The financial markets are betting on renewed inflation," said David M. Jones, senior vice president of Aubrey G. Lanston & Company, government bond dealers in Wall Street. "If there's a choice between world recession and world inflation, the markets are saying we'll choose inflation."

[From the Washington Post, Sept. 18, 1986]

DOLLAR OFF AFTER BAKER COMMENTS

(By James Sterngold)

The dollar dropped sharply yesterday after Treasury Secretary James A. Baker 3d was quoted as saying that it might have to come down to help reduce America's trade deficit.

Currency traders described the foreign exchange market as hectic, with the Bank of France and the Bank of England reportedly having intervened briefly to steady their currencies.

"In my opinion, the markets were disorderly; the dollar would gap up, then for some reason gap down," said Albert Soria, manager of foreign exchange trading at the Swiss Bank Corporation in New York. "There was tremendous volume and it was almost a one-way street."

But the broader fear was that using the dollar as a tool in an international disagreement over the United States' yawning trade deficit might unleash forces that might prove uncontrollable.

"A very significant thing happened today," said John Prout, a senior vice president and head of currency options trading at Donaldson, Lufkin & Jenrette. "The dollar is being used as a political weapon. The danger is what happens if they push it down, and then can't stop it?"

In the credit markets, prices on Treasury securities fell, partly in response to Mr. Baker's comments, which traders said would discourage foreign buying of Treasury securities. For foreign investors, a drop in the value of the dollar erodes the value of dollar-based securities.

DOLLAR LOWEST SINCE '81

Against the mark, the dollar hit its lowest level since early 1981, crashing through the two mark barrier. Several traders said that it was largely a strong mark, rather than a weak dollar, that drove trading. Late yesterday in New York, the dollar was quoted at 1,9875 marks, down from 2,0250 marks on Wednesday. The dollar also fell to 153,465 Japanese yen, down from 154.95 on Wednesday.

The British pound was also weaker, because of concerns over oil prices and the British economy, traders said.

The sudden flurry of dollar selling was set off by a warning by Mr. Baker that if West Germany and Japan continued to resist American pressures to lower their interest rates and thus stimulate their economies, the United States would have to push the dollar's value lower as an alternative means of reducing the huge American trade deficit.

"As we have indicated in the past, unless there are additional measures to promote higher growth abroad, there will need to be further exchange rate changes to reduce trade imbalances," Mr. Baker said in an interview with Reuters.

"We would really prefer not to have to rely on exchange-rate adjustments alone to remedy trade imbalances, but clearly the current trade deficit cannot be allowed to continue indefinitely," he added.

The comments were first published late Wednesday and circulated around the world, and they followed remarks from senior Japanese and West German officials that they would not cut their interest rates.

Traders immediately began to sell dollars for marks and other currencies, beginning in Japan early yesterday and extending through the European trading day and also in New York yesterday.

SOWING GRAPES OF WRATH WITH FEDERAL EMPLOYEES

The SPEAKER pro tempore (Mr. GONZALEZ). Under a previous order of the House, the gentleman from Maryland [Mr. HOYER] is recognized for 60 minutes.

Mr. HOYER. Mr. Speaker, I have taken this hour to speak on a subject that has been previously addressed on the floor of the House today by Congressman FRANK WOLF. He dealt exclusively with the 3-year provision of the tax bill which is going to adversely affect retirees from the State, county,

municipal governments, and Federal employees, as well as those who contribute to their pensions in the private sector. I am going to speak more broadly today, Mr. Speaker, on the issue of the current situation as it relates to the pay and benefits of Federal employees.

Mr. Speaker, I rise today to bring to the attention of the House a few of the many serious concerns which exist among the Nation's 3,065,000 Federal work force.

They are, Mr. Speaker, disillusioned and demoralized. They no longer possess, for the most part, the basic trust which is essential to successful employee-employer relations. They are uncertain as to their future and are increasingly choosing to leave Federal service for the pay, benefits, and basic respect they see their counterparts in the private sector enjoying.

And who can blame them, Mr. Speaker? They have continually faced an annual assault by the President proposing to reduce their benefits. Recently they have suffered under the desperate attempts of the Congress to reduce the deficit. We have frozen their pay, threatened their retirement system, and robbed retirees of their cost of living adjustments.

Mr. Speaker, I suggest that we are sowing the grapes of wrath. The civil service is finding it harder and harder to retain quality workers. When they leave, we cannot attract replacements. Young people who once thrilled at the chance to serve their country no longer see the civil service as a viable career path. We cannot, we must not continue along this path.

Mr. Speaker, let me review the situation as it relates to pay. As we are all aware, the President in his fiscal year 1987 budget request recommended a 3-percent pay adjustment for Federal employees. At the same time, however, he recommended an increase in employees' contributions to the retirement system of 2 percent, yielding a real increase that the President proposed of a 1-percent increase in pay.

Last year, as my colleagues recall, the President proposed a 5-percent cut in pay and we responded by freezing Federal pay rates, providing no comparability adjustment for the current year. What we ignored in doing so was that the employment cost index, for all employees throughout the Nation, which measures the increase in wage and salary increases, rose last year 4.7 percent.

This year the Advisory Committee on Federal Pay recommended to the President a comparability increase again based on the increase in the employment cost index, which was 4.2 percent. Again, I stress that that employee cost index was across the board for all private sector employment.

The Advisory Committee did not include any catch-up for last year's 4.7-percent shortfall in their recommendation. Instead, they only suggested a 4-percent increase, ranging from 3 to 5 percent for GS-13's and above. This is significant, because once again Federal employees are allowed to fall further and further behind compared to pay rates in the private sector.

In fact, the Advisory Committee totally ignored the report of the President's Pay Agent, which specified the average increase necessary to make Federal pay rates comparable with private rates. That adjustment, the Pay Agent said, would have to be 23.79 percent. This is because since 1981 the private sector average wage increase has totaled 40.2 percent; that is to say since 1981 private sector employees have increased their salaries by some 40 percent, while Federal pay raises have only increased a total of 16 percent, a disparity of more than 2 to 1.

Significantly, this year in an attempt to make the comparison between private and public pay rates more stringent, the Pay Agent expanded their survey to include establishments with 50 or more employees, which increased the survey from 43,000 establishments to 156,000 establishments for purposes of comparing Federal pay rates with private sector pay rates.

Mr. Speaker, this is significant, because the former Director of the Office of Personnel Management continually asserted that there was not a fair comparison being made between the private sector and the Federal sector, and as a result, he argued, there was a bad percentage figure from the Department of Labor for the difference between private sector and public sector pay.

I argued against it. I suggested that he come up with a new system. In fact, the Office of Personnel Management came up with a new system. The survey was expanded. The figures, however, Mr. Speaker, have not gotten better. The result of this expansion, which it was hoped would significantly reduce the private-public pay gap was to reduce the void between private and Federal pay rates from 23.89 percent to 23.79 percent. In other words, the only difference was approximately one-tenth of 1 percent in terms of the wide gap that exists between Federal and private sector pay rates.

This 23.79-percent gap is all too real to Federal employees and it is the result of the past 8 years' decisions not to implement the full comparability increase. In other words, not to follow the law as was contemplated in the early 1970's. It is a gap which is making it harder and harder to retain quality workers and attract quality new hires into the Federal civil service.

Mr. Speaker, David Packard, chairman of the board of Hewlett-Packard and one of the outstanding private sector leaders in this country, highlighted this point and stated it in testimony before the House Subcommittee on Compensation and Employees' Benefits.

I might point out again that Hewlett-Packard is considered one of the quality places to work in this country because its employees are treated so well and its benefits are good.

Mr. Packard said—now this is not, Mr. Speaker, a leader of a Federal employee union. This is not a disgruntled Federal employee. This is not the spouse or the family of a Federal employee complaining about wages. This is David Packard, a leader in private industry, a person who has shown through the leadership of his own company and ability to assess his own employees and their work. He says this:

> The pay disparity between government and industry began to grow with the last cycle of inflation, when increases in federal salaries failed to keep pace.

He went on to say:

> Not only are federal salaries noncompetitive—

Let me reiterate that. It is well that the President of the United States, the chief employer, the leader of the executive department, take heed to Mr. Packard's words when he says:

> Not only are federal salaries noncompetitive, but fringe benefits are eroding as well. Although the federal pension plan is still relatively generous, it has been affected by recent budget cuts and is often matched or exceeded in the private sector. Federal health and life insurance provisions and annual and sick leave allowances are far less generous than those offered by many private companies and universities.

Again, Mr. Speaker, that is a leader in private industry, not a public sector advocate.

Since 1950, Mr. Speaker, the Federal civilian payroll as a percentage of budget outlays has fallen from 15.7 percent to only 7.8 percent. The percentage of Federal civilian employees as a part of the labor force has also fallen from 3.34 percent in 1950 to 2.54 percent in 1983. I can assure this body that we have not reduced, however, Federal services by an equal amount. In fact, this Congress has placed more and more demands on our Federal work force, expecting them to enforce our trade quotas, stop the flow of drugs on our streets, and collect the revenues we need to function. We continually expect more for less, and pay less and less.

In fact, in freezing Federal salaries last year, we inflicted damages far beyond the failure to allow a working wage. When you freeze salaries, the retiree's 3 highest year's income is also reduced, and the annuity which is determined based on these 3 years is also therefore lost. The average employee retiring this year will lose $2,772 over

the next 10 years of his or her annuity because of this effect.

□ 1600

If we were to factor in the loss that the employee has incurred because of the failure of his or her pay to keep pace with the CPI over the past 10 years, the loss in the next 10 years of annuity payments would equal $36,378.

Essentially what that means is that as a result of the failure of this Government to meet its commitment to its employees, the retirees over the next 10 years will suffer a loss of what they had a right to expect of $36,378.

I am particularly distressed, and Federal employees are outraged, when the President ignores the Pay Agent's reported pay gap of 23.79 percent, and ignores the Advisory Commission's recommendation of a small fraction of that, 4 percent, and ignores the congressional budget allowance for a 3-percent pay increase, and instead, Mr. Speaker, the President recently recommended only a 2-percent comparability adjustment.

Mr. Speaker, you will recall that I brought to the attention of the House and of our audience that there was no pay raise last year. That means that Federal employees would have received, if we adopted the President's suggestion, a 1-percent pay raise per year over the last 2 years. This 2-percent increase ignores the increase in health-benefit premiums which will be required of employees this year.

On average, employee premiums in nationwide health plans will increase by $225.50. About 90 percent of all Federal employees belong to these types of plans. Yet if we consider a 2-percent raise for a GS-4, it equals an increase of $257.50, yielding an increase in salary of only $32 for a 12-month period after you subtract the increased health premium. For a GS-9, a 2-percent raise equals $436, yielding a $210 raise over a 4-year period.

Yesterday, Mr. Speaker, I offered, and the full Committee on Appropriations accepted, an amendment which would provide Federal civilian and military employees a 3-percent comparability adjustment for fiscal year 1987. This amendment is identical to that already adopted by both Houses in the budget, and it is consistent with the authorization bill of the House Committee on Armed Services.

Federal employees have given enough. They have sustained more than their fair share of the burden of deficit reduction. Last year they surrendered their pay raise altogether and fell further behind.

If we were to be fair, this House would adopt the Advisory Commission's recommendation of 4.2 percent—a minimal figure, but a fair one—so that at the very least they could keep pace with this year's private-sector increase.

To be totally fair, of course, we should restore last year's ECI increase of 4.7 percent as well, but I do not expect that, and Federal employees do not expect it. We only ask that this House provide what is already recommended in the budget, which is a 3-percent comparability adjustment for fiscal year 1987. To do anything less, Mr. Speaker, is to shortchange our Federal workers for a quick hit on the deficit, and it is a cheap shot which will come back to haunt us as the quality of the work force is jeopardized.

Mr. Speaker, I am sure that all Members of this House in dealing with the service given to them by each of their staff, and that every Member of this House, in contemplating the service given to us by our central staff, including the officers at the desk in this Chamber, know full well that they give freely of their time, and that they exercise great talent and judgment in the administration of their duties. To shortchange them once again is unconscionable and terrible employee policy.

Let me now speak of benefits, another component of the compensation of any employee, and of Federal employees.

Federal employees, Mr. Speaker, receive their health coverage under a plan called the Federal Employee Health Benefit Program. Over 396 health insurance carriers compete for Federal employee enrollment in their plans. The plan was designed to be a model of free-market competition which would presumably offer employees good health coverage at reasonable cost.

In 1982, due to a shortfall in the funds necessary to fund the Government's contribution to the plan, benefits were cut by more than 6 percent. However, notwithstanding the cut in benefits, premiums rose an average of 31 percent, and annual deductibility amounts rose as much as 300 percent in some plans. Premiums continued to surge ahead, rising as much as 75 percent from 1982 to 1984.

At that time the House Committee on Post Office and Civil Service commissioned a study by the Mercer Co. to compare the health insurance coverage by the Federal Government with that offered by the private sector and by State governments.

One of the reasons that it did that, Mr. Speaker, was because we hear so often demagogery in political campaigns. Demagogery by this administration, demagogery in fact by the previous administration, that the pay and benefits of Federal employees far outstrip the pay and benefits of the private sector. It is important, therefore, that we have this kind of study conducted.

Mercer, who does work for many private-sector firms, found that the Federal Employee Health Benefit Plan was 19 percent behind the average public-sector plans. In other words, not only were the Federal employees not comparable to the private sector, but were behind States and municipalities by an average of 19 percent.

Indeed, Mercer found that they were 21 percent less valuable than the average private-sector plan. So not only, Mr. Speaker, do we have a situation where the pay agent says that Federal employees are 23.79 percent behind the private-sector pay for comparable jobs, but we also find that they are 21 percent behind and have a less generous health benefit plan.

Since then, Hay Associates has also found that the Federal health plan lags significantly behind the private sector. This year the average premium increase will total 14 percent for this plan. As has already been discussed, this will increase the average employee's premium by $225.50. Yet we have not provided any substantial increase in benefits short of providing a small amount, appropriately so, for drug rehabilitation. The lag will therefore continue and worsen once again. In other words, the pay and benefits of Federal employees are again being adversely affected.

As I have mentioned in the past, this lag is no surprise to me. In fact, I continue to take my own health insurance through Prince Georges County Board of Education, for whom my wife works. I do so because its benefits are significantly better than the benefits available to Federal employees. Therefore, in effect, Mr. Speaker, I have put my money where my mouth is today.

Overall, the Hay Associates study found that total Federal compensation, consisting of both total cash compensation and the value of benefits—there are only two significant benefits that Federal employees have, their health benefit and their retirement benefit—is about 16 percent below the private sector as of March 1986. This is an 8.6-percent increase since March 1984, when Hay last reviewed this data. Again, the trend is negative. Again, the employee loses. Is it any wonder why the demoralization of which we read so much is so pervasive?

Let us talk about Federal retirees. This year the Congress resolved a 3-year battle which began when the Congress restructured the Social Security System in 1983. We adopted a new retirement system for Federal retirees hired since that time, which includes civil servants in the Social Security System. The new system raises the minimum retirement age from 55 to 57. It also provides that no cost-of-living adjustment will be paid until age 62, after which time the COLA is

reduced by a percentage point if the CPI is more than 3 percent.

□ 1610

These reductions in benefits will provide $42 million in savings next year and produce a 5-year savings of approximately $7.2 billion. That is a lot of money.

Where does the savings come from? It comes from the pocket of the retiree. It comes from the pocket of the retiree who worked probably 30 years for the Federal Government believing that his or her employer was going to keep its contract with them, was going to provide the benefits that they expected as they worked those 20, 25 or 30 years for their employer.

The Federal Government contribution for the current employee is about 31 percent of payroll. The new plan, however, even with full employee participation in the savings thrift plan will only cost the Government an estimated 22.9 percent of payroll.

What does that mean? It means that the Federal Government contributes 9 percent less toward the pay and benefits of Federal employees than it did previously. Again, this is money out of the pocket of our employees.

So make no mistake about it, though the reform was the best compromise which could be reached, it is another reduction of Federal participation in the benefits of Federal employees. There is no question that the Federal retirement system was, and I would suggest still is, the most attractive benefit of the entire package. Yet it was far from the gildeed system many had made it out to be. In fact, the average pension after taxes was $1,064 a month, or about $12,700 a year, which definitely does not provide for an extravagant retirement. It certainly is no golden parachute.

Without contribution to the thrift plan, the average employee will receive less than employees under the previous retirement system.

Another point, Mr. Speaker, we should consider, is how we treat those who have concluded their service and depend on their Federal retirement for their existence. Last year, Federal retirees were the first to suffer the cuts of Gramm-Rudman, the very first. I would suggest that the public, which ultimately will suffer if the quality of Federal workers declines further, if the quality of Federal service reaches a point where we cannot recruit quality people, then it will be us as a people, us as a Nation who will suffer. I would call the public's attention to the continued reductions of which I am speaking and the fact that when we adopted Gramm-Rudman last year, the very first group of people that suffered were the Federal retirees. Not only was their COLA eliminated, but it was canceled 3 months earlier than other budget cuts required by Gramm-Rudman.

The Federal employee continues to be an easy target. The Federal employee continues to be an easy object of demagoguery. It ought to stop. It ought to stop for the welfare of our Nation and the quality of our Government.

This Gramm-Rudman cut was done notwithstanding the fact that Social Security recipients were exempted. Notwithstanding the fact that veterans' compensation and pensions were exempted. Notwithstanding the fact that unemployment compensation was exempted. In fact, Mr. Speaker, inflation has risen 10.1 percent over the past 3 years, during which time Social Security recipients have maintained pace with inflation.

Let me make it clear, Mr. Speaker. That is appropriate. We ought not to retreat from that policy. We ought to keep people on a level at least even with inflation.

Federal retirees, however, have not been so lucky and have only received one COLA during that period, leaving them 7.6 percent behind Social Security recipients, or said another way, making the value of their pensions 7.6-percent less valuable. This gap worsens each year, because without a COLA in one year, the baseline for the next year's COLA is lower, further robbing Federal retirees of their ability to keep pace with inflation.

This year the President requested another freeze on the COLA, no adjustments. Wisely, however, this Congress rejected this proposal, and this year's budget has provided for a full COLA for our retirees. This House has also overwhelmingly adopted H.R. 4060, which would include Federal and military retirees' COLA's in the list of programs exempted from Gramm-Rudman automatic cuts.

However, this bill has not yet become law, and there will, of course, be a temptation to again take an easy hit for deficit reductions against this vulnerable group.

Mr. Speaker, let me discuss another item. Holiday furloughs. I cannot think of anything that is more demoralizing and petty than the action which the Department of Agriculture and the Office of Personnel Management attempted to take this year which would have furloughed employees on the Federal holidays. This is yet another attack on Federal employee benefits, and a petty one at that.

OPM strongly contends that it would be legal to furlough Federal employees on holidays, even though it is clear that a furlough is defined as being relieved from duties without pay. Since no duties are required on holidays, one cannot be relieved from them without pay.

Correctly, the Comptroller General disagreed with OPM's interpretation and blocked the institution of furloughs. Unfortunately, the administration is challenging the authority of the GAO over its agencies decisions. The pressure of Gramm-Rudman cuts could lead to another attempt to perform these furloughs.

Let me try to perhaps explain just a little more what I mean by these furloughs. If one gets off Christmas in the middle of the week, one expects to get paid for that day. It is, in effect, a paid holiday. But if, however, your employer decides on that one day he is going to furlough you, and therefore does not pay you for that day, you feel cheated. The Federal employees, ladies and gentlemen, feel equally cheated with that kind of proposal and with that kind of treatment.

The Congress has designated 10 holidays for employees and provided that employees should receive normal compensation for each one. We should ensure that our policy for observance of holidays is preserved, and block any future attempt to pursue such a petty, vindictive furlough policy.

Mr. Speaker, another issue which I would like to address is the suggestion for drug testing. The President has recently come down with a proposal which would require administrators, directors, and heads of agencies to adopt a policy to test employees who are in "sensitive" positions. Frankly, Mr. Speaker, the definition of sensitive employees has not been made clear, and apparently there is much discretion in the agency head.

Suffice it to say, this is another denigration of the respect accorded to Federal employees who now have it implied by their President that they somehow need to be tested across the board. We do not know how broad the President's proposal is. But there certainly is the proposal of a task force sponsored by the President which recommends across-the-board testing without cause, probable, substantial or de minimis, without cause testing.

Mr. Speaker, I will have more to say about that proposal when it becomes more clear specifically what it is. However, we ought not, as concerned as we are about the drug problem confronting our Nation, which is a serious problem and one with which we must deal and deal with honestly, we ought not to allow it to lead us to a position where we diminish and ignore not only the constitutional rights of our Federal employees, but their rights to privacy and their rights to be treated with dignity and consideration.

Mr. Speaker, I started this special order with an observation that a number of individuals had talked about the tax bill and had talked about the impact of the tax bill on Federal employees. Again, a significant piece of legislation, and as has been historically true, the Federal em-

ployee as well as other public employees, are diminished by portions of that bill.

□ 1620

The issue which Federal employees feel now threatens to further undermine their economic well-being, is the conference report on the tax reform bill. This bill would repeal, retroactively; it would go back to get employees—the 3-year recovery rule.

The 3-year recovery rule allows employees who contribute to their retirement system to recover that contribution without further taxation in the first 3 years of their retirement.

Now why does it do that? The great majority of private sector employees do not contribute to their retirement program. There are approximately 5 million in the private sector who do. There are another 12 million in State, county, and municipal employ who contribute to their retirement programs, and there are 3 million Federal employees who do so. Making a total of approximately 20 million Americans who contribute to their retirement programs.

They contribute after-tax dollars. That simply means that the amount that they contribute to their retirement program has already been taxed. As a result, under present law, they are deemed to take out their contributions first upon their retirement, and obviously, because of the fact that they have already paid taxes on those sums, they are not taxed a second time.

Current law allows these employees to receive that contribution in effect up front. Mr. Speaker, I want to make it clear that this includes the millions of State and local employees as well. As I said, this is not just undermining Federal employees. It is undermining State, county, and municipal employees as well.

We talk about this bill as helping the average American. I suggest to you that the policeman in Chicago, a public employee contributing to his pension plan, is an average American. I suggest to you that the teacher in Los Angeles contributing to her retirement program is an average American. I suggest to you that the clerk in New York is an average American. I suggest to you indeed that all of these 20 million people participating in contributory pension plans, in the private sector and public sectors, are average Americans, and those average Americans are the only average Americans or Americans of any type, being retroactively and adversely affected with respect to personal income taxes in this tax conference committee bill.

No other American is having retroactively an adverse impact on their income taxes. One of the saddest things about this proposal is that when I first talked, some 6 months ago, to the staff of the Ways and Means Committee about this bill, they thought that it only affected Federal employees.

There are still members of the Ways and Means Committee who, as recently as 3 days ago, on this floor, implied that it only affected Federal employees.

Why do I make the point? I make that point because people feel it is easy to target Federal employees. In this case, however, we are talking about 20 million average Americans.

I, along with many of my colleagues in both bodies, have argued continuously to the conferees that the 3-year recovery rule should not be repealed. Unfortunately, not only has the conference repealed the rule, as I said earlier they have made it retroactive in nature.

As proposed by the conference, any employee who retired after July 1, 1986, that is to say, 2 months ago, would lose the 3-year recovery of their contribution.

In its place, the employee's contribution would be spread over the expected life of the annuitant. For example, if an employee is expected to live 15 more years, he or she would only be credited with one-fifteenth of his or her total contribution each year.

Mr. Speaker, I cannot begin to describe the sense of betrayal that Federal employees feel about this retroactive provision. The average Federal retiree will pay an additional $2,154 in taxes during the first year alone as a result of this retroactive provision.

Let me repeat that: Because we will hear on this floor next week that no average American is adversely affected by this bill. The average Federal employee retiree next year will pay $2,154 more in taxes because of this proposal.

Calls are coming from police officers, firemen, letter carriers and scores of civil servants. And they will not stop; they will get much worse because people are only beginning to realize what the conference committee has done.

We should act to repeal, retroactively this provision which impacts personal income; is unfair; and should be undone.

I would encourage the chairman to act to restore fairness and equity to this bill, so that those of us who want so badly to support this bill, which has some good provisions in it, can do so in good conscience without singling out those who have contributed to their own retirement. They are the people who guard our Nation, police our streets, implement our laws, and educate our children.

Mr. Speaker, let me speak about morale. Over the recess, the Washington Post published two series on Federal workers which I would commend to my colleagues, and indeed to the general public.

One series on U.S. Customs made it clear the disillusionment Federal workers now feel. Agents, who have proudly served their country, now advise their children against joining the Federal workforce. Carol MacClary, who heads an import team for Customs in Miami, was quoted as saying about her son:

> He's one of the brightest kids, in the top 5 percent in SAT's. I would never recommend him to go into government. And the President cannot expect to draw that type of person unless he raises up the image and stops berating us in public.

Let me reiterate that: A Federal employee talking to her child, who she says is one of the brightest, in the top 5 percent in SAT's, says: "I would never recommend him to go into Government." She further said, the President cannot expect to draw the type of person unless he raises up the image and stops berating us in public.

That admonition is true for the President, the chief employer, the head of the executive department of this Government, and it ought to be true of each and every one of us as well.

Robert Van Etten, who is in charge of all antidrug operations in New York for Customs, a critically important job and a great responsibility described the dismaying situation that even though his employees are committed to their jobs, there is a strong concern over the failure of their wages to remain competitive. He said, and I quote:

> From the standpoint as the basic head of household, as the family provider and all that, they see adverse impacts on their own income. They have children they want to send to college. And now we're looking at—we may get a 4 percent pay increase this year. Four percent, after they take out 1.5 percent for medical benefits gives you 2½ percent. Then if you count inflation, you're lucky if you break even * * *. Their problem is going to come down to this: If we ever stop enjoying it, then the outside will look a lot more attractive.

□ 1630

In other words, the reason Mr. Van Etten is staying and the only reason he thinks we can compete in the job market is because we have some very interesting, very exciting jobs to be performed. But that will not last, Mr. Speaker. We are treading on dangerous ground as it relates to the quality of America's work force.

Mr. Speaker, it is clear that Mr. Van Etten is an optimistic person. He believes that he and his coworkers will see a 4-percent raise this year. That, unfortunately, is not going to happen. In reality even with approval of my amendment providing a 3-percent civil comparability adjustment, he will not keep pace with inflation, and he will

not keep pace with the private sector increase in this area.

In the second Washington Post series on the careers of various Federal employees, an elite Presidential intern, Michele Zuckerman, described how most of her friends work in the private sector and that she has noticed few young people pursuing a career in the civil service. She said, "I don't think people see that as a career path. You don't hear folks say, 'Why don't you go off and work for the Government?'"

This is indicative of a much larger problem. Federal workers are disillusioned and demoralized, and a 2-percent comparability increase and the other negative trends we have discussed here today offend workers because it implies that they are not worth as much as private sector workers and that they are not really appreciated.

Let me say at this point, Mr. Speaker, as you know, I represent 63,000 Federal employees, but I do not delude myself nor do they; the most important sector in this Nation is the private sector. What has made this country great is private enterprise. What provides most of our jobs is private enterprise. But it follows like night follows day that we must have an effective Government work force if our private sector is to be able to operate effectively as well.

Mr. Speaker, this failure to recognize pay and benefits also fails to recognize that Federal workers have already contributed their share toward deficit reduction. As a result of reduced pay, Federal workers—and I would like you to make sure you get this figure—Federal workers have contributed over $31 billion that they would have otherwise received over the past 10 years, to deficit reduction. What do I mean that they would have otherwise received? If their employer had not changed the rules, if their employer had not failed to meet the contract, if their employer had not said, "I am going to take it out of your pocket rather than somebody else's pocket," they would have received in pay and benefits over the last 10 years an extra $31 billion, which would have been consistent with their understanding of what their pay and benefits were supposed to be under their contract. Perhaps not a legal contract but certainly a moral contract that this Government, this employer should keep.

I would like to insert for the RECORD a chart prepared by the Congressional Research Service which compares the average increase in pay between the private sector and the Federal Government to show the gap which has been reinforced year after year.

The chart referred to is as follows:

PERCENT INCREASE IN AVERAGE WHITE-COLLAR SALARIES

Date	Federal pay raise	Date	Private sector average wage increase (all surveyed occupations)
Oct. 1, 1981	4.8	March 1980–1981	9.7
Oct. 1, 1982	4.0	March 1981–1982	9.5
Jan. 1, 1984	4.0	March 1982–1983	7.4
Jan. 1, 1985	3.5	March 1983–1984	4.7
Jan. 1, 1986	0.0	March 1984–1985	4.5
Jan. 1, 1987		March 1985–1986	4.4

Source: U.S. BLS. National Survey of Professional, Administrative, Technical, and Clerical Pay, various years, and U.S. Congress. Committee on Post Office and Civil Service. Current Salary Schedules of Federal Officers and Employees Together with a History of Salary and Retirement Annuity Adjustments, Committee Print 99-1, pp. 24-25.

When this demoralization causes our employees, experienced and talented individuals, to leave Federal service, we will face the other horn of this dilemma in that we will be unable to recruit talented young people to fill these jobs.

At NASA, just for example, the starting salary for an engineer runs $7,000 behind the private sector. For one job, a critical position, there is a $7,000 disparity.

Is it any wonder that we will find ourselves and do find ourselves competitively disadvantaged? Is it any wonder that the best and brightest in our Nation will be unavailable for public service?

This vicious cycle, Mr. Speaker, must end. Let us provide a pay raise as we have budgeted for, let us treat our employees with the fairness and equity that they deserve.

To close, Mr. Speaker, I would like to stress a point which should be clear to both the President and every Member of the House. I agree with the President that we should adopt the strengths of the private sector and incorporate them into our own employment policies.

One of the leading innovations of the private sector in recent years is the pursuit of better employee-employer managerial relations while cutting costs.

This year as in the past this administration has not pursued such a policy but has, instead, continued the adversarial position which is usually reserved for campaign rhetoric.

The President's budget requested a 3-percent raise which was, as I have said previously, in reality a 1-percent raise.

Further, the President proposed no cost of living for retirees, raising their retirement age, changing the annuity calculation from the highest 3 to the highest 5 years, capping the Federal contribution to Federal employees health benefit plans and substituting student survivor benefits. In every instance cutting back on the pay and benefits that we give to those that we ask to carry out the policies of this Government and this people.

Year after year these assaults have continued. This is not the way, Mr. Speaker, Mr. President, to build positive management-employee relationships. It is not a cooperative approach but, rather, one which seeks to rob employees' benefits and rights. It seeks to take, not to trade or to negotiate.

Recently in Charlottesville a meeting of 29 Federal senior executives gathered with the Brookings Institution for a seminar on executive leadership. I want to repeat some of their comments which, I believe, describe the seriousness of the problem that this adversarial approach created. They said, and I quote, "I believe we have destroyed the purpose of working in Government." Another said, "I think the greatest thing we have lost is not pay or pension benefits for the future. What we are being robbed of is a sense of purpose."

Another said, "I worry about the future and what this work force will become."

Last, one said, "I think Ronald Reagan's lasting contribution to Government in the next decade or so will be that he completely illegitimized Government service. Whatever the Kennedy administration did to make Government attractive to people of talent has been absolutely undone and reversed. What? Your kid is working for the Federal Government? What is the matter with him?"

These comments of 29 Federal senior executives, leaders of our Government, describe a work force tired of abuse and apprehensive of the future. I would urge the President and all my colleagues to work together to reverse this dangerous trend. We should work to create an environment in the Federal work force where it would be inconceivable for us to hear these comments. We must restore a sense of purpose and we can begin by restoring a sense of fairness.

That is all these employees are asking for. They should not expect anything less, nor should we provide anything less.

Mr. FAZIO. Mr. Speaker, I would like to thank my esteemed colleague from Maryland, Congressman STENY HOYER, for inviting me to participate in this special order. Congressman HOYER has been a true champion of the Federal work force. He has been a leader on legislation which promotes and supports our excellent civil servants and those who have retired from Government service.

I applaud the efforts of my colleague because it is absolutely essential that those of us who believe in a top-notch, productive, energized and dedicated work force speak out on behalf of our employees. For far too long we have been deluged with anti-Government, anti-Government-worker rhetoric. The public needs to know the truth.

The Washington Post just ran an excellent series of articles on what it is like to be a Fed-

eral employee today. These articles really brought to life the human toll resulting from years of "Government bashing."

As one who works closely with individuals who are employed by the Government, I could readily relate to the frustrations expressed by all who were interviewed, when they said: "We are constantly being asked to do more with less." and "You don't have any respect from your neighbors, and there can be no sense of pride in the work; its overwhelming * * * I take strong exception to people saying we don't work hard when I'm working as hard as I can." And "It's very frustrating for me to hear people come in the office and berate what we're doing. That hurts me personally. I'd like to say it doesn't, but it does."

Our greatest resources—the people who have devoted their lives to serving our Nation—are bearing the brunt of the anti-Government sentiment which is all too prevalent throughout the country.

It seems that every week there is a new assault on workers. After advocating a pay cut in fiscal year 1986 and eventually acquiescing to a pay freeze, President Reagan just announced in the last week of August a 2-percent pay raise despite Federal pay data that shows civil service pay lags about 24 percent behind the private sector in comparable jobs. Further, the administration continues to advocate COLA freezes, increased contracting out, reduced health care, additional furloughs and layoffs, and mandatory drug testing for all. To add insult to injury, the Joint House Ways and Means and Senate Finance Conference Committee on the Tax Reform bill just came out with an agreement to make the elimination of the 3-year rule, the tax free annuity period, retroactive to July 1, 1986. Further, that same committee gutted the benefits from the lump-sum payment provision in the recently enacted civil service retirement legislation.

As a member of the House Budget Committee and the House Appropriations Committee, and as cochair of the Federal Government services task force, a pro-Federal employee congressional caucus, I, along with my colleagues STENY HOYER, BILL FORD, MARY ROSE OAKAR, BARBARA MIKULSKI, PAT SCHROEDER, MIKE LOWRY, MIKE BARNES, and many others have fought against all efforts of either officials in the administration or Members of Congress that are harmful to the long-term well-being of our Federal work force. The ill-conceived and ill-advised efforts to erode pay, benefits, confidence and image of our employees is taking an enormous toll. We are experiencing an unprecedented exodus of top-notch people and we are failing to attract the numbers of new talent that is needed.

We must turn this around. Of course, the effort to do so must start from the top. But a series like the one that appeared in the Post and special orders like this one are a good way to show the flip-side of all the anti-Government rhetoric.

Again, I thank my colleague Congressman HOYER for his efforts tonight. I look forward to continuing our long-term work on behalf of Federal employees and retirees, including our efforts to change the tax reform bill's treatment of annuities and lump-sum payments, increasing this year's pay raise and ensuring a COLA in fiscal year 1987 for retirees.

Mr. FORD of Michigan. Mr. Speaker, there is, to be sure, much merit in the Tax Reform Act. Many of the changes embodied in it have long been needed to make the Tax Code more equitable and more palatable.

There is one part of this bill, however, that is extremely unfair and which, in my opinion, detracts from the rest of the bill. This is the portion of the bill that would require Federal employees to pay tax when they withdraw their contributions to pension funds. It is, plainly, a tax on money that has already been taxed. Could anything be more unfair?

I want to make sure that everyone in this body fully understands what we are attempting to do here. We are proposing repeal of what is known as the 3-year basis recovery rule for qualified pension plans requiring employee contributions. Employees pay tax on this money before it goes into the fund. So what we are doing here is asking them to pay tax on it again when they take it out.

Where is the equity?

If we can do this, what then is to prevent us from passing a law to tax withdrawals from savings at the corner bank? I see absolutely no difference.

This double taxation is bad enough. But now we want to make it retroactive to July 1 of this year. This would be a terrible disservice to those who retired after July 1, and to those who were persuaded by supervisors to stay after that date because their services were needed.

To those people we are now saying, "to show our appreciation to your devotion and dedication we are now going to double-tax your contributions to the pension fund."

There is a misconception in this body that this provision would only affect Federal employees. This is not the case. In addition to the 2.8 million Federal employees and postal workers, this bill will deal a cruel blow to almost 12 million State and local workers across the Nation.

A 1978 report by the Committee on Education and Labor showed that 85 percent of employees covered by State and local pension plans are required to make contributions—all the way up to 9 percent.

What this means is that we are not just talking about Federal workers who get kicked around every time we want to cut the size of the Federal budget. We are also, in this case, kicking around teachers, nurses, firemen, policemen, and all those other people who work for our cities and States.

Just by way of example, a 60-year-old Ohio public employee would have to pay $1,300 more in taxes during the first 2 years of retirement under this bill.

If we pass this provision we are going to have a lot of unhappy workers—State and local as well as Federal—to answer to.

I think their anger will be justified. And I don't want to be the one who has to face their wrath.

Mr. BIAGGI. Mr. Speaker, I want to express my strong opposition to a particular provision of the tax reform conference agreement, which would retroactively eliminate the 3-year basis recovery rule that allows public servants to recover their contributions to a mandatory participation plan.

It is disturbing to me that while many of the changes in the tax reform package—like the consumer interest deduction—would be phased in over a period of time, elimination of the 3-year basis recovery rule would occur retroactively to July 1, 1986. Simply put, we are changing the rules in midgame and not allowing anyone who had developed a game plan based on the old rules to stop playing.

For many years, some 20 million Americans have made financial plans under the fair assumption that they would be able to recover their mandatory retirement contributions during the first 3 years after retirement. After all, that was the rule when they decided to become a public servant. But now, those same people are being told to forget those plans because Congress has decided to change the rules and nobody can escape this penalty, no matter how much financial hardship it may cause.

This new law will penalize public servants in amounts ranging from $5,000 to $30,000. That is a very sizable loss. For some, it may mean not being able to pay for a child's college tuition; for others, it may mean having to extend their current employment or to find new work just to make ends meet. Either way, it's wrong.

Our Nation's public servants did not expect to get rich when they decided to become police officers, firefighters, teachers, or government workers. However, neither did they expect to be treated so shabbily when they neared the end of their many years of devoted public service.

Mr. Speaker, I do not agree with the elimination of the 3-year basis recovery rule, in principle. Yet, I am especially concerned that we would apply that change on a retroactive basis. At least, let's give those who cannot afford this severe penalty the opportunity to avoid it, if they are in a position to do so. That is the fair and responsible course of action and the one I will work toward implementing.

Frankly, this single provision makes my decision on the entire tax reform package a very difficult one. I know I am not the only one burdened with this dilemma. A number of my colleagues have publicly stated similar concerns and the estimated 20 million Americans harmed by this provision are not sitting quietly on the sidelines. I have received hundreds of letters, visits and phone calls from constituents urging me in the strongest possible terms to oppose this retroactive repeal of the 3-year basis recovery rule—and the pressure is intensifying. In fact, just this week, countless members of the Fraternal Order of Police, our Nation's largest law enforcement organization, have been walking the Halls of Congress urging Members to oppose this provision.

As representatives of the people, it is difficult to ignore such a loud and understandable public outcry. I am hopeful that we will have an opportunity to delegate this harmful provision from the tax reform package.

Mr. HALL of Ohio. Mr. Speaker, I commend my colleague, the gentleman from Maryland [Mr. HOYER] for organizing this special order to draw attention to the problems facing our Federal civil servants.

Perhaps during no time in the history of our Nation has the service in our Federal Govern-

ment been so demoralized. Once men and women aspired to Federal service as the highest calling. Today, there is broad dissatisfaction among Federal workers, and fewer young people seek out the Federal Government as an employer.

Who can blame them? Irresponsible office-seekers campaign on a platform that "Government is the enemy." To a patriotic American who has spent a lifetime in Federal service, that surely must sting.

Perhaps even worse, Congress has regularly picked away at the package of pay and benefits for Federal employees, with results that often produce little in the way of saving money; but collectively, destroying the reliability of the Government as an employer.

Never has this been clearer than with a provision in the tax reform package which would levy a retroactive tax penalty against retirement-eligible Federal employees.

The tax reform package contains a provision which eliminates the 3-year basis recovery rule, which affects about 20 million workers who make contributions to their pension plans with after-tax dollars.

The rule gives workers 3 years immediately after they retire to "recover" the contributions they made into the system and on which they have already paid taxes. In effect, this gives the retired workers a tax-free period on their pensions, because they have already paid the taxes.

Those affected include most Federal, State, and local government workers, including teachers, policemen, and firefighters, plus some private sector employees.

However, Federal civil servants and postal workers are most affected because of the high percentage of their salaries which they contribute to their pension plan.

I oppose the original House version of the tax reform bill for reasons which included the provision which eliminated the 3-year rule. I believe that the 3-year rule provides an appropriate way for workers to recover the pension contributions on which they have already paid taxes. Moreover, many workers have made investment decisions based on the tax-free period following retirement. It would be a breach of faith for the Government to change the rules so suddenly for employees. Finally, Congress has a special obligation to protect the interests of the Federal workers who carry out the laws and programs which are mandated by Congress.

The penalty which is created by the elimination of the 3-year rule can result in a significant tax increase for many who are affected. According to figures provided by the Congressional Research Service [CRS] of the Library of Congress, a retired employee earning average wages and who has no income other than a pension would be socked with an extra $1,200 in taxes during 1987 if he retires under the new provision.

However, higher income workers and those who have planned investment strategies calling for selling assets during their tax-free period would be even harder hit. According to CRS, a high wage earner who retires from Government service who has an additional $20,000 income in assets would face an $8,500 tax increase in that 1 year.

As a member of the Rules Committee, I was unsuccessful in obtaining a rule which would permit an amendment to keep the 3-year rule. I believe that if the House was offered a straight vote on the 3-year rule, it would not make the change.

The original House bill would affect workers who retire on or after July 1, 1986. As consideration of tax reform dragged on in the Senate and approached that date, the possibility developed that Congress would end up enacting the July 1 date retroactively if it gave final approval to the bill after that date.

To prevent this possibility, I, along with my colleagues Ms. OAKAR and Mr. WOLF, introduced a resolution expressing the sense of the House that no change in the 3-year rule should take effect retroactively. To date, 95 House members have cosponsored the resolution.

Retroactive tax penalties affecting individual income are extraordinarily rare. Moreover, press accounts widely reported that House-Senate conferees would pick a prospective effective date, or adopt the Senate version, which phased in the effective date beginning January 1, 1988.

The Washington Post reported on May 13, 1986, that a retroactive date would be "unlikely."

The Los Angeles Times reported on June 4, 1986:

> Officials do not expect the tax rule . . . to become effective retroactively.

The Atlanta Journal & Constitution reported on June 22, 1986:

> Capitol Hill insiders believe that the tax bill that emerges from Congress will delay from July 1 until at least 1988 the repeal date for the pension measure.

Most interesting is an article from June 30, 1986, in the Weekly Federal Employees' News Digest:

> Key members of the House Ways and Means Committee have quietly passed the word to government union leaders that the House will yield in conference on its July 1 provisions for repeal of the three-year recover period in federal and postal retirement . . . House committee members indicated that the House is ready to compromise on the issue and the effective date of the repeal won't be until at least sometime in 1987.

Despite these assurances, many Government workers had too much money at stake, and they didn't want to take the chance that Congress might actually put in the retroactive date. Those who had no faith in the Government and who put personal finances ahead of Government service retired to beat the July 1 deadline.

It turns out they were the smart ones.

Almost unbelievably, the agreement reached between House and Senate negotiators included the retroactive tax penalty. This, despite the prospective date in the Senate version. This, despite the strong support in the House against a retroactive date. This, despite the overwhelming precedent for tax penalties which affect individual income to be effective prospectively. This despite the fact that no other provision in the bill affecting individual income is retroactive.

Why?

Why have Government employees been singled out for this shocking and grossly unfair treatment?

It isn't to raise revenues. In a letter of March 27, 1986, from Treasury Secretary James A. Baker III to Representative STENY H. HOYER, Baker writes:

> It is true that the proposal is unlikely to be a revenue-gainer over the long run. Even though the proposal is estimated to increase Federal receipts by $7.5 billion over the 1986-1990 period, over the long run the proposal would be closer to revenue neutral. The reason for proposing repeal of the 3-year basis recovery rule is not to gain revenue.

According to a Ways and Means Committee estimate, Federal receipts would increase by $1.8 billion by setting the effective date at July 1, 1986, instead of January 1, 1987. However, this is only a short-term windfall, and cannot be considered a true revenue raising measure.

A $1.8 billion temporary windfall is not worth trashing the integrity of the Federal Government as an employer.

Some have suggested that the retroactive effective date is necessary in order to block a mass exodus of Government workers who would suddenly retire if given another opportunity to retire under the old tax treatment. Again, I quote Secretary Baker's letter, who didn't think this would be much of a problem:

> Projections of the number of optional retirements induced by repeal of the 3-year basis recovery rule made by some of those objecting to its repeal are likely to be overstated. Federal employees who expect a rising stream of taxable income over their retirement—such as those who do not expect to begin receiving social security benefits until a few years after retirement—will actually benefit from repeal of the 3-year basis recover rule and therefore should not retire in order to beat the effective date. In addition, those with modest retirement income will be less affected by the provision's repeal and therefore are less likely to retire because of this change. Finally, because retirement benefits are based on the number of years of service as well as the years of highest pay, the benefit to employees of working longer will in many cases offset the short-term benefit of retiring before the repeal of the 3-year rule.

If the purpose of eliminating the 3-year rule is not to raise revenues, why is it being proposed? Once more, I defer to Secretary Baker in a March 27, 1986, letter to Senator PAUL S. TRIBLE:

> Repeal of the 3-year basis recovery rule is part of an entire package of retirement proposals meant to make retirement tax policy more consistent and equitable for taxpayers.

In other words, Congress is poised to enact one of the most patently inequitable tax penalties in a rare retroactive move—all this, in the name of consistency and equity.

Once again, I ask why?

Though the reasons are unclear, the effect is not. It will destroy the trust that exists between the Government as an employer, and further erode the moral of Government workers which is already at rock bottom levels. The main winners are those who favor the dismantling of the Federal Government because

it will surely discourage capable workers from the Federal service.

Moreover, by enacting the retroactive tax penalty, we are rewarding the ones who deserted the Government to get out under the old tax laws. The ones who had faith and who stuck to their jobs get slapped with a hefty tax penalty for their loyalty.

Finally, the use of the Tax Code to single out groups of people for treatment which is so obviously unfair could very well undermine the faith in the tax system. Such is the result of what appears to be nothing more than a shameless slap at Government workers.

Don't think for a moment this law will go unnoticed by Federal employees and young people considering the Federal service. A sample of my constituent mail follows:

I have been an employee of the Federal Government for over 35 years. My retirement plans have been based on the rules that have existed for virtually my entire career. Now I find that the rules are being changed. Not only that, they are being changed retroactively. The change in the law on how Federal retirees pay taxes is cruel, unfair and unethical.

During my 35 year career, I trusted my employer, the United States Government. I had faith that I would be treated fairly. But now, at the end of my career, the rules are being changed. All of the plans I have made for retirement are worthless.

After years of loyal, dedicated service my employer demonstrates appreciation by changing the rules. I am frustrated, bitter and angry and there is nothing I can do about it. Must I spend my retirement years regretting my entire career with the United States Government?

Another letter:

In passing the bill, Congress would deny informed choices to scores of potential retirees. If the judicial branch operated with the same reckless abandon as the legislative, the citizenry would live in mortal fear of committing a retroactive felony. Fortunately, certain safeguards exist which prevent such occurrences. Yet, the Congress can seem to expect clairvoyance on the part of government employees who are considering retirement.

And another:

If this is allowed to become law, it will definitely have the following effects:

1. Completely demoralize the federal work force to the extent they will encourage people not to work for the government.

2. Compound the current problem of being able to retain qualified people.

3. Make it impossible fo fill current positions, especially in the scientific and technical areas.

The above effects will result in such future problems as $6,000 toilet seats instead of the purported $600 ones of recent vintage. Cost overruns, poorly designed aircraft systems, lost expertise to maintain our sophisticated systems and resulting erosion of our total defense posture are but a few of the things that will result from this penny-wise and pound-foolish philosphy.

Another:

I am retiring effective 1 Sept 86 after more than 37 terms of Federal service, 35 of these years with the Air Force at the Aeronautical Systems Division at Wright-Patterson AFB. Needless to say, I could have and would have retired on 30 Jun 86 had I known then what I know now. At that time, I never thought that Congress would do what they apparently plan to do. I obviously had more faith in their integrity and sense of fair play than recent events appear to justify. My reasons for retiring [later] were in part, job related; i.e., to complete an assignment made this past spring. Without getting into details, I have been acting as item captain in the source selection of a major weapon system which has Congressional visibility.

One more:

I was eligible to retire before [July 1, 1986], but instead, faithfully and naively felt obligated to fulfill my professional obligations this summer, since it would have been difficult at best, if even possible for my Department to carry out my workload if I had retired before the above date.

Since the Senate's version of the proposed tax reform bill was not scheduled to start prior to Feb. 1987, I naively thought that no one would be so unfair as to make Federal employees subjected to a retroactive tax before 1987.

I now believe that members of the House and Senate committees have deliberately misled Federal employees so as to prevent massive retirements and the subsequent disruption of Government functions. This certainly has hurt morale, attitude, and disillusionment on the faith we had in the integrity of our elected representatives.

I could go on and on.

This is a deeply disturbing treatment of Government workers who have dedicated their life to public service. These aren't faceless, desk-bound bureaucrats we are punishing. These are law enforcement officials, air traffic controllers, scientists, and mail carriers.

I represent almost 14,000 Federal employees in the Third Congressional District of Ohio. Some work at the Dayton Veterans' Administration Medical Center. Others work at the Dayton Electronic Supply Center. Most work at Wright-Patterson Air Force Base, which is headquarters to the Air Force Logistics Command and the Aeronautical Systems Division.

The security of our Nation depends on the work these people perform. Unless Congress can treat them more fairly, the best of them will leave, and we will be able to expect little from those who are left. As a start, let's clean up the tax bill to remove retroactive tax penalties against Government workers.

GENERAL LEAVE

Mr. HOYER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include statements in the RECORD on the subject of my special order.

The SPEAKER pro tempore (Mr. GONZALEZ). Is there objection to the request of the gentleman from Maryland?

There was no objection.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. BOLAND (at the request of Mr. WRIGHT), on September 19, on account of a necessary absence.

Mr. CHAPPELL (at the request of Mr. WRIGHT), on September 19, on account of official business.

Mr. LEWIS of Florida (at the request of Mr. MICHEL), for today, on account of a necessary absence.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. BEREUTER) to revise and extend their remarks and include extraneous material:)

Mr. BEREUTER, for 5 minutes, on September 19.

Mr. CRANE, for 60 minutes, on September 19.

Mr. ARCHER, for 60 minutes, on September 23.

Mr. ARCHER, for 60 minutes, on September 24.

Mr. ARCHER, for 60 minutes, on September 25.

Mr. FRENZEL, for 60 minutes, on September 23.

Mr. FRENZEL, for 60 minutes, on September 24.

Mr. EDWARDS of Oklahoma, for 60 minutes, on September 23.

Mr. EDWARDS of Oklahoma, for 60 minutes, on September 24.

(The following Members (at the request of Mr. GONZALEZ) to revise and extend their remarks and include extraneous material:)

Mr. NEAL, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. LUNDINE, for 5 minutes, today.

Mr. LEVINE of California, for 60 minutes, today.

Mr. MURTHA, for 60 minutes, on September 24.

Mr. GAYDOS, for 60 minutes, on September 23 and 24.

Mr. LEVINE of California, for 60 minutes, on September 22, 23, and 24.

Mr. GONZALEZ, for 60 minutes, on September 22.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. BEREUTER) and to include extraneous matter:)

Mr. LAGOMARSINO.

Mr. BOEHLERT.

Mr. MCEWEN.

Mr. TAUKE.

Ms. SCHNEIDER.

Mr. GUNDERSON.

Mr. FRENZEL in five instances.

Mr. GILMAN.

(The following Members (at the request of Mr. GONZALEZ) and to include extraneous matter:)

Mr. WOLPE.

Mr. MCCLOSKEY.
Mr. PEASE.
Mr. TRAXLER.
Mr. ACKERMAN.
Mr. CARR.
Mr. LUNDINE.
Mr. LELAND.
Mr. ECKART of Ohio.
Mr. STARK.

ENROLLED BILLS AND JOINT RESOLUTION SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that the committee had examined and found truly enrolled bills and joint resolution of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 3358. An act to reauthorize the Atlantic Striped Bass Conservation Act, and for other purposes;

H.R. 4421. An act to authorize appropriations for fiscal years 1987, 1988, 1989, and 1990 to carry out the Head Start, Follow Through, dependent care, community services block grant, and community food and nutrition programs, and for other purposes; and

H.J. Res. 60. Joint resolution to designate the week beginning September 15, 1986, as "National School-Age Child Care Awareness Week."

SENATE ENROLLED BILL AND JOINT RESOLUTIONS SIGNED

The SPEAKER announced his signature to an enrolled bill and joint resolutions of the Senate of the following title:

S. 290. An act for the relief of Catherine and Robert Fossez;

S.J. Res. 196. Joint resolution designating September 22, 1986, as "American Business Women's Day"; and

S.J. Res. 357. Joint resolution to designate the week of September 15, 1986, through September 21, 1986, as "National Historically Black Colleges Week."

BILLS PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on this day present to the President, for his approval, bills of the House of the following titles:

H.R. 4530. An act to amend the Department of Defense Authorization Act, 1985, to provide that members of the Commission on Merchant Marine and Defense shall not be considered to be Federal employees for certain purposes, to extend the deadline for reports of the Commission, and to extend the availability of funds appropriated to the Commission, and

H.R. 3002. An act to provide for the establishment of an experimental program relating to the acceptance of voluntary services from participants in an executive exchange program of the Government.

ADJOURNMENT

Mr. HOYER. Mr. Speaker, I move that the House do now adjourn.

(The motion was agreed to; accordingly (at 4 o'clock and 40 minutes p.m.), under its previous order, the House adjourned until Monday, September 22, 1986, at 12 noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

4230. A communication from the President of the United States, transmitting amendments to the request for appropriations for fiscal year 1987 that would provide a total of $694,392,000 to implement the Drug Free America Initiative, pursuant to 31 U.S.C. 1107 (H. Doc. No. 99-267); to the Committee on Appropriations and ordered to be printed.

4231. A letter from the Acting Director, Defense Security Assistance Agency, transmitting information concerning a proposed loan; to the Committee on Armed Services.

4232. A letter from the Director, Office of Legislative Affairs, Agency for International Development, transmitting a report on amounts obligated and expended in Nicaragua for international security and development assistance for the period January 1, 1986, to June 30, 1986, pursuant to Public Law 97-113, section 724(e) (95 Stat. 1553); to the Committee on Foreign Affairs.

4233. A letter from the Acting Deputy Chief of Staff for Installations and Logistics, Department of the Navy, transmitting the report on the retirement plan for the civilian employees of the U.S. Marine Corps exchanges, recreation funds, clubs, messes, and the Marine Corps Exchange Service, pursuant to 31 U.S.C. 9503(a)(1)(B); to the Committee on Government Operations.

4234. A letter from the Chairman, National Transportation Safety Board, transmitting a report on compliance with the requirements of the internal accounting and administrative control system, pursuant to 31 U.S.C. 3512(c)(3); to the Committee on Government Operations.

4235. A letter from the Deputy Associate Director for Royalty Management, Department of the Interior, transmitting a report on proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

4236. A letter from the Deputy Associate Director for Royalty Management, Department of the Interior, transmitting a report on proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

4237. A letter from the Chairman, Merit Systems Protection Board, transmitting the Board's fifth annual report on the significant actions of the Office of Personnel Management [OPM], pursuant to 5 U.S.C. 1209(b); to the Committee on Post Office and Civil Service.

4238. A letter from the Secretary of Transportation, transmitting the Urban Mass Transportation Administration quarterly report for the third quarter of 1986, pursuant to 49 U.S.C. app. 1603(h)(i); to the Committee on Public Works and Transportation.

4239. A communication from the President of the United States, transmitting a statement of policy regarding the Nation's renewable resources of the forest, range, and other associated lands, pursuant to 16 U.S.C. 1606(a); jointly, to the Committee on Agriculture and Interior and Insular Affairs.

4240. A letter from the Comptroller General, General Accounting Office, transmitting a report entitled, "Financial Audit—Federal Crop Insurance Corporation's Financial Statements for 1985 and 1984" (GAO/AFMD-86-58), pursuant to 31 U.S.C 9106(a); jointly, to the Committee on Government Operations and Agriculture.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. JONES of North Carolina: Committee on Merchant Marine and Fisheries. House Joint Resolution 626. Resolution to approve the "Compact of Free Association" between the United States and the Government of Palau, and for other purposes (Rept. 99-663, Pt. 4). Referred to the Committee of the Whole House on the State of the Union.

Mr. HAWKINS: Committee on Education and Labor. H.R. 2127. A bill to establish a U.S. Boxing Commission, and for other purposes; with an amendment (Rept. 99-791, Pt. 2). Referred to the Committee of the Whole House on the State of the Union.

Mr. HAWKINS: Committee on Education and Labor. H.R. 1689. A bill to create an American Boxing Corporation; with an amendment (Rept. 99-843, Pt. 1). Ordered to be printed.

Mr. HUGHES: Committee on the Judiciary. H.R. 5076. A bill to renew authority to contract for the detection and treatment of drug-dependent offenders, and for other purposes; with an amendment (Rept. 99-844). Referred to the Committee of the Whole House on the State of the Union.

Mr. HUGHES: Committee on the Judiciary. H.R. 5394. A bill to amend the Controlled Substances Act and the Controlled Substances Import and Export Act to provide more effective criminal penalties (including special fines for organizations), to make technical and conforming changes in such Act, and for other purposes; with an amendment (Rept. 99-845, Pt. 1). Ordered to be printed.

Mr. HUGHES: Committee on the Judiciary. House Joint Resolution 631. Resolution providing for a White House Conference on Narcotics Abuse and Control; with amendments (Rept. 99-846, Pt. 1). Ordered to be printed.

Mr. HUGHES: Committee on the Judiciary. H.R. 5393. A bill to authorize appropriations for Federal, State, and local drug law enforcement, and for other purposes; with an amendment (Rept. 99-847). Referred to the Committee of the Whole House on the State of the Union.

Mr. HUGHES: Committee on the Judiciary. H.R. 5246. A bill to amend the Controlled Substances Act to prohibit certain conduct with respect to controlled substance analogs; with an amendment (Rept. 99-848, Pt. 1). Ordered to be printed.

Mr. HUGHES: Committee on the Judiciary. H.R. 4885. A bill to amend chapter 44 of

title 18, United States Code, to include serious drug offenses and violent felonies as offenses subject to enhanced penalties under the career criminal provisions of such title (Rept. 99—849). Referred to the Committee of the Whole House on the State of the Union.

Mr. DINGELL: Committee on Energy and Commerce. H.R. 5465. A bill to amend the Energy Policy and Conservation Act with respect to energy conservation standards for appliances; with an amendment (Rept. 99—850). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 4216. A bill to provide for the settlement of certain claims of the Papago Tribe arising from the operation of Painted Rock Dam, and for other purposes; with amendments (Rept. 99—851). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 4217. A bill to provide for the settlement of certain claims of the Papago Tribe of Arizona arising from the construction of Tat Momolik Dam, and for other purposes; with an amendment (Rept. 99—852). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 5166. A bill to designate certain lands in the Cherokee National Forest in the State of Tennessee as wilderness areas, and for other puposes; with an amendment (Rept. 99-853, Pt. 1). Ordered to be printed.

Mr. UDALL: Committee on Interior and Insular Affairs. S. 816. An act to establish the Pine Ridge Wilderness and Soldier Creek Wilderness in the Nebraska National Forest in the State of Nebraska, and for other purposes; with amendments (Rept. 99-854, Pt. 1). Ordered to be printed.

Mr. HAWKINS: Committee on Education and Labor. Report on section 302(b) of the Congressional Budget Act of 1974 (Rept. 99-856). Referred to the Committee of the Whole House on the State of the Union).

Mr. JONES of North Carolina: Committee on Merchant Marine and Fisheries. H.R. 5262. A bill to establish the Bayou Sauvage Urban National Wildlife Refuge in the State of Louisiana; with amendments (Rept. 99-857). Referred to the Committee of the Whole House on the State of the Union.

REPORTED BILLS SEQUENTIALLY REFERRED

Under clause 5 of rule X, bills and reports were delivered to the Clerk for printing, and bills referred as follows:

Mr. HUGHES: Committee on the Judiciary. H.R. 5217. A bill to amend title 18 of the United States Code to prohibit certain methods of concealing the proceeds of crime, and for other purposes; with an amendment; referred to the Committee on Banking, Finance and Urban Affairs for a period ending not later than September 26, 1986, for consideration of such portions of the bill and amendment as fall within that committee's jurisdiction pursuant to clause 1(d) of rule X (Rept. 99-855, Pt. 1). Ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. RODINO:

H.R. 5558. A bill to amend title III of the Immigration and Naturalization Act to provide for administrative naturalization, and for other purposes; to the Committee on the Judiciary.

By Mr. MAZZOLI:

H.R. 5559. A bill to amend the Immigration and Nationality Act to improve the administration of the immigration and nationality laws, and for other purposes; to the Committee on the Judiciary.

By Mr. HUGHES:

H.R. 5560. A bill to amend title 18 of the United States Code to ban the production and use of advertisements for child pornography or solicitations for child pornography, and for other purposes; to the Committee on the Judiciary.

By Mr. BOEHLERT:

H.R. 5561. A bill to direct the Secretary of Transportation to study and make recommendations on a default protection plan for airline passengers; to the Committee on Public Works and Transportation.

By Mr. BRYANT:

H.R. 5562. A bill to amend the Immigration and Nationality Act to modify the responsibility of carriers for detention of excludable aliens; to the Committee on the Judiciary.

By Mr. GUNDERSON (for himself, Mr. MARTIN of New York, Mr. JEFFORDS, Mr. LUNDINE, Mr. OBERSTAR, Mr. STANGELAND, Mr. ROTH, Mr. PETRI, Mr. TAYLOR, Mr. MCDADE, Mr. TRAXLER, Mr. HORTON, Mr. NATCHER, Mrs. MARTIN of Illinois, and Mr. VANDER JAGT):

H.R. 5563. A bill to require the Secretary of Agriculture to submit to the Congress an analysis of the effect that the use of bovine growth hormone will have on the milk price support program and on the milk production industry in the United States; to the Committee on Agriculture.

By Mr. LUNDINE:

H.R. 5564. A bill to amend the National Housing Act to provide for the eligibility of certain property for single family mortgage insurance; to the Committee on Banking, Finance and Urban Affairs.

By Mr. ST GERMAIN:

H.R. 5565. A bill to provide for the stability of the domestic banking and thrift systems, to improve housing, to protect the American consumer of financial services, and for other purposes; to the Committee on Banking, Finance and Urban Affairs.

H.R. 5566. A bill to establish the Blackstone River Valley National Heritage Corridor in Massachusetts and Rhode Island; to the Committee on Interior and Insular Affairs.

By Mr. STARK (for himself and Mr. ROSTENKOWSKI):

H.R. 5567. A bill to amend title XVIII of the Social Security Act to require Medicare hospitals and organ procurement agencies to provide preference to U.S. citizens and permanent residents in organ transplants; jointly, to the Committees on Ways and Means and Energy and Commerce.

By Mr. DE LA GARZA (for himself, Mr. ANTHONY, Mr. BEDELL, Mrs. BENTLEY, Mr. BONER of Tennessee, Mr. BONIOR of Michigan, Mr. BOSCO, Mr. BOUCHER, Mr. BRUCE, Mr. BRYANT, Mrs. BURTON of California, Mr. CARNEY, Mr. CARR, Mr. CHAPMAN, Mr. COELHO, Mr. COLEMAN of Texas, Mr. DASCHLE, Mr. DAUB, Mr. DE LUGO, Mr. DORGAN of North Dakota, Mr. DORNAN of California, Mr. DYMALLY, Mr. DYSON, Mr. EDGAR, Mr. EMERSON, Mr. EVANS of Illinois, Mr. FUSTER, Mr. GUNDERSON, Mrs. HOLT, Mr. HORTON, Mr. JEFFORDS, Mr. JONES of Tennessee, Mr. JONES of North Carolina, Mr. LAGOMARSINO, Mr. MORRISON of Washington, Mr. OLIN, Mr. ORTIZ, Mr. PASHAYAN, Mr. ROBERTS, Mr. ROSE, Mr. ROWLAND of Georgia, Mr. SCHUETTE, Mr. STAGGERS, Mr. STALLINGS, Mr. STARK, Mr. TALLON, Mr. VALENTINE, Mr. WHITLEY, and Mr. WORTLEY):

H.J. Res. 733. Joint resolution to designate October 4, 1986, as "National Outreach to the Rural Disabled Day"; to the Committee on Post Office and Civil Service.

By Mr. PARRIS (for himself and Mr. FAUNTROY):

H.J. Res. 734. Joint resolution approving of the action of the District of Columbia Council in approving the "Closing of a Portion of 8th Street, N.W., and the Public Alleys in Square 403 Act of 1984"; to the Committee on the District of Columbia.

By Mr. YATES:

H. Con. Res. 392. Concurrent resolution commemorating the 100th anniversary of the birth of David Ben-Gurion; to the Committee on Post Office and Civil Service.

By Mr. FRANK:

H. Res. 555. Resolution to refer the bill (H.R. 5551) entitled, "A bill for the relief of certain manufacturers or suppliers that provided asbestos materials and products to the United States" to the chief judge of the U.S. Claims Court for a report thereon; to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 1375: Mr. NICHOLS, Mr. LEWIS of California, and Mr. MOODY.

H.R. 3737: Mr. YOUNG of Florida.

H.R. 3800: Mr. DARDEN and Mr. TAUZIN.

H.R. 3989: Mr. APPLEGATE, Mr. ENGLISH, Mr. FAWELL, and Mr. SMITH of New Jersey.

H.R. 4568: Mr. BEILENSON, Mr. LANTOS, and Mr. ATKINS.

H.R. 4885: Mr. BRYANT, Mr. TRAFICANT, Mr. JONES of Oklahoma, Mr. RODINO, Mr. GUARINI, Mr. ENGLISH, Mr. AUCOIN, Mr. WIRTH, Mr. ZSCHAU, and Mr. EDGAR.

H.R. 4953: Mr. HARTNETT and Mr. LEACH of Iowa.

H.R. 5076: Mr. BRYANT, Mr. JONES of Oklahoma, Mr. RODINO, Mr. GUARINI, Mr. ENGLISH, Mr. WIRTH, and Mr. EDGAR.

H.R. 5133: Mr. FEIGHAN.

H.R. 5135: Mr. FEIGHAN.

H.R. 5136: Mr. FEIGHAN.

H.R. 5137: Mr. FEIGHAN.

H.R. 5138: Mr. EVANS of Illinois and Mr. FEIGHAN.

H.R. 5140: Mr. COLEMAN of Texas, Mr. STARK, Ms. KAPTUR, and Mr. BONIOR of Michigan.

H.R. 5217: Mr. BRYANT, Mr. JONES of Oklahoma, Mr. GUARINI, Mr. ENGLISH, Mr. AUCOIN, Mr. MILLER of Ohio, Mr. WIRTH, Mr. ZSCHAU, Mr. PETRI, and Mr. EDGAR.

H.R. 5225: Mr. BUSTAMANTE and Mr. NIELSON of Utah.

H.R. 5246: Mr. BRYANT, Mr. KANJORSKI, Mr. JONES of Oklahoma, Mr. RODINO, Mr. GUARINI, Mr. ENGLISH, Mr. MILLER of Ohio, Mr. WIRTH, Mrs. BOXER, Mr. ZSCHAU, and Mr. EDGAR.

H.R. 5255: Mr. SAVAGE, Mr. BIAGGI, Mr. KOLBE, Mr. GARCIA, Ms. KAPTUR, and Mr. HYDE.

H.R. 5262: Mr. ROEMER, Mrs. LONG, Mr. TAUZIN, and Mr. HUCKABY.

H.R. 5326: Mr. HORTON.

H.R. 5328: Mr. DANIEL, Mr. ECKART of Ohio, Mr. ATKINS, Mr. RIDGE, Mrs. BENTLEY, Mr. KLECZKA, and Mr. SISISKY.

H.R. 5393: Mr. ZSCHAU, Mr. AUCOIN, and Mr. EDGAR.

H.R. 5394: Mr. JONES of Oklahoma, Mr. RODINO, Mr. ENGLISH, and Mr. EDGAR.

H.R. 5396: Mr. MRAZEK and Mr. GARCIA.

H.R. 5425: Mr. FEIGHAN.

H.R. 5465: Mr. PANETTA, Mr. HOPKINS, Mr. FAZIO, Mr. DWYER of New Jersey, Mr. WALKER, Mr. MINETA, Mr. ROBINSON, Mrs. BOXER, Mr. SUNDQUIST, Mr. SLATTERY, MR. LUKEN, and Mr. KILDEE.

H.R. 5485: Mr. MCCOLLUM and Mr. SCHUETTE.

H.R. 5501: Mr. STAGGERS.

H.R. 5512: Mr. DYSON, Mr. MYERS of Indiana, Mr. NIELSON of Utah, Mr. GRAY of Illinois, Mr. STENHOLM, Mr. DWYER of New Jersey, Mrs. HOLT, and Mr. WILSON.

H.R. 5520: Mr. WALDON, Mr. HORTON, Mr. PERKINS, Mr. GOODLING, Mr. WOLPE, Mr. SIKORSKI, Mr. KILDEE, Mr. WOLF, Mr. LEHMAN of Florida, Mr. REID, Mr. MORRISON of Connecticut, Mr. CONTE, Mr. MITCHELL, Mr. MILLER of California, Mrs. JOHNSON, Mr. MCKINNEY, Mr. FAZIO, Mr. SMITH of Florida, and Mr. ATKINS.

H.R. 5529: Mr. DORNAN of California, Mr. COURTER, Mr. WORTLEY, Mr. WALKER, Mr. MACK, Mrs. HOLT, and Mr. DENNY SMITH.

H.R. 5538: Mr. MCKINNEY.

H.J. Res. 438: Mr. MOORHEAD, Mr. LOEFFLER, Mr. BARTLETT, Ms. SNOWE, Mr. TAUKE, Mr. CRANE, Mr. TAYLOR, Mr. MACK, and Mrs. VUCANOVICH.

H.J. Res. 550: Mr. HORTON, Mr. WORTLEY, Mr. COATS, Mr. COYNE, Mr. BADHAM, Mr. LAFALCE, Mr. BOSCO, Mr. FRANK, Mrs. KENNELLY, Mrs. JOHNSON, Mr. WOLPE, Mr. ROBERTS, Mr. BILIRAKIS, Mr. WYLIE, Mr. MINETA, Mr. WIRTH, Mr. KRAMER, Mr. ROSE, Mr. BORSKI, Mr. BERMAN, Mr. BARNARD, Mr. BOUCHER, Mr. BEVILL, Mr. CHAPPIE, Mr. COELHO, Mr. CONTE, Mr. DOWDY of Mississippi, Mr. EDGAR, Mr. FLIPPO, Mr. FOGLIETTA, Mr. FRENZEL, Mr. CONYERS, Mr. DIOGUARDI, and Mr. HENRY.

H.J. Res. 584: Mr. DYSON, Mrs. BURTON of California, Mr. BATEMAN, Mr. FEIGHAN, Mr. YOUNG of Missouri, Mr. WALGREN, Mr. SUNIA, Mr. GUARINI, Mr. WOLPE, Mr. WEISS, Mr. TALLON, Mr. WALDON, Mr. MCGRATH, Mr. CAMPBELL, Mr. LEWIS of Florida, Mr. LIGHTFOOT, Mr. DENNY SMITH, Mr. ROBERT F. SMITH, Mr. BROWN of California, Mr. MORRISON of Connecticut, Mr. JEFFORDS, Mr. MILLER of Washington, Mr. HUGHES, Mr. DASCHLE, Mr. DIOGUARDI, Mr. LUNGREN, Mr. DYMALLY, Mr. FIELDS, Mr. STOKES, Mr. MYERS of Indiana, Mr. KRAMER, Mr. ANDREWS, Mr. NICHOLS, Mr. PANETTA, Mr. LANTOS, Mr. DINGELL, Mr. SAVAGE, Mr. SMITH of New Hampshire, Mr. BRYANT, Mr. HENDON, Mr. ROWLAND of Georgia, Mr. BERMAN, Mr. LAFALCE, Mr. RAHALL, Mr. KOSTMAYER, Mr. LIPINSKI, Mr. ROSE, and Mr. LEVIN of Michigan.

H.J. Res. 631: Mr. EDGAR.

H.J. Res. 639: Mr. BARNES, Mr. GUARINI, Mr. GUNDERSON, Mr. BOULTER, Mr. MOORHEAD, Mr. VANDER JAGT, Mr. BOLAND, Mr. JEFFORDS, Mr. WILSON, Mr. LOTT, Mr. MONTGOMERY, Mr. FRANKLIN, Mr. DURBIN, Mr. MILLER of Washington, Mr. ALEXANDER, Mr. HANSEN, Mr. RINALDO, Mr. BEDELL, Mr. ROBERTS, Mr. BREAUX, Mr. PEPPER, Mr. CHAPPIE, Mr. DASCHLE, Mr. WALGREN, Mr. FOLEY, Mr. BLAZ, Mr. FROST, Mr. STAGGERS, Mr. FRENZEL, Mr. WHITTEN, Mr. LELAND, Mr. PACKARD, Mr. LUKEN, Mr. OBERSTAR, Mr. DARDEN, Mr. CONYERS, Mr. LOWRY of Washington, Mr. YATRON, Mr. SCHEUER, Mr. WEBER, Mr. LEHMAN of California, Mr. STARK, Mr. GREEN, Mr. KASTENMEIER, Mr. LEVIN of Michigan, Mr. STANGELAND, Mr. WYDEN, Mr. MOORE, Mr. LOWERY of California, Mr. LIVINGSTON, Mr. LANTOS, Mr. AUCOIN, Mr. WEISS, Mrs. KENNELLY, Mr. GRAY of Illinois, Mr. CARR, Mr. DANNEMEYER, Mr. SMITH of Iowa, Mr. ROWLAND of Connecticut, Mr. SAXTON, Mr. COYNE, Mr. MAVROULES, Mr. BONIOR of Michigan, Mr. CLAY, Mr. MCCOLLUM, Mr. ROBINSON, Mr. GRAY of Pennsylvania, Mr. DIXON, Mr. ANTHONY, Mr. KEMP, Mr. HAMILTON, and Mr. BATES.

H.J. Res. 643: Mr. DERRICK, Mr. DORGAN of North Dakota, Mr. SKELTON, Mr. CHAPPELL, Mr. TALLON, Mr. COATS, Mr. LEWIS of Florida, Mr. YOUNG of Florida, Mrs. LLOYD, Mr. BARNARD, and Mr. GALLO.

H.J. Res. 657: Ms. MIKULSKI, Mr. BERMAN, Mr. DYSON, Mr. VANDER JAGT, Ms. KAPTUR, Mr. COURTER, Mr. WYLIE, Mr. ATKINS, and Mr. YOUNG of Florida.

H.J. Res. 709: Mr. WHITTEN, Mr. BONIOR of Michigan, Mr. KOSTMAYER, Mr. BERMAN, Mr. SWINDALL, Mr. WIRTH, Mrs. HOLT, Mr. TAUZIN, Mr. FRENZEL, Mr. CARNEY, and Mr. LEVINE of California.

H.J. Res. 728: Mr. SPENCE, Mr. COELHO, and Mr. DYSON.

H. Con. Res. 129: Mr. MOODY, Mrs. MARTIN of Illinois, Mr. ATKINS, Mr. LEHMAN of California, Mr. JACOBS, and Mr. ZSCHAU.

H. Con. Res. 233: Mr. BRYANT and Mr. ROBINSON.

H. Con. Res. 389: Mr. LAGOMARSINO, Mr. HORTON, Mr. FAUNTROY, Mr. WILSON, and Mr. YOUNG of Missouri.

PETITIONS, ETC.

Under clause 1 of rule XXII, petitions, and papers were laid on the Clerk's desk and referred as follows:

482. By the SPEAKER: Petition of the Board of County Commissioners, Monroe County, FL, relative to funds for Key Deer Refuge acquisition; to the Committee on Appropriations.

483. Also, petition of Samuel Rosenstrauch et al, Federal Correctional Institute, Butner, NC, relative to anti-Semitism; to the Committee on the Judiciary.

AMENDMENTS

Under clause 6 of rule XXIII, proposed amendments were submitted as follows:

H.R. 5495

By Mr. TORRICELLI:

—Strike out section 108 (page 12, lines 10 through 25) and insert in lieu thereof the following:

SEC. 108. (a) The Administrator of the National Aeronautics and Space Administration shall prepare and submit to the Congress, no later than March 31, 1987, a comprehensive acquisition strategy and plan for the continued procurement of space shuttle solid rocket boosters. The acquisition strategy and plan shall specifically address (1) the decisions made by the Administration for upgrading the motor design, (2) alternatives for establishing and maintaining competition in future procurements, and (3) the costs and benefits of each such alternative.

(b) Within 60 days after the submission to the Congress of the comprehensive acquisition strategy and plan, the Administrator shall issue a request for proposal for a second source for the boosters. The Administrator shall consult with the Comptroller General of the United States in preparing the request for proposal in order to ensure that it is designed to achieve full and open competition for the procurement as required by the Competition in Contracting Act.

(c) The Administrator, after consulting with the Comptroller General, shall determine whether a request to the Congress for second source qualification funding is necessary or desirable in order to permit the second source to compete with the incumbent on a fair and effective basis, consistent with the Competition in Contracting Act.

(d) There are authorized to be appropriated (in addition to any other amounts authorized to be appropriated pursuant to this Act) such sums as may be necessary to enable the Administrator to prepare the strategy and plan under subsection (a), issue the request for proposal under subsection (b), and make the determination under subsection (c).

SENATE—*Friday, September 19, 1986*

(Legislative day of Monday, September 15, 1986)

The Senate met at 9:30 a.m., on the expiration of the recess, and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

God of justice, mercy, and peace, today is a day of remembrance when our thoughts go to Vietnam to our unknown heroes who are prisoners of war and missing in action. With deep gratitude we remember those thousands who sacrificed with their lives during this period in history so filled with controversy, vituperation, and dissension. We recall with shame our indifferent response to the brave men and women who returned from the war who should have been welcomed with honor and thankfulness.

But most of all, Father in Heaven, we remember those who did not return who are still alive. We pray for their wives and children who have had to endure the worst kind of uncertainty and unrelieved apprehension. As this day renews their pain, may it be a reminder to them that their loved ones have not been forgotten—that there are those who refuse to forget—who continue to care and seek answers which will mitigate irresolution and bring consolation. Gracious God, guide those who persevere in their unrelenting search for a solution. In His name who never leaves us or forsakes us. Amen.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The able and distinguished majority leader, Senator ROBERT DOLE of Kansas.

Mr. DOLE. I thank the distinguished Presiding Officer, the Senator from South Carolina, Senator THURMOND.

SCHEDULE

Mr. DOLE. Mr. President, under the standing order, the leaders have 10 minutes each. We have seven special orders of 5 minutes each for Senators HAWKINS, PROXMIRE, HEINZ, SASSER, WALLOP, BAUCUS, and MATTINGLY; to follow the leaders' time; and routine morning business not to extend beyond the hour of 10:30 a.m.

At the conclusion of morning business, we will resume the pending business, S. 2706, the reconciliation bill. If there should be a gap of an hour or two, rather than just stand in recess, I hope we might be able to take care of some other legislation.

I would also indicate to my colleagues that I understand the reconciliation package has been drafted. There is just one little piece they are checking on with the Finance Committee—with Senator PACKWOOD and Senator LONG. It may be that, with some luck, we could start on it this morning.

Under the agreement, there will be 8 hours from the time that Senator DOMENICI and Senator CHILES offer their amendment. Hopefully, we could conclude action by mid or late afternoon. I hope debate would not extend beyond that. I understand, in visiting with Senator DOMENICI last evening, there is a need to go back to check with the chairman and ranking member of each committee that may be affected, so they will understand perfectly what is involved. If Senator DOMENICI and Senator CHILES are ready at 10:30, then I hope we could start on reconciliation at 10:30.

If we complete action on reconciliation today, it would be my hope we could postpone the vote on the so-called sequester until after there has been a conference with the House on reconciliation. The House does not take up reconciliation until sometime next week. If we could meet the deficit targets—and I understand it is almost met in the package that Senator DOMENICI and Senator CHILES have been working on—then that vote may not have to occur.

POW/MIA DAY—WE WILL NEVER FORGET

Mr. DOLE. Mr. President, as Chaplain Halverson has just indicated, today is a special day of recognition for a group of very special Americans. It is POW/MIA Day—a day devoted to our servicemen who are still missing in action, or who are still held as prisoners of war on foreign soil.

Later this morning, a ceremony honoring our POW's and MIA's—and their families—will take place on the Capitol Grounds. I am pleased that so many of my colleagues will join me in this proud event, especially Senator JEREMIAH DENTON of Alabama and Representative JOHN MCCAIN of Arizona, both of whom survived the nightmare of imprisonment in Southeast Asia.

DEMAND A FULL ACCOUNTING

Today is a day not only for remembering the sacrifices of these brave servicemen and their families, but also for making a pledge—a pledge that we will never forget, nor will we ever rest until we have a full accounting of all our POW's and MIA's.

We are deeply moved by the courage of the loved ones of our missing heroes. Their determination in the face of such personal anguish is a real inspiration. I salute their dedication and ask that every American join them in their long struggle to bring their sons home.

Mr. President, today's ceremony on Capitol Hill will be matched by hundreds and hundreds across this great land. Let us join with the ceremonies in our home States by pledging to work together to finally resolve this national sorrow.

KANSAS HEROES—38 BRAVE MEN

In ceremonies in Topeka and Wichita today, our Kansas MIA's will be remembered with the solemn reading of our list of honor. Mr. President, I ask unanimous consent that the following list of Kansans be printed in the RECORD, so that generations to come will have the opportunity to recall the sacrifice of these brave Americans.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

U.S. CASUALTIES IN SOUTHEAST ASIA

Alphabetic listing—Kansas

Military service	Country of casualty	Name	Loss rank	Date of incident	Date of birth	Home of record city
Air Force	LA	Adam, John Quincy	E3	May 22, 1968	Dec. 22, 1947	Bethel.
Marine Corps	VS	Allgood, Frankie Eugen	O5	Mar. 26, 1968	May 01, 1930	Fort Scott.
Navy	LA	Anderson, Denis Leon	O2	Jan. 11, 1968	Oct. 24, 1942	Hope.

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

U.S. CASUALTIES IN SOUTHEAST ASIA—Continued

Alphabetic listing—Kansas

Military service	Country of casualty	Name	Loss rank	Date of incident	Date of birth	Home of record city
Marine Corps	VS	Bennfield, Steven Henry	E3	Jul.29, 1967	Dec. 24, 1947	Girard.
Marine Corps	VS	Breeding, Michael Hugh	02	Feb.12, 1970	Mar. 19, 1945	Blue Rapids.
Navy	VN	Christian, David Marion	02	Jun. 02, 1965	Jan. 15, 1941	Lane.
Air Force	VN	Claflin, Richard Ames	03	Jul. 26, 1967	Jul. 02, 1939	Kansas City.
Air Force	LA	Donovan, Michael Leo	03	Sep. 30, 1971	Nov. 09, 1944	Norton.
Air Force	LA	Gillen, Thomas Eldon	04	Feb. 18, 1970	May 08, 1933	Kingman.
Air Force	VN	Graham, Dennis L.	03	Mar. 28, 1968	May 11, 1941	Greensburg.
Air Force	LA	Harrold, Patrick K.	02	Dec. 05, 1969	Dec. 07 1944	Fort Leavenwhorth.
Marine Corps	VS	Hendrix, Jerry Wayne	E6	Jul. 11, 1972	Dec. 27, 1942	Wichta.
Air Force	LA	Hoskins, Charles L.	02	Feb. 16, 1971	Aug. 05, 1944	Shawnee Mission.
Air Force	VN	Jewell, Eugene M.	02	Sep. 04, 1965	Jan. 15, 1941	Topeka.
Air Force	VS	Karst, Carl F.	04	Nov. 16, 1968	Oct. 27, 1930	Galatia.
Air Force	VN	Klenda, Dean Albert	02	Sep. 17, 1965	Aug. 20, 1940	Manhattan.
Marine Corps	VS	La Plant, Kurt Elton	E3	Jun. 06, 1968	Dec. 11, 1948	Lenexa.
Air Force	VN	Lehreoff, Howard M.	03	Nov. 18, 1967	Mar. 14, 1936	Scott.
Navy	VN	Lindahl, Hohn Carl	03	Jan. 06, 1973	Mar. 20, 1941	Lindsborg.
Air Force	VS	Long, George Wendell	E3	May 12, 1968	Sept. 30, 1948	Medicine Lodge.
Air Force	VN	Martin, Larry E.	03	Jul. 15, 1968	Feb. 11, 1940	Wakefield.
Air Force	VN	Mc Cubbin, Glenn Dewayne	02	May 19, 1968	Aug. 21, 1942	Almena.
Marine Corps	VS	Mc Gomigie, William Dee	E2	May 10, 1968	Oct. 29, 1948	Wichita.
Army	VS	Mc Kain, Robby Lyh	W2	May 03, 1968	Feb. 11, 1946	Garden City.
Navy	VN	Moore, William R.	E5	Oct. 02, 1969	Dec. 21, 1945	Princeton.
Navy	VS	Mowrey, Richard Lynn	02	Dec. 24, 1966	Apr. 01, 1943	Sharlet Mission.
Navy	VS	Neil, Fred Albert	04	Jan. 16, 1966	Mar. 17, 1932	Fort Scott.
Navy	VS	Patton, Ward Karl	E6	Jul. 27, 1968	Jan. 18, 1934	Fontana.
Air Force	LA	Pugh, Dennis Gerard	02	Mar. 19, 1970	Feb. 10, 1944	Salina.
Army	VS	Robinson, Floyd Henry	E5	Mar. 12, 1969	Jan. 28, 1949	Burlington.
Army	VS	Schuliz, Ronald James	E3	Jul. 21, 1970	May 27, 1948	Hillsboro.
Air Force	VS	Smith, Richard O.	03	Mar. 11, 1965	Aug. 16, 1937	Whichita.
Air Force	LA	Standerwick, Robert L.	05	Feb. 03, 1971	Jun. 23, 1930	Mankato.
Air Force	LA	Sutter, Frederick John	03	Dec. 31, 1971	Feb. 26, 1946	Leanwood.
Navy	VN	Thompson, William Joseph	04	Jan. 16, 1968	Dec. 13, 1930	Kansas City.
Navy	VN	Tiderman, John Mark	04	Mar. 21, 1966	Aug. 23, 1934	Kansas City.
Army	VS	Welsh, Larry Don	E5	Jan. 07, 1969	Jun. 16, 1947	Kansas City.
Marine Corps	VS	Zutterman, Joseph A. Jr.	E5	Apr. 20, 1968	Oct. 03, 1944	Marysville.

Mr. DOLE. Mr. President, there are 38 Kansans on that list.

We will never forget. We will always remember.

HOUSE VOTES RIGHT FOR A CHANGE

Mr. DOLE. Mr. President, from time to time, I have been critical of actions taken by the other body, by the House of Representatives, because I held a different view and I believe the Senate generally held a different view. So I think it is only fair that I take a moment now to commend the House for a very positive vote.

The day before yesterday, the House voted in a solid, bipartisan way to strip from its intelligence authorization bill the so-called "Hamilton Amendment." The real impact of that amendment would have been to scuttle any effective United States assistance for Jonas Savimbi's democratic resistance forces in Angola [UNITA].

The House vote this week is the latest indication that the majority in both Houses want aid to continue, until the Marxist regime in Angola sends home all the Cuban troops there, and begins to negotiate in good faith the transition to a real representative government in Luanda.

Southern Africa is in ferment. We are rightly concerned about the situation in South Africa. But, as we pursue efforts to end the apartheid system there, we cannot afford to lose sight of the fact that we have other important interests in the region, too. We cannot afford to ignore the real danger of Soviet expansionism, or the military threat posed by those Cuban troops.

Aid to [UNITA] is an important way to further our security interests. We ought to provide the aid that is needed, on a timely basis. The House vote is a major step in allowing the administration to do just that. I commend the House for its action, and I urge the administration now to redouble its efforts to help Jonas Savimbi and [UNITA] pursue the struggle that serves so well both the cause of freedom in Angola and the national interests of the United States.

Mr. President, I reserve any time I have remaining.

VITIATION OF SPECIAL ORDER FOR SENATOR WALLOP

Mr. DOLE. Mr. President, I ask unanimous consent that the special order for Senator WALLOP be vitiated.

The PRESIDING OFFICER. Without objection, it is so ordered.

QUESTIONS ABOUT THE PHILIPPINE BASES

AQUINO ADDRESS EXCELLENT

Mr. DOLE. Mr. President, like every other Senator, I have spoken to over the past 24 hours, I was deeply impressed with President Aquino's eloquent address to our joint meeting. And, having had the opportunity to meet with her in my office after her speech yesterday, I was equally impressed on a personal level with her quiet determination, commitment to democracy and willingness to meet the difficult responsibilities she bears for her country.

President Aquino deserves U.S. support, and her country deserves U.S. assistance. And, of course, we have already provided substantial sums for fiscal year 1986 and will undoubtedly be approving additional large sums for fiscal year 1987. We are also taking a look at the possibility of some supplemental aid this year, though that request will have to be weighed against the very difficult budget dilemma we face and the other equally high priority demands for any additional funds we can scrape up.

IMPORTANCE OF U.S. BASES

One issue I did raise with her in our meeting yesterday was the U.S. bases. I expressed appreciation for her commitment to abide by the bases agreement through 1991 and understanding for her desire not to address the issue in detail on this trip. It is the right course for both countries to take up this issue in detail at the appropriate time, under the provisions of the agreement itself. In the meantime, though, it is also the appropriate course for both sides to keep their powder dry—to avoid any actions which seriously complicate or raise questions about the issue. That was what I understood her position to be, and it is the position I embrace, as well.

CONCERN ABOUT CONSTITUTIONAL COMMISSION ACTIONS

For that reason, I am concerned about press accounts of the actions of the Philippine Constitutional Commission, whose members were in fact appointed by President Aquino. Yesterday, the commission approved a provision for the new constitution which will require any extension of the bases agreement to be done by treaty rather

than executive agreement. Under that provision, it could even well be that the bases issue will end up being submitted to the Philippine people in a referendum. It seems to me that this whole procedure practically guarantees that the bases issue will turn out to be an explosive domestic political issue in the Philippines and subject to being made a hostage to the broader political struggle in the country.

I should also add that it is almost as disturbing that the Commission, by a relatively narrow margin, turned back an attempt to include in the Constitution right now a ban on the bases after 1991.

ANOTHER OMINOUS NOTE

New press reports this morning add another ominous note. These reports say that the Commission is poised to adopt for the Constitution yet another provision declaring the Philippines a "nuclear free country," in which nuclear weapons could not be stockpiled or stored. How this would impact on the bases, where we have many ships and aircraft that are capable of carrying nuclear weapons and are an essential component of our nuclear deterrent in the Pacific, remains unclear. But this whole issue raises a new, huge question mark over the future of Clark and Subic.

Now let me make clear that I fully acknowledge that these are issues within the sovereign right of the Philippines to decide. It is up to the Filipino people to decide whether and how they want to deal with these issues in their own Constitution.

But it is hard to square President Aquino's desire—which, again, I understand—not to address the bases issue with us now with the fact that, at the very same time, the Commission which she herself appointed seems to be taking major steps to shape—and shape may be much too weak a word—the options we have for dealing with this issue down the road. If the Philippine side wants to take fundamental decisions on the bases issue now—and I don't think we have to, but if they do—then the Philippine side ought to be prepared to discuss this issue directly and in detail with us now, too.

Mr. President, I strongly urge the administration to take advantage of President Aquino's presence here to raise these concerns with her and to obtain from her assurances that—if we want to put off decisions on this issue for now, as we should—then her side is not going to take any irrevocable, unilateral decisions, either.

RECOGNITION OF THE MINORITY LEADER

The PRESIDENT pro tempore. The able and distinguished Democratic leader, Senator ROBERT BYRD of West Virginia.

Mr. BYRD. Mr. President, I thank the Chair.

SCHEDULE

Mr. BYRD. Mr. President, would the distinguished majority leader be in a position at this time to indicate whether or not, in his judgment, the Senate will be in tomorrow and, in any case, what the program will likely be for Monday and Tuesday, the early part of next week?

Mr. DOLE. At this time, I would see no need for a Saturday session if we complete action on reconciliation. I guess that is the caveat. It would be my hope that we can complete reconciliation this evening, postpone the sequester vote, and then return on Monday.

On Monday, by agreement, there will be no votes after 3 or 3:30 p.m. in the afternoon. Perhaps we will be able to discuss product liability or discuss other matters that do not require votes after that time.

I am hopeful that as soon as we introduce our bill on drug legislation—I have already had a letter from the distinguished minority leader indicating a willingness to sit down immediately and go to work on that—we can work on that early next week.

We are waiting for the House to act on the continuing resolution. We are waiting for the House to act on the tax conference report.

I am advised by the chairman of the Appropriations Committee that he would rather not bring up any more appropriations bills. The highway bill could be resolved by Monday. They had a good discussion yesterday. Members are now meeting, as I understand, to try to resolve some of the differences on that bill. We could take up the highway bill Monday but there will be no votes after 3 or 3:30. Then I would guess Tuesday, Wednesday, Thursday, Friday, and Saturday of next week we will have a pretty full plate.

Mr. BYRD. May I ask the leader, Mr. President, what is the likelihood, as he sees it at this time, for a conference report on the Superfund legislation?

Mr. DOLE. I was advised yesterday morning while I was attending a Finance Committee meeting that Senators PACKWOOD and BENTSEN would be meeting, I think this morning or late yesterday on Superfund. They did not indicate whether or not they were going to complete the conference. They have to find some way to pay for the Superfund. I will try to find out what happened and make that available for all of our colleagues. That is important legislation and I hope we end up with an extended program, not just a 6-month extension of the present program.

Mr. BYRD. I also hope we will end up with a program that will not force our chemical companies to go out of business. I have reference to the waste end tax which would be very detrimental to chemical companies.

My discussions with management and labor at the chemical companies in West Virginia indicate very clearly that the chemical industry in that State would suffer considerably if there is a waste end tax. I have contacted our conferees urging that that legislation be brought back to the Senate as soon as possible, and also expressing opposition to a waste end tax.

May I say, I am interested very much in the announcement by the distinguished majority leader that Senate Republicans will have a drug bill which will be revealed later today in a news conference.

The House has sent a drug bill to the Senate. The Democrats appointed by me on a working group several weeks ago have already outlined the provisions of a drug bill which has been introduced some days ago on this side.

The President has announced his drug package.

I hope that the distinguished majority leader, as soon as possible after his news conference, will be able to think about scheduling drug legislation in the Senate for action.

I stand ready, and have already indicated to my staff that they should work with the majority leader's staff. Senator CRANSTON, Senator CHILES, Senator BIDEN, and others, have their staffs already working with our group. I do think it is imperative, in the 2 weeks remaining before the hoped-for sine die adjournment on October 3, that we schedule drug legislation well in advance so that the Senate will have adequte time to debate it and it can go to conference and be put on the President's desk before adjournment.

Mr. DOLE. If the minority leader will yield, I do not have any quarrel with that. In fact, what we have done is to try to work with the administration to take care of some of the glitches in advance. I think we have done that, but maybe we have not. We also have incorporated some of the excellent provisions in the Democratic bill, some in the House bill, some ideas that Senators on each side have had since the bill was introduced. I hope we would be in a position to start some negotiation before we bring it to the floor to save some time. We can do that over the weekend.

The Senator is exactly right. We know it will take at least a week on the CR. If we are going to leave on October 3, our days to do much else are rather few.

Mr. BYRD. They are indeed. I think the majority leader is being realistic in saying so. My staff is ready and pre-

pared. This is a bipartisan problem and we want to work together. We stand ready, I assure the majority leader.

Mr. DOLE. Mr. President, I vitiated the special order for Senator WALLOP. I should have asked for Senator DANFORTH to have that time.

The PRESIDING OFFICER (Mr. DANFORTH). Without objection, it is so ordered.

Mr. BYRD. Mr. President, while the distinguished majority leader is still on the floor, with respect to the sequester resolution, may I make a parliamentary inquiry?

The PRESIDING OFFICER. The Senator will state it.

Mr. BYRD. What will occur at midnight this day in the event a reconciliation resolution has not been passed by that time or by the close of business today?

The PRESIDING OFFICER. The Chair will put the question on the passage of the sequester resolution.

Mr. BYRD. Would that occur precisely at the hour of midnight?

The PRESIDING OFFICER. If the Senate is in session, yes.

Mr. BYRD. And if the reconciliation measure has not been disposed of or has been disposed of, in either case?

The PRESIDING OFFICER. The Senator is correct.

Mr. BYRD. Does the distinguished majority leader have any question?

Mr. DOLE. I agree with that.

Mr. BYRD. May I just say that Senators DOMENICI and CHILES and others have been working frenetically in an attempt to develop a reconciliation resolution in the meantime. They have been spending many hours in that effort.

THE SHULTZ-SHEVARDNADZE MEETING

Mr. BYRD. Mr. President, the Foreign Minister of the U.S.S.R. and the United States Secretary of State are meeting today, exploring the prospects for a summit. In such a preparatory situation, a positive atmosphere is needed to enhance the prospects for progress at any summit meeting which may be held, and I have been among the foremost in promoting a second summit meeting. If we are to see any real possibility of an arms control agreement in the near future, I think it is essential for a summit to occur.

It does not have to occur tomorrow or next week, but I think a summit is essential.

The atmosphere, as is obvious to everyone, has been clouded over with respect to Mr. Daniloff's incarceration and his indictment. He is still not free to leave the Soviet Union. Mr. Gorbachev, in some tough talk yesterday, insisted that Mr. Daniloff is a spy and accused the United States of damaging our overall relationship. This is baloney, or whatever the Russian equivalent of baloney happens to be. It has been obvious to everyone, including Mr. Gorbachev, that making a hostage out of a newsman was only calculated to win the quick release of a Soviet citizen caught red-handed in an espionage attempt in New York. That turned out to be a miscalculation.

Mr. President, I was gratified to hear that Mr. Shevardnadze stated yesterday that "solutions are possible" in the Daniloff affair. Let us hope that the Soviets remove this growing carbunkle in our relationship now. Mr. Shevardnadze also stated that the "Soviets are ready for a summit."

The Daniloff and U.N. spy questions are dominating the overall United States-Soviet relationship now to a dangerous degree. These matters must be handled with a view toward the overall relationship. The issues which are capable of resolution at a summit meeting are very, very important. They should not be jeopardized because of a need to be macho, to defend one's national ego at all costs, or to score points among competing internal bureaucracies. Such matters should not be allowed to be manipulated by actions the purpose of which is to derail real progress on the issues that really count.

So, Mr. President, maximum effort needs to be made to sober up, cut through the macho, end the news splashes, and act like superpowers with a sense of responsibility. Let us hope the two foreign ministers will make some tangible progress today.

Mr. President, do I have any time left?

The PRESIDING OFFICER. The Senator has used his time.

Mr. BYRD. I thank the Chair.

RECOGNITION OF SENATOR HAWKINS

The PRESIDING OFFICER. Under the previous order, the Senator from Florida [Mrs. HAWKINS] is recognized for not to exceed 5 minutes.

DRUG DILEMMA UNSOLVABLE WITHOUT ADEQUATE TREATMENT PROGRAMS

Mrs. HAWKINS. Mr. President, all the time, effort, and money spent to fight illegal drugs is greatly diminished unless the millions of Americans who have drug problems are properly treated. Crop eradication, interdiction, education, testing, and law enforcement are all essential elements of the formula needed to combat drug abuse. But effective drug treatment is also essential. Without effective treatment for the men and women, boys and girls whose lives have been shattered by drug abuse, there can be no victory in the war on drugs. This war is about people. It is not about slogans or political campaigns, it is about healing and protecting people from the ravages of drug abuse.

I know there has been growth in drug abuse programs, but they are still grossly inadequate. Demand far outstrips supply.

Making matters even worse, rehabilitation costs are now beyond the reach of many drug abusers and their families. Many treatment centers charge a flat sum, $2,500 or $3,000 for example, plus a monthly fee for food and incidentals. Others operate on a daily or monthly basis. Daily costs in some of the more sophisticated programs can run up to $500. Most insurance policies do not cover drug treatment, meaning that a drug user is on his own when he seeks professional help. While some employers may be sympathetic, they claim that without insurance, they cannot afford to cover treatment costs for an employee who needs rehabilitation.

Clinics and residential programs funded by Government grants and private donations, which tend to cost less, are bursting at the seams. They cannot admit all the drug users who need to get in for help. A 3-month waiting list for these subsidized treatment centers is not uncommon.

Many insurance companies that cover treatment for alcoholism and mental health ignore chemical dependency. This is sad and shortsighted. It is an outmoded policy that is out of step with the times.

There are professional disagreements about drug treatment procedures. Some experts think that a patient should be removed from his home or work environment on the theory that these could be factors hindering rehabilitation. Others think the home and workplace are anchors without which a drug user would be completely adrift. There are highly structured programs such as Straight and Genesis Two, which impose strict discipline on their clients, with a generous dose of group encounter sessions. Other programs are more casual in their approach, with heavy emphasis on group therapy to reshape drug users' attitudes. The length of an effective drug treatment program can run 1 or 2 years. Drug users require followup care and counseling, sometimes as long as 5 years to ensure that they remain "drug free." There are differences among drug rehabilitation experts about methods and what is the best approach. I am for anything that works. That's the advantage of using the private sector for treatment programs. The drug abuse patient and his or her family can choose the program based on factors such as cost and history of success.

But there is also a role for the Federal Government. Federal money to help devise and operate drug treat-

ment programs has grown steadily since 1982. These dollars fund public and private drug rehabilitation centers, in the form of block grants to States based on need. But it is still clear that we need to channel additional resources from both the Government and the private sector into drug treatment. Drug rehabilitation is an essential element in the war on drugs. Unless we are willing to recognize this fact and give it the priority it deserves, we will never heal our Nation of the pain caused by drug abuse.

RECOGNITION OF SENATOR PROXMIRE

The PRESIDING OFFICER. Under the previous order, the Senator from Wisconsin [Mr. PROXMIRE] is recognized for not to exceed 5 minutes.

Mr. PROXMIRE. I thank the Chair.

LET'S GET THE UNITED STATES OUT OF ANGOLA LOCK, STOCK, AND BARREL

Mr. PROXMIRE. Mr. President, on September 17, the crazy, mixed-up saga of the United States at war with itself in Angola took another major twist. The House of Representatives voted to support the expenditure of $20 million of "covert" aid to Jonas Savimbi, the Marxist rebel in Angola, who has the support of South Africa. Savimbi is trying to overthrow the Communist government of Angola. That Communist Angolan government is propped up by some 30,000 Cuban troops, a massive amount of Russian war equipment and the presence of a substantial cadre of Russian military advisers. But the real support for the Communist government of Angola comes not from Castro's Cubans or from Soviet military sources. Where does it come from? Mr. President—get this—it comes from an American oil company, enthusiastically and aggressively financed by American banks and—are you ready for a shocker—subsidized by loans from a Federal agency, the Export Import Bank. That means the Soviet Cuban Communist government of Angola has been ultimately paid for by the American taxpayer.

Is that outrageous? Its worse. Over the last 10 years, the Cubans and Soviets have pushed more than $4 billion of military assistance into that Communist puppet government of Angola.

If you believe that sounds like quite a commitment by the Cubans and Soviets to the Communist cause in southern Africa, you're wrong. It was no commitment at all. It hardly cost the Russians and Cubans a penny. That Cuban and Russian presence was mosty paid for by the revenues from the royalties and taxes paid to the Angolan Government by whom? It was paid by the Chevron Gulf Oil Co., an American corporation.

So what side is the United States on in Angola? Do we support the Marxist revolutionary Jonas Savimbi? We sure do. The House of Representatives has just voted $20 million of "covert" aid to do exactly that. But wait a minute. We also support far more generously the very pro-Soviet, pro-Cuban government we are paying Savimbi $20 million to overthrow.

How do we do that? Here's how. We do it with the American corporation—the Chevron-Gulf Oil Co. that provides most of the funds that pay for the Cuban troops and the Russian equipment with the help of more than $200 million of subsidized loans from the United States Export-Import Bank. Does this mean this country supports the pro-Russian, pro-Cuban, pro-Communist government of Angola? It sure does. But not with $20 million. No, indeed. This time we are talking real money.

Over the past 10 years, the government Savimbi is trying to overthrow with millions of dollars of American covert aid has received literally billions of dollars of American funds in royalties and taxes. That pro-Cuban, pro-Russian Communist government is still receiving those taxes and that royalty payment. I mean right now, today. Last July the Senate passed legislation that would end the export-import loan subsidy to the Government of Angola in the future.

The White House has a similar provision in a companion bill. Later this year, the House and Senate are expected to act on a conference report that will prevent American-taxpayer-subsidized loans from being made to Angola in the future.

But that will only take care of a minor part of the problem. Chevron Gulf is still pouring hundreds of millions of dollars a year into the Angolan Government. Those funds are still used primarily to pay for Cuban troops and Russian equipment. In all fairness we have done something—not much—but something about this outrage. Last July, the Senate, in the same legislation I discussed earlier, requested that the President use his "special authority under the International Emergency Economic Powers Act to block United States business transactions which conflict with United States security interests in Angola." That request has no corresponding provision in the House bill. It is not expected at this time to survive the conference and become law. Even if it does, it is doubtful that the President would comply with this request. Until he does, this country is engaging in an expensive war with itself in Angola. This is an outrageous, absurd waste of the $20 million we are giving the Marxist rebel Savimbi while we continue through Chevron Oil to pour billions into the very government we are spending millions to overthrow.

Mr. President, the solution to this mess is very simple. We should just get out of Angola entirely. We should persuade the President to use his international emergency economic powers to shove Chevron Gulf out of Angola. That would cut off the funding of Cuban troops and Soviet advisers and equipment. And then let us save the $20 million the House has voted for the Marxist rebel Savimbi. Let South Africa support him. What is wrong with solving this problem by exercising some good, old fashioned Ben Franklin thrift? Let us save the money on both sides.

THE MYTH OF THE DAY

Mr. PROXMIRE. Mr. President, the myth of the day is that Congress and the administration are confident that the legislation we will pass over the next 3 weeks will help the economy. Before we adjourn, we will pass a far-reaching tax bill, possibly a fix for the Gramm-Rudman law, and a wimpy deficit reduction bill. Every one of these bills will be heralded as ensuring prosperity.

What is the truth? Even more than is usual in this Chamber, we will be voting with our fingers crossed. Winston Churchill's famous comment about Russia—a riddle wrapped in a mystery inside an enigma—applies with equal force to our economy. And we know it.

Start with the data. Some statistics are up, some down, and others unchanged. When economists look at this data, some see a coming boom, others a recession, and still others predict that next year will be a carbon copy of this one. Congress and the administration have voted with the optimists. The data do not support this vote, but they do not refute it either. It was based more on hope than on solid analysis.

We will pass a tax bill, but we do not know with any certainty the effect of that bill on the economy. Some economists think it will help in the long run, but hurt in the short term. Still others think it is a revolutionary change and will revitalize the economy. The only certainty is uncertainty.

Last year, Congress passed the Gramm-Rudman bill, which specifies a balanced budget by fiscal year 1991. Here we are, a year later, and the chairman of the Senate Budget Committee is publicly despairing that we may never balance the budget. Instead of making a good-faith effort to meet the $144 billion target, we are going to punt. We are going to end up doing exactly what we said we were not going to do: Use the $10 billion in additional revenues from the tax bill to reduce the deficit.

What is wrong with that? Next year, in fiscal year 1988, the tax bill loses around $15 billion. By using the $10 billion this year, we will be digging ourselves a deep hole next year.

The only certainty here is that we will not meet the $144 billion target. Optimists believe the deficit will be around $180 billion, and hope that a deficit of this magnitude will help the economy grow. Pessimists believe it will be around $200 billion, and fear that it will drag the economy down.

Mr. President, we are going to be busy over the next 3 weeks. But whether our long hours will help or hurt the economy is up in the air. We will be taking a riverboat gamble no matter how confident we sound on this floor. The American people should realize this fact.

A TRIBUTE TO ESTHER PETERSON

Mr. PROXMIRE. Mr. President, Esther Peterson has been a part of the American consumer movement since its early days. Her enormous contributions have improved the quality of American life and have helped us reorder our national priorities. Her commitment and tenacity as an advocate for the consumer remain unsurpassed.

She served the Government with great distinction as Assistant Secretary of Labor for Labor Standards under President Kennedy. In 1970, she served as a consumer adviser to Giant Food Co., returning to the White House in 1977 as special assistant to President Carter for consumer affairs.

Mrs. Peterson has been called the "grande dame of consumerism." A dynamo of enthusiasm and energy, she has a nationwide reputation for her political skills, legislative experience, and knowledge in consumer matters.

Esther Peterson has made many friends over the years. Her profound convictions, sincerity, knowledge, determination, and brilliance have awed all those who have had the privilege of working with her. One of her current activities is working with the International Organization of Consumers Unions, located in the Netherlands. This organization adopted a consumer policy in May 1986 regarding the rights of the modern consumer. Its theme is that the conditions in which consumers have to live must become better and more equitable. It contains an outline of goals aimed at before the end of this century to protect and represent consumers fairly. The title of this policy is the "Consumer Manifesto 2000." Mr. President, I ask unanimous consent that the "Consumer Manifesto 2000" be printed in the RECORD.

There being no objection, the manifesto was ordered to be printed in the RECORD, as follows:

CONSUMER MANIFESTO 2000

The modern consumer movement, born more than 50 years ago, has become an important means to achieve a just and fair society.

As we move toward the year 2000 it remains committed to this aim. Its theme is that the conditions in which consumers have to live must become better and more equitable. It applauds economic growth only when this leads to well-being and happiness.

By careful research and concerted action, it sets out to redress the imbalance in knowledge and power between suppliers and consumers. It has concrete economic and social ills to challenge, specific market abuses to change, and shortsighted exploitative and destructive use of resources to expose. It draws attention to the need to change bad systems, as well as to deal with their unpleasant symptoms.

The principal needs of the consumer—access to essential goods and services and fair choice, safety, information, representation, redress, consumer education, and a healthy environment—form the agenda of the consumer movement. The marketplace and public authorities alike should become more responsive to those needs.

Such responsiveness includes:

Participation by consumer organizations, on an equal footing with other corporate groups in society, in the formation of policies that affect those they represent;

Ensuring that the basic needs of all consumers are met: adequate food, clothing, shelter, health care, sanitation and education;

Measures to enhance fair competition and to control harmful business and professional practices; for example, to oppose practices that mislead, restrict choice, or erect barriers to trade so as to "protect" business and state enterprises at the expense of the private individual;

Laws and standards that safeguard consumers from hazardous goods and services, as well as from the social costs of environmental pollution; procedures, formal and informal, to provide effective redress to aggrieved consumers at all income levels;

Accurate and adequate information to help consumers choose, an example of the consumer movement's own contribution being the publication by IOCU's affiliates of comparative test and survey results; and

Consumer education to ensure that all people may acquire the knowledge and skills necessary to be informed and active consumers exercising their rights and fulfilling their economic role; special attention must be given to the needs of vulnerable groups such as children, handicapped and the elderly.

We assert the right of organized consumers to be represented, heard and heeded—nationally, regionally, and internationally.

Through IOCU, consumer representatives have successfully called these needs and interests to the attention of the United Nations. The Guidelines for Consumer Protection, adopted by Resolution of the General Assembly, map out a future that it is our duty to advocate and realize for all consumers. By "all", we mean five billion consumers, organized and unorganized, in richer countries and poorer, whose wish is to dwell in peace and safety, enjoying goods and services that are a fair reward for honest work.

The following are among the goals we aim at before this century is over:

1. Full implementation in all countries of the United Nations Guidelines for Consumer Protection and the establishment within the United Nations of a monitoring and assistance system for such implementation.

2. Adoption by the United Nations and full implementation by governments of a Code of Conduct on Transnational Corporations.

3. Promoting the fulfillment of basic needs of all consumers, in particular of the poor, low income and disadvantaged groups.

4. Establishment of national and international laws that prohibit trade in hazardous products and eliminate double standards in international trade.

5. Establishment of stringent international guidelines on the siting and operations of potentially hazardous industrial and agricultural plants, processes and practices, including the right to full information by the local community and the workers.

6. Elimination of economic practices which inhibit the equitable distribution of food and the encouragement of national and international food policies aimed at meeting people's need for safe and nutritious food.

7. Implementation of policies on new information technology which ensure on the one hand the fair protection of consumers and on the other that they can make full use of that technology for their own benefit.

8. Development of testing and research with particular reference to the needs of Third World countries, building on the experience, skills and resources of IOCU's testing organizations.

9. The reduction and finally dismantling of trade barriers which have a negative impact on consumers and the establishment of national bodies with consumer representation to analyse and publish the relevant information concerning the costs and benefits of proposed and existing trade controls.

10. Ensuring responsiveness of monopolies providing services to consumers, including ways to measure their performance in relation to meeting the needs of consumers and to ensure accountibility.

Looking towards the year 2000, IOCU and its member organizations reaffirm their commitment to produce social change. We shall do so by striving to attain the goals set out above. We shall vigorously continue to work within and strengthen the networks and programmes already established to fight hazardous commercial practices. We shall intensify our efforts to seek fair protection of consumers and representation of their interests in the economic field. In all this our aim will be to further a society responsive to the consumer interest.

□ 1000

RECOGNITION OF SENATOR HEINZ

The PRESIDING OFFICER. Under the previous order, the Senator from Pennsylvania [Mr. HEINZ] is recognized for not to exceed 5 minutes.

Mr. HEINZ. I thank the Chair.

ORGAN PROCUREMENT AND TRANSPLANTATION NETWORK ACT

Mr. HEINZ. Mr. President, there is new evidence of human organs being peddled to the highest bidder. That in-

formation was released last month in a report by the U.S. Department of Health and Human Services. I must tell you I read with shock and I read with outrage that almost 300 foreign nationals got kidney transplants ahead of the nearly 8,000 Americans on the waiting list. Another 250 kidneys were exported out of the country, and they were exported at a cost to the Medicare Program of some $8,000 to $10,000 apiece.

This may seem like a modest problem to some people, but if you are sick, if you are ill, it is literally a vital question, and we have to put an immediate halt to the practice I have described. We need to ensure that donated organs are given to those who need them most, not just those who can most afford them. So today I am introducing legislation to do exactly that. My bill will give the Government the power to enforce medical need, I repeat, medical need, as the primary criteria of who receives an organ transplant in this country and I think we will thereby protect our voluntary system of organ donation.

Mr. President, very simply, human organs are a scarce national resource that is only available because of the generous spirit of the American people. To ensure that this generosity continues, we have to build confidence into this system on a foundation of equity and fairness. Such faith is eroded when we and the American people hear from the inspector general of the Department of Health and Human Services that each year the pool of available organs is drained by those who skip ahead of others in line if the price is high enough.

The implications of this greed and favoritism are both alarming and deeply troubling. For the individual, it means a longer wait for an organ transplant. For others it is a threat to health, and for still others life itself. For the Nation, organ sharing is discouraged, Medicare costs are increased, and organ donation is jeopardized when preference is made for financial gain.

Earlier this week the Senate Finance Committee adopted a provision I sponsored which would give Medicare better control over the agencies which procure the organs and the hospitals which transplant them. The legislation I introduce today would further strengthen our existing organ procurement network and it incorporates recommendations made by the task force on organ transplantation.

This legislation will provide the enforcement tools to make medical need, as I mentioned, the primary criteria for the distribution of organs for transplants in this country. The network will have exclusive responsibility for organ assignment when the organ cannot be used in the region in which it is donated, routing the current practice of cronyism which is employed by some hospitals in the sharing of organs.

Under this bill, any person who exports or imports organs outside the authority of the network will be subject to a fine, a jail sentence or both. Persons caught advertising or soliciting potential nonimmigrant organ donors also will face stiff fines or heavy jail sentences. This bill also states that it is the sense of Congress that States should prohibit the sale of insurance policies which would give the holder of that insurance policy preference over others or access to an exclusive pool of organs for transplantation. States are called upon to actively and aggressively enforce the 1984 National Organ Transplant Act to ensure that this precious natural resource is used in the public interest.

Since the first blood transfusion in 1918, advancements in medical technology have enabled us to transplant kidneys, heart, skin, heart-lung, lung, pancreas, liver, bone, and bone marrow. As the benefits of such technology multiply, so will the temptation to profit at the expense of the needy. The legislation I propose today reaffirms the intent of Congress that there be equal access for all who need a transplant operation and gives us the measure of prevention necessary to ensure that such miracles will not become a luxury only the rich can afford.

RECOGNITION OF SENATOR DANFORTH

The PRESIDING OFFICER (Mr. D'AMATO). Under the previous order, the Senator from Missouri [Mr. DANFORTH] is recognizerd for 5 minutes.

THE U.S. ECONOMY

Mr. DANFORTH. Mr. President, today's Washington Post carries a story, the headline of which is, "U.S. Economy Nears a Standstill—Spring Performance Is Weakest Since 1982 Recession, Report Says."

Two of the paragraphs in the article are as follows:

The U.S. economy was at a near standstill this spring with growth at a slight 0.6 percent annual rate, the weakest performance since the end of the recession in 1982, the Government reported yesterday.

And then the second paragraph from the same article:

The GNP report said the trade deficit subtracted $28 billion from GNP growth in the April-June quarter, $3.4 billion worse than the earlier estimates. Exports declined at an annual rate of 9.8 percent, in part because of a slump in U.S. farm sales overseas, while imports were rising at a rate of 18.5 percent.

Mr. President, I ask unanimous consent that this article from the Washington Post be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Sept. 19, 1986]

U.S. ECONOMY NEARS A STANDSTILL—SPRING PERFORMANCE IS WEAKEST SINCE 1982 RECESSION, REPORT SAYS

(By Martin Crutsinger)

The U.S. economy was at a near standstill this spring with growth at a slight 0.6 percent annual rate, the weakest performance since the end of the recession in 1982, the government reported yesterday.

The Reagan administration cited recent economic reports to support a belief that better days are ahead, but private analysts were not as optimistic.

The new report on growth in the gross national product from April through June represented no change in the overall figure from an earlier estimate a month ago even though the country's trade performance was even weaker than originally believed.

Inflation continued at extremely low levels, with a price index tied to the GNP rising at an annual rate of just 1.8 percent.

This increase in the GNP deflator, which measures a changing selection of goods, was the lowest since the spring of 1967 and reflected the dramatic plunge in energy prices this year.

Administration officials, who have been forecasting substantially higher growth in the second half of the year, said they were not disappointed that the GNP figure for the second quarter was not revised upward.

White House spokesman Larry Speakes, traveling with President Reagan on a campaign trip to Louisiana and Alabama, noted there have been signs of stronger economic activity in the current quarter, including declines in unemployment and increases in industrial production. "In short, we expect a solid performance in the second half of the year and see no signs of an end to the Reagan economic expansion," Speakes said.

The administration is calling for the GNP to expand this year by 3.2 percent, which would mean the economy must grow in the second half of the year at a 4.2 percent annual rate to reach that target.

While economists are looking for some pickup in activity in the second half, most believe the increase will be far below the administration's expectations. A few are expressing the minority view that the country is skating dangerously close to a recession because of the deteriorating trade problems.

The GNP report said the trade deficit subtracted $28 billion from GNP growth in the April-June quarter, $3.4 billion worse than the earlier estimate. Exports declined at an annual rate of 9.8 percent, in part because of a slump in U.S. farm sales overseas, while imports were rising at a rate of 18.5 percent.

Concern over the deteriorating trade situation prompted new tough talk from Treasury Secretary James A. Baker III, who warned that the administration is prepared to drive the dollar's value lower against other currencies unless Japan and West Germany do more to stimulate economic growth.

The Commerce Department two months ago estimated growth in the second quarter at 1.1 percent, revising that to 0.6 percent last month and in the current report.

While the new report did increase the trade deficit by $3.4 billion, this was canceled by a revision in business inventories. Inventory growth still plummented during the quarter at an annual rate of $24.8 bil-

lion, but this decline was $3.5 billion less than estimated last month.

Personal consumption spending continued to carry the economy in the April-June quarter, rising at an annual rate of $35.7 billion, a 3.4 percent advance. Also providing strength was a 14.5 percent rise in housing construction, which has benefited from falling mortgage rates this year.

Business investment fell again in the second quarter, reflecting continued large reductions in oil and gas exploration because of falling prices.

In a separate report, the government said after-tax profits of U.S. corporations rose 2.1 percent in the second quarter following a 3 percent decline in the first three months of 1986. This was a revision from a report last month that put the gain in profits at a stronger 4.1 percent.

TAX OVERHAUL

Mr. DANFORTH. Mr. President, 2 days ago, on June 17, another article appeared in the Washington Post by Anne Swardson. The title of this article is, "Congresssional Tax Overhaul Provisions Could Harm U.S. Multinational Companies."

It is pointed out in this article that the effect of the tax bill, which we will be taking up in the Senate the end of next week or the following week, will add $6 billion in new taxes which are specifically aimed at American businesses struggling to do business abroad.

Mr. President, I ask unanimous consent that this article in the September 17 Washington Post be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Sept. 17, 1986]

CONGRESSIONAL TAX OVERHAUL PROVISIONS COULD HARM U.S. MULTINATIONAL COMPANIES

(By Anne Swardson)

Foreign operations of U.S. multinational companies could be reduced as a result of provisions of the sweeping tax-overhaul legislation awaiting final approval by Congress, tax experts believe.

The net effect of the complex foreign tax provisions, agreed upon in secret by a congressional conference committee last month, could encourage U.S. firms to have fewer overseas subsidiaries and expand their exports instead, analysts said.

"I don't know if you can break it down by industry, but certainly U.S.-based multinationals are going to bear the brunt of it," David Benson, international tax manager for the accounting firm of Coopers & Lybrand, said of the bill's foreign tax provisions. "With some exceptions, what they have done is taken the worst of the House bill and the worst of the Senate bill."

Almost every U.S. multinational firm would be touched in one way or another by the massive bill. Even though its foreign provisions are only a small part of the package, they affect basic issues of international taxation and would raise the taxes of many companies involved overseas.

"To me, the straightforward bottom line is that they added $8 billion in new taxes specifically aimed at this sector, at a time when it's questionable whether any increase can be absorbed," said Raymond J. Wiacek, tax counsel with the law firm Jones Day Reavis & Pogue.

Several of the bill's provisions would most affect firms that operate in high-tax countries such as West Germany and France, but a surprise item inserted at the last minute also could remove much of the incentive for companies to set up operations in low-tax countries such as Ireland.

The principal provisions affecting multinationals are there:

It would be harder to take the foreign tax credit, which offsets U.S. taxes on foreign-earned income to the extent that it is taxed overseas. Income would be placed in different categories—shipping, banking, passive and active—and credits generated from one category could not be averaged with those from another to reduce U.S. taxes.

"It's not quite a nightmare, but the administrative burden posed by the change in the foreign tax credit is extremely significant," Benson said. "For small firms, it is entirely possible it will discourage investment abroad."

In one of the few areas left unchanged, companies exporting goods from the United States could continue to report half of export revenue as if most or all of it were earned overseas. The House bill would have deemed the income earned in the United States, so that the foreign tax credit could not be taken against it if the company also earned income abroad.

"This obviously helps to keep our exports more competitive here at home and keeps the cost of being a U.S. exporter down," said William Canis, Washington representative of Caterpillar Inc.

A last-minute addition to the conference bill would affect companies that transfer "intangibles," such as patents or licenses, to a foreign manufacturing subsidiary. They would have to take in payment for the intangible an amount equal to the income that would come from sale of the manufactured product.

Thus, for example, almost all of a hypothetical $1,000 earned from a plant in Ireland would have to be repatriated to the U.S. parent firm and taxed at those rates, rather than at the low rates offered in Ireland.

"I represent 60 companies with $700 billion in worldwide sales and 5 million workers. Almost all of my companies would be affected" by the intangibles provision, said Robert McNeill, executive vice chairman of a lobbying group called Emergency Committee for American Trade.

The same provision would affect many U.S. firms with operations in Puerto Rico and other U.S. possessions. Because much of the income from those operations would have to be returned to the United States, the tax credit that essentially wipes out taxes on profits earned in U.S. possessions would have little value.

In a resolution of a long-standing dispute, the legislation would require that a portion of research and development expenditures be allocated to overseas operations. Generally, companies prefer to allocate expenses to their domestic operations and income to the foreign operations, in order to maximize use of the foreign tax credit.

Similarly, interest expenses would have to be spread among related companies based on the proportion of assets located overseas, so that the deductions cannot be taken only in the United States.

Companies no longer could shelter foreign-earned income from taxation by investing it in banking or shipping operations outside the United States. Although foreign-earned income generally is not taxed until it returns to American shores, banking and shipping income would be subject to taxation immediately wherever it is earned.

Perhaps as important as this entire list is the bill's sharp reduction in the corporate tax rate, which would fall from the current 46 percent to 40 percent in 1987 and 34 percent thereafter. The reduced rate would leave firms with operations in high-tax countries with excess foreign tax credits.

For example, a U.S. subsidiary operating in The Netherlands, which has a corporate tax rate of 43 percent, would pay $43 to that country on a $100 sale and could reduce its U.S. taxes by $43, so that the tax paid to the United States would be $3. If the U.S. rate fell to 34 percent, $9 in foreign tax credits could not be applied to U.S. income and the firm would get no net benefit from the corporate-rate reduction.

A REVOLUTIONARY TAX BILL

Mr. DANFORTH. Mr. President, we are going to be debating in the next week or so what has been accurately described as a revolutionary tax bill, perhaps the most revolutionary tax legislation we have ever had. We are going to be taking up the conference report on the tax bill against a background of economic events in which the gross national product is limping along at a lower pace since the recession of 1982. We are taking up the tax bill against a background of American investment in new equipment declining since last year, and we are taking up a tax bill against the background of record and increasing deficits in trade.

We are meeting those problems by a bill which finances individual and business rate cuts by targeting tax increases against Americans who are trying to do business abroad and against our industrial sector which is struggling to keep up with foreign policy.

□ 1010

I raised the question at this time because I believe that when the conference report comes to us, it deserves something more than summary consideration on the part of the Senate.

The test of any tax bill should not be who gets what but, rather, what the tax bill does for the economy of our country and for the long-term health of the United States.

I will be raising questions during the debate as to whether a bill which is designed to increase consumer spending and to make it more expensive to modernize our plants and to do business abroad serves the best interests of our country. I submit that it does not. The debate, of course, will continue.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. SASSER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNITION OF SENATOR SASSER

The PRESIDING OFFICER. Pursuant to the previous order, the Senator from Tennessee [Mr. SASSER] is recognized for not to exceed 5 minutes.

□ 1020

THE MEDICARE PARADOX

Mr. SASSER. Mr. President, most Americans breathed a sigh of relief when Medicare came into existence in 1965. They felt confident they could now count on full health care coverage in old age. Cruelly, many of them have been disappointed.

Now no one can deny that the Medicare Program has been a blessing to our senior citizens. It pays for critical health care services that many older Americans would otherwise not be able to afford.

Yet, there is a fundamental paradox in the Medicare Program. Medicare—the Federal Government's health care program for senior citizens—virtually ignores that age group's unique health care needs.

Medical experts tell us that health care for the elderly is substantially different from health care for younger persons. The elderly are not simply older patients. They are plagued by a host of chronic, age-related conditions—conditions such as arthritis, osteoporosis, urinary incontinence, depression, and senile dementia. These conditions require preventive care to avoid further disability. They require long-term care once patients can no longer be managed at home.

However, the Medicare Program does not reflect these basic health differences between the young and the aged. It does not cover preventive or long-term health care services—the very services many elderly cannot live without.

We have this contradiction in our health care system for older citizens partly because the Medicare system was designed, I think, inappropriately after private health insurance programs that were in existence at that time for employees. These job-based health insurance programs protect beneficiaries primarily against the costs of hospitalization for acute illness. Such coverage for short-term acute illnesses are appropriate for young and middle-age working people, because their major health care threat is acute illness.

Yet, the major threat to the elderly's financial security is not the cost of short-term acute care. It is the cost of long-term care resulting from chronic physical and mental disabilities that looms as the major health care risk for many elderly Americans.

In essence, Medicare helps the elderly survive short-term acute illnesses only to deny them treatment or let them fall into poverty when they need long-term health care.

We have turned the huge problem of long-term care over to Medicaid. But the unfortunate fact with this is that Medicaid comes to the aid of patients only after they and their families have lost their financial independence and spent themselves into poverty in an effort to meet their health care needs. Along the way, many lose their self-respect as they have to apply for Medicaid.

Mr. President, Medicare gives many senior citizens a false sense of security. The painful truth is that Medicare does not meet the health needs of the age group for which it was created. There are great gaps in Medicare coverage—gaps which the elderly now have to fill with money out of their own pockets.

Medicare pays for only about 45 percent of the elderly's average health care costs. Medicare does an adequate job of helping seniors pay the costs of short-term hospitalization. But it does virtually nothing to help elderly persons pay for the tremendous costs associated with chronic, catastrophic illnesses.

Partly out of frustration and partly our of fear, senior citizens are purchasing supplemental health insurance—commonly referred to as medigap policies. About 90 percent of all elderly now own these policies.

Many elderly believe their supplemental Medi-Gap policies will pick up everything that Medicare does not pay. That is not a fact. They do not. In fact, most of these policies cover none of the costs of nursing home care. As a result, they so not fill the largest gap left by Medicare.

Dr. Robert Butler, one of America's foremost authorities on aging, states that—

> Present Medi-Gap policies are a sham. They are wasteful, consuming $10 to $12 billion that could be put back into a decent, comprehensive, restructured Medicare.

Clearly, Medi-Gap policies are not the best solution to the shortcomings in the Medicare program. Our senior citizens need comprehensive health care coverage. We must restructure Medicare to meet their needs. And we must begin to act now on this very critical and crucial problem.

President Reagan has asked the Secretary of Health and Human Services, Dr. Otis Bowen, to conduct a yearlong study of catastrophic health insurance. The truth is that the time for studying this particular problem is long past. I agree with Dr. Butler who states:

> We have been studying this topic ad nauseum. We need action. We need a tight timeframe. We need specific, concise recommendations to act upon. People who are suffering today cannot wait.

That is why I have introduced legislation which eliminates the fundamental contradiction in Medicare. My legislation, S. 2358, focuses on the special health care needs of the elderly.

Let me just explain to my colleagues what this bill does.

First, the bill expands Medicare coverage to pay for the costs of long-term care, such as nursing home care and extended hospital stays. This will offer protection to millions of Americans from the financial ravages of long-term care. No longer will elderly Americans have to impoverish themselves, sell their homes, sell their possessions, to pay for long-term care.

Second, it pays for certain types of preventive care—such as periodic physicals and dental, eye, and hearing examinations. Preventive care is critical to older persons, because it can spot potential problems early on—which if undetected—could become debilitating.

Mr. President, I urge my colleagues to join my efforts in restructuring the Medicare Program. It will not be an easy task but it is an essential one.

We must not forget that today's children will be tomorrow's senior citizens. Actions we take now to ease the suffering of our elderly will offer hope of a better life for our children as they approach their golden years.

RECOGNITION OF SENATOR MATTINGLY

The PRESIDING OFFICER. Under the previous order, the Senator from Georgia [Mr. MATTINGLY] is recognized for a period not to exceed 5 minutes.

The Senator from Georgia.

MIA/POW DAY OF RECOGNITION

Mr. MATTINGLY. Mr. President, today, September 19, 1986, is National POW/MIA Recognition Day. It was so designated when the President signed into law Senate Joint Resolution 220 on June 19 of this year. I had introduced Senate Joint Resolution 220 at about this time last year. It passed the Senate with 61 cosponsors and was subsequently passed by the House of Representatives after a companion resolution introduced by Congressman SOLARZ garnered 237 cosponsors.

The broad bipartisan support for this resolution serves as a clear signal of the importance that Congress and thus the American people place on this issue.

Seven previous, similar days of recognition have been designated by Congress. I know that every Member joins me in the hope and the prayer that

the day will soon be upon us when we will have finally obtained the full accounting that we have sought for so long on the fate of the more than 2,400 Americans who remain missing in Southeast Asia.

There may be differing ideas on how best to reach this goal, but there is no dispute about the goal itself or about the need for every American to become involved in the effort, whether that involvement takes the form of a quiet prayer, a contribution of time or other resources, or through any number of other ways to help this cause.

In one of his weekly radio addresses this summer, the President caught the spirit that motivates the efforts to achieve the fullest possible accounting of servicemen still missing.

"We mean to end your heartache and uncertainty," the President said, addressing himself to relatives of the missing. "We will vigorously pursue the answers you seek and deserve", he continued. "All Americans, after all, have a common goal in this endeavor. * * * They were our loved ones and our fellow Americans and they were, I am certain time will tell, part of a noble cause", the President concluded.

Mr. President, the resolution itself honors all Americans in all wars who have served our Nation so bravely under such terribly difficult conditions. But it has special meaning for those who still await word on the fate of loved ones who remain missing in Southeast Asia. I commend the efforts that have been made on behalf of this cause by the National League of Families of American Prisoners and Missing in Southeast Asia, its executive director, Ms. Ann Mills Griffiths, and its entire membership.

Finally, Mr. President, it seems to me to be entirely appropriate today to remember in our prayers those Americans who are held against their will in other parts of the world and who, in a sense, are prisoners in a war being waged against all Americans and every principle for which America stands.

I hope all my colleagues will join me today, Mr. President, in appropriate reflection, tribute and vows of renewed effort toward the goals that we seek and share.

□ 1030

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of routine morning business for not to extend beyond the hour of 10:30 a.m. with statements limited therein to 5 minutes each.

OPPOSITION TO THE PROVISION OF BUDGET RECONCILIATION LEGISLATION REQUIRING MANDATORY MEDICARE ENROLLMENT FOR STATE AND LOCAL WORKERS

Mr. HECHT. Mr. President, I rise today to express my firm opposition to a provision included in the Senate Finance Committee's budget reconciliation package which would require all current State and local employees to enroll in the Medicare Program.

At present, in my own State of Nevada, a very small percentage of municipal workers are enrolled in Medicare—due to the excellent health care benefit packages offered these employees at the local level. Consequently, enactment of this mandatory enrollment provision would cost the State's municipal employers and employees nearly $30 million per year—a rather hefty sum by Nevada standards. Nevada, however, is not alone in this situation, a number of other States, the municipal employees of which also presently have locally administered health plans, would likewise be subjected to a comparably large, unexpected, and problematic expenditure requirement.

Mr. President I wish to point out to all of my colleagues, and particularly to those from States in a similar circumstance, that such an added financial burden, coming at a time of large reductions in Federal funding received by municipalities, and concurrent increased outlays for numerous required local Government expenses—such as liability insurance premiums—would inevitably cause tremendous fiscal hardship for local governments.

Moreover, the adverse impact of such a requirement would be compounded by the proposed implementation date of July 1, 1987. Under such a timeframe, State and local governments would have very little margin for the modification of their planned budgets which this mandate would necessitate.

Mr. President, as is standard practice in a number of States, Nevada maintains a cap on the amount in which municipalities may increase taxes each year. Such caps, in wide use across the country and effective heretofore at achieving the goal of fiscal conservatism for which they were established, would make it very difficult to raise the additional moneys that this mandatory enrollment provision would require. For I dare say, many jurisdictions in the affected States would need to increase taxes due to this requirement.

Mr. President, for the reasons set forth herein let me reiterate my firm opposition to this proposal, and encourage the Senate to drop it during floor or conference consideration of the budget reconciliation bill. I would also ask that a letter received by me from the city of North Las Vegas, NV, be inserted along with my remarks, as I feel that this correspondence aptly demonstrates the concerns of all of the local governments in my State.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

CITY OF NORTH LAS VEGAS,
North Las Vegas, NV, August 6, 1986.

Senator CHIC HECHT,
Hart Building, Washington, DC.

DEAR SENATOR HECHT: We wish to express our strong opposition to Federal legislation which is being considered that would require employees of local governments, such as ours, to join the Federal Medicare Health Insurance Program beginning May 1, 1987.

For the City of North Las Vegas, the cost would be $175,000 annually based on a 1.45% rate applied against salaries paid to our existing work force. Indeed, the cost may well be double that amount considering that employee organizations may look to the City, as employer, to pay employees' share of that cost because that increase cost had not been contemplated when bargaining agreements were negotiated.

The City of North Las Vegas could ill afford paying an additional $175,000 let alone $350,000 in fringe benefit costs because with present financial conditions, revenues are not keeping pace with expenditures.

The City has an attractive group medical plan as well as an HMO, offered to both current and retired employees, which covers all medical expenditures. The plan, in which the employee may elect to participate upon retirement, has associated premiums much lower than otherwise available and we will certainly continue to offer this alternative.

Sincerely,

JAMES K. SEASTRAND,
Mayor.
THERON H. GOYNES,
Mayor pro tempore.
MARY J. KINCAID,
Councilman.
WILLIAM ROBINSON,
Councilman.
W. BRENT HARDY,
Councilman.

Mr. MATTINGLY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MELCHER. Mr. President, I ask unanimous consent that the order for the quorum call be rescined.

The PRESIDING OFFICER. Without objection, it is so ordered.

□ 1040

AGRICULTURAL ASSISTANCE TO THE PHILIPPINES

Mr. MELCHER. Mr. President, I have strong confidence in the Filipino people and the Government of their President, Corazon Aquino, to succeed in their economic recovery, but they need prompt help from the United States. The first and most urgent need is instant credit, that is, cash. But also, and just as urgent, is at least a com-

mitment by the United States on what additional assistance we will provide to them over the next 12 months.

Yesterday's action in the House of Representatives appropriating $200 million in cash is a positive step, but not nearly sufficient to assure the start of Philippine economic recovery. To increase the U.S. commitment, I shall propose an amendment to add $600 million in surplus commodities of wheat, milk, cheese, butter, soybeans, and cotton. This will be a donation of surplus commodities, all in Federal ownership and storage. It is off-budget and does not add to the Federal deficit, but does not cut the trade deficit.

Yesterday, during the luncheon hosted by the Senate Foreign Relations Committee for President Aquino, I gave my proposal to Agriculture Minister Mitra, Trade Minister Concepcion and Ambassador Pelaez. During the past several months I had discussed the matter with each of them. On Wednesday when the Senate Agriculture Committee met with Minister Mitra, he stated the Philippines could well use wheat, diary products and soybeans. Yesterday, Trade Minister Concepcion suggested adding cotton.

The urgency of the need for helping the Philippines must be stressed. These food commodities are urgently needed for families, for mothers, infants and schoolchildren. The commodities will be provided under a variety of U.S. assistance programs which permit monetizing a portion. That means that part of the commodities would be sold on the local Philippine market and the money would be used as capital for grassroots economic redevelopment throughout the country.

The food shipments from the United States would be spread over the next year in quantities that could be absorbed most beneficially by the Philippines in order to permit efficient handling. I have twice over the past 3 years had lengthy visits in the Philippines and well understand not only their needs but also the determined capacity and capability of the Filipino people for economic recovery.

These surplus food donations will up the U.S. commitment in the House action by 300 percent. I am confident that the new government of President Aquino is competent and reliable and can and will use the food donations properly and effectively.

But there has been and still remains opposition to may proposal. That opposition centers in the Agency for International Development [AID] and others in the State Department. Last May when I proposed a modest donation of wheat and milk to the Philippines, AID Director McPherson pulled out all the stops and was able to convince Senator KASTEN and others that such a donation was premature and that we needed to assess Philippine needs.

With big league hardball political strategy, McPherson called Philippine Ambassador Pelaez, who had originally conceived the premise of the $10 million food donation, threatening the Ambassador to publicly withdraw his support or State Department would hold up other Philippine assistance. Ambassador Pelaez politely refused, but McPherson then prevailed on the National Association of Business Cooperatives to write a letter to Senator KASTEN stating that the $10 million donation was premature. Senator KASTEN read the letter on the Senate floor during debate on the amendment to bolster McPherson's stand. And so, that proposal went down the drain.

That was last May and in the final days of this Congress the Senate must make the determination if it is still premature to provide this significant assistance. Unless we make that determination now, another 6 months will pass before we can again assess whether the United States should not provide urgently needed help to our friends in the Philippines.

McPherson was successful in stalling in May a very modest proposal. After Congress adjourns in less than 3 weeks from now, it will be February or March before we can reverse the inaction of the State Department should they continue their endless assessment of Filipino needs.

Meanwhile, there are overriding reasons why the commitment of food assistance at least of this magnitude should be made. The first and foremost reason is the need of Filipinos, but there are important facts that the United States can no longer ignore. The U.S. trade deficit is leading us to the edge of severe economic recession.

Farmers, have produced big crops, the farm programs put the surplus of those crops in Federal storage, and unless the United States starts to use the surplus for friendly countries such as this proposal for the Philippines provides, commodity prices will continue to sink lower and our trade deficit will increase even more. The State Department has been isolated from the severe damage that the lack of exports causes American agriculture and agribusiness.

Farmers, when they plant the wheat or soybeans, know that three out of four of the seeds are put into the ground to grow food for people abroad. Those crops are now harvested and the time for assessment by AID Director McPherson is over. The time has come to export the surplus.

There is no better country than the Philippines for us to start the needed exports of these surplus foods. There are other countries in Africa and there is also India, Bangladesh and some of our neighbors to the south that also need these food assistance programs. But if we leave town after adjournment without having at least demonstrated through our votes here in the Senate that we are determined that these off-budget food assistance programs will be utilized, the country can only anticipate the continuation of the bureaucratic delay and worsening U.S. trade deficit and a continuation of a deteriorating U.S. economy.

In effect, now is the time to come to the aid of the cause.

Mr. President, I am going to yield the floor, but before I do I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1050

Mr. ARMSTRONG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

BUSINESS AS USUAL, AGAIN

Mr. ARMSTRONG. Mr. President, I have been trying to figure out what in the world is going on over in the State Department and I must report that I have not been successful. I want to take just a moment to express my utter frustration over the way the administration has handled the Daniloff business. I had thought that, at some point, there would be some convincing explanation for the lack of firmness in the administration policy toward the Soviet Union on this matter. I could not believe that after several days, there would not be some explanation for our complete failure to show the signs of outrage, to take some concrete steps to make it clear that we are not going to tolerate this kind of barbaric behavior on the part of the Soviet Union, and that we would do something that would be a convincing demonstration that in fact, we are a big, tough, important country that has certain principles that we believe in and one of them is that they should not run around arresting journalists.

In fact, we have done just the opposite. We have blustered, but then we have gone on with business as usual.

The effect, Mr. President, is just to reinforce the already contemptuous attitude the Soviet Union and probably a number of other countries have for us. It was evident after they shot down the Korean airliner. We did not do anything about it. We made a lot of loud and unpleasant noises, but the fact is we did not do anything. We did not take one concrete step that imposed upon the Soviet Union any kind of real price for that act of terrorism. We just did not do anything. In the process, we confirmed the worst suspicions that maybe we did not have the internal desire and fortitude to actually do anything.

Then came the Daniloff affair and many people had expected that because this involved a journalist and because of the unique status which journalists enjoy in the thought life of this country, perhaps we would respond in a different way. Instead, after announcing that we were not going to make a trade of Daniloff for the Soviet spy Zakharov, that is exactly what we did.

The transaction has not been consummated as yet, but what we have done is confer a sort of moral equality on the arrest of the spy here and the arrest of the journalist in Moscow because we have permitted the two cases to be treated exactly the same, with each being released to his respective Ambassador.

Well, Mr. President, I do not raise these issues for any reason other than just to have it in the RECORD that there are at least a few people in the Senate and undoubtedly elsewhere who think we are making a terrible mistake, who fully expect, as I do, that the result of this unwise response is to put at risk every journalist everywhere in the world and, for that matter, other American citizens.

□ 1100

What we have really shown is that any time the Soviet Union wants to spring one of their arrested spies, they can do it by picking up a journalist or perhaps a diplomat or somebody else on some kind of trumped-up charge or another.

Mr. President, I do not know how many people had occasion to read the observations of George Will in yesterday's Washington Post, but I ask unanimous consent that his commentary on this matter be placed in the RECORD because what he has said about this makes far more sense than anything I have heard thus far from any official source. Let me quote one paragraph in which Mr. Will, a former member of the staff of the U.S. Senate I might note in passing, sums up what in his opinion is the appropriate response. I quote:

> No talks about anything, no subsidized grain sales, no credits, no cultural exchanges, no support for the United Nations, no Soviet ships in U.S. ports, no landings here by Soviet airlines, no nothing until Daniloff is released, unconditionally.

That is a good policy. I hope that at some point somebody down at the State Department or at the National Security Council or the White House or someplace, for Heaven's sake, will pay attention not just to George Will but to a lot of us who think that would be a good policy.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

REAGAN BOTCHED THE DANILOFF AFFAIR

(By George F. Will)

When an administration collapses, quickly and completely, like a punctured balloon, as the Reagan administration has done in the Daniloff debacle, a reasonable surmise is that the administration, like a balloon, had nothing in it but air.

The trouble began not in a peripheral crevice in the bureaucracy, but in the president's presence in Santa Barbara, where the first reaction to the hostage-taking was to say that the unpleasantness should not disrupt the Big Picture. Secretary of State George Shultz soon said "there can be no question of equating" the cases of Nicholas Daniloff and the accused spy Gennadi Zakharov, and there could be no trade.

But soon came the equation, in the form of the interim trade whereby Daniloff and Zakharov were placed in the custody of officials of their respective governments. The United States thereby paid the first—probably only the first—installment of the ransom (Henry Kissinger used that word to characterize the transaction) demanded by the hostage-takers.

Sen. Richard Lugar (R-Ind.), chairman of the Foreign Relations Committee and candidate to receive the administration's Good Soldier Trophy, says, delicately, "August is a difficult month, apparently, for administration coordination." So is September, so perhaps the problem is with thinking, not coordinating.

Totalitarians specialize in making victims collaborate in their victimization. It took Mikhail Gorbachev less than two weeks to turn the U.S. ambassador in Moscow into the keeper of Daniloff, who, Shultz rightly said, remained a hostage. Reagan was jubilant when announcing this transaction. Conservatives constantly say Reagan's "instincts" are splendid, the problem is only—only!—susceptibility to bad advice. Well.

Leave aside the question of whether policy should be controlled by the instinctual mechanisms of any individual. In the Daniloff affair, Reagan's instinct has prevailed, and has been wrong. It has been identical to Carter's instinct in the Iranian hostage crisis. It has been to make the national interest hostage to the goal of easing the hostage's plight. He wanted Daniloff in more comfortable confinement.

Reagan wrote a letter to Gorbachev, dignifying the Soviet charges by denying them. Gorbachev, displaying the contempt that U.S. behavior is earning, promptly branded Reagan a liar by disregarding Reagan's assurances.

Senator Pat Moynihan (D-N.Y.), former U.N. ambassador, responding to the assertion that this crisis began when Zakharov was arrested, replied: "We began this chain of events 30 years ago when we started letting the Soviets fill up the U.N. Secretariat with spies, in direct violation of the Charter." The morning Moynihan said that, the lead story in The New York Times reported administration efforts to reduce cuts Congress has voted in subsidies for the United Nations. The cuts are intended to express "among other things" anger that the United Nations, where U.S. taxpayers pay one-fourth of the bills, is flagrantly used by the Soviet bloc for espionage.

What must they be saying in the Kremlin, in merry disbelief? "Next, will Reagan want U.S. taxpayers to subsidize grain sales to us?" In 69 years of U.S.-Soviet relations, no U.S. president has been treated with the disdain Gorbachev has now shown toward Reagan, which is especially rude considering that Reagan does indeed want U.S. taxpayers to subsidize grain sales.

George Carver, a senior fellow at Georgetown University's Center for Strategic and International Studies, says that the United States has, in effect, agreed to play by Soviet rules regarding espionage and has placed a mantle of protection over Soviet spies: "The next time the FBI catches a Soviet, the mattress mice in the State Department and the White House will be out wringing their hands and saying, 'Oh no, we can't arrest him! We don't want another Daniloff thing; there's too much going on.'"

One of the things the administration is eager to have go on during the Daniloff affair is a "town meeting" with U.S. participants in Riga in the Soviet Union. When the interim trade was arranged, the administration wanted the Americans who had pulled out to go to Riga after all. The administration knew this would imply the respectability of the ransom payment. Several clear thinkers, including Jeane Kirkpatrick and Robert McFarlane, refused to be used, and stayed home.

Two Sundays ago an undersecretary of state evidently thought he was being stern when he said the unresolved Daniloff case will "intrude itself" into all decisions with the Soviet Union. Even today, the administration cannot bring itself to say what it should have said immediately, even instinctively:

"No talks about anything, no subsidized grain sales, no credits, no cultural exchanges, no support for the United Nations, no Soviet ships in U.S. ports, no landings here by Soviet airlines, no nothing until Daniloff is released, unconditionally."

Today the deflated administration is reduced to saying that if Daniloff is not released, his case will be at the top of the agenda for the Shultz-Shevardnadze talks. Wow! That'll teach 'em. That will mean that Shultz will complain and Shevardnadze will drum his fingers and roll his eyes, and then they will proceed with business as usual, the Soviet side confirmed in its contempt.

Mr. ARMSTRONG. I thank the Chair.

My concern about this matter is heightened by the fact that not only have we failed to respond in any affirmative way, we have not even taken the simplest steps that we could have taken to at least express some degree of displeasure of what has happened. It has come to my attention that following the arrest of Nicholas Daniloff two U.S. Government delegations traveled to the Soviet Union to conduct routine business under the terms of two United States-Soviet bilateral agreements, specifically one delegation headed by a Deputy Assistant Secretary for Housing and Urban Development conducted a working group meeting under the housing agreement, the other delegation headed by the director of the jet propulsion laboratory conducted expert talks under the space cooperation ageement.

I have no particular objections to these talks going on under normal circumstances. The question is whether or not, when they are arresting U.S. journalists on trumped-up charges, transparently trumped-up charges,

that is a time for business as usual. My belief is that by permitting these talks to go forward, by not doing something to express our concern, we are excusing it. I just regret that very much.

I also want to put in the RECORD, Mr. President, an interesting article from this morning's paper by Charles Krauthammer, who is a journalist who really has a way with words. He analyzes the Soviet strategy and outlines what he thinks it is the Soviets sought to achieve, what in fact they have achieved, and what price they have paid. Well, what he thinks they have achieved is, first, to get their spy out of the hands of the FBI, and that has been achieved. Second, to establish that the Soviets can create instant human bargaining chips by grabbing an American at will, which they have achieved. No. 3, immunity for Soviet spies, and a "bonus" objective, as he describes it, is a presummit demonstration of Soviet toughness. And they have achieved all of that.

Now, what is the price they are going to pay? The price they are going to pay is that the next time Secretary Shultz and Mr. Shevardnadze sit down to have tea and crumpets, the opening gambit by our side will be an expression of concern.

Well, I do not think that is very much. In fact, I think it is humiliating, and, Mr. President, at some point we are going to pay the price for this kind of weak, pusillanimous response to serious world developments. I do ask unanimous consent that the second article also be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Sept. 19, 1986]

THOSE "BLUNDERING" RUSSIANS

(By Charles Krauthammer)

There they go again, those muscle-bound, muscle-brained Russians, arresting an American journalist and thus undermining their own interests. "Clumsy stupidity," writes James Reston. The Soviets "misjudged badly," says Newsweek. "They miscalculated," offered Daniloff's boss, U.S. News & World Report editor-in-chief Mortimer Zuckerman. They "didn't anticipate the enormous public outcry."

So there you have it. It seems that for the sake of a two-bit Russian spy the great Gorbo, PR master, has fatally, stupidly compromised his worldwide good-guy campaign.

The second most dismaying thing about the Daniloff affair is that it has invited yet another display of the American habit of equating (Soviet) toughness with stupidity. (Most dismaying, but amply deplored elsewhere, is the administration surrender to Soviet terms.) Stupidity? Let's review the scoring thus far on the Garbo Gambit.

Daniloff is now out of a KGB jail, but may not leave Moscow. In return for his release, Soviet spy Gennadi Zakharov was released from an American jail and, more important, from FBI interrogation. Negotiations are now continuing on how to make the final trade of Daniloff for Zakharov (letting each return home) without Ronald Reagan's losing too much face. Reportedly, the administration is trying to get the Soviets to throw a draft choice, perhaps a dissident or two, into the deal.

So Soviet objective No. 1, to get Zakharov out of the hands of his interrogators, has already been achieved. Likewise objective No. 2, to establish that the Soviets can create instant human bargaining chips by grabbing an American at will. Which achieves objective No. 3, immunity for Soviet spies. A bonus is objective No. 4, a pre-summit demonstration of Soviet toughness. Gorbachev shows Reagan that he is willing to risk a summit even for a two-bit spy. If there is going to be a summit, Gorbachev comes in one-up.

What did it cost Gorbachev? A little editorial outrage, which within weeks of any final "arrangement" (Secretary of State George Shultz's preferred usage for "deal") will be remembered only by historians. And the presence of Richard Perle, Jeane Kirkpatrick and Bud McFarlane at a Soviet-American people-to-people conference in Riga, Latvia. They stayed home, but the Soviets forfeited neither the conference itself nor the presence of the president's top Soviet adviser. Nor *any* talks with the United States. At least three sets of talks scheduled during the time of Daniloff's incarceration, and now detention, have gone forward.

The Daniloff "blunder" is only one of many such Western sightings in the communist world. Daniel Ortega, you will recall, was reputed to have shot himself in the foot by going to Moscow in 1985 shortly after Congress had rejected aid to the contras. The result of this "miscalculation"? Congress voted $27 million in aid for the contras. And Moscow voted Ortega about $200 million. Stupidity that brings a 7-1 return deserves another name.

Consider another blunderer. Remember the reaction when Gen. Wojciech Jaruzelski crushed Solidarity and jailed its leaders? A leading Polish dissident called the crackdown a tactical blunder that would "only strengthen reaction against the government." A broken heart can be forgiven such misjudgments. But more distant observers in the Western press persisted in seeing Jaruzelski's coup as foolish and impossible. How do you crush such a national movement? A Pyrrhic victory, at best. If Jaruzelski were smart he would offer Solidarity dialogue and accommodation.

Jaruzelski ignored the advice and offered monologue and repression. Pyrrhus would have envied the result. Poland is now so pacified, Solidarity so crushed, that Jaruzelski has just released, at no risk, the last of his political prisoners. The gesture will likely earn him a welcome in Italy and perhaps the Vatican, a papal visit to Poland, and soon the reopening of Western credits. Some blunderer.

We like to think of Soviet bloc leaders as hidebound thickheads whose addiction to ruthlessness undermines their diplomacy and injures their own interests. Addicted to ruthlessness they are. But the corollary—that this injures their interests—presupposes that ruthlessness is met with a significant Western riposte. It is not.

Did the Soviets not calculate the depth of our reaction to the Daniloff affair? Who knows? What is clear, however, is that they have contempt for the depth of our reactions. Why shouldn't they? After the rape of Poland, trivial sanctions. After the shooting down of a Korean airliner, words. After the invasion of Afghanistan, yes, something—a grain embargo, reversed 15 months later by a new, hard-line president. The grain will now be subsidized.

"Just another blundering American," says Maj. Strasser in "Casablanca." "We musn't underestimate American blundering," responds Capt. Renault. "I was with them when they blundered into Berlin in 1918." In the 43 years since that exchange, it is the Soviets who have blundered into Berlin—and Prague and Warsaw and Kabul and Managua. Last week they blundered a spy out of a New York jail. Soon they will blunder him back to Moscow.

Mr. ARMSTRONG. I thank the Chair and I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. Gorton). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

□ 1110

Mr. ARMSTRONG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE RECONCILIATION PACKAGE

Mr. ARMSTRONG. Mr. President, it is my understanding that, in short order, the chairman of the Budget Committee and the ranking minority member of the committee will come here to present a reconciliation package. Rather than await their arrival, I should like to make my observations about that package in advance, and then I am going to go back to my office and hope that lightning will strike and it turns out a lot better than I think it will.

In essence, as we all know, we face the prospect of a sequester—that is, an automatic, across-the-board cutback in terms of the Gramm-Rudman-Hollings legislation. This is an awesome prospect to a lot of people. The notion that we would actually have to trigger a sequester and things would be cut back automatically is such a shocking possibility to a lot of people that everybody has been running around in a dither, trying to figure out some way to postpone it, put if off, escape it, or something.

The reconciliation bill is probably the latest and best manifestation of the desire to avoid the crunch. I regret this very much. I wish we were handling this the way the State of Texas is handling it. They have a constitutional provision which says that they have to balance the budget. We have been treated, in recent weeks, to the spectacle of special sessions, arguments between the Governor and the Speaker, pulling and hauling as to whether or not there are going to be tax increases or spending cuts. But everybody knows they are going to solve the problem.

The same thing has happened in my State of Colorado. Our State says that

you have to balance the budget every year, good years and bad years. Whether the economy is booming or is languishing, you have to balance the budget. That is the law and I think it is the law in about three dozen States. So, year after year, often with great difficulty, with sacrifice by Governors and legislators, often with the slaughter of sacred cows, they get the job done.

I wish that is what we are going to do. But just as surely as everybody knows that Colorado and Texas and about 36 other States will balance the budget, everybody knows that Congress is not about to do that. Instead, we are going to take up the reconciliation bill.

To put it in prespective, in order to avoid the sequester under Gramm-Rudman-Hollings, I am advised that we have to somehow come up with $14.5 billion in so-called budget savings from the estimates which are now before us. All this is estimates, of course. It is the best we have.

□ 1120

But the experts say that unless we can find a way to narrow the gap by $14.5 billion, bringing the projected deficit down to $154 billion, then we are going to trigger Gramm-Rudman-Hollings. So we are going to have in short order the reconciliation package. But what is the matter with that?

Mr. President, there are two things the matter with it. The first is that the package itself is a travesty on responsible budgeting. It is a package of golden gimmicks. It is a package of smoke and mirrors.

While it many meet the technical requirement of Gramm-Rudman-Hollings, it does so in a way that makes a mockery out of any kind of a sound budget process.

In the first place, it does not reach $14.5 billion, which is the amount that is thought to be necessary. It reaches only $13.66 billion according to the estimate which has been provided to me. The other billion and a half is accounted for by the so-called tax reform bill which we will pass shortly, which did not turn out as Senators know to be revenue neutral, but in fact turns out to have a one-time revenue gain of pretty substantial proportions. So we are going to borrow a billion and a half out of that pool of money to meet our responsibilities on the spending side.

In addition, in order to get to the $13 billion, there is very nearly $5 billion of just plain tax increases, $4.919 billion in so-called revenues, accelerating State and local deposits—cigarette tax I guess has been taken out of the package—oil pollution compensation and increase in IRS compliance, and I have an uneasy feeling, Mr. President, this is going to be like the asterisk we put in the budget one year. Senators may remember in those dizzy first months of the new administration that the Budget Committee and the Budget Director got together and came up with the idea we are going to have unidentified savings and those were just put in as an asterisk.

I have a horrible hunch—I cannot prove it, of course—all that is going to be is just an estimate which will never be fulfilled, but anyway that is in there for $2.4 billion. We are going to accelerate excess tax collections by $300 million and increase IRS penalties by about $1 billion.

So if you take all of those at face value, a very questionable assumption, in my opinion, we end up with round figures of $5 billion in increase in taxes. Then what about the other $8 billion, that is the difference between the $13 billion total package and the $5 billion in tax increases that are suggested? Is the $8 billion a series of carefully crafted spending reductions? No, my friends, it is not anything of the kind. It is the sort of budget package that recalls the fable of a family that was under threat by a wolf and the decision by the parents reluctantly made was to feed one of their children to the wolf, thinking that thus satisfied, the rest of the family would be OK. That is exactly what they did and the wolf was satisfied until the next day when he came back and they fed him another of their children and so on.

Well, you all know the story and the ultimate outcome. That is what we are doing. We are getting ready to sell a bunch of Federal assets. We are not talking about, in the main, saving anything. We are not talking about reducing any Federal spending with some minor exceptions. We are not talking about even restraining the growth of Federal spending. What we are talking about doing is selling off a bunch of assets.

I do not happen to object to that particularly. We are going to sell Conrail in this bill, which I think is a very good idea, but it is an idea which is clearly separate from the notion of reducing or restraining the growth of Federal spending. It is just a different kind of an idea.

As far as I am concerned, they can sell the Russell Building, they can sell the Hart Building. I do not care about that. If that is something we want to do, that is fine.

I see in here, for example, we are going to sell off a bunch of loans of mortgages in the portfolio of the U.S. Government. I do not have a problem with that. That is a good idea as far as I am concerned. It would be fine if we had not made a lot of those loans in the first place.

But anybody who thinks that that is budget restraint or budget reform or reducing spending or doing anything but digging us into a bigger hole for next year really is not tuned in on the problem.

We are going to have sale of loan assets from the SBA portfolio. We are going to sell off some of our college housing loans. We are going to sell Conrail. I mentioned that. That is a $2.1 billion item. We are going to sell off some EDA notes. We are going to have—here is an item which I do not understand, but I expect will be explained to us in due course—this is crude oil overcharges. I am not sure exactly what that is. We are going to sell $1.5 billion of loans in the portfolio of the Eximbank. Maybe I should rephrase that. We are going to sell loans in the portfolio of the Eximbank for which we expect to realize $1.5 billion. I would judge that the face amount of these loans may be substantially larger because I assume that a lot of these things we are selling will be sold at a large discount reflecting the fact that the quality of these loans is not very high and the expected default rate is quite large.

Well, Mr. President, I just wanted to mention these little concerns. I do not want to be cranky about it, but I just do not think any Senator ought to vote for this package believing that we have in any way fulfilled the spirit of the Budget Act or that we have in any way gone down the path toward balancing the budget under Gramm-Rudman-Hollings. All we have here at the very best is a near technical compliance with the Gramm-Rudman-Hollings Act.

You remember our target was not $154 billion; it was $144 billion. But we built into the system a $10 billion cushion that we would not trigger the sequester. By the way, I do not have a great horror of a sequester. A lot of people think this will just be the end of the world. I do not feel that way. Anyway, we are going to have a target this year of $144 billion deficit. If we did not reach that we would have a sequester. Then we said no, we better build in a $10 billion slack that took us up to $154 billion. To reach the $154 billion we have to reach savings of $14.5 billion. We do not even do that. We only get to $13 billion with this. We are going to borrow $1.5 billion of the extra revenues in the tax reform bill. So that is what we are getting ready to do.

It might surprise you having spoken perhaps in a somewhat critical manner about the nature and heritage of this legislative package that I am going to vote for it, not because I think it is any good, not because I think it balances the budget or even moves in the right direction, but actually I do favor selling off a bunch of these assets. I wanted to get rid of Conrail for a long time. Earlier this year, I fully was prepared to give it away to anyone who

would take it, along with Amtrak, as a package deal.

I am going to vote for this, but I am also going to make it clear that we are just digging ourselves into a deeper hole for next year. How deep are we digging ourselves in? Next year Gramm-Rudman-Hollings deficit target is $108 billion, and I would like to meet privately with any Senator who thinks that there is a way that we can meet a target of $108 billion for next year. That would require savings in the next budget year of at least $60 billion and maybe as much as $80 billion.

Now, if we have not guts enough to come up with even $8 billion of savings, or $13 billion, or $14.5 billion, any one of which would have been some kind of a benchmark for this year, how in the world are we going to get to $60 billion, let alone to $80 billion in savings next year? It is going to be an exciting year.

Mr. President, I just want to close by saying that while I am very disappointed, indeed I am highly critical of the package of reconciliation legislation which has been presented to us, I do not want that to be taken as a criticism of the chairman and the ranking minority member. I really think they honestly do the best they can. I am not sure whether they are doing the right thing.

I am going to support the package just as the best thing that is available, even though I think it is not very desirable. But, you know, in the final analysis the leaders around here, the majority leader, minority leader, the chairman, and the ranking minority member of the Budget Committee are actually constrained by what we are willing to do as a Senate. They have a lot of clout. They have a lot of influence. Many of us try to defer to them whenever we can, particularly on issues of this kind. But in the final analysis they have to put something up that can get votes enough to pass.

I do not sense in this Chamber and certainly not in the other body any real desire to make budget savings. I do not know what happened, but somewhere along the way the sense of urgency about the budget gradually disappeared. It certainly disappeared over in the administration. I am hopeful they are about to get pumped up on this subject again and really come out swinging and maybe veto the continuing resolution and maybe some of the other bills.

I noticed the other day, for example, that we put through the Interior appropriations that was about $3 billion above the President's request. He certainly ought to veto that if he is serious about it. We put through a Labor-HHS bill that is way above the President's request. I am assuming no matter what happens, the continuing resolution will be way above what the President has suggested is necessary to run the Government for next year.

So I hope he will veto a bunch of bills. The result of that might turn out to be some chaos, maybe a delay in the adjournment of the session, and I would regret that, but it would be a far less regret on my part than to have this session of Congress adjourn without making any real progress toward getting Federal spending under control.

□ 1130

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

□ 1140

Mr. DOMENICI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

OMNIBUS BUDGET RECONCILIATION ACT, 1987

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the pending business, which the clerk will state.

The legislative clerk read as follows:

A bill (S. 2706) to provide for reconciliation pursuant to section 2 of the concurrent resolution on the budget for fiscal year 1987 (S. Con. Res. 120, Ninety-ninth Congress).

The Senate resumed consideration of the bill.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, in behalf of myself and the ranking minority member of the committee, Senator CHILES, we are prepared to start reconciliation. As I understand it, there are now 8 hours remaining.

The PRESIDING OFFICER. The Senator is correct.

Mr. DOMENICI. Mr. President, I am going to yield myself 15 minutes off the bill rather than send to the desk the so-called leadership amendment, so that I will have time to discuss it generally. Once I send it to the desk, there will be 1 hour of debate on each side. We do have one or two items that we want to discuss with the majority leader and the minority leader that are in the package, and I want to talk about whether or not we should make some adjustments early on.

Let me proceed for 15 minutes and have it charged against the Senator from New Mexico on the time remaining on the bill and not against the amendment I will offer shortly.

Let me see if I can summarize quickly where we are.

First of all, I heard the distinguished Senator from Colorado talk about this reconciliation bill. I was very pleased to hear somewhere near the end of the discussion, after my good friend from Colorado, in his good style, indicated his criticisms of it, that he indicated he would vote for it.

Well, I hope he is joined by many, many Senators. I do not know that there will be very many Senators who will not vote for this. I hope there will be many Senators vote for it. In fact, I do not know why anyone would vote against it. I think when they finish reviewing it, and realize what will happen if we do not adopt it, they might be more inclined to vote for it.

This does not mean that this is even close to a good solution to the fiscal problems of this Nation. However, it has a very good chance, if it were adopted by both Houses and signed by the President, of helping us to avoid a sequester come October.

Also, if adopted, it should be enough to convince the U.S. Senate that they ought to postpone a sequester vote. If they do not want to postpone it permanently, perhaps for a week so that we can go to conference with the House. The House will be voting on a reconciliation bill next Wednesday.

The continuing resolution will be working its way through that process. If we can adopt this, I see no reason for a sequester as mandated by law today.

Let me first thank all the people involved in preparing this package. The cooperation has been excellent. Those representing the President, through the Office of the Director of the Budget, and particularly Director Miller, have been extremely helpful.

Hopefully, I can report later that they support this approach. At this point I am not able to state that.

Senator CHILES has been most helpful. Almost every member and chairmen of the committees affected by this bill have been helpful. They seem to be well aware of the fact that we have to do something so we do not have the across-the-board cuts contemplated by our failure to reach $154 billion this coming October when we finally finish appropriations and start a new fiscal year.

□ 1150

With that, Mr. President, let me tell the Senate what the package contains. First, the so-called leadership amendment would be an amendment to the pending bill. The pending bill saves $3.9 billion and includes among its many provisions a new cigarette tax of 8 cents, which would yield $1.6 billion in revenue. There are many other provisions in the bill and what we propose to do is offer a major leadership amendment that, in its totality would reduce the deficit by $13.3 billion.

That is made up of two categories: On the revenue side, this amendment would delete the cigarette tax that is

in the bill pending before the Senate. It would substitute, a total of $4.1 billion on the revenue side, resulting in revenue increases of $4,877 billion. These revenues are principally made up of accelerated State and local deposits on Social Security, State and local Medicare coverage, increased IRS compliance, increased IRS penalties, and accelerated excise tax collections.

Most of those are not new taxes. They simply make those who collect them collect them more promptly. When you add those up, we can credit the revenue side of the ledger for $4.9 billion.

We then have the remainder of that $13.3 billion that we are going to save. We have REA loan prepayments of an additional $500 million; RDIF—rural development insurance fund—loan asset sales, $1 billion; rural housing loan asset sales, $1.4 billion; Eximbank sales, $1.5 billion; Ship Mortgage Act amendment, $12 million; Coast Guard user fees, $38 billion; crude oil overcharge, $336 million.

What that is, I quickly tell the Senate, is the remnants of the regulatory schemes of 8, 9, and 10 years ago, where certain companies had overcharged under the regulations that existed during the oil crisis. We are going to collect money from them. This is merely saying on some of those products that the money is going to come to the Federal Government instead of getting distributed out there among the States. The States have already received over $2 billion. This is some of that. We think we are entitled to it, we think it is timely, we think we can get it.

Federal Energy Regulatory Commission fees, $33 million; Nuclear Regulatory Commission fees, $21 million; Environmental Protection Agency fees, $10 million; sale of EDA notes of $50 million; broaden the Federal Deposit Insurance Corporation assessment base, $310 million. I am sure there will be people down here talking about that one. We have it in the proposed leadership amendment.

We will sell Conrail. That should yield $2.1 billion. I note the House has been following suit. We have been working on this for 3 or 4 years. It will finally reach fruition today. I complement the Members who have given us amendments that make it palatable to everyone.

Sale of college housing loans, almost $600 million; small business loan assets sales, about $361 million. Farm deficiency payments are going to be in the package as we contemplate it. We have not sent it to the desk yet.

Let me, so that every one will have all the details, ask unanimous consent that the chart I send to the desk be printed in the RECORD. It is a tabloid explanation of the details of the bill.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SAVINGS IN SENATE RECONCILIATION PACKAGE AS AMENDED

[In millions of dollars]

Revenues	Senate bill	Domenici/ Chiles amendment	Amended bill
Accelerate State/local deposits		388	388
State/local medicare coverage	789		789
Cigarette excise tax	1,593	−1,593	0
Increase IRS compliance [1]		2,400	2,400
Accelerate excise tax collections		300	300
Increase IRS penalties [1]		1,000	1,000
Subtotal, revenues	2,382	2,495	4,877
Outlays:			
REA loan prepayments		−500	−500
RDIF loan asset sales	−555	−445	−1,000
Rural housing loan asset sales	−1,405		−1,405
Eximbank loan asset sales	−500	+1,000	−1,500
Coast Guard user fees	−38		−38
Ship Mortgage Act admendments	−12		−12
Crude oil overcharges	−100	−236	−336
FERC fees	−26	−7	−33
NRC user fees	−21		−21
EPA fees	−10		−10
Sale of EDA notes	−50		−50
Broaden FDIC assessment base		−310	−310
Highway programs			0
Sell Conrail		−2,100	−2,100
Medicare	1,901	1,235	666
Medicaid	121		121
Assistance payments	14		14
Civil service retirement	−205		−205
Sale of college housing loans	−579		−579
GSL changes	−30		−30
SBA loan asset sales		−361	−361
Advance final GRS payment		−680	−680
Eliminate COLA triggers		808	808
Farm deficiency payments [2]			
Part-time retirement computation		−10	−10
Subtotal, outlays	−1,495	−6,076	−7,571
Other congressional action			−380
Debt service savings			−475
Total deficit reductions	−3,877	−8,571	−13,303

[1] Preliminary Treasury and OMB estimates.
[2] This provision has no cost against CBO's Gradison base.
Notes.—All loan asset sales are without recourse.

Mr. DOMENICI. Mr. President, I say to my fellow Senators that Senator CHILES and I have arranged to distribute that summary to everyone. If it is not on your desk now, it is available and we are prepared to answer questions about anything in it. Most of the provisions that either sell assets, impose user fees, increase revenues, or change the Medicare Program of this country, have been drafted by the appropriate authorizing committees and I can only say thanks to them all. They and their staffs have been very cooperative. If we need the chairman or ranking member to explain their provisions, let me indicate to any Senator who wants to inquire, that they are willing to come down and answer questions about them.

Mr. President, let me state the parliamentary situation so Senators can be thinking about what they might want to do. This amendment that will be offered by the Senator from New Mexico and the Senator from Florida [Mr. CHILES]—hopefully to be joined by many other Senators from both sides of the aisle and most of the leadership, is under the Budget Act and the Byrd amendment on extraneous material subject to a point of order. Clearly, that point of order would be because of the Byrd amendment on the extraneous material and because of the traditional precedent of this body with reference to germaneness on a reconciliation agreement. It would not be germane. But this is curable by the will of the Senate.

The point of order does not mean that we cannot adopt it; it merely means that if somebody wants to raise that point of order we would be required to have 60 votes for its adoption or 60 votes to waive the impediment against its adoption. We think that eventually, there would be 60 Senators who would be willing to vote for this. We do not know that yet, but we think so. In fact, as I said a few minutes ago, I think there will be more than that.

On the other hand, we would like very much to consider a unanimous-consent approach that would make this in order with a majority; then we would like to do the same for amendments that people would ask us about so that they, too, could offer their amendments without the impediment of being subject to a point of order.

I do not know if we can do that. We already have a list of 20 or so amendments. Clearly, there are Senators who would want to raise points of order against those amendments. They are substantive changes in the law. They change rescission procedures, they transfer airports, they do all kinds of things. Some of them result in legislative savings of money that we just have not been able to include in our package. So, what we are going to do after we introduce the amendment is start asking Senators which they prefer: would they prefer to try to work out a unanimous-consent agreement or would they prefer that we proceed and if we can get our 60 votes, then that amendment will be adopted?

Then I must remind my fellow Senators that if we go that latter route, all their amendments are going to require 60 votes. That may be all right by some of them. I just want them to know that we would like to adopt this because we think it has broad support. Perhaps it has to be modified a bit. We also think it comes very, very close to avoiding a sequester and to justifying our putting off the preliminary across-the-board mandate that is pending before the close of business today.

Almost everyone has been helpful. Some of the chairmen have questions on maybe two or three of these items. We shall be glad to go over those with them. I particularly want to thank one chairman, the chairman of the Committee on Appropriations, Mr. HATFIELD, because basically he has worked with us in such a way that we can now be assured that the Internal Revenue Service will get the increased revenues

it has been seeking, so as to enforce the laws of this land in what they perceive to be an adequate manner. We have worked out with the administration the requisite money for that, and the appropriators, with Senator HATFIELD's assistance, have helped us with language that will assure that funding in the continuing resolution, thus justifying the increased revenues through the year by way of enforcing the laws of our country in a manner that is more apt to cause taxpayers to pay what they owe.

□ 1200

Having said that, I need a few minutes to confer with the majority leader. I believe the distinguished Senator from Florida would like to make some comments, so I am going to yield the floor. We are running our time, but we have not started to run time against the amendment, which I will offer shortly.

The PRESIDING OFFICER (Mr. MATTINGLY). The Senator from Florida.

Mr. CHILES. Mr. President, over the years I have been here, I have learned that you do not always get everything you want. That lesson was repeated for me early this year on the budget. Senator DOMENICI and I brought to the floor a budget with a combination of spending cuts and revenues that would have brought the deficit down to within the $144 billion deficit target for this year. We would not be here today on a reconciliation bill like this had we been able to adopt the budget with which we came out of the Budget Committee.

Even with the reestimates due to a slower economy, we would have a deficit low enough to avoid a sequester with no further action. We lost some revenues on the floor, but we would still be within $2 billion of avoiding sequester under the Senate-passed budget resolution.

But by the time the budget came back from the House, most of the original revenues were gone.

I knew then that we would be in for it this fall. I knew then we would either have to come up with much deeper and more painful spending cuts, or face a sequester which would mean across-the-board cuts in most programs. That is where we are right now.

As the Budget Act requires, we have reconciliation before us. It is the bill that makes the statutory changes to enforce the budget resolution. It is a disappointment to me that this bill, as it stands now, would only reduce the deficit by roughly $3.5 billion.

Everybody here knows that is not nearly enough. It does not have a real impact on the deficit. It does not even get us within the $10 billion security zone that would allow us to avoid a sequester. And it certainly does not come close to reaching the $144 billion deficit target.

So what we have done is put together a package of additional spending cuts which we now bring before the Senate.

In all, this package amounts to about $13 billion in deficit reduction.

One of the virtues of the package is that it accounts for spending Congress is certain to allow before we adjourn. Provisions are made for removal of the Social Security trigger threshold, and to allow for farm deficiency payments.

In addition, it builds on the Senate-reported reconciliation package and adds further substantial savings.

As to the specifics, let me briefly describe some of the provisions.

For example, it reduces Medicare spending by $1.2 billion through modifications to the provisions that require prompt payment of claims. The package would still require prompt payment, and interest would still be paid on claims which do not meet timely payment standards.

We were also able to tighten up some provisions, and 3 days have been added to the length of the payment cycle to achieve these savings. There are no other changes to the committee-reported Medicare provisions. We still have the cap on increases in the deductible, and we still have a 1.5-percent increase for hospital admissions.

We also advance the fourth—and final—quarter payment for revenue sharing from October 5 to September 30 which saves $680 million in fiscal 1987.

There are revenue provisions in the package. They include $1 billion of rural development loan asset sales, and accelerated payment of excise taxes on distilled spirits and tobacco products. It also reduces outlays by $361 million through the sale of SBA section 503 loan. A complete list of the revenue provisions is available on the desk of each Senator.

This amendment assumes the House revenue provision regarding oil spill liability legislation. It would assess a 1.3 cent per barrel tax on oil, and deposit these funds in the oil spill liability trust fund.

And it mandates the use of advanced farm deficiency payments at current levels in fiscal 1987.

It also directs the Secretary of Transportation to conduct a public offering of Conrail common stock in fiscal 1987.

Guaranteed student loan applicants would have to meet a financial need test, and the interest rate for new borrowers would increase from 8 to 10 percent.

And Coast Guard user fees are expected to bring in $138 million between fiscal 1987 and fiscal 1989.

And before anybody asks me, I will just say right now it is not what I wanted. I would put this package in that category I mentioned in the beginning as "least-worst."

The ideal situation would be to reach the Gramm-Rudman-Hollings deficit target. This reconciliation package won't do that. What it will do, is get the deficit down below $154 billion, and avoid the need for a sequester.

I know some will want to ask: "If it's only second best, why should anybody vote for it?"

Well, Mr. President, to answer that question, let us put this package in its proper context. This package is midway between the best we can do, and the worst that can happen under Gramm-Rudman-Hollings. There is one option that's worst of all, and that would be to do absolutely nothing, ignore the law, and settle for a deficit this year of over $175 billion.

But among the realistic options we have open to us, this reconciliation package is in the middle. And if I read the sentiments in this body correctly, it is probably the best we can do.

There is no way we can actually reach the $144 billion deficit target—short of a sequester—without additional revenues. The White House will not go along with that. They say despite the soft economy, despite the record trade deficit, there will be no extra revenues to help meet the deficit target.

On the opposite end of the problem is the sequester resolution. We could defeat this reconciliation package, and the Senate would then have to vote on the sequester order. I will concede to this body that adopting the sequester resolution will get us down to this year's deficit target.

But I remind the Senate that a sequester would fall equally on both domestic spending and on defense spending. Many worthwhile and necessary domestic services would be sharply cut. And for those of us concerned about maintaining the defenses of this country, the military would be in for further reductions. The Appropriations Committee did yeoman work keeping the DOD bill within a tight outlay target, with no phony accounting—there is no water left there to squeeze.

So all of us would lose. But those of us in the Senate would lose perhaps a little more.

We would be saying to the country that the men and women sent here to watch over the course of economic affairs simply could not do the job. We would say to the country that we had one final chance to put our thoughts and best efforts into the deficit fight, but we backed away and allowed a formula to rule national affairs.

So what we have are three basic choices.

We can adopt a reconciliation package with cuts large enough to avoid a sequester.

Or we could surrender the chance to make a rational choice, and instead, vote for a procedure which will take the power of choice and judgment from our hands, and cut the good programs with the bad.

Or, finally, we could defeat this package, vote down sequester and say to the country, "We just couldn't cut it."

For my part, I will support this reconciliation package and urge my colleagues to do so, as well. Is it a perfect package? No, it is not.

Is it an easy choice? No, it is not.

Will it solve the deficit problem for this year? No, it will not.

This package will help us get by this year. But it does not meet the obligations under Gramm-Rudman-Hollings for steady progress on a 5-year path.

Senator DOMENICI, Senator GORTON and I and others have all proposed plans in the past that would have produced growing savings and a balanced budget in 5 years. The Senate turned those down. We have been stuck on 1-year proposals. And this is another one.

But I say to my colleagues that a sequester is next to surrender. Given the present condition of the economy, we have to do the best we can, rather than cause dramatic dislocations and disruption just when the economy is unsteady and unsure.

Mr. President, during World War II, a pilot wrote these words that are appropriate for the situation we are in now. He said:

> We believe that our advance is incomplete, that tomorrow's truth derives from yesterday's error, and that the contradictions to be overcome are the very mainsprings of growth.

There is no question that our advance is incomplete, in the same way that this proposed solution is incomplete. But if we want this economy to grow, we have to act now and keep moving in the best, most rational and responsible way we can.

This reconcilation package is a chance to move ahead, to learn from our first-year problems under Gramm-Rudman-Hollings and do the best we can for this economy.

They tell me that today is a "triple witching hour" on Wall Street. Well, we are facing our own triple witching hour. We have to pass reconciliation, pass appropriation, and pass a debt limit bill. We hit one witching hour at midnight tonight—we have to vote on a sequester resolution. When we hit that witching hour, the sequester is a bubbling cauldron. I hope we do not fall into that cauldron and get burned.

I hope my colleagues will support this package.

It is tempting to think some magic could release us. But not this time. Starting right now, the only formula we have involves equal measures of hard work, clear thinking, and gumption.

That is not the kind of formula you find in a book. It is the kind of formula that originates inside each Member of the Senate.

It comes down to the old rhyme:

Boil, boil,
Toil and Trouble
If we fail in this,
We'll all be rubble.

Mr. DOLE. I commend Senators DOMENICI and CHILES because we now have a measure before us. The clock is running and we have plenty of time. There are still almost 8 hours. And I would hope we could have a resolution of this matter by midafternoon. It seems to me, they put together a very sensible approach which almost meeting the targets, a bit short, I guess about a billion dollars.

I would hope that we could get some agreement. I know there are a number of amendments floating around. But most of them are not germane, which means it is going to take 60 votes to approve them. If someone can get 60 votes for a nongermane amendment, they can probably get it passed.

But I do believe, that if we could get consent to offer the amendment of Senator DOMENICI and Senator CHILES, I am going to join in sponsoring the amendment. And I hope the minority leader will, as well, after he has had an opportunity to look at it carefully. There may be some areas that still need to be negotiated.

Generally, I commend both Senators for a full day's work yesterday and earlier in an effort to bring it this far. They worked with the House and with colleagues on both sides of the aisle, the committee chairmen and ranking minority members. I do not know how many different meetings were held but a number, and they were still meeting at 8:30 p.m. last evening. After that there was a lot of drafting going on.

Mr. BYRD. Mr. President, on that subject, will the distinguished majority leader yield?

Mr. DOLE. I am happy to yield.

Mr. BYRD. Mr. President, I hope that the Senate can be in recess for an hour beginning at 12:30, because I have called a conference of Democrats at the request of Mr. CHILES, so that we can hear from him an explanation of what the provisions are in the package that would be brought to the floor. Inasmuch as, under the order of yesterday, the total time remaining on the reconciliation measure is limited to 8 hours to begin running at such time as the manager or the ranking manager are ready to proceed, would the distinguished majority leader be in a position to recess the Senate so that we might have an hour's discussion that would not be interrupted by quorum calls, et cetera?

Mr. DOLE. Would that be charged against the 8 hours or not?

Mr. BYRD. That would not be charged against the 8 hours under the order of yesterday.

Would the majority leader want to charge it against the 8 hours?

Mr. DOLE. I want to leave ample time for the managers. There are 25 amendments pending and if we have votes on 25 amendments, we are looking at a 2 or 3 a.m. event here tomorrow morning.

Mr. BYRD. Rather than charge it against the time, I would just as soon the Senate continue in session, because I think it is important that there be an ample amount of time of 8 hours on the package.

Mr. DOLE. I agree with that.

Mr. BYRD. Mr. President, I speak from a misunderstanding to start with. I did not realize the clock had already begun running and the two managers had already proceeded. So I withdraw a bit from my earlier stance.

I would take the manager's advice at this point as to whether or not the manager on either side is willing to charge the hour of the recess against the 8 hours.

Mr. DOLE. That would be 30 minutes on a side. We would be happy to accept 30 minutes.

Mr. BYRD. Mr. President, Mr. CHILES has indicated he thinks it would be well worth having the recess—we will have the recess—but he thinks it would be worth it to have the discussion charged against the 8 hours. Otherwise, discussions would be going on on the floor. In that way, we could have the discussions without any interruptions and we would not have rollcall votes or anything else to distract our attention.

ORDER FOR 1-HOUR RECESS AT 12:30

Mr. DOLE. Mr. President, I ask unanimous consent that at 12:30 we stand in recess for 1 hour and that the time be equally charged to each side.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, I ask unanimous consent that I be permitted to proceed for 1 minute and that it be charged against my half hour off the bill as previously ordered.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, I want to say to the Senators who are here on the floor or who might be interested in this reconciliation bill—and I assume they all are—that while we have not submitted the so-called leadership amendment, it is in final form. A chart showing each of the items in terms of their effect on this reconciliation bill is available. The staff of the Budget Committee and the staffs of various authorizing appropriating and finance committees have them. We will be glad, during the next hour, to make them available. The Senator from New Mexico will be available if

anyone wants me to explain what it is we have done.

Mr. President, everything in this was either previously voted out of committees by reconciliation or debated and discussed around the Senate and in committees heretofore. On the revenue side, with one exception, all the items there have been before the committees and at one time or another on the floor of the U.S. Senate.

So we are available again to go through them and I understand that the Finance Committee staff, on the tax part, is, also. Most of the other committees have touched on the issues that are here, either in the reconciliation bill pending or in the previous sale of assets or user fee impositions.

So while we are not having a caucus on our side, this distribution of information is taking place and we are available to consult with anyone who is interested.

I yield the floor.

RECESS UNTIL 1:30 P.M.

The PRESIDING OFFICER. Under the previous order, the Senate will now stand in recess.

Thereupon, at 12:33 p.m., the Senate recessed until 1:33 p.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer (Mr. GRASSLEY).

The PRESIDING OFFICER. The Chair, in his capacity as a Senator from Iowa, suggests the absence of a quorum and makes the point that the time be divided equally.

The clerk will call the roll.

The bill clerk proceeded to call the roll.

The PRESIDING OFFICER. The Chair asks that the calling of the quorum be dispensed with.

I observe no objection.

RECESS FOR 30 MINUTES

The PRESIDING OFFICER. The Chair, in his capacity as a Senator from Iowa, asks that the Senate stand in recess for a period of 30 minutes and that the time be equally divided between the two sides.

Thereupon, at 1:34 p.m., the Senate recessed until 2:06 p.m., whereupon, the Senate reassembled when called to order by the Presiding Officer [Mr. QUAYLE].

The PRESIDING OFFICER. The Chair, in his capacity as a Senator from Indiana, suggests the absence of a quorum, with the time for the quorum to be divided equally.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. PELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. DENTON). Without objection, it is so ordered.

NICHOLAS DANILOFF THANKS U.S. SENATE

Mr. PELL. Mr. President, in the course of a recent trip to Moscow by staff members of the Foreign Relations Committee to review the status of the new U.S. Embassy Building, the committee's minority counsel, David Keaney, had an opportunity to meet with Nick Daniloff of U.S. News & World Report on three separate occasions. During the last meeting, Mr. Daniloff expressed his deep appreciation for the action of the Senate in passing Senate Resolution 486, and asked Mr. Keaney to bring back a letter to the Senate setting forth his personal thanks.

His letter reads as follows:

U.S. NEWS & WORLD REPORT,
Washington, DC, September 16, 1986.

To the Senate of the United States:

DEAR FRIENDS: My wife Ruth conveyed to me the news of the congressional resolution in support of myself. I cannot express in words how your support bolstered my morale as I sat, without legal counsel and in isolation from the outside world, in a basement all in Lefortovo Prison. Your resolution was all the more touching for me because, as a journalist, I covered your debates, your committee hearings, your agonizing appraisals, and your decisions between 1974-1980.

I am today, September 16, 1986, still a hostage. Released into the custody of the American Embassy is *not* a swap. The exchange of an innocent journalist for a Lt. Col. of the KGB is extremely distasteful to me.

I realize that for the sake of U.S.-Soviet relations—to say nothing of my family—some kind of political solution must be reached. I believe this will require extraordinary diplomatic skill and may take a while.

So far as letting the Soviets get away with this outrage—I do not believe they have succeeded. They will bear international propaganda scars for years to come!

Respectfully,

NICK DANILOFF.

In conclusion, and speaking now personally, I know, like, and admire Nick Daniloff and wish him the very best of luck and God's help.

I also admire and commend his selflessness in having said that he did not want to see his case result in cancellation of the summit. And I agree with him on this.

I yield the floor.

Mr. President, I suggest the absence of a quorum and ask unanimous consent that the time be equally divided.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

OMNIBUS BUDGET RECONCILIATION ACT, 1987

The Senate continued with the consideration of the bill.

Mr. DOMENICI. Mr. President, is the pending business the reconciliation bill?

The PRESIDING OFFICER. The Senator is correct.

Mr. DOMENICI. How much time remains on the pending business?

The PRESIDING OFFICER. Two hours 47 minutes for the Senator from New Mexico, and 2 hours 53 minutes for the Senator from Florida.

Mr. DOMENICI. Mr. President, I thank the Chair.

I suggest the absence of a quorum and ask unanimous consent that the time be charged equally.

The PRESIDING OFFICER. Without objection, it will be charged equally.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

□ 1436

Mr. HOLLINGS. Mr. President, I ask unanimous consent that the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CHILES. Mr. President, I yield such time as the Senator may require.

Mr. HOLLINGS. Mr. President, with regard to the proposed reconciliation package to be presented by our distinguished leaders, the chairman of the Budget Committee, Senator DOMENICI, and the ranking member, Senator CHILES, I rise in support and welcome this opportunity to explain my reasons for the support.

First, however, let me make a statement regarding the vote on across-the-board cuts that would be required no later than midnight tonight under Gramm-Rudman-Hollings.

Last week, I met with my colleagues, the Senator from Texas [Mr. GRAMM] and the Senator from New Hampshire [Mr. RUDMAN], and we made a gentleman's agreement that on this day, Friday, under the rule, we would not force our colleagues to accept a particular report as long as they were engaged in an effort to reduce the deficit. We concluded that the work being done on both sides of the aisle was significant, and that it serves the purpose of Gramm-Rudman-Hollings better to withhold the vote on across-the-board cuts in order to see if a delay could bring about compliance with Gramm-Rudman-Hollings. The idea here is to make headway and not headlines. However, I understand now that there are certain colleagues who will raise an objection to unanimous consent and have a vote on the across-the-board cuts even if an adequate reconciliation package is voted today.

I appreciate the dilemma that Senator DOMENICI and Senator CHILES find themselves in.

Over on the House side there are two hurdles: First, the ruling by the Parliamentarian that the House will not vote, despite the requirement of Gramm-Rudman-Hollings, unless and until the distinguished Speaker calls the matter for consideration. Second, if the Speaker calls it for a vote after the House has worked its will on reconciliation, then the House would vote down the sequester order saying, "Look, we have complied. Voting for a sequester would be only symbolic. There is no need for these cuts from defense and social programs because we have complied, we have exercised our will with respect to the reconciliation bill."

My point, Mr. President, is that there is no sense going in two different directions at the same time: both a reconciliation bill and a sequester vote. This is especially so in light of the impending enactment of tax reform, which will bring in another $11 billion.

Despite this commonsense approach, there are some around here who want to force the sequester vote, even at the cost of sowing chaos.

Let me address that particular point.

There are two alternatives here, as the Senator from South Carolina views it. One is to force the President of the United States to agree to additional revenues, and the other alternative is chaos. In both instances the President politically wins. Politically he has said time and again he is not for revenues.

Within recent months, I have sought to raise $15 billion in new revenues through an oil import fee.

For 5 years running, I have proposed the Hollings budget freeze which, through a mix of new revenues and judicious cuts, would bring about an orderly reduction of these outrageous deficits—deficits that approximate, this year, some $230 billion.

Regrettably, the President is fixed in concrete and, in response, the House is fixed in concrete. We in the Senate act as though what we do here is going to be enacted in the House and signed by the President, the very parties calling for budget chaos.

So the President says, "I am not going to permit new revenues, I'll stick with the status quo." The President would not call it chaos, but that is exactly what follows from his stance. He tries to shift blame for the ensuing chaos by saying "that spendthrift Congress failed to recommend cuts." He will say, "We worked with the leadership in the House and the leadership in the Senate and I have had my budget director meeting for the last 72 hours around the clock and here is the list of things that we practically agreed upon."

Then he would run down this long list of user fees and asset sales and the rest of his grabbag of gimmicks. I can practically write his speech. He would say: "I asked them to accept the cuts I was willing to make. Of course, they would not make the cuts. All they wanted to do was to sow chaos, shut down the Government, or more specifically wreck the Department of Defense and the security of this Nation. Now, Mr. and Mrs. America I—as President—am taking care of the security of this Nation. I have authority now for these loan-asset sales. So I am going to make $4 billion or $5 billion in additional asset sales under the previous years' budget authority. I am going to take care of national defense and the people of America can know that as long as Ronald Reagan is in the White House, America and the world will be secure."

I can write the speech.

Yet here I am, beating my head against the wall with Gramm-Rudman-Hollings, and hearing, "You did not comply" and "you broke the discipline," and so on.

So faced with the choice of trying to bring in revenues or submitting to chaos, I throw my support behind this reconciliation package, despite its flaws. I will explain my reservations, but first let me salute the expertise, the dedication and the industry of Senator DOMENICI and Senator CHILES.

You cannot ask for better Senators. They have labored around the clock.

For several days, now, I have carefully studied Senator DOMENICI's proposal. He outlines a realistic approach of both revenues and cuts.

I ask unanimous consent that Senator DOMENICI's proposal be printed in the RECORD at this point.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

Possible components of an amendment to Senate reported reconciliation bill

[In millions of dollars]

Needed savings to avoid sequester	14.5
Options available to avoid sequester:	
1. Senate reported reconciliation	3.7
2. Senate adopt some House reconciliation savings not in Senate bill	
(a) Maritime guarantees	(1)
(b) Accelerated Social Security payroll	.4
3. Reconcile sale of Conrail	2.0
4. Reconcile sale of naval petroleum reserve	2.2
5. Modify Senate oil overcharge proposal	.4
6. Small Business Committee compliance	.3
7. Finance Committee reduce adds	1.1
8. Banking Committee Exim asset sales	1.0
9. Revenues or other spending reductions	3.4
Total options	14.5

[1] Less than $50,000,000.

Needed deficit reduction to avoid Oct. 1 sequester

[In billions of dollars]

CBO/OMB Aug. 20 deficit snapshot	163.4
OMB:	
Legislation adding to deficit:	
COLA	
Farm deficiency payments	+4.3
Appropriations:	
Appropriated entitlements	+1.7
Appropriations at Senate levels	+1.7
CBO:	
Legislation adding to deficit:	
COLA	+.8
Farm deficiency payments	
Appropriations:	
Appropriated entitlements	
Appropriations at Senate levels	+1.7
Legislation adding to deficit	+5.1
CBO/OMB Oct. 1 deficit snapshot	168.5
Deficit needed to avoid sequester	154.0
Deficit reduction needed	14.5

Mr. HOLLINGS. What we have here is a deliberate and a balanced approach, quite in contrast to the Mickey Mouse of loan-asset sales.

By supporting the reconciliation package and its loan-asset sales, I am losing my running debate with the distinguished Senator from New York, DANIEL PATRICK MOYNIHAN. He has been recommending loan-asset sales for several years, and even before Senator MOYNIHAN, the distinguished Senator from California [Mr. CRANSTON], also recommended this approach.

I have resisted. I know we can sell the Washington Monument. I know we can do away with various military bases. I know I can take the portfolio of farm loans and FDIC loans and so on, sell them at a discount for some quick cash, even if in the long run that will make it harder to bring down the deficits.

My objection to the approach we have taken in this special reconciliation package is that it does not solve the problem in the long range, as Senator DOMENICI's proposal would have. As the conscientious chairman of the Budget Committee, he was not content just for a quick fix to get us out of here in October for the 1986 election. He was interested in sound fiscal policy in the outyears. He sought to put in place a policy and program that would continue to reduce the deficit in the years to come. His plan was to truly bite the bullet and begin to kick this addiction to deficit spending.

In recent weeks, Mr. President, we have been saying the country is on drugs and the country needs treatment and the country needs drying out centers and country needs the death penalty for drug murders.

In reality, it is we who need the drying out. And the public will give us the death sentence politically if we do not start acting responsibly. We have been hooked on the drug of deficit spending now for some 5 years. It took us 205 years and 38 Presidents to get a $1 trillion debt, and it took us only one President 5 years to get to reach $2

trillion. It has been up, up, and away, a couple hundred billion in new debt each year. Yet there are those who cling to the fiction that we will grow our way out of these deficits.

I would like a mayor of a city to announce, "I am going to cut our revenues 25 percent because we are going to get growth in this city."

He would find out in 90 days' time that he had lost his credit rating, that he could not sell his municipal bonds, that he would have to fire policemen and firemen.

When I was sworn in as Governor in 1959, the first thing I did was not only to make budget cuts but to raise revenues. We obtained a triple A rating and thereupon I could go to blue chip corporations and say, "Invest in this State. We are acting responsibly. We have met our fiscal responsibilities and, therefore, there will be growth." Unfortunately, this philosophy has been out of fashion in the United States.

I repeat, Senator DOMENICI and Senator CHILES attempted a long-range approach. But what we have on the table now are loan repayments, assets sales, and advancing the general revenue-sharing payment.

Nonetheless, the package before us is the best we can hope for given the position taken by the administration and the House of Representatives. This document represents a reasonable solution.

Let me emphasize specifically in regard to the Conrail sale. I do not support the Conrail sale by way of a public offering.

We worked for 3 years with Secretary Dole and the administration. We had bids for the sale of Conrail. We listened to the public. We made an affirmative vote here on the floor of the U.S. Senate and called for the sale to Norfolk Southern.

Now, due to opposition from the distinguished chairman on the House side, we have now flip-flopped, opting for a public sale, which had previously been considered in depth and turned down.

If the Conrail sale is to be included, I have suggested language to ensure that when we go into conference we will include the same covenants, the same requirements, the same restrictions that we wanted with respect to the sale to the private operator.

□ 1448

Mr. President, the problem is that this reconciliation package is looking for quick money and Senator HOLLINGS from South Carolina is looking for continued railroad service. Conrail is operating, it is operating at a profit, it is operating with outstanding service, everyone has agreed on both sides of the aisle. It is just that some want to get the Government out of the railroad business.

But look at this the way the money boys on Wall Street do. There is at this time $950 million in cash. In the pension fund, there is an overage against obligations to that particular fund of some $400. So without a sale, if we want to make a cash transaction from this pocket into this pocket, as the House of Representatives wants to do—they have a $1 billion 700 million sale and they take $300 million from the Conrail itself to make up the total revenues from the sale. Why take $300 million? Let us take $1 billion 350 million. And you do not have to sell it. We still have a railroad. We have not lost anything, if we want to make cash transactions.

I want to make certain that we do not approve something like that Morgan Stanley operation—they were just buying the cash and had no real obligation to continue rail service, and after they had made their money, if it worked, fine business; if it did not, they could write off all their losses and make even more money, and you and I back here in the Government would end up with a defunct railroad to try to regenerate somehow or other to continue that service to the shipping public in America.

I will insist on the same covenants and requirements previously adopted by the Senate, but I do not want to be misunderstood. I am not in favor of a Conrail sale, and might yet work against it, if they opt for a so-called public sale. That would accomplish nothing but a transfer of our money into the hands of sharp investors who have no idea how to run a railroad.

Having said that, let us look at the big picture of what has happened under Gramm-Rudman-Hollings this year.

We have saved some $12 billion in the March cut under Gramm-Rudman-Hollings. Additionally, we have now, according to the joint CBO-OMB figures, reduced next year's deficit to $163.4 billion. If we come in with no reconciliation whatsoever, we still have a reduction from 1986 to 1987 of $78.6 billion. Now, that is quite a different thing from going from $212 billion in 1985 up to $242 billion in 1986.

You see, Mr. President, if we had not cut that $12 billion in March we would have had a 1986 deficit of $242 billion instead of $230 billion. Let me be a little more candid than I would otherwise like to be. The distinguished financial minds will tell you that the 1987 deficit is really not $163.4 billion, it will be about $170 billion. If it is $170 billion and we reduce it by the $13 billion proposed in the Domenici-Chiles amendment, then we are talking about a deficit cut between 1986 and 1987 of $85 billion.

But assume that this is one-half smoke and mirrors. At least, you have $6.5 billion in real savings.

That is no mean achievement. Bear in mind, Gramm, Rudman, and Hollings are not financial experts. We had to lay out a plan. The economy changes. When we wrote the measure, no one envisioned a 1986 deficit of $242 billion. We were talking then in terms of $216 billion. So the deficit was even more out of control than we thought at the time of enactment. In this context, our achievement on the 1987 budget is a good start. It does not, however, solve the problem. It does not build in the long-range solutions that Senator DOMENICI and Senator CHILES want.

There is no question in my mind that by next year, Mr. President, we are going to run out of smoke and we are going to run out of mirrors and we are going to have to raise revenues.

Looking at my leaders now, I see we might run out of time, so I want to yield that time back to my distinguished friend from Florida. I appreciate his giving me these few moments. Because I am one of the three authors, I have to look at it in the broad. I can nitpick this reconciliation package. I can sow chaos, and there are people on my staff who would love it, just tear down the temple walls, make a lot of headlines, call everybody else spendthrifts, and go home and get reelected. But I like to see results. What we have in Domenici-Chiles is the best result under the circumstances.

I shall be delighted to answer questions about it. I would be delighted to debate it in the time alloted me as we continue this evening. For now, I have explained the major points, the options we have, and the good job done under the circumstances.

Mr. DOMENICI. Mr. President, I want to say to my good friend [Mr. HOLLINGS] he has been fighting a good fight. I think he has it analyzed perfectly right. This is the best we can do. This moves us toward avoiding a Gramm-Rudman-Hollings sequester, which the Senator never intended to use. He had it there as a pressure on Congress and the President to do their job. We have done the best we can.

I think he is right; this is not going to do the job in 1988, 1989, or 1990. It does not even come close. Almost all of them are one-event transactions. What does that mean? That means if you sell Conrail, you do not sell it every 4 years. You get your $1 billion, $2 billion one time. If you changed the program that was spending out and changed it so it would come down, it would come down every year. That is what the Senator is speaking of.

If we raise some revenues that were going to be there and were permanent, they come in every year. We do not even do that here except on two or three items because we cannot do that, because the U.S. House of Representatives will not do that, because they say

unless the President will do that, they will not. And 'round and 'round we go. So we have done the best we can.

We thank the Senator from South Carolina for his help, not only as ranking member of the committee that has jurisdiction over a number of items including Conrail, but because of his understanding. If we do not vote something like this in, we have just told the American people we passed a law that told us to do our work and we are not even going to come close. We are going to let everybody, agriculture, defense, servicemen, everybody—take a cut because we do not have the courage at least to do something.

I thank the Senator for that. I want to tell him that it is my intention, along with Senator CHILES and other cosponsors, to move right along and let the Senate vote on this as soon as possible and get on with the job of seeing if they have any other amendments. Hopefully, we can wrap this up today and have the conference with the House next week. We will not come back with any less, I do not think, from conference and we will be at least on our way, when coupled with the continuing resolution and tax reform, of being able to tell the people of the country there will not be a sequester, there will not be October doomsday—cut even regardless of whether they are good programs or bad ones—we have done the job at least for this year.

I ask my friend from Florida if he is ready to join me in the offering of the amendment.

□ 1500

Mr. CHILES. Mr. President, my understanding is that there is a technical amendment that we will do in about 5 minutes. I guess we could send the modification to the desk. It is a $10 million item.

AMENDMENT NO. 2850

(Purpose: To provide for increased budgetary savings)

Mr. DOMENICI. Mr. President, on behalf of myself, the distinguished Senator from Florida, and the distinguished majority leader, Senator DOLE, I send an amendment to the desk and ask for its immediate consideration. We have not had a chance to check around for additional cosponsors; I assume that there will be a number.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from New Mexico [Mr. DOMENICI], for himself, Mr. CHILES, and Mr. DOLE, proposes an amendment numbered 2850.

Mr. DOMENICI. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. The amendment is as follows:

On page 2, line 10, strike "$555,000,000" and insert in lieu thereof "$1,000,000,000".

On page 3, between lines 14 and 15, insert the following new sections:

SEC. . ADVANCE DEFICIENCY PAYMENTS.

Notwithstanding any other provision of law, the Secretary of Agriculture shall, in accordance with criteria in section 107C of the Agriculture Act of 1949, make advance deficiency payments available for the 1987 crops of wheat, feed grains, upland cotton, and rice: *Provided*, That the percentage of the projected payment rate used in computing such payments shall not be less than (1) 40 percent in the case of wheat and feed grains, and (2) 30 percent in the case of rice and upland cotton.

SEC. . PREPAYMENT OF REA LOANS.

SEC. 102. The Secretary of the Treasury shall issue final regulations implementing the provisions of the undesignated paragraph captioned "PREPAYMENT OF LOANS BY RURAL ELECTRIFICATION AND TELEPHONE SYSTEMS" appearing at 100 Stat. 713-14 in Public Law 99-349 (7 U.S.C. 936 note) to permit the prepayment of loans made by the Federal Financing Bank and guaranteed under section 306 of the Rural Electrification Act of 1936 (7 U.S.C. 936), by the Administrator of the Rural Electrification Administration, in such amounts as to realize net proceeds of not less than $1,720,000,000 from such loan prepayments during fiscal year 1987.

On page 6, line 6, strike "$500,000,000" and insert in lieu thereof "$1,500,000,000".

On page 8, between lines 14 and 15, insert the following new section:

SEC. . FDIC PREMIUMS ON FOREIGN DEPOSITS OF UNITED STATES BANKS.

The Federal Deposit Insurance act is amended—

(1) by striking "except as provided in section 7(b)(5)," after "(A)" in section 3(1)(5);

(2) by striking out "and" at the end of clause (A) of section 7(b)(5); and

(3) by striking out the period at the end of section 7(b)(5) and inserting in lieu thereof the following: "; and

"(C) any deposits received in any foreign branch of international banking facility, other than any foreign branch of a foreign bank as defined in section 1(b)(7) of the International Banking Act of 1978.".

On page 12, between lines 4 and 5, insert the following new section:

SEC. . SALE OF CONRAIL

The Secretary of Transportation is directed in fiscal year 1987 to sell the interest of the United States in the common stock of the Consolidated Rail Corporation (Conrail). Consistent with the public interest convenants provided for pursuant to S. 638, the "Conrail Sale Amendments Act of 1985" as passed by the Senate on February 4, 1986, the Secretary, as part of such sale, shall ensure that Conrail's rail service is continued, that the interests of rail labor are protected, that it is in the strongest possible financial condition after the sale, that it is viable long-term, and that the return to the Federal Government is maximized.

On page 12, line 8, strike insert "OR PETROLEUM PRODUCTS" after "CRUDE OIL".

On page 12, line 18, insert "or petroleum products" after "crude oil".

On page 19, line 21, strike out the period and insert in lieu thereof ": *Provided*, That the Commission shall increase fees and annual charges sufficient to increase offsetting receipts by at least $33,000,000 in fiscal year 1987 above current collections.".

On page 27, line 18, strike "1½" and inset in lieu thereof "1.3".

On page 49, line 6, strike "24" and insert in lieu thereof "the applicable number of".

On page 49, strike line 8 through 11 and insert in lieu thereof the following:

"(B) In this paragraph—

"(i) the term 'clean claim' means a claim which meets the requirements of section 1814(a)(1) and any other requirements of this title for payment under this part, and

"(ii) the term 'applicable number of calendar days' means—

"(I) with respect to claims received in the 12-month period beginning October 1, 1986, 27 calendar days,

"(II) with respect to claims received in the 12-month period beginning October 1, 1987, 26 calendar days,

"(III) with respect to claims received in the 12-month period beginning October 1, 1988, 25 calendar days, and

"(IV) with respect to claims received in the 12-month period beginning October 1, 1989, and claims received in any succeeding 12-month period, 24 calendar days.".

On page 50, line 1, strike "24" and insert in lieu thereof "the applicable number of".

On page 50, strike lines 3 through 5 and insert in lieu thereof the following:

"(B) In this paragraph—

"(i) the term 'clean claim' means a claim which meets the requirements of section 1814(a)(1) and any other requirements of this title for payment under this part, and

"(ii) the term 'applicable number of calendar days' means—

"(I) with respect to claims received in the 12-month period beginning October 1, 1986, 27 calendar days,

"(II) with respect to claims received in the 12-month period beginning October 1, 1987, 26 calendar days,

"(III) with respect to claims received in the 12-month period beginning October 1, 1988, 25 calendar days, and

"(IV) with respect to claims received in the 12-month period beginning October 1, 1989, and claims received in any succeeding 12-month period, 24 calendar days.".

On page 50, beginning with line 11, strike all through line 21 on page 51 and insert in lieu thereof the following:

"(e)(1) If for three consecutive calendar months, an agency or organization with an agreement with the Secretary under section 1816 meets the requirements of subsection (c)(2) of such section, the Secretary shall discontinue periodic interim payments (under 42 C.F.R. 405.454(j)) with respect to all providers of services (other than providers of the type described in paragraph (3)) paid through the agency or organization until such time as the agency or organization fails to meet such requirements for three consecutive calendar months.

"(2) If for three consecutive calendar months, an agency or organization with an agreement with the Secretary under section 1816 meets the requirements of subsection (c)(2) of such section, the Secretary shall provide for periodic interim payments with respect to all subsection (d) hospitals (as defined in section 1886(d)(1)(B)) that request such payments and that are paid through the agency or organization until such time as the agency or organization meets such requirements for three consecutive calendar months.

On page 52, line 4, strike "1842" and insert in lieu thereof "1842(c)".

On page 52, line 7, strike "(A)".

On page 52, line 8, strike "24 days after a clean claim as defined in paragraph (2)(B)"

and insert thereof "the applicable number of calendar days (as defined in clause (ii) of paragraph (2)(B)) after a clean claim (as defined in clause (i) of such paragraph)".

On page 52, line 14, strike "made." and insert in lieu thereof "made.'.".

On page 52, strike lines 15 through 19 and insert in lieu thereof the following:

(3) Section 1816(c) of such Act, as amended by subsection (a), is further amended by adding at the end thereof the following new paragraph:

"(3) If payment is not issued, mailed, or otherwise transmitted within the applicable number of calendar days (as defined in clause (ii) of paragraph (2)(B)) after a clean claim (as defined in clause (i) of such paragraph) is received from a provider of skilled nursing facility services, home health services, or hospice services that is not receiving periodic interim payments with respect to such services, interest shall be paid at the rate used for purposes of section 3902(a) of title 31, United States Code (relating to interest penalities for failure to make prompt payments) for the period beginning on the day after the required payment date and ending on the date on which payment is made.".

On page 52, line 21, strike "The" and insert in lieu thereof "Except as provided in paragraph (2), the".

On page 52, between lines 22 and 23, insert the following:

(2) The amendments made by paragraphs (2) and (3) of subsection (c) shall apply to claims received on or after April 1, 1987.

On page 52, line 23, strike "(2)" and insert in lieu thereof "(3)".

On page 115, between lines 14 and 15, insert the following:

SEC. 653. REVENUE SHARING PAYMENTS.

Nothwithstanding section 6702(b) of title 31, United States Code, the Secretary of the Treasury shall make the installment payment of revenue sharing funds under chapter 67 of such title that is otherwise required to be paid on or before October 5, 1986, by no later than September 30, 1986.

On page 117, beginning with line 21, strike out all through page 118, line 2, and insert the following:

(c) TERMINATION OF OPTIONAL COVERAGE.—Subsection (v) of section 218 of the Social Security Act is repealed.

On page 120, beginning with line 17, strike all through line 18 on page 123.

On page 123 between lines 18 and 19, insert the following new sections:

SEC. . DEPOSITS OF SOCIAL SECURITY CONTRIBUTIONS BY STATES AND LOCAL GOVERNMENT EMPLOYEES.

(a) RETURNS AND PAYMENTS.—(1) Subchapter C of chapter 21 of the Internal Revenue Code of 1954 is amended by redesignating section 3126 as section 3127, and by inserting after section 3125 the following new section:

"SEC. 3126. RETURN AND PAYMENT BY GOVERNMENTAL EMPLOYER.

"If the employer is a State or political subdivision thereof, or an agency or instrumentality of any one or more of the foregoing, the return of the amount deducted and withheld upon any wages under section 3101 and the amount of the tax imposed by section 3111 may be made by any officer or employee of such State or political subdivision or such agency or instrumentality, as the case may be, having control of the payment of such wages, or appropriately designated for that purpose.".

(2) The table of sections for subchapter C of chapter 21 of such Code is amended by striking out the last item and inserting in lieu thereof the following:

"Sec. 3126. Return and payment by governmental employer.
"Sec. 3127. Short title.".

(b) TREATMENT OF SERVICE UNDER SECTION 218 AGREEMENTS AS EMPLOYMENT PERFORMED BY EMPLOYEES.—

(1) SERVICE TREATED AS EMPLOYMENT.—(A) Section 3121(b)(7) of such Code is amended—

(i) by striking out "; or" at the end of subparagraph (C) and inserting in lieu thereof a comma;

(ii) by striking out the semicolon at the end of subparagraph (D) and inserting in lieu thereof ", or ", and

(iii) by adding after subparagraph (D) the following new subparagraph:

"(E) service included under an agreement entered into pursuant to section 218 of the Social Security Act,".

(B) Section 1402(b) of such Code is amended by striking out "under an agreement entered into pursuant to the provisions of section 218 of the Social Security Act (relating to coverage of State employees), or" in the flush sentence immediately following paragraph (2).

(2) INDIVIDUAL PERFORMING SERVICES TREATED AS EMPLOYEE.—(A) Section 3121(d) of such Code is amended by redesignating paragraph (3) as paragraph (4), and by inserting after paragraph (2) the following new paragraph:

"(3) any individual who performs services that are included under an agreement entered into pursuant to section 218 of the Social Security Act; or".

(B) Section 3306(i) of such Code is amended by striking out "subparagraphs (B) and (C) of paragraph (3)" and inserting in lieu thereof "paragraph (3) and subparagraphs (B) and (C) of paragraph (4)".

(c) CONFORMING AMENDMENTS IN SOCIAL SECURITY ACT.—(1) Subsections (e), (h), (i), (j), (q), (r), (s), and (t) of section 218 of the Social Security Act are repealed; and subsections (f), (g), (k), (l), (m), (n), (o), (p), and (u) of such section are redesignated as subsections (e), (f), (g), (h), (i), (j), (k), (l), and (m), respectively.

(2)(A) Section 205(c)(1)(D)(i) of such Act is amended by inserting "(as in effect prior to December 31, 1986)" after "section 218(e)".

(B) Section 205(c)(5)(F)(iii) of such Act is amended—

(i) by inserting "(as in effect prior to December 31, 1986)" after "section 218", and

(ii) by inserting "(as so in effect)" after "subsection (q) of such section".

(C) Section 218(d)(6) of such Act is amended—

(i) by striking out "subsection (f)" in subparagraph (A) and inserting in lieu thereof "subsection (e)", and

(ii) by striking out "subsection (f)(1)" in subparagraph (F) and inserting in lieu thereof "subsection (e)(1)".

(D) Section 218(d)(8)(D) of such Act is amended by striking out "subsection (p)" and inserting in lieu thereof "subsection (1)".

(E) Section 218(e)(1) of such Act (as redesignated by paragraph (1) of this subsection) is amended by striking out "Except as provided in subsection (e)(2), any agreement" and inserting in lieu thereof "Any agreement".

(F) Section 224(a)(2)(B) of such Act is amended by striking out "section 218(k)" and inserting in lieu thereof "section 218(g)".

(d) EFFECTIVE DATE.—The amendments made by this section are effective with respect to payments due with respect to wages paid after December 31, 1986, including wages paid after such date by a State (or political subdivision thereof) that modified its agreement pursuant to the provisions of section 218(e)(2) of the Social Security Act prior to the date of the enactment of this Act; except that in cases where, in accordance with the currently applicable schedule, deposits of taxes due under an agreement entered into pursuant to section 218 of the Social Security Act would be required within 3 days after the close of an eighth-monthly period, such 3-day requirement shall be changed to a 7-day requirement for wages paid prior to October 1, 1987, and to a 5-day requirement for wages paid after September 30, 1987, and prior to October 1, 1988. For wages paid prior to October 1, 1988, the deposit schedule for taxes imposed under sections 3101 and 3111 shall be determined separately from the deposit schedule for taxes withheld under section 3402 if the taxes imposed under sections 3101 and 3111 are due with respect to service included under an agreement entered into pursuant to section 218 of the Social Security Act.

SEC. . CERTAIN EXCISE TAX DEPOSITS ACCELERATED.

(a) TOBACCO.—Subsection (b) of section 5703 of the Internal Revenue Code of 1954 (relating to method of payment of tax) is amended by striking out paragraph (2) and inserting in lieu thereof the following new paragraph:

"(2) Time for payment of taxes.—

"(A) IN GENERAL.—In the case of taxes on tobacco products and cigarette papers and tubes removed during any semimonthly period, the last day for the payment of such taxes shall be the 14th day after the last day of such semimonthly period.

"(B) SPECIAL RULE WHERE 15TH DAY FALLS ON SATURDAY, SUNDAY, OR HOLIDAY.—If, but for this subparagraph, the due date under paragraph (1) would fall on a Saturday, Sunday, or a Federal holiday, such due date shall be the immediately preceding day which is not a Saturday, Sunday, or such a holiday."

(b) DISTILLED SPIRITS.—Section 5061 of the Internal Revenue Code of 1954 (relating to method of collecting tax) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

"(e) TIME FOR PAYMENT OF TAXES ON DISTILLED SPIRITS.—

"(1) IN GENERAL.—If—

"(A) any tax is imposed on distilled spirits under this part, and

"(B) such distilled spirits are withdrawn under bond for deferred payment of tax or from bonded premises (including customs custody),

the last day for payment of such tax shall be the 14th day after the last day of the semimonthly period during which such withdrawal occurred.

"(2) EXCEPTION WHERE EARLIER PAYMENT REQUIRED.—Paragraph (1) shall not apply to any tax imposed on distilled spirits if the due date for the payment of such tax is earlier under subsection (b).

"(3) SPECIAL RULE WHERE 14TH DAY FALLS ON SATURDAY, SUNDAY, OR HOLIDAY.—If, but for this paragraph, the due date under paragraph (1) would fall on a Saturday, Sunday, or a Federal holiday, such due date shall be the immediately preceding day which is not a Saturday, Sunday, or such a holiday."

(c) EFFECTIVE DATE. —

(1) IN GENERAL.—The amendments made by this section shall apply to taxes paid after September 30, 1986, for semimonthly periods ending on or after such date.

(2) SPECIAL RULE FOR SEMIMONTHLY PERIOD ENDING SEPTEMBER 15, 1986.—With respect to remittances for taxes imposed on tobacco products and cigarette papers and tubes under section 5701 of the Internal Revenue Code of 1954 for the semimonthly period ending on September 15, 1986, the last day for such remittances shall be October 14, 1986.

SEC. . INCREASES IN CERTAIN PENALTIES.

(a) AGGREGATE NEGLIGENCE AND SUBSTANTIAL UNDERSTATEMENT PENALTIES NOT TO BE LESS THAN 25 Percent.—

(1) IN GENERAL.—Subchapter A of chapter 68 of subtitle F (relating to additions to tax) is amended by redesignating section 6662 as section 6663 and by inserting after section 6661 the following new section:

"SEC. 6662. AGGREGATE PENALTY ON CERTAIN UNDERPAYMENTS NOT TO BE LESS THAN 25 PERCENT.

"(a) GENERAL RULE.—If there is a tax imposed under section 6653(a) or 6661, or both, on any portion of the underpayment or understatement, then there is hereby imposed a tax equal to the excess (if any) of—

"(1) 25 percent of the amount of such portion, over

"(2) the aggregate amount of taxes imposed under sections 6653(a) and 6661 on such portion.

"(b) DEFINITIONS.—For purposes of this section, the terms 'underpayment' and 'understatement' have the meanings given such terms by section 6653(c)(1) and 6661(b)(2), respectively."

(b) INCREASE IN TAX ON FAILURE TO MAKE DEPOSIT OF TAXES.—Section 6656(a) (relating to underpayment of deposits) is amended by striking out "5 percent" and inserting in lieu thereof "10 percent".

(c) CONFORMING AMENDMENTS.—The table of sections for subchapter A of chapter 68 of subtitle F is amended by striking out the item relating to section 6662 and inserting in lieu thereof the following new items:

"Sec. 6662. Aggregate penalty on certain underpayments not to be less than 25 percent.
"Sec. 6663. Applicable rules."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to penalties assessed after the date of enactment of this Act.

SEC. . APPROPRIATIONS FOR IRS ENFORCEMENT.

The conference agreement on the appropriations measure providing funding for the Internal Revenue Service for the fiscal year ending September 30, 1987, will include the following funding levels: for "Salaries and Expenses", $95,147,000; for "Processing Tax Returns", $1,332,902,000; for "Examinations and Appeals", $1,623,162,000; and for "Investigation, Collection, and Taxpayer Service", $1,196,581,000: *Provided*, That the allocation to the Senate Committee on Appropriations pursuant to section 302(a) of the Budget Act, as amended, under Senate Concurrent Resolution 120, the concurrent resolution on the budget for fiscal year 1987, is increased by $300,000,000 in both new budget authority and outlays.

On page 191, lines 11 and 12, strike "together with any underlying Federal guaranty,".

On page 191, lines 22 and 23, strike "be with recourse to the Federal Government and shall".

At the end of the bill, add the following new titles:

TITLE .—SOCIAL SECURITY COLAS

SEC. . REMOVAL OF THREE PERCENT THRESHOLD FOR COST-OF-LIVING ADJUSTMENTS.

(a) SHORT TITLE.—This title may be cited as the "Cost-of-Living Adjustment Reform Act of 1986".

(b) IN GENERAL.—

(1) Section 215(i) of the Social Security Act is amended by striking out "is 3 percent or more" in paragraph (1)(B) and inserting in lieu thereof "is greater than zero".

(2) Section 215(i)(1)(B) of such Act, as in effect in December 1978 and applied in certain cases under the provisions of such Act as in effect after December 1978, is amended by striking out "exceeds, by not less than 3 per centum, such Index" and inserting in lieu thereof "exceeds such Index".

(3) Section 2159(i)(2)(C) of such Act is amended—

(A) by striking out clause (i) and redesignating clauses (ii) and (iii) as clauses (i) and (ii), respectively; and

(B) by striking out "under clause (ii)" in clause (ii) as so redesignated and inserting in lieu thereof "under clause (i)".

(4) Section 215(i)(2)(C) of such Act, as in effect in December 1978 and applied in certain cases under the provisions of such Act as in effect after December 1978, is amended by striking out clause (i) and by striking out "(ii)".

(5) Section 215(i)(4) of such Act is amended by inserting "and by the Cost-of-Living Adjustment Reform Act of 1986" after "Social Security Amendments of 1983".

(6) Section 215(i)(5)(A)(i) of such Act is amended by striking out "because the wage percentage increase was less than 3 percent" and inserting in lieu thereof "because there was no wage percentage increase greater than zero".

(c) TECHNICAL AMENDMENT TO SMI PROGRAM.—Section 1839(f)(2)(A) of such Act is amended to read as follows:

"(A) the monthly premium amount determined under subsection (a)(2) for that January reduced by the amount (if any) by which the month benefit under section 202 or 223 for that November, after the deduction of the premium (disregarding subsection (b)) for that individual for that December and after rounding under section 215(g), would exceed the monthly benefit under section 202 or 223 for that December, after the deduction of monthly premium amount determined under subsection (a)(2) (disregarding subsection (b)) for that individual for that January and after rounding under section 215(g), or".

(d) EFFECTIVE DATE.—

(1) Except as otherwise provided in this subsection, the amendments made by this section shall apply with respect to cost-of-living increases determined in 1986 and all subsequent years.

(2) The amendments made by paragraphs (3) and (4) of subsection (b) shall apply with respect to months beginning after September 1986.

(3) The amendment made by subsection (c) shall apply with respect to monthly premiums (under section 1839 of the Social Security Act) for months after December 1986.

TITLE—MISCELLANEOUS PROVISIONS

SEC. . COMPUTATION OF RETIREMENT ANNUITY FOR PART-TIME EMPLOYMENT.

(a) Subsection (b) of section 15204 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (Public Law 99-272; 100 Stat. 335) is repealed.

(b) Subsection (c) of such section is redesignated as subsection (b).

SEC. . MAKING RULES ON EXTRANEOUS PROVISIONS PERMANENT.

(a) Section 20001(c) of Public Law 99-272 is amended by striking out "and shall remain in effect until January 2, 1987".

(b) Senate Resolution 286, adopted December 19, 1985, is amended by striking "section 1201" each place it appears and inserting in lieu thereof "section 20001".

SEC. . MODIFICATION OF DEADLINE FOR SUBMISSION OF PRESIDENT'S BUDGET.

(a) Section 1105(a) of title 31, United States Code, is amended by striking out "first Monday after January 3 of each year (or on or before February 5 in 1986)" and inserting in lieu thereof "first Tuesday in February of each year".

(b) Section 300 of the Congressional Budget Act of 1974 is amended by striking out "First Monday after January 3" and inserting in lieu thereof "First Tuesday in February".

(c) Section 1109(a) of title 31, United States Code, is amended by striking out "On or before the first Monday after January 3 of each year (on or before February 5 in 1986)" and inserting "Concurrently with each budget submitted pursuant to section 1105(a) of this title".

SEC. . TREATMENT OF LOAN ASSET SALES FOR DIRECT REDUCTION.

(a) In order to achieve the purposes of the concurrent resolution on the budget for fiscal year 1987, S. Con. Res. 120, 99th Congress, and notwithstanding any other provision of this Act, any sale of debentures, as well as any underlying Federal guaranty, by the Secretary of the Treasury, or any other agent of the United States, pursuant to provisions of this Act, shall be without recourse to the Federal Government and shall discharge the Federal Government's obligations with respect to any individual purchaser or assigneee of such debenture.

(b) In the interest of budgetary savings, it is the intent of the Congress that this section be interpreted by the Secretary of the Treasury, or any other agent of the United States, and any court of law, as superseding any provison of this Act appearing to set forth a contrary requirement.

Mr. DOMENICI. Mr. President, we will talk about the amendment for a while and ask Senators if they would like to let us waive the 60-vote requirement on the amendment so that it may be adopted by simple majority. We have plenty of reasons to ask for it, but obviously it is only if the Senate decides, by unanimous consent, that it wants to grant us that privilege.

Let me state briefly why we believe such a request would be appropriate.

If you look at the Budget Act, you will find that for this particualr time in the fiscal policy history, there was a provision hoping to permit a new reconciliation bill to solve the problems; but we cannot use it this year because it will go way up into October 20 or thereabout. So we are stuck with an old reconcilation bill and no process to bring it current as a formal reconiliation matter. Because of that, we cannot properly amend this, even with the total work of the Senate, without being confronted with the so-called Byrd rule, which says that you cannot

add extraneous material, and the traditional rule that you cannot amend this with add-ons because they are not germane. Because of that, we will need 60 votes to adopt it, in the event the Senate decides, in its wisdom, not to grant us consent to waive those provisions. We will go into that a little later.

Let me just tell the Senate what I think the adoption of this amendment means, so long as it is not amended to delete the total of $13.2 billion in deficit reduction.

This is not the last business of the year. The House will take up their reconciliation on Wednesday. They will take up the continuing resolution for appropriating for our country on Thursday and a tax bill on Friday. If we pass our reconciliation today, we still have to do the appropriation process next week, and a tax bill is working its way through, coming from conference to the House, and then over here.

I say to my colleagues that if we adopt the Domenici-Chiles amendment and come out of conference with the House with at least that amount, that, coupled with the other things we are going to do, permits me to predict with as much certainty as I can predict, with numbers and assumptions, that we will not have a sequester in October.

Let me repeat: If this is adopted and we do the rest of our business as planned, and there is no disaster, we add $10 billion in appropriations, that is not going to happen; the tax bill is modified, changed, gutted—if those kinds of things would happen, with the adoption of this amendment and it becoming law a week or 10 days from now, clearly we will have done our work, and no sequester would be in order, and in my mind there would be no need for the temporary sequester, because we would have done our work.

There are two things in this amendment which we call to the attention of Members. One, we have mandated the advance deficiency farm payments. We know it will happen. We know that the Congressional Budget Office has already charged us for them, as if they happened; and we want the Senate to be on record that we are saying, "Pay the advance deficiency payments." This is the third year in a row. It is bookkeeping. We do not double pay. We pay early, and next year we pay less. It helps the farmers of America tremendously.

We know that sooner or later this year, we are going to modify the Consumer Price Index inflationary language add-on for Social Security recipients, so that they will receive them annually, regardless of how small inflation is. Right now, if they are not under 3 percent—if inflation is not—they do not get it.

The amendment is in this, which will say that Social Security, along with all other cost-of-living index recipients, will get their cost-of-living, regardless of how small inflation is.

Those are the two matters that everyone should understand are in here. That costs a little money. Actually, the advance deficiency payments do not cost, because they have already been charged by CBO, but this makes it unavoidable.

First, I believe it is fair that the White House, operating through the Budget Director, has worked diligently with us in arriving at this package.

Second, I believe it is fair to say that they support this package and that Mr. Miller concurs in the adoption of it and the other matters I have indicated must occur this year, and that there will be no sequester, come October.

Mr. President, I am not going to say that I am proud of the product; but, all things considered, it is about as good as we can do, and we ought to adopt it. I hope Senators do not expect to amend this with a lot of extraneous material, because this is a ripe bill for the last couple of weeks to add on anything they want. We cannot accommodate you. If you have 60 votes, you can waive the law. If not, we are going to have to be pretty restrictive and ask the Senate to send this bill to the House as clean as possible, as we sent it to the desk; but we are prepared to consider modifications, to consider their ideas, or perhaps even some mistakes that we might have made. If Senators will call them to our attention, we will work with everyone.

Mr. President, when I sent the amendment to the desk, the Domenici-Chiles amendment, we had a modification that we did not get in, and I ask unanimous consent that I be permitted to modify the amendment at this time.

The PRESIDING OFFICER. Without objection, it is so ordered.

The modification is as follows:

On page 29 (at bottom) of Domenici amendment No. 2850, strike lines 3 through 9 and insert the following:

SEC. . COMPUTATION OF RETIREMENT ANNUITY FOR PART-TIME EMPLOYMENT.

(a)(1) Subsection (b) of section 15204 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (Public Law 99-272; 100 Stat. 335) is repealed.

(2) The provision of title 38, United States Code, that was repealed by such subsection is revived.

(b) Subsection (c) of section 15204 of such Act is redesignated as subsection (b).

(c) This section is effective with respect to individuals who retire after September 19, 1986.

Mr. EVANS addressed the Chair.

The PRESIDING OFFICER (Mr. SIMPSON). The Senator from Washington.

Mr. EVANS. Mr. President, let me preface my remarks by saying that I have the highest regard for the chairman of the Budget Committee and the ranking minority member of the Budget Committee.

The Senator from New Mexico and the Senator from Florida have worked together as a team and have never wavered in their devotion toward fully meeting the requirements of the Gramm-Rudman Act. But, more important, they have never wavered from their desire and their devotion to doing a responsible job of budgeting. But they can only go so far as the rest of us in this body are willing to allow them to go.

On this reconciliation bill, we have the first chance to really prove ourselves. Are we believers or are we charlatans?

Gramm-Rudman has been called many things. It has been blamed for everything from the drought to the plague and certainly to the reduction in many of the appropriations that are now going through Congress and many of the services that citizens throughout the country receive. That, in my mind, is a bum charge.

Gramm-Rudman accomplished one major thing which needed accomplishing. It put us on a par with cities, counties, and State governments; it put us on a par with businesses, small and large, throughout this country; it put us on a par with every individual budget-maker in their own family situation; and that par was a requirement that no longer allows us to hide behind floating deficits.

□ 1510

In the past it has been too easy. When we found that raising taxes was tough on the one hand and cutting spending was tough on the other hand, we could just wink at both, renegotiate or reestimate the economic predictions for the future and kid ourselves into believing that there would be no increase in deficits.

Mr. President, we now know what our task is. The final numbers were set on August 15. We now know that the combination of expected revenues for the next year and the allowed deficit is a certain figure. But that in itself does not cut anyone's budget. We still have the privilege of providing a huge increase in the military budget. We still have the opportunity to broaden spending and increase it in Medicare, in higher education, in almost any service that people of this Nation might conceivably want.

We can be liberal in our spending patterns, but now we have to pay for it. We cannot duck. We cannot dodge. We cannot ignore. We may pay for it.

Or we can cut continuing spending if we choose not to raise taxes and make sure that we have cut them sufficiently so we hit this fixed target, or we can do a little bit of both.

But, Mr. President, we cannot and we should not use one-time savings in

order to meet this budgetary requirement.

I fear that the proposal now put before us to a far greater extent than it should uses one-time savings. We are engaged in a massive Government garage sale, putting out our assets, which can only be sold once. If we do that this year and then next year find it too difficult to cut continuing spending or to raise taxes, we will go through the garage one more time. We will find out that there are still a few trinkets left. But you can only continue that until the house is empty, until there is nothing more to sell, and then we simply have to face up to reality.

In my view, we cannot and should not, as some would suggest, use the unusual excess which will be available in 1987 from the workings of the tax reform bill which most likely will pass this Congress. That $11 billion excess next year is ephemeral indeed. It will be replaced in 1988 by a $17 billion deficit.

Now, I know the leadership is working hard to put together this package and have worked hard to bring it to passage today. But I fear that there are many, many signs that indicate that rather than having our eyes on the horizon, rather than having our eyes focused on caring about our children, our Nation and our future. We have eyes on our feet, and those feet are running rapidly toward reelection.

Our focus of time is November 5, rather than 1987, 1988, or the rest of this century. The end result is that we are most likely to run into a brick wall next year, find a rude awakening in budgets, find that the Gramm-Rudman Act has burned to ashes and start once more on that awful cycle of recession, inflation, and soaring deficits.

With that, Mr. President, let me detail some of the problems. And we ought to understand that these problems are inherent in the package that is now laid before us, that garage sale that I mentioned. When you consider that we have only found a reduction in spending of a little over $7 billion in this package, $4.8 billion of that $7.3 billion are the sale of loan assets and once those are sold they are gone. We cannot sell them again. We will not have them next year.

In addition to that, there is the suggestion that we sell Conrail which may well be a responsible and an appropriate thing to do. But we can only sell it once. Once we have sold it, it is gone and the $2 billion that is received from that sale will not be available to us next year and we have to find something else in the attic to put up for that garage sale.

Mr. President, with that let me turn to the spending needs. I do not think for 1 minute we are likely to get through all of the appropriation bills and the continuing resolution and ignore certain urgent spending requirements which are now before us and which simply have not been dealt with yet.

We heard yesterday morning one of the most dramatic and moving speeches by a foreign leader who has ever spoken to a joint meeting of Congress. President Aquino of the Philippines stated very clearly that hers indeed was a cheap revolution; we did not have to fund or support or pay for it, or the mercenaries who fought it. It was a revolution of the people in the Philippines. They brought back free government and now they are asking for our support in maintaining that free government.

How in the world, Mr. President, can we cheer in the morning at that courageous and dramatic speech and then duck in the afternoon when it comes time to provide the money she so desperately needs?

It is said that foreign aid has no constituency in Congress. And it is very true that every time you take a poll and when people are asked where would you like to cut the budget, two answers always come forward: foreign aid and welfare. Those are the easy ones. It is someone else's cut; it does not appear to affect us directly or immediately.

But, Mr. President, appropriate foreign aid is in America's best interest as well as the Philippines.

We have security interests in the Pacific. Those security interests deeply involve the Philippines. I believe very strongly that this is the cheapest and best and wisest investment we could make, and it is not just in the Philippines that we find this true. I fear that there are those in this body who could cut the foreign aid bill and particularly cut support to the United Nations.

But cuts in foreign aid and cuts in the United Nations will cripple important activities which we need to support. Let me detail just two.

The International Atomic Energy Agency which is headquartered in Vienna is an agency of the United Nations. In spite of the fact that our appropriators would like to continue support for that group, if they cut back sufficiently on the rest of the budget for the United Nations, we simply cannot carry on that activity as well as we might. This happens just at the time when they are on the verge of signing important international agreements dealing with the problems of nuclear accidents, and for the first time in history have the Soviet Union as willing participants. That is an important thing to continue and we ought not to cut back in that important field.

Both Houses of Congress are seeing how they can outdo each other in attempting to meet the challenge of drugs and their controls. Here again the Division of Narcotic Drugs of the United Nations General Headquarters in Vienna is working hard right now toward international agreements which will allow us to stop suspected drug dealers or shippers on the high seas. These efforts will extend extradition help to more nations and would effectively lead to better international control of narcotic traffic. And yet, in a frenzy of antiforeign aid activity, our appropriators would cut that budget.

So these are spending requirements that will be in front of us in the foreign aid field. I intend to speak out later when the drug bill is on the floor as it almost certainly will be.

But let us not kid ourselves. We cannot promise to the American people that we intend to conduct a war on drug traffic in this Nation and then turn around and say it will not cost anything and that somehow we can just transfer money from existing accounts. Mr. President, instead of saying that a war costs money—and a war against drugs does cost money. We must stand up front and say that and then find the money through taxes or through cutting budgets somewhere else.

As I mentioned earlier, if that were not enough, that long list of spending mandates out there which I believe we must meet up with, then the tax bill itself which is going through conference and will be in front of this body shortly has tempting short-term assets.

Mr. President, we must not use the $11 billion of extra money which the tax bill will provide for fiscal year 1987. We have already used the flexibility that the Gramm-Rudman Act gives to us. We have already used up the maximum ability we have to duck or to avoid hard choices. We did that when we used the 7-percent flexibility in the Gramm-Rudman target instead of $144 billion which was the target specified in law. We are now desperately trying to reach $154 billion which includes that maximum flexibility I have mentioned.

Mr. President, there is a very good reason for ensuring that we do not use that extra money which will be available in the tax bill next year. It simply must be set aside so we have some chance, some small chance, of continuing to meet these budgetary targets in the years after 1987.

Mr. President, I would ask the chairman of the Budget Committee to listen carefully and see if I am on the right track in my expectation or understanding of what is about to go on.

If we pass this reconciliation bill and as it goes through conference and is finally adopted it were of a sufficient amount to bring the budgetary deficit down to $154 billion, we then would have, but just barely, met the Gramm-

Rudman targets and would not face any sequester; is that not correct?

Mr. DOMENICI. The Senator is correct.

Mr. EVANS. Then, at the same time we are doing this, we are basing that deficit on the current tax laws as they now exist; that, too, is correct?

Mr. DOMENICI. That, too, is correct.

Mr. EVANS. If, after that, we were to pass this new tax reform act and all of the expectations for the next year were correct and the tax bill did produce $11 billion more than the current tax bill, then the deficit at the end of next year would be something close to $143 bilion by subtracting the $11 billion from that $154 billion; is that, too, correct?

Mr. DOMENICI. The Senator is correct.

Mr. EVANS. I thank the chairman.

It seems to me that is a terribly important reason that we should not dig in, not even one dime's worth, to that extra amount of money which the tax bill might bring, because it does give us some chance, combined with this Reconciliation Act, to end up the next year almost precisely at the target set by the Gramm-Rudman Act.

Mr. President, our finest hour in this Senate, when it came to budget and appropriation matters, I believe, was late on the night of May 10, 1985, when Senator WILSON joined us from the hospital bed and cast the vote necessary to break a tie. That vote was a tough vote. But it was an honest vote because it ensured that continuing spending would be trimmed sufficiently so that for the first time in years the growth of continuing spending would be at a slower rate than the growth of continuing revenues. And that is where we must get to, Mr. President. We must get to the point where we, on a year-to-year basis, on our continuing spending responsibilities grow more slowly than in the natural revenue our economy brings us.

If we do that, I believe strongly two things will happen: Well, naturally, without the wrenching, tough decisions we are making now, continue to move toward a balanced budget; and, second, we will give such confidence in the economy that it, too, will help us in meeting these targets. For the first time in a long time, people in this country, businesses in this country, State and local governments, might have some confidence in this Congress. The Senate and the House and the administration will be working honestly in the long term toward budget responsibility.

With all of my concerns, with all of my concerns, Mr. President, about this package, it is perhaps the best we can do. I commend the tireless efforts of Senators DOMENICI and CHILES. But our choices remain few: to cut continuous spending to meet our targets, to raise revenues to meet our targets, or to do something of both. Many say that it is too tough in an election year and that they will choose the fourth choice. And the fourth choice is to duck, to find phony ways, as some call in this body, smoke and mirrors, to purportedly reach a budget balance.

Mr. President, I believe the American people are too smart for that. They can understand the difference between someone who is courageous and who votes in a way that may not be popular, but at least is right, as compared with another candidate who says all the things that candidate believes the voter wants to hear, but who is not voting honestly.

There are those in this Chamber and in the other body who waffle and posture and piously proclaim their undying allegiance to all current programs, never wanting to cut a one and, at the same time, pledging their undying enmity to all new taxes. They then finally claim their devotion to balanced budgets.

People who would say that and who are candidates during this election deserve defeat this fall. They need to be replaced by someone with more courage, for they have forsaken the future of the Nation for the glitter of reelection.

Now on this bill, today or tomorrow, we have a chance to prove our worth, to set the Nation on a solid fiscal course and a solid economic course.

Two hundred years ago, Thomas Paine, speaking during our Revolution, spoke of his colleagues when he said:

> These are the times that try men's souls. The summer soldier and the sunshine patriot will, in this crisis, shrink from the service of his country; but he that stands it now, deserves the love and thanks of man and woman."

Mr. President, today, will the summer tax soldier and the sunshine spending patriots prevail? Will we truly shrink from the service of our country? I devoutly hope not.

By our actions—and we know what we should do—let us deserve the love and thanks of all Americans now, this year, for this election and for the years to come.

Mr. EXON addressed the Chair.

The PRESIDING OFFICER. Who yields time? The Senator from Florida has control of the time.

Mr. CHILES. I yield 5 minutes to the distinguished Senator from Nebraska.

The PRESIDING OFFICER. The Senator form Nebraska.

Mr. EXON. Mr. President, I have been yielded 5 minutes. I very likely will either ask for an extension of that to be allowed to speak on this further.

I first want to compliment the chairman of the Budget Committee, Senator DOMENICI, and the ranking member of that committee, Senator CHILES, for working so hard to try and find a reasonable solution. I have serious questions, though, as to whether they have accomplished that fact of a reasonable solution.

While we are going to hear lots of talk today about serving America, I think that we should explore, in more detail than simple rhetoric, what we are evidently about to do here.

First, let me say, Mr. President, that any remarks that I make here are not challenging the integrity or the job that Members of the Senate, my colleagues, are trying to do. Whatever I say today in this regard is simply to try and explain, as best I can with this one voice, what I am fearful that we are about to do. And that is the basic reason why this Senator, at least at this juncture in the debate, is fundamentally opposed to the reconciliation that is being proposed under time agreements.

Now, let us first get back to where we are and how we got into this position. It first should be made clear, and I concede, I admit, or putting it another way, I take pride in the fact that I was one of the 23 Senators in this body who opposed Gramm-Rudman from the beginning. The record is clear as to where I stood and why I stood there. Among other reasons, I was confident that we would be in the no-win situation that we find ourselves in today.

As I told some of my colleagues today when we were about the process that we are going through—which I think emasculates basically the duties that we were elected here to perform, it emasculates the heart and soul of Gramm-Rudman that all but 23 Members of this body and a majority of those on the other side endorsed, to save America from the peril of ever-increasing deficits—the heart and soul of that proposal was the sequester order.

That was the fear factor, that concept, and up until October 1986, we were going to say, "If you did not straighten out the mess that this country is in, regardless of whose fault it is, we are going to sequester," which means that we are going to have an across-the-board cut in the budget. And the across-the-board proposition has stuck with the American people. And far too many of them believe that it is an across-the-board cut, which it is not, because there were all kinds of exemptions written into the Gramm-Rudman bill. To sell it for political reasons and to get the votes to pass it in the first instance, more than half, more than half, Mr. President, of the total budget of the United States is exempt from any cuts under the sequester.

Now, that may have solved itself. Some of us warned at the time that, probably the way the sequester order

was originally placed and passed under the Gramm-Rudman legislation, it was unconstitutional, and the courts have since said it was unconstitutional. But then, of course, there was the famous and well-known and well-debated fallback provision that said if the courts decide that the sequester was out of order in the first instance, then we had a fallback provision that said a sequester would take place unless the Congress took action to correct the budget to bring it down to the limits as specified in Gramm-Rudman—$144 billion, specifically, for the next fiscal year.

□ 1536

The PRESIDING OFFICER. The Senator's 5 minutes have expired.

Mr. CHILES. I yield an additional 3 minutes to the Senator.

Mr. EXON. Mr. President, I will not take more than 3 minutes now, but I will be on the floor later if I can get the time to try to explain my position further. I will use the additional 3 minutes.

I would simply say that what we have concocted here is a saving measure but it saves only, Mr. President, the responsibility to vote for cuts as supposedly mandated by Gramm-Rudman. I hope the debate proves me wrong, but I happen to feel that with all the best intentions of my colleagues, what we are sending forth here is a perverted, phony, unrealistic approach that does not really begin to meet the $144 billion figure mandated by Gramm-Rudman, which is the law of the land. It does not even come close in real terms to the $154 billion which we can use because of the fudge factor.

I remember well the excellent remarks that the distinguished chairman of the Budget Committee made in front of the joint Senate-House Budget Committee when we met last week. At that time, he pointed out very clearly that there is no way that we are going to realistically meet the $144 billion mandate of Gramm-Rudman for this year, and he said even if we do it with smoke and mirrors we are going to be so far away from the $108 billion maximum deficit required for the following year that there is no way we are going to match it.

I am saying, Mr. President, that the action we are likely to take here today, over the objections of this Senator from what I know now, is to try to fool the American people into believing that Gramm-Rudman is working to the full extent.

Certainly, it has worked to some extent. Certainly the deficit would be higher if Gramm-Rudman had not been enacted.

The point is, over the 5-year period it is a phony, it is not going to work in the future, and massive tax increases in the future, not this year before the election, will occur. I think that should be driven home clearly to the American people, that there is no way out if we continue to follow the mandate of Gramm-Rudman, which was not realistic in the beginning.

Mr. President, I yield back any remainder of my time and I advise the Chair and managers of the bill that I will seek time later on.

Mr. CHILES. Mr. President, I yield 5 minutes to the Senator from Illinois.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DIXON. Mr. President, I thank my distinguished friend, the senior Senator from Florida, who has done such an outstanding job for our party, Mr. President, on the Budget Committee.

THE EXTENSION OF MANDATORY MEDICARE COVERAGE TO ALL STATE AND LOCAL GOVERNMENT EMPLOYEES, A MAJOR CONCERN

Mr. DIXON. Mr. President, I am very concerned about a provision in the Budget Reconciliation Act, S. 2706, which would extend hospital insurance—Medicare—coverage on a mandatory basis to all employees of State and local governments who are not otherwise covered under present law.

I call to the attention of my colleagues the fact that the House reconciliation proposal does not include this provision. In addition, I remind my colleagues of action we took in the Consolidated Omnibus Budget Reconciliation Act of 1985 [COBRA], which extended mandatory Medicare coverage to all employees of State and local governments hired after March 31, 1986. Additionally, COBRA authorized local governments to enroll existing employees in the system voluntarily.

It appears to me that the new proposed extension of mandatory Medicare coverage in S. 2706 would undermine our earlier congressional action. I believe that we should reject the proposal for the following reasons:

First. Imposing mandatory coverage upon existing employees would have an immediate and severe fiscal impact upon State and local governments. The harshness of this impact was fully debated and avoided through the phase-in provision approved in COBRA. The goal of covering most employees will be met, since the turnover rate for State and local government employees is approximately 9 percent per year. I see no reason to change the decision now, only a few months after COBRA became law.

Second. The Internal Revenue Service and the Social Security Administration are working to provide guidelines for coverage to governments affected by COBRA. The Medicare coverage proposal would add another category of government employees with yet another set of instructions that would prove extremely cumbersome.

Third. Illinois, like many other States, has committed resources to the effort of improving the quality of education. We are attempting to attract and retain high quality teachers. The Medicare tax burden would be a further disincentive for persons to enter or remain in the teaching profession, one whose salaries are already inferior to those in the private sector.

Fourth. Imposing mandatory Medicare coverage, in conjunction with other administration proposals, such as the elimination of revenue sharing and deductible State taxes, and the limitation of tax exemptions of certain governmental bonds, will force a reduction in State and local governmental programs and services or force an increase in local taxes.

Fifth, the tax cut anticipated by millions of Americans who do not now participate in the Medicare Program would be more than offset by the added Medicare coverage tax. As an example, mandatory Medicare coverage would require the average Illinois teacher retirement system contributor to pay $394 per year in new taxes, while the contributor would receive an estimated cut of less than $200 under the tax reform bill, as agreed in conference. Thus, the Medicare proposal would run directly counter to the expressed intention of many Members of this Congress to provide a tax cut to the middle class.

While my voting record supports my belief that we must reduce the Federal budget deficit, I do not believe that this proposal is a fair approach and I believe it would have an adverse effect on many State and local governments and their employees.

Mr. President, I urge my colleagues to reject this mandatory Medicare tax proposal.

I yield back the remainder of my time, Mr. President.

The PRESIDING OFFICER. Who yields time?

Mr. DIXON. Mr. President, in the absence of any other Senator on the floor, I would like to present further remarks on the Conrail sale.

May I have an additional 5 minutes, Mr. President? I am told I can have it from my side.

Mr. DOMENICI. I will yield 5 minutes to the Senator.

Mr. DIXON. I thank the distinguished chairman of the Budget Committee, the distinguished Senator from New Mexico.

CONRAIL SALE PROVISIONS OF THE RECONCILIATION BILL

Mr. DIXON. Mr. President, I am pleased that the reconciliation bill before us today authorizes the Secretary of Transportation to sell Conrail through a public offering. Returning Conrail to the private sector through a public offering is an objective that I have supported for a long time. I be-

lieve this approach is best for rail service in the Northeast and Midwest, and that it is the only approach that protects shippers, local communities and others that need to deserve good, cost-effective, and competitive rail service.

While I fully support the inclusion of Conrail sale provisions in the reconciliation bill, however, I am disturbed by the fact that the sale provisions before us seem to be a blank check to the Secretary of Transportation. As my colleagues know, I am an original sponsor of he so-called "Morgan Stanley" public sale proposal. That was a very detailed proposal; it covered a wide variety of issues that need and deserve congressional attention.

I would also note that on Wednesday, September 17, the full House Energy and Commerce Committee reported its public sale legislation. Like the Morgan Stanley bill, it addresses a wide variety of concerns to ensure that the public offering will succeed, that Conrail's independence will be preserved, and that the railroad is given the kind of start it needs to maintain and even improve the fine record of profitable operation it has achieved in the last few years.

I will not take the time of my colleagues to go into these matters in detail. I know we need to reach final action on the reconciliation bill as quickly as possible. I will simply mention one issue that I think the Senate should be aware of: the question of how the public offering should be managed.

The House proposal requires the Secretary of Transportation to select two or more investment bankers to serve as lead managers of the public offering—the House bill calls them colead managers. Further, the House bill requires that the colead managers be selected in a manner that considers and recognizes the contributions made by particular investment banking firms in demonstrating and promoting the long-term financial viability of Conrail and the feasibility of a public stock offering.

I would like to remind my colleagues, therefore, that it was Morgan Stanley that demonstrated that the financial community believed in the long-term viability of an independent Conrail, and that it was Morgan Stanley that assembled a group of blue-chip investors prepared to purchase the entire amount of a Conrail public stock offering.

I would not argue that Morgan Stanley should be the sole investment banking firm involved in the public offering. However, I do suggest that it was the Morgan Stanley proposal that, in fact, made the public offering proposal possible that we are considering today. Let there be no doubt, the House of Representatives simply was not going to accept the Department of Transportation's anticompetitive proposal to sell Conrail to one of its major Eastern competitor. The House was not going to accept doing that kind of violence to our antitrust laws. Without the Morgan Stanley public offering proposal, therefore, it would not be possible to pass Conrail sale legislation this year.

I think Morgan Stanley has provided a real public service, and that we continue to need their enthusiasm and advocacy to ensure that the public offering is the kind of success that I know it can be. Morgan Stanley has not ever minimized the chances of a successful public offering, and has not advocated other alternatives that could give it a conflict of interest, or the appearance of such a conflict, in moving to implement a public offering.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. DIXON. May I have another 2 minutes, Mr. President?

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DIXON. There is no one on the floor who can yield time.

Mr. SIMON. I will yield the time.

Mr. DIXON. My colleague has yielded me the time, which he does not control. I thank him.

Frankly, Mr. President, I had given some thought to offering an amendment to fill in some of the blanks in the public offering proposal now before us. However, given the short time we have left, and because the House has come up with the kind of detailed approach that ensures all issues will be considered in the conference on the reconciliation bill, I will not push such an amendment. I urge my colleagues who will be on the conference, however, to ensure that the final bill that emerges addresses all the issues that must be resolved to maximize the chances for a successful public offering, and the chances for future financial success for an independent, private sector Conrail. I also urge them to consider the contributions Morgan Stanley has made in bringing the public offering proposal to this stage.

I would like to conclude by thanking the committee for moving to the public offering approach. I know it will work. It will provide the Government with a substantial return, perhaps as much as $2 billion or more. It will return an independent Conrail to the private sector, where it belongs, without doing violence to the antitrust laws. I continue to strongly support this concept, and I am glad that the reconciliation bill offers the prospect for achieving a final resolution of the long and difficult question of how to sell Conrail.

I thank the Chair. I yield back the remainder of my time. I thank my distinguished colleague, the senior Senator from New Mexico.

I congratulate him on his work on this reconciliation bill and I want him to know that the Senator from Illinois will support him in the vote on the final product on the Senate floor tonight.

Mr. DOMENICI. Mr. President, I thank my friend from Illinois for his support and also for the remarks he has made. While I do not agree with all of them, obviously, what he said with reference to avoiding a sequester and doing our work, what we have tried to do here in a bipartisan manner, I think is true. He has said this is not the greatest package, this is not the best way to reduce the deficit, but obviously, we have a U.S. House, we have a President, we are a U.S. Senate. We are free to do whatever we want. The President has to sign a bill. We have to send something over to the House in the waning moments that has a reasonable chance. We do not have a month to go to conference. And they are moving down a similar path.

The Senator from Illinois has alluded to Conrail. It is very similar. They will have to go to conference, with a few differences on the revenue side, but as we look at what he proposes, they are moving down this track in a very similar manner.

As my good friend from Illinois knows, all of it is aimed at avoiding that very onerous across-the-board cut called sequester—not because we do not like the law that put the restraint on us, but because, to the best of our ability, we want to avoid it because we told the people that is what we would do. Our people do not expect us to solve budget problems by annually doing our work and then having a 10-percent cut or 8-percent cut without reference to one program's being better than another, one being worse than another, how much is right on defense, just cut them all. This is what we are trying to do.

I want to tell him if he votes for this, as he said he will, what he is doing, and he can say it loud and clear to his people: There are a few things in it that I do not like or that you do not like. But which would you prefer, that I said no to this, cutting 6 percent across the board, cut defense 5.5 or 6 percent across the board, without reference to one thing being more important than another? Which do you prefer? I prefer the prudent one in saying I will vote for it.

Mr. DIXON. Will my friend yield for a moment?

Mr. DOMENICI. I am happy to yield.

Mr. DIXON. Mr. President, I appreciate those comments by my warm friend, the distinguished senior Senator from New Mexico, who understands this subject matter and has contributed so much of his time and

energy. May I say I fully agree. There are many things in this mix of $13 billion in revenues and cuts that this Senator does not like. There are a number of them. But I agree with what my distinguished colleague has said, that this is better than sequestration.

As I understand it, and I would like to be corrected if I am wrong, if a Senator discharges his responsibilities on the floor and votes for this reconciliation bill in the final form that is crafted by the distinguished manager, who is here on the floor with me now, and our distinguished ranking member, then would it not be the responsibility of each Member to vote against sequestration on the grounds that we have done our job in the reconciliation bill and sequestration is not required? Is that the distinguished manager's understanding of what we ought to do procedurally in this whole reconciliation question?

Mr. DOMENICI. Mr. President, I am going to answer very quickly and very simply, then compliment the Senator and tell him my opinion.

The answer is yes, obviously. As the Senator may know, that may not be the opinion of others. I am not speaking in that capacity as one who is charged with carrying out the processes of this institution. All of us are. I would say if this passes, at the very minimum, we ought to put the sequester off for about a week and take a look.

Why do we vote on it? We vote on it because we want to be sure we keep the pressure on to avoid it at the end, in October. The first choice would be OK, keep the process alive, put it off. As prudent people, we have done something. Go to the House, see what they have done, take an accounting about next Friday, see where the tax bill is, where the continuing resolution is. If there is some real relevance to the sequester then it is still there.

But if somebody says, let us vote now, at 12 o'clock tonight, it seems to me the Senator has made a very logical assessment of how one might vote and how one might, subsequent to the vote, justify indeed saying, I have done my job.

Mr. DIXON. I thank the manager. I say I would have no objection to putting off the sequestration vote. I understand it takes unanimous consent to do that. This Senator would not object to putting it off. I want to make it clear this Senator will support our distinguished manager and ranking member but this Senator then believes he has obviated the necessity of voting for sequestration. I consider that I have met my obligations to achieve the threshold requirements of Gramm-Rudman-Hollings this year.

Mr. DOMENICI. I thank the Senator for his remarks.

Mr. President, how much time remains on the amendment for each side?

The PRESIDING OFFICER. The Senator from New Mexico has 25 minutes, the Senator from Florida has 20 minutes.

Mr. DOMENICI. Mr. President, I yield myself 3 minutes.

I send a modification to the desk that was asked for by the Energy Committee, technical in nature. I believe I am entitled to modify my amendment.

The PRESIDING OFFICER. The Senator has that right.

Mr. DOMENICI. It has been cleared by Senator CHILES.

The modification to the amendment (No. 2850) is as follows:

On page 5 of the amendment, between lines 9 and 10, insert the following:

On line 24 of page 13, before the word "party" insert the word "private".

Mr. DOMENICI. Let me talk with the Senate about the last colloquy I had with the distinguished Senator from Illinois. Frankly, in about 3½ hours, I guess, 4 if we use our time here to the fullest, we are going to decide whether we are going to pass the reconciliation bill that has about $13.2 or $13.3 billion in savings that will be credited as such by the practices that we have developed in this very complicated and cumbersome process. We have a couple of other options: We can defeat it. We can defeat the amendment and return to the underlying bill. It is very controversial. It has $3.7 billion total in reductions and has a cigarette tax on it. It probably will not get anywhere. The House will not do the cigarette tax. That is what I was alluding to with my friend from Illinois. The President will not sign it. So we can go down that path.

The other path is to adopt something like the Domenici-Chiles substitute, go to conference with the House and, while we cannot predict with certainty, that ought to yield a $13 or $14 billion deficit package, using the same accounting practices and techniques we are talking about. We only do this if we are given credit under the accounting practices mandated by the laws of the Senate and House.

Or we can defeat it in toto, this one and the underlying one, say we just do not want to do anything like this because there are parts of it that do not meet our fancy. Or we have something else in mind. Maybe we have in mind just to make ourselves go through the process of voting for a $19.5 billion across-the-board cut temporary in nature and waiting around until October to see the real effect.

I do not know if anybody wants to do that. I think some would like to have assurance that they can tell the people of this country, under the circumstances, we did the best we could; appropriations have been held down, this bill has been passed, we have done our tax reform, if that is the will of the Senate, and we are going to reach the targets of Gramm-Rudman-Hollings and there will be no second layer of cuts after we have done our work, arbitrary in nature, without regard to one program or another being better, this one being worse, just cut them all.

□ 1600

So I think we should take the path of passing a reconciliation bill between $13 billion and $14 billion. There is not a lot of gamble in that. Then we can go to the House and come out about like that and add it up and we will not have a sequester.

Mr. President, the Senator from Illinois raised the issue of the sequester, a preliminary, temporary sequester that is pending at the desk, and he talked about what we should do next, and do we vote on it today, do we put if off, and he indicated that he is going to vote for the reconciliation bill and then is going to vote "no" on sequester.

Everyone should know that that across-the-board, temporary sequester is hanging over us so long as this clock does not get to 12 o'clock before somebody insists that we call it up or the Parliamentarian informs the Chair that it is to be the pending business.

I believe we ought to get this work done first, and then I think Senators ought to consider seriously whether they want to vote for sequester tonight, up or down, whether they want to put it off for a reasonable period of time; and whether they want to vote on it may depend upon whether the sequester passes.

I hope everybody listened to that. I think it is a very good point made by the distinguished Senator from Illinois.

Mr. BUMPERS addressed the Chair.

The PRESIDING OFFICER (Mr. STEVENS). Who yields time?

Mr. CHILES. I yield the Senator from Arkansas 3 minutes.

The PRESIDING OFFICER. The Senator from Arkansas is recognized for 3 minutes.

SEA REDUCES THE DEFICIT

Mr. BUMPERS. Mr. President, I rise to express my grave concern about the leadership's amendment which has been offered to this budget reconciliation measure regarding the Senate Small Business Committee's portion of this bill. The budget resolution for fiscal year 1987 required out committee to come up with $343,000,000 in outlay savings for 1987, $55,000,000 in 1988 and $14,000,000 in 1989. That was not an easy task, especially considering the fact that we reduced SBA's spending by $2.5 billion in the 1986 reconciliation bill.

Our only alternative, Mr. President, was to consider asset sales, which I

consider generally a foolhardy and deplorable fiscal policy. This course was, however, virtually dictated by the Budget Committee. Asset sales, which seem to be the major portion of all the so-called savings in this reconciliation bill, are merely temporary fixes—BandAids—which seek to postpone the inevitable. Ultimately, spending and revenues must be brought into line.

First, the Small Business Committee considered the Budget Committee's policy assumption. Their proposal was that we should sell SBA's portfolio of disaster loans, of which several thousand have been made over the years. Our committee immediately rejected this suggestion. Because the Budget Committee evidently also intends to allow the continuation of the Disaster Loan Program at SBA, sale of the disaster loans which are now being repaid would leave us with an empty revolving fund and continuing needs for loan money. SBA indicated that we would need to recapitalize the disaster loan fund to the tune of several hundred million dollars, perhaps as soon as next year. Additionally, selling these disaster loans to investors would mean putting thousands of small business owners, home owners, and farmers at the mercy of collection agents who could foreclose at the first delayed payment, taking people's homes and businesses in the liquidation process.

Our committee concluded, instead, that the sounder policy from both the humanitarian standpoint and the fiscal standpoint would be to offer for sale certain of the economic development loans which have been made under section 503 of the Small Business Act. These loans have a good repayment record, on the whole, and they carry interest rates slightly above the comparable Treasury rate for the relevant period. Since many of these loans carry interest rates above currently prevailing rates, the investment market told us that the Government could get a much better price, perhaps above par, if the loans were sold with recourse. Two investment banking firms estimated that the section 503 loans could be sold for $1.12 or $1.13 per dollar of face value if the SBA guarantee of timely payment—which is now part of the loan—continued to apply. That is to say, the loans would have to be sold with recourse to the Government in order to obtain this price.

Initially, CBO, OMB and the Senate Budget Committee rejected the notion of selling any loans with recourse. Their reasons were never clear to me, and the Small Business Committee overwhelmingly rejected the idea of selling these SBA loans without recourse based on the very clear statements and evidence by the investment community. The 503 program has a relatively low difficult rate and a very low loss rate at this point. To date, the program has lost only about 1.5 percent of the loans made, and SBA projects an ultimate loss rate of no more than 7 percent—8 percent over the life of the program.

Yet the investment bankers made clear that investors would charge an enormous penalty if the loans were sold without recourse, despite a generally good repayment record. Estimates were that without recourse sales could bring between 60 and 80 cents on the dollar, versus as much as $1.13 cents on the dollar with recourse. Some said there was no telling what we might get for these loans, and that the market might treat them as "junk bonds." It was very clear to us the Government's actual risk of loss through guaranteeing the loans was vastly less than the penalty which the market would extract for sales without recourse. So it just didn't make good business sense to Senator WEICKER and me, and others on the committee, to sell these loans at fire-sale prices in order to avoid a fairly small exposure to the government from anticipated defaults.

Further, in our markup of this measure, Senator LEVIN, with his usual foresight and attention to detail, suggested that we could protect against the risk of loss from selling with recourse by selling a modest additional quantum of loans to raise enough additional money to cover any losses which might occur. So the committee made rough calculations, based on our best estimate of losses, and added this amount to the amount of loans authorized to be sold, and that is what we reported to the Budget Committee.

And for all our trouble, the Budget Committee and CBO gave us an "F." They continue to insist that these loans be sold without recourse, no matter what the cost to the taxpayers.

In their wisdom, CBO, OMB, and the Senate Budget Committee said that we hadn't accomplished a thing by selling these loans for $1.13 on the dollar. In fact, they said this was just like borrowing by the Treasury, so they said our bill didn't save a dime.

The trouble with OMB and CBO's reasoning, of course, is that it assumes that all the loans will default and SBA will have to pay for every one of them, and that is simply nonsense. The record of repayment is clear, and so is the outcome of a sale without recourse. We will take a bath on these loans without recourse, but that is exactly what this amended bill will do.

Their reasoning, as best I can tell, is purely philosophical. They want the Government out of these loans, no matter the price as long as we can pick up a little change to forestall tax increases and spending reductions. Senator WEICKER and I, and other members of the Small Business Committee, would, frankly, like to fight this issue. But we can count votes, too.

The only way to demonstrate how bad this policy really is may be to let OMB and CBO have their way this time and see what the results are. Sadly, the taxpayers will be the losers in this process.

I commend the leadership of the Budget Committee for their work in trying to avoid the sequester order under Gramm-Rudman-Hollings. But I deplore this $300 million mistake in a very necessary $14.5 billion reconciliation bill.

The Senate Small Business Committee will be brought into compliance with the budget resolution's instructions by the leadership's amendment. I do not believe, however, that we were ever out of compliance. CBO and OMB are simply wrong on this issue. The required $343 million in deficit reduction will be achieved for fiscal year 1987 by our committee, but we may end up giving up an $800 million loan portfolio to reach this total, and that price is too high.

Mr. DOMENICI. Mr. President, I thank the distinguished Senator from Arkansas for his comments. While I will not address them specifically at this time, I want to make two other comments, and then I will talk about selling our loan portfolio in general; because what the Senator from Arkansas raises with reference to the committee—he has an extreme interest in the Small Business Committee's portfolio—is not unique.

In my remarks, I forgot to mention one thing about the reconciliation bill that is pending, the Domenici-Chiles amendment worked out with many people on the Senate floor, the chairman and the ranking minority member and others.

The cigarette tax, which was part of that bill, is taken out. It will not be in the substitute, if the substitute is adopted. Obviously, some may want to offer that, just as the Senator from New Mexico may want to offer an import fee later, if we have time today. I am not sure about that. Any amendments of that type will require 60 votes, as everyone knows, because we have just about decided not to try to get the 50 majority vote rule to apply to our amendment. We are about ready to concede that we will have to get 60 votes.

Let me say that the removal of the cigarette tax, I think everybody understands, was done because the White House said they would not sign it, the House said they did not want it, so we did not see any reason to jeopardize our getting reconciliation through and completed. So we took it out and found some substitutes that are acceptable.

Mr. President, I yield myself 2 additional minutes, and I want to talk about loan asset sales.

It has been alluded to on the floor that as many as 7 years ago, people started talking about the sale of Government assets. I do know that 7 years ago we were talking about selling our loan portfolios to solve deficit problems. Maybe we were. Obviously, from time to time, a government as large as ours ought to look at a loan portfolio as perhaps business people would and see what we should do with it. Maybe that is what was talked about 7 years ago.

Two or three years ago, somebody said that we can get rid of the deficit by selling assets. The Senate turned that down; the committee turned that down. But every time we turned a corner and we would have a deficit target to meet and could not meet it, somebody would come up with this miraculous, marvelous, simple way of selling Eximbank notes, which are moneys due and owing to the U.S. Government that is coming in slowly every year as per the payment plan. Why don't we cash them out?

Well, this Senator resisted it. We put a little bit in last year. I was much like the Senator from Arkansas. I do not think it is a solution. But now it is dawning on people, as they look at this kind of activity, that as the Senator from Arkansas says, you have to discount them for the most part in order to get cash.

So the Eximbank portfolio that is going to be sold here—part of it—you are not going to get face value for that. On the other hand, you are going to get cash to reduce the deficit. Somebody else is going to pick up the payments, and they have to be paid for that. Some of them are risky. So it is not unique to see that in taking face value versus what we will have to sell them for, we will lose.

On the other hand, let me talk about loan sales with recourse and without recourse.

The way we have handled the loan portfolio sales with the Congressional Budget Office and the Office of Management and Budget is that these loan assets are on budget. When you sell them, you take them off budget, and to take them off budget and get credit for it, you cannot have strings attached to the Federal Government or you will not get credit on the consolidated budget for the sale. That is the way it has been from the beginning.

So if we have recourse, it is presumed that we have not really saved the money; because we still remain liable in a contingent manner, so we do not get the credit. That, in essence, is why we have this situation about which Senator BUMPERS has spoken.

□ 1610

But we do get cash to liquidate this huge debt and in this case we get cash to avoid a sequester.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

There are 13 minutes remaining to the Senator from New Mexico and 15 minutes remaining to the Senator from Florida.

Mr. BUMPERS addressed the Chair.

The PRESIDING OFFICER. Who yields time to the Senator?

Mr. DOMENICI. Mr. President, I assume the Senator wants to speak on the amendment.

Mr. BUMPERS. I do not. I simply want to address a question to the Senator from New Mexico to find out if he can give us any idea at all about the timing of the rest of this afternoon and evening and when he thinks or if he has some thoughts about when we might finish up the votes on the amendment and the sequester vote.

As I understand it, we are going to vote when the time elapses. The Chair just announced 13 minutes on the Senator's side and 15 minutes on the side of the Senator from Florida, and we will then vote on the amendment; is that correct?

The PRESIDING OFFICER. I might say to the Senator from New Mexico the time necessarily is coming out of his in terms of the question by the Senator from Arkansas.

Mr. DOMENICI. That is all right. I understand that. I thank the Chair.

We probably will vote but we are still talking with one Senator about something that is contentious that may cause us to spend a lot more time, and we are trying to see if we can work that out so we may have to use some time off the bill once the time is out in quorum calls to work it out. But it should not be too long until we have a vote on this major substitute, the Domenici-Chiles proposal. After that there is not too much time left. It will be a couple of hours. But there are a lot of amendments around.

This process is pretty self-enforcing, however. Once the time is up, you do not get to debate those amendments. So if Senators want to offer them——

Mr. BUMPERS. Can they be offered and voted on?

Mr. DOMENICI. They can be offered and voted on. Probably each one I have seen will be subject to a point of order. Therefore, they would have to have 60 votes to get around the point of order under the supermajority aspects of germaneness in Gramm-Rudman-Hollings.

Mr. BUMPERS. Following that we will go to the sequester vote?

Mr. DOMENICI. I have no idea about that.

Mr. BUMPERS. Is there an automatic time allocation under the Gramm-Rudman law giving how much time we have to debate that, or is it simply we have to do something before midnight tonight?

Mr. DOMENICI. Let me say if sequester is ever pending, and that is what we are all talking about, the statute is pretty clear. It is not amendable and there is 1 hour on each side.

Mr. BUMPERS. I thank the Senator.

Mr. DOMENICI. I yield the floor.

I suggest the absence of a quorum and ask unanimous consent that it be charged equally.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, I understand the distinguished Senator from Iowa, Senator GRASSLEY, desires 8 minutes to speak.

I yield him 8 minutes of my time off the bill.

The PRESIDING OFFICER. The Senator from Iowa is yielded 8 minutes off the bill, and the Chair has just been informed that the Senator from New Mexico has 1 hour and 34 minutes on the bill.

Mr. DOMENICI. How much do I have on the amendment and how much does Senator CHILES have on the amendment?

The PRESIDING OFFICER. The Senator from New Mexico has 9 minutes on the amendment and the Senator from Florida has 14 minutes on the amendment.

Mr. DOMENICI. I thank the Chair.

The PRESIDING OFFICER. And the Senator from Florida has 146 minutes on the bill.

The Senator from Iowa.

Mr. GRASSLEY. Mr. President, by the end of this month, the fiscal year 1987 deficit will be estimated at either $144 billion or $154 billion, depending on whether there is a sequester.

If there is one thing certain other than death and taxes, it is that next year's deficit will be much greater than $154 billion.

It is for that reason that we need a maximum deficit reduction effort right now, that we must not depend unduly on the imbalance of revenues in the new tax bill.

I urge my colleagues to support the reconciliation measure and the amendment package offered by the chairman and ranking member of the Senate Budget Committee.

Just 1 year ago, Mr. President, the Congressional Budget Office predicted that this year's deficit would be $175 billion.

The actual deficit will be $230 billion. That's an error in only 12 months of $55 billion. Half of the error is because we spent more than we estimated. The other half is because we got fewer revenues than we thought.

Last year's deficit was $212 billion. The year before that, CBO thought it would be only $176 billion. That's an error of $36 billion. Again, the error was half revenues, half outlays.

This has been a common pattern since 1980, Mr. President. Only the numbers have changed.

If we apply this likelyhood to the present, the fiscal year 1987 deficit will be closer to $200 billion than to $154 billion. That is as certain as death and taxes.

And failing to support this deficit reduction package would perhaps ensure an actual deficit next year of $200 billion. Moreover, it would increase the odds next year for a gigantic tax increase, or a deep-sixing of the Gramm-Rudman law. I know it sounds glib for me to stand here and say we will once again underestimate the deficit.

Just because we have underestimated it every year since 1980 does not mean we will do it again. The law of averages just has to catch up to it.

We do not really know the deficit will be larger next year than we predict. Just because the Sun has risen every morning does not mean we know it will rise tomorrow. But just for the sake of argument, Mr. President, let us create a hypothetical. Let us say, no matter how remote, that there is a scintilla of a possibility that we could be underestimating the deficit for next year. Let us examine how this $154 billion deficit just might become $200 billion.

First, this reconciliation bill gets bogged down, or the sale of these myriad assets fails to materialize. We lose $10 billion of savings.

Then we spend $5 to $7 billion more for appropriated accounts then we budgeted for. That includes money for drug programs, supplementals, and so forth. Then we spend an additional $5 to $7 billion on farm payments, the way that program is going.

Defense outlays exceed projections by $5 billion. And the economy grows at a 2.5-percent clip, rather than the projected 3.5 percent. We lose $20 billion. The sum of these possibilities is $50 billion, which would make our $154 billion deficit in excess of $200 billion.

Even if we count the revenues from the tax bill, which yesterday totaled $11 billion, which today totals $10 billion, and which tomorrow will total only $6 billion, we still have a $200 billion deficit for next year, a far cry from today's $154 billion figure. Now, certainly, Mr. President, I would never suggest there would be the slightest possibility of this actually occurring.

Besides, there is no way of knowing that this would ever come about.

The British empiricist Thomas Hobbes once said that we do not know that each time we hold out a pencil and release it that each time it will fall to the ground.

In Hobbes' time, empiricist philosophers held that one can know nothing, with any certitude. Hobbes, therefore, said you must take it on faith. And so, Mr. President, let me clarify my observation on this deficit matter. As Hobbes would say, I believe the deficit next year will be closer to $200 billion than to $154 billion. I take it on faith.

I cannot make an assertion to that effect, just as I cannot assert the Sun will rise tomorrow morning, or that if I release this pencil it will fall to the Senate floor.

I base my belief on the unblemished record of our deficit estimates since 1980. Every single one has shown a deficit underestimated. This doctrine of faith has never failed me, Mr. President. This dogma of the deficit has been my guiding light through concurrent budget resolutions.

I was right here before you last year saying I would be here this year saying "I told you so".

And here I am again before you, saying I will be here next year saying "I told you so."

I do not wish to belabor the point, Mr. President.

My purpose is to proselytize—to win converts among my colleagues.

The more of us who become converts to the deficit dogma, the more Congress will be willing to maximize our deficit reduction efforts up front.

If we can remain skeptical until proven otherwise, life in the budget process will be so much more rewarding.

Thank you, Mr. President.

The PRESIDING OFFICER. Who yields time?

Mr. DOMENICI. Mr. President, I understand the distinguished Senator from Texas, Senator GRAMM, would like 10 minutes, and I yield that off the bill.

The PRESIDING OFFICER. The Senator is recognized for 10 minutes to come off the bill.

Mr. GRAMM. Mr. President, I thank the distinguished chairman of the Budget Committee for yielding. We are coming to the end of a long and difficult budget process. This year, for the first time in a long time, we set out a process that told the American people what we were going to do to restore fiscal responsibility. Assuming we stay on the path that we find ourselves on with the continuing resolution, we have now come to the final action in that process. No old schoolteacher like I am could come to speak on this subject without giving a grade as to what we achieved and what we did not achieve.

The numbers do not really tell you much, except that not a lot happened. For fiscal year 1986, we now project revenues of $765.2 billion. For the fiscal year 1987, we project revenues of about $827 billion. If our economic projections hold up, we are looking at revenue growth that will come from the growth of the economy. The contribution to deficit reduction from the people who do the work and pay the taxes and pull the wagon in America will amount to $61.9 billion in new revenues.

In terms of the outlay reductions, by the time we adopt the reconciliation bill, which I will vote for and support, we are going to have the outlay reduction level down to about $2.3 billion. That is going to mean a deficit reduction of about $64 billion, give or take $1 billion. And that is the bottom line.

Now, what kind of achievement is that? Well, I think you have to look at it in perspective. In an election year, with the economy flat on its back in many areas, the fact that we will complete the budget today on the basis of the baseline set out in the Gramm-Rudman-Hollings bill by holding the growth of spending compared to current services to only about a break-even point is no easy achievement.

You are going to have a lot of people who are going to say, "Well, the Congress did not cut anything." And in a very real sense, they are right. But if you look back at election years during the Reagan era and the Carter era and the Ford era, you see that come election time, spending skyrocketed. I submit, Mr. President, it tells you a lot about what we are doing here and it tells you a lot about the Gramm-Rudman-Hollings law, as imperfect as it is, that in this election year, relative to current services, spending is actually declining, not growing.

I wish we could have done more. I am disappointed. I would be dishonest if I did not say so. I was willing to vote to do more, but I did not propose it because the votes were not here. And, trying to work within the process, I thought that doing so would not contribute to the long-term objective that we sought.

The good news is that under the Gramm-Rudman-Hollings bill, with this action today, we are going to meet the target. There will be no across-the-board cut, whether we vote to pull the trigger under the sequester order or not. In fact, Mr. President, that has really become a political issue. We are going to meet the target here today. Now the question is: Should we pull the trigger and make Members vote on it so that people opposing them back home can say they voted for an across-the-board cut or should we not?

The objective of Gramm-Rudman was to meet targets, not to pull triggers; to discipline the Congress, not to play politics. And I submit, Mr. President, as imperfect as this reconciliation bill is, that we have achieved that goal.

In an election year, we have brought the deficit down to within the target and we will achieve that target. And

let me also say, looking at a windfall revenue of about $11 billion coming from the tax bill, that we are not claiming that revenue to meet this target.

So people are going to talk about how ephemeral these savings are, and they are. But there was $11 billion sitting on the table that we did not claim. And I cannot help but believe that the country and the budget process and the economy will be better off for it.

Now those are the achievements. We passed a bill. We set out a target. We have met the first year of that target. That is the good news.

□ 1630

Mr. DOMENICI. Will the Senator yield?

Mr. GRAMM. I am happy to yield.

Mr. DOMENICI. Mr. President, I ask that the time I use in my observation not be taken out of his 10 minutes, but rather out of my time on the bill.

The PRESIDING OFFICER. The Senator's request will be honored.

Mr. DOMENICI. Let me say to my friend from Texas, your remarks at this point, in my opinion, have been an excellent summary.

I want to make one other observation. While we have not been able to dramatically reduce the expenditure side of the Federal Government's ledger, as you have described, I would think, without going back and looking—and perhaps you can think about it and give me your views—if this country ever came close to a static expenditure line for 4 or 5 years in the past during those critical expenditure years, the kind of deficits we now have would not be around.

Unless we were going up 6, 7, 8 percent in real terms—and I can remember 9 percent real growth in many accounts—we thought that was restraint. We are almost where it has stayed constant in real terms, as I understand the Senator's description here today. And I think that is a real achievement.

Now, I acknowledge it is not the best way to do some of these; they are not going to recur. But I think at this point you have made an excellent summary. I wish we could have done better, so do you.

I do not think we have the votes to do much better. I do not think we have found a way to polarize the enthusiasm. The President goes one way; we go another; the House goes another. I think in the middle is about where we turn out. And we lose an awful lot of reform, and awful lot of restraint in that process.

But I want to compliment you for the overview and for the assessment. I think it is accurate. I, too, say I wish we could have done better.

Mr. GRAMM. I thank the distinguished chairman.

The good news is we are going to meet the targets in an election year. And there is no doubt in my mind, had we not had the binding process that has brought us to this point, that we would be looking at a $230 billion deficit.

The bad news is that there has been no fundamental reform of the spending system; and many of the savings we used to reach this point are one-time savings, nonrecurring.

Let's look at the package that we have before us in reconciliation. We end up saving about $13.3 billion. About 37 percent of that will come from new revenues, mostly through compliance and enforcement; 64 percent of that represents one-time savings; 5 percent represents reforms and user fees; and then we have got an add-back of 13 percent in new spending, all coming out to the final total of the bill.

Now the problem we face is about next year and about the future. Yes, we are going to get under the wire and meet the targets for Gramm-Rudman the first year and we are going to do it by undertaking a lot of one-time savings.

But when we committed to the Gramm-Rudman-Hollings bill, we committed to a 5-year program, not a 1-year program. We are going to make it on the first rung of the ladder, but we have put that rung pretty close to the floor. We started out with a 6-foot ladder. We had six rungs. We put the first one very close to the floor by doing all the easy stuff the first year. Next year, we are going to have to take a big step up that ladder between the first and second rungs. If the tax bill next year loses revenue, we are going to have to make that revenue up with new revenue or we are going to have to drastically reduce the rate of growth in spending, reform entitlements, and terminate programs. Now I am willing to do that.

But some think that because in this election year we met the targets of Gramm-Rudman and that the process is over; and there are those who are pronouncing that Gramm-Rudman is dead. To these people I want to make a couple of things clear. First, it is not dead. If the Congress wants it dead, they are going to have to kill it, and it is going to be clear to the American people who the murderers are. I, for one, intend to stay with the process.

We did the easy things this year, and maybe in an election year that was the best we could do. Next year, we are going to have to do more. We are going to have to do a lot more. We are going to have to make difficult decisions.

And I, for one, intend to be here. If somebody wants to repeal Gramm-Rudman, let them offer the amendment to do it. I intend to oppose it, and I intend to see that there is a vote. If there are those here who want to waive points of order under that law, I intend to oppose it and to ask for a record vote on that. If there are those who are hoping that this is going to be a quiet death, that having met the target once we are going to hope it all fades away, I, for one, do not intend to let that happen.

I think we did something good here. We committed to a process. I am proud we met the first year's target, but there is a lot more work to be done.

I intend to support this reconciliation, and I intend to commit myself, as I am sure others will and the chairman of the Budget Committee will, to seeing that we meet the targets next year.

I thank the distinguished chairman for yielding.

The PRESIDING OFFICER. Who yields time?

□ 1636

The PRESIDING OFFICER. Who yields time?

Mr. RIEGLE addressed the Chair.

The PRESIDING OFFICER. Who yields time?

Mr. RIEGLE. Mr. President, speaking for this side, I yield myself 5 minutes of the time under the control of Mr. CHILES.

The PRESIDING OFFICER. The Senator is recognized for 5 minutes.

Mr. RIEGLE. Mr. President, the main test on Gramm-Rudman is not next year, fiscal 1987.

Gramm-Rudman, when it was signed into law—and I voted against it because I thought it was a bad law and would not work, and I think subsequent events have proven that to be the case—the first year in which Gramm-Rudman is to control the deficit is not next year but this year.

We have a Gramm-Rudman target for fiscal year 1986. That is the fiscal year that we are just completing, and it will end in roughly 2 weeks.

The Gramm-Rudman target for this year is roughly $172 billion. By law, we are not supposed to be able to have a deficit higher than $172 billion according to Gramm-Rudman right now. But as everyone knows, the budget deficit for this fiscal year is now estimated to not be within those limits of $172 billion, but to actually be at $230 billion or higher.

If it comes in after all the numbers are added up at the end of the next 2 weeks at a figure of $230 billion, then Gramm-Rudman will have failed its first test by $58 billion.

That is what is happening right now.

The sponsors of Gramm-Rudman do not want to talk about right now. They never want to talk about right now. They always want to talk about what it is going to do in the future. The reason that they do that, the

reason that they keep moving the focus of the discussion forward, is that all the evidence today shows that Gramm-Rudman is not working. It has not worked this fiscal year. It has been exceeded by at least, I would say, $58 billion, and the figure may well prove to be higher.

We are not going to hit $144 billion next year. There really is not anybody I find in the Chamber who believes that. That is not a believable figure. In fact, we are hoping maybe we will come in within $10 billion of that.

I would make the prediction today that the deficit next year with Gramm-Rudman will be no less than $185 billion, and I fear it is going to be higher than that. It may well exceed $200 million. I hope I am wrong.

It is my belief as a member of the Budget Committee that the deficit will be much more in that range than it will be in the range of the stated $144 billion Gramm-Rudman target. We have not met this year's target; we are not going to meet next year's target.

In the third year, the target is to be a $108 billion Federal deficit. I do not think that is within each, either. It would be nice if it were. You have to have a balanced package as the Budget Committee put together early in the year if we are going to have any hopes of meeting that target. That was a bipartisan effort. I was party to the bipartisan construction of that package. We passed it in the Senate and the House agreed on it, but the Reagan administration said they would not agree. They would not agree to the defense cuts or any small increases in revenues. We are not talking about across-the-board small tax increases. So we have not been able to go ahead and implement the budget resolution that we put together on a bipartisan basis that would in fact come close to meeting the targets in the future.

So we are not meeting the targets. We are not meeting them today and we are not going to meet them next year. Virtually everbody that I have talked to on the Budget Committee will acknowledge, at least in private conversation, that these so-called savings here in this reconciliation package are at least half smoke and mirrors. Some people say it is 100-percent smoke and mirrors. Some say it is 75 percent. I have not found anybody yet who says it is any better than half smoke and mirrors.

So we are going through an exercise here which is totally pretending that we are meeting the Gramm-Rudman targets for next year when in fact we are not meeting them. The proof of that is that we are not meeting them this year. I wish for once I could get one of the principal sponsors of the Gramm-Rudman legislation to talk about the fact that Gramm-Rudman is $58 billion over this year's target. For the life of me, we are not able to get them to do that. They do not want to talk about this year because this year is the measure of the fact that it is not working. What they want to do is to move the discussion out into the future where it cannot be measured accurately.

I predict what will happen next year at this time is we will have deficits much higher than the $144 billion mandated in Gramm-Rudman and they will not want to talk about that at this time. They will then want to talk about the year that is then a year out in the future. That is where they will want to put the focus of that discussion at that time. That is the only time you can even maintain any plausibility about whether or not Gramm-Rudman can be made to work.

Gramm-Rudman is a mistake. It is not an answer to our problem. It is a detour around the problem. It is not working presently. It is not going to work in the future. The sooner everybody faces that fact and we go back to something that is real, like the bipartisan budget plan that we developed in the Senate Budget Committee——

The PRESIDING OFFICER. The Senator's time has expired.

Mr. RIEGLE. I ask for 30 additional seconds.

Mr. CHILES. I yield.

Mr. RIEGLE. If we can go back to something that is authentic like the budget package that we put together on a bipartisan basis in the Budget Committee, then we have some realistic hope of meeting those downward deficit targets in the future. To do that, we will need the President, Don Regan, and others in the administration to come along with us. So far they have shown no indication to do that. Those are really the hard facts and there is no other way they can be described.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. CHILES. How much time has the Senator from Florida remaining?

The PRESIDING OFFICER. The Senator from Florida has 8 minutes remaining and the Senator from New Mexico 9 minutes.

Mr. STAFFORD. Mr. President, as the Senate considers S. 2706, the Sixth Omnibus Budget Reconciliation Act, I wanted to make clear to my colleagues that the provisions which are now contained in S. 2706 with regard to savings in the Guaranteed Student Loan Program, the College Housing Loan Program and the Academic Facilities Loan Program are not identical to those which will emerge in the eventual conference agreement on reconciliation legislation.

For the last 2 months, a conference committee on the reauthorization of the Higher Education Act has met at great length to produce legislation which would improve the GSL Program and College Housing and Academic Facilities Loan Programs while at the same time saving the taxpayers over a billion dollars in these three programs. The instructions contained in the concurrent budget resolution for fiscal year 1987 require that $1.194 billion be saved in these programs. Our final conference agreement on the reauthorization of the Higher Education Act, S. 1965, will include additional savings as well. S. 1965, should be considered by both Houses of Congress in the next week.

If the conference report of the Higher Education Act is enacted promptly, the provisions on the GSL and Higher Education Act Loan Programs will be incorporated by reference in the final conference report on reconciliation of which S. 2706 will be a part. If the conference report is not enacted, then the relevant provisions in the reconciliation conference will be modified to reflect the changes in the Higher Education Act conference report to date. Either way, sufficient savings to comply with the budget authorization will be obtained.

Mr. President, I ask unanimous consent that a Congressional Budget Office analysis of the provisions agreed to in S. 1965 which reduce costs in the GSL Program be included in the RECORD following my statement. This will give Members a description of the items to be eventually included in S. 1965 and the reconciliation conference report.

There being no objection, the analysis was ordered to be printed in the RECORD, as follows:

TENTATIVE CONFERENCE AGREEMENT—ESTIMATED BUDGET AUTHORITY AND OUTLAY IMPACTS FROM CHANGES INCLUDED IN THE CONFERENCE PROPOSAL ON THE HIGHER EDUCATION ACT AMENDMENTS OF 1986 TO THE GUARANTEED STUDENT LOAN PROGRAM UNDER CBO FEBRUARY 1986 ECONOMIC AND PROGRAMMATIC ASSUMPTIONS INCLUDING THE IMPACTS OF PUBLIC LAW 99-177 AND PUBLIC LAW 99-272 [1] ASSUMING AN OCTOBER 1986 IMPLEMENTATION

[1] The CBO projections for the fiscal year average 91-day Treasury Bill for 1986 through 1991 respectively are 6.9, 6.7, 6.5, 6.2, 5.8, and 5.5.
[2] The separate proposals are NOT additive due to programmatic interaction.

Mr. DOMENICI. Mr. President, my good friend from Vermont, Senator STAFFORD, has been a reliable and cooperative supporter of the budget process over these last few difficult years. Many times he has voted for restraint in education programs, when, in an ideal world, I know that he would prefer to increase funding for education many times over.

I am pleased that the Congressional Budget Office's preliminary scoring of the higher education conference report indicates that the conference report for the Guaranteed Student Loan Program contains $455 million in savings over the fiscal year 1987 through 1989 period, slightly more than what was assumed in the budget resolution. This represents a very significant effort on the part of the chairman of the Education Subcommittee, and I thank him for his responsible efforts.

As the chairman knows, the budget resolution also assumed the savings in the College Housing and Academic Facilities Loan Program—accomplished through the sale of loan assets. The legislative language requiring these sales is contained in S. 2706, the Reconciliation Act before the Senate now, and is also in the HEA conference report. I am assured that it is the intention of my good friend from Vermont to retain this language in the reconciliation conference.

The combination of these two provisions, the Higher Education Act conference report language on the Guaranteed Student Loan Program and the language requiring sale of College Housing and Academic Facilities Loans now appear to yield total savings that slightly exceed those assumed in the budget resolution earlier this year. This seems to me a highly desirable outcome to the reconciliation conference and I congratulate the Senator from Vermont for his efforts in this regard.

Mr. COHEN. Mr. President, I would like to be recognized on the point of order raised by the distinguished chairman of the Judiciary Committee, Senator THURMOND.

The program fraud provision of the reconciliation bill, which I sponsored along with Senators ROTH, LEVIN, and CHILES, is clearly not extraneous to the bill for the following two reasons.

First, the program fraud provision saves money. The Congressional Budget Office estimates in a July 1986 letter that the program fraud bill "would result in a net reduction in the deficit as a result of increased civil penalty collections and/or some decrease in fraudulent activity."

Although CBO is reluctant to provide a firm estimate on how much the bill would save—because of uncertainty as to the amount of fraud and the extent to which the new remedy would be used—the program fraud provision, nonetheless, passes the extraneous criteria set forth in last year's reconciliation bill.

Second, the program fraud provision has always been solely within the Governmental Affairs Committee's jurisdiction. For the past three Congresses, the program fraud bill has been introduced and referred to our committee for consideration.

In fact, the Judiciary Committee has never once had jurisdiction over any of the program fraud bills, and did not even seek sequential referral of the bill this Congress when it was reported from Governmental Affairs last November.

Nevertheless, we have advance notice from the Parliamentarian that Senator THURMOND's point of order against certain sections of the program fraud provision will be upheld. This is unfortunate and contrary to my understanding of how this point of order for extraneous material is to be interpreted.

Mr. ROTH. I wholeheartedly agree with the senior Senator from Maine and, for that reason, I move to waive those provisions of section 20001 of Public Law 99-272 under which this point of order was raised for the purpose of preserving those sections of

the program fraud provision subject to such point of order.

As Senator COHEN points out, the program fraud provision is solely within the Governmental Affairs Committee jurisdiction and always has been. In fact, I sponsored and held extensive hearings on the original program fraud bills, S. 1780 in the 97th Congress and S. 1566 in the 98th Congress, which served as predecessor bills to S. 1134 this Congress and the language subsequently contained in reconciliation.

I would like to emphasize that none of the provisions contained in any of these program fraud bills was taken from another committee's bill. The provisions subject to the point of order have been in each of the Governmental Affairs Committee's program fraud bills from the very beginning.

I, therefore, object to the proposed use of this point of order and yield to the distinguished chairman and ranking member of the Budget Committee, Senators DOMENICI and CHILES, for their interpretation of how section 20001 was intended to be construed.

Mr. DOMENICI. Mr. President, first let me say that I believe that the inclusion of nonbudgetary provisions in a reconciliation bill is inconsistent with the spirit and letter of the Budget Act and damages the credibility of the budget process. I understand that there is some disagreement as to whether the program fraud provisions reported by the Governmental Affairs Committee fall into this category.

The problem of so-called extraneous matters first became a major issue in 1981 during Senate consideration of the Omnibus Reconciliation Act of 1981. Earlier this year, with the enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985 [COBRA], a new procedure was instituted for the identification and elimination of extraneous material.

Section 20001 of COBRA provides a point of order against extraneous material. A provision is considered extraneous if it, first, produces no change in outlays or revenues—with certain exceptions—second, increases outlays or decreases revenues, and the committee does not meet its instructions; third, is within the jurisdiction of another committee; or fourth, produces changes in outlays or revenues which are "merely incidental" to its nonbudgetary components.

As Senator COHEN points out, the Congressional Budget Office has estimated that enactment of the program fraud bill "would result in a net reduction in the deficit as a result of increased civil penalty collections and/or some decrease in fraudulent activity." Therefore, the bill as a whole is not extraneous from a cost standpoint. The issue here, however is whether a piece of that bill, which if considered alone would be another committee's jurisdiction, can be pointed to and removed from the reconciliation bill as being extraneous.

The jurisdictional test of section 20001 is intended to prevent the abuses we have seen in the past where committees have included in their submissions to the Budget Committee bills that are clearly not within their jurisdiction.

Now, I understand that the Parliamentarian is going to construe the jurisdictional test in such a way that certain key provisions of the program fraud bill would be considered extraneous and, therefore, would be stricken. While this ruling may be technically correct, it is not necessarily consistent with the drafters of this language.

I will support the motion offered by the distinguished chairman of the Governmental Affairs Committee.

Mr. CHILES. Mr. President, I would like to second the comments made by the Senator from New Mexico. Why, if a bill that saves money and is in a committee's own jurisdiction isn't a suitable candidate for inclusion in reconciliation, I don't know what is.

I am a member of the Governmental Affairs Committee and of the Oversight Subcommittee which considered the program fraud bill. In fact, I am proud to be a cosponsor of this legislation. In hearings on this bill we heard the Department of Justice and the inspectors general testify about the millions of dollars that is lost to fraud each year because we don't litigate many fraud cases under $100,000. The program fraud bill, according to the Justice Department, would save tens, if not hundreds of millions of dollars each year.

I feel that this is not an appropriate case for application of section 20001, and I would be happy to work with interested Senators, including members of the Governmental Affairs Committee, on revisions to this rule so that this problem does not arise in the future.

Mr. President, I will support the waiver motion.

Mr. DOMENICI. Mr. President, I suggest the absence of a quorum with the time to be charged equally.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll and the time will be charged equally to both sides.

The assistant legislative clerk proceeded to call the roll.

Mr. CHILES. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CHILES. Mr. President, I think for the Members we should advise them that we are down to about 8 minutes on one side and 9 minutes on the other side. Shortly, we will probably be facing a vote on the amendment that the Senators from New Mexico and the Senator from Florida are proposing to put before the Senate amending the reconciliation bill.

Basically, what we are saying is the reconciliation bill only raises $3.5 billion. We all know that we are short approximately $19 billion with the snapshot numbers that have come out from OMB and CBO showing our deficit of $163 billion. So we are $19 billion higher than the Gramm-Rudman-Hollings total of $144 billion. To avoid a sequester, we have to be under $154 billion.

The purpose of this amendment is to put together a package of additional revenues and/or cuts that would total a little over $13.2 billion to assure us that we would not have a sequester.

Because of parliamentary problems that we have, which were germaneness provisions and other provisions, we find ourselves in the situation where we would either have to have unanimous consent to offer the amendment or we would have to have 60 votes. It looks like there is not unanimous consent, that there are people who object. So we will have to have 60 votes.

I hope the Senate will give us those 60 votes, regardless of how some people feel about the package itself or parts of the package itself. I want to explain why.

I did not think there was anything in the rules that we put in there under the germaneness provisions or others that was trying to keep the committee of principal jurisdiction, in this instances the Budget Committee, from being able to present a matter before this body that would certainly be pertinent to the whole budgetary problem and give us a chance to avoid a sequester, across-the-board cuts, that could cut the domestic spending program about 7.6 percent and cut defense programs about 5.6 percent, and to put ourselves into a box where we have to have a supermajority or 60 votes to occasion by accident more than what the germaneness rule was designed for.

Nothing could be more germane in the process we are in than a package of additional cuts in spending. Regardless of how you agreed on those or not—and they all would be subject to a motion to strike with 51 votes being sufficient—they are all subject to a motion to add. So I think it would be sort of a dark day for the Senate if we could not get this package before us if we had 58 votes, 57 votes, or 51 votes and find ourselves in the situtation where, by midnight tonight, we would have to adopt the sequester or vote on the sequester without a chance to say that we had a reconciliation act that would get us within the budget. We would find ourselves caught by the sequester rule.

In fact, Gramm-Rudman-Hollings provides for a fast track reconciliation

process that would let us do just what we have done. However, the timing of those provisions were not carefully thought through. That is why we are moving here to waive germaneness, and to waive the germaneness rule it will occasion us to have to have 60 votes.

I again want to reiterate that one's vote to waive germaneness I do not think locks one into having to vote for the reconciliation package. It certainly does not lock him into having to support all the provisions in here. It does not lock him in from not being able to offer additional revenue packages or spending cuts if he wished to do that.

□ 1648

I think the Senator from New Mexico and I have taken a stand that we will try to help anyone who legitimately is trying to add money to this package through the germaneness proposition. We will not thwart anybody who is trying to strike something from this package by seeing him stopped by the provision of the germaneness itself. So, given the fact that the Budget Committee has started work early this year and has produced a budget that, if it had been adopted, we would not be here; that the Senate itself produced a budget that, if it had been adopted, we would find ourselves within about $2 billion of the target.

I hope the body will allow us now to take up this amendment even though we are going to have to waive the germaneness provisions and, therefore, will have to seek a supermajority vote of 60 votes.

Mr. President, I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. On whose time? The Senator from Florida has 2 minutes left, the Senator from New Mexico has 8 minutes left. A quorum has been requested. Does the Senator request that that time come out of both sides?

Mr. CHILES. Mr. President, I yield the Senator from Iowa 5 minutes off the bill.

The PRESIDING OFFICER. The Senator is yielded 5 minutes off the bill.

Mr. HARKIN. Mr. President, there have been a lot of speeches about this reconciliation measure that is before us right now, but I think the most telling comment of all was made by my good friend and colleague from Nebraska [Mr. EXON] when he termed it totally unrealistic. I think Senator EXON was right on point when he said it was unrealistic.

Quite frankly, the reconciliation amendment that we have before us is nothing less than a giant smokescreen and we are trying to fool the American people if we really think we are going to achieve some savings here, because there are no savings in this. It is as phony as a $3 bill. As I said, Senator EXON was right on point when he said it was not realistic. Gramm-Rudman was not realistic and this is not realistic. All we are doing is shifting a bunch of money, using unrealistic numbers.

For example, we are shifting revenue sharing one day. We can shift revenue sharing one day, from October 1 to September 30, and lo and behold, we save $680 million—just by shifting it one day. Quite frankly, the effect of it is nothing.

Another example is the sale of assets. Sure, you get money now but you lose later. One-third of this total package is simply the sale of assets. You get a little money now but you lose later. The Senator from Arkansas pointed out, on the sale of the 503 loans in the SBA, we are actually getting a little money now and losing more money later on. So that is really what we are talking about here, buying a little time but not really doing anything at all.

The Senator from Texas, one of the authors of the Gramm-Rudman bill, said the purpose of Gramm-Rudman was to discipline Congress. What kind of discipline do we have here? We have a lot of yelling but no spanking. Much sound and fury, but nothing is happening. There is no discipline here at all. It is all smoke and mirrors.

The real problem that we have here with this reconciliation amendment, as we do with all of Gramm-Rudman, is simply that we are going after the wrong culprit. I would like to draw an analogy with the farm programs. We were told last year if all we could do was get the price to the farmers down, we could get our exports up. Well, they got it half right: They got the prices to the farmers down and the exports have come down, too. This is the third month in a row that we have imported more food into our country than we have exported. What is wrong with the farm bill is that they were chasing the wrong rabbit. What is wrong here with this reconciliation package, as it was with Gramm-Rudman in the beginning, is that they are chasing the wrong rabbit.

We have these huge deficits right now because of three things: misguided monetary and fiscal policies of this administration and the Federal Reserve; second, runaway military spending; and third, a total surrender on world trade, a loss of our agricultural base and a loss of our manufacturing base because of this surrender on trade.

If we want to reduce the deficit, do not go chasing the wrong rabbit like Gramm-Rudman, or like this phony reconciliation thing. Fix these three things. You fix those and then we will be on the road to recovery. Then we will have real discipline around here, because then we will have the revenues necessary to balance with our outlays and we will be able to invest in the future of this country.

The Gramm-Rudman bill, as I said, was unrealistic in the beginning and this reconciliation package, with all of its phony numbers, with all of the supposed savings that we are going to have that are not savings at all, is going to dig us deeper in the hole. We will be back again next year, as my colleague from Iowa pointed out, with a deficit of around $200 billion. And what will we do then? Reach into the future, grab some more money, yank it back again, and keep pushing it off, time after time?

The time has come to face up to the reality that we are losing our manufacturing base, we are losing our agricultural base, our monetary and fiscal policies are out of whack, we have runaway military spending, and we have given up on foreign trade. That is where we ought to attack the problem. Yet, like the ostrich sticking its head in the sand, we are about to do the same thing here: come up with some phony numbers.

The PRESIDING OFFICER. The Senator's 5 minutes have expired.

Mr. HARKIN. I need 2 more minutes, Mr. President.

Mr. DOMENICI. Mr. President, I yield 2 minutes on behalf of Senator CHILES on their side off the bill.

The PRESIDING OFFICER. The Senator is yielded 2 minutes off the bill.

Mr. HARKIN. I thank the Chair.

We have those phony numbers here. We are trying to pull the wool over the eyes of the American people. I do not think we ought to do that. We ought to defeat this reconciliation package. Let us go ahead and move into sequestration. Let us go ahead and see if the people who voted for Gramm-Rudman really want to make the cuts that Gramm-Rudman talked about. There is your discipline.

But oh, no, we do not want to do that. We do not want to have the full force of Gramm-Rudman go into effect. We do not want to cut defense spending by $19 billion and nondefense spending by $16 billion in authority. No; we do not want that to happen, because there is an election coming up. So much for the discipline of Gramm-Rudman.

As I say, it is like a father who yells at his kids all the time and pretty soon the kids figure out he is never going to spank them. So no matter how he yells, the kids are not going to pay attention.

There is only one thing to do with this reconciliation package. This is a garbage can; this is a reconciliation package. We ought to throw the reconciliation package in the garbage can, because it is not going to work.

Mr. President, I yield back whatever time remains.

Mr. CHILES. Mr. President, how much time remains?

The PRESIDING OFFICER. The Senator from Florida has 2 minutes on the amendment and 1 hour and 40 minutes on the bill.

Mr. DOMENICI. Mr. President, how much time remains to me?

The PRESIDING OFFICER. The Senator from New Mexico has 8 minutes on the amendment and 1 hour and 14 minutes on the bill.

Mr. DOMENICI. I suggest the absence of a quorum and ask unanimous consent that it be charged equally.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. METZENBAUM. Mr. President, I wonder if I may have 5 minutes off the bill?

Mr. CHILES. I yield 5 minutes off the bill.

The PRESIDING OFFICER. The Senator from Ohio is yielded 5 minutes on the bill.

Mr. METZENBAUM. Mr. President, I rise with some reservations, yet I feel I cannot hold my chair and talk about this effort to meet the Gramm-Rudman targets. I have real reservations about and voted against Gramm-Rudman because I did not think it would solve the problem. I said then and I say now that the only way you solve the problem is by biting the bullet. But the fact is that there are games being played with this amendment.

□ 1700

What we are doing is selling some of the great assets this Nation owns and saying that in some way that is going to balance the budget. They are changing dates and throwing things from one fiscal year into another fiscal year and saying that will balance the budget.

There are those who are standing on the floor and patting themselves on the back and saying: "We have gone far; we have shown what Gramm-Rudman can do," and they are self-congratulatory. I do not think there is any reason to be so self-congratulatory.

I think the sponsors call it imperfect, but they claim it will meet the target. The fact is that it is a very imperfect proposal. It does not do that which basically has to be done in order to balance the budget. In order to balance the budget, you have to look at revenues and at expenditures. What we are doing here is using some gamesmanship. We are pretending the achievement of things and saying we are achieving that which is supposed to be achieved, but it is not being done. It is sleight-of-hand. It is so much smoke that you cannot even see the mirror, and that is what concerns me about this—what concerns me about this approach to meeting the Gramm-Rudman target.

We have not done that which we are obligated to do. We do not need Gramm-Rudman to tell us what we ought to do. We know what we ought to do, and that is, we ought to move forward and do that which has to be done, and that is to cut spending and probably increase revenues.

There is some increase of revenues in here, but it is a different kind of revenue. You say it is not a tax increase. Well, I suppose that is just a question of how you figure. But when it comes to money and you take more money away from people, whether you call it a tax increase or anything else, it all comes out the same way.

Then there is the $2.4 billion that we are going to pick up by increasing compliance with the Internal Revenue laws. We could do that any day of the week, but that is not what we are called upon to do in order to balance the budget.

What this proposal is all about is just kidding the American people that we are achieving the objective. We all know that next year the problem is going to be five times as bad, and we are not going to achieve the objective unless we do some truly meaningful acts. In my opinion, this amendment does not do that which should be done, and I believe we are only kidding the people of this country in telling them that it will do that.

Mr. President, I yield back the remainder of my time.

The PRESIDING OFFICER. Who yields time?

Does any Senator seek recognition?

Mr. DOMENICI. Mr. President, how much time remains on the amendment?

The PRESIDING OFFICER. Eight minutes to the Senator from New Mexico and 2 minutes to the Senator from Colorado.

Mr. LEVIN. Mr. President, will the Senator yield for a question?

Mr. DOMENICI. I yield.

Mr. LEVIN. It has been argued in the last few hours that this amendment is unrealistic and represents just blue smoke and mirrors. I am wondering whether the chairman of the Budget Committee or the ranking minority member would comment on that.

That is an important issue for a lot of us, as to whether or not it is real savings. Many of us were disappointed that we are using the revenues in the tax bill for tax cuts rather than deficit cuts, but that is a different issue.

My question to the chairman is this: What is his answer or comment to the allegation and the charge we have heard repeatedly, that this is just unreal, blue smoke and mirrors, and that these savings are not real savings?

The PRESIDING OFFICER. Does the Senator wish this time to come off the bill?

Mr. DOMENICI. I do. I ask unanimous consent that it be taken out of my 8 minutes, until it gets down to 2 minutes, and then the time would come off the bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Perhaps I should answer the Senator this way: Some Senators have taken to the floor and said that these are predominantly one-shot savers—that is, 1-year events—which will cause the bookkeeping of the National Government to reflect a reduction in deficits, the sum total of which is $13.3 billion, whether it is on the revenue side up or the expenditure side down. That is true. Many of them will not occur again. Consequently you do not carry that $13.3 billion off of the current account totals of the Government and say it will be that much less the next year.

The Senator from Michigan is aware of that better than most. He has worked hard on the Gramm-Rudman-Hollings amendment and is familiar with its intricacies, its baselines, and all these difficult concepts. That statement is true. We will have to find many of these savings again next year, as part of the annual, periodic diminution in the deficit prescribed by Gramm-Rudman-Hollings.

If we were right on target and we had to get to next year's target, we would have to find more than the difference, because some of these are going to be replaced by spending.

In a sense I am not pleased with it. I have said over and over on the floor that I would do it differently. I work for a committee; I work for the Senate; I work with Senators and with the President. When parameters are set—no permanent revenue increases—what you get are one-shot revenues. I cannot help that. So those statements about nonrecurrence are true. But I can tell the Senator that, for the purpose of reducing the deficit, with the same degree of accuracy and certainty that we are going to reach the targets that he supported in Gramm-Rudman-Hollings, these are just as effective and credible and real as those targets are, because those targets would be measured by this kind of activity of Government.

If you actually picked up revenues because of enforcement but it was not going to recur, it would be applied in your notion of Gramm-Rudman-Hollings as you fought for it and modified it and helped amend it.

If you sold some loan assets and got money in the Treasury, you would clearly mark that up against the target you were fighting for, and you would not wait until the end of the year to do it. You would ask the Congressional Budget Office, and it says we are going to do it, and how much credit we get.

I am telling you that in every respect, that is how we did this. That is not blue smoke and mirrors. It is real.

Mr. LEVIN. I thank the Senator. I wonder if he suggests at the end of his comments that the CBO has approved this.

Mr. DOMENICI. Up until this morning, some of the items in this package were being modified, because they were scrutinizing them as to whether it was $200 million one year and $400 million in another. The CBO has agreed to this scoring.

The PRESIDING OFFICER. (Mr. CHAFEE). The Senator from Florida.

Mr. CHILES. Mr. President, I think the distinguished Senator from New Mexico has answered the Senator from Michigan, but I want to say that I concur that they are real savings. CBO has said they would score them, and we are operating off their scoring, not OMB's scoring system.

Mr. President, I do not like asset sales.

Loan sales do not reduce the Federal deficit. They simply bring future year receipts forward.

For every dollar of loan sales scored as savings, the Treasury loses an equivalent dollar amount of revenues in the form of lost receipts that would have occurred had the Government retained the loan portfolio.

In order to sell, deep discounts will be necessary for almost all loans to be sold. Therefore, outyear revenue losses will be greater than receipts from the loan sales. Thus loan sales result in greater future deficits.

Loan sales to reduce the deficit do not reduce the Government's demands on credit markets. Loan sales simply replace U.S. Treasury securities with loans originated by the United States as a means of financing the deficit. The deficit is reduced only because a loan sale is treated as an off-setting collection while a U.S. Treasury security is treated in the budget as a means of financing.

Loan sales do not reduce the Federal Government's interest costs. Even though the Government may reduce its own debt outstanding by $1 for every $1 of loans liquidated, the fact that the loans are sold at steep discounts means that only a part of the Government's debt associated with the loans will be retired.

If loans are sold without a Federal guarantee, they are likely to sell at "fire sell" rates. If, however, they are guaranteed, the Government retains all the associated risk and consequently, outyear revenue losses are increased.

If loans are sold with a guarantee, this transaction becomes nothing more than an inefficient form of Federal borrowing since the Government has not sold a loan, but rather has entered an obligation to make a series of payments to an investor that is not dependent on the stream of payments of the underlying loan assets. This view is consistent with CBO and OMB scorekeeping as well as with the view of the Financial Accounting Standards Board.

□ 1710

Mr. DOMENICI. Mr. President, I yield back any time I have on the amendment.

Mr. CHILES. Mr. President, I yield back any time I have left.

Mr. DOMENICI. Mr. President, pursuant to section 904 of the Budget Act, I move to waive section 305(b)(2) of that act as it relates to germaneness.

The PRESIDING OFFICER. There is 1 hour equally divided on the motion.

Mr. DOMENICI. Mr. President, I yield back the time I have.

Mr. CHILES. I yield back the time I have.

Mr. HARKIN. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. STEVENS. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. STEVENS. How many votes does it take to adopt this waiver?

The PRESIDING OFFICER. Sixty.

Mr. DOMENICI. Mr. President, I yield myself 1 minute off the bill.

Mr. President, I have been telling Senators here on the floor and as we met for the last few days that this amendment was not germane. Senator CHILES from Florida has explained why. We did not expect to have this job and these rules and so what we are asking is for 60 Senators to waive this section so that we can adopt this amendment, the amendment that Senator DOMENICI from New Mexico and Senator CHILES have pending. If we get the 60 votes, the amendment will be in order. We can then adopt it if it is the will of the Senate and go on from there.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from New Mexico.

On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN] and the Senator from Arizona [Mr. GOLDWATER] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Hawaii [Mr. MATSUNAGA] is necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—87 yeas, 10 nays, as follows:

[Rollcall Vote No. 268 Leg.]

YEAS—87

NOT VOTING—3

Garn	Goldwater	Matsunaga

So the motion was agreed to.

□ 1736

Mr. DOMENICI. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. CHILES. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOMENICI. Mr. President, I suggest the absence of a quorum with the time to be charged to my side.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, I understand that the Domenici-Chiles amendment, which is pending as an amendment to the reconciliation bill, is now germane. We have just voted to remove that impediment.

But I further understand, and ask if my understanding is correct, that subject to the rules that apply, it is open for amendment at this point.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The Senator from New Mexico is correct.

Mr. DOMENICI. And, further, as a parliamentary inquiry, amendments that are in order, as I stated, must be germane to that amendment. Is that correct?

The PRESIDING OFFICER. The amendments to be germane must be germane either to the amendment or to the underlying bill.

Mr. DOMENICI. I thank the Chair.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The Senator from Alaska.

AMENDMENT NO. 2851

Mr. STEVENS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS] proposes an amendment numbered 2851 to Domenici amendment numbered 2850, as modified.

Strike all from line 18, page 18(B) through line 23, page 18(C).

Mr. STEVENS. Mr. President, I ask unanimous consent that the provision I would strike be printed in the RECORD at this point.

There being no objection, the provision was ordered to be printed in the RECORD, as follows:

SEC. . INCREASES IN CERTAIN PENALTIES.

(a) AGGREGATE NEGLIGENCE AND SUBSTANTIAL UNDERSTATEMENT PENALTIES NOT TO BE LESS THAN 25 PERCENT.—

(1) IN GENERAL.—Subchapter A of chapter 68 of subtitle F (relating to additions to tax) is amended by redesignating section 6662 as section 6663 and by inserting after section 6661 the following new section:

"SEC. 6662. AGGREGATE PENALTY ON CERTAIN UNDERPAYMENTS NOT TO BE LESS THAN 25 PERCENT.

"(a) GENERAL RULE.—If there is a tax imposed under section 6653(a) or 6661, or both, on any portion of the underpayment or understatement, then there is hereby imposed a tax equal to the excess (if any) of—

"(1) 25 percent of the amount of such portion, over

"(2) the aggregate amount of taxes imposed under sections 6653(a) and 6661 on such portion.

"(b) DEFINITIONS.—For purposes of this section, the terms 'underpayment' and 'understatement' have the meanings given such terms by section 6653(c)(1) and 6661(b)(2), respectively."

(b) INCREASE IN TAX ON FAILURE TO MAKE DEPOSIT OF TAXES.—Section 6656(a) (relating to underpayment of deposits) is amended by striking out "5 percent" and inserting in lieu thereof "10 percent".

(c) CONFORMING AMENDMENTS.—The table of sections for subchapter A of chapter 68 of subtitle F is amended by striking out the item relating to section 6662 and inserting in lieu thereof the following new items:

"Sec. 6662. Aggregate penalty on certain underpayments not to be less than 25 percent.

"Sec. 6663. Applicable rules."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to penalties assessed after the date of enactment of this Act.

Mr. STEVENS. This is an amendment to strike the increased penalties under the Internal Revenue Code.

Let me state straightforwardly that I am not a tax expert, but as I understand this, as I have studied it, what it will do is increase from 10 percent the penalties that are owed for a negligent failure to pay taxes or negligent understatement of income which leads to an underpayment of taxes.

As I understand it, that would apply to a taxpayer who, relying upon professional advise, files a return and the IRS finds that it is either understated or as a result of a nondisclosure of income the tax——

Mr. STENNIS. May we have order in the Chamber, Mr. President?

The PRESIDING OFFICER. The Senator's request is a fair one. There is not order in the Chamber. We will not proceed until there is order in the Chamber.

The Senator from Alaska.

Mr. STEVENS. I inquired as to the explanation that had been provided to the committee for the amendment that I seek to strike. I just want to read it to the Senate and that is my argument.

The proposal would increase the penalties paid by taxpayers in two areas in order to raise $1.0 billion.

(a) The penalties for underpayment of taxes and for negligent underpayment would be adjusted so that the total penalty assessed would equal at least 25 percent of the taxes owed. E.g. If the taxpayer underpaid his taxes by $1000, he would normally owe $50 or $100 in penalties depending on the circumstances. This proposal would increase the penalty amount.

It would be either 5 times the amount of the current penalty or 2½ times of the penalty.

(b) Businesses make quarterly payments of the withholding tax collected from employees. The proposal would double the penalty for not depositing the withholding collections in a timely fashion.

Mr. President, I want to support the change in the reconciliation bill, but I see no reason to use this excuse to increase the penalties on taxpayers for negligence under circumstances as they are stated here. This is a negligent underpayment. As I said, the result would be to increase by not less than 25 percent. Meaning it would not be less than a 5-times increase or at least 2½ times the increase under the existing law. I frankly do not think this is proper for the Treasury and the Internal Revenue Service to ask us at such a late hour to make such a significant change in the penalties imposed upon taxpayers who find that the IRS disagrees with them.

Mr. DOMENICI addressed the Chair.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Might I ask my friend from Alaska, since a number of Senators are asking about amendments, and I do not have any control over amendments other than each amendment has a prescribed time, how much additional time did the Senator from Alaska want to use on the amendment?

Mr. STEVENS. Mr. President, I have made my case.

Mr. DOMENICI. Mr. President, I thank the distinguished Senator from Alaska.

I do not see Senator PACKWOOD, the chairman of the Finance Committee, here. He and his staff helped with this at the encouragement of the Treasury Department. They suggested this to us. That is why it is in this bill.

As I understand it, if this amendment is adopted, the estimated loss of revenues to the Treasury will be $1 billion. So we will have effectively reduced our revenue estimates by $1 billion if we strike this. Instead of $12.9 billion, we will have $11.9 billion in 15 minutes.

The proposal, as I understand it, is aimed at the penalties and fines as described by the Senator from Alaska. According to those who calculate the response, this does not mean people will be fined that much more. It means people will be that much more careful, that much more unwilling to deceive the Federal Government and, thus, we will collect more money.

You have two things happening out there. One is the enforcement and the other is what people think is going to happen. Since the fines and penalties are low now, when you raise them, the behavior will be, "We better be more careful, we better be more responsive," and you will get more revenues. If I had my druthers, I might pass some other tax bill or revenue bill. This was recommended by the administration and I think we ought to adopt it.

I have the greatest respect for my friend from Alaska and concern about this issue, but I think we ought to see if it is going to work. I believe it will, since the Treasury Department assumes there will be better performance on the part of taxpayers, CPA's, and others, and, indeed, we will raise more revenue to the tune of $1 billion.

Mr. DIXON. Will the manager yield?

Mr. DOMENICI. I am glad to yield.

Mr. DIXON. Is it not true that these penalties are imposed not for inadvertence but actual negligence in connection with the filing of a return?

Mr. DOMENICI. The Senator is correct.

Mr. DIXON. Is it not true that one of the real problems we have in the country now is the difference between the amount owed to our Government and the amount actually paid?

Mr. DOMENICI. The Senator is more expert than I.

Mr. DIXON. I understand the evidence is that the revenue that should have been collected from taxpayers is about $100 billion over the years. I would suggest the manager is exactly right. In those cases where negligence is not involved in connection with the

filing of a return, I do not know why a taxpayer ought to pay a penalty for that. Certainly, as we look at a number of other things in this reconciliation bill I would have difficulties with, I certainly have no difficulty in collecting another $1 billion from people who negligently file returns that are not accurate.

Mr. STEVENS. Mr. President, I do not want to argue this too long as there are other amendments coming. But I would say to my friends from Illinois there are already penalties involved, and this amendment would increase those from 2½ to 5 times on a minimum basis. This says the tax imposed for negligence can be not less than 25 percent on either a negligent understatement or a negligent underpayment, notwithstanding that it was based upon professional advice, notwithstanding the fact that it was professional advice, that the negligence was involved in professional advice obtained by the taxpayer. I think the penalties under these circumstances are sufficient already.

But further I say to my friend from Illinois, the effective date section says, "The amendments made by this section shall apply to penalties assessed after the date of enactment of this act."

This goes back 5 years at least. I might say it might have a salutary effect talking about the future. But this says penalties assessed after the date of this act. If you assess them on a tax return filed in 1981 and it is under review, you could well have an increase in the penalty if that audit is not complete, any one of these things stil open. There would be no discretion on the part of the IRS. They could not assess you less than 25 percent of the amount that was either understated or underpaid.

□ 1750

I think that is wrong to do it retroactively in the first place, but I think it is wrong to do it in a bill like this now. Where was this during the tax bill? This is a bill under emergency circumstances to raise revenues to meet this Reconciliation Act target.

I am perfectly willing to offer an amendment, if there is an order, to impose an oil import fee: that is a new tax, a new revenue. But this is increasing penalties under existing law without any notice to anybody, retroactively for at least 5 years.

Mr. President, I just want to vote for this amendment to delete that. If the Senate wants to keep it in, they can do it. I yield back the remainder of my time.

Mr. DOMENICI. Mr. President, I am going to yield my time in a moment. We are going to vote.

I am going to read the language. It is "taxes due to an intentional or negligent disregard of rules or regulations." This has been recommended by the Department of the Treasury of the United States. I repeat, we will decrease our revenue $1 billion if we adopt the Stevens amendment.

I yield back the remainder of my time. I move to lay the amendment of the Senator from Alaska on the table. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion to lay the amendment of the Senator from Alaska [Mr. STEVENS] on the table. The yeas and nays have been ordered. The clerk will call the roll.

The bill clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN] and the Senator from Arizona [Mr. GOLDWATER] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN] and the Senator from Hawaii [Mr. MATSUNAGA] are necessarily absent.

The PRESIDING OFFICER (Mr. COCHRAN). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 77, nays 19—as follows:

[Rollcall Vote No. 269 Leg.]

NOT VOTING—4

Boren	Goldwater
Garn	Matsunaga

So the motion to lay the amendment on the table (amendment No. 2851) was agreed to.

□ 1810

Mr. DOMENICI. Mr. President, I move to reconsider the vote by which the motion to lay on the table was agreed to.

Mr. HEINZ. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Indiana.

AMENDMENT NO. 2853

(Purpose: To establish procedures for the expedited consideration by the Congress of certain bills and joint resolutions submitted by the President)

Mr. QUAYLE. Mr. President, I send an amendment to the desk on behalf of myself, Senators EXON, NICKLES, ZORINSKY, HUMPHREY, GRAMM, and WARNER and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Indiana [Mr. QUAYLE] for himself and Mr. EXON, Mr. NICKLES, Mr. ZORINSKY, Mr. HUMPHREY, Mr. GRAMM, and Mr. WARNER proposes an amendment numbered 2853.

Mr. QUAYLE. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place in the text of the bill insert the following: (Section) that (a) the President may, within 3 days of the time the President approves any appropriation bill, transmit to both Houses of Congress, one or more special messages in accordance with subsection (b) proposing to rescind all or part of any item of appropriation provided in the appropriation bill, such special messages shall be considered in accordance with the provisions of this resolution.

(b)(1) Each special message transmitted under subsection (a) shall specify, with respect to each item of appropriation (or part thereof) proposed by the message to be rescinded, the matters referred to in paragraphs (1) through (5) of section 1012(a) of the Impoundment Control Act of 1974 (2 U.S.C. 683(a)).

(2) Each special message transmitted under subsection (a) shall be accompanied by a draft bill or joint resolution that would, if enacted, rescind each item of appropriation (or part thereof) proposed by the message to be rescinded.

(c)(1)(A) On the day on which a special message proposing to rescind an item of appropriation is transmitted to the House of Representatives and the Senate under subsection (a), the draft bill or joint resolution accompanying such special message shall be introduced (by request) in the House by the majority leader of the House, for himself and the minority leader of the House, or by the Members of the House designated by the majority leader and the minority leader of the House, and shall be introduced (by request) in the Senate by the majority leader of the Senate, for himself and the minority leader of the Senate, or by the Members of the Senate designated by the majority leader and the minority leader of the Senate. If either House is not in session on the day on which a special message is

transmitted, the draft bill or joint resolution shall be introduced in that House, as provided in the preceding sentence, on the first day thereafter on which such House is in session.

(B) A bill or joint resolution introduced in the House of Representatives or the Senate pursuant to subparagraph (A) shall be referred on the date of introduction to the Committee on Appropriations of such House. The committee shall report the bill or joint resolution without substantive revision (and with or without recommendation) not later than 5 calendar days of continuous session of the Congress after the date on which the bill or joint resolution is introduced. A committee failing to report a bill or joint resolution within the 5-day period referred to in the preceding sentence shall be automatically discharged from consideration of the bill or joint resolution, and the bill or joint resolution shall be placed on the appropriate calendar.

(C) A vote on final passage of a bill or joint resolution introduced in a House of the Congress pursuant to subparagraph (A) shall be taken on or before the close of the 10th calendar day of continuous session of the Congress after the date of the introduction of the bill or joint resolution in such House. If the bill or joint resolution is agreed to, the Clerk of the House of Representatives (in the case of a bill or joint resolution agreed to in the House of Representatives) or the Secretary of the Senate (in the case of a bill or joint resolution agreed to in the Senate) shall cause the bill or joint resolution to be engrossed, certified, and transmitted to the other House of the Congress on the same calendar day on which the bill or joint resolution is agreed to by such House.

(2) If prior to the passage by one House of a bill or joint resolution introduced in that House under this section, that House receives a bill or joint resolution containing the same provisions from the other House pursuant to subparagraph (C) of paragraph (1), then—

(A) the procedure in the House receiving the bill or joint resolution with respect to the bill or joint resolution introduced in that House shall be the same as if the bill or joint resolution had not been received from the other House; but

(B) the vote on final passage shall be on the bill or joint resolution of the other House.

(3)(A) A motion in the House of Representatives to proceed to the consideration of a bill or joint resolution under this section shall be highly privileged and not debatable. An amendment to the motion shall not be in order, nor shall it be in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

(B) Debate in the House of Representatives on a bill or joint resolution under this section shall be limited to not more than 4 hours, which shall be divided equally between those favoring and those opposing the bill or joint resolution. A motion to postpone, made in the Houe of Representatives with respect to the consideration of a bill or joint resolution under this section, and a motion to proceed to the consideration of other business, shall not be in order. A motion further to limit debate shall not be debatable. It shall not be in order to move to table or to recommit a bill or joint resolution under this section or to move to reconsider the vote by which the bill or joint resolution is agreed to or disagreed to.

(C) All appeals from the decisions of the Chair relating to the application of the Rules of the House of Representatives to the procedure relating to a bill or joint resolution under this section shall be decided without debate.

(D) Except to the extent specifically provided in the preceding provisions of this paragraph, consideration of a bill or joint resolution under this section shall be governed by the Rules of the House of Representatives applicable to other bills and joint resolutions in similar circumstances.

(4)(A) A motion in the Senate to proceed to the consideration of a bill or joint resolution under this section shall be privileged and not debatable. An amendment to the motion shall not be in order, nor shall it be in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

(B) Debate in the Senate on a bill or joint resolution under this section, and all debatable motions and appeals in connection therewith, shall be limited to not more than 4 hours. The time shall be equally divided between, and controlled by, the majority leader and the minority leader or their designees.

(C) Debate in the Senate on any debatable motion or appeal in connection with a bill or joint resolution under this section shall be limited to not more than 1 hour, to be equally divided between, and controlled by, the mover and the manager of the bill or joint resolution, except that in the event the manager of the bill or joint resolution is in favor of any such motion or appeal, the time in opposition thereto, shall be controlled by the minority leader or his designee. Such leaders, or either of them, may, from time under their control on the passage of a bill or joint resolution, allot additional time to any Senator during the consideration of any debatable motion or appeal.

(D) A motion in the Senate to further limit debate on a bill or joint resolution under this section is not debatable. A motion to table or to recommit a bill or joint resolution under this section is not in order.

(d) No amendment to a bill or joint resolution considered under this section shall be in order in either the House of Representatives or the Senate. No motion to suspend the application of this subsection shall be in order in either House, nor shall it be in order in either House for the Presiding Officer to entertain a request to suspend the application of this subsection by unanimous consent.

(e) For purposes of this section—

(1) "item of appropriation" means any numerically expressed amount of budget authority set forth in an appropriation bill;

(2) "appropriation bill" means any general or special appropriation bill, and any bill or joint resolution making supplemental, deficiency, or continuing appropriations;

(3) "appropriation Act" means any appropriation bill that has been approved by the President and become law;

(4) "budget authority" has the meaning given to such term in section 3(2) of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 622(2)); and

(5) continuity of a session of the Congress shall be considered as broken only by an adjournment of the Congess sine die, and the days on which either House is not in session because of an adjuournment of more than 3 days to a day certain shall be excluded in the computation of the 5-day and 10-day periods referred to in subsection (c) of this section. If a special message is transmitted under this section during any Congress and the last session of the Congress adjourns sine die before the expiration of 10 calendar days of continuous session (or a special message is transmitted after the last session of the Congress adjourns sine die), the message shall be deemed to have been transmitted on the first day of the succeeding Congress and the 5-day and 10-day periods referred to in subsection (c) of this section shall commence on the day after such first day.

(f) The provisions of this section are enacted by the Congress—

(1) as an exercise of the rulemaking power of the House of Representatives and the Senate, respectively, and as such they shall be considered as part of the rules of each House, respectively, or of that House to which they specifically apply and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the constitutional right of either House to change such rules (so far as relating to such House) at anytime, in the same manner, and to the same extent as in the case of any other rule of such House.

Mr. DOMENICI. Mr. President, will the Senator from Indiana yield for a question?

Mr. QUAYLE. I yield for a question to the distinguished chairman of the Budget Committee.

Mr. DOMENICI. Mr. President, I want to inquire of the junior Senator from Indiana. I understand that he might be willing to agree to a time limit on his amendment. Does he have some amount of time in mind?

Mr. QUAYLE. I personally will need about 10 to 15 minutes. Senator EXON may want 5 minutes. So, our side 15 or 20 minutes at max.

Mr. DOMENICI. The Senator from Indiana asks for 20 minutes, he says, on his side.

Mr. CHILES. Mr. President, I would hope they would not take that long just for our colleagues because we have so many Senators who want to offer amendments. If we do not limit Senators to about 5 minutes, in very short time there will be no time for anyone on an amendment.

I will take 3 minutes on this side to argue the other side of it. I hope that we will not have to have 20 minutes.

Mr. EXON. Five.

Mr. CHILES. If colleagues want time, that is OK. Once time is used, that is it.

Mr. QUAYLE. I would say, Mr. President, I would like to accommodate the chairman and ranking minority member and also accommodate the colleagues.

I am acutely aware we are running out of time.

This amendment should not take a long time to explain. I do want to have it presented to the Senate so there is an understanding of what the amendment is all about.

As I said at max it will be 10 to 15 minutes. The Senator from Nebraska

said 5 minutes. I may not use all 20 minutes. I may only use 15 minutes.

Mr. EXON. Mr. President, will the Senator yield?

Mr. QUAYLE. I yield to the Senator from Nebraska.

Mr. EXON. I would say I think both the Senator from Indiana and this Senator wants to cut this down. I might suggest a compromise that we simply agree that we will not take more than 20 minutes on our side and possibly we can start out with 8 minutes for the Senator from Indiana.

I say I want to cut down the time. Could I say we proceed without wasting a lot of time on discussion on this and agree to not more than 20 minutes for our side of this. If the Senator from Indiana would start off with maybe 8 minutes I will take 5 and maybe less. Maybe we can finish up. Twenty minutes would be the outside.

Mr. DOMENICI. Mr. President, I ask unanimous consent that there be no more than 20 minutes for proponents and 10 minutes for opponents.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. QUAYLE. Mr. President, I yield myself 10 minutes.

The PRESIDING OFFICER. The Senator from Indiana is recognized.

Mr. QUAYLE. Mr. President, this amendment is a very straightforward amendment dealing with the budget process of rescission.

This amendment is very compatible, though technically not germane. It is certainly compatible with reconciliation and certainly the budget process.

The current picture is this: Under the procedure now in the Budget Impoundment Control Act a rescission that is sent to Congress has to be passed by both the House of Representatives and the Senate. But the problem is, Mr. President, that there is no way to get a vote and to have an accountability on the rescissions that the President feels are necessary.

This is not a line-item veto. It is not even a substitute for a line item veto. But it is a substitute for a process that was contemplated during the Budget Impoundment Control Act that needs a little bit of fine tuning.

Under the Budget Impoundment Control Act we dealt with the deferral policy, a one-House veto which has not been stricken down as unconstitutional or a question of the constitutionality because of the Chadha decision.

My amendment, the amendment we offer with the Senator from Nebraska and others, says that when the President sends up a rescission there will be a mandated expedited process for a vote on that rescission and if in fact both Houses, meaning the House of Representatives and the Senate, vote by majority vote to agree with the rescission, then it becomes law.

If either House lacks a majority vote, then it does not become law.

What we have seen over the last couple years is that we have had 327 rescissions in the nature of requests that have been sent to Capitol Hill, totalling about $12 billion.

How many of those rescission messages do you think in the last 2 years we voted on? The answer to that is zero. There have not been rescissions coming before Congress because there is no expedited process and they simply come up here and they lay somewhere in the committee structure.

We all know what the situation is with the deficit and the national debt. We have heard articulate statements by Senators on both sides of the aisle lamenting the fact of this huge Federal deficit, the national debt, that is approaching over $2 trillion; the Federal budget deficit is $230 billion.

I can guarantee, Mr. President, that this amendment, if in fact adopted, will not only help the budget process but will have a positive impact on the deficit. There is no doubt that this is a budget saver, that this will not increase the budget deficit. There is absolutely no way that could happen.

I know there are some concerns about going back into perhaps doing something with the Budget Impoundment Control Act. But we have had a court case that has determined the deferral process of questionable constitutionality. We do have a budget deficit problem. We do have a situation where we legislated by continuing resolution year in and year out. What we have really come to, Mr. President, in my opinion is that we are in fact spending money in many cases with only a minority support.

And the very essence of this bill and this amendment is that you are going to continue to have the spending but you are going to have a spending assuming that there is a majority support in both the House of Representatives and the Senate for it.

But when we lop everything in in a continuing resolution or whatever it may be, we tuck this in here and tuck that in there, the President may like 80 percent of it and 20 percent he does not like, we are giving him the opportunity to send that recission measure back up to the Hill within a 3-day period of time and then within 10 days after that Congress will have to vote on it. If they want to spend the money they will spend the money. It does not take two-thirds to override it. It only takes a majority vote, a very simple direct process, Mr. President.

You could say that this amendment is in the nature of a porkbuster amendment because I am sure that is exactly what the President or any President is going to use it for unnecessary expenditures. He is going to send it back up to Congress and say "Really, if you want to spend it," and I would imagine that many of the rescission measures we would not have any idea what the spending was in the first place, and all of a sudden then we will be confronted and look at that rescission measure and make an intelligent judgment. If we want him to spend it, we say, "Yes, spend it." If we do not we say, "No."

At least you are going to get it before Congress and going to have an opportunity, Mr. President, to not just have these rescissions kicked in the waste can. You are going to have an opportunity to be able to vote up or down on the rescission measures.

Mr. President, this is a necessary amendment to address, I believe, a procedural problem that we do have with the whole budget process.

Rescission was put in there for a very good means, rescission to give the President the opportunity to say, "Look, I do not really want to spend this money".

But what happened in reality is, though, rescission measures are just basically and totally ignored, 327 in the last 2 years, and not one of them, Mr. President, has come before this body for a vote; $12 billion of rescission measures and yet not one has been taken up.

I think that is a very, very sad commentary, and I believe that the essence of this amendment goes in the direction that it will have a positive impact on the budget deficit. It will work to help reduce this budget deficit. It will help to eradicate the problem that we have in not being able to address some of these spending measures.

So I hope the full Senate understands the nature of this amendment. The amendment is very simple and straightforward dealing with increasing the rescission authority of the process that we presently have. It is a minor adjustment to the Budget Control Impoundment Act that was written in 1975 and 1976. But it is a modest amendment.

I think in contemporary times in lieu of the court decision with Chadha, in lieu of the deferral issue that has come before the administration and Congress, as we know right now the President and the administration from time to time has opted for a policy that defers, so they now have agreement with Congress that they are not going to do that any more.

They can get around it. They do not have to deal with the policy deferrals any more. You will have the tool of rescission in getting a vote on that. We could settle this once and for all.

I believe this goes in the spirit and the direction of budget reconciliation that tries to reduce the budget deficit. That is a modest attempt to try to adjust the procedure.

So often we ought to and particularly this time and this era give as many

71-059 O-87-40 (Pt. 17)

powers as we possibly can and as many procedures that are favorable to reducing the budget deficit. So often we create procedures and processes and things of that sort that lend to a bias toward increasing spending and we have seen that accommodate over the past couple decades.

We have seen the institutional process work in a bias in favor of more spending. This will work in the opposite direction. It will work in the opposite direction. It will work in a direction where the process itself will be biased against Federal spending. It will institute a procedure that will sit there and have truth in lending or truth in reporting as far as budget deficits are concerned, because the President will be able to send these messages up to Congress and say, "I don't want to spend this money" and Congress is going to have to make that decision whether they want to spend it or they do not want to spend it.

Right now I dare say we do, in fact, have a situation where you have a minority forcing spending and this simply says if you are going to spend it let us at least get a majority vote.

That is what this amendment calls for.

Mr. President, I reserve the remainder of my time.

The PRESIDING OFFICER. Who yields time?

Mr. QUAYLE. Mr. President, I yield 5 minutes to the Senator from Nebraska.

The PRESIDING OFFICER. The Senator from Nebraska is recognized for 5 minutes.

Mr. EXON. Mr. President, I thank my colleague and I thank the Chair.

Mr. President, I am pleased to join my good friend from Indiana in offering an innovative proposal which has come to be called the "pork buster" amendment. Since we are here wrestling with the tremendous deficit problem and the necessity to cut expenditures of Government, there could not be anything that is more timely or more necessary than this amendment. Our amendment improves the Presidential rescission authority and puts the brakes on wasteful Federal spending.

The amendment is simple. Under our legislation, once the President signs an appropriations bill, he must, Mr. President, in 3 days, send the Congress his line-item rescissions. The Appropriations Committees then have 5 days to consider the request; determine if the President complied with the act; and make their recommendation to the full Congress. At the end of those 5 days, the rescission request is reported to each House of Congress. Three days after the request has been on the calendar, any Member can request that it be called up for consideration. The rescission request is unamendable and debate is limited to 4 hours.

This procedure guarantees an up or down vote on Presidential line-item rescission requests within 10 days.

This body has voted for appropriations bills containing unwise or wasteful spending provisions, and we all know it. Many of these provisions, popularly referred to as pork, would not garner sufficient congressional or Presidential support if forced to stand alone.

The old-fashioned pork barrel politics have frustrated the efforts of those of us who are seriously interested in reducing Federal deficits.

The Quayle-Exon amendment would simply allow the President to send pork barrel legislation back to the Congress for additional review. However, unlike the line-item veto, the outcome is not prejudged. The President's request can be rejected with a simple majority. If no Member calls for a vote on a line-item rescission within 10 days, the privileged nature of the rescission request is extinguished.

Mr. President, the existing rescission authority in the Budget Act has been of little use in reducing the deficit. Of the 227 rescission requests the President has sent to the Congress in the last 3 years, not one has received a Senate vote.

The Quayle-Exon proposal is different from existing rescission authority in two key ways. It offers an expedited procedure and it requires congressional and Presidential accountability.

As we all know, the Congress frequently sends the President "Christmas tree" appropriations bills often under difficult time restraints. The Quayle-Exon amendment simply allows the President to temporarily remove a few "ornaments" from the "Christmas tree" and ask the Congress if it really believes that the American people can afford a particular piece of tinsel.

In this era of $220 billion deficits and accumulated national debts which exceed $2 trillion, the American taxpayer can no longer afford pork barrel politics. I urge the adoption of this amendment.

Mr. President, I reserve the remainder of my time.

The PRESIDING OFFICER. Who yields time? Time is controlled on one side by the Senator from New Mexico and on the other side by the Senator from Indiana.

Mr. DOMENICI. Mr. President, how much time does the Senator from Indiana have remaining?

The PRESIDING OFFICER. The Senator from Indiana has 8 minutes remaining.

Mr. DOMENICI. How much time does the Senator from Florida desire at this time?

Mr. CHILES. I desire about 2 minutes.

Mr. DOMENICI. I yield 2 minutes to the Senator from Florida.

The PRESIDING OFFICER. The Senator from Florida is recognized.

Mr. CHILES. Mr. President, I am going to be very brief on this. I know that so many Senators have amendments and we are running out of time.

I would say that this is the prime reason we have the Byrd amendment, and I am going to raise a point of order on this so that it will take 60 votes. This is a major piece of legislation.

We spend an awful lot of time on this floor talking about line-term vetoes and talking about amendments to the debt ceiling. And here on this piece of legislation we are going to put a major, major change on here and just run it through on that kind of basis. That is not what the Reconciliation Act was all about.

We debated for hours and hours, when we were in the Budget Committee—no, not the Budget Committee, the Committee on Budget Affairs—what the Budget Act would look like, how a rescission would be handled, how an impoundment would be handled, what the different authority would be. We have been through the Nixon era of seeing the kind of impoundments that we had and we were not able to do anything.

Now we are going to come out here on a reconciliation bill and make a major change like this. There is no way the body should adopt this. This is why we have the germaneness amendment, the Byrd amendment. This certainly ought to be turned down. We should not be discussing the merits now.

What committee should this be discussed in? Three or four—Government Affairs; it ought to be discussed in the Budget Committee. We are talking about whether we are going to change the Budget Act or not. This is a major, major change and it should not be here.

The PRESIDING OFFICER. Who yields time?

Mr. QUAYLE. I yield myself 3 minutes.

The PRESIDING OFFICER. The Senator is recognized for 3 minutes.

Mr. QUAYLE. Mr. President, I might point out, we just waived the germaneness rule on a previous amendment that was far more comprehensive than this amendment, 10 times more comprehensive. So I do not believe that this body should be reluctant to waive the germaneness rule on this amendment that does something in a very modest way.

We have debated time and again the procedure in the budget process around here. Many of us have tried to institutionalize serious reforms. We have not gotten very far. We get a

hearing every once in a while, but we have not gotten very far.

So, therefore, we are relegated to vehicles like this. This is a vehicle and it is certainly compatible and in the spirit of budget reconciliation, because this amendment, Mr. President, will save the taxpayers money. This amendment will have a positive impact on reducing the budget deficit.

Now, here is the conclusion and the result of adopting this amendment: In order for this proposal to be enacted, or when this proposal would be enacted, what we are saying is that the President and a majority of both Houses of Congress must agree to spend the money. Wow. That is really a very serious change in the way we do things.

Let me repeat that. This amendment will require the President and a majority of the Senate and a majority of the House of Representatives to agree to spend money.

Now, I would imagine a lot of people will say: "Well, shouldn't that be the process?" And I would say, "Yes."

But, unfortunately, the way that we do things around here in such a hurried-up fashion, the rescission measure has absolutely no bearing in fact. Those measures are simply discarded once they come here.

The only thing we are doing is to guarantee a right, mandate a vote on this. So I do not think it is too much to ask this body to do when they spend the taxpayers' money. And they ought to think about this when they are voting. When they are spending the money of John Jones and Susie Smith out there, a majority of the House and a majority of the Senate and the President ought to agree upon that. Now, that is not too much, in my opinion, to ask this body to agree upon tonight.

I yield such time as the Senator from Nebraska desires.

Mr. EXON. Mr. President, how much time remains on this side?

The PRESIDING OFFICER. The proponents of the amendment have 5 minutes and 10 seconds remaining.

Mr. EXON. Mr. President, I thank my friend for yielding. I agree with everything he said.

I am quite surprised at the attitude of the Senator form Florida on this measure. Gramm-Rudman, which is what this is all about, never went to a committee and was never considered by any committee. Did anyone in the United States think that was not a major piece of legislation?

This is not a major piece of legislation. All this is doing is fine-tuning a piece of legislation that we already have on the books.

The President already has, Mr. President—and every person in the Senate that is going to vote on this should understand—the President already has the authority to send back pork barrel items for rescission. The problem with that bill is that it does not require us to vote up or down.

All that the Quayle-Exon amendment does—and I suspect it would not need a lot of study. I think that is not a decent argument against this at all. All that we are saying is that when the President sends back a rescission, under the Quayle-Exon amendment, we have to vote up or down on it. And, by a simple majority, it can go either way.

I reserve the remainder of our time.

Mr. HATFIELD. Mr. President, will the Senator yield?

Mr. DOMENICI. I yield 3 minutes to the distinguished chairman of the Appropriations Committee.

The PRESIDING OFFICER. The Senator from Oregon is recognized.

Mr. HATFIELD. Mr. President, I am concerned that we put this whole matter into context. We went through an impoundment piece of legislation that brought forth all kinds of difficulty between the executive branch and the legislative branch when President Nixon was the President. Out of all of that background evolved the rescission process that we now have in place.

The Senator from Indiana bemoans the fact that there has been $14 billion of rescission sent up here. I would like to ask the Senator from Indiana, has the Senator from Indiana ever used the procedure to bring that matter to the floor? There is in place today a procedure that any Senator—the Senator from Nebraska, if he sees a pork barrel rescission; and let me inform the Senator from Nebraska, those rescissions involve nutrition and involve human need programs. They involve certainly not water projects of the West, which is so prone to be identified as pork barrel projects.

Those $14 billion, we have appropriated that many dollars in the water projects that are called pork barrel.

Let us bear in mind that this administration has a very low priority on some of the issues and programs that this Senate has a very high priority on. And so to say that somehow this is a place where it dead-ends in the Appropriations Committee is not true.

Any Senator can submit a resolution to support a rescission. And the Senate Appropriations Committee, if it fails to act on that resolution, is discharged in 25 days and it comes directly to the calendar. You have that procedure in place now.

If we are going to move beyond that impoundment history and rescission history, let us move it in a policy manner with an authorizing committee and some hearings and judge this kind of imbalance we are going to create between the executive and legislative branches of government. This is not the place to do it. I am willing to go and debate the issue at any time on the whole action of rescission and the action between the House and the Senate and the executive branch. But this is not the place to do it at this hour of night.

I am very hopeful that the Senate will turn it down.

The PRESIDING OFFICER. Who yields time?

Mr. DOMENICI. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator has 6 minutes remaining.

Mr. DOMENICI. I just want to yield myself 1 minute and I want to say something to the Senator from Indiana.

I want to say to Senator QUAYLE, you said something in your argument that since the Senate waived the germaneness rule on the major amendment, the Domenici-Chiles amendment, that they ought to waive it on this. I was not going to say very much, but I do not think that is a fair statement. I think this waiver that you are seeking of the germaneness really ought to address the issue of whether you want to put a form of the rescission law of the land on reconciliation.

Yes; this point of how many dollars, how many provisions the amendment of Domenici-Chiles which we waived germaneness on by 80-some votes, all of those are either tax reform, revenue raisers, or cut the budget. This is the substantive law of the country. I wanted to distinguish it for you.

Mr. QUAYLE. Will the Senator yield?

Mr. DOMENICI. I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. QUAYLE. How much time have I remaining?

The PRESIDING OFFICER. Three minutes and 42 seconds.

Mr. QUAYLE. I yield myself such time as I may consume.

Let me address the points of the Senator from New Mexico. What I was responding to was the assertion of the Senator from Florida that this was too major an issue to waive germaneness. I said if that is the case, we just waived germaneness on a more major issue than in this particular amendment. That was the point of reference which the Senator from Indiana made.

The Senator from Oregon, the chairman of the Appropriations Committee, points out this discharge procedure that is available. He is absolutely correct; that is available. I believe that it certainly goes to prove my point. We do not discharge committees around here, even though it is available, and we do not bring rescission measures before the Senate, either. Therefore, I think that the present rescission process is fundamentally flawed, that it needs to be improved upon. Again, the only thing that I am asking this Senate to go along with is to agree

with the principle that the President of the United States and a majority of the House and a majority of the Senate must agree on spending money of the American taxpayers. That is what we are asking. That is all this amendment does. I dare say that we do need to improve upon the rescission process. It has not worked, it is broken, and it needs to be fixed.

I yield the remainder of my time to the Senator from Nebraska.

Mr. EXON. Mr. President, let me be brief. I appreciate the remarks of the distinguished chairman of the Appropriations Committee. What this amendment of ours does is to streamline that procedure, to speed it up.

Under the present procedure, there are all kinds of ways that that Presidential rescission can be pigeonholed somewhere along the line so that the whole body never gets to vote on it.

The Quayle-Exon amendment simply says that we are going to vote up or down, for or against it, and if we want to by majority vote pass it, then it stands.

This is a streamlining measure. It does not make any direct major change in the process that we have now except it forces us to take a stand on every rescission that the President makes.

I yield the remainder of my time back to the Senator from Indiana.

Mr. CHAFEE. Will the Senator yield for a question?

Mr. QUAYLE. I am glad to yield for a question.

Mr. CHAFEE. As I understand the present system, when a rescission order comes up, it goes to the Appropriations Committee. If a Senator asks for a vote on that, the Appropriations Committee is discharged from that in 5 days. It then comes to the calendar. They you have to go through the procedure of calling it up from the calendar. In other words, you have to proceed by motion to get it off the calendar.

What your procedure would do would say that every rescission order would automatically come before us for a vote in 5 days.

Mr. QUAYLE. Ten days.

Mr. CHAFEE. So we are liable to be having a host of rescission orders flow through here, are we not?

Mr. QUAYLE. No. I think what would happen is that the President on each appropriations bill would have maybe one or two and we could limit that, if that is a concern of the Senator from Rhode Island.

The PRESIDING OFFICER. The time has expired.

Mr. QUAYLE. I move to waive the germaneness rule under section 305 pursuant to section 904 and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

Mr. DOMENICI. A parliamentary inquiry, Mr. President. I do not believe I yielded back my time.

The PRESIDING OFFICER. The Senator is correct, he has not yielded back his time. The motion is premature.

The Senator from New Mexico.

Mr. DOMENICI. I believe it is premature and I make a point of order against his motion.

The PRESIDING OFFICER. If the Senator seeks recognition, he will be recognized. He has time remaining.

The Senator from New Mexico.

Mr. DOMENICI. Let me say to my friend from Indiana I wonder if you really think that the Senate ought to adopt this amendment. I think we might have 400 or 500 rescission votes. You can talk on my time for a minute. How are we going to do that? If the President takes a bill and goes through it and picks out the pieces and sends them over here, it is automatic. As I understand, every time that happens you will have a vote.

Mr. QUAYLE. If the Senator will yield, the President would have the authority to put it into one package, as many rescission proposals as he wanted to, so far as line items. He could have just one per each appropriations bill. If he wants to have two, he could have two. As I said, if that is a concern to the Senator from New Mexico, I would be happy to entertain my kind of modification that would limit the number of rescissions. I do not believe that is the major problem. We looked at it. We do not have the limitation in there. But neither do we have a limitation that each rescission is by line item. He can put all sorts of line items in one rescission measure and, therefore, we would not spend all our time voting. I do not want that to happen, either.

The PRESIDING OFFICER. The Senator from New Mexico has the floor.

Mr. DOMENICI. Does the Senator want to speak in opposition?

Mr. BYRD. Yes.

Mr. DOMENICI. I yield the remainder of my time to the distinguished minority leader in opposition to the amendment.

Mr. BYRD. How much time remains?

The PRESIDING OFFICER. Two minutes and 25 seconds.

Mr. BYRD. Mr. President, this is a back-door way of getting a line item veto and it is worse than a line item veto. I say that with all respect to the authors of the amendment.

The President will send up a rescission. He may line 100 items in it, he may put 200 items in it, he may include items that are vitally important to the State of Louisiana, to the State of Maryland, the State of Nevada, the State of Nebraska, or West Virginia, items that are important to a Member's State, items that in that Member's judgment are very critical; yet who may, for one reason or another, feel compelled to vote for the rescission.

Let us say the President may say to Senator BYRD, "Senator BYRD, I want your vote on the MX. How do you stand?"

"Well, Mr. President, I will not vote for the MX."

He may say, "Well, Senator BYRD, I am going to be sending up a rescission measure in a few days and in that rescission measure I am going to put this, this, this, and this."

And "This and this and this and this" may be, to some Members, vitally important to their own States.

We may call it blackmail or we may not. That would not be the intention of the President. But that kind of pressure on a Member may be the kind of pressure he cannot resist if he hopes to save projects or funds which are so vital to him and his State, such as funding for emergency relief. That kind of pressure on any Member, Democrat or Republican, of the House or Senate, can be made and made effectively under this amendment.

This is worse than a line-item veto. That rescission measure, when it hits the floor, cannot be amended under this proposal. There is no amendment that can be offered. Under a line-item veto, at least the Appropriations Committee can so word the provisions that the President would find it exceedingly difficult to line item.

Mr. CHILES. I raise the point of order that the amendment is not germane.

Mr. BYRD. I ask unanimous consent to proceed for 1 minute.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. BYRD. Senators had better know what they are doing on this amendment. This amendment was not brought before committees. There have been no hearings on it. It is far reaching. I daresay Senators will rue the day they voted for this amendment because if there is anything that we can put into the hands of a President that can enable him to bring undue pressure on Members and force them to vote his way, give him this. I would rather give him a line-item veto than give him this. When this rescission is brought on the floor you cannot amend it. It has a beartrap time limitation on it. Let the President call the Senator from Texas and Arkansas down and have him say, "How are you going to vote?" And they say, "No." The President would say, "I have a rescission coming up in a few days and so you better think it over."

Mr. President, Senators had better think this amendment over.

Mr. CHILES. I make the point of order that the amendment is not germane.

Mr. HATFIELD. Mr. President, I oppose this amendment. Using the typical "fiscal responsibility" jargon, this amendment would seriously erode congressional authority over the budget while further constipating an already sluggish and inefficient budget process.

What this amendment does is reverse the presumption against rescission messages. Under current law, funds identified in a rescission message must be spent unless Congress specifically approves the rescission within 45 days of its submission. This amendment would place the burden on Congress to act affirmatively to disapprove the rescission message.

In other words, we would be required to do our work twice. Mr. President, if our budget and appropriations process is to maintain its integrity as a representative process, it must be allowed to work completely. The budget resolutions and appropriation bills agreed to by the Senate represent the accommodation of differing priorities and needs. These bills are the product of great effort and well-reasoned debate. If the budget package differs from the President's priorities, so be it; Congress as a representative body has worked its will.

Rescissions and deferrals, intended to help fine tune the budget, are now being used by this administration as continued sniper fire at a budget already agreed to by Congress. The President is not compelled to submit just one message but may deliver separate rescission messages, all of which must be incorporated into separate bills and reported to the Senate. The process is inefficient and time-consuming enough as it is. The passage of Gramm-Rudman has made a cumbersome process more so. So why adopt a measure which will require a revisitation by this body of the same budgetary issues, the same spending decisions, that have been previously decided?

At best, this amendment needlessly would increase the workload of the Senate. At worst, the integrity of the congressional budget process would be weakened by altering the constitutional political power balance between the congressional and executive branches of Government. I urge my colleagues to vote this amendment down.

□ 1850

Mr. QUAYLE. Mr. President, I move to waive germaneness under section 305, pursuant to section 904.

The PRESIDING OFFICER. If the Senator will suspend, the Chair will state the situation.

The Senator from Florida makes the point of order that the amendment is not germane.

Mr. QUAYLE. Mr. President, I move to waive the germaneness requirement under section 305 pursuant to section 904. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. Do the Senators yield back their time on the motion to waive? All time is yielded back.

The question is on agreeing to the motion of the Senator from Indiana. The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN] and the Senator from Arizona [Mr. GOLDWATER] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Hawaii [Mr. MATSUNAGA] and the Senator from Oklahoma [Mr. BOREN] are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 34, nays 62—as follows:

[Rollcall Vote No. 270 Leg.]

YEAS—34

Armstrong	Hecht	Roth
Boschwitz	Helms	Rudman
Broyhill	Humphrey	Simon
Chafee	Kasten	Stevens
Danforth	Kennedy	Symms
Denton	Laxalt	Trible
Dixon	Lugar	Wallop
Dole	Mattingly	Warner
Exon	McConnell	Wilson
Gramm	Nickles	Zorinsky
Grassley	Pressler	
Hawkins	Quayle	

NAYS—62

Abdnor	Ford	Melcher
Andrews	Glenn	Metzenbaum
Baucus	Gore	Mitchell
Bentsen	Gorton	Moynihan
Biden	Harkin	Murkowski
Bingaman	Hart	Nunn
Bradley	Hatch	Packwood
Bumpers	Hatfield	Pell
Burdick	Heflin	Proxmire
Byrd	Heinz	Pryor
Chiles	Hollings	Riegle
Cochran	Inouye	Rockefeller
Cohen	Johnston	Sarbanes
Cranston	Kassebaum	Sasser

Dodd	Leahy	Stafford
Domenici	Levin	Stennis
Durenberger	Long	Thurmond
Eagleton	Mathias	Weicker
Evans	McClure	

NOT VOTING—4

Boren	Goldwater
Garn	Matsunaga

□ 1900

The PRESIDING OFFICER. The motion to waive is rejected. The point of order is well taken. The amendment falls.

Mr. DOMENICI. Mr. President, I move to reconsider the vote by which the motion was rejected.

Mr. CHILES. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2854

(Purpose: To provide for the lease of the Metropolitan Washington Airports)

Mr. TRIBLE. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from Virginia [Mr. TRIBLE], for himself and Mr. WARNER, proposes an amendment numbered 2854.

Mr. TRIBLE. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the amendment, add the following new title:

TITLE X—METROPOLITAN WASHINGTON AIRPORTS

SEC. 1001. SHORT TITLE AND TABLE OF CONTENTS.

This title may be cited as the "Metropolitan Washington Airports Act of 1986".

TABLE OF CONTENTS

Sec. 1001. Short title and table of contents.
Sec. 1002. Findings.
Sec. 1003. Purpose.
Sec. 1004. Definitions.
Sec. 1005. Lease of Metropolitan Washington Airports.
Sec. 1006. Capital improvements, construction, and rehabilitation.
Sec. 1007. Airports Authority.
Sec. 1008. Federal employees at the Metropolitan Washington Airports.
Sec. 1009. Relationship to and effect of other laws.
Sec. 1010. Authority to negotiate extension of lease.
Sec. 1011. Separability.
Sec. 1012. Nonstop flights.

SEC. 1002. FINDINGS.

The Congress finds that—

(1) the two federally owned airports in the metropolitan area of Washington, District of Columbia, constitute an important and growing part of the commerce, transportation, and economic patterns of the Commonwealth of Virginia, the District of Columbia, and the surrounding region;

(2) Baltimore/Washington International Airport, owned and operated by the State of Maryland, is an air transportation facility that provides service to the greater Metropolitan Washington region together with the two federally owned airports, and timely Federal-aid grants to Baltimore/Washington International Airport will provide additional capacity to meet the growing air traffic needs and to compete with other airports on a fair basis;

(3) the Federal Government has a continuing but limited interest in the operation of the two federally owned airports, which serve the travel and cargo needs of the entire Metropolitan Washington region as well as the District of Columbia as the national seat of government;

(4) operation of the Metropolitan Washington Airports by an independent local agency will facilitate timely improvements at both airports to meet the growing demand of interstate air transportation occasioned by the Airline Deregulation Act of 1978 (Public Law 95-504; 92 Stat. 1705);

(5) all other major air carrier airports in the United States are operated by public entities at the State, regional, or local level;

(6) any change in status of the two airports must take into account the interest of nearby communities, the traveling public, air carriers, general aviation, airport employees, and other interested groups, as well as the interests of the Federal Government and State governments involved;

(7) in recognition of the limited need for a Federal role in the management of these airports and the growing local interest, the Secretary has recommended a transfer of authority from the Federal to the local/State level that is consistent with the management of major airports elsewhere in the Nation;

(8) an operating authority with representation from local jurisdictions, similar to authorities at all major airports in the United States, will improve communications with local officials and concerned residents regarding noise at the Metropolitan Washington Airports;

(9) a commission of congressional, State, and local officials and aviation representatives has recommended to the Secretary that transfer of the federally owned airports be as a unit to an independent authority to be created by the Commonwealth of Virginia and the District of Columbia; and

(10) the Federal interest in these airports can be provided through a lease mechanism which provides for local control and operation.

SEC. 1003. PURPOSE.

(a) IN GENERAL.—It is therefore declared to be the purpose of the Congress in this title to authorize the transfer of operating responsibility under long-term lease of the two Metropolitan Washington Airport properties as a unit, including access highways and other related facilities, to a properly constituted independent airport authority created by the Commonwealth of Virginia and the District of Columbia, in order to achieve local control over the management, operation, and development of these important transportation assets.

(b) INCLUSION OF BWI NOT PRECLUDED.—Nothing in this title shall be construed to prohibit the Airports Authority and the State of Maryland from entering into an agreement whereby Baltimore/Washington International Airport may be made part of a regional airports authority, subject to terms and conditions agreed to by the Airports Authority, the Secretary, the Commonwealth of Virginia, the District of Columbia, and the State of Maryland.

SEC. 1004. DEFINITIONS.

In this title—

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Federal Aviation Administration.

(2) AIRPORTS AUTHORITY.—The term "Airports Authority" means the Metropolitan Washington Airports Authority, a public body to be created by the Commonwealth of Virginia and the District of Columbia consistent with the requirements of section 1007.

(3) EMPLOYEES.—The term "employees" means all permanent Federal Aviation Administration personnel employed on the date the lease under section 1005 takes effect by the Metropolitan Washington Airports, an organization within the Federal Aviation Administration.

(4) METROPOLITAN WASHINGTON AIRPORTS.—The term "Metropolitan Washington Airports" means Washington National Airport and Washington Dulles International Airport.

(5) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

(6) WASHINGTON DULLES INTERNATIONAL AIRPORT.—The term "Washington Dulles International Airport" means the airport constructed under the Act entitled "An Act to authorize the construction, protection, operation, and maintenance of a public airport in or in the vicinity of the District of Columbia", approved September 7, 1950 (64 Stat. 770), and includes the Dulles Airport Access Highway and Right-of-way, including the extension between the Interstate Routes I-495 and I-66.

(7) WASHINGTON NATIONAL AIRPORT.—The term "Washington National Airport" means the airport described in the Act entitled "An Act to provide for the administration of the Washington National Airport, and for other purposes", approved June 29, 1940 (54 Stat. 686).

SEC. 1005. LEASE OF METROPOLITAN WASHINGTON AIRPORTS.

(a) AUTHORITY TO ENTER INTO LEASE.—The Secretary is directed to enter into a lease of the Metropolitan Washington Airports with the Airports Authority for a 50-year term and to enter into any related agreement necessary for the transfer of authority and property to the Airports Authority within nine months after the date of the enactment of this title.

(b) PAYMENTS.—

(1) LEASE PAYMENTS.—The lease shall provide for the Airports Authority to pay to the general fund of the Treasury $150,000,000 over the term of the lease, in equal annual installments.

(2) RETIREMENT OBLIGATIONS.—

(A) DISCONTINUED SERVICE.—Not later than one year after the lease takes effect, the Airports Authority shall pay to the Treasury of the United States, to be deposited to the credit of the Civil Service Retirement and Disability Fund, an amount determined by the Office of Personnel Management to represent the actual added costs incurred by the Fund due to discontinued service retirement under section 8336(d)(1) of title 5, United States Code, of employees who elect not to transfer to the Airports Authority.

(B) UNFUNDED LIABILITY.—Not later than two months after the lease takes effect, the Airports Authority shall pay to the Treasury of the United States, to be deposited to the credit of the Civil Service Retirement and Disability Fund, an amount determined by the Office of Personnel Management to represent the present value of the difference between (i) the future cost of benefits payable from the Fund and due the employees covered under section 1008(e) of this title that are attributable to the period of employment following the date the lease takes effect, and (ii) the contributions made by the employees and the Airports Authority under section 1008(e). In determining the amount due, the Office of Personnel Management shall take into consideration the actual interest such amount can be expected to earn when invested in the Treasury of the United States.

(c) MINIMUM TERMS AND CONDITIONS.—The Airports Authority shall agree, at a minimum, to the following conditions and requirements in the lease:

(1) OPERATION OF AIRPORTS AS A UNIT.—The Airports Authority shall operate, maintain, protect, promote, and develop the Metropolitan Washington Airports as a unit and as primary airports serving the Metropolitan Washington area.

(2) AIRPORT PURPOSES.—The real property constituting the Metropolitan Washington Airports shall, during the period of the lease, be used only for airport purposes. For the purposes of this paragraph, the term "airport purposes" means a use of property interests (other than a sale) for aviation business or activities, or for activities necessary or appropriate to serve passengers or cargo in air commerce, or for nonprofit, public use facilities. If the Secretary determines that any portion of the real property leased to the Airports Authority pursuant to this Act is used for other than airport purposes, the Secretary shall (A) direct that appropriate measures be taken by the Airports Authority to bring the use of such portion of real property in conformity with airport purposes, and (B) retake possession of such portion of real property if the Airports Authority fails to bring the use of such portion into a conforming use within a reasonable period of time, as determined by the Secretary.

(3) AIP REQUIREMENTS.—The Airports Authority shall be subject to the requirements of section 511(a) of the Airport and Airway Improvement Act of 1982 and the assurances and conditions required of grant recipients under such Act as of the date the lease takes effect. Notwithstanding section 511(a)(12) of such Act, all revenues generated by the Metropolitan Washington Airports shall be expended for the capital and operating costs of such airports.

(4) CONTRACTS.—In acquiring by contract supplies or services for an amount estimated to be in excess of $200,000, or awarding concession contracts, the Airports Authority shall obtain, to the maximum extent practicable, full and open competition through the use of published competitive procedures. By a vote of seven members, the Airports Authority may grant exceptions to the requirements of this paragraph.

(5) CONTINUATION OF REGULATIONS.—

(A) IN GENERAL.—Except as provided in subparagraph (B), all regulations of the Metropolitan Washington Airports (14 C.F.R. part 159) shall become regulations of the Airports Authority on the date the lease takes effect and shall remain in effect until modified or revoked by the Airports Authority in accordance with procedures of the Airports Authority.

(B) EXCEPTIONS.—The following regulations shall cease to be in effect on the date the lease takes effect:

(i) section 159.59(a) of title 14, Code of Federal Regulations (relating to new-technology aircraft); and

(ii) section 159.191 of title 14, Code of Federal Regulations (relating to violations of Federal Aviation Administration regulations as Federal misdemeanors).

(C) OPERATIONS.—The Airports Authority may not increase or decrease the number of instrument flight rule takeoffs and landings authorized by the High Density Rule (14 C.F.R. 93.121 et seq.) at Washington National Airport on the date of the enactment of this Act and may not impose a limitation after the date the lease takes effect on the number of passengers taking off or landing at Washington National Airport.

(6) TRANSFER OF RIGHTS, LIABILITIES, AND OBLIGATIONS.—

(A) IN GENERAL.—Except as specified in subparagraph (B) of this paragraph, the Airports Authority shall assume all rights, liabilities, and obligations (tangible and incorporeal, present and executory) of the

Metropolitan Washington Airports on the date the lease takes effect, including leases, permits, licenses, contracts, agreements, claims, tariffs, accounts receivable, accounts payable, and litigation relating to such rights and obligations, regardless whether judgment has been entered, damages awarded, or appeal taken. Before the date the lease takes effect, the Secretary shall also assure that the Airports Authority has agreed to cooperate in allowing representatives of the Attorney General and the Secretary adequate access to employees and records when needed for the performance of functions related to the period before the effectiveness of the lease. The Airports Authority shall assume responsibility for the Federal Aviation Administration's Master Plans for the Metropolitan Washington Airports.

(B) EXCEPTIONS.—The procedure for disputes resolution contained in any contract entered into on behalf of the United States before the date the lease takes effect shall continue to govern the performance of the contract unless otherwise agreed to by the parties to the contract. Claims for monetary damages founded in tort, by or against the United States as the owner and operator of the Metropolitan Washington Airports, arising before the date the lease takes effect shall be adjudicated as if the lease had not been entered into.

(C) PAYMENTS INTO EMPLOYEES' COMPENSATION FUND.—The Federal Aviation Administration shall remain responsible for reimbursing the Employees' Compensation Fund, pursuant to section 8147 of title 5, United States Code, for compensation paid or payable after the date the lease takes effect in accordance with chapter 81 of title 5, United States Code, with regard to any injury, disability, or death due to events arising before such date, whether or not a claim has been filed or is final on such date.

(D) COLLECTIVE BARGAINING RIGHTS.—The Airports Authority shall continue all collective bargaining rights enjoyed before the date the lease takes effect by employees of the Metropolitan Washington Airports.

(7) AUDITS.—The Comptroller General of the United States may conduct periodic audits of the activities and transactions of the Airports Authority in accordance with generally accepted management principles, and under such rules and regulations as may be prescribed by the Comptroller General. Any such audit shall be conducted at such place or places as the Comptroller General may deem appropriate. All books, accounts, records, reports, files, papers, and property of the Airports Authority shall remain in possession and custody of the Airports Authority.

(8) CODE OF ETHICS.—The Airports Authority shall develop a code of ethics and financial disclosure in order to assure the integrity of all decisions made by the board and its employees.

(9) RESTRICTION ON USE OF CERTAIN REVENUES.—Notwithstanding any other provision of law, no landing fee imposed for operating an aircraft or revenues derived from parking automobiles—

(A) at Washington Dulles International Airport may be used for maintenance or operating expenses (excluding debt service, depreciation, and amortization) at Washington National Airport; or

(B) at Washington National Airport may be used for maintenance or operating expenses (excluding debt service, depreciation, and amortization) at Washington Dulles International Airport.

(10) GENERAL AVIATION FEES.—The Airports Authority shall compute the fees and charges for landing general aviation aircraft at the Metropolitan Washington Airports on the same basis as the landing fees for air carrier aircraft, except that the Airports Authority may require a minimum landing fee not in excess of the landing fee for aircraft weighing 12,500 pounds.

(11) OTHER TERMS.—The Secretary shall include such other terms and conditions applicable to the parties to the lease as are consistent with and carry out the provisions of this title.

(d) SUBMISSION TO CONGRESS.—The Secretary shall submit the lease entered into under this section to Congress. The lease may not take effect before the passage of (1) 30 days, or (2) 10 days in which either House of Congress is in session, whichever occurs later.

(e) ENFORCEMENT OF LEASE PROVISIONS.—The district courts of the United States shall have jurisdiction to compel the Airports Authority and its officers and employees to comply with the terms of the lease. An action may be brought on behalf of the United States by the Attorney General, or by any aggrieved party.

SEC. 1006. CAPITAL IMPROVEMENTS, CONSTRUCTION, AND REHABILITATION.

(a) IMPROVEMENTS.—It is the sense of the Congress that the Airports Authority should—

(1) pursue the improvement, construction, and rehabilitation of the facilities at Washington Dulles International Airport and Washington National Airport simultaneously; and

(2) to the extent practicable, cause the improvement, construction, and rehabilitation proposed by the Secretary to be completed at both of such Airports within 5 years after the earliest date on which the Airports Authority issues bonds under the authority required by section 1007 of this title for any such improvement, construction, or rehabilitation.

(b) SECRETARY'S ASSISTANCE.—The Secretary shall assist the three airports serving the Washington, D.C., metropolitan area in planning for operational and capital improvements at those airports and shall accelerate consideration of applications for Federal financial assistance by whichever of the three airports is most in need of increasing airside capacity.

SEC. 1007. AIRPORTS AUTHORITY.

(a) POWERS CONFERRED BY VIRGINIA AND THE DISTRICT OF COLUMBIA.—The Airports Authority shall be a public body corporate and politic, having the powers and jurisdiction as are conferred upon it jointly by the legislative authority of the Commonwealth of Virginia and the District of Columbia or by either of the jurisdictions and concurred in by the legislative authority of the other jurisdiction, but at a minimum meeting the requirements of this section.

(b) PURPOSE.—The Airports Authority shall be—

(1) independent of the Commonwealth of Virginia and its local governments, the District of Columbia, and the Federal Government; and

(2) a political subdivision constituted solely to operate and improve both Metropolitan Washington Airports as primary airports serving the Metropolitan Washington area.

(c) GENERAL AUTHORITIES.—The Airports Authority shall be authorized—

(1) to acquire, maintain, improve, operate, protect, and promote the Metropolitan Washington Airports for public purposes;

(2) to issue bonds from time to time in its discretion for public purposes, including the purposes of paying all or any part of the cost of airport improvements, construction, and rehabilitation, and the acquisition of real and personal property, including operating equipment for the airports, which bonds—

(A) shall not constitute a debt of either jurisdiction or a political subdivision thereof; and

(B) may be secured by the Airports Authority's revenues generally, or exclusively from the income and revenues of certain designated projects whether or not they are financed in whole or part from the proceeds of such bonds;

(3) to acquire real and personal property by purchase, lease, transfer, or exchange, and to exercise such powers of eminent domain within the Commonwealth of Virginia as are conferred upon it by the Commonwealth of Virginia;

(4) to levy fees or other charges; and

(5) to make and maintain agreements with employee organizations to the extent that the Federal Aviation Administration is so authorized on the date of enactment of this title.

(d) CONFLICT-OF-INTEREST PROVISIONS.—The Airports Authority shall be subject to a conflict-of-interest provision providing that members of the board and their immediate families may not be employed by or otherwise hold a substantial financial interest in any enterprise that has or is seeking a contract or agreement with the Airports Authority or is an aeronautical, aviation services, or airport services enterprise that otherwise has interests that can be directly affected by the Airports Authority. Exceptions to requirement of the preceding sentence may be made by the official appointing a member at the time the member is appointed, if the financial interest is fully disclosed and so long as the member does not participate in board decisions that directly affect such interest. The Airports Authority shall include in its code developed under section 1005(c)(8) of this title the standards by which members will determine what constitutes a substantial financial interest and the circumstances under which an exception may be granted.

(e) BOARD OF DIRECTORS.—

(1) APPOINTMENT.—The Airports Authority shall be governed by a board of directors of 11 members, as follows:

(A) 5 members shall be appointed by the Governor of Virginia;

(B) three members shall be appointed by the Mayor of the District of Columbia;

(C) two members shall be appointed by the Governor of Maryland; and

(D) one member shall be appointed by the President with the advice and consent of the Senate.

The Chairman shall be appointed from among the members by majority vote of the members and shall serve until replaced by majority vote of the members.

(2) RESTRICTIONS.—Members shall (A) not hold elective or appointive political office, (B) serve without compensation other than for reasonable expenses incident to board functions, and (C) reside within the Washington Standard Metropolitan Statistical Area, except that the member appointed by the President shall not be required to reside in that area.

(3) TERMS.—Members shall be appointed to the board for a term of 6 years, except that of members first appointed—

(A) by the Governor of Virginia, 2 shall be appointed for 4 years and 2 shall be appointed for 2 years;

(B) by the Mayor of the District of Columbia, 1 shall be appointed for 4 years and 1 shall be appointed for 2 years; and

(C) by the Governor of Maryland, 1 shall be appointed for 4 years.

(4) REMOVAL OF PRESIDENTIAL APPOINTEES.—A member of the board appointed by the President shall be subject to removal by the President for cause.

(5) REQUIRED NUMBER OF VOTES.—Seven votes shall be required to approve bond issues and the annual budget.

(f) BOARD OF REVIEW.—

(1) COMPOSITION.—The board of directors shall be subject to review of its actions and to requests, in accordance with this subsection, by a Board of Review, of the Airports Authority, established by the board of directors. The Board of Review shall consist of the following, in their individual capacities, as representatives of users of the Metropolitan Washington Airports:

(A) 4 members of the House of Representatives from a list provided by the Speaker of the House;

(B) 4 members of the Senate from a list provided by the President pro tempore of the Senate; and

(C) one member chosen alternately from members of the House of Representatives and members of the Senate, from a list provided by the Speaker of the House or the President pro tempore of the Senate, respectively.

The members of the Board of Review shall elect a chairman. A member of the House of Representatives or the Senate from Maryland or Virginia and the Delegate from the District of Columbia may not serve on the Board of Review.

(2) TERMS.—Members of the Board of Review appointed under subparagraphs (A) and (B) of paragraph (1) shall be appointed for terms of 6 years, except that of the members first appointed one member under each of subparagraphs (A) and (B) shall be appointed for a term of two years and one member under each of subparagraphs (A) and (B) shall be appointed for a term of four years. Members of the Board of Review appointed under subparagraph (C) shall be appointed for terms of 2 years. A vacancy in the Board shall be filled in the same manner in which the original appointment was made. Any member appointed to fill a vacancy before the expiration of the term for which his or her predecessor was appointed shall be appointed only for the remainder of such term.

(3) PROCEDURES.—The Board of Review shall establish procedures for conducting its business. The procedures may include requirements for a quorum at meetings and for proxy voting. The Board shall meet at least once each year and shall meet at the call of the chairman or 3 members of the Board. Any decision of the Board of Review under paragraph (4) or (5) shall be by a vote of 5 members of the Board.

(4) DISAPPROVAL PROCEDURE.—

(A) SUBMISSION REQUIRED.—An action of the Airports Authority described in subparagraph (B) shall be submitted to the Board of Review at least 30 days (or at least 60 days in the case of the annual budget) before it is to become effective.

(B) ACTIONS AFFECTED.—The following are the actions referred to in subparagraph (A):

(i) the adoption of an annual budget;

(ii) the authorization for the issuance of bonds;

(iii) the adoption, amendment, or repeal of a regulation;

(iv) the adoption or revision of a master plan, including any proposal for land acquisition; and

(v) the appointment of the chief executive officer.

(C) 30-DAY DISAPPROVAL PERIOD.—If the Board of Review does not disapprove an action within 30 days of its submission under this paragraph, the action may take effect. If the Board of Review disapproves any such action, it shall notify the Airports Authority and shall give reasons for the disapproval.

(D) EFFECT OF DISAPPROVAL.—An action disapproved under this paragraph shall not take effect. Unless an annual budget for a fiscal year has taken effect in accordance with this paragraph, the Airports Authority may not obligate or expend any money in such fiscal year, except for (i) debt service on previously authorized obligations, and (ii) obligations and expenditures for previously authorized capital expenditures and routine operating expenses.

(5) REQUEST FOR CONSIDERATION OF OTHER MATTERS.—The Board of Review may request the Airports Authority to consider and vote, or to report, on any matter related to the Metropolitan Washington Airports. Upon receipt of such a request the Airports Authority shall consider and vote, or report, on the matter as promptly as feasible.

(6) PARTICIPATION IN MEETINGS OF AIRPORTS AUTHORITY.—Members of the Board of Review may participate as nonvoting members in meetings of the board of the Airports Authority.

(7) STAFF.—The Board of Review may hire one staff person, to be paid by the Airports Authority. The Airports Authority shall provide such clerical and support staff as the Board may require.

(8) LIABILITY.—A member of the Board of Review shall not be liable in connection with any claim, action, suit, or proceeding arising from service on the Board.

(g) CERTAIN ACTIONS TO BE TAKEN BY REGULATION.—Any action of the Airports Authority changing, or having the effect of changing, the hours of operation of or the type of aircraft serving either of the Metropolitan Washington Airports may be taken only by regulation of the Airports Authority.

(h) LIMITATION ON AUTHORITY.—If the Board of Review established under subsection (f) is unable to carry out its functions under this title by reason of a judicial order, the Airports Authority shall have no authority to perform any of the actions that are required by subsection (f)(4) to be submitted to the Board of Review.

SEC. 1008. FEDERAL EMPLOYEES AT THE METROPOLITAN WASHINGTON AIRPORTS.

(a) EMPLOYEE PROTECTION.—Not later than the date the lease under section 1005 takes effect, the Secretary shall ensure that the Airports Authority has established arrangements to protect the employment interests of employees during the 5-year period beginning on such date. These arrangements shall include provisions—

(1) which ensure that the Airports Authority will adopt labor agreements in accordance with the provisions of subsection (b) of this section;

(2) for the transfer and retention of all employees who agree to transfer to the Airports Authority in their same positions for the 5-year period commencing on the date the lease under section 5 takes effect except in cases of reassignment, separation for cause, resignation, or retirement;

(3) for the payment by the Airports Authority of basic and premium pay to transferred employees, except in cases of separation for cause, resignation, or retirement, for 5 years commencing on the date the lease takes effect at or above the rates of pay in effect for such employees on such date;

(4) for credit during the 5-year period commencing on the date the lease takes effect for accrued annual and sick leave and seniority rights which have been accrued during the period of Federal employment by transferred employees retained by the Airports Authority; and

(5) for an offering of not less than one life insurance and three health insurance programs for transferred employees retained by the Airports Authority during the 5-year period beginning on the date the lease takes effect which are reasonably comparable with respect to employee premium cost and coverage to the Federal health and life insurance programs available to employees on the day before such date.

(b) LABOR AGREEMENTS.—

(1) ADOPTION.—The Airports Authority shall adopt all labor agreements which are in effect on the date the lease under section 1005 takes effect. Such agreements shall continue in effect for the 5-year period commencing on such date, unless the agreement provides for a shorter duration or the parties agree to the contrary before the expiration of that 5-year period. Such agreements shall be renegotiated during the 5-year period, unless the parties agree otherwise. Any labor-management negotiation impasse declared before the date the lease takes effect shall be settled in accordance with chapter 71 of title 5, United States Code.

(2) CONTINUATION.—The arrangements made pursuant to this section shall assure, during the 50-year lease term, the continuation of all collective bargaining rights enjoyed by transferred employees retained by the Airports Authority.

(c) RIGHTS OF TERMINATED EMPLOYEES.—Any transferred employee whose employment with the Airports Authority is terminated during the 5-year period beginning on the date the lease under section 1005 takes effect shall be entitled, as a condition of any lease entered into in accordance with section 1005 of this title, to rights and benefits to be provided by the Airports Authority that are similar to those such employee would have had under Federal law if termination had occurred immediately before such date.

(d) ANNUAL AND SICK LEAVE.—Any employee who transfers to the Airports Authority under this section shall not be entitled to lump-sum payment for unused annual leave under section 5551 of title 5, United States Code, but shall be credited by the Airports Authority with the unused annual leave balance on the date the lease under section 1005 takes effect, along with any unused sick leave balance on such date. During the 5-year period beginning on such date, annual and sick leave shall be earned at the same rates permitted on the day before such date, and observed official holidays shall be the same as those specified in section 6103 of title 5, United States Code.

(e) CIVIL SERVICE RETIREMENT.—Any Federal employee who transfers to the Airports Authority and who on the day before the date the lease under section 1005 takes effect is subject to subchapter III of chapter

83 of title 5, United States Code, or chapter 84 of such title shall, so long as continually employed by the Airports Authority without a break in service, continue to be subject to such subchapter or chapter, as the case may be. Employment by the Airports Authority without a break in continuity of service shall be considered to be employment by the United States Government for purposes of such subchapter and chapter. The Airports Authority shall be the employing agency for purposes of such subchapter and chapter and shall contribute to the Civil Service Retirement and Disability Fund such sums as are required by such subchapter and chapter.

(f) SEPARATED EMPLOYEES.—An employee who does not transfer to the Airports Authority and who does not otherwise remain a Federal employee shall be entitled to all of the rights and benefits available under Federal law for separated employees, except that severance pay shall not be payable to an employee who does not accept an offer of employment from the Airports Authority of work substantially similar to that performed for the Federal Government.

(g) ACCESS TO RECORDS.—The Airports Authority shall allow representatives of the Secretary adequate access to employees and employee records of the Airports Authority when needed for the performance of functions related to the period before the date the lease under section 1005 takes effect. The Secretary shall provide the Airports Authority access to employee records of transferring employees for appropriate purposes.

SEC. 1009. RELATIONSHIP TO AND EFFECT OF OTHER LAWS.

(a) OTHER LAWS.—In order to assure that the Airports Authority has the same proprietary powers and is subject to the same restrictions with respect to Federal law as any other airport except as otherwise provided in this title, during the period that the lease authorized by section 1005 of this title is in effect—

(1) the Metropolitan Washington Airports shall be considered public airports for purposes of the Airport and Airway Improvement Act of 1982 (49 App. U.S.C. 2201 et seq.); and

(2) the Acts entitled "An Act to provide for the administration of the Washington National Airport, and for other purposes", approved June 29, 1940 (54 Stat. 686), "An Act to authorize the construction, protection, operation, and maintenance of a public airport in or in the vicinity of the District of Columbia", approved September 7, 1950 (64 Stat. 770), and "An Act making supplemental appropriations for the support of the Government for the fiscal year ending June 30, 1941, and for other purposes", approved October 9, 1940 (54 Stat. 1030), shall not apply to the operation of the Metropolitan Washington Airports, and the Secretary shall be relieved of all responsibility under those Acts.

(b) INAPPLICABILITY OF CERTAIN LAWS.—The Metropolitan Washington Airports and the Airports Authority shall not be subject to the requirements of any law solely by reason of the retention by the United States of fee simple title to such airports or by reason of the authority of the Board of Review under section 1007(f).

(c) POLICE POWER.—The Commonwealth of Virginia shall have concurrent police power authority over the Metropolitan Washington Airports, and the courts of the Commonwealth of Virginia may exercise jurisdiction over Washington National Airport.

(d) PLANNING.—

(1) IN GENERAL.—The authority of the National Capital Planning Commission under section 5 of the Act of June 6, 1924 (40 U.S.C. 71d) shall not apply to the Airports Authority.

(2) CONSULTATION.—The Airports Authority shall consult—

(A) with the National Capital Planning Commission and the Advisory Council on Historic Preservation before undertaking any major alterations to the exterior of the main terminal at Washington Dulles International Airport, and

(B) with the National Capital Planning Commission before undertaking development that would alter the skyline of Washington National Airport when viewed from the opposing shoreline of the Potomac River or from the George Washington Parkway.

(e) OPERATION LIMITATIONS.—

(1) HIGH DENSITY RULE.—The Administrator may not increase the number of instrument flight rule takeoffs and landings authorized for air carriers by the High Density Rule (14 C.F.R. 93.121 et seq.) at Washington National Airport on the date of the enactment of this title and may not decrease the number of such takeoffs and landings except for reasons of safety.

(2) ANNUAL PASSENGER LIMITATIONS.—The Federal Aviation Administration air traffic regulation entitled "Modification of Allocation: Washington National Airport" (14 C.F.R. 93.124) shall cease to be in effect on the date of the enactment of this title.

SEC. 1010. AUTHORITY TO NEGOTIATE EXTENSION OF LEASE.

The Secretary and the Airports Authority may at any time negotiate an extension of the lease entered into under section 1005(a).

SEC. 1011. SEPARABILITY.

Except as provided in section 1007(h), if any provision of this title or the application thereof to any person or circumstance is held invalid, the remainder of this title and the application of such provision to other persons or circumstances shall not be affected thereby.

SEC. 1012. NONSTOP FLIGHTS.

A person may not operate an aircraft nonstop in air transportation between Washington National Airport and another airport that is more than 1,000 statute miles away from Washington National Airport.

The PRESIDING OFFICER. The Senate will please be in order.

The Senator will suspend until the Senate is in order.

Senators will please take their seats and refrain from conversation. The Senator from Virginia is entitled to be heard in support of his amendment.

Mr. TRIBLE. Mr. President, Senator SIMON and Senator CHAFEE have asked that I yield to them briefly so that they can talk about another matter. They have other responsibilities this evening. Therefore, I yield 4 minutes of my time to Senator CHAFEE.

Mr. DOMENICI. How much time does the Senator need on this amendment, including what he intends to yield?

Mr. TRIBLE. Forty minutes on this side would be ample.

Mr. CHAFEE. Mr. President, would that include 4 minutes for me and 4 minutes for the Senator from Illinois? We want to discuss briefly a separate matter. The Senator from Illinois has an appointment.

Mr. TRIBLE. I will be content with 20 minutes, and I will yield to my two distinguished colleagues.

Mr. DOMENICI. Mr. President, let me suggest, on my time on the bill, that I do not mind yielding to anyone on matters that do not pertain to the amendment. But I remind Senators that many Senators have amendments, and we are going to run out of time on the bill for amendments that are in order. So I hope we do not make a practice of this.

At this point, we need 20 minutes in opposition. So I ask unanimous consent that the time on this amendment be limited to 20 minutes for the proponents and 20 minutes for the opponents, not to include the 8 minutes to the two Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Virginia.

Mr. TRIBLE. Mr. President, without losing my right to speak on this amendment, I yield to the Senator from Rhode Island the time allotted by the manager of the bill.

The PRESIDING OFFICER. The Senator from Rhode Island is recognized.

Mr. CHAFEE. Mr. President, one of the provisions in the original reconciliation package was an increase of 8 cents in the cigarette excise tax which would bring the total tax on one package of cigarettes to 24 cents. It does not earmark the revenues. This proposal would decrease the deficit by approximately $1.6 billion in fiscal year 1987 and approximately $5 billion over the next 3 years.

The substitute package before us today would eliminate this increase in the excise tax.

Earlier today I was prepared to offer an amendment to restore the 8-cent increase in the cigarette excise tax reported out of the Finance Committee. I have decided not to offer that amendment because I have received a letter from the President stating that if it was adopted he would veto the entire reconciliation bill.

A veto of the reconciliation bill would force us to vote to reduce the deficit through a Gramm-Rudman sequestration order. Such an across-the-board cut would be devastating to many important programs.

A veto would also mean that many of the provisions in this bill which make positive changes to meet the needs of the elderly, disabled, poor women, and children. I would like to outline a few of those changes for my colleagues.

The package includes a provision to allow States to provide Medicaid coverage for poor, elderly, or disabled in-

dividuals whose income is up to 100 percent of the Federal poverty level. This proposal will insure that the health care safety net is secure for the elderly poor and disabled.

We were also able to include a proposal to improve the delivery of prenatal care and health services to low-income women and their children. Under current law, health care services offered through the Medicaid Program reach fewer than one-half of all infants living in poverty. This proposal will begin to close this gap. It extends to States the option of providing prenatal, delivery, and postpartum care to low-income pregnant women. In addition, medical assistance can be provided for low-income infants and children under 6 years of age in families living at the poverty level without requiring that they also meet the eligibility standards for aid to families with dependent children.

It has been estimated that half the birth defects which occur in this country could be prevented through proper prenatal care. Prenatal services can drastically reduce the frequency of low birthweight babies who are 40 times more likely than other infants to die within the first year and who tend to suffer a wide range of long term health problems. This proposal will help mitigate these problems.

Another situation we were able to address is the rising cost of the part A deductible. Last year alone the part A deductible for Medicare increased by an unprecedented 23 percent—from $400 to $492. The projected increase for 1987 is another $80—which would bring the first day deductible to $572. This situation has caused tremendous hardship for many Medicare beneficiaries.

The proposal adopted in the Finance Committee would cut the increase in the part A deductible by more than one-half. Instead of increasing to the projected rate of $572 in 1987, the deductible would increase to about $520. It would also slow the increase in future years.

So, Mr. President, I do not desire to endanger the passage of this bill. There are too many good provisions in the bill and it does move us down the road on deficit reduction.

However, I want to make it clear to my colleagues that an increase in the cigarette excise tax is the least difficult decision we will face in the coming years. This is a fair tax, it is a user fee and its time has come.

I also want to make it clear that I will propose this cigarette tax again next year, and next year it will pass. Why? Because we will be facing a deficit reduction target of $108 billion and to meet that target, we will need to achieve an extraordinary amount of spending reductions and revenue increases. I strongly believe that it would be unfair to cut programs like Medicaid and Medicare rather than increasing a tax on a product that places such enormous costs on those very same programs.

Although, I do not intend to offer my amendment, I want to share some information on the issue with my colleagues.

Each of us, whether a smoker or not, pays for the health care needs of smokers—either through health insurance premiums or taxes.

According to the Office of Technology Assessment, cigarette smoking accounts for $22 billion in medical care costs and $43 billion in lost economic productivity annually. Cigarette smoking cost taxpayers $4.2 billion through the Medicare and Medicaid programs.

Dr. Gerald Oster, an economist with Policy Analysis, Inc. of Boston, testified before the House Ways and Means Committee in June 1985 that reimbursement to society for all of these costs would require an increase in the cigarette tax to $3 per package, and reimbursement for medical care costs alone would require an increase in the tax to 30 cents a package.

Medical evidence of the incidence of tobacco-related diseases among users of cigarettes demonstrates the correlation between smoking and increased health care costs. An increased Federal excise tax on cigarettes is a tax imposed on tobacco users for the resulting excess health care costs they impose on our health care system.

All of us clearly have an interest in promoting better health in the general population, the long-term benefits for federally funded health care programs are clear. In these times of fiscal austerity, we must closely examine the health care costs imposed on taxpayers by tobacco users. The deficit is increasing and health care spending accounts for a major portion of the Federal budget. It is fair to ask smokers to contribute more for the costs they impose on our health care programs.

Not only is an increased excise tax on this product fair, but it will also help discourage smoking.

In the Tax Equity and Fiscal Responsibility Act [TEFRA], Congress doubled the excise tax on cigarettes from 8 to 16 cents. In "Cigarette Taxation: Doing Good by Doing Well," author Kenneth Warner stated that the doubling of the excise tax caused 1¼ million adult Americans to stop smoking and one-half of a million teenagers to stop or not start smoking. Teenage smoking decreased by 14 percent. Adult smoking decreased by 4 percent.

By helping to discourage smoking, an increased excise tax will help improve the overall health of the country. Cigarette smoking is the No. 1 preventable cause of death and disability in this country. Over 350,000 die of smoking related diseases annually; 9 million people suffer from chronic bronchitis and emphysema due to smoking.

There are those who say that smoking is a decision each of us should make and that Congress should not be attempting to influence these decisions through an excise tax. However, there are some personal decisions which have a great impact on all of society—smoking falls into this category. It creates an increased demand on our health care system, much of which is subsidized by the Federal Government. All of us, whether we smoke or not, pay for the health care needs of smokers—either through insurance premiums or our taxes.

Last year, I held a hearing on the issue of an increase in the cigarette excise tax in the Subcommittee on Taxation and Debt Management of the Finance Committee. It was clear from those hearings that there is a great deal of support for an increase in the excise tax from a wide variety of health organizations.

I ask unanimous consent that a list of these organizations be inserted in the RECORD at this point:

There being no objection, the list was ordered to be printed in the RECORD, as follows:

AD HOC GROUP FOR A 32 CENT FEDERAL CIGARETTE EXCISE TAX

1. *American Heart Association.*—One of the largest voluntary health agencies in the United States, and the only such agency that devotes all of its resources to the goal of reducing premature death and disability due to cardiovascular disease and stroke.

2. *American Lung Association.*—The nation's oldest voluntary health organization, committed to the prevention and control of lung disease.

3. *American Cancer Society.*—The world's largest voluntary health agency, devoted to research, education, and service to the cancer patient, with over 2.3 million members.

4. *American Public Health Association.*—An association of over 50,000 community health leaders and health professionals working for the public health.

5. *American Association of Retired Persons.*—The largest organization representing older persons, with 18 million members; committed to advocacy and programs to meet the needs of the older population.

6. *Association of State & Territorial Health Officials.*—The professional organization representing the chief health officials of every state and territory in the U.S.

7. *Children's Defense Fund.*—A national public charity that provides a strong and effective voice for children and adolescents, particularly those from poor and minority families, in public forums.

8. *National Board, Young Women's Christian Association (YWCA) of The U.S.A.*—An organization of 2.5 million members and participants working to promote equity, justice, peace, freedom and dignity for all people, but particularly for women and girls.

9. *National Council on the Aging, Inc.*—A national organization representing providers of services to the elderly which serves as a principal advocate for issues of concern to our older population.

10. *National Association of Elementary School Principals.*—A professional organization serving more than 22,000 elementary and middle school principals in the United States and overseas, and believing that the progress and well-being of the child must be at the forefront of all elementary and middle school plans and operations.

11. *American Association of Dental Schools.*—An organization representing all sixty dental schools in the United States, their faculties and students, and their dental hygiene and hospital-based residency programs.

12. *American Diabetes Association.*—A national voluntary health organization whose two-fold mission is to search for a preventive and cure for diabetes and to improve the well-being of all people who have diabetes and their families; consisting of 220,000 members, 6,400 professional members, 58 affiliates, and 700 chapters.

13. *American Medical Student Association.*—An independent organization of more than 30,000 medical students committed to improvement of medical education and ensuring access to quality health care services.

14. *Adventist Health Network.*—People who enjoy helping others, through education and direct assistance, in 800 centers connected with Adventists churches and schools across the country.

15. *American Association of Preferred Provider Organizations.*—A professional association of competitive alternative health care delivery systems.

16. *Association of American Cancer Institutes.*—All 59 privately and publicly funded cancer centers across the country, providing research, care and teaching.

17. *Joint Council of Allergy and Immunology.*—Is comprised of the American Academy of Allergy & Immunology, the American College of Allergists, and the American Association for Clinical Immunology and Allergy, and represents the specialty of immunology in the socio-economic and political spheres.

18. *Asthma & Allergy Foundation of America.*—A nationwide network of over 100 chapters and support groups and tens of thousands of concerned individuals banded together with a common mission to eradicate asthma and allergic diseases.

19. *American Gastroenterological Association.*—4,000 physicians concerned with digestive diseases.

20. *Center for Science in the Public Interest.*—A consumer advocacy membership organization that seeks to improve national policies with regard to health and nutrition.

21. *Association of Schools of Public Health.*—Representing the 23 accredited graduate schools of public health in the United States.

22. *National Tax Equality Association.*—A business coalition examining current tax reform, with 1,500 business members.

23. *American Association of Respiratory Care.*—A 27,000 member professional association for respiratory therapy practitioners across the country.

24. *American Academy of Otolaryngology-Head & Neck Surgery, Inc.*—A professional association concerned with ear, throat, nose, head and neck surgery, with approximately 7,500 members.

25. *American College of Osteopathic Pediatricians.*—A professional organization of osteophathic physicians providing care to children.

26. *Association of Junior Leagues.*—An international women's volunteer organization with 244 member leagues in the U.S. representing approximately 149,000 individual members, promoting the solution of community problems through voluntary citizen involvement, and training members to be effective voluntary participants in their communities.

27. *National Perinatal Association.*—An interdisciplinary organization of professionals providing health care to infants and pregnant women.

28. *American Academy of Otolaryngic Allergy.*—An organization of physicians specializing in the treatment of the ears, nose, throat and related structures of the head and neck, with 1,200 members.

29. *American Society of Clinical Oncology.*—4,500 clinical oncologists specializing in the treatment of cancer.

30. *American Nurses Association.*—The largest professional association representing registered nurses in the country, with 185,000 members.

31. *American Society of Internal Medicine.*—Representing 20,000 physicians who specialize in internal medicine, and are concerned with the socioeconomics of medical care delivery.

32. *National Association of Children's Hospitals and Related Institutions (NACHRI).*—Represents 90 children's hospitals in the United States and Canada. Its goal is to serve as an advocate for improved child health and the delivery of comprehensive quality health services for all children.

33. *American College of Chest Physicians.*—Is a professional medical specialty society representing more than 11,000 physicians, scientists and educators specializing in pulmonary and cardiovascular diseases.

34. *American Council on Science and Health (ACSH).*—Is a national consumer education association directed and advised by a panel of scientists from a variety of disciplines. ASCH is committed to providing consumers with scientifically balanced evaluations of issues relating food, chemicals, the environment and health.

35. *American Academy of Pediatrics.*—An organization of 27,000 pediatricians dedicated to the health, safety and well-being of infants, children and adolescents in North, Central and South America.

36. *The United Methodist Church, Department of Human Welfare.*—The United Methodist Church, has 9.5 million members; the Department of Human Resources is responsible for the Church's positions on issues of public health and policy.

37. *American Licensed Practical Nurses' Association*—A professional association of more than 3,000 licensed practical and vocational nurses who provide bedside nursing in settings including nursing homes, hospitals, clinics, and community health centers.

38. *American College of Cardiology.*—A 14,000 member, non-profit professional medical society and teaching institution, dedicated to ensuring optimal care for persons with cardiovascular disease or those with the potential of developing cardiovascular disease, and through education and socioeconomic activities, to contributing significantly to prevention of cardiovascular disease.

39. *American Nephrology Nurses' Association.*—An organization representing approximately 3,000 registered professional nurses and allied health professionals involved in all modalities of care and treatment, including hemodialysis, peritoneal dialysis, and transplantation, of patients with renal disease.

40. *National Alliance of Senior Citizens, Inc.*—A national membership organization which focuses its attention on major issues facing older Americans; it is moderate to conservative in political philosophy, and has a membership of more than 3.5 million persons.

41. *Terri Gotthelf Lupus Research Institute.*—Founded as a national research center for the support and coordination of research and education on lupus and related immune system disorders.

42. *American Medical Association.*—A voluntary society of physicians founded to promote and improve the science and art of medicine and the betterment of public health. With approximately 250,000 members, the AMA's varied activities are directed toward achieving excellence among physicians and assuring the American public of the highest quality medical care possible.

43. *American College of Obstetricians and Gynecologists.*—A non-profit organization representing over 26,000 obstetricians and gynecologists dedicated to the health of mothers and infants.

44. *American College of Physicians.*—The College represents over 60,000 doctors of internal medicine, subspecialists, and physicians-in-training; the membership includes private practitioners delivering primary health care; medical specialists in such fields as gastroenterology, endrocrinology and cardiology; medical educators; and researchers

45. *United States Conference of Local Health Officers.*—A national organization representing the interests of local health department officials.

46. *American Speech-Language-Hearing Association.*—Represents over 47,000 speech-language pathologists and audiologists nationwide who provide services and conduct research and training, in the area of communication disorders.

47. *COSSMHO (The National Coalition of Hispanic Health and Human Services Organizations).*—COSSMHO is the only national Hispanic organization with a focus on health and human services. It is a cross-cultural, multi-disciplinary network of organizational and individual members in Hispanic communities in more than 220 urban and rural sites in 32 states, the District of Columbia, and Puerto Rico.

Mr. CHAFEE. Mr. President, I have talked generally about the health risks involved with cigarette smoking, I'd like to take a moment to be more specific.

SMOKING FACTS

First. Over 350,000 Americans die each year of the effects of cigarette smoking: that is 1,000 every day.

Second. Cigarette smoking costs our society in excess of $41 billion annually in health care costs, lost work time, and lost productivity.

Third. More than one out of every seven deaths in this country are smoking related.

Fourth. Some 80 percent of all lung cancer deaths in this country are caused by smoking.

Fifth. Cigarette smoking causes one-third of all heart disease deaths in this country and heart disease accounts for nearly one-half of all deaths.

Sixth. Perhaps almost 10 percent of all persons now alive—or 24 million Americans—may die prematurely of heart disease attributable to cigarette

smoking, unless smoking habits are changed.

Seventh. Children of smoking parents have an increased risk of bronchitis and pneumonia early in life and seem to have a small but measurable difference in the growth of lung functions.

Eighth. Maternal smoking during pregnancy significantly increases the risk of spontaneous abortion, miscarrige, bleeding during pregnancy, stillbirth, and sudden infant death syndrome.

These are just some of the health risks associated with cigarette smoking. And all of them cost the Federal Government money. They either cost the Government money directly through programs like Medicare and Medicaid, or through increased premiums in private health insurance for which we provide a tax deduction.

Why is it argued that it is wrong to ask those individuals who smoke to pay a little more—just 8 cents more per package—for the costs they impose on the rest of us?

One objection to raising the excise tax is that it is regressive—that is it affects the poor, minorities, and the elderly more than other groups. Research by Dr. Jeffery Harris of the Massachusetts Institute of Technology indicates, however, that low-income Americans smoke less than middle-income Americans. Professor Harris also finds that older Americans have much lower smoking rates than the general population. He also found that in considering the number of cigarettes smoked per day, the actual dollar burden of a cigarette tax increase is greater for whites than for blacks in every income category.

These findings are confirmed by the 1979 Surgeon General's report on smoking and health. That report documented that smoking rates among males are highest among middle-income levels, while smoking rates for women rise steadily with income. The poorer the woman, the less likely she is to smoke.

In short, the cigarette tax falls most heavily on people who are well able to afford it.

If we look at cigarette excise taxes from a historical perspective the increase we are proposing in this amendment is clearly not extreme. Inflation has resulted in a reduction in cigarette taxes in real terms and as a percentage of the price of cigarettes. The Federal excise tax was increased only twice during the post-war period; from 7 cents per pack in 1950 to 8 cents in 1951; and from 8 cents to 16 cents in 1982. This translates to a decline in the tax rate measured in 1984 dollars from 37.5 cents in 1946 to 8.6 cents in 1982, followed by an increase to 16 cents in 1984. The Federal tax—as a percentage of the price per package of cigarettes—declined from 42.2 percent to 10.7 percent between 1947 and 1982; it now stands at 16.6 percent, about the same rate as in 1975.

Now, Mr. President, another argument we will be listening to today is that an increase in the excise tax will signal the death knell of the tobacco farmer. No one who supports an increase in the excise tax wants to see these farmers bankrupt.

But, the fact is that consumption will continue to decrease without this amendment—although probably at a slower rate. I don't think that we can in good conscience, especially in these days of tremendous deficits, vote on this issue based on a desire to continue encouraging the production of a product that results in such huge health care costs to the Federal Government.

President Reagan has written to the majority leader stating that he is strongly opposed to the reconciliation targets being achieved through an increase in Federal excise taxes. Indeed, he says in his letter written today, addressed to the majority leader, "In order that there can be no misunderstanding concerning my views, I assure you that I will not sign a budget reconciliation bill that includes any new increase in cigarette excise taxes."

Because we have a package here which includes many things that are favorable—prenatal care and health services to low-income working women and their children, postpartum care to low-income pregnant women, and a host of measures such as that—I am not going to proceed with an amendment that would restore the cigarette tax. But I will say that in future years we will, because I think that tax should be incorporated.

Mr. President, I ask unanimous consent to have the letter from the President printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

THE WHITE HOUSE,
Washington, September 19, 1986.

Hon. BOB DOLE,
Majority Leader, U.S. Senate,
Washington, DC.

DEAR BOB: I am writing to express my concern about proposals that are now being considered to achieve budget reconciliation targets through an increase in Federal taxes. Specifically, the Senate reconciliation bill, S. 2706, as reported, would increase the Federal excise tax on cigarettes from 16 cents to 24 cents per pack. As I have stated on many occasions, I cannot support this or any other tax increase.

In order that there can be no misunderstanding concerning my views, I assure you that I will not sign a budget reconciliation bill that includes any new increase in cigarette excise taxes.

Sincerely,

RONALD REAGAN.

Mr. TRIBLE. Mr. President, without yielding the floor, I now yield to Senator SIMON to use the time allotted generously by the manager of the bill.

The PRESIDING OFFICER. The Senator from Illinois is recognized.

Mr. SIMON. I thank my colleague for his courtesy. Mr. President, up until an hour ago, I planned to offer an amendment increasing the cigarette tax. Senator CHAFEE showed me a letter that was signed by the President, to Senator DOLE, saying that he would veto the bill if that were in there.

Frankly, I find the President's action incredible and irresponsible. It is incredible and irresponsible for two reasons.

One reason is that, fiscally, you are talking in the next 3 years about the loss of $5 billion in revenue which we can ill-afford to lose.

Second, why are the cigarette companies so concerned about this? It is not you and me, not people our ages. It is teenagers. Every study shows that the teenage population is very sensitive to price. As of right now, only about 21 percent of 18-year-olds are smoking. The Harvard study shows clearly that if you put this tax on, there will be a decline in teenage smoking.

I join the Senator from Rhode Island in hoping that soon we will move on this, both for the economic health of this Nation and for the physical health of this Nation.

Here is an easy way to get more revenue and at the same time protect the future of our country.

I yield back the remainder of my time.

Mr. FORD. Mr. President, I am pleased that my colleagues have decided not to offer this amendment. Just 6 months ago this body doubled the cigarette excise tax from 8 cents to 16 cents. Now we would be asking the same industry for another 8 cents. We would be asking that the 101,000 farm families in Kentucky who depend upon tobacco for their very livelihood bear the burden of deficit reduction not for 1 fiscal year, but for 2 in a row. It would not be fair; it would not be right; it would not be necessary.

We just enacted the Tobacco Reform Act this year—a no net cost to the Government program that is working to ensure that tobacco farmers in Kentucky and across this Nation will not go under, and that the Government will not bear the loss of warehoused tobacco. As a part of that package, the tobacco industry agreed not to fight the doubling of the cigarette tax earlier this year. And we all believed that the issue had been put to rest. Had this amendment been offered we would have found ourselves back where we started. My colleagues would be saying to the farmers in my State: "We don't approve of your business and we are going to tax it out of existence."

First, the new tobacco program has only been in effect for 5 months—and it is working. Only 5 percent of the tobacco going to market is going under loan, compared to 27 percent at this time last year.

Second, that means farmers are selling more tobacco. Maybe now, some of them will be able to pay off their Government loans instead of defaulting. Sure, you can get some easy revenue by raising the tax, but you will lose that revenue on the other end when these farmers can't pay their loans.

Third, tobacco-producing States traditionally have some of the lowest delinquency rates on FmHA loans. But if this tax were raised, the companies will buy more foreign tobacco because it is cheaper. That means American farmers will have less income, and those delinquency rates will go up.

These farmers are hard-working people * * * they are not asking for a handout. Only 5 months ago, they took a 30-cent cut in the support price to keep their program alive. Then they took a Gramm-Rudman cut on top of that.

It is not fair to continue to call on the same industry—an industry that grows and produces a legal product which contributes millions of dollars to our economy—to bear the burden of deficit reduction. The compromise before us represents a more fair and equitable way of reducing the deficit and I am pleased my colleagues will not offer their amendment.

Mr. McCONNELL. Mr. President, I was prepared, as was my distinguished colleague Senator FORD, to debate a cigarette excise tax increase amendment as long as was necessary. I appreciate that President Reagan, in a short letter, stated the argument against a tax increase far more eloquently than I could have.

I wish to thank my friends, Senator CHAFEE and Senator SIMON, for not offering a cigarette tax increase amendment. Their feelings on this issue are well intentioned, but I thank them for delaying the inevitable debate to another day. I must say, Mr. President, that I have a much different view of the excise tax debate and I believe that my colleagues deserve to hear another side of the issue even though an amendment was not offered.

In last year's budget reconciliation bill, a number of Senators from tobacco-producing States reluctantly agreed to a permanent increase in the cigarette excise tax from 8 cents to the current 16 cents in order that a comprehensive tobacco program reform package might be included in the reconciliation instructions. The reforms were eventually enacted, as was the 8-cent increase in the cigarette excise tax. An 8-cent increase, Mr. President. A 100-percent tax increase over the previous level, Mr. President.

And here again, only 5 months later and another cigarette excise tax increase proposal was considered as a possible amendment to reconciliation. I ask my colleagues: How much blood can you get from a turnip? Excise taxes already provide over $9.1 billion to Federal, State, and local treasuries annually. And now, here was another effort to raise taxes on cigarettes again, when 34 percent of the retail cost of the product is already tax.

Presumably, this tax increase would have been proposed as a revenue raiser to lessen the need for spending reductions to meet Gramm-Rudman-Hollings deficit targets. I say to my colleagues, perhaps we need to look somewhere else, if we are sincerely committed to dealing with the deficit problem. Let me quote a GAO staff study on consumption taxes:

> With the exception of taxes on motor fuels, no product subject to excise taxes is large enough to produce the sizable revenues that would be required to materially reduce the deficit. Accordingly, if considerably more revenue is wanted from excises, new taxes must be devised.

So there you have it, Mr. President. An independent agency which has never been a friend to the tobacco industry has concluded that an increase in the cigarette excise tax is ineffective in dealing with the deficit problem. Furthermore, every poll from every source I have seen shows that Americans are summarily opposed to tax increases to reduce the deficit. So there appears to be little enthusiasm among the American people for instituting a new excise tax. Certainly, Ronald Reagan has made his intentions very clear. Mr. President, the plain truth of the matter is that the proponents of the cigarette tax increase are again dragging up the health issue and are covering it up with the smoke of the budget deficit.

This is not a health debate. It is an economic debate. If a tax increase of the magnitude considered by Senators CHAFEE and SIMON is eventually approved by the Congress, States, and localities will find themselves confronted with lost revenues of $144.3 million in the first year. On the one hand, we in Washington tell States they will be required to assume a greater role in the management of government programs, yet, by a single preemptive action, we could have made it more difficult for them to afford to do so. Historically, Mr. President, the Federal Government has largely shied away from excise tax increases because such taxes are a primary revenue-raising measure for State and localities. Unbelievably, here we go again, apparently set to raise Federal excise taxes at the expense of State and local governments, only because we in the Congress can't find the political courage to make difficult spending reduction decisions.

Moreover, enactment of an increased cigarette excise tax will cost Kentucky farmers nearly $40 million annually. That is right. $40 million. I say to my colleagues that this is $40 million right out of farmers' pockets after they were forced to absorb a 20-percent reduction in the tobacco price support level to make our tobacco more competitive in the world marketplace. No other commodity group has been required to take an immediate prices support reduction—not one, Mr. President. And our thanks to these farmers who were willing to sacrifice price for competitiveness is that their beloved Federal Government is going to enact legislation which will cost them more money.

The Senate Agriculture Committee yesterday heard testimony about the current plight of the Farm Credit System which illuminated quite clearly just how bad the farm economy is in parts of the United States. Kentucky has largely been spared from the kind of economic pain which has devastated the Midwest, not because Kentucky farmers are necessarily better farmers, but because production of tobacco has provided a stable source of income. I want my colleagues to clearly understand the implications of an increase in the cigarette excise tax. It has a direct, negative, monetary effect on the livelihood of Kentucky family farmers. The very stake of the rural Kentucky economy is dependent on a viable tobacco industry.

To the best of my knowledge, no one has advocated making tobacco illegal. People are going to smoke cigarettes. Given those two facts, it seems a little unreasonable that tobacco growers should be subjected to an endless stream of attacks against them. This is a very serious issue for my Kentucky tobacco farmers; continual attempts to increase cigarette excise taxes are a very real threat to their livelihoods. The Senate, though not tonight, will sometime be in a position to once and for all put an end to the proposition that every time we need a few billion dollars we're going to hit tobacco farmers again.

Mr. President, this goose has laid just about all the golden eggs she has. Cigarette excise taxes have long since ceased to be the great Federal revenue raiser the Congress needs to cope with the burgeoning Federal budget deficit. Raising cigarette excise taxes accomplishes nothing other than to drive another nail in the coffin of the Kentucky tobacco grower.

AMENDMENT NO. 2854

Mr. TRIBLE. Mr. President, on behalf of myself and Senator WARNER, I have offered an amendment to the amendment that would ratify Senate action taken earlier this year.

It would provide for the transfer of Washington National and Dulles Airports to a local authority.

Since the Senate debated this issue for 9 days and approved the bill overwhelmingly, I will not dwell on the merits.

Quite simply, the Senate agreed that the only practical way to modernize and expand these facilities was to transfer the airports to a local authority.

Regrettably, the House of Representatives is unable to act in a timely fashion on this transfer legislation. The Transportation Subcommittee has acted, but the bill is encumbered by two issues—the buying and selling of slots, and the perimeter controversy.

To ensure prompt action, we are taking those peripheral issues away from this bill, and we are offering an amendment that will effect the transfer; and that is acceptable, I believe, to an overwhelming majority of our colleagues here as well as in the other body. This action will reduce the deficit for fiscal year 1987 by $22 million, and it will spare the Federal Government nearly $1 billion in expenditures in the days ahead.

Mr. President, this amendment does not meet the very strict germaneness requirement, but it is directly related to what we are about. It will impact favorably our budgetary situation. It will substantially increase revenues to the Federal Government, and it will thereby diminish the deficit we face.

Let me briefly tell Senators how this bill differs from what we voted on before.

The amendment parallels legislation passed by the House aviation subcommittee, which largely adopted the provisions of the Senate-passed bill, with three major changes. I will enumerate those for my colleagues.

First, the payment to the Federal Government is substantially increased.

□ 1920

The total payment envisioned by this amendment is $187 million. That includes $150 million for the lease and $37 million compensation to the pension program. In all this represents a $187 million contribution to the Federal budget.

Again, in fiscal year 1987, the contribution will be a $22 million increase in revenues and a decrease in the deficit. Moreover as a consequence of this action, we will spare the Federal Government nearly $1 billion in expenditures.

Point 2, this amendment envisions a permanent lease. All the language in our past bill about the sale is gone. Here we envision a 50-year lease at $150 million.

There is no talk about negotiations or a future sale. The airport property will remain in Federal hands. This change meets squarely the concerns of many of the colleagues

Third, this amendment establishes a board of review composed of four Senators, four Congressmen, and a ninth member that will alternate between the House of Representatives and Senate. This board has the right to veto certain substantial actions of the regional authority. It can veto actions including budgets, bond issues, and capital improvement projects.

What we are endeavoring to do is to meet the concerns of many Members of this body who did not want to yield total authority; they want to be able to exercise some oversight on what the locals do.

These changes strengthen the bill and meet the concerns of many Members by providing more money, a permanent lease arrangement—no sale—and a board of review composed of our colleagues in the House of Representatives and Senate who will have substantial authority over the operation of these airports.

These changes, I think, meet the reasonable concerns voiced by Members of this body. They strengthen the bill and I commend this measure to the attention of my colleagues and ask for their support.

At this point, I yield such time as my distinguished colleague from Virginia would require.

The PRESIDING OFFICER. The Senator from Virginia is recognized.

Mr. WARNER. Mr. President, as an original cosponsor of my distinguished colleague, I think it benefits all Senators at this time if we just allow those who are interested in the bill other than ourselves to speak and then we will reply.

Mr. TRIBLE. Mr. President, I reserve the remainder of my time.

The PRESIDING OFFICER (Mr. WILSON). Who yields time?

Mr. SARBANES. Mr. President, I yield myself 5 minutes in opposition to the amendment.

The PRESIDING OFFICER. The Senator from Maryland is recognized.

Mr. SARBANES. Mr. President, this is exactly what reconciliation should not be used for. This is not a reconciliation amendment. This is a major substantive proposition.

The Senate considered this matter at great length, as many recall, earlier in the year, involving the transfer of Washington National and Dulles Airports. Eventually that was passed. It went to the House of Representatives where it has encountered some difficulty.

The proposition before us has been changed in three major ways as the Senate has indicated. So it is not even the legislation passed by the Senate. But in any event, this is an abuse of the reconciliation process.

It is clearly not germane and at the appropriate time, which is not now, that point, of course, will be made and I hope Members will protect and defend the integrity of the reconciliation process.

Second, the CBO when this bill passed before, and there has been no major change that would affect these dollars figures—you have a larger amount of money over a longer period of time, so it still works out to a very small amount each year—said the following. "In the absence of this bill"—in other words, if the bill was not passed—"receipts are projected to grow to $62 million in 1987"—these are the receipts of these two airports—"and to $74 million by 1990. Thus receipts are projected to exceed outlays by $21 to $24 million annually over the 1987 to 1990 period. And this net income to the Government would be lost if the bill is enacted."

So in fact, enactment of the bill runs directly counter to the objective of reconciliation with respect to addressing the budget deficit, and that is a direct quote from the report of the committee at the time that this legislation was considered in the Senate.

The substantive arguments against this proposition have been addressed at great length, as Members will recall, in the course of previous consideration by the Senate of this measure.

I do not intend to go into all of that again, because I would regard that in itself as being an abuse of the reconciliation process.

Reconciliation was not designed, since it has time limits on the amount of time which a measure can be discussed, to allow major substantive proposals to in effect be run through the back door under limited debate and then put to a vote of the Senate. We just went through that on a previous amendment whose motion to waive its germaneness requirement was overwhelmingly defeated, and I would hope when the Senate comes to vote on this measure that it will do the same.

This bill has encountered difficulties in the House of Representatives. It is a highly controversial and complex measure.

What the Senator is really doing now is rewriting in some significant degrees and bringing it back, recycling it as it were, and trying to put it through on reconciliation.

I would hope the Senate would stand by the integrity of the reconciliation process and clearly rule at the appropriate time that this amendment is not germane and save ourselves undercutting a very important process and allow us to get on to deal with the other important issues that are embraced within the reconciliation proposal.

Mr. President, I reserve the remainder of my time.

Mr. TRIBLE. Mr. President, I do not believe it will be necessary for us to use all the time.

Let me respond very briefly to two points raised by my colleague from Maryland.

We debated this issue for 9 long days. It was necessary to break a filibuster and finally when our colleagues voted on the merits this proposition was decisively approved. So I am not surprised the Senator from Maryland has chosen to oppose this amendment on the basis of procedure rather than the substance.

Let us talk about procedure for a moment. I would suggest to you that this amendment is not all that different from the leadership package that authorizes the sale of Conrail, results in a net gain of revenues and diminishes the Federal deficit.

□ 1930

Morever, I would point out the terms of the Conrail sale proposal by which this body has found to be germane were also substantially changed in the leadership amendment and yet that was not an obstacle to decisive action by this Senate.

Second, I would just hasten to underscore to my colleagues that both the Budget Committee and CBO have validated the $22 million net increase in revenues in the next year. We are talking about over $150 million in additional revenues to the Federal Government over the longer term. We are talking about sparing the Federal Government the expenditure of nearly $1 billion to improve and enhance these airports. But in the fiscal year the Budget Committee and CBO have both validated the assertion that $22 million in additional revenues will flow to the Federal Government. And those are net increases that considers any losses from other areas.

So I would suggest to you that the amendment here is directly related to the reduction of the Federal deficit and it parallels the action just taken by this body in finding the proposal to sell Conrail germane.

The PRESIDING OFFICER. Who yields time? If neither side yields time, time will be divided equally.

Mr. CHILES. Does the Senator desire to use more time on your side or could we yield back the time?

Mr. BENTSEN. The Senate approved S. 1017 in April of this year. That legislation was similar to the Trible-Warner amendment currently pending before the Senate, except that it contained a provision modifying the Washington National Airport perimeter rule. The perimeter rule is a Federal regulation that prohibits nonstop flights of more than 1,000 miles from Washington National. I sought to modify the perimeter rule so that nonstop flights up to 1,250 miles would be permitted from Washington National. The floor managers of S. 1017 accepted my modification.

The perimeter rule is neither a noise rule nor a safety rule, but was put in place in 1966 to prevent a diversion of traffic from Dulles Airport to Washington National. In the early 1960's Dulles was plagued by problems of inaccesibility and inconvenience. There were no restrictions on the number of flights from Washington National. The Federal Aviation Administration was properly concerned that Dulles might not survive over the long term. The perimeter rule offered adequate protection to Dulles, but Dulles is now enjoying a rapid increase in traffic and no longer needs the protection.

There are other reasons why the perimeter rule should be modified. It has an unfair effect on many of the Nation's airlines which, in the wake of deregulation, have reordered the structure of their routes in "hub-and-spoke" configurations. The requirement of an additional stop along the way makes that kind of service less attractive to passengers. This is to say nothing of the waste that results when aircraft make short "hops" from Washington National to Dulles and Baltimore-Washington International Airport on their way to their true destinations.

I have not proposed to abolish the perimeter rule. Rather, I have argued that Congress should extend the limit on nonstop flights from 1,000 miles to 1,250 miles, about the maximum range of the aircraft that operate routinely from Washington National. Such an extension would present the cities of Dallas, Fort Worth, and Houston with immediate opportunities for better service from Washington National. There is no reason to believe that the extension would result in poorer service between Washington National and smaller cities within the 1,000-mile limit.

I regard the perimeter rule as an anachronism that has been left on the Federal statute books despite the fact that it no longer serves any useful purpose. Therefore, I was quite pleased when the Senate decided to approve my modification back in April. Out of deference to my distinguished colleagues from Virginia, I refrained from offering it as an amendment to the Trible-Warner amendment in order to assist them in their effort to move the provisions of S. 1017 that are of special concern to them. I appreciate the assurances of my distinguished colleagues that they will do their best to gain approval of my amendment modifying the perimeter rule on the first germane legislative vehicle that becomes available in the Senate next year.

I am happy to support the Trible-Warner amendment today.

Mr. TRIBLE. If the opponents of the amendment are prepared to yield back, then I would certainly go along with that.

Mr. CHILES. I think the opponents are prepared to yield back their time.

Mr. TRIBLE. I would agree to do so, also.

Mr. ROCKEFELLER. Will the Senator from Virginia yield?

Mr. TRIBLE. I yield to my distinguished friend from West Virginia.

Mr. ROCKEFELLER. Will the Senator yield me 2 minutes?

Mr. TRIBLE. I am delighted to yield such time as my colleague from West Virginia requires.

Mr. ROCKEFELLER. Mr. President, I simply would like to say that I agree very strongly with the Senator from Virginia. I know the debate will not be long on this, but I think the record points out that there will be revenue involved, in terms of helping the budget, and I think that makes this issue suitable under the reconcilation process.

I consider this airport transfer legislation to be an extremely important matter for the Senate to now act on. I think it is the only way we are going to see an improvement in the quality of the airports and the air service in this area.

People say that the airport trust fund could be used for that purpose, but the fact of the matter is, given the present financial and political situation, we are not going to see that happen. The authority which would be created by this amendment would have the ability to sell bonds which, in turn, would be the best way for National Airport and Dulles Airport to make improvements and increase their capacity so as to serve the Nation's Capital and the surrounding States.

The legislation being offered is generally approved, I might point out to my colleagues, by most of the House Members from Maryland and the present State administration of Maryland.

In any event, Mr. President, I think this is an important opportunity to do something which we may not later be able to do. I believe it fits within the reconciliation process, and I hope that the Senate will support my two colleagues from Virginia.

Mr. WARNER. Mr. President, my colleague and I wish to express our appreciation to the distinguished Senator from West Virginia. This, indeed, is a bipartisan issue.

In preparing for this, I have had conversations with the distinguished Senator from Texas and the distinguished Senator from Kansas, both of whom had matters of vital interest in the earlier legislation and now are willing to recognize the importance of getting this bill through to improve the mode of transportation that will help many of us, if not all of us, in the future.

Mr. TRIBLE. Mr. President, I am prepared to yield back my time. I understand the opponents of the measure are prepared to do so, as well.

Mr. CHILES. Mr. President, I believe the distinguished Senator from Maryland would like to speak. I yield to him.

Mr. MATHIAS. Mr. President, I do not want to take the time of the Senate. I want to associate myself with the position of my colleague from Maryland. This has been a troublesome issue. It is one that is obviously not appropriate to consider under the procedures on which we are now operating.

It is a matter that has a difficult road in the other body. I would hope the Senate would not bend the procedures to go into this substantive legislative question.

Mr. CHILES. Mr. President, the Senator from South Carolina is on the floor now and he desires to speak. I yield him such time as he might desire.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. HOLLINGS. Mr. President, since there is a limit on time, the bottom line is that there never really has been any trouble with either Washington National or Dulles that money from the aviation trust fund would not cure.

The unique thing is that everyone agrees that the Federal Aviation Administration has been operating these airports in a very efficient and responsive manner, both Washington National and Dulles Airports. Traffic is growing, especially at Dulles, and they are making profits. They are meeting the challenges, the competition and the developments, as well as they can. The midfield terminal is being developed voluntarily by the airlines out at Dulles. They are trying to make room. And we know we need additional parking out at National Airport, as well as the modernization of the facilities there.

But, instead of asking for money, which is there, we come about with this discombobulation of leasing and bonding, which combined will cost the Federal Government many, many more times the millions that we have already invested in these airports. I would dare say, in my 20 years, I have paid my fair share in airline ticket taxes and I have not gotten a dime back in improvements at National or Dulles. They tax me on every one of my airline tickets.

Now, the receipts from these taxes, which go into that trust fund, have gone to lengthening the runway at St. Thomas, to the tune of $90 million; to President Carter and the rebuilding of the Atlanta Airport to the tune of $100 million; and $150 million to Dallas-Fort Worth. We have in that trust fund more than $8 billion, but somehow we cannot find $250 million for the modest improvements needed at Dulles and Washington National, the people's airports.

And rather than this mishmash of Senators starting to serve on an oversight board, beginning with leases and the issuance of bonds and further expensive arrangements, I would hope we would take this complicated measure and not put it on the reconciliation. I am prepared to raise a point of order under 305(b)(2) of the Budget Act that this amendment is not germane. It is not appropriate—much less germane. It is certainly not appropriate on this bill. NORMAN MINETA and the House Public Works Committee have been working around the clock to try to reconcile the differences, but they have not come up with a better solution than this body did.

I hope we would not put this measure on this bill. Let us simply utilize the money the Government already has. We do not spend the money we have, but we are running around spending the money that we do not have, running up further interest costs and destroying the economy and future of this Nation.

So, when the time is yielded back, I would be glad to raise that point of order.

I yield the floor.

Mr. CHILES. Mr. President, I yield back the remainder of my time on the amendment.

Mr. TRIBLE. I yield the remainder of my time, as well.

Mr. CHILES. Mr. President, I raise the point of order that the amendment is not germane.

Mr. TRIBLE. Mr. President, I move to waive the committee's requirement under the Budget Act and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. All time has been yielded back. The question is on the motion to waive. The yeas and nays have been ordered and the clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN], the Senator from Arizona [Mr. GOLDWATER], and the Senator from Nevada [Mr. LAXALT] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN], the Senator from Colorado [Mr. HART], and the Senator from Hawaii [Mr. MATSUNAGA] are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—49 yeas, 45 nays, as follows:

[Rollcall Vote No. 271 Leg.]

YEAS—49

Abdnor	Gramm	Packwood
Armstrong	Grassley	Pressler
Bentsen	Hatch	Quayle
Boschwitz	Hecht	Rockefeller
Broyhill	Heinz	Roth
Chafee	Helms	Rudman
Cochran	Inouye	Simpson
Cohen	Kassebaum	Specter
Danforth	Kasten	Stafford
Denton	Lautenberg	Stevens
Dixon	Long	Symms
Dodd	Lugar	Trible
Dole	McConnell	Wallop
Durenberger	Metzenbaum	Warner
Evans	Murkowski	Wilson
Gore	Nickles	
Gorton	Nunn	

NAYS—45

Andrews	Ford	McClure
Baucus	Glenn	Melcher
Biden	Harkin	Mitchell
Bingaman	Hatfield	Moynihan
Bradley	Hawkins	Pell
Bumpers	Heflin	Proxmire
Burdick	Hollings	Pryor
Byrd	Humphrey	Riegle
Chiles	Johnston	Sarbanes
Cranston	Kennedy	Sasser
D'Amato	Kerry	Simon
DeConcini	Leahy	Stennis
Domenici	Levin	Thurmond
Eagleton	Mathias	Weicker
Exon	Mattingly	Zorinsky

NOT VOTING—6

Boren	Goldwater	Laxalt
Garn	Hart	Matsunaga

□ 2100

The PRESIDING OFFICER. Sixty votes being required for waiver, the point of order is well taken. The amendment falls.

Mr. DOMENICI. I move to reconsider the vote by which the motion was rejected.

Mr. CHILES. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOMENICI. Mr. President, I yield 20 minutes to the distinguished Senator from Maine [Mr. COHEN] off the bill.

The PRESIDING OFFICER (Mr. TRIBLE). The senior Senator from Maine is recognized.

Mr. COHEN. I thank the Chair.

Mr. President, I would like to beg the indulgence of my colleagues for a few moments. I am taking the rather extraordinary procedure of anticipating a motion that I expect to be made in a short period of time, but since time is running out, my fear is that we will have a very complex issue come before the body with no time to explain it. So I would like to take just a few moments this evening to explain a matter that is of great significance to this Congress and, I believe, to the country.

I anticipate a motion will be made by the chairman of the Judiciary Committee, Senator THURMOND, at a later time to strike a provision of the reconciliation package which pertains to program fraud. I would like to take a moment to talk about this motion. It

will be presented to you as a procedural motion, something that is technical in nature and not really dealing with the substance or merits of the bill. I ask Senators to listen carefully so they will not be mislead by that siren call, the contention that we are only dealing with procedure, a mere technicality not involving the merits of this measure.

Everyone in this Chamber from time to time, either in the Chamber or back in their home districts or States, complains about three words: fraud, waste, and abuse, be it in the Food Stamp Program, in a government contracting program, or in the defense industry. Time after time people rail against fraud, waste, and abuse.

It is time that we start doing something about it instead of just talking about it. And that is what the Governmental Affairs Committee has tried to do. Senator ROTH, who is the chairman of the Governmental Affairs Committee, initiated this program fraud measure 5 years ago, and he has tried unsuccessfully since 1981 to shepherd this type of legislation through the Congress.

The General Accounting Office in 1981 released a study of some 77,000 cases of fraud that were committed during a 3-year period against you and me and every taxpayer in this country—77,000 cases of fraud against the Government. More than 60 percent of the cases that were referred to the Justice Department were not prosecuted on a criminal basis or indeed even proceeded against on a civil basis, and the reason for that is the dollar amount is not significant enough. In other words, it would cost more money for the Justice Department to proceed in court against those individuals who are cheating the Federal Government, the Federal taxpayer, than would be recovered. Therefore, the Justice Department doesn't litigate the cases, and the fraud continues. According to the Justice Department, we are losing tens, if not hundreds, of millions of dollars every year due to fraud and abuse perpetrated by citizens who submit false and fictitious claims to the Government. Those perpetrating this fraud certainly have very little reason to fear prosecution, either on a civil or criminal basis.

And so Senator ROTH and others who serve on the committee—Senator LEVIN, Senator CHILES, and so many others—became concerned as to how we fashion an appropriate remedy to deal with this problem. We have produced the so-called Program Fraud Civil Remedies Act. The bill was an effort to prevent those who are cheating us of millions of dollars every single year, without depriving them of due process. We established, pursuant to the recommendation of the Administrative Conference back in 1972, I would point out to my colleagues, a procedure to deal precisely with these types of small-dollar fraud cases that are now not prosecuted.

The committee working the past 5 years finally produced a product which has virtually the unanimous support of the committee, one dissenting vote only. I will list those individuals and institutions in a moment which support this administrative procedure.

Upon an allegation that there has been a false or fictitious claim or statement filed or made, the investigating official, usually the inspector general, would conduct a preliminary investigation to see whether there was sufficient evidence to proceed against a given contractor or individual. The inspector general would accumulate the evidence and then present it to a reviewing official within the agency. If the reviewing official is satisfied that there is sufficient evidence that the agency should proceed on a civil basis against these contractors who are perpetrating the fraud, then the case goes to the Justice Department. The agency asks the Justice Department, "Do we have your permission to proceed against these individuals based upon the facts that we have established to date?"

The Justice Department has an absolute veto over that particular procedure. Its officials can say, "No, you shall not proceed. We don't think it is meritorious," or, "The amount is too high, we think there is much more involved." For any reason, the Department can say no, or can give an affirmative, allowing the agency to proceed against the individuals who have allegedly perpetrated this fraud.

Once given the go-ahead by the Justice Department, a hearing is set up pursuant to the Administrative Procedure Act. There is an administrative law judge who presides over the hearing. The person who is the defendant as such, the one who is complained against, has the right of notice, has the right to appear, of course, with counsel, the right of discovery, the right to cross-examine during the course of the procedure, all pursuant to the well-established Administrative Procedure Act.

Assuming that that individual or company is ruled against, they have a right of appeal to the head of the agency, and from there, if not satisfied with the result, can appeal the ruling to the Federal court of appeals. That is the procedure in the bill that we have produced from the Governmental Affairs Committee.

Well, who supports such a procedure? I mentioned Chairman ROTH, Senator CHILES, Senator LEVIN, Senator RUDMAN, Senator HATCH, and so many others in this Chamber. I might say that one of the reasons this measure is being objected to is because the provisions for due process, according to the Parliamentarian, might fall within the jurisdiction of the Judiciary Committee. It is an ironic situation that we have here. If this bill were free standing before us, it would be solely within the jurisdiction of the Governmental Affairs Committee. This bill has been introduced since 1981. Every year it has been referred to the Governmental Affairs Committee. There is no joint referral. The Judiciary Committee has never had referral over it. There has never been a sequential referral. The Judiciary Committee has never even requested referral over the program fraud bill. But notwithstanding that, at the conclusion of the introduction of our bill, I testified before the Judiciary Committee at the request of Senator HATCH and Senator THURMOND, and both of those distinguished Senators were present and asked questions. I tried to respond to their concerns. So the Judiciary Committee has actually had a hearing on this measure.

Now, who supports the bill? The Justice Department supports the bill. I will not take the time right now to read the very, very strong letter from the Justice Department saying this may be the most important piece of legislation to help combat fraud, waste, and abuse that we could produce this year and the years to come. The Congressional Budget Office has said it will produce a "net reduction in the deficit." This is why it is in reconciliation. Eighteen inspectors general are strongly in favor of this bill, saying this is vital if they are going to do the job that we have mandated for them.

How about the Packard Commission that we keep hearing so much about? The Packard Commission recommended this particular proposal. The Office of Management and Budget did as well. In a letter from OMB to the Washington Post that I will submit for the RECORD, the Deputy Director of OMB says:

> To the Editor: Your August 7th article, Defense Lobbyists Bottle Up Bill on Contractor Fraud, does a fine job of pointing out how a few well-financed lobbyists can senselessly hold up a solid piece of legislation with broad-based support. Unfortunately, a few contractors, some of which are currently being investigated for possible fraud, have apparently managed to thwart the passage of antifraud legislation.

So we have the Justice Department, the GAO, the inspectors general, the Packard Commission, and OMB in support of the program fraud bill.

Now, is this something that is unprecedented in our history? The answer is clearly no. As a matter of fact, an amendment passed in the 1981 reconciliation package which included the Civil Monetary Penalties Act—a provision very similar to this bill. In that statute, we authorized the Department of Health and Human Serv-

ices to proceed on a civil basis to go after those health care providers who were defrauding the Federal Government by billing services they never actually performed.

□ 2010

The Department of Health and Human Services has been tremendously successful under this similar procedure. So we have Justice, GAO, the IG, the Packard Commission, OMB, Health and Human Services, and so forth, who support this legislation.

Now, who opposes this legislation? The senior Senator from South Carolina opposes it. The chamber of commerce opposed it at one time, but no longer do. The aerospace industry opposed it. They no longer oppose it because we made the changes that Senator HATCH and several other Senators had proposed to the bill. So we have just a handful of people who now object to the provisions of the bill because they maintain that there is no right to a jury trial here.

Mr. President, the issue of a jury trial has been settled by none other than the Supreme Court of the United States. In the 1977 Atlas Roofing case, the Supreme Court ruled on a procedure virtually identical to this measure and held it to be completely constitutional.

Not only has the Supreme Court ruled upon it, but also the Justice Department has said it is constitutional; the American Law Division of the Congressional Research Service has said it is constitutional; the Federal Bar Association has said it is constitutional. A number of prominent constitutional scholars all reject the charge that it is unconstitutional.

So we have here a rather unique procedural provision. The bill is referred to the Governmental Affairs Committee for the last 6 years. No sequential referral to the Judiciary Committee has even been sought. A hearing was held before the Judiciary Committee even though it was never granted a referral.

I subsequently worked out a compromise bill with Senator HATCH to address his objections.

If the bill were to come before the Senate as a freestanding measure, there could be no parliamentary challenge to it. It is completely within the jurisdiction of the Governmental Affairs Committee. But because it has been included in the reconciliation package, the Parliamentarian—erroneously, in my judgment—believes that the procedural provisions would be ruled to be extraneous because they might properly fall within the jurisdiction of the Judiciary Committee.

Therefore, if the senior Senator from South Carolina is correct and he files a motion to delete this based upon the provisions being extraneous, we will have a program fraud bill without any due process protections, which the senior Senator from South Carolina is so concerned about. He would then knock out the entire bill after that, saying: "Well, you have an antifraud statute with no procedure. How can you have that? Let's kill the whole thing."

So I am asking Senators to look at this carefully. It is merely a technicality, that the Judiciary Committee ought to have jurisdiction over the procedure. In fact, the bill has always been with Governmental Affairs, and the Governmental Affairs Committee went to the Judiciary Committee this year and presented the bill for their consideration. So the bill is now before us as part of the reconciliation package because, No. 1, it is within the Governmental Affairs, and, No. 2, CBO has said that it will save money.

So I appeal to my colleagues to reject the motion which I expect to be made by the Senator from South Carolina.

I also would like to rebut the argument that the Senator, I anticipate, will make that everybody is entitled to a jury trial. That is not the law. The law says that if you are proceeded against criminally you are entitled to a jury trial. This is civil procedure, and it is not new ground for any of us.

There are over 200 statutes on the books right now which allow for civil monetary penalties to be imposed.

So we are doing precisely the thing the Administrative Conference of the United States recommended in 1973. None other than Judge Scalia—do you remember his name? Just yesterday we confirmed the nomination of Judge Scalia to the Supreme Court—who wrote this recommendation from the Administrative Conference. It was Judge Scalia.

This is in a memo randum dated December 1973. He was Chairman of the Administrative Conference. I will read what the Conference said:

. . . authority should be sought to impose such penalties in administrative proceedings rather than in the courts, with the agencies' determinations subject to review on a substantial evidence test, but not subject to a trial de novo.

So you have the Supreme Court decision made in 1977 that affirms the constitutionality of the bill. We have numerous legal scholars who concur. We have Judge Scalia, whose nomination we confirmed unanimously to the Supreme Court, saying that this is an appropriate and desirable procedure to proceed on. We have the American Law Division of CRS, Federal Bar Association, and many others. Yet, the chairman of the committee is going to move to strike this provision because there is not a jury trial.

We will then find ourselves in a position of having insisted upon a jury trial, which will never take place because the Justice Department will never prosecute the claims under $100,000. The beat will go on and on, with millions of dollars lost to contractor fraud. Everyone who has constantly campaigned about waste, fraud, and abuse, in my opinion, will have subverted the process itself.

Mr. President, I yield such time as he needs to Senator ROTH, and then I will yield to Senator LEVIN the remaining time.

Mr. ROTH. Mr. President, first, I want to congratulate the distinguished Senator from Maine for his eloquent and articulate presentation of the program fraud legislation. I also congratulate him for the leadership and fine job he has done in refining and fashioning this legislation.

□ 2020

As he has already pointed out within the Government Affairs Committee every member on both the Republican and Democratic side except one voted in support of this bill.

It does represent, as Senator COHEN has alread pointed out, a most important reform.

Let me point out that several years ago the Comptroller General of the United States issued a very fine two-volume report on fraud in government programs.

The importance of this problem I think is demonstrated in its opening statement where it says, "GAO believes that the prevention of fraud and related acts through effective systems of internal control is top priority"—is top priority.

It also recognizes the deterrent effects of punishing perpetrators. Because a number of cases make it impossible for the Department of Justice to prosecute every case of fraud referred to by Federal agencies, it is even more important that Federal agencies take effective administrative actions when warranted. In addition, GAO believes that civil fine authority would be a useful enforcement tool for agencies whose cases the Department of Justice decided to act on.

Mr. President, time restraints prevent me from saying more because I know at this stage we only have 1 minute and I wish to yield to Senator LEVIN for any comments he may care to make.

The PRESIDING OFFICER. The Senator from Michigan [Mr. LEVIN].

Mr. LEVIN. Mr. President, I rise to strongly support the effort of the Senator from Maine in this area. The critical fact is that 60 percent of the fraudulent claims against the United States go unrecovered, because the Justice Department cannot afford to go to Federal court.

We have here an administrative process which has been found to be constitutional by everybody who has looked at it, saying it totally complies with due process.

There has been no effort for a sequential referral by the Judiciary

Committee. Rather we expect there will now be a rather technical attempt to knock this program fraud section from the bill.

Let me also emphasize that the program fraud provisions are already in this bill. This is not an effort being made by us to add it to the bill. This is already in the reconciliation bill, and we expect that the effort that will be made will be to knock it out of the reconciliation bill.

It was put into the bill by a nearly unanimous vote in the Governmental Affairs Committee, with all but one member of the committee voting for this bill. It is a bipartisan bill. It fills the gaping hole in existing law to try to recover money obtained through fraudulent claims against the U.S. Government, and that is the reason why we strongly hope we can keep it in the bill.

The PRESIDING OFFICER. The Senator's time has expired.

Who yields time?

Mr. THURMOND. Mr. President, I presume I will have the same time to reply.

The PRESIDING OFFICER. The time is controlled by the Senator from New Mexico and the Senator from Florida.

Who yields time?

Mr. DOMENICI. Mr. President, let me say to my friend, Senator THURMOND, the chairman of the Judiciary Committee, I cannot give him 20 minutes. I only have 26 for the rest of the bill. Senator COHEN asked for 20 minutes so I gave them to him. I did not know the Senator from South Carolina wanted 20 minutes or I would not have given Senator COHEN 20.

Mr. THURMOND. The Senator knows I want to reply, of course.

Mr. DOMENICI. How about 10 minutes?

Mr. THURMOND. Ask for additional time and give me 20 minutes equal time to reply. Just ask unanimous consent. Ask unanimous consent.

Mr. DOMENICI. Mr. President, the distinguished Senator from Florida is going to yield 10 minutes of his time to me, and I yield that 10 minutes and ask unanimous consent that an additional 10 minutes be granted to the distinguished chairman of the Judiciary Committee Senator THURMOND. I ask that that time not be counted against anyone.

Mr. CHILES. The Senator is yielding another 10 minutes?

Mr. DOMENICI. I will either have to do that or give him all of my time and have none left, whichever is preferred.

Mr. CHILES. I hate to see us add time to the overall bill and everything else. I will yield some of my time and happy to do that.

Mr. DOMENICI. Give me 10 more and we will be in business.

Mr. CHILES. I cannot give the Senator 20 minutes.

The PRESIDING OFFICER. Will the Senator from New Mexico state the unanimous consent.

Mr. DOMENICI. I will not restate it until it is all right with Senator CHILES. He knows what I said.

The PRESIDING OFFICER. Who yields time?

Mr. DOMENICI. Charge it to me.

Mr. CHILES. I give him 10 and later if Senator DOMENICI needs additional time I will yield to him.

Mr. DOMENICI. I yield 20 minutes to the distinguished Senator, the chairman of the Judiciary Committee.

The PRESIDING OFFICER. The Senator from South Carolina, Mr. THURMOND, is yielded 20 minutes.

Mr. THURMOND. I wish to thank the able Senator from New Mexico.

I want to say first that the provision here has been introduced and is on the calendar now. This bill stands the same chance of being brought up as any other piece of legislation.

Why should this piece of legislation come ahead of the lobbying bill? Why should it come ahead of any other piece of legislation here?

They stuck it in here because they could not get it up. There are a lot of matters I wanted to get up and could not get up.

Last year, the leaders here in the Senate, Senator DOLE and Senator BYRD, led a movement and passed a bill to keep out extraneous matters. That was the law. That was passed. And this is extraneous. We will let the Parliamentarian rule whether it is. And if it is extraneous, why should it be included? Why should we make an exception for this over any other piece of legislation?

Mr. President, another thing, the distinguished Senator from Iowa had a bill on this subject, and the main difference between his bill and the bill here of the distinguished Senator from Maine is that the bill of the Senator from Iowa provided for a jury trial.

What they are trying to do here in this bill is to have people who are bureaucrats fine people $100,000 without a trial by jury.

Senator GRASSLEY's bill which we have already passed in the Senate provides for a jury trial.

The seventh amendment to the Constitution provides for a jury trial. I want to read it.

> In suits at common law, where the value in controversy shall exceed $20, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise reexamined in any court of the United States than according to the rules of common law.

Mr. President, we have already passed the Grassley bill and it provides to punish fraud, and I am in favor of punishing fraud and we ought to punish fraud and we have already done that except we have provided that when anyone is charged they can get a trial by jury.

What they would do in this bill is to deny trial by jury.

Is there anyone here who is in favor of passing a bill to deny someone the right of trial by jury if he can be fined $100,000?

Mr. President, as I say, this bill that is contained here now is extraneous matter. I think it will be admitted it is extraneous matter. If it is extraneous matter, why should it go on this bill? The law was passed last year by both of the leaders and the entire Senate to keep off extraneous matters.

I want to say this: I voted tonight against an amendment by the able and distinguished Senator from Virginia, who had a good amendment here, but it was held extraneous. It was extraneous and that is the reason I voted against it.

Are we going to let other amendments come in here that are extraneous, too, and pass them? If so, we are discriminating against the Senator from Virginia. We are discriminating against the Senator from Indiana, who had a good amendment. I favored his amendment. But I did not vote for it because it is an extraneous matter. And we had decided to keep off extraneous matters. And therefore, why should we give exception here to particular special favoritism? Why does the Senator want special favoritism?

Of course, there is fraud. We are against fraud. The Grassley bill will punish fraud. This amendment will limit the punishment up to $100,000. The Grassley bill has no limit. They can go up to millions of dollars which they ought to do maybe in some cases if there is a fraud.

Let us treat everybody fair on this matter.

Mr. President, I want to say further——

Mr. COHEN. Mr. President, will the Senator yield for a question?

Mr. THURMOND. No, I will not yield now because my time is so limited. I did not interrupt the Senator and I am sure he understands.

Mr. COHEN. I think the Senator is misrepresenting the facts.

Mr. THURMOND. I say this, Mr. President, I have a lobbying bill here I have been trying to get up for a long time. Should I be allowed to put the lobbying bill in here? It would be extraneous. I have not offered it here for that reason. We have been trying for weeks and weeks to get it up.

Others of you have tried to get up matters and you have not gotten them up.

Are we going to let this come up or are we going to vote on this? It is just as extraneous as mine is. It is just as extraneous as many other pieces of legislation.

As I say, the Grassley bill has already been passed and the Grassley bill provides for a trial by jury. Why should not one have a trial by jury and why should he be fined $100,000 without a trial jury? That is what this bill does.

A bureaucrat can fine him $100,000 without a trial by jury. I am in favor of a trial by jury.

But aside from the merits of the bill, I want to say here that we are following procedure and the procedure is to keep off extraneous matters.

□ 2030

This is admitted to be extraneous. And if it is admitted to be extraneous, why should we treat with favoritism this particular matter and turn down the others which we have already turned down tonight? I say, what is fair for the goose is fair for the gander. Let us treat them all alike. Let us keep off all extraneous matters. If we do that, Mr. President, then we are treating everybody equally.

Mr. President, I am now going to yield to the distinguished Senator from North Carolina, Senator HELMS, who wanted to speak on this.

Mr. President, how much time do we have left?

The PRESIDING OFFICER. There are 14 minutes and 17 seconds remaining.

Mr. THURMOND. How much time remains?

The PRESIDING OFFICER. The Senator from South Carolina, Mr. THURMOND, has 14 minutes and 17 seconds remaining.

The Senator from North Carolina is recognized.

Mr. HELMS. Mr. President, I thank the Senator for yielding to me. I will not use much of this time, but I want to get this matter clear in my own mind.

Now, it is true that the Judiciary Committee has reported a bill on this subject, is that correct?

Mr. THURMOND. That is correct. It is already passed the Senate. It gives a trial by jury and you can fine them more than $100,000.

Mr. HELMS. Does the Judiciary Committee bill provide for a vast bureaucracy to handle this matter?

Mr. THURMOND. No, it does not, it does not provide for all this bureaucracy. And I do not think any bureaucrat in the Government ought to be allowed the power to fine people $100,000. I think they ought to have a trial by jury.

Mr. HELMS. That is the Senator's point.

Mr. THURMOND. That is what the Senate bill from the Judiciary Committee did, which we have already passed here.

Mr. HELMS. But the proposed Cohen amendment would provide for the bureaucracy, is that correct?

Mr. THURMOND. It would, up to $100,000. It would be limited to that.

Mr. HELMS. Now, I will ask either the Senator from Maine or the Senator from South Carolina—I am just trying to get the facts straight in my mind—the bill which was reported from the Judiciary Committee provided for a trial by jury and was passed by the Senate. Now the Senator's amendment originated, as I understand it, in the Governmental Affairs Committee, is that correct?

Mr. COHEN. Will the Senator yield for clarification? I do not have an amendment pending. The program fraud bill is in the reconciliation bill. I do not even have an amendment pending. The program fraud bill is part of the reconciliation package passed by the Governmental Affairs Committee because, first, the bill was within our jurisdiction. Second, the Congressional Budget Office said it would save money. That is why it was included in the reconciliation package.

Mr. HELMS. I am not a lawyer and do not pretend to be one—and sometimes I thank the Lord I am not—but it bothers me that such fines as have been indicated can be ordered without a jury trial and without other existing safeguards.

Mr. COHEN. Will the Senator yield for one other point on the fines issue?

Mr. HELMS. Well, I suggest I will do that on your time.

Mr. COHEN. I do not have any time.

Mr. HELMS. Maybe on Senator CHILES' time. I do not want to use up Senator THURMOND's time.

Mr. COHEN. I think the $100,000 figure has been bandied about and that is not the situation. I thought it should be clarified before you make an error in judgment and think it is a $100,000 fine. It is a $10,000 fine per false statement filed or double the amount actually claimed, but you can never proceed on any occasion where the total claimant is more than $100,000.

Mr. HELMS. But, in any case, the defendant, or however you might describe him or her, would not have a trial by jury.

Mr. COHEN. For those cases where they are that small amount.

Mr. HELMS. I do not consider $10,000 a small amount.

Mr. COHEN. But what is happening, if I could continue, we are losing millions of dollars due to people cheating the Government, cheating you, in cases involving under $100,000 that the Justice Department refuses to prosecute. The Justice Department said we need this assistance. Justice Scalia, whom you and I voted for yesterday, wrote the memo saying we should set this process up.

Mr. HELMS. I thank the Senator. I thank the Senator from South Carolina.

Mr. THURMOND. Mr. President, I want to say again that the seventh amendment to the Constitution—you can look it up—provides that for $20 and above you can have a jury trial.

In suits at common law, where the value in controversy shall exceed $20, the right to trial by jury shall be preserved.

That is the wording of the Constitution. I have resisted the erosion of this constitutional guarantee in the past and do so again today.

Actions brought under this bill are common law actions for fraud or misrepresentation for which damages are sought. Therefore, these actions are legal in nature, and the accused must be given a jury trial. Although these program fraud provisions are referred to as "assessments" and "civil penalties," they are trying to change it. They say they are assessments and civil penalties. Well, if they can assess a civil penalty of $100,000, what is the difference? Although these program fraud provisions are classified that way, we know that it is the same as any other punishment. They are, in fact, damages and punitive damages—that is what it amounts to—for which the defendant is entitled to have a jury trial.

No Supreme Court decision has ever held that common law actions for fraud do not mandate a right to jury trial. In Atlas Roofing Company versus Occupational Safety and Health Commission, the Supreme Court upheld the imposition of civil penalties for the violation of new statutory obligations. The Court was careful to distinguish these statutorily created causes of action from common law actions: "[Congress] created a new cause of action, and remedies therefore unknown to common law, and placed their enforcement in a tribunal supplying speedy and expert resolutions of the issues involved."

These program fraud provisions are clearly rooted in common law fraud. Proponents of the legislation themselves have referred to the bill on which these provisions are based, S. 1134, as a "mini-False Claims Act," which has, since it first became law in 1863, provided for a jury trial for defendants accused of perpetrating a fraud. The False Claims Act has never allowed an administrative adjudication for fraudulent claims, a common law action. The seventh amendment clearly states that a right of jury trial attaches for common law actions. I vigorously oppose this effort to subvert the plain meaning of the Constitution.

Mr. President, I repeat, first, we have already passed a bill on fraud and it is not limited to $100,000, but it gives a jury trial to anyone that is so accused. That is the Grassley bill.

The Cohen bill is on the calendar now. It can be taken up if he wants to consider it and I will be glad for it to

be considered. I would like for my bill to be considered, as I stated, on lobbying and maybe we can reach some agreement that they can both be considered. But that is a matter that the Senate will have to determine.

On this question, it is purely whether you are going to put extraneous matters in this bill and allow them to stay in there; whether they are in there or whether you add them there, are you going to allow extraneous matters here?

The law we passed last year said we will not have extraneous matters and, therefore, that is the reason I am going to make a motion to take this out. We have already killed the other extraneous matters tonight and it would be unfair to allow this one to stay in where you have already killed some others.

Mr. President, in closing, I feel this is a very important matter. I feel this is a matter that involves the jurisprudence of this country. Are we going to set a precedent here?

A few years ago, we had a housing bill and that allowed the bureaucrats to assess a civil penalty up to $10,000. The committee would not report it out, even. They never did report it out.

Well, this bill goes to $100,000. Are you going to allow people to be assessed a civil penalty up to $100,000 and not have a trial by jury? Well, that is what this bill does.

The Grassley bill allows a trial by jury. What is wrong with that?

I say, let us stand by the Constitution and stand by jurisprudence that is sound in this country.

For those reasons, Mr. President, I will offer a motion to delete this because we think it is unfair.

I reserve the remainder of my time.

Mr. CHILES. Mr. President, I yield 1 minute off my time on the bill to the distinguished Senator from Maine.

The PRESIDING OFFICER. The Senator from Maine is recognized.

Mr. COHEN. Mr. President, I want to clarify a couple of quick points. I am really shocked to hear the Senator from South Carolina argue that we are subverting the Constitution. How in good conscience could he argue for us to support Judge Scalia to that high bench when, in fact, it was Judge Scalia who wrote and ruled that this was entirely consistent with due process? I find that shocking, that we could support a man who would subvert the Constitution.

Certainly, I would point out—and I was not going to take the time—that there is ample precedent. The Civil Monetary Penalties Act passed in 1981 is almost identical to this measure.

Finally, I would submit for the RECORD, and I will not take the time, but to my colleague, Senator HELMS, on the Agriculture Committee, we have a statute which allows for the imposition of a $10,000 fine for agriculture stockyard dealers, egg promotion, agriculture swine health, agriculture horse protection, and on and on and on. There are 200 statutes currently on the books that allow for the imposition of substantial fines pursuant to civil monetary penalties for which this Congress has authorized and advocated on many occasions in the past.

Mr. President, I ask unanimous consent that a table of statutes authorizing enforcement through administrative imposition of civil penalties be printed in the RECORD.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

TABLE OF STATUTES AUTHORIZING ENFORCEMENT THROUGH ADMINISTRATIVE IMPOSITION OF CIVIL PENALTIES

Statute and Dept./ Agency (Regulatory Concern)	Max. penalty per violation	Administrative process	Judicial review (standard)
7 U.S.C. § 86(c)(d)—Agriculture (grain weighing and sampling).	$75,000	APA Hearing (5 U.S.C. § 554).	Dist. Court (De Novo).
7 U.S.C. § 149(a)—Agriculture (insect pests and plant diseases).	[1]	APA Hearing	Ct. of Appeals (Substan. Evid.)
7 U.S.C. § 149(b)—Agriculture (same as above).	1,000	do	Do.
7 U.S.C. § 150gg—Agriculture (plant press).	1,000	do	Do.
7 U.S.C. § 163—Agriculture (nursery stock, other plants).	1,000	do	Do.
7 U.S.C. § 193(b)—Agriculture (meat packers).	10,000	do	Do.
7 U.S.C. § 213—Agriculture (stockyards, dealers).	10,000	do	Do.
7 U.S.C. § 2149—Agriculture (animal welfare).	1,000	do	Do.
7 U.S.C. § 2714(b)—Agriculture (egg promotion).	5,000	do	Do.
7 U.S.C. § 3805—Agriculture (swine health).	10,000	do	Do.
15 U.S.C. § 1825—Agriculture (horse protection).	2,000	do	Do.
16 U.S.C. § 5140(a)—Agriculture, Commerce and Interior (endangered species).	10,000	do	Dist. Court (Substan. Evid.).
21 U.S.C. § 117(b)—Agriculture (preventing contagion spread).	1,000	do	Ct. of Appeals (Substan. Evid.).
21 U.S.C. § 122—Agriculture (same as above).	1,000	do	Do.
21 U.S.C. § 127—Agriculture (quarantined animals).	1,000	do	Do.

TABLE OF STATUTES AUTHORIZING ENFORCEMENT THROUGH ADMINISTRATIVE IMPOSITION OF CIVIL PENALTIES—Continued

Statute and Dept./ Agency (Regulatory Concern)	Max. penalty per violation	Administrative process	Judicial review (standard)
21 U.S.C. § 134e—Agriculture (same as above).	1,000	do	Do.
21 U.S.C. § 135a(b)—Agriculture (same as above).	1,000	do	Do.
7 U.S.C. § 2048(b)—Labor (farm labor contractors).	1,000	do	Dist. Court (Substan. Evid.)
29 U.S.C. § 216(e)—Labor (child labor).	1,000	do	Do.
Public Law No. 97-470 (to be codified in 29 U.S.C. §§ 1801 et seq.)—Labor (migrant and seasonal agricultural workers).	1,000	do	Do.
30 U.S.C. § 933—Labor (black lung).	1,000	do	Court of Appeals (Substan. Evid.).
29 U.S.C. § 666(a)—Occupational Safety and Health Review Cmsn. (occupational safety and health).	10,000	do	Do.
29 U.S.C. § 666(b)-(d), (h)—OSHRC (same as above).	1,000	do	Do.
30 U.S.C. §§ 815(a), 820(a)—Fed. Mine Safety and Health Review Cmsn. (health, safety in coal mines).	10,000	do	Do.
30 U.S.C. § 815(b), 820(b)—FMSHRC (same as above).	1,000	do	Do.
30 U.S.C. § 820(g)—FMSHRC (same as above).	250	do	Do.
16 U.S.C. § 971e(e)(1)(A)—Commerce (Atlantic Tunas Conv.).	50,000	do	Dist. Court (Substan. Evid.).
16 U.S.C. § 971e(1)(B)—Commerce (as above).	5,000	do	Do.
16 U.S.C. § 971e(1)(C)—Commerce (as above).	100,000	do	Do.
16 U.S.C. § 1433—Commerce (marine sanctuaries).	50,000	do	Do.
16 U.S.C. § 3373—Commerce, Interior and Agriculture (illegally taken fish, wildlife).	10,000	do	Dist. Court (De Novo).
16 U.S.C. § 1858—Commerce (fishery conservation).	25,000	do	Ct. of Appeals (Substan. Evid.).
16 U.S.C. § 668(b)—Interior (protection of eagles).	5,000	do	Dist. Court (Substan. Evid.).

TABLE OF STATUTES AUTHORIZING ENFORCEMENT THROUGH ADMINISTRATIVE IMPOSITION OF CIVIL PENALTIES—Continued

Statute and Dept./Agency (Regulatory Concern)	Max. penalty per violation	Administrative process	Judicial review (standard)
16 U.S.C. § 1375(b)—Interior, Commerce and Coast Guard (marine mammal protection).	10,000	....do	Do.
30 U.S.C. § 1268—Interior (surface mining reclamation).	5,000	....do	Do.
43 U.S.C. § 1350(b)—Interior (submerged lands).	10,000	Informal Hearing	Do.
30 U.S.C. § 1462—Adm'r., Nat'l. Oceanic & Atmospheric Admin. (mineral lands and mining).	25,000	APA Hearing	Do.
16 U.S.C. § 2407—Dir. Nat'l. Science Foundation (Antarctic conservation).	10,000	....do	Do.
12 U.S.C. § 505 Fed. Reserve Bd. (banking).	100	....do	Ct. of Appeals (Substan. Evid.)
12 U.S.C. § 1847—Fed. Reserve Bd. (banking).	1,000	....do	Do.
12 U.S.C. § 504—Comptroller of the Currency, or Fed. Reserve Bd. (banking).	1,000	....do	Do.
12 U.S.C. § 1817(j)(15)—Comptroller of the Currency, Fed. Reserve Bd., or Fed. Deposit Ins. Corp. (banking).	1,000	Submission of data, views, argument.	Dist. Court (De Novo)
12 U.S.C. § 1818(i)—Same as above.	1,000	APA Hearing	Ct. of Appeals (Substan. Evid.).
12 U.S.C. § 1972(2)(F)—Same as above.	1,000	....do	Do.
12 U.S.C. § 1828(j)(3)—FDIC (banking).	1,000	....do	Do.
12 U.S.C. § 1464(d)(8)(B)—Fed. Home Loan Bank Bd. (banking).	1,000	....do	Do.
12 U.S.C. § 1730(k)(3)—Fed. Home Loan Bank Bd. (banking).	1,000	....do	Do.
12 U.S.C. § 1730(q)(16)—Fed. Home Loan Bank Bd. (banking).	10,000	Submission of data, views, argument.	Dist. Court (De Novo).
12 U.S.C. § 1730a(j)(4)—Fed. Home Loan Bank Bd. (banking).	1,000	APA Hearing	Ct. of Appeals (Substan. Evid.).
12 U.S.C. § 1786(j)(2)—Nat'l. Credit Union Admin. Bd. (banking).	1,000	....do	Do.
19 U.S.C. § 1592—Treasury/Customs Service (Tariff Act of 1930).	[2]	Notice, § 1618 proceeding.	District Court (De Novo)..
15 U.S.C. § 3414(b)(6)—Fed. Energy Regulatory Cmsn. (natural gas policy).	5,000	Notice	Do.
42 U.S.C. § 6303(d)—Energy or Fed. Trade Cmsn. (Energy Conservation).	100	APA Hearing [3] Order.	Court of Appeals (Substan. Evid.) [4] Dist. Court (De Novo).
42 U.S.C. § 8220(d)—Energy (residential energy conservation).	25,000	Same as above	Same as above.
42 U.S.C. § 8433(d)—Energy (powerplant and industrial fuel).	25,000	....do	Do.
42 U.S.C. § 1320a–7a—Health & Human Services (Medicare fraud).	[5]	APA Hearing	Ct. of Appeals (Substan. Evid.)..
42 U.S.C. § 1320c–9—HHS (Medicare fraud).	[6]	....do	Dist. Court (Substan. Evid.).
15 U.S.C. § 2008—Transportation (automotive efficiency).	10,000	....do	Ct of Appeals (Substan. Evid.).
46 U.S.C. § 170(17)—Transportation (shipping).	10,000	....do	Dist Court (De Novo).
49 U.S.C. § 1371(n)(5)—Transportation (Fed. Aviation).	10,000	....do	Ct. of Appeals (Substan. Evid.).
49 U.S.C. § 1371(n)(5)(6)—Civil Aeronautics Bd. [Transportation as of 1–1–85] (Fed. Aviation).	1,000	....do	Do.
49 U.S.C. § 1809—Transportation/Fed. Railroad Admin. (hazardous material).	10,000	Hearing (49 C.F.R. Part 209).	Dist. Court (Substan. Evid.).
33 U.S.C. § 244—Coast Guard (navigation rules of Great Lakes.	500	"Hearing" (33 C.F.R. § 1.07).	Do.
33 U.S.C. § 361—Coast Guard (Rpt. of maritime accidents).	100	Hearing	Do.
33 U.S.C. § 362—Coast Guard (Rpt. of probable loss of vessel).	100	....do	Do.
33 U.S.C. § 471—Coast Guard (Anchorage grounds).	100	....do	Do.
33 U.S.C. § 474—Coast Guard (Anchorage Regs. for St. Mary's River).	200	....do	Do.
33 U.S.C. § 1005—Coast Guard (water pollution).	10,000	....do	Dist. Court (De Novo).
33 U.S.C. § 1208—Coast Guard (Bridge-to-bridge communications).	500	....do	Dist. Court (Substan. Evid.).
33 U.S.C. § 1232—Coast Guard (navigational rule).	25,000	....do	Do.
33 U.S.C. § 1415—Coast Guard (dumping in ocean waters).	50,000	....do	Do.
33 U.S.C. § 1321(b)(6)(A)—Coast Guard (water pollution).	5,000	....do	Do.
33 U.S.C. § 1321(j)(2)—Coast Guard or Environ. Protection Agency (as above).	5,000	....do	Do.
33 U.S.C. § 1322(j)—Coast Guard (as above).	5,000	....do	Do.
33 U.S.C. § 1608—Coast Guard (collisons at sea).	500	....do	Do.
46 U.S.C. § 83i—Coast Guard (false statement on tonnage).	1,000	....do	Do.
46 U.S.C. § 83j—Coast Guard (failure to display tonnage mark).	30	....do	Do.
46 U.S.C. § 152—Coast Guard (berths for passengers).	5	....do	Do.
46 U.S.C. § 153—Coast Guard (light, air, and accommodations for passengers).	250	....do	Do.
46 U.S.C. § 155—Coast Guard (hospitals, surgeons on steamship).	250	....do	Do.
46 U.S.C. § 159—Coast Guard (death of passengers).	50	....do	Do.
46 U.S.C. § 203—Coast Guard (omitting log entries).	25	....do	Do.
46 U.S.C. § 216e—Coast Guard (unregistered pilot).	500	....do	Do.
46 U.S.C. § 224—Coast Guard (licensing of officres).	500	....do	Do.
46 U.S.C. § 224a—Coast Guard (licensing of crew).	100	....do	Do.
46 U.S.C. § 229b—Coast Guard (licensing radio-telegraph operators).	100	....do	Do.
46 U.S.C. § 229f—Coast Guard (exhibition of license).	100	....do	Do.
46 U.S.C. § 232—Coast Guard (exhibition of license).	100	....do	Do.
46 U.S.C. § 235—Coast Guard (watch duty).	100	....do	Do.
46 U.S.C. § 246—Coast Guard (certificate of registry Great Lakes).	100	....do	Do.
46 U.S.C. § 362—Coast Guard (notice of compliance with safety standards).	10,000	....do	Do.
46 U.S.C. § 390d—Coast Guard (small passenger-carrying vessel).	1,000	....do	Do.

TABLE OF STATUTES AUTHORIZING ENFORCEMENT THROUGH ADMINISTRATIVE IMPOSITION OF CIVIL PENALTIES—Continued

Statute and Dept./Agency (Regulatory Concern)	Max. penalty per violation	Administrative process	Judicial review (standard)
46 U.S.C. § 391a(14)(A)—Coast Guard (inspection of steam vessels).	25,000	...do	Do.
46 U.S.C. § 398—Coast Guard (navigating barge w/o certificate).	500	...do	Do.
46 U.S.C. § 402—Coast Guard (receiving passengers in absence of unexpired certificate of approval).	100	...do	Do.
46 U.S.C. § 420(f)—Coast Guard (inspection of steam vessels).	1,000	...do	Do.
46 U.S.C. § 436—Coast Guard (failure to make repairs).	500	...do	Do.
46 U.S.C. § 457—Coast Guard (regattas).	500	...do	Do.
46 U.S.C. § 461—Coast Guard (list of passengers).	100	...do	Do.
46 U.S.C. § 481—Coast Guard (Lifesaving and firefighting equip., master lists, tackle and hawsers, bilge sys.).	1,000	...do	Do.
46 U.S.C. § 482—Coast Guard (Copies of laws governing marine vessels).	20	...do	Do.
46 U.S.C. §§ 497,222—Coast Guard (Failure to comply w/title 52 of revised statutes).	500	...do	Do.
46 U.S.C. § 526o—Coast Guard (Motor boat violations).	200	...do	Do.
46 U.S.C. § 562—Coast Guard Merchant Seaman: (Indenture of apprentice.).	100	...do	Do.
46 U.S.C. § 567—Coast Guard Merchant Seaman: (Shipping without agreement).	200	...do	Do.
46 U.S.C. § 568—Coast Guard (Knowingly shipping seamen without articles).	200	...do	Do.
46 U.S.C. § 571—Coast Guard (Shipping seamen in foreign ports).	100	...do	Do.
46 U.S.C. § 575—Coast Guard (Shipping without article).	20	...do	Do.
46 U.S.C. § 577—Coast Guard (Posting copy of agreement).	100	...do	Do.
46 U.S.C. § 623—Coast Guard (Neglect of Master).	200	...do	Do.
46 U.S.C. § 641—Coast Guard (Mode of discharge).	50	...do	Do.
46 U.S.C. § 642—Coast Guard (Accounting as to wages).	50	...do	Do.
46 U.S.C. § 652—Coast Guard (Examination of witnesses).	100	...do	Do.
46 U.S.C. § 653—Coast Guard (Complaint that vessel is unseaworthy).	500	...do	Do.
46 U.S.C. § 660-1—Coast Guard (Space and accommodations for crew; hospital compartments).	500	...do	Do.
46 U.S.C. § 662—Coast Guard (Complaint as to provisions or water).	100	...do	Do.
46 U.S.C. § 664—Coast Guard (Permission from master).	100	...do	Do.
46 U.S.C. § 667—Coast Guard (Failure to keep medicines).	100	...do	Do.

[1] Cost of disinfection, cleaning.
[2] Domestic value of merchandise.
[3] $2,000 and double the amount claimed.
[4] Greater of $5,000 or cost of unnecessary services.
[5] Or on election of defendant.
[6] Violation ($10,000 total) for violation of section 1416(a); $500 for violation of any other provision.
[7] Value of noncompliance.

□ 2040

Mr. CHILES addressed the Chair.

The PRESIDING OFFICER. The Senator from Florida.

Mr. CHILES. I yield 1 minute to the Senator from Michigan.

Mr. LEVIN. In supporting the Senator from Maine, let me read from a letter from one of the most distinguished administrative law professors in this country, Professor Bruff of the University of Texas Law School. He wrote:

Another question has been raised whether the seventh amendment might require jury trial in program fraud contests. This is quite simply not a serious contention.

Then he goes on to quote from the case of the Atlas Roofing Co.

Again, we already have 200 statutes in this country which allow for the administrative imposition of civil penalties. This would be the 201st, and it is long overdue. The difference between this and the other so-called extraneous matters, by the way, is that this legislation is in the reconciliation bill already. This would be a technical

effort to strip it from the bill and an excessively technical interpretation, may I say, of the Reconciliation Act.

Mr. CHILES. Mr. President, I yield myself such time as I may require.

Mr. President, I think a key point here is the jurisdiction provision of the Byrd amendment. I helped work on the Byrd amendment. I was one of the ones who kept raising concerns about it. I want to remind the Senate of the cases that triggered the provision that we are talking about here on extraneous matters, especially in regard to committee jurisdiction.

The supporters of the tobacco support program did not have the votes in the Agriculture Committee in order to get that program re-authorized in the Agriculture Committee. So the majority leader at that time rounded up the votes in the Finance Committee and they tackled that on reconciliation.

We saw another instance in which the chairman of the Commerce Committee did not have the votes at that time in order to report out a major communications bill, so that bill went to the Finance Committee. It got tacked onto a reconciliation bill and that major bill came out.

This bill does not fit into that situation at all. We are talking about a bill that has three times been referred to the Committee on Governmental Affairs. It never had a sequential reference. No one ever mentioned that it should be referred to another committee. This started back in 1981, I think with a report from the Budget Committee saying to Governmental Affairs, "We need to do something about this."

Of course, we were hearing from every inspector general saying "For goodness sake, give us some help." We were hearing from the Justice Department saying, "We cannot prosecute all these cases. We have to have another way of doing it."

The distinguished Senator from Maine took this task on and has been laboring with it along with the chairman of the Governmental Affairs Committee and others since that time.

So we are not talking about once but three times under the normal procedures of the Senate.

Again a point I want to make is that this is not a provision that was contained in the amendment that we have adopted, an amendment by the Senator from New Mexico and myself. This is a provision that was in the regular reconciliation bill, the $3.5 billion that was reported out. This is something that Governmental Affairs reported out. CBO clearly said this was a money saver, saving tremendous funds for the Federal Government, and it was proper.

But, because of that language having to do with jurisdiction, the Parliamentarian has ruled that there are a couple of subsections in this bill that the Judiciary Committee could say they have some jurisdiction over, certainly not enough to get them a reference. They did not seek that reference.

The distinguished Senator from Maine has said he went to their committee and had them hold a hearing on the bill. He appeared at their committee. So it is not likely they have not had a chance to hear it.

So when you say that this is like the other matters that we have knocked out, not at all. On the other matters we have knocked out, none of them have been under the Byrd amendment. Each one of them so far have been under the general provisions where we had to take up germaneness. This is totally different.

This is the first rule that would be requested, if the distinguished Senator from South Carolina makes that request, under the Byrd amendment. It is totally different from germaneness. What we were trying to stop with the Byrd amendment was someone who could not move a bill in a committee taking it out and shopping it and taking it to another committee, as we have seen happen several times, and taking it on with a time limitation. Nothing could be further in this bill itself.

I do not think there is any reason that it should fall under those provisions, but I am not the Parliamentarian. Technically, he has ruled that it has.

Mr. COHEN. I will move the provisions, but the Members should know if that is unsuccessful on that part, what we will end up with is a continuation of fraud and abuse on the part of contractors dealing with the Federal Government with no effective relief to recover those moneys.

Mr. CHILES. Everybody in here wants to talk about what he does on waste, fraud, and abuse and what he does to try to stop it. We have a letter from the inspector general of the Department of Defense who says,

> I believe that your fraud bill is the single most important weapon to combat fraud, although it should be applicable across the board wiithout a monetary gap.

What he is saying is that this is too weak.

I think this is the one where you will get a chance to see how you stand on waste, fraud, and abuse.

Mr. THURMOND. How much time remains?

The PRESIDING OFFICER. The Senator has 5 minutes and 24 seconds.

Mr. THURMOND. Mr. President, I just want to say that someone suggested that I seek a referral of this bill to another committee. I did not want to delay it. It could go on the calendar and it is on the calendar. It can be considered in due course.

But, again I say if it is extraneous, it should not be on this bill. If you put this on here it would be unfair to others who are trying to put in other bills that are good bills, too.

Of course, we are against fraud. We have laws against fraud. The Grassley bill is a good bill on fraud. It provides for a jury trial. This does not. Just wait until somebody has a case here and is assessed a civil penalty of $100,000 and then what are the people going to say? They will say, "What in the world is the Senate doing that does not give a person a trial by jury but he gets a civil penalty of $100,000?"

Mr. President, I yield back the remainder of my time.

The PRESIDING OFFICER. Who yields time?

PROGRAM FRAUD CIVIL REMEDIES ACT

Mr. MATHIAS. Mr. President, I rise to commend the senior Senator from Maine, Senator COHEN, for his diligent efforts to combat fraud against the Government.

As a member of the Governmental Affairs and Judiciary Committees, I have followed several pieces of legislation that address the problem of false claims against the Government. The Program Fraud Civil Remedies Act—legislation often described as a "mini" False Claims Act—establishes a remedy for combatting the contemptible frauds that Americans hear about all too frequently.

At a time when every Federal department and agency is struggling to keep up with budgetary demands, it is infuriating to know that Americans are being cheated out of desperately needed funds. During arduous times marked by the elimination of Government programs, these frauds are particularly loathsome because they undermine the confidence in which Americans hold their Government.

While many might be tempted to react to this problem with an overly broad and instrusive response, it is comforting to find that Senator COHEN, sponsor of the legislation, has been sensitive that due process protections vital to our legal system are not overlooked.

For example, the bill demands a standard of intent that ensures that individuals who act in good faith with no wrongful purpose are not punished. I was pleased to see that the committee report accompanying the bill explicitly states that errors arising from mere negligence, mistake, momentary thoughtlessness or inadvertence will not result in liability. This standard of intent will help to ensure that innocent people are not unjustly hounded.

I would ask the Senator from Maine to clarify two issues of critical interest. The first involves the possibility that this legislation could subject Federal employees to disingenuous charges or "witch hunts," if you will.

While I have no sympathy for the civil servant who cheats his friends and neighbors by engaging in fraudulent activities, I am concerned about the overwhelming majority of Government employees who are hard working and conscientious individuals—men and women whose work is vital to the smooth operation of the many services and programs that we have come to take for granted. I would like to ask my friend from Maine whether he intends for the legislation to supersede the various regulations and procedures that have been implemented to protect Government employees involved in simple disputes with their supervisors.

Mr. COHEN. I would first like to thank the senior Senator from Maryland, who has long been a strong advocate for Federal employees' rights, for his supportive comments. In response to the Senator's inquiry, I want to assure him that we do not intend for the program fraud bill to supersede the time-tested disciplinary proceedings provided under current law. The committee report accompanying S. 1134 specifically states that these disciplinary proceedings are separate and distinct from the program fraud proceedings, and that employees' rights provided under current law would remain unchanged.

Mr. MATHIAS. It nonetheless concerns me, Mr. President, that under certain circumstances, a simple, run-of-the-mill dispute between a government employee and his or her supervisor might be actionable under this bill. I'd like to ask Senator COHEN whether S. 1134 safeguards against potential abuse like this?

Mr. COHEN. The bill most certainly does safeguard against potential abuse. There are numerous checks and balances inherent in the program fraud proceeding, which, coupled with the due process protections adopted from the Administrative Procedure Act, provide sufficient insulation between actors to ensure objective, independent, and fair decisions.

First, investigations are conducted by the agency's "investigating official," usually the inspector general, who is independent of the agency. Any allegations of wrongdoing are considered by the agency's "reviewing official," a person separate from the investigating official's office, to determine whether there is adequate evidence to believe that a false claim or statement has been made. The reviewing official is expected to provide an objective assessment of the evidence, free from any prosecutorial bias, to screen the meritorious cases from those that lack merit.

If the reviewing official determines there is adequate evidence, the matter is referred to the Justice Department for review and approval. This procedure ensures that the Department will have an opportunity to review the charges and elect, if it so chooses, to litigate in Federal court. If the Department declines litigation and approves administrative action, the agency may commence proceedings against the person alleged to be liable.

In the case of a "run-of-the-mill" dispute, as described by my friend from Maryland, I do not believe that the Justice Department should initiate litigation or approve administrative action. If the charges so require, however, the reviewing official would issue a "complaint," notifying the person of the charges and of his or her right to a hearing.

An administrative law judge—an independent, trained hearing examiner—would conduct the hearing to determine whether or not the person is liable and the amount of penalty and assessment, if any, to be imposed. The hearing itself would be conducted pursuant to the due process safeguards of the Administrative Procedure Act, which entitles the person to a written notice of the allegations, the right to be represented by counsel, and the right to present evidence on his or her own behalf. The bill even goes beyond these APA protections by granting the person expansive discovery rights.

Finally, the person accused of wrongdoing has the right, after having exhausted all administrative appeals, to seek judicial review in the U.S. Court of Appeals for the circuit in which the person resides or in which the claim or statement found to be liable was made.

Taken together, I believe these procedural safeguards will effectively serve to preclude any such "witch hunts."

Mr. MATHIAS. I thank the senior Senator from Maine for that explanation. My second concern, Mr. President, is the possibility that the legislation could be used against beneficiaries of Government programs, such as Medicare, Medicaid, or food stamp recipients, who may inadvertently submit erroneous claims to the Government through mere negligence or mistake. I am concerned because, in many instances, the beneficiaries are elderly or poorly educated.

I would like to ask my colleague, Senator COHEN, how he foresees this administrative proceeding being used in beneficiary fraud cases, and, again, whether he believes there is a potential for abuse in these cases.

Mr. COHEN. The program fraud bill is intended to apply Governmentwide, since fraud in benefit and assistance programs is just as costly as fraud in defense procurement. While most of the "horror" stories we read about in the papers involve procurement fraud, there is substantial evidence of fraud in benefit programs as well.

As I've mentioned, the program fraud bill is designed to serve as an administrative counterpart of the civil False Claims Act, which covers anyone who submits a false claim to the Government. The bill, therefore, would capture conduct already prohibited by the False Claims Act—including fraud in benefit programs—which could be litigated in court but is not.

Concerning the potential for abuse, I would again emphasize to my friend, Senator MATHIAS, that the safeguards provided in the bill will prevent any such abuse. In addition to the protections already mentioned, the bill also requires that the agency, before proceeding with administrative action against a person alleged to be liable, must assess the prospects for collecting money from that person. If there are no prospects for collection, which may frequently be the case with low-income beneficiaries, it is our intent that the agency should not go forward with administrative action. In addition, we would oversee implementation of the bill, if passed, to ensure that it is not used to harass bona fide recipients of Government benefits.

In my judgment, Mr. President, persons who receive benefits through fraud cheat the legitimate beneficiaries who need these assistance programs. In addition to recouping money lost to fraud, then, the program fraud bill would enhance public support for these programs by helping to deter persons who are ineligible to participate.

Mr. MATHIAS. I agree and congratulate my colleague for his excellent work. I am pleased to see the bill pass the Senate with the clarifications provided by the Senator from Maine.

Mr. DOMENICI. Let me say to my good friend, Senator THURMOND, that I am most appreciative. I am sorry it was difficult for me to yield but I did not have much time. As I understand it, before I started talking, I had 16 minutes on my side.

The PRESIDING OFFICER. That is correct.

Mr. DOMENICI. The issue that has been debated has not yet been raised. Sometime in the next couple of hours it will get raised. You will all remember the arguments, I assume, and decide how you are going to vote.

I understand the distinguished Senator from Kansas would like to offer an amendment. I wonder if she can tell us how much time she will use.

Mrs. KASSEBAUM. I thank the Senator from New Mexico. I believe 10 minutes on my side. I would like to have a little bit more but I can do it in 10 minutes.

□ 2050

Mr. DOMENICI. Why do we not try 10 on the Senator's side and 5 in opposition for now and let us see where we end up.

Mrs. KASSEBAUM. That is all right, Mr. President.

The PRESIDING OFFICER. Does the Senator make a unanimous-consent request?

Mr. DOMENICI. Mr. President, I ask unanimous consent that sub be the time allowed on this amendment.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The Senator from Kansas [Mrs. KASSEBAUM] is recognized.

AMENDMENT NO. 2855

(Purpose: To provide for unform standards of liability for harm arising out of general aviation accidents)

Mrs. KASSEBAUM. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Kansas [Mrs. KASSEBAUM], for herself, Mr. DOLE, Mr. NICKLES, Mr. DENTON, Mr. HARKIN, Mr. PRESSLER, Mr. GARN, Mr. ABDNOR, Mr. HEINZ, Mr. KASTEN, Mr. GOLDWATER, Mr. INOUYE, Mr. SIMPSON, Mr. EXON, Mr. SPECTER, Mr. ZORINSKY, Mr. WALLOP, Mr. MURKOWSKI, Mr. RUDMAN, and Mrs. HAWKINS, proposes an amendment numbered 2855.

Mrs. KASSEBAUM. Mr. President, I ask unanimous consent that further reading be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place in the amendment, add the following:

TITLE .—AVIATION ACCIDENT LIABILITY

SHORT TITLE

SEC. 01. This title may be cited as the "General Aviation Accident Liability Standards Act of 1986".

FINDINGS AND PURPOSE

SEC. 02. (a) THE CONGRESS FINDS THAT—

(1) transportation by air of passengers continues to comprise an increasingly important component of the Nation's overall transportation system;

(2) although the incidence of injuries to passengers in general aviation accidents has decreased, the number of general aviation accident liability claims against general aviation aircraft manufacturers and the amount of damages sought in such claims is increasing at disproportionate rates, beyond any relationship to the quality of the aircraft manufactured and in use;

(3) the current system for determining liability and damages for compensating individuals injured in general aviation accidents is inadequate;

(4) competent general aviation manufacturers and component part manufacturers are ceasing or limiting production of general aviation aircraft or some models of such aircraft because of the increasing costs and unavailability of product liability insurance;

(5) the increase in the number of liability claims and the size of awards and settlements, and the excessive time and expense devoted to the resolution of such claims, impose a substantial economic burden on general aviation manufacturers and their dealers;

(6) the Federal Government has an interest in the general aviation accident liability system because the Federal Government has established a comprehensive system for regulating general aviation, including—

(A) establishing standards for design, construction, and certification of general aviation aircraft,

(B) establishing standards for maintenance of aircraft, licensing of repair facilities, and licensing of persons who may perform or approve maintenance, repairs, and inspections,

(C) establishing standards for training and licensing of pilots,

(D) establishing a comprehensive air control system,

(E) conducting investigations to determine the probable cause of aviation accidents and prevent future accidents, and

(F) conducting other activities necessary to assure a safe air transportation system,

and this Federal system is the exclusive legal authority for regulating aviation operations and safety;

(7) it is in the national interest to reduce unnecessary expenditures related to general aviation accident liability claims while providing more rapid and more efficient compensation for individuals harmed in general aviation accidents; and

(8) Federal action to reform the general aviation accident liability system will result in—

(A) the maintenance of airworthy general aviation aircraft; and

(B) a more rational general aviation accident liability system.

(b) It is the purpose of this title to establish standards for determining liability for harm arising out of general aviation accidents.

DEFINITIONS

SEC. 03. As used in this title, the term—

(1) "Administrator" means the Administrator of the Federal Aviation Administration;

(2) "claimant" means any person who brings a general aviation accident liability action subject to this title, and any person on whose behalf such an action is brought, including—

(A) the claimant's decedent; and

(B) the claimant's parent or guardian, if the action is brought through or on behalf of a minor or incompetent;

(3) "general aviation accident" means any accident which arises out of the operation of any general aviation aircraft and which results in harm;

(4) "general aviation aircraft" means any aircraft for which a type certificate or an airworthiness certificate has been issued by the Administrator under the Federal Aviation Act of 1958 (49 App. U.S.C. 1301 et seq.), which, at the time such certificate was originally issued, had a maximum seating capacity of fewer than twenty passengers, and which is not, at the time of the accident, engaged in scheduled passenger carrying operations as defined in regulations issued under the Federal Aviation Act of 1958 (49 App. U.S.C. 1301 et seq.);

(5) "general aviation manufacturer" means—

(A) the builder or manufacturer of the air frame of a general aviation aircraft;

(B) the manufacturer of the engine of a general aviation aircraft; and

(C) the manufacturer of any system, component, subassembly, or other part of a general aviation aircraft;

(6) "harm" means—

(A) property damage or bodily injury sustained by a person;

(B) death resulting from such bodily injury;

(C) pain and suffering which is caused by such bodily injury; and

(D) emotional harm (including bereavement and loss of affection, care, or society) which is caused by such bodily injury;

(7) "product" means a general aviation aircraft and any system, component, subassembly, or other part of a general aviation aircraft; and

(8) "property damage" means physical injury to tangible property, including loss of use of tangible property.

PREEMPTION; APPLICABILITY

SEC. 04. (a) This title supersedes any State law regarding recovery, under any legal theory, for harm arising out of a general aviation accident, to the extent that this title establishes a rule of law or procedure applicable to the claim.

(b) Nothing in this title shall be construed to supersede or to waive or affect any defense of sovereign immunity asserted by the United States or any State.

(c) Nothing in this title shall be construed to affect the liability of a manufacturer, owner or operator of any aircraft that is not a general aviation aircraft, or a person who repairs maintains, or provides any other support for any aircraft that is not a general aviation aircraft, for damages for harm arising out of the operation of an aircraft that is not a general aviation aircraft.

(d) No right of action for harm exists under this title if that right would be inconsistent with the provisions of any applicable workers' compensation law.

(e) The provisions of this title shall only apply to—

(1) any manufacturer, owner, or operator of any general aviation aircraft, and any person who repairs, maintains, or provides any other support for such an aircraft;

(2) any occupant of a general aviation aircraft at the time of a general aviation accident, and any person who brings an action for harm caused by such accident on behalf of such occupant; and

(3) any nonoccupant of a general aviation aircraft at the time of a general aviation accident, only if such nonoccupant is bringing an action for harm caused by such accident which arises out of the harm to an occupant of such aircraft at the time of such accident.

UNIFORM STANDARDS OF LIABILITY FOR GENERAL AVIATION ACCIDENTS

SEC. 05. (a) Any person claiming damages for harm arising out of a general aviation accident may bring an action against a party and may recover damages from such party, if such party was negligent and such negligence is a proximate cause of the claimant's harm.

(b)(1) Any person claiming damages for harm arising out of a general aviation accident may bring an action against a general aviation manufacturer of a product and may recover damages from such general aviation manufacturer if—

(A) the product, when it left the control of the manufacturer, was in a defective condition unreasonably dangerous for its intended purpose, according to engineering and manufacturing practices which were reasonably feasible;

(B) the defective condition is a proximate cause of the claimant's harm; and

(C) the general aviation aircraft was being used at the time of the accident for a pur-

pose and in a manner for which it was designed and manufactured.

(2) Any person claiming damages for harm arising out of a general aviation accident may bring an action against a general aviation manufacturer of a product and may recover damages from such general aviation manufacturer if—

(A) at the time the product left the control of the manufacturer, the manufacturer—

(i) knew, or in the exercise of reasonable care should have known, about a danger connected with the product that caused the claimant's harm; and

(ii) failed to provide the warnings or instructions that a person exercising reasonable care would have provided with respect to the danger which caused the harm alleged by the claimant, unless such warnings or instructions, if provided, would not have materially affected the conduct of the user of the product; or

(B) after the product left the control of the general aviation manufacturer, the manufacturer—

(i) knew, or in the exercise of reasonable care should have known, about the danger which caused the claimant's harm; and

(ii) failed to take reasonable steps to provide warnings or instructions, after the manufacture of the product, which would have been provided by a person exercising reasonable care, unless such warnings or instructions, if provided, would not have materially affected the conduct of the product user;

and the failure to provide warnings or instructions described in subparagraph (A) and (B) of this paragraph is a proximate cause of the claimant's harm.

(3) Any person claiming damages for harm arising out of a general aviation accident may bring an action against a general aviation manufacturer of a product and may recover damages from such general aviation manufacturer if—

(A) the manufacturer made an express warranty with respect to the product;

(B) such warranty relates to that aspect of the product which caused the harm;

(C) the product failed to conform to such warranty; and

(D) the failure of the product to conform to such warranty is a proximate cause of the claimant's harm.

(c)(1) In an action governed by subsection (b) of this section, a general aviation manufacturer shall not be liable if such manufacturer proves, by a preponderance of the evidence, that—

(A) the defective condition could have been corrected by compliance with action described in an airworthiness directive issued by the Administrator or a service bulletin issued by the manufacturer of the product; and

(B) such directive or service bulletin was issued at a reasonable time before the date of the accident and after the product left the control of the general aviation manufacturer.

(2) In any action governed by subsection (b) of this section, evidence of compliance with standards, conditions or specifications established, adopted or approved by the Federal Aviation Administration shall be admissible with regard to whether the product was defective and unreasonably dangerous for its intended purpose.

COMPARATIVE RESPONSIBILITY

SEC. 06. (a) All actions for harm arising out of a general aviation accident shall be governed by the principles of comparative responsibility. Comparative responsibility attributed to the claimant's conduct shall not bar recovery in an action under this title, but shall reduce any damages awarded to the claimant in an amount proportionate to the responsibility of the claimant. The trier of fact shall determine comparative responsibility by making findings indicating the percentage of total responsibility for the claimant's harm attributable to the claimant, each defendant, each third-party defendant, and any other person not a party to the action.

(b) Except as provided in subsection (c) of this section, a defendant is severally but not jointly liable in any action for harm arising out of a general aviation accident, and the liability of any defendant in any such action shall be determined on the basis of such defendant's proportionate share of responsibility for the claimant's harm.

(c) In any action for harm arising out of a general aviation accident—

(1) a general aviation manufacturer who is the builder or manufacturer of the airframe of the general aviation aircraft involved is jointly and severally liable for harm caused by a defective system, component, subassembly, or other part of such aircraft that the manufacturer installed or certified as part of the original type design for such aircraft; and

(2) a general aviation manufacturer who is the manufacturer of a system or component of the general aviation aircraft involved is jointly and severally liable for damages caused by a defective subassembly or other part of such system or component.

(d) A general aviation manufacturer and any other person jointly liable under subsection (c) of this section shall have the right to bring an action for indemnity or contribution against any person with whom they are jointly liable under subsection (c) of this section.

TIME LIMITATION OF LIABILITY

SEC. 07. (a) Except as provided in subsection (b) of this section, no civil action for harm arising out of a general aviation accident which is brought against a general aviation manufacturer may be brought for harm which is alleged to have been caused by an aircraft or a system, component, subassembly, or other part of an aircraft and which occurs more than—

(1) twenty years from—

(A) the date of delivery of the aircraft to its first purchaser or lessee, if delivered directly from the manufacturer; or

(B) the date of first delivery of the aircraft to a person engaged in the business of selling or leasing such as aircraft; or

(2) with respect to any system, component, subassembly, or other part which replaced another product in, or which was added to, the aircraft, and which is alleged to have caused the claimant's harm, twenty years from the date of the replacement or addition.

(b) Subsection (a) of this section does not apply in the case of harm to a claimant which occurs after the period set forth in subsection (a) of this section if the general aviation manufacturer or the seller of the product that caused the claimant's harm gave an express warranty that the product would be suitable, for the purpose for which it was intended, for a longer period of time.

(c) Nothing in this section shall be construed to affect a person's duty to provide, after the sale or lease of an aircraft, to aircraft owners, and to repair facilities to which a license or certificate to perform repairs has been issued by the Administrator, additional or modified warnings or instructions regarding the use or maintenance of such aircraft or any system, component, or other part of such aircraft.

SUBSEQUENT REMEDIAL MEASURES

SEC. 08. In any general aviation accident liability action governed by this title, evidence of any measure taken after an event which, if taken previously, would have made the event less likely to occur is not admissible to prove liability. Such evidence is admissible to the extent permitted under rule 407 of the Federal Rules of Evidence.

ADMISSIBILITY OF CERTAIN EVIDENCE

SEC. 09. In an action governed by this title, evidence of Federal, State, or local income tax liability or any social security or other payroll tax liability attributable to past or future earnings, support, or profits and the present value of future earnings, support, or profits alleged to have been lost or diminished because of harm arising out of a general aviation accident is admissible regarding proof of the claimant's harm.

PUNITIVE DAMAGES

SEC. 10. (a) Punitive damages may be awarded in an action under this title for harm arising out of a general aviation accident only if the claimant establishes by clear and convincing evidence that the harm suffered was the direct result of conduct manifesting a conscious, flagrant indifference to the safety of those persons who might be harmed by use of the general aviation aircraft involved.

(b) Evidence regarding the financial worth of a defendant or the defendant's profits or any other evidence relating solely to a claim for punitive damages under this title is not admissible unless the claimant establishes, before any such evidence is offered, that the claimant can present evidence that will establish prima facie proof of conduct manifesting a conscious, flagrant indifference to the safety of those persons who might be harmed by use of the general aviation aircraft involved.

(c) In any civil action in which the alleged harm to the claimant is death and the applicable State law provides, or has been construed to provide, for damages only punitive in nature, a defendant may be liable for any such damages pursuant to the provisions of this title regardless of whether a claim is asserted under this section. The recovery of any such damages shall not bar a claim under this section.

TIME LIMITATION ON BRINGING ACTIONS

SEC. 11. (a) Any action for harm arising out of a general aviation accident shall be barred, notwithstandng any State law, unless—

(1) the complaint is filed within 2 years after the date on which the accident occurred which caused the claimant's harm; and

(2) the summons and complaint are properly served upon the defendant within one hundred and twenty days after the filing of such compliant, unless the party on whose behalf such service is required can show good cause why such service was not made within such one hundred and twenty-day period.

Paragraph (2) of this subsection shall not apply to service of process in a foreign country pursuant to Rule 4(i) of the Federal Rules of Civil Procedure or any similar State law.

SANCTIONS

SEC. 12. It is the intent of Congress that, with respect to any action governed by this title, the sanctions for violation of rule 11 of the Federal Rules of Civil Procedure, including orders to pay to the other party or parties the amount of their reasonable expenses, including a reasonable attorney's fee, be strictly enforced.

SEC. 13. (a) The district courts of the United States, concurrently with the State courts, shall have original jurisdiction, without regard to the amount in controversy, in all civil actions for harm arising out of a general aviation accident and in all actions for indemnity or contribution described in section—06(d) of this title.

(b) A civil action which is brought in a State court may be removed to the district court of the United States for the district embracing the place where the action is pending without the consent of any other party and without regard to the amount in controversy, by any defendant against whom a claim in such action is asserted for harm arising out of a general aviation accident.

(c) In any case commenced in or removed to a district court of the United States under subsection (a) or (b) of this section, the court shall have jurisdiction to determine all claims under State law that arise out of the same general aviation accident, if a substantial question of fact is common to the claims under State law and to the Federal claim, defense, or counterclaim.

(d)(1) A civil action in which the district courts of the United States have jurisdiction under subsection (a) of this section may be brought only in district in which—

(A) the accident giving rise to the claim occurred; or

(B) any plaintiff of defendant resides.

(2) In an action pending in a district court of the United States under paragraph (1) of this subsection, a district court may, on motion of any party or its own motion, transfer the action to any other district for the convenience of parties and witnesses in the interest of justice.

(3) For purposes of this subsection, a corporation shall be considered to be a resident of any State in which it is incorporated or licensed to do business or is doing business.

SEVERABILITY

SEC. 14. If any provision of this title or the application of the provision to any person or circumstance is held invalid, the remainder of this title and the application of the provision to any other person or circumstance shall not be affected by such invalidation.

EFFECTIVE DATE

SEC. 15. (a) This title shall apply to any civil action for harm arising out of a general aviation accident which is filed on or after the date of enactment of this Act.

(b) If an action governed by this title is filed within one hundred and eighty days after the date of enactment of this Act, liberal leave shall be given to a party to amend any pleading, motion, statement of jurisdiction or venue, or other matter to conform to the provisions of this title.

Mrs. KASSEBAUM. This is the General Aviation Liability Standards legislation, Mr. President. I should like to read the cosponsors of this legislation because it is a strong bipartisan list of Senators:

Senators DENTON, HARKIN, PRESSLER, GARN, ABDNOR, HEINZ, KASTEN, GOLDWATER, DOLE, INOUYE, SIMPSON, EXON, SPECTER, ZORINSKY, WALLOP, MURKOWSKI, NICKLES, RUDMAN, and HAWKINS.

I want briefly to state why I think general aviation should receive individual treatment. Many have asked why it should be broken out in a separate fashion from any comprehensive liability legislation. I think, Mr. President, a good case can be made because there is a unique Federal interest in aviation. There is no other area which is so heavily federally regulated as aviation. I should like briefly to say what this amendment would do.

One, it would establish Federal jurisdiction and rules of strict liability and negligence for airframe and component manufacturers;

It would require damages to be allocated based on comparative responsibility but hold general aviation manufacturers jointly liable with respect to all parts of an original airplane;

It would allow claims for punitive damages only if claimant first shows evidence of a "conscious, flagrant indifference to the safety" of others;

It would establish a 20-year statute of repose for aircraft and replacement parts; and

It would permit recovery of attorneys' fees by plaintiffs and defendants in cases of frivolous suits, motions, and so on.

Mr. President, I wish also to say what this bill does not do. It does not cap any damages. It does not impose any restrictions on lawyer's contingency fees;

It does not waive the responsibility to supply warnings against dangers regardless of the age of the product;

It does not affect the rights of persons who are injured on the ground;

It does not affect other, more general areas of product liability law.

One of the reasons I think this is such a pressing issue, Mr. President—and let me say we have had a lengthy hearing and it has passed the Commerce Committee by a unanimous vote. The reason I think it is so pressing that I am going to attempt to add it to the reconciliation measure—and I realize all the difficulties of doing that—is that general aviation is in dire straits today. One of the reasons is the soaring cost of liability insurance. I might just give an example: In Ohio, Macauley Division of Cessna Aircraft, is located near Dayton, OH. Since 1979, more than 200 jobs have been lost and the cost of product liability insurance has gone from 7,000-some dollars in 1970 to about $1.2 million next year.

It is estimated today that the cost of liability insurance adds about $80,000 per plane. This is why I think it is very important for us to take a piece of legislation, which we have worked out with amendments to try to meet some of the Members' concerns, that I think is a very constructive way to assist not only the needs of general aviation but consumers as well.

Mr. President, I wish to yield a few minutes to the majority leader.

Mr. DOLE. Mr. President, I am pleased to be a cosponsor of the General Aviation Liability Standards Act of 1986, introduced by my colleague and friend from the State of Kansas. I commend her for her efforts to address a critical issue facing the aircraft manufacturers in this country, especially those in my home State.

STATE OF THE INDUSTRY

Since 1978, there has been a steep and continuous decline in the manufacturing of general aviation aircraft across the country. Sales of light aircraft have been dropping for a number of reasons: high-interest rates, barriers to foreign trade, uncertainty overtax law changes, a big supply of good and inexpensive used aircraft, and the effects of skyrocketing insurance premiums. Six years of declining sales have trimmed the work force at Cessna, Beech Aircraft Corp., and Gates Learjet Corp., from a peak of 25,700 in late 1979 to about 10,650 in Wichita today.

This reduction has caused great concern among many in my home State—and rightfully so. The sad state of the agricultural economy, in addition to the declining number of those employed by the aircraft industry, should certainly be a reason for alarm among those concerned with our States economy and the future of Kansas. After all, the aircraft industry in Kansas is second only to agriculture as our State's largest employer. Approximately 15,000 people work for Boeing Military Airplane Co. alone.

IMPACT ON CESSNA ALONE

Mr. President, recently, Cessna Aircraft Co. of Wichita announced it would lay off an additional 900 employees—the sharpest reduction in its history. Cessna is the world's largest manufacturer of light aircraft and has built more than 176,000 planes, including almost 1,400 business jets and 2,000 military jet planes. In the first 4 months of this year—through April—Cessna sold only 153 airplanes worth $55 million. That compares to 268 planes worth $151.8 million in the first 4 months of 1985—the year that was the light aircraft industry's worst. The Cessna layoff means a payroll loss of about $20 million and an economic loss to the city of Wichita of about $50 million.

According to Russ Meyer, chairman of Cessna Aircraft Co. and a panelist, the layoffs are the result of a decision by Cessna to immediately stop producing its smallest plane: the single and multiengine piston-powered aircraft that are the backbone of its learn-to-fly operations. Russ and other company officials, attribute the small-aircraft shutdown to a continuing slump in sales and most importantly, to the

overall effects of skyrocketing product liability costs. Because these costs must be added to the price of a airplane, today's buyer is paying over $70,000 per airplane in insurance costs alone.

SKYROCKETING INSURANCE COSTS

Although business aviation's safety record continues to improve, the industry's product-liability insurance bill has climbed an average of 500 percent per company since 1981. Beech Aircraft Co. alone, shelled out more than $20 million to insure itself against product-liability claims in 1985.

UNIFORM STANDARD MAKES SENSE

Mr. President, aviation is a natural candidate for Federal product liability standards. General aviation products are federally regulated in design, production, and maintenance. Pilots and mechanics are regulated through training, licensing, and operating procedures. The air traffic control system is federally operated and interstate in scope. It would make sense to create a uniform standard whereby everyone would be treated equally under the law.

The General Aviation Liability Standards Act of 1986 will go a long way toward addressing one of the most serious concerns of the aircraft industry. I am pleased to be a cosponsor of this important piece of legislation.

The state of the general aviation industry is grave. We cannot wait another year, or 2 years, to address this problem because many of these manufacturers simply will not last that long. I don't know if a consensus can be reached on the overall question of product liability this session, but, as it affects general aviation, both Senators from Kansas believe we can and should enact legislation this year.

Mr. President, I want to underscore the argument just made by my distinguished colleague [Mrs. KASSEBAUM]. She indicated in her statement that this adds about $80,000 to the cost of an airplane. She has also indicated what it has done as far as employment is concerned. Just to give an idea I mentioned that 6 years of declining sales have trimmed the workforce at Cessna, Beech Aircraft Corp. and Gates Learjet from a peak of 25,700 in late 1979 to about 10,650 in Wichita today.

We cannot sell airplanes. We have added $40,000 to $80,000 to the cost of an airplane because of product liability. It certainly has caused great concern in our State, and I think other States as well. You add this to the troubled farm economy, and we are also in the so-called oil patch and that has been depressed, and it becomes quite a burden on any State, particularly a small State.

Senator KASSEBAUM has taken the lead on this legislation for the past several months. She has been working every day to see if we could not get some action. That is why she is taking this unusual step this evening.

We know it takes 60 votes. We know we should not clutter up reconciliation bills with a lot of extraneous legislation. But there is a procedure and if you can get 60 votes, then I think it is worth doing. In any event, I think the American people should understand that the Senate made an effort and I believe it will be a successful effort. So I join my colleague on this amendment.

The PRESIDING OFFICER. Who yields time?

Mr. BUMPERS. Will the junior Senator from Kansas yield for a question?

Mrs. KASSEBAUM. I shall be happy to yield.

Mr. BUMPERS. The Senator has made a very eloquent, impassioned plea for help to the depressed part of the economy of Kansas, and certainly all of us understand that. I do not know how I am going to vote on the amendment, but as ranking member on the Small Business Committee, let me say we held hearings on this very issue. I heard one horror story after another; for example, a bus company in Little Rock, AR, literally being put out of business.

How would the Senator answer the criticism that we are taking care of one segment of the economy when the whole economy—and especially small business people are the ones that are really being most impacted by product liability rates?

Mrs. KASSEBAUM. Mr. President, I certainly agree with the Senator from Arkansas. My answer to that is I am a cosponsor of the comprehensive product liability legislation as well. But starting out, I spoke to the uniqueness of the aviation industry. Today, there are individual pilots who simply cannot afford to have a small plane because of the cost of the liability insurance. I think that there are some Federal standards that have to be met by pilots, by the manufacturers, that it is an industry which is really regulated from start to finish. That is why I think it can be addressed and handled in a separate manner.

Mr. BUMPERS. I say to the Senator she is always very eloquent and persuasive in these cases, but I must say I am a little hesitant to vote for the Senator's amendment because it will be difficult to explain to some depressed and hard-pressed people in my State, for example, who are not getting the same relief. I do not blame the Senator for taking care of a segment of her economy. We all try to take care of constituents in our respective States.

Mrs. KASSEBAUM. I wish to say to the Senator from Arkansas that I shall be more than glad to try to work with him on any additional product liability legislation. I, too, think it is very important.

Mr. BUMPERS. I thank the Senator.

Mr. JOHNSTON. Mr. President, will the Senator yield for a question?

Mrs. KASSEBAUM. I am happy to yield.

Mr. JOHNSTON. I thank the distinguished Senator.

Mr. President, I will say the whole subject of product liability insurance is to me a very troubling, very difficult, very complicated subject and a cause of great concern. I should like, where possible, to put reasonable limits on that to the end that business can continue and we do not put people out of business. But I wonder, does the Senator feel that we should pass this legislation without even having a copy of the legislation before us? I do not know whether it is even possible to get a copy of the legislation.

Mrs. KASSEBAUM. Mr. President, we can. There have been several of the Senator's colleagues who have gone around on this in extensive hearings and modifications made in the legislation when we had markup in the Committee on Commerce. I went down the basic provisions, but I shall be happy to get a copy of the bill to the Senator.

Mr. JOHNSTON. If the Senator will yield further, I said this as not so much being hostile to the idea at all, but I just hesitate to legislate on a complicated subject in this manner.

□ 2100

The other night we passed one amendment, another amendment was described and we passed still another amendment, and we had to go back and straighten that out. The reason for that was we acted in great haste, and I fear that we are doing that at this time.

Mrs. KASSEBAUM. Mr. President, I know there are going to be many who share that concern because it is a comprehensive and complex area of legislation. But we so thoroughly went through it, I believe, in the Commerce Committee, trying to address the concerns of Senator HOLLINGS and Senator INOUYE and others who did have some concerns about it. But we are supportive of Senator EXON and others and I think took care, I would hope, of a number of issues that were raised in the Commerce Committee. Unfortunately, because of the time constraints——

The PRESIDING OFFICER. The Senator's time has expired.

Mrs. KASSEBAUM [continuing]. We are out of time.

The PRESIDING OFFICER. Who yields time?

Mr. CHILES. Mr. President, I yield 4 minutes to the distinguished Senator from Ohio.

The PRESIDING OFFICER. The Senator from Ohio [Mr. METZENBAUM].

Mr. METZENBAUM. Mr. President, this is a very controversial piece of legislation. There is some merit to it. There is a considerable amount of demerit to it. But there is no argument that this does not belong on the budget reconciliation measure. As a matter of fact, this measure came out of the Commerce Committee and then the distinguished chairman and ranking member of the Judiciary Committee wrote to the chairman of the Commerce Committee asking for subsequent referral to the Judiciary Committee. And that has not occurred. Suddenly we find ourselves confronted with this measure as an add-on to the budget reconciliation bill.

Now, let us not kid ourselves. This is a major, major piece of legislation. It would deprive the States of jurisdiction in courts having to do with aviation liability where small claims are involved. Are we at one moment, in the middle of the night, going to take away from the States the jurisdiction to hear these cases and decide that because there is a problem, which I do not deny, we are going to in one fell swoop, without the Judiciary Committee ever having had an opportunity to look at the legislation, add it on to the budget reconciliation measure?

I believe that would be irresponsible. I also believe that it would be very unfair to all of those who are injured in airplane accidents. Where have we been for all of these years that we suddenly decided that we have to do this for the airplane manufacturers; the poor airplane manufacturers suddenly need our pity this evening at 9 o'clock at night in order to give them relief.

Well, if you happen to be—may I have order in the Senate, Mr. President, without it being on my time.

The PRESIDING OFFICER. The efforts to restore order will not be assessed against the Senator from Ohio. He is correct. The Senate is not in order. We will not proceed until there is a measure of order in the Chamber. Senators are asked to take their seats.

Staff is ordered to cease conversing in the rear of the Chamber. There are five Republican staffers who are making too much noise. Those Senators engaged in conversation in the back of the Chamber on the Democratic side are asked to take their seats so their Democratic colleague can be heard.

The Senate is once again in order. The Senator from Ohio [Mr. METZENBAUM] is once again recognized.

Mr. METZENBAUM. I thank the Chair. Let me explain what this bill does. It has a statute of repose. I must say in all the years I have practiced law I never heard of a statute of repose, but this one says that at a certain period you cannot bring an action based upon the conduct of the airplane manufacturers some years earlier. It changes the standard of liability. It limits joint and several liability. It provides a new statute of limitations of 2 years.

Now, there may be some of these matters that arguably have some merit to them but not on this bill. This is not the way it should be coming to the floor, and the Judiciary Committee should not be denied the opportunity to which it is entitled under the rules of the Senate. Senator STROM THURMOND and Senator JOSEPH BIDEN asked for an opportunity to have this bill come before our committee.

Mr. President, I believe that nothing could be more further away from the reality of this legislation, nothing could be less germane than this bill to the whole question of budget reconciliation.

Mr. JOHNSTON. Will the Senator yield for a question?

Mr. METZENBAUM. I certainly do yield.

Mr. JOHNSTON. There was an airplane accident in my hometown not too long ago where a plane took off and the motor went out and the pilot, they say, should have reacted in some way to the motor going out, but he failed to take that action and the plane crashed, killing the assessor of my local parish, or county as you would call it.

Now, as I read this, it eliminates joint and several liability between the aircraft manufacturer and those persons over which the manufacturer has no control, such as the pilot.

Now, in that case, if there was a clearly defective product, that is, a motor was defective and therefore went out, then if they decided that the pilot was 50-percent negligent and the manufacturer was 50-percent negligent, if the pilot was broke, which he probably would be, which is more often the rule——

The PRESIDING OFFICER. The Senator's 4 minutes have expired.

Mr. JOHNSTON. Then the claimant would be out of luck, would he not?

The PRESIDING OFFICER. The Senator's time has expired.

Mr. METZENBAUM. In response to the Senator from Louisiana, he is 100 percent correct.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. CHILES. Mr. President, there is 1 minute left?

The PRESIDING OFFICER. There is 1 minute remaining under the control of the Senator from Florida (Mr. CHILES).

Mr. CHILES. Mr. President, there is merit to the proposition that the Senator from Kansas raises. This issue has been brought to me, very frankly, by Piper Aircraft and others talking about the fact that they no longer really can afford to make private aircraft; the insurance and the costs have gotten so high that they are having a very, very tough time. Reluctantly, though, I have to oppose this as I have opposed the others because it should not be done on this bill. It is a piece of legislation that clearly should not be done here. This again is what we are trying to keep from happening to the reconciliation bill. With that in mind, Mr. President, I yield back any of the remaining time that I have and raise the point of order that this is not germane.

Mrs. KASSEBAUM. Mr. President, I move to waive the point of order and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The motion is debatable.

Mr. CHILES. I yield back the time.

Mrs. KASSEBAUM. Mr. President, I yield back any time that I may have remaining.

The PRESIDING OFFICER. All time having been yielded, the clerk will call the roll.

The legislative clerk called the roll.

Mr. STEVENS (when his name was called). Present.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN] and the Senator from Arizona [Mr. GOLDWATER] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN] and the Senator from Hawaii [Mr. MATSUNAGA] are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 43, nays 52, as follows:

[Rollcall Vote No. 272 Leg.]

YEAS—43

Abdnor	Hecht	Pressler
Armstrong	Heinz	Quayle
Broyhill	Helms	Rockefeller

ANSWERED "PRESENT"—1

Stevens

NOT VOTING—4

Boren Goldwater
Garn Matsunaga

So the motion was rejected.

□ 2120

Mr. CHILES. Mr. President, I move to reconsider the vote by which the motion was rejected.

Mr. METZENBAUM. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Florida [Mr. CHILES] is recognized.

Mr. CHILES. Mr. President, I yield 3 minutes off the bill to the distinguished Senator from Massachusetts [Mr. KERRY].

The PRESIDING OFFICER. The Senator from Massachusetts [Mr. KERRY] is recognized.

□ 2130

Mr. KERRY. Mr. President, I rise on behalf of myself, Senator SIMON, Senator MITCHELL, Senator GLENN, Senator STEVENS, and Senator MURKOWSKI, and I believe some others who have statements they wish to place in the RECORD.

We are not planning to offer an amendment with respect to the matter about which I am concerned, but I did want to bring it to the attention of the distinguished chairman of the Budget Committee. We have talked about it and I believe he is in agreement that during the conference we would like him to try to do something about it, and that is the matter of the mandatory shift of Medicare coverage to State and local employees.

In many States, because of the required date of effective undertaking of this shift, there would be an immediate May 1 transition. That transition comes in the middle of the current fiscal year for most of those States. We believe that it would place an unfair burden on those States, not necessarily ultimately to make these transitions, which I think most of the Congress decided might or should be made, but to do it on the current timetable. And to do it on the current timetable will require, for instance, in the State of Massachusetts, the government to raise some $78 million in 1987 and nearly $400 million over the next 5 years. In addition, the employees of our State and local government would have to pay a similar amount as their contribution to the Medicare system.

Coming as it does in the middle of the fiscal year when the States have already fixed their plans for spending, this will require an increase in property taxes because that is the only means the local communities have to pay for it. In a State like Massachusetts, where we have a restriction on the growth in the rate of the property taxes, that places an onerous burden on the Commonwealth.

So we are hopeful that, while this may have to happen in the conference committee, the chairman and the ranking member will, as they have discussed, make an effort to try to push that effective date back if, indeed, it is not possible to accede to the House, which has not included this particular amendment.

Mr. GLENN. Mr. President, the budget bill before the Senate mandates the Medicare payroll tax to all State and local public employees, not already under Social Security, beginning April 30, 1987.

Federal deficit reduction should not consist of sudden and major cost-shifting to State and local governments. Yet, the bill before the Senate would impose a new and substantial tax burden on State and local governments next year. It would not give States and municipalities much time to decide whether to raise revenue or cut other spending to pay for the tax.

According to estimates, the proposed tax will raise $5 billion over the next 3 years. Five billion dollars. The Governor's office in Ohio estimates that this new Medicare tax will cost my home State and local governments more than $200 million in the first year. It will cost Ohio's school systems alone about $100 million.

I am sure that many of my colleagues share my concern about what the tax will cost their local governments, school systems, and fire and police departments—not to mention the taxpayers who pay the costs of their community governments. The tax is 2.9 percent of salary; with equal employer and employee contributions of 1.45 percent.

Because the Medicare tax impacts municipalities in almost every State, I urge my colleagues to take a moment and think about how they are going to explain the new tax to local policemen, schoolteachers, and firefighters in their home State. For example, most of us in this body agree that our Nation's schoolteachers are underpaid, and we have said we wish we could pay our children's teachers more. However, if the Medicare tax proposal becomes law, teachers will be taking a 1.45-percent pay cut next spring.

As we all know, most local governments have a regressive property tax as their basic source of revenue. Otherwise, they are largely dependent on funds from the State and Federal Government. We have been steadily cutting the Federal revenue to States and communities. All of us are well aware that a number of State treasuries are now suffering shortfalls due to problems associated with unfair trade practices, severe fluctuations in the oil market and farm failures. Do we really want to impose an immediate tax on these governments? Does anyone here want to be even remotely responsible for an immediate pay cut for our teachers, our firefighters, and our policemen?

Since most State governments already participate in Social Security, the proposed Medicare tax will only really affect State employees and State retirement programs in seven States, my home State of Ohio being one of those States. I have always argued that those governments, whether State or local, which took the initiative to set up retirement benefit systems as good as or better than Social Security should not be penalized because they had the foresight and leadership to establish these systems.

When the Social Security Act was passed in 1935, State and local workers were excluded from participating in it because there were constitutional concerns about Federal taxation of these governments. In 1951, they were allowed to join Social Security on a voluntary basis, but only if they did not benefit from any State or local government retirement program, and if they were not police and firefighters. It was only later that we opened Social Security's doors to almost any State and local employee group who wanted to join the Federal system.

Until we changed the law earlier this year, with enactment of the Consolidated Omnibus Budget Reconciliation Act [COBRA], State and local government employees were only covered under Social Security and Medicare if they had chosen to be. However, this year, we changed the law to mandate the Medicare tax.

Mr. President, we changed the law to mandate the Medicare tax on public employees hired after March 1986—that is, on "newly hired" workers. Therefore, under the law that we just passed last April, with job turnover, eventually all public employees will pay the Medicare tax. It was the judgment of this Congress last spring that such a significant new tax, 2.9 percent of payroll, should be gradually phased in. Now, in the rush to meet the Gramm-Rudman deficit reduction targets, we have abandoned that course of action.

Mr. President, I do not think it is fair to tell the State of Ohio, or any other State government, that the Federal Government is going to impose a new tax on their employees, but it will be phased in over time, and then, less than a year later, expand the tax to include all their workers. I would also like to remind my colleagues that many of us in this body have argued that Social Security and Medicare trust fund decisions should not be made for the purposes of Federal deficit reduction. We vocally support this

idea. However, the kinds of decisions we are making today are continuing to be made in the context of the budget deficit reduction legislation.

Mr. President, I do not believe that mandating the Medicare payroll tax on all public local employees is a fair tax or a fair proposal. Federal deficit reduction goals should not be met by asking State and local governments to send more money to Washington, and particularly, when those States that took the lead in responsible retirement provisions for their citizens, are now the one's being penalized.

Mr. KERRY. Mr. President, I asked the distinguished chairman if he would respond with respect to the Medicare coverage and our discussion with respect to the conference committee to try to push that date back.

Mr. DOMENICI. Mr. President, let me say to my friend, the junior Senator from Massachusetts, we are well aware of the fact, the way this tax is imposed, that it might work not only the normal burden that is going to be there on States but a rather inordinate one because of the time of it. It may come into play and put a burden on States when they do not have their legislatures in session, when they do not have an opportunity to work their own budgets.

So we are going to do everything we can to accommodate the Senator. As the Senator knows, the House does not plan to raise revenues in this manner. They may still. They have 4 or 5 more days. But, currently, they do not plan to do their reconciliation this way.

So we will go to the conference, and Senator PACKWOOD and the Finance Committee members will have this measure and the House will probably have something different. I understand that they are willing to attempt to ease this burden which you have described here well this evening to the Senate.

Mr. KERRY. I thank the distinguished chairman very much for that assurance.

As the chairman knows, this body is reluctant to raise any kind of tax and I think it is unfair and unfortuntate to shift to the States a requirement that they raise their property tax.

MEDICARE COVERAGE OF STATE AND LOCAL EMPLOYEES

Mr. MITCHELL. Mr. President, I rise today to join with a number of my colleagues to express my concern about the provision included in the budget reconciliation bill which mandates Medicare coverage for all State and local government employees, effective July 1, 1987.

As I have expressed in the past, I am very concerned about the negative impact this provision will have on State governments and municipalities across the Nation. Seven States have independent State retirement systems and therefore have a small percentage or none of their State employees covered under the Social Security Program. This mandate will result in an additional financial burden at a time when State and municipal governments are attempting to deal with cutbacks in Federal funding in a variety of programs.

Local governments have been hit hard over the last 5 years as a result of Federal Government budget cuts. If this provision is adopted, most cities and towns will be forced to increase their property taxes in order to raise the additional revenues. As a matter of tax equity, I do not believe it is fair to mandate an increase in our most regressive public revenue source, the property tax.

An effective date of July 1, 1987 will force most States and municipalities to incorporate these additional costs in their budgets in the middle of a fiscal year.

The House budget reconciliation bill does not mandate Medicare coverage for State and local government employees. I urge the Senate conferees on this bill to defer to the House and drop this provision from the final bill.

Short of eliminating this provision from the bill entirely, I would urge the conferees to delay the implementation date by 1 year. Such a delay would give State and local governments an opportunity to develop a workable plan to finance the employer share of Medicare coverage for their employees.

Mr. SIMON. Mr. President, section VI-A—revenue provisions—of the reconciliation bill provides for coverage of all State and local government employees in Medicare effective April 30, 1987. This amounts to a combined employer-employee hospital insurance tax rate of 2.9 percent of the first $42,000 of wages—this amounts to 1.45 percent for each the employer and the employee.

Mr. President, I rise this evening out of concern for both the employers and the employees who will be affected by this change. I fully understand the reasons for this proposed change, as stated in the report language:

Often, State and local government employees qualify for Medicare benefits ever if the governmental work is excluded from coverage—this happens as a result of work performed in other employment or through a spouse.

Entitlement to Medicare gives full coverage whether the employee has contributed for the minimum number of quarters or a lifetime.

We need a truly national system of health care. Right now, many people are not covered who need to be covered in this country.

Most importantly, many people fall through the cracks. For instance, the average teacher only teaches for 6 years. Once that teacher finishes teaching, where he or she has not paid into Medicare, and goes into a new profession, the former teacher has no protection should health care be needed if the person becomes disabled in some unfortunate accident. Perhaps even more tragically, retired public employees need health care and end up paying exorbitant amounts for Medicare coverage because they hadn't contributed during their career.

While I understand the need for including State and local governmental employees in the Medicare system, the Consolidated Omnibus Budget Reconciliation Act of 1985 included all those State and local government employees hired after March 31, 1986, in mandatory Medicare coverage. This is enough of a burden to place on these governmental entities at this time. I would like to strongly encourage the conferees from the Senate to consider a proposal to extend the effective date until January 1, 1988, at the earliest to give the school districts, local governments, and State governments time to prepare for the added burden of paying their share of the Medicare coverage for all employees. This will also allow the employees and their representative organizations time to prepare for the payment of their 1.45 percent of the Medicare fee.

Some evidence of the burden which these governmental entities will have to bear is as follows:

The cost to the State of Illinois the first year alone would be almost $34.5 million.

In the education community alone, 171,785 Illinoisans will be affected by the change—this includes people who paid into the Illinois Teachers' Retirement System, State Universities Retirement System, and the Chicago Teachers' Retirement System.

The total number of affected employees is around 214,000—this includes the above plus the members of the Policemen's Annuity and Benefit Fund of Chicago and the Municipal Employees' Annuity and Benefit Fund of Chicago.

I have received two letters from retired Illinois teachers who now have to pay into Medicare to receive the services. They cannot afford the constantly escalating payments.

I ask unanimous consent that these letters be reprinted in full at the end of this statement.

If this passes—as I assume it will—we ought to be protecting these retired teachers. I may introduce legislation to modify this incredible situation.

These retired teachers are pleading that something be done to help reduce their unreasonable payments. While this proposal will not assist those already retired, it will assist those still in the various professions not now covered under Medicare.

I ask again though that the effective date be delayed until at least 1988 to allow for effective preparation for the additional tax needed. It seems to me that this would be the only fair and equitable way to approach such new coverage.

I thank my colleagues who will be the conferees on this bill for considering these views.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

DEAR SENATOR SIMON: I am writing to you about those of us who must pay $229.50 a month for Medicare. We, who have been teachers and have no social security, find that a huge sum to pay out of our teacher's pension.

It is fair that we pay, but every January the amount goes up—last January it was a $40 raise. Can not a ceiling be put upon the amount? We, of course, must have Medicare, but when we are in a very low bracket, we find $229.50 a month a hardship.

I trust that you can do something about a ceiling of say $200.00 a month.

Sincerely,

MURIEL PETERSON.

HON. PAUL SIMON,
U.S. Senate,
Washington, DC.

DEAR SENATOR SIMON: It was with great surprise that I read that the Senate is considering a proposal that would extend Medicare coverage to teachers who are not on Social Security.

I'm one of those retired teachers who does not qualify for Social Security and my monthly payments for Medicare coverage now amounts to $227.40 and this is to increase in January. Teachers in my situation do not draw large pensions and Medicare plus a Medicare supplement takes a great chunk out of each monthly check.

When this proposal is discussed, please do everything possible to help us. We do not ask to be included in Social Security, just some type of legislation that would bring Medicare payments within reasonable range for all retired as well as active and future teachers.

Thank you for any help you can give us.

Very truly yours,

MARGUERITE HENRY.

Mr. MURKOWSKI. Mr. President, I am concerned about a provision in the Senate Finance Committee's version of the Budget Reconciliation Act of 1986 that mandates Medicare coverage for all State and local public employees. Such a provision would further burden State and local governments in severely economically depressed areas and add a new payroll tax to their employees. The House Ways and Means Committee has not yet included such a measure in their reconciliation bill.

Mr. President, the issue of mandatory Medicare coverage for State and local public employees was resolved in last year's Budget Reconciliation Act. We agreed under the act to require only those State and local public employees hired after March 31, 1986, to obtain Medicare coverage. State and local government's are required to contribute into the Medicare trust fund 1.45 percent of the salary of every employee covered under Medicare.

There was good reason in last year's reconciliation bill to not require all State and local public employees to be under mandatory Medicare coverage. It allowed for the phasing in of mandatory Medicare coverage to enable State and local governments to have time to adjust to their added Medicare contribution costs.

To now summarily require all State and local employees to obtain Medicare coverage is not only a breach of faith but creates enormous difficulties for State and local governments. It would not only force expensive and confusing changes in the accounting systems of State and local governments but place an extreme hardship on those States experiencing declining revenues. For example, this would annually cost the State of Alaska $7 million during a time when in 1 year its annual revenue is estimated to drop by nearly two-thirds. It would also annually cost the city of Anchorage, AL, approximately $700,000 when it is experiencing a budget deficit of $4 million—300 anchorage municipal employees have already lost their jobs this year and the city is faced with having to increase taxes in a depressed economy. Other communities in Alaska and throughout America will also be affected.

Mr. President, the appropriate method of implementing Medicare coverage of State and local government employees was already fully debated. The goal of complete mandatory Medicare coverage will eventually be phased in without changing the law and without having to put undue hardship on State and local governments.

Yes, mandatory Medicare coverage for all State and local public employees is attractive. It raises revenue during a time of Federal deficits. But it will do so only in the short term. In the long run the Federal Government will be obligating itself to provide Medicare coverage to a far greater number of beneficiaries. When the long-term effects are considered, the revenue generated by this provision will be much smaller than suggested by the Finance Committee.

Finally, Mr. President, mandatory Medicare coverage more than offsets the tax cut that 4 to 5 million middle-class and lower middle class Americans outside the Medicare system expect to receive from the tax bill. According to the Joint Committee on Taxation the tax reform bill would provide taxpayers with incomes in the range of $20,000 to $30,000 with a cut equivalent on the average to $191. Thus, the average Government employee whose annual salary is $23,000 would be subject to a new Medicare tax of $333.50. This is more than 150 percent of the cut that the employee would receive under the tax bill!

Mr. President, I request that this body leave intact present law or at the very least extend the effective date of any provision that mandates Medicare coverage to all State and local public employees.

The PRESIDING OFFICER (Mr. STEVENS). The Senator's time has expired.

Who yields time?

Mr. D'AMATO. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from New York [Mr. D'AMATO], for himself, Mr. GARN, Mr. MOYNIHAN, Mr. RIEGLE, Mr. MURKOWSKI, Mr. HECHT, and Mr. HEINZ, proposes an amendment numbered 2856:

Strike lines 2 through 15 inclusive on page 4 of the amendment.

Mr. DOMENICI. Mr. President, might I ask the Senator from New York, could we have a time agreement? What would you consider fair? I only have 8 minutes left on my side. I would like to have 2 or 3 left when you are finished. Could you get by with 8 minutes?

Mr. D'AMATO. Yes.

Mr. DOMENICI. Eight minutes on your side; and 6 minutes in opposition, Mr. President.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, before we do that, might I ask, does the distinguished Senator from Florida have any objection to the time coming out of the bill in the manner that leaves the Senator from New Mexico with 4 minutes when we are finished with this? I think you will have about 20.

Mr. CHILES. No, I would not object to that.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. I thank the Senator.

The PRESIDING OFFICER. The Senator from New York.

Mr. D'AMATO. Mr. President, I offer this amendment not only on behalf of myself, but on behalf of Senator GARN, Senator MOYNIHAN, and Senator RIEGLE.

In the absence of Senator GARN, and speaking in his behalf, I am sure he would, if he were here this evening, move to strike lines 2 through 15 inclusively because what those lines do is place an assessment of FDIC insurance premiums on foreign deposits held in banks overseas. The chairman of the Senate Banking Committee, Senator GARN, who, as we all know, is recovering from surgery and cannot be here, has opposed assessing deposit insurance premiums on foreign deposits

when Senator PROXMIRE previously has raised the subject in the Senate Banking Committee.

The committee has never held hearings on the effects of this provision. We are deeply concerned about the adverse impact on international trade and on the competitiveness of American banks and on the safe and soundness. In our search for additional funds, we run risks that far outweigh any benefits obtained.

I severely question the figure of $300 million that came, I believe, from almost the air. Senator GARN, were he here, and based on his past actions and the actions of the committee, almost certainly would have opposed this provision and it never, never would have been in the reconciliation amendment.

I cannot help but think about an earlier statement that the distinguished senior Senator from Florida, Senator CHILES, made when he said that the reconciliation package was not designed for Members to shop the legislation around on the floor of the Senate that they could not get out of committee. Let me suggest that that is exactly what is taking place here.

The Banking Committee has opposed this. It flies in the face of what we have done. It will wind up costing American taxpayers millions and millions of dollars and tens of thousands of jobs.

Let me just give you one little example. In 1981, we passed the International Banking Facilities Act to help bring more business in international banking onto U.S. shores. We were losing it. The banking capitals were moving to London, moving offshore.

One of the key ways of doing that was to exempt deposits in international banking facilities from FDIC premiums. That makes a difference, makes them competitive.

Well, what has happened since then? Five hundred and twenty-four banking facilities have been created and they are presently in the United States in 24 States. Twenty-four States have 525 institutions employing thousands and thousands of Americans. And, of course, in terms of international banking, we now have $360 billion in deposits.

Let me tell you, you tax these deposits and you assume a liability that you presently do not have with the FDIC and you are going to lose these. They are going to go to other banks. It does not make sense.

I know there are others who would like to speak on this.

Mr. President, I hope that we would strike this provision. We do have a method of offsetting these revenues. Earlier, the Senate Banking Committee passed title I of the banking bill. It is on the calendar, S. 2752. It will raise at least several hundred million dollars. We are not able to obtain a firm estimate at this time. But we are confident that, by passing the regulators bill, we would raise at least the $300 million necessary to offset this $300 million.

Mr. HEINZ. Will the Senator yield me a minute and a half?

Mr. D'AMATO. Yes, I will.

Mr. HEINZ. Mr. President, I thank the Senator for yielding. I ask unanimous consent that I be added as a cosponsor of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HEINZ. Mr. President, the Senator from New York has explained very clearly and I think very effectively what this amendment to the bill and what he is trying to strike would do to the international competitiveness of U.S. banks if it is allowed to stay in the bill. But I would like to talk to the principle of what we are doing.

□ 2140

The principle of the Federal Deposit Insurance Corporation is to insure deposits because the banks involved, and they are all currently foreign banks in the United States of America, are held to a standard of underwriting of the employment of those deposits that guarantees the safety and soundness, not just of the banking system but of the way an individual bank is run and, therefore, the deposits.

Even in this country, with all those heavy regulations we have, we have seen plenty of bank failures, and what the committee amendment does is to insure deposits by not just Americans but by foreigners in foreign banks which we cannot regulate. What we are doing is putting the assets of the Federal Deposit Insurance Corporation at risk, at the mercy, of foreigners regulating foreign banks.

Mr. President, that is about as dumb an idea as I have ever heard. I yield the floor.

The PRESIDING OFFICER. Who yields time?

The Senator from Wisconsin is recognized for 6 minutes.

Mr. PROXMIRE. Mr. President, I strongly support the provision in the Domenici-Chiles amendment to charge FDIC insurance premiums against the foreign deposits of U.S. banks. This provision will reduce the deficit by $310 million in fiscal year 1987, according to CBO, and FDIC has about the same figures. It also accomplishes a long delayed deposit insurance reform first recommended by the U.S. Treasury in January 1985.

Mr. President, an amendment has been offered by Senator D'AMATO to strike this provision. Mr. President, whatever the merits or demerits of this amendment, there is one overwhelming argument against it.

It will eliminate $310 million in revenues in increasing amounts in every following year. As a result, the Domenici-Chiles amendment will not meet the Gramm-Rudman targets. This runs the danger that a sequester will be triggered.

If we want to avoid a sequester, we must vote down this amendment. It is that simple.

But even on the merits, this amendment should be rejected. Here is why:

The Federal Deposit Insurance Act now requires banks to pay an insurance premium of one-twelfth of 1 percent of their total deposits received in the United States. Deposits received and payable only at foreign branches are excluded and therefore are not subject to a premium charge.

This exclusion had little practical effect when the Federal Deposit Insurance Act was written over 50 years ago when foreign deposits were almost nonexistent. But since the 1950's, foreign deposits of U.S. banks have skyrocketed to the point where they now total $350 billion or about one-fifth of all bank deposits.

Indeed, the foreign deposits of some of our major money center banks exceed their domestic deposits. For example, Citibank had $30 billion in domestic deposits at the end of 1984 and $49 billion in foreign deposits. At Morgan Guaranty, the figures are $14 billion in domestic deposits and $26 billion in foreign deposits.

By shifting their deposit-gathering operations to their overseas branches, these money center banks can cut their FDIC deposit insurance premiums by half or more. And yet there is no question but that the FDIC and ultimately the U.S. Treasury stands fully behind these deposits even though they are technically not insured.

The need for including foreign deposits in the FDIC premium base was made dramatically clear in the wake of the Continental Illinois rescue package. One of the reasons the bank suffered a loss in market confidence was due to its heavy reliance on foreign deposits. Moreover, the bank regulators felt compelled to save Continental in order to maintain the confidence of foreign depositors in all U.S. financial institutions.

Although foreign deposits figured prominently in the bailout of Continental, they did not contribute one penny of revenue to the FDIC insurance funds. In effect, foreign depositors in large U.S. banks enjoy the benefits of deposit insurance without having to pay for it. Instead, the cost is shifted to the FDIC, and ultimately, the rest of the banking industry and their customers. Thus the smaller and medium-sized banks are forced to pay for the excesses of the largest banks.

Let me repeat that: The smaller and medium-sized banks are forced to pay for the excesses of the largest banks. This works to the disadvantage of

about 98 percent of the banks in this country.

This built-in discrimination against smaller banks will become even worse now that we have firmly established the precedent that we will not allow a large bank to fail. Large banks now have de facto 100-percent Federal deposit insurance on all their deposits including foreign deposits while the depositors in smaller banks are at risk if their deposit exceeds $100,000. This difference gives a substantial and unjustified competitive advantage to the big money center banks.

The provisions in the reconciliation bill will help to reverse this competitive inequity while strengthening the reserves of the FDIC deposit insurance fund. What kind of private insurance company would be willing to insure over $350 billion in deposits without collecting a single penny in premiums to cover its risk? Why should the largest banks be able to enjoy the protection of Federal deposit insurance on their foreign deposits without paying any premiums? Since these foreign deposits contribute substantially to the risk of the FDIC fund, it is only fair that they be assessed a premium.

Mr. President, let me conclude by pointing out that the deposit insurance provision in the Domenici-Chiles amendment will provide for real and continuing deficit reductions: $310 million in 1987, $330 million in 1988, $350 million in 1989, $375 million in 1990, and $405 million in 1991, and so on, according to CBO.

We are not talking about one-time savings resulting from phony asset sales. We are talking about real savings.

The Domenici-Chiles amendment has been criticized for engaging in smoke and mirrors savings. But the Senator's amendment would remove one of the few genuine deficit reduction measures from the Domenici-Chiles proposal.

Mr. DOMENICI. Will the Senator yield 30 seconds?

Mr. PROXMIRE. Yes.

Mr. DOMENICI. They keep calling this the Domenici-Chiles amendment but basically Treasury and OMB sent us proposals. The first one said, "You ought to raise $2.6 billion from FDIC."

That got chopped around and pretty soon it turned into $1 billion.

Then everybody said, "That is crazy, there is no way to find $1 billion."

About a half-day later they suggested, the Pennsylvania Avenue part of the Government suggested this measure, and it got chopped around and they said they would settle for $310 million, that it sounded reasonably good.

I am not saying they wholeheartedly support it. I did not invent it nor did Senator CHILES. But that is how it evolved. It does precisely what the Senator said. The results? You hear two versions. I do not know which is right.

But that is how it came into being.

You know what it does, it taxes the foreign deposits of American banks for FDIC insurance as they pay for it here in America.

The PRESIDING OFFICER. All time has expired. The Senator from New York has 2 minutes, 5 seconds.

Mr. D'AMATO. Mr. President, we are absolutely kidding the American public if we are intending that this is going to help the budget deficit because these are FDIC funds and they cannot be used for any other purpose other than paying off the depositors of those banks.

This provision is a sham and we have to take it into the tax implications, into the implications of loss of jobs.

I want to tell you something. If we are talking about usurping jurisdiction, I can assure you if Senator GARN was here this never would have found its way into this bill. Treasury does not support it. They started off strongly in favor and now they have mellowed out. I think if you gave them another 48 hours they would be telling you, "Do not do this."

We have a way of raising revenues. I would have offered it. The only problem is we cannot get the exact dollars from CBO in terms of title I of the Banking Act which would offset this.

This is the wrong thing to do.

We have $260 plus billion that are on shore that have been deposited as a result of what we have done in exempting it from FDIC. You have $360 billion abroad in international markets. It will not be there. You will lose a significant amount of it.

If you want to play politics, if you want to use flimflam numbers, $300 million, it will not close the budget deficit. It only can be used by the FDIC to pay off failing banks. That is why we moved to strike. I yield back the remainder of my time.

The PRESIDING OFFICER. All time has been yielded back. The question is on agreeing to the amendment of the Senator from New York.

Mr. D'AMATO. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. All time has been yielded back. The yeas and nays have been ordered and the clerk will call the roll.

The bill clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN] and the Senator from Arizona [Mr. GOLDWATER], are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN], the Senator from Colorado [Mr. HART], and the Senator from Hawaii [Mr. MATSUNAGA], are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 32, nays 63, as follows:

[Rollcall Vote No. 273 Leg.]

YEAS—32

Abdnor	Hatch	Quayle
Armstrong	Hawkins	Riegle
Biden	Hecht	Roth
Bradley	Heinz	Rudman
Chafee	Kerry	Specter
Cranston	Laxalt	Stevens
D'Amato	Mattingly	Symms
Danforth	McClure	Thurmond
Dixon	McConnell	Warner
Evans	Moynihan	Wilson
Gorton	Murkowski	

NAYS—63

Andrews	Glenn	Melcher
Baucus	Gore	Metzenbaum
Bentsen	Gramm	Mitchell
Bingaman	Grassley	Nickles
Boschwitz	Harkin	Nunn
Broyhill	Hatfield	Packwood
Bumpers	Heflin	Pell
Burdick	Helms	Pressler
Byrd	Hollings	Proxmire
Chiles	Humphrey	Pryor
Cochran	Inouye	Rockefeller
Cohen	Johnston	Sarbanes
DeConcini	Kassebaum	Sasser
Denton	Kasten	Simon

Domenici	Leahy	Stennis
Durenberger	Levin	Trible
Eagleton	Long	Wallop
Exon	Lugar	Weicker
Ford	Mathias	Zorinsky

NOT VOTING—5

Boren	Goldwater	Matsunaga
Garn	Hart	

So amendment No. 2856 was rejected.

□ 2210

Mr. CHILES. Mr. President, I move to reconsider the vote by which the amendment was rejected.

Mr. DOMENICI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. CHILES. Mr. President, I yield 5 minutes on the bill to the Senator from Nebraska.

Mr. DOMENICI. Mr. President, will the Senator yield to me for 30 seconds, on my time?

Mr. EXON. I yield.

Mr. DOMENICI. Mr. President, I say to Senators that I think we have two or three more votes. The leader wants to keep the votes to 15 minutes, so we should expedite matters. I think there will be at least two or three more. There is not much time, but we still have to vote. Voting time does not count, so we will keep it to 15 minutes.

Mr. EXON. I thank my colleague.

The PRESIDING OFFICER.The Senate will be in order.

Mr. EXON. Mr. President, I will not unduly delay the Senate.

Unfortunately, the difficulty we have is that we have been talking es-

sentially about everything but the main bill. We have a series of amendments—good, bad, and indifferent—that are not, in my opinion, critical to the matter we are going to vote on shortly.

This Senator does not delude himself to think that anything he says tonight is going to make a difference in the vote that is going to be cast in favor of the reconciliation package.

There have been few arguments against this, and I appreciate the Senator from Florida yielding time to me to oppose something that he supports, with reluctance.

This reconciliation package is a farce.

Mr. President, I choose not to continue until the Senate is in order. I will save everybody's time if we can have order in the Senate, and JIM EXON will make his speech, and everyone will vote the way they were going to vote anyway.

The PRESIDING OFFICER. The Senator will suspend. Staff members will cease conversations. The Senator is entitled to order.

Mr. EXON. Mr. President, I have only 5 minutes, and we have used at least a minute in getting order. I hope the Chair does not count that time against me.

The PRESIDING OFFICER. Time when the Senate suspends is not charged against the Senator.

Mr. EXON. Mr. President, the reconciliation package is a farce. It purports to bring the fiscal 1987 budget in line with the dictates of the famed Gramm-Rudman amendment. It does not, under any rational mathematical formula.

With the clever invention of the Gramm-Rudman Act, Congress now only attempts to "avoid a sequester." That is what we are about tonight. "Avoiding a sequester" is not the same as "reducing the deficit." The compromise reconciliation package is a prime example of that fact.

The reconciliation package takes the easy way out. Gramm-Rudman was supposed to produce a "grand compromise" where the Congress would reduce spending and the President would agree to increased revenues. That has not happened.

Instead, the Congress is about to enact a reconciliation package which is long on clever accounting methods and short on meaningful, long-term action. This path only leads to a tremendous problem in the coming years.

If the tax reform bill is enacted and falls short of its optimistic projections of "revenue neutrality," the coming years could be devastating.

The reconciliation package turns cartwheels to avoid a sequester by spotlighting fiscal year 1987 and then cleverly shoves spending backward into 1986 and forward into 1988 and accelerating the collection of receipts that would otherwise accrue to hold down deficits in future years.

Mr. President, some ideas may be good accounting practices, but the American people should not be fooled into thinking that these accounting procedures are equal to deficit reduction. For example:

Loan asset sales: What this does is bring short-term cash into the Treasury in 1987 but costs the Treasury in the long term because of the loss of long-term cash flows. That is not a bad proposition in and of itself. But, make no mistake—this is a one-shot, long-term proposition. Essentially, what we are talking about here are a whole series of asset selling and not spending cuts.

Sell Conrail: It is still a questionable sale at $2.1 billion. Another one-shot liquidation. It helps only in 1987. This is another sale of assets, not a spending reduction.

Revenue sharing: This is probably the most outrageous example of tomfoolery in accounting. What we do is make the final payment under revenue sharing in 1986, this year, rather than in 1987, as planned and programmed, and we claim a $68 million saving in that package. What kind of responsible accounting is that? By changing the revenue sharing payment date from early October to September 30, Congress claims a deficit reduction in 1987. Tomfoolery.

Accelerate State and local deposits: What this does is accelerate the payment of Social Security contributions to the trust fund. The Federal Government still collects the same amount of money, only sooner. Claimed savings: $388 million. This is not a saving. Again, it is money-changing for bookkeeping purposes only.

Accelerate collection of excise taxes: Same as above. The same amount of money, only we collect it a little sooner and count it as a saving. Claimed saving: $380 million. Taxes which are due after 30 days will now be due after 14 days—just an accounting procedure. Reconciliation is meant to be a vehicle to save money. This package spends money.

Social Security COLA's: Does not cut; it authorizes a COLA for 1987 and eliminates the 3-percent CPI trigger in current law. Claimed cost: $808 billion.

Gramm-Rudman promised a $172 billion deficit for 1986. It will likely exceed $225, an all-time record. Thats just the first mistake of this bad legislation but demonstrates its flimsy figures.

The promise of a $144 billion deficit for 1987 is being met with a package which on paper reduces the deficit to $154 billion. In reality, the deficit will be in the $163 to $170 range, or more.

The 1987 projections are built upon optimistic economic assumptions.

Each day, the "first year" bonus in the tax bill shrinks and the second and third year losses grow. What enactment of the bill will produce is truly a mystery.

Gramm-Rudman forces have consumed two budget cycles with their "folly." The deficit has grown, the economy has slowed, the Nation's competitiveness has weakened, and the President and the Congress have fooled themselves into thinking that they are doing something to reduce the deficit.

The American people will not be fooled. The reconciliation is like a tenant not paying his or her rent. Sooner or later, the tenant will be evicted.

AMENDMENT NO. 2857

(Purpose: To ensure the preservation of employee seniority rights in airline mergers and similar transactions)

Mr. DANFORTH. Mr. President, I send an amendment to the desk on behalf of myself, Senator EAGLETON, and Senator KASSEBAUM.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Missouri [Mr. DANFORTH], for himself, Mr. EAGLETON, and Mrs. KASSEBAUM, proposes an amendment numbered 2857.

Mr. DANFORTH. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert the following:

SEC. . (a) Section 408 of the Federal Aviation Act of 1958 (49 App. U.S.C. 1378) is amended by adding at the end the following new subsection:

"EMPLOYEE SENIORITY RIGHTS

"(g)(1) In any case in which the Secretary determines that the transaction which is the subject of the application would result in the operational integration or partial operational integration of the affected carriers and that such integration would have an adverse effect on the seniority of any air carrier employee, the acquiring carrier, and the surviving collective bargaining representative (if any), shall provide for the development, in a fair and equitable manner, of integrated seniority ranking lists for all employee groups. In the event of a failure to agree, the dispute may be submitted by either party for adjustment in accordance with paragraph (2) of this subsection.

"(2)(A) if any dispute or controversy arises regarding integration of seniority lists under paragraph (1) of this subsection and such dispute or controversy cannot be resolved by the parties within 20 days after such dispute or controversy arises, the parties may refer such dispute or controversy to an arbitrator for consideration and determination. To assist in the selection of such an arbitrator, the National Medication Board shall furnish to such parties a panel of seven names. The parties shall select such arbitrator by alternating in the deletion of names from such panel until one name remains, and such person shall serve as arbitrator. The arbitrator may conduct

hearings regarding such dispute or controversy, but any such hearings shall be conducted in an expedited manner. The arbitrator shall render a determination regarding such dispute or controversy within 90 days after the dispute or controversy arises, unless an extension of such period is agreed to by all parties to such dispute or controversy. The determination of such arbitrator shall be binding on all such parties.

"(B) The salary and expenses of the arbitrator shall be borne equally by the carrier involved and the organization or organizations representing the employee or employees or, if no such representation exists, by the employees or group of employees.

"(C) The provisions of this paragraph shall not apply if all parties to such dispute or controversy agree that a different method for settling such dispute or controversy, or an alternative procedure for selecting an arbitrator, is appropriate in the particular circumstances. A party shall not be relieved from complying with the provisions of this paragraph by the recommendation of a different or alternative method or procedure unless such recommendation is agreed to and implemented by all parties to such dispute or controversy.".

(b) The amendment made by subsection (a) of this section shall apply with respect to any transaction approved by the Secretary of Transportation under section 408 of the Federal Aviation Act of 1958 (49 App. U.S.C. 1378) on September 12, 1986, and with respect to any transaction for which an original application is filed after the date of enactment of this Act: *Provided, however,* * * * by subsection (a) of this section shall not apply with respect to any transaction in which the parties invoke and are able to satisfy the requirements of the failing company doctrine.

(c) The item in the table of contents of the Federal Aviation Act of 1958 relating to section 408 is amended by adding at the end the following:

"(g) Fair treatment of employees.".

Mr. DANFORTH. Mr. President, the agreement is that I will take 1 minute on this amendment.

The amendment I propose is very similar to S. 2713, introduced by Senator KASSEBAUM. The amendment is limited in the sense that it provides only for mandatory seniority list integration by the surviving carrier if the Transportation Secretary finds that a merger would result in complete or partial "operational integration" of the affected carriers. Either party, that is, management or labor, could require binding arbitration of controversies arising in the list integration process.

My amendment would apply the provisions of that bill retroactively, to cover the TWA-Ozark acquisition. No completed acquisitions other than TWA-Ozark would be affected by my amendment.

Future acquisitions would be covered only if the original application is filed after the date of enactment. Therefore, no pending transactions would be affected.

It is my intention in sponsoring this amendment that the arbitrators should weigh heavily the business needs of the air carrier and the need for greater economic efficiencies sought through the merger or acquisition. Indeed, there will be times when the arbitrators must consider factors other than straight integration by seniority. It is the survival of the airline that is paramount, because in the end, that offers the greatest labor protection.

An exception is provided for failing companies. The failing company doctrine, as provided in the Federal Aviation Act of 1958, has traditionally been interpreted to require that the parties are unable to operate the failing company under bankruptcy procedures, that they must have attempted to have shopped the company, and that the company is insolvent.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. CHILES. Has all time expired?

The PRESIDING OFFICER. The time of the Senator from Missouri has expired.

The manager of the bill controls time in opposition, if he is in opposition to the amendment.

Mr. CHILES. Mr. President, I yield back the remainder of my time, and I raise the point of germaneness on the amendment.

The PRESIDING OFFICER. The point of germaneness has been raised.

Mr. DANFORTH. Mr. President, I move to waive the Budget Act.

The PRESIDING OFFICER. A motion to waive germaneness has been made.

Mr. METZENBAUM. Mr. President, is that a debatable motion?

The PRESIDING OFFICER. It is a debatable motion, if the Senator has time yielded to him for that purpose.

Mr. METZENBAUM. Will the Senator yield 2 minutes?

Mr. CHILES. I yield 1 minute.

The PRESIDING OFFICER. The Senator is recognized for 1 minute on the time of the Senator from Florida.

Mr. METZENBAUM. Mr. President, I think this is an excellent amendment. I think the proposal is right on target, and I am just concerned about it being defeated by reason of the fact that it is not germane and will get the normal motion to table.

Some of us have been trying to support the committee. I wonder whether the distinguished chairman of the Commerce Committee could find another vehicle to which he might attach this amendment, rather than this one.

□ 2220

I think many of us would like to support him but have difficulty on this bill.

Mr. DANFORTH. Mr. President, I do not have enough time to respond. If I can have 15 seconds?

Mr. DOMENICI. I yield 15 seconds on the Senator's 1 minute.

Mr. DANFORTH. Mr. President, I think the timeliness is of the essence. I think that is the reason for doing it at this point.

Also obviously because of the procedural circumstances here, it could not be filibustered.

The PRESIDING OFFICER. The time has expired.

Mr. SYMMS. Mr. President, will the Senator yield 30 seconds so I can ask the Senator from Missouri a question?

Mr. DOMENICI. I yield 30 seconds.

Mr. SYMMS. I thank the Senator for yielding.

I say I received a letter today that is pertinent pertaining to the Texas Air buyout of now bankrupt Frontier Airlines and the employees who live and work in my State for Frontier Airlines; I understand that cannot take place.

Mr. DANFORTH. It is excluded in the amendment.

Mr. SYMMS. It is excluded.

So it will have no impact on Texas Air.

The PRESIDING OFFICER. Time has expired.

Who yields time?

Mr. DOMENICI. I yield myself 30 seconds.

Mr. President, I have great sympathy for the cause, but I really cannot believe that after we turned down all kinds of amendments here tonight on the issue of germaneness, to borrow a phrase from my good friend, Senator METZENBAUM, at 10:20 at night when we do not even know what we are doing, we are going to adopt a major merger change in American transportation law, and I do not really think it has the merits. I think we better find some other way to handle it and to be consistent, 60 votes are going to be needed on the Senator's motion to waive the Budget Act.

Has he asked for the yeas and nays?

Mr. DANFORTH. I have not.

Mr. DOMENICI. I ask for the yeas and nays on the waiver request.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

LABOR PROTECTION PROVISION

Mr. EAGLETON. Mr. President, together with other members of the Missouri congressional delegation, I supported the merger of TWA and Ozark Airlines which was approved this week by the Department of Transportation. I took that action because I was convinced that the future of both airlines hung in the balance.

My support of the merger, however, was coupled with a demand that there be a labor protection provision to protect the interests of the Ozark and TWA employees affected. Unfortunately, the Department failed to give this elementary consideration to the employees and that is why we need this legislation.

This week the House by an overwhelming vote passed H.R. 4838 which would require labor protection provisions as a condition of any future airline merger or acquisition. I would much prefer that bill, but in the circumstances we face in the Senate, the present amendment may well be the best we can do pragmatically.

In view of the labor problems still afflicting TWA and the potential that the merger with Ozark will result in displacement, or dismissal of some employees, I believe it is essential that a labor protection provision be attached to the merger approval. At the very least, there should be a requirement for fair and equitable integration of employee seniority lists. That is what this amendment would do for all future, approved mergers and for the TWA-Ozark merger.

There is more to the question of airline mergers than the future of the companies involved. The future of thousands of employees are on the line as well. We need to balance these interests by conditioning merger approval on fair and reasonable protection of employee rights.

The PRESIDING OFFICER. All time has expired.

Mr. DOMENICI. Mr. President, does the distinguished Senator insist on the yeas and nays?

Mr. DANFORTH. I do not know how to determine whether there is 60 votes without the yeas and nays.

Mr. CHILES. We could ask for a division.

Mr. DOMENICI. We could ask for a division.

The PRESIDING OFFICER. The question is on agreeing to the motion. The yeas and nays have been ordered.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN], the Senator from Arizona [Mr. GOLDWATER], and the Senator from Utah [Mr. STAFFORD], are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN], and the Senator from Hawaii [Mr. MATSUNAGA], are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—43 yeas, 52 nays, as follows:

[Rollcall Vote No. 274 Leg.]

YEAS—43

Andrews	Dixon	Inouye
Baucus	Dodd	Kassebaum
Biden	Dole	Kennedy
Boschwitz	Eagleton	Kerry
Bradley	Ford	Lautenberg
Bumpers	Gore	Leahy
Burdick	Grassley	Levin
Cranston	Harkin	Mathias
D'Amato	Hart	Melcher
Danforth	Heflin	Mitchell
DeConcini	Heinz	Moynihan
Packwood	Riegle	Specter
Pell	Sarbanes	Stevens
Pressler	Sasser	
Pryor	Simon	

NAYS—52

Abdnor	Hatch	Nunn
Armstrong	Hatfield	Proxmire
Bentsen	Hawkins	Quayle
Bingaman	Hecht	Rockefeller
Broyhill	Helms	Roth
Byrd	Hollings	Rudman
Chafee	Humphrey	Simpson
Chiles	Johnston	Stennis
Cochran	Kasten	Symms
Cohen	Laxalt	Thurmond
Denton	Long	Trible
Domenici	Lugar	Wallop
Durenberger	Mattingly	Warner
Evans	McClure	Weicker
Exon	McConnell	Wilson
Glenn	Metzenbaum	Zorinsky
Gorton	Murkowski	
Gramm	Nickles	

NOT VOTING—5

Boren	Goldwater	Stafford
Garn	Matsunaga	

□ 2040

The PRESIDING OFFICER. On this vote, the yeas are 43 and the nays are 52. The motion to waive the Budget Act is rejected.

Mr. CHILES. Mr. President, I move to reconsider the vote by which the motion was rejected.

Mr. DOMENICI. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was rejected.

The PRESIDING OFFICER. The amendment of the Senator from Missouri has new subject matter and, therefore, is not germane and falls for that reason.

The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I wonder if the Senator from Florida will yield me 3 minutes.

Mr. CHILES. Mr. President, I yield 5 minutes.

Mr. DOMENICI. Mr. President, I yield 3 minutes to the distinguished Senator from Oklahoma.

AMENDMENT NO. 2858

(Purpose: To delete cigarette tax increase and to amend the Internal Revenue Code of 1954 to impose a fee on the importation of crude oil or refined petroleum products to protect the national and energy security interests of the United States)

Mr. NICKLES. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The bill clerk read as follows:

The Senator from Oklahoma [Mr. NICKLES], for himself, Mr. DOMENICI, Mr. MURKOWSKI, and Mr. BOREN, proposes an amendment numbered 2858.

Mr. NICKLES. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, insert the following new section:

SEC. . FEE ON IMPORTED CRUDE OIL OR REFINED PETROLEUM PRODUCTS.

(a) IN GENERAL.—Subtitle E of the Internal Revenue Code of 1954 (relating to alcohol, tobacco, and certain other excise taxes) is amended by adding at the end thereof the following new chapter:

"CHAPTER 54—IMPORTED CRUDE OIL OR REFINED PETROLEUM PRODUCTS

"Sec. 5881. Imposition of tax.
"Sec. 5882. Definitions.
"Sec. 5883. Registration.
"Sec. 5884. Procedures; returns; penalties.

"SEC. 5881. IMPOSITION OF TAX.

"(a) IMPOSITION OF TAX.—In addition to any other tax imposed under this title, an excise tax is hereby imposed on—

"(1) the first sale within the United States of—

"(A) any crude oil, or

"(B) any refined petroleum product, that has been imported into the United States, and

"(2) the use within the United States of—

"(A) any crude oil, or

"(B) any refined petroleum product,

that has been imported into the United States if no tax has been imposed with respect to such crude oil or refined petroleum product prior to such use.

"(b) RATE OF TAX.—

"(1) CRUDE OIL.—For purposes of paragraphs (1)(A) and (2)(A) of subsection (a) the rate of tax shall be $4 per barrel, reduced by an amount which is equal to the excess of—

"(A) the energy policy price per barrel, over

"(B) $18.

"(2) REFINED PETROLEUM PRODUCT.—For purposes of paragraphs (1)(B) and (2)(B) of subsection (a), the rate of tax shall be equal to 150 percent of the rate of tax determined under paragraph (1) of this section.

"(3) FRACTIONAL PARTS OF BARRELS.—In the case of a fraction of a barrel, the tax imposed by subsection (a) shall be the same fraction of the amount of such tax imposed on the whole barrel.

"(C) DETERMINATION OF ENERGY POLICY PRICE.—

"(1) IN GENERAL.—For purposes of this section, the energy policy price with respect to any week during which the tax under subsection (a) is imposed shall be determined by the Secretary and published in the Federal Register on the first day of such week.

"(2) BASIS OF DETERMINATION.—For purposes of paragraph (1), the energy policy price for any week is the weighted average international price of a barrel of crude oil for the preceding 4 weeks as determined by the Secretary, after consultation with the Administrator of the Energy Information Administration of the Department of Energy, pursuant to the formula for determining such international price as used in publishing the Weekly Petroleum Status Report and as in effect on the date of the enactment of this section.

"(d) LIABILITY FOR PAYMENT OF TAX.—

"(1) SALES.—The taxes imposed by subsection (a)(1) shall be paid by the first person who sells the crude oil or refined petroleum product within the United States.

"(2) USE.—The taxes imposed by subsection (a)(2) shall be paid by the person who uses the crude oil or refined petroleum product.

"(3) TAX-FREE EXPORTS.—

"(A) IN GENERAL.—Under regulations prescribed by the Secretary, no tax shall be imposed under this chapter on the sale of

crude oil or refined petroleum products for export or for resale by the purchaser to a second purchaser for export.

"(B) PROOF OF EXPORT.—Where any crude oil or refined petroleum product has been sold free to tax under subparagraph (A), such subparagraph shall cease to apply with respect to the sale of such crude oil or refined petroleum product, unless, within the 6-month period which begins on the date of the sale, the seller receives proof that the crude oil or refined petroleum product, has been exported.

"SEC. 5882. DEFINITIONS.

"For purposes of this chapter—

"(1) CRUDE OIL.—The term 'crude oil' means crude oil other than domestic crude oil (within the meaning of chapter 45).

"(2) BARREL.—The term 'barrel' means 42 United States gallons.

"(3) REFINED PETROLEUM PRODUCT.—The term 'refined petroleum product' shall have the same meaning given to such term by section 3(5) of the Emergency Petroleum Allocation Act of 1973 (15 U.S.C. 752(5)).

"(4) EXPORT.—The term 'export' includes shipment to a possession of the United States; and the term 'exported' includes shipment to a possession of the United States.

"SEC. 5883. REGISTRATION.

"Every person subject to tax under section 5881 shall, before incurring any liability for tax under such section, register with the Secretary.

"SEC. 5884. PROCEDURES; RETURNS; PENALTIES.

"For purposes of this title, any reference (other than in chapter 45 or section 6429) to the tax imposed by section 4986 shall be treated, except to the extent provided by the Secretary by regulation where such treatment would be inappropriate, as a reference to the tax imposed by section 5881.".

(b) CONFORMING AMENDMENT.—The table of chapters for subtitle E is amended by adding at the end thereof the following new items:

"CHAPTER 54. IMPORTED CRUDE OIL OR REFINED PETROLEUM PRODUCTS.".

(c) DEDUCTIBILITY OF IMPORTED OIL TAX.—The first sentence of section 164(a) (relating to deductions for taxes) is amended by inserting after paragraph (5) the following new paragraph:

"(6) The imported oil taxes imposed by section 5881.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to sales and use of imported crude oil or imported refined petroleum products on or after October 1, 1986.

Mr. NICKLES. Mr. President, the amendment would place a variable fee up to $4 per barrel on imported crude oil and a fee on imported product equal to 150 percent of the oil fee. Revenues from the fee in fiscal year 1987 are projected to be $6.27 billion.

Imports of crude oil and petroleum products are threatening our national security interests. Crude oil imports have increased 61.8 percent since last year for the 4-week period ending September 5, 1986. The United States now relies on imports for approximately 40 percent of its needs. For that reason, I am sponsoring this amendment to impose a fee on oil imports.

This oil import fee will go a long way toward reversing our dependency on OPEC and bolstering our domestic supply of oil and gas. The domestic energy industry is clearly in a depression. It is important to focus not just on the import fee proposal but on the Federal Government's entire energy policy.

It may be good politics for many in Congress to bash "Big Oil" back home, but this rhetoric fuels the drive which has led to a regressive national energy policy.

Fearing "Big Oil" in 1980, Congress imposed the windfall profit tax on domestic producers. This tax had the effect of penalizing our American energy industry and encouraging foreign imports of oil.

On July 31, 1986, the Senate took the appropriate action of repealing this tax for the purpose of encouraging future domestic production. It is now up to the House of Representatives to follow suit.

The amount of windfall profit tax collected since passage in 1980 is summarized in the following table:

	1980	1981	1982	1983	1984	1985
Gross	6.9	23.4	18.5	12.2	9.2	6.6
Net	4.3	13.8	9.5	5.7	3.9	3.2

This represents an equivalent tax per barrel as indicated below:

1980	6.65
1981	9.03
1982	6.35
1983	4.25
1984	3.91
1985	2.96

Where is the wisdom in penalizing our domestic producers and giving OPEC a free ride? This Senator sees none.

At the very minimum, a fair and thoughtful policy on oil should be exactly the opposite of what we have today. The windfall profit tax should be repealed and imports should at least pay an amount equal to what our own producers have been required to pay.

I stated to President Reagan on several occasions that I hoped he would reconsider his position on the oil import fee based on the premise that it was not a tax but an equalization fee.

World oil prices have fallen by more than $18 per barrel or by 60 percent since December. This recent decline in oil prices has not been caused by the demise of OPEC but by the calculated strategy of a couple of major exporting nations trying to manipulate the market for future gain. Therefore, we don't see pure market principles at work but calculated maneuvers by government entities to increase their control over the world oil market.

I believe it would be unwise for our Government to sit idly by and allow countless American producers and refiners to go bankrupt while the Saudis and others are tightening the screws on oil producing countries. As a bare minimum, let's require that they pay at least the same tax that our domestic producers have been forced to pay since 1980. The average windfall profit tax for the lower 48 States has averaged more than $5 per barrel since passage of the windfall profit tax.

I would hope that an equalization fee would be used not to create new Federal spending programs but to decrease the national deficit.

There are other issues which should be addressed in reforming U.S. energy policy, such as the deregulation of natural gas. In the Energy Committee we have been working to reverse current punitive policies, and I would encourage this body to join us in this effort.

An oil equalization fee would be a first step toward regaining the losses we have suffered in years past at the hands of OPEC. Let us not lose this present opportunity to make a positive change.

Mr. President, as I said, this amendment calls for a $4 fee on imported oil. Instead of calling it an import fee, I would very much like to call it an importation tax because we have never taxed imports but only taxed domestic producers.

Mr. President, I think it is imperative that this country awaken to the fact that we are relying on imports and that reliance has increased substantially.

Eight months ago it was 27 percent and today it is 42 percent. That figure is rising on a daily basis.

Mr. President, I do not think it is wise for us as a country to become more and more dependent basically not because of free markets but to allow a few countries—actually in this case a couple of countries—to manipulate oil prices and drive us to where our domestic industry is basically being put on a death bed, making us more dependent on foreign sources where we would be more vulnerable to outside pressures.

Mr. President, this would be a $4 oil import fee, raising about $2.7 billion per year. It would phase out if the price of oil exceeded $22.

I think this is a commonsense approach. I compliment my good friend and colleague from New Mexico for helping us with this amendment. I think it is needed. I think America needs to wake up to our dependency on foreign resources.

Mr. DOMENICI. Mr. President, how much time have I remaining?

The PRESIDING OFFICER. The Senator from Oklahoma has 1 minute on his time and the Senator from New Mexico has 4 minutes left on his time.

Mr. DOMENICI. Mr. President, I yield myself 1 minute.

OIL IMPORT FEE

Mr. DOMENICI. Mr. President, I am very pleased that yesterday in New Orleans the President has called for a "high-level review of America's energy-related national security concerns," through assessment of the economic security impact of petroleum imports and the problems facing the oil industry. I followed with interest his statement yesterday in Louisiana where he unveiled his study initiative. Such a study will reiterate the impact of oil imports on the national security interests of the United States. My assessment is that we are vulnerable to economic terrorism because we stand to lose 35 to 40 percent of our domestic industry by the end of the year, and the only place we can turn to is the very unstable Middle East.

There have been many excellent speeches given in recent months and even in the last few days about what is going on and the impact the oil situation is having, and will continue to have for years to come. Nevertheless, the President is taking a first step in focusing on the problem and the study would constitute the foundation for the President's policy.

I think there are several of us in the Senate who could dictate a report for the President off the top of our heads right now. There are many of us ready right now to implement the necessary policy for our energy security. We could use reconciliation as the vehicle and an oil import fee as the means.

The way we think the fee should be structured is a $4 fee that begins to phase out when the price of oil reaches $18 per barrel.

CBO has already prepared a study and it determined that an oil import fee would provide the best means of discouraging imports and strengthening the U.S. energy industry.

In a few months, I will predict that the President will come around to our same conclusion—only the country will be worse off for waiting.

America uses 16 million barrels of oil per day, every day. Our great economic engine does not fire a piston without oil. Our great military industrial complex does not run without oil.

Oil imports now comprise 31 percent of supplies versus 27 percent at the beginning of the year. JEC reports that by 1988 we will pass the record level of 47 percent which we set back in 1977. Oil imports have increased by 25 percent in the past year.

OPEC manipulates the supply and price of oil. It wants to eliminate the marginal high-cost producers. That is our small independent producers. There are 450,000 U.S. stripper wells that produce less than 3 barrels per day per well. Average production of domestic nonstripper well is 45 barrels per day. In the Middle East, an average well produces over 1,600 barrels per day.

Likewise OPEC wants to prevent the development of energy alternatives which could compete with or displace oil in the world market. Sheik Yamani, the Saudi oil minister says: "The golden age of Arab oil was not in the 1970's but will be in the 1990's."

The $13 oil means very little exploration. That in turn means we are likely to lose one-third more of our production capacity. And that makes us more vulnerable than ever to OPEC by the decade of the 1990's.

This is somethings called a regional issue—the energy States versus the Northeast. Not true. This is a national issue, an issue of survival for us all.

When OPEC get us by the throat, it will be the people of New England as well as New Mexico who choke.

I ask unanimous consent that an application of the amendment appear in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EXPLANATION OF AMENDMENT

Imposes a $4 per barrel oil import fee on crude oil and refined product.

Fee phases out, dollar for dollar, penny for penny as the average weighted world price for oil exceeds $18 per barrel.

If price of oil is less than $18, the fee would be $4.

When the average price reaches $19, the fee would drop to $3.

When the average price reaches $20, the fee would drop to $2.

When the average price reaches $21, the fee would drop to $1.

When the average price reaches $22, the fee would drop to $0.

Example: If the weighted world price is $18.50 the fee would be $3.50.

The average weighted price used in the bill is already being calculated on a weekly basis by the Department of Energy. The weekly average is used to be as price sensitive as possible and to maximize free market independence. Using the weighted average eliminates the potential for market manipulation.

The fee is structured in such a way as not to be inflationary since the fee would automatically terminate at $22 per barrel, a price at least $5 below the February CBO base price.

Bill imposes the import fee as an excise tax. Since excise taxes are deductible, the fee can be higher, thereby helping the industry more, without having the full cost passed on to consumers.

Excise tax can be administered by IRS without getting the government involved in the regulation of energy prices.

A $4 would raise the price of gasoline at the pump slightly. However, in view of the recent 30 to 50 percent gasoline price decline, this is a small price to pay for energy security and to guarantee our energy independence.

Fee would be paid by the first person who sells the crude oil or refined petroleum product within the United States, i.e., the importer.

Provides for tax exempt exports.

Unofficial revenue estimates from Joint Tax indicate that this bill would raise $6.9 billion in fiscal year 1987 and $19 billion over the next three years.

Cosponsors: Domenici, Boren, Nickles, Bingaman, Bentsen, Long, Johnston, Simpson, Stevens, Murkowski, Kassebaum, Pryor, and Levin.

The import fee would raise $6.9 billion of the $14.5 needed to reach the budget goal, however there are several compelling nonbudgetary reasons to support an oil import fee now.

Allowing our foreign oil dependency to increase jeopardizes our national security.

Relying on OPEC for our oil leaves us vulnerable to economic terrorism once our own oil industry withers away.

Inaction will mean the demise of 35 to 40 percent of the U.S. domestic industry by the end of this year.

Drilling activity is at a 46-year low with the latest rig count of about 700 in use, compared to a 1981 peak of 3,970.

Inaction will cost the U.S. 500,000 barrels per day in stripper well production by 1991.

Allowing the across-the-board cuts is not responsible. For example, DOD estimates that it would have to discharge 310,000 active-duty military personnel to meet the outlay savings required of the military personnel budget. A reduction of this magnitude may distrupt plans for modernization. Likewise, the across-the-board approach would indiscriminately damage many essential domestic programs.

The Congressional Budget Office completed a report this past April, "The Budgetary and Economic Effects of Oil Taxes", that studied the energy policy and fiscal policy effects of an oil import fee. We believe the study's finding show that an oil import fee combines good fiscal policy with good energy policy. The report indicates the danger of the current oil glut.

In 1973 an embargo was directed against the United States. Our total dependence on foreign oil was 37 percent, of which 18 percent was provided by OPEC. Last month our dependency was 40 percent. Fifty percent of our imports were provided by OPEC for the first quarter of 1986.

Concern for this trend spurred the President's National Security Adviser, John Poindexter, to write Senator PACKWOOD on August 5 that there is "an emerging national security concern related to oil production in the Persian Gulf. * * * Sometime in the early 1990's we are likely to see our oil imports rise to 7 to 10 million barrels per day and the Persian Gulf will once again become the major supplier to the free world. * * * The Persian Gulf is likely to remain an unstable region as we enter the 1990's. We cannot ensure against this instability merely by purchasing oil from non-Gulf sources."

The price of oil dropped from $28 per barrel to below $13 when Saudia Arabia decided to increase production by 2 million barrels per day. It is predicted that if the Saudis were to create a 5 million barrel shortage instead, the price of oil would quickly jump to $40 per barrel.

We should show some foresight. Everyone remembers all too well how

vulnerable this country was during the 1970's to this economic terrorism, and we don't wish to see us in the same situation again.

We urge you to consider our proposal and talk with us about the energy and fiscal implications. We believe that we must take action to curb the deficit, maintain jobs for thousands of Americans and protect a critical national security industry. The oil import fee is an important and responsible part of the solution.

Mr. BOREN. Mr. President, today I join with Senator DOMENICI and 12 of my colleagues in offering the Energy Security Act of 1986 as an amendment to the Budget Reconciliation Act. This amendment seeks to place a $4 per barrel import fee, in the form of an excise tax, on every barrel of imported crude oil and refined petroleum product that enters this country.

Our proposal will allow for the gradual phase out of the fee as the price rises above $18 per barrel. Structured in this manner our fee will not be inflationary. If 100 percent of the fee were passed on to the consumer gasoline prices would rise 8 to 10 cents per gallon. However, as a result of using an excise tax mechanism, which is deductible, it is unlikely that 100 percent of the fee will be passed on and gasoline prices will rise much less than 10 cents per gallon. Mr. President, this is a small price to pay for increased energy security.

In September 1985, the United States was importing 27 percent of our total crude oil needs. Ten months later our reliance on foreign sources of crude oil has jumped to over 38 percent. We are well on our way to an excessive and very dangerous reliance on foreign oil. As an obvious example one need only look at our crude oil purchases from Saudi Arabia over the past 10 months. Where we were once importing 27,000 barrels per day of crude oil, we are now importing over 700,000 barrels per day. This past January we were importing 3.3 million barrels of crude oil daily. By June imports had jumped to over 4.5 million barrels per day. When will we learn the lessons that history has tried to teach? Can we not remember the tremendous shock to our economy that resulted from the embargoes of 1973 and 1979? Isn't it obvious that when Shiek Yamani says the Saudis are flooding the market to drive out high cost producers he means to shut down our domestic industry?

Mr. President, in December 1981, there were over 4,500 drilling rigs operating in the continental United States. Today, there are barely 700 rigs operating. That is 200 fewer rigs than were operating in Oklahoma alone in 1981. How many rigs must be shut down before our national security is at risk?

If the current trend of domestic production is not enough to put our national security at risk, then perhaps we should consider the impact of these so-called market conditions on our future ability to produce our own energy. Four years ago nearly 7,000 students were studying petroleum engineering, geology, and geophysics at the University of Oklahoma, the University of Texas, Texas A&M University, and Louisiana State University. This fall semester that number will drop below 3,000. To quote the dean of petroleum engineering at the University of Oklahoma, Dr. Ray Knapp, "We are losing the pool of wisdom, the mental resources that come from those wise heads that are now surplus to the industry—we are making the industry less attractive for young minds to enter. We are losing much of the pool of wisdom that would sustain the industry for the next 20 to 25 years. And it is not a happy prospect." How many young minds must we close before our national security is at risk?

Mr. President, I began discussing the need for an import over a year ago. In fact, I introduced my first version of an oil import fee last July. Since that time the price of oil has dropped by over 50 percent. Now is the time for action. I am pleased that so many of my colleagues have joined in our efforts to ensure our domestic energy security, and I urge the rest of my colleagues to consider the tremendous long term benefits such an import fee will bring to our Nation.

[From the New York Times, Dec. 24, 1985]

IN THE NAME OF SANITY, TAX OIL

All-America, running a $200 billion deficit for the fourth consecutive year, desperately needs to reorder its finances. Congress knows that and so does the President: They've just committed themselves by law to cut the deficit $55 billion next year and eliminate it entirely by 1991. Now the opportunity to take a long stride toward that goal is enhanced by the collapse of OPEC, the oil cartel. The way to do it is to tax imported oil.

Doing so in this time of declining prices would raise huge sums for the Treasury without triggering inflation or causing hardship to consumers. Hardly anyone would feel the pinch. Gasoline and heating oil prices now reflect an average cost of about $28 a barrel of crude.

If the collapse of OPEC cuts the price to $20, as is now anticipated, an $8 fee on each imported barrel would have the effect of paying ourselves what we have been paying to foreign oil producers. The Treasury would be enriched by $30 billion—$15 billion directly from the import tax or "fee" and aother $15 billion in income and windfall taxes on domestic oil.

An import fee offers additional benefits. Most taxes, even if necessary for revenue, are wasteful because they drive a wedge between real costs and prices, discouraging effort and reducing demand. But an oil import fee would actually improve efficiency, forcing consumers to absorb the hidden costs of dependence on unstable foreign supplies.

Those hidden cost can be enormous. The first oil shock in 1973–74 sent the world into a recession that reduced output by a *trillion* dollars. Another shock might be easier to asborb but it would still be costly. At the least, oil consumers should pay the true cost of the product, which includes the billions spent on military preparations to defend foreign oil fields and shipping lanes.

A further benefit is that consumers alone would not pay the entire $8 import fee; a portion would be paid by foreign oil producers. The higher the price, the lower the demand for oil and gasoline. And the lower the demand, the lower the world price for crude. Some of the income of foreign oil exporters would thus be transferred to importers; Senator Gary Hart estimates that about one-third of an import fee would, in effect, be rebated to consumers.

Irresponsibly, Americans have refused through all the wrenching years of high oil prices to use an oil tax to retain some revenue for themselves. Politicians fear the public would revile any plan to tax oil at home rather than enrich Arabs abroad. But in a time of falling prices, there's every reason to believe that oil-producing states like Texas would support an import fee. The fee, after all, would increase demand for domestic oil, creating jobs and revenues.

Yes, President Reagan so opposes any new taxes that he would veto even this sensible one. But, as will soon be clear, Federal spending cuts alone will not suffice to reduce the deficit on the schedule required by law. Even Mr. Reagan may prefer some taxes to gutting his military buildup. And he would not be wrong in contending that an oil import fee is less a tax than a charge on the use of a valuable public resource.

The President favors user charges on everything from national parks to Coast Guard rescues. Why, then, reject charges for oil imports that create military obligations and threaten our security?

[From the New York Times, Feb. 1, 1985]

MAKE OPEC PAY OUR DEBT

The world is awash in oil. With or without permission from the OPEC ministers meeting in Geneva, prices are tumbling.

It couldn't happen to a nicer bunch. Twice in a decade the oil exporters have exploited political crises in the Mideast with shocking increases in oil prices, triggering recessions that cost the world a trillion dollars in lost production. Now economic reality has intervened. At the official cartel price of $29 a barrel, supply far exceeds demand. And Saudi Arabia, which had single-handedly kept prices up by limiting exports, seems to have lost control.

But as nice as it is to see monopolists in trouble, crowing about OPEC's problems distracts attention from the golden opportunity offered by falling oil prices. Congress could insure that OPEC remains on the run, and also raise revenues with little pain by quickly imposing a big tax on imported oil.

Two years ago, gasoline prices hovered at about $1.25 a gallon. Now gas is available for less than a dollar. If bearish industry analysts are correct and the world supply of crude oil keeps increasing, prices to consumers, adjusted for inflation, will soon fall to the level of the mid-1960's!

Why not sit back and enjoy it? First, because the oil glut won't last unless steps are taken to prolong it. Oil will be plentiful for several years, but the long-term outlook remains bleak. It is a depleting resource and there is still no practical substitute for it as

transportation fuel. Moreover, most remaining reserves of oil that can be exploited at low cost are in politically unstable countries. Thus its demand keeps inching up toward the limits of potential production, a repeat of the 1974 or 1979 oil shocks becomes ever more likely.

There's another reason not to sit on our glut. A program to contain the demand for oil could yield a timely bonus: tax revenue. America badly needs to reduce its budget deficit, $200 billion and growing. A duty of, say, $10 a barrel on imports would yield about $20 billion directly and generate $25 billion more in higher income and windfall taxes on domestic oil. Best of all, much of the revenue would come from OPEC's pockets; conservation would reduce the world price for oil and diminish the incentive for Saudi Arabia to limit output.

Conventional wisdom says Americans won't stand for a tax at the pump. But compare the pain of such a tax with the pain of Draconian spending cuts—or of higher income taxes. A $10-a-barrel import tax would raise a lot of revenue, put OPEC to rout and still leave gasoline prices lower than they were in 1982. Never has there been a better moment to strike a blow for energy independence.

[From the New York Times, Apr. 25, 1986]

AN IMPORT TAX WOULD PROVIDE RELIEF FOR OIL STATES

To the Editor:

Uwe E. Reinhardt's April 13 letter ("Cheap Oil, Dear Oil and National Security") makes many sound points and offers a deserved criticism of the Vice President, but I would like to suggest some improvements to Professor Reinhardt's recommendations for action.

Like most, if not all, fellow economists, I share his two basic propositions, that cheap oil is highly beneficial to our country—the cheaper the better—but that it seriously hurts a small segment of the country: the oil producing states. I also share his third proposition (though here I may part company with some of my colleagues) that that small sector deserves some relief.

But instead of his approach of providing the desired relief through a program of "massive search for new oil reserves on our soil," financed by putting "an excise tax on all forms of energy consumption," I would suggest relying on a mechanism that has already been suggested; namely, to levy an appropriate excise tax on imported oil.

Such a tax would have the effect of raising the domestic price of crude oil above the world price by the extent of the tax, thus raising also the price of domestically produced oil. This would provide the desired relief directly to the oil producers, who are the current losers and also, somewhat indirectly, to the oil-exploring industry, which is anyway far less important.

One particular reason this approach is equitable, besides being economically sound, is that when the price of oil was sky high, we took away some of the potential profits of the producers by imposing a so-called windfall-profits tax. We thereby, in effect, nationalized and shared part of the industry's "excess" profits. It seems only fair that we should today symmetrically nationalize and share some of its windfall losses. Under an excise tax on imported oil, this would be done at no cost to the Treasury.

Another differential effect of this proposal, compared with Professor Reinhardt's, is that some of the gain to oil producers would spread, through higher prices, to other producers of energy (gas, coal). I would regard this an advantage because these industries are also suffering windfall losses as a result of the crash in the oil price.

My proposal, like Professor Reinhardt's, implies forgoing some of the advantage of cheap oil to domestic users. But in my version this loss is offset by the additional oil-tax revenue accruing to the Treasury. This is an important advantage at a time when we are making little progress in reducing the budget deficit, the country's No. 1 economic priority.

The suggested approach would be further refined by setting the rate of the import tax on a sliding scale, varying inversely with the world price. This would serve the desirable purpose of stabilizing the price paid by domestic users and received by domestic producers at some chosen level, at least as long as the world price does not exceed that level. Even if it did exceed that price, stability of the producers' effective price could be achieved by reinstituting the "windfall-profits" tax. This stability would have great advantages, especially at a time like the present, when the price of oil may well go through large, economically undesirable gyrations.

Franco Modiglian.

CAMBRIDGE, MA., *April 14, 1986.*

[From the Boston Globe, Jan. 23, 1986]

TAXING OIL NOW

The sound of falling oil prices all over the world ought to wake up legislators on Beacon Hill and in Washington. They can help solve several pressing problems, relatively painlessly, by increasing state and federal gasoline taxes and imposing a tariff on oil imports.

Gasoline prices, both state and federal, lag well behind increases justified by inflation. The Massachusetts tax, at 11 cents a gallon, is less than twice its 6.5 cent level in 1967, even though prices have more than tripled in the interval. A tax of 20 cents a gallon is justified by inflation alone, and would raise about $200 million annually to help pay for the state's enormous backlog of road and transportation projects.

Similarly, the federal tax at nine cents a gallon falls well short of keeping pace with inflation. Congress established a four-cent level in 1957 and did not raise it until 1982.

An oil-import fee of, say, $10 a barrel would raise about $16 billion at current import levels of about 1.6 billion barrels a year. With the current spot market for crude as low as $20 a barrel, such a fee would still leave prices below the 1981 peaks of around $34. Furthermore, they would stimulate domestic exploration and development efforts that now threaten to flag in the face of falling prices.

In normal circumstances, increases in energy taxes might be shunned because they might weigh more heavily on lower-income consumers. These are not normal circumstances. Massachusetts has unwisely dismantled a portion of its income tax on the eve of declining federal subsidies and rising local needs. The Reagan administration has led an even more severe assault on the federal income tax and continues to tolerate large deficits with little prospect of increasing revenues.

Each of these problems, only partially masked by the economic rebound of the past two years, demands that every available opportunity be seized to expand sources of revenue. The oil-price fall presents a unique chance for one such expansion.

[From the New York Times, Mar. 30, 1986]

A PERIL TO SECURITY

(By Fred L. Hartley)

LOS ANGELES.—The collapse of the Geneva talks involving members of the Organization of Petroleum Exporting Countries and oil-producing countries that are not OPEC members leaves the world with no mechanism to restore the stability of oil prices. And as long as Saudi Arabia sticks to its program of increased production, prices will continue to plunge. This problem not only harms the United States' petroleum industry but also threatens national security. The answer is an oil import fee.

Americans who hope for a price war do not appreciate what it would cost the nation. Cheap oil threatens our security and economic vitality by crippling the petroleum industry. The Government should immediately enact a tax on all imported crude oil and petroleum products.

Since 1979, the world's demand for crude has decline from 54 million barrels per day to about 46 million, and OPEC's market share has dropped from 31 million a day to 16 million. In December, Saudi Arabia acted to regain its dominant market position: It doubled production and initiated a price war that cut world oil prices by more than half. The Saudis hold the upper hand. They have one-fourth of the world's known oil reserves, virtually all of the world's readily available oil and the world's lowest production costs. They can increase production to 10 million barrels per day and drive prices below $10 per barrel, a price that would stimulate demand even as it shut down American production and virtually ended this country's search for new energy resources.

The tactic is working and is devastating America's strategic petroleum position. Drilling is down more than one-third since December. Petroleum companies are slashing capital budgets and canceling exploration and production programs. Producers are closing higher cost wells. At this rate, domestic production will drop this year by at least one million barrels per day. Producers, drillers and suppliers are struggling to avoid bankruptcy.

While low prices spur demand, domestic production will drop sharply, frontier exploration will halt and imports will more than double in the next four years. Those increased imports will come from OPEC—and all control over world oil prices will have reverted to the cartel.

This is not the free market at work; it is predatory pricing on an unprecedented scale. Low-price oil carries high costs—lost tax revenues, increased unemployment, weakened banks and a ruined petroleum industry. The prospect of oil shortages and skyrocketing prices threatens our national security, economic health and ability to control our foreign policy.

To avoid a serious new energy crisis, Washington must impose an import fee—with no exceptions—on all imported crude oil, petroleum products and petroleum-derived chemicals. It should be levied without special deals or privileges. If arrangements are needed to protect relationships with Canada and Mexico, they should be worked out on a case-by-case basis.

The fee would create a floor price of, say, $27 per barrel, which should be high enough to support continued American exploration and development but low enough to provide gasoline and other products at prices comparable to what consumers paid three months ago. The fee, paid by the importer and passed to the consumer, would amount to the difference between the import price and floor price. If the average import price were $15 per barrel, the fee would be $12; if the import price were $27, the fee would disappear. The primary purpose of the fee would not be to raise the price of imported oil but to support the price of American crude at a level that enabled our industry to remain fully productive. An import fee would thus protect the industry while the oil exporters' predatory price war went on.

Some consumers and policy makers oppose an oil import fee, believing it would interfere with the free market and unfairly penalize certain sectors of the economy. But oil is a strategic commodity necessary to national security. Without it, we cannot defend ourselves. And without a strong domestic oil industry, we will again become dangerously dependent on foreign—OPEC—oil. Such dependence can generate damaging, inflationary prices for all United States industries and consumers, force a severe drain in the balance of payments and make our Nation ever more vulnerable to political and social upheavals abroad.

America cannot afford so-called cheap oil.

[From the New York Times, Aug. 19, 1986]

TOWARD DOMESTIC OIL PROSPERITY

(By Bernard L. Weinstein and Harold T. Gross)

DALLAS.—When oil prices began to plummet earlier this year, the event was met with a general euphoria by residents and politicians in energy-consuming states. Within weeks, Texas-bashing became the nation's No. 1 pastime. Newspaper and magazine articles carried headlines like "Texas Takes a Tumble" and "The Great Texas Oil Bust," and Yankee pundits had a field day writing columns titled "Let 'Em Rot in the Sun" and "Cap a Well and Starve a Texan."

Cheap oil, they predicted, would help restore international competitiveness for American industry, increase disposable income and prolong the national economic expansion. But that hoped-for scenario has not materialized, and it now seems that the costs of cheap oil may have far exceeded the benefits.

On the other hand, the recent agreement of the Organization of Petroleum Exporting Countries to restrict output and raise oil prices has unduly raised expectations of a return to a stable market. Given OPEC's track record, we should be wary of talk of a quick recovery.

Rather, as we fill up our gas tanks for $10 or less, it might be helpful to remember that the oil industry was until very recently the largest employer in the United States. More than a million people make a living in various aspects of the oil business, and although these jobs are concentrated in the Southwest, the indusry is a major employer in every state.

Thus it is not surprising that the contraction of the oil industry also pulled down many other sectors of the national economy. In July, for example, the Commerce Department reported that second-quarter growth in the gross national product had slowed to a mere 1.1 percent annual rate, primarily because of weakness in energy and related sectors.

Any short-term advantages for the national economy from cheap oil must be weighed against the prospect of greater political and economic vulnerability. As we substitute "cheap" foreign oil for "expensive" domestic oil, American exploration and drilling diminish. Should an emergency arise, it would be extremely costly to boost domestic production, and it would take years. It took six years for domestic production to increase after the first OPEC shock in 1973. The cost of reopening a plugged oil well is almost as high as the cost of drilling a new one.

The domestic oil industry can only prosper if prices are stabilized at a level high enough to secure reserves and to encourage a modest level of exploration and drilling. Some might argue that the recent accord within OPEC will restore confidence and cause a new surge of oil exploration. But this is unlikely. Too many previous OPEC accords have dissolved under the temptation to violate production quotas.

Rather than delude ourselves into believing that oil prices now reflect the interplay of supply and demand in a free market, we should take advantage of OPEC's disarray to reassert our position in the marketplace. The United States is, after all, still the second-largest oil producing nation and the world's chief oil consumer. Because of that position, we can quickly and painlessly bring order to the world oil market by adopting a variable tariff on crude imports and by letting American producers export their oil.

A variable tariff, aimed at stabilizing oil prices around $18 a barrel, would halt the steep slide in domestic production and mitigate the nation's growing dependence on imports. Similarly, a repeal of the prohibition on the export of American crude oil would stimulate domestic production and allow the United States to narrow its trade imbalances with major energy-consuming nations like Japan, South Korea and Taiwan.

Fears that oil priced at $18 a barrel would harm the Frost Belt are unfounded. In fact, that region's remarkable economic rebirth began in the early 1980's, when oil prices were well over $30 a barrel. Most important, the combination of an oil import fee and entry into the crude export market would halt the decline of an industry that contributes enormously to the gross national product, and would prevent another slide toward a severe national recession.

[From the Christian Science Monitor, July 31, 1986]

IMPORT FEE URGED TO SAVE U.S. OIL INDUSTRY

(By David R. Francis)

Thousands of American bankers and oil industry executives would be delighted if the Organization of Petroleum Exporting Countries agreed on national quotas during its current meeting in Geneva.

The resulting limit on supply would boost the price of crude, thereby saving the banks' oil loans from default and returning prosperity to the petroleum business.

Given the deep divisions within OPEC, however, many observers consider such a deal unlikely.

So Sam Nakagama, a Wall Street economist, thinks Uncle Sam should ride to the rescue. Indeed, he suspects that "the powerful pressure of events—economic, political and geopolitical—will force the White House to adopt a variable oil-import fee by late summer."

That fee, he suggests, should establish a floor of $18 a barrel and grant Mexico and Canada tax-free quotas.

Otherwise, Mr. Nakagama predicts, the price of crude could plunge to $5 a barrel, threatening to destabilize North America. Such a low price, he says, would:

1. Cause more serious damage to the United States banking system, especially in the Southwest.

2. Probably prompt a collapse of the Mexican debt refinancing package.

3. Lead to the economic and political destabilization of Mexico, resulting in disorders on the southern US border.

4. Destroy the domestic oil industry and deepen economic problems in the Southwest.

5. Increase the probability of the Republicans losing control of the Senate in November. The flow of Republican Party funds from Texas could shrink, he adds.

6. Produce a downward spiral of falling incomes and imports among oil-producing countries, thereby leading to further cutbacks in world trade and US exports.

7. Collapse confidence in the dollar in the face of financial and economic disorders.

8. Result in soaring oil prices by 1990 as the US and other countries get hooked on cheap oil again.

At the $5-a-barrel price, says Nakagama, "in five years OPEC will be back in the driver's seat."

That's a phrase which echoes. Two economists with Merrill Lynch Economics Inc., Jack Wolfman and John Hill also talk of OPEC's being "once again back in the driver's seat" by 1990, with oil prices climbing to at least $20 a barrel.

All these analysts figure the current decline in oil prices will clobber enough non-OPEC oil production, at the same time American consumption of oil is once more rising, that the US will become significantly dependent on Mideast and other OPEC oil sources.

"With the OPEC countries now engaged in a price war, it's more and more obvious that the United States cannot bemuse itself with the idea we are watching free markets at work," states Nakagama. "In fact, an avowed aim of OPEC is to drive marginal, high-cost producers out of the market. And that means especially the low-volume producers of the United States. In effect, the primary aim of OPEC now is the destruction of the US oil industry."

Nakagama finds it "astounding that the Reagan administration should simply sit there and let this happen. Indeed, this behavior is so amazing and lacking in common sense that we think it must come to an end before the arrival of autumn."

The plunge in oil prices has already had an important impact on production.

US crude oil production in May was down 3.6 percent (327,000 barrels a day—b.p.d.) compared with the same month a year ago as uneconomic "stripper" wells (10 b.p.d. or less) were shut down. In 1985, 450,000 stripper wells accounted for 15 percent, or 1.35 million b.p.d. of US output. The average cost of production of these wells, including taxes and other expenses, is said to be $12 to $15 a barrel. Nowadays, some grades of crude are going for $8 a barrel.

Robert O. Anderson, chairman of Atlantic Richfield Company, estimates US oil output will drop by at least 1 million b.p.d. next year as marginal wells are shut in.

In the meantime, the long slide in petroleum usage has ended. In the US, which accounts for 35 percent of world oil consump-

tion, domestic demand this year through June 23 is up 3.1 percent from the same period in 1985.

OPEC is producing around 20 million b.p.d., well above the 17.9 million ceiling a majority of its members agreed on in theory at its last meeting, in June. That ceiling would aim at a price range of between $17 and $19 a barrel.

If OPEC can't set such a goal by establishing country quotas at this Geneva meeting, it will have a strong incentive to do so should the US impose oil-import fees, Nakagama says. The oil-producing countries would want to recapture the US fee, which would be reckoned by subtracting the world price of oil from $18.

The $18 price, Nakagama figures, would stabilize incomes, rescue the domestic oil industry, and prevent more financial troubles. As for the administration's reluctance to act because it doesn't want to interfere in a "free market," he comments: "Tell me another joke."

Mr. DOMENICI. Mr. President, I ask unanimous consent that five articles from the New York Times and the Boston Globe talking about sanity in energy policy be made a part of the RECORD.

There being no objection, the editorials were ordered to be printed in the RECORD, as follows:

[From the New York Times, Feb. 1, 1985]

MAKE OPEC PAY OUR DEBT

The world is awash in oil. With or without permission from the OPEC ministers meeting in Geneva, prices are tumbling.

It couldn't happen to a nicer bunch. Twice in a decade the oil exporters have exploited political crises in the Mideast with shocking increases in oil prices, triggering recessions that cost the world a trillion dollars in lost production. Now economic reality has intervened. At the official cartel price of $29 a barrel, supply far exceeds demand. And Saudi Arabia, which has single-handedly kept prices up by limiting exports, seems to have lost control.

But as nice as it is to see monopolists in trouble, crowing about OPEC's problems distracts attention from the golden opportunity offered by falling oil prices. Congress could insure that OPEC remains on the run, and also raise revenues with little pain by quickly imposing a big tax on imported oil.

Two years ago, gasoline prices hovered at about $1.25 a gallon. Now gas is available for less than a dollar. If bearish industry analysts are correct and the world supply of crude oil keeps increasing, prices to consumers, adjusted for inflation, will soon fall to the level of the mid-1960's!

Why not sit back and enjoy it? First, because the oil glut won't last unless steps are taken to prolong it. Oil will be plentiful for several years, but the long-term outlook remains bleak. It is a depleting resource and there is still no practical substitute for it as transportation fuel. Moreover, most remaining reserves of oil that can be exploited at low cost are in politically unstable countries. Thus if demand keeps inching up toward the limits of potential production, a repeat of the 1974 or 1979 oil shocks becomes ever more likely.

There's another reason not to sit on our glut. A program to contain the demand for oil could yield a timely bonus: tax revenue. America badly needs to reduce its budget deficit, $200 billion and growing. A duty of, say, $10 a barrel on imports would yield about $20 billion directly and generate $25 billion more in higher income and windfall taxes on domestic oil. Best of all, much of the revenue would come from OPEC's pockets; conservation would reduce the world price for oil and diminish the incentive for Saudi Arabia to limit output.

Conventional wisdom says Americans won't stand for a tax at the pump. But compare the pain of such a tax with the pain of Draconian spending cuts—or of higher income taxes. A $10-a-barrel import tax would raise a lot of revenue, put OPEC to rout and still leave gasoline prices lower than they were in 1982. Never has there been a better moment to strike a blow for energy independence.

[From the New York Times, Dec. 24, 1985]

IN THE NAME OF SANITY, TAX OIL

All America, running a $200 billion deficit for the fourth consecutive year, desperately needs to reorder its finances. Congress knows that and so does the President: They've just committed themselves by law to cut the deficit $55 billion next year and eliminate it entirely by 1991. Now the opportunity to take a long stride toward that goal is enhanced by the collapse of OPEC, the oil cartel. The way to do it is to tax imported oil.

Doing so in this time of declining prices would raise huge sums for the Treasury without triggering inflation or causing hardship to consumers. Hardly anyone would feel the pinch. Gasoline and heating oil prices now reflect an average cost of about $28 a barrel of crude.

If the collapse of OPEC cuts the price to $20, as is now anticipated, an $8 fee on each imported barrel would have the effect of paying ourselves what we have been paying to foreign oil producers. The Treasury would be enriched by $30 billion—$15 billion directly from the import tax or "fee" and another $15 billion in income and windfall taxes on domestic oil.

An import fee offers additional benefits. Most taxes, even if necessary for revenue, are wasteful because they drive a wedge between real costs and prices, discouraging effort and reducing demand. But an oil import fee would actually improve efficiency, forcing consumers to absorb the hidden costs of dependence on unstable foreign supplies.

Those hidden costs can be enormous. The first oil shock in 1973-74 sent the world into a recession that reduced output by a *trillion* dollars. Another shock might be easier to asborb but it would still be costly. At the least, oil consumers should pay the true cost of the product, which includes the billions spent on military preparations to defend foreign oil fields and shipping lanes.

A further benefit is that consumers alone would not pay the entire $8 import fee; a portion would be paid by foreign oil producers. The higher the price, the lower the demand for oil and gasoline. And the lower the demand, the lower the world price for crude. Some of the income of foreign oil exporters would thus be transferred to importers; Senator Gary Hart estimates that about one-third of an import fee would, in effect, be rebated to consumers.

Irresponsibly, Americans have refused through all the wrenching years of high oil prices to use an oil tax to retain some revenue for themselves. Politicians fear the public would revile any plan to tax oil at home rather than enrich Arabs abroad. But in a time of falling prices, there's every reason to believe that oil-producing states like Texas would support an import fee. The fee, after all, would increase demand for domestic oil, creating jobs and revenues.

Yes, President Reagan so opposes any new taxes that he would veto even this sensible one. But, as will soon be clear, Federal spending cuts alone will not suffice to reduce the deficit on the schedule required by law. Even Mr. Reagan may prefer some taxes to gutting his military buildup. And he would not be wrong in contending that an oil import fee is less a tax than a charge on the use of a valuable public resource.

The President favors user charges on everything from national parks to Coast Guard rescues. Why, then, reject charges for oil imports that create military obligations and threaten our security?

[From the Boston Globe, Jan. 23, 1986]

TAXING OIL NOW

The sound of falling oil prices all over the world ought to wake up legislators on Beacon Hill and in Washington. They can help solve several pressing problems, relatively painlessly, by increasing state and federal gasoline taxes and imposing a tariff on oil imports.

Gasoline taxes, both state and federal, lag well behind increases justified by inflation. The Massachusetts tax, at 11 cents a gallon, is less than twice its 6.5 cent level in 1967, even though prices have more than tripled in the interval. A tax of 20 cents a gallon is justified by inflation alone, and would raise about $200 million annually to help pay for the state's enormous backlog of road and transportation projects.

Similarly, the federal tax at nine cents a gallon falls well short of keeping pace with inflation. Congress established a four-cent level in 1957 and did not raise it until 1982.

An oil-import fee of, say, $10 a barrel would raise about $16 billion at current import levels of about 1.6 billion barrels a year. With the current spot market for crude as low as $20 a barrel, such a fee would still leave prices below the 1981 peaks of around $34. Furthermore, they would stimulate domestic exploration and development efforts that now threaten to flag in the face of falling prices.

In normal circumstances, increases in energy taxes might be shunned because they might weigh more heavily on lower-income consumers. These are not normal circumstances. Massachusetts has unwisely dismantled a portion of its income tax on the eve of declining federal subsidies and rising local needs. The Reagan administration has led an even more severe assault on the federal income tax and continues to tolerate large deficits with little prospect of increasing revenues.

Each of these problems, only partially masked by the economic rebound of the past two years, demands that every available opportunity be seized to expand sources of revenue. The oil-price fall presents a unique chance for one such expansion.

[From the New York Times, Mar. 30, 1986]

A PERIL TO SECURITY

(By Fred L. Hartley)

LOS ANGELES.—The collapse of the Geneva talks involving members of the Organization of Petroleum Exporting Countries and oil-producing countries that are not OPEC members leaves the world with no mechanism to restore the stability of oil prices. And as long as Saudi Arabia sticks to its pro-

gram of increased production, prices will continue to plunge. This problem not only harms the United States' petroleum industry but also threatens national security. The answer is an oil import fee.

Americans who hope for a price war do not appreciate what it would cost the nation. Cheap oil threatens our security and economic vitality by crippling the petroleum industry. The Government should immediately enact a tax on all imported crude oil and petroleum products.

Since 1979, the world's demand for crude has declined from 54 million barrels per day to about 46 million, and OPEC's market share has dropped from 31 million a day to 16 million. In December, Saudi Arabia acted to regain its dominant market position: It doubled production and initiated a price war that cut world oil prices by more than half. The Saudis hold the upper hand. They have one-fourth of the world's known oil reserves, virtually all of the world's readily available oil and the world's lowest production costs. They can increase production to 10 million barrels per day and drive prices below $10 per barrel, a price that would stimulate demand even as it shut down American production and virtually ended this country's search for new energy sources.

The tactic is working and is devastating America's strategic petroleum position. Drilling is down more than one-third since December. Petroleum companies are slashing capital budgets and canceling exploration and production programs. Producers are closing higher-cost wells. At this rate, domestic production will drop this year by at least one million barrels per day. Producers, drillers and suppliers are struggling to avoid bankruptcy.

While low prices spur demand, domestic production will drop sharply, frontier exploration will halt and imports will more than double in the next four years. Those increased imports will come from OPEC—and all control over world oil prices will have reverted to the cartel.

This is not the free market at work; it is predatory pricing on an unprecedented scale. Low-priced oil carries high costs—lost tax revenues, increased unemployment, weakened banks and a ruined petroleum industry. The prospect of oil shortages and skyrocketing prices threatens our national security, economic health and ability to control our foreign policy.

To avoid a serious new energy crisis, Washington must impose an import fee—with no exceptions—on all imported crude oil, petroleum products and petroleum-derived chemicals. It should be levied without special deals of privileges. If arrangements are needed to protect relationships with Canada and Mexico, they should be worked out on a case-by-case basis.

The fee would create a floor price of say $27 per barrel, which should be high enough to support continued American exploration and development but low enough to provide gasoline and other products at prices comparable to what consumers paid three months ago. The fee, paid by the importer and passed to the consumer, would amount to the difference between the import price and floor price. If the average import price were $15 per barrel, the fee would be $12; if the import price were $27, the fee would disappear. The primary purpose of the fee would not be to raise the price of imported oil but to support the price of American crude at a level that enabled our industry to remain fully productive. An import fee would thus protect the industry while the oil exporters' predatory price war went on.

Some consumers and policy makers oppose an oil import fee, believing it would interfere with the free market and unfairly penalize certain sectors of the economy. But oil is a strategic commodity necessary to national security. Without it, we cannot defend ourselves. And without a strong domestic oil industry, we will again become dangerously dependent on foreign—OPEC—oil. Such dependence can generate damaging, inflationary prices for all United States industries and consumers, force a severe drain in the balance of payments and make our nation ever more vulnerable to political and social upheavals abroad.

America cannot afford so-called cheap oil.

[From the New York Times, March 30, 1986]

WHY CHEAP OIL IS NO BOON FOR THE U.S.

A THREAT TO SUPPLIES

(By H. Erich Heinemann)

The dramatic gyrations in the price of oil this year are certain to provide a significant short-run boost to the world economy. Prices have dropped so far and so fast that consumers will pay much less for energy on average this year than last, even if the cartel of major oil exporting nations were to succeed soon in pushing petroleum prices back up again.

However, consumers, investors, and policy makers alike should pause before they extrapolate headlines about declining oil prices into expectations of an extended era of cheap energy and low inflation. These benefits are likely to be temporary. Besides, oil prices are likely *to rebound by next year.* Contrary to popular impression, both the producers and the consumers of oil have a community of interest in maintaining petroleum prices well above current levels.

Producers want secure revenues and consumers want secure supplies. Neither would be likely if the oil price wars were to continue. It is perfectly true that the Organization of Petroleum Exporting Countries still has a very long way to go to find a formula to control production and boost oil prices. The $28 a barrel price that OPEC recently promised to "defend" is at present a wish, not a threat.

But it would be foolish to bet that OPEC's effort will fail. And Washington is full of talk about possible energy taxes to put a floor under oil prices and encourage domestic oil exploration. It would therefore be wrong to assume that inflation is dead and for Capitol Hill or the Federal Reserve Board to seize on lower oil prices as an excuse to pursue stimulative economic policies.

To be sure, lower oil prices mean that the United States and other oil importers will in effect be wealthier. People will spend more on goods and services and invest more in capital assets. But all of these desirable events represent onetime changes. The true, underlying rate of inflation is a function not of oil prices but of such fundamental factors as growth in productivity, the labor force, capital investment and the money stock. Unless the United States adopts a disinflationary policy of slow and stable growth in money, inflation will return to higher levels in 1987 and thereafter.

It is too early to know when oil prices will rebound—or to what level. But the economics of oil suggest a price closer to $25 than $15 a barrel, well above the average price that major oil consumers are paying at present.

The key to understanding the oil market is the fact that, except for Saudi Arabia and Kuwait, the major oil exporters have been losing substantial amounts of revenue as a result of the decline in oil prices. In some countries, Britain for example, oil production is already at capacity and cannot be increased. In others, such as Nigeria, production cannot be increased enough to make up for the losses in revenue owing to lower prices.

Obviously, the oil exporters have a common interest in stabilizing prices as high as possible. Even with an enforced cut in production, they can expect higher revenues than they will get if oil prices stay where they are now. Keep in mind, too, that there are only four major oil exporting nations outside OPEC—the Soviet Union, Mexico, Britain and Norway. It is a good bet that most of these countries will cooperate with the cartel one way or another.

Saudi Arabia, which triggered the oil price war, has been open in saying that its goal now is an "arrangement" to share production cutbacks equitably and thus stabilize prices. The Saudis have no interest in destroying OPEC. Nor would that be politically feasible.

In the end, geopolitics will count most. The OPEC members as a group hold practically all of the reserves that are relatively inexpensive to develop and bring to market. Therefore, if the price of oil were to stay well below $20 a barrel, exploration and development outside the OPEC area would dwindle and the industrialized nations once again would become dependent on the Middle East for energy supplies.

At last week's OPEC meeting in Geneva showed, hard bargaining is under way to slice up shares of the oil market. The oil producing nations need money, and the consumers, such as the United States, West Germany and Japan, do not want to be vulnerable to another oil embargo. This is hardly a remedy of which the economist Adam Smith would approve, but it is a good description of the way the world works.

Mr. DOMENICI. Mr. President, I urge that my friend from Oklahoma withdraw the amendment. I do state that the President of the United States seems to be listening to what some of us are saying. I understand that he has now ordered that a study under the National Security Act be made by his security adviser and the Commerce Department with reference to the impact on national security that is resulting from our continued, growing dependence upon foreign oil. I hope that that study will reveal the true facts. If it does, it seems to me that we will have served a purpose in the last couple of months in reminding the President and others here in the Congress that we are on a path of energy insanity in the name of some kind of "let's be fair today." We are going to penalize the future generations unmercifully when we begin to be more and more dependent on foreign oil.

I hope my friend will withdraw the amendment. We will be back another day.

OIL IMPORT FEES

Mr. WEICKER. Mr. President, I rise today to reiterate my strong and continued opposition to any tax on imported oil and to urge my colleagues to maintain their opposition to such a tax. On several occasions the Senate has seen the wisdom in rejecting this tax and I am hopeful that it will be rejected again today.

An oil import fee is neither fair nor economically sound. Not only would it lay a disproportionate burden on those industries and States which are most dependent on petroleum products, but its overall effects on the economy would be burdensome and inflationary.

There are countless studies which evidence the disproportionate impact of an oil import fee on those regions which are most dependent on oil for an energy source and raw materials. But you do not need to be a scientist or an economist to figure that out. Those that use more of a product pay a heavier burden when its price rises. Proponents of an oil import fee like to gloss over this simple fact—or argue that, notwithstanding these problems, an oil import fee is in the national interest. Well, the truth is, it is not in the national interest. There are just as many studies to show that an import fee would be burdensome to the national economy. Again, you do not need to be an economist to understand that increasing the price of a basic commodity such as oil, increases prices throughout the economy, causing inflation. Furthermore, using a tax to hold U.S. oil prices above the world oil price level puts all U.S. manufacturers who use a significant amount of oil at a disadvantage to their foreign competitors. In both cases an oil import fee undermines the economy, and its own original intent to reduce the deficit and strengthen the economy.

The proponents of the oil import tax always speak glowingly of the benefits of such a tax and ignore its costs. The truth of the matter is the costs of an import fee outweigh the benefits. For every winner there is a loser. An oil import fee is robbing Peter to pay Paul on a national scale. And believe me, those of us who are in the position of Peter, those of us in the Northwest and Midwest who have had to struggle with the supply disruptions and price spikes and price increases of the last 15 years will oppose these taxes at every opportunity.

Sure, I understand that producing States have problems now that prices have fallen. Perhaps now those States can come to appreciate what some of us in the Northeast and Midwest have been going through for the past 15 years. You say you are losing jobs—we have been losing jobs and industries for years because of spiralling energy costs. You say you are losing revenues—we have never had any petroleum revenues to lose. Our utilities have had to raise rates, our State governments have had to tax, tax and tax to meet the higher costs associated with petroleum use.

Now—when we finally have a breather from these high oil prices and others are faced with realities with which we have learned to live, it is suggested that perhaps we should just have another tax—but a tax on those other guys—a tax for those who have been struggling with high oil prices and no oil revenues for years. Well, let met tell you—forget it—because it is not going to happen, not as long as I can do anything to stop it.

The Nation, and particularly the Northeast and Midwest have had to pay more than our share for the energy crisis and finally we get a break—it is absolutely unacceptable that now we should have to pay for the energy glut as well.

Mr. MITCHELL. Mr. President, I rise in strong opposition to the amendment which would impose a $4 tariff on every barrel of crude oil or petroleum product imported to the United States. My objections to the amendment are simple and remain essentially the same as those stated in previous debates on this subject.

An oil import fee would have a clearly adverse impact on the economy of Maine and New England. In addition, an oil import fee is a regressive, inefficient method of raising revenues, particularly when this Senate stands poised to pass tax reform legislation purporting to bring fairness and equity to this Nation's Tax Code.

First, an import fee would adversely affect my State.

The imposition of a fee on imported crude oil or refined product would also increase the price of domestically produced oil. Although the fee would be levied only against imported oil, domestic oil prices would rise by an amount equivalent to the fee.

I can state categorically that the residents of my State of Maine would be among those most adversely affected by such a price increase because oil accounts for 80 percent of the total energy consumption in Maine.

For comparison, the rest of the Northeastern States utilize oil for 50 percent of their energy, and the country as a whole uses oil for 44 percent of its energy.

Homeowners and businesses in Maine rely disproportionately on oil for direct heating. An increase in the price of that product, therefore, is virtually certain to impose an enormous drain on the incomes, investments and savings of Maine citizens.

Alternatives to oil for heating in Maine—a major and significant component of the cost of living and doing business in New England—are limited to wood and electricity. Our electricity in Maine is largely generated by hydro, coal and nuclear fuels, but oil still accounts for 19 percent of generating capacity—a proportion roughly three times the national average.

A second major disadvantage of any oil import fee proposal is that the fee is perhaps the least efficient revenue-raising option now under serious discussion. An oil import fee would of course raise revenues. And, clearly, our present budgetary situation makes it irresponsible to hastily and out of hand reject any potentially productive revenue measure. My opposition is not hastily reached.

A number of previous studies on oil import fees in the early 1980's estimated that the revenues generated by a $5-per-barrel fee would be in the range of $9 billion per year over the next 5 years. But the cost to consumers was estimated to range from $20 to $30 billion per year.

In testimony presented to the Finance Committee this February, Roger Mentz, Acting Assistant Treasury Secretary, said that while the burden of the fee would fall on foreign producers and domestic consumers, the "benefits would be shared by the Federal Government and the domestic oil industry." I believe that is putting the case charitably to say the least.

Mr. Mentz went on to say that Treasury analysis indicated that, based solely on the increase in oil prices, the domestic oil industry would realize after-tax benefits equal to $1.75 for every $1 of tax collected by the Treasury.

Last, Mr. President, an oil import fee is regressive in nature.

A May 1986 Congressional Research Service study on the revenue and economic effects of oil import fees said, "An oil import tax would also affect the way in which income is distributed over the U.S. population by income bracket. More specifically, the percentage reduction in income in response to an oil import tax tends to decline as the level of household income increases."

That study went on to say that higher crude oil prices will cause the price of other energy forms, such as natural gas, electricity and coal to be higher than otherwise. Because total energy spending is more concentrated in lower incomes than is fuel oil and gasoline spending, the oil import tax would tend to be more regressive in the long run than in the short run.

It is ironic that at a time when we are seeking to eliminate Government-induced distortions into our capital and investment markets through a major tax overhaul; when we are attempting to ease the tax burden on many low-income families by taking them off the tax rolls; when we are trying to bring much needed fairness to our Tax Codes; that we should be asked to consider a measure which

would have the effect of creating significant new distortions in our markets and heap additional regressive tax burdens on millions of Americans.

To sum up, Mr. President, I believe that a fee on imported oil would adversely and unfairly hurt Maine's economy, and would serve as an inefficient and regressive means of raising revenues.

Mr. President, in hockey, when a player scores three goals in one game, he is said to have scored a "hat trick." Already in this Congress, the Senate has approved, by votes of 82 to 15 and 78 to 18, motions to table oil import fee amendments. It is my hope that when the Senate votes on this amendment, it will score a "hat trick" by overwhelmingly rejecting for the third time the notion of oil import fees in the 99th Congress.

Mr. NICKLES. Mr. President, I withdraw my amendment.

The PRESIDING OFFICER. The amendment is withdrawn.

Mr. HART. Mr. President, will the Senator yield for a question?

The PRESIDING OFFICER. The 1 minute has expired. The Senator from Oklahoma has 1 minute remaining.

Mr. HART. Will the Senator yield?

Mr. NICKLES. I will be happy to yield 30 seconds.

Mr. HART. The Senator from Colorado offered a similar amendment several weeks ago. I cannot recollect whether the Senator from New Mexico supported that amendment or not.

Mr. DOMENICI. I did. It was not quite similar. The amendment of the Senator from Colorado was for $10 and this one is for $4. It phases out at $22.

Mr. HART. We are serious about energy independence, though.

Mr. NICKLES. Mr. President, I hope our colleagues did hear the Senator from New Mexico. This is not a $10 fee but a $4 fee. This is where the fee totally phases out when the price reaches $22. The price last year was $28. This is a reasonable approach.

We can count votes. We know we do not have the votes tonight. I hope Members will pay attention. I think the President's task force will study this. The National Security Adviser has good ideas. I hope this body will wake up.

I have followed the request of my cosponsor and withdrawn the amendment.

Mr. BENTSEN. Mr. President, I want to congratulate the Senator from New Mexico for offering this amendment. And I am delighted to be an original cosponsor. In this debate, he has spoken of the revenues which this amendment will raise. And that is a feature which will certainly attract some support as we continue working to close the deficit gap.

But my support for this amendment is not budgetary. My support is tied to our national security.

I have been active in public affairs for a good portion of the postwar period. And as I think back, the most traumatic and stressful period I believe we endured during peacetime over that 40-year span was the oil embargo during the late seventies. We are a proud and sturdy nation. But I remember all too well the appalling sight of Americans lined up for miles, waiting patiently—and some not so patiently—in their cars for hours to buy a precious tankful of gasoline.

Everyone in this Chamber I suspect sat in those lines. Indeed, I don't believe that this Nation in its entire history has been through another such dramatic episode—one where a foreign power successfully blockaded the supply of a critical resource like oil. Even during the darkest days of World War II, the Axis powers were unable to accomplish what OPEC pulled off. OPEC was successful because we allowed foreign oil imports to soar, reaching 47 percent of domestic demand in 1977.

By permitting our domestic energy industry to deteriorate, we opened the door to OPEC's embargo and the blackmail of our foreign policy.

A combination of higher prices, energy conservation and enhanced production helped us out of that hole. By last year we had reduced our dependence on foreign oil to 27 percent.

In fact, domestic oil production last year was 10 percent above the 1976 level and reserves were up.

That success reflected a national consensus that our foreign policy and economic well-being must not again fall hostage to OPEC. But I must say frankly that this progress was made with only lukewarm support from this administration. By its deeds, it has shown that it is not necessarily part of that consensus.

Indeed, it has more often than not pursued policies which have increased our dependence on foreign oil. It has continued to support the misnamed windfall profits tax, and the Fuel Use Act. And it has dragged its feet in complying with congressional mandates to fill the strategic petroleum reserve. Moreover, it has not supported tougher laws to improve auto fuel efficiency or to conserve heating and cooling energy use in Federal buildings.

But perhaps the most telling indication of administration indifference to the OPEC threat has been its response to the latest OPEC crisis. Since December, OPEC's leading producer, Saudi Arabia, has engineered a collapse of the American oil industry. OPEC oil has swamped world markets in an overt effort to drive American oilmen into bankruptcy in order for OPEC to regain control over supply and prices. And the administration has sat idly by while OPEC pursued its strategy, barely able to believe its good luck.

According to Salomon Brothers, oil exploration by the majors is down 50 percent this year. And independents—who drill 90 percent of our risky exploratory wells—have cut budgets by 48 percent.

With onshore wildcat wells costing a minimum of $230,000 and offshore wells at least $2.7 million, oil firms simply cannot afford to gamble with that kind of money when oil prices are soft, and may grow softer at the whim of OPEC.

According to the Hughes Tool Co., 4,530 drilling rigs were operating at our peak back in December of 1981.

In recent months, the rig count has plunged so far that it set a record low in mid-July of 663 rigs in operation—and it would be even lower except that many firms must continue drilling or lose valuable leases.

Nationally, industrial capacity utilization is running at 78 percent. In the oil industry today, it is barely 20 percent and falling. A staggering one job in four in the oil industry has been lost in the past year.

The oil patch is full of geologists and geophysicists looking for any job they can find. Enrollment in our geology departments at colleges across the country has plunged. Every oil firm in the Nation has laid off workers—pushing unemployment in Texas and elsewhere across the oil patch to 10 percent and higher.

Oil production this year is down 140,000 barrels a day so far. And widespread predictions of further declines from stripper wells and reservoirs being worked with enhanced oil recovery techniques run far higher—upward of 1 million barrels of lost production by year's end. Oil reserves fell slightly last year and will plunge dramatically this year. Indeed, we've lost over $6 billion in oil lease payments because firms have been too strapped to bid on Federal oil leases.

With each oil job supporting five other jobs, the depression in oil has sent ripples far and wide. Last year, oil and gas spending accounted for 24 percent of total U.S. capital spending. Its off more than 50 percent this year. No wonder total U.S. capital investment is expected to decline 2.5 percent in 1986. Moreover, lower oil prices have not spurred the economy.

Goldman Sachs has concluded that lower oil prices failed to move us onto a higher growth path. And the conference board found that the net economic impact of falling oil prices has been negative.

That's bad news for the national economy. But it's even worse news for our Nation's security. Falling oil prices in the past have not meant just falling production. It has also meant rising

demand. And the widening supply gap has been filled with foreign oil. Evidence since December shows overwhelmingly that the same thing is happening this time around, too. Domestic demand is up a sharp 565,000 barrels a day this year.

With production plunging and demand rising, foreign oil has made up that difference. And our dependence on foreign oil has leaped to 40 percent now—far above the 27 percent scored last year. In recent months, the decline in domestic production and rise in consumption has accelerated. And imports have skyrocketed.

Interior Secretary Hodel said recently that oil imports would rise 1 million barrels daily within a year. Well, the latest Department of Energy data shows that oil imports in August were already 2 million barrels a day higher than in 1985.

The sharp rise in oil imports may be catching the administration by suprise. But, its not a surprise to oil and national defense experts.

I recently asked the CBO, the Congressional Research Service at the Library of Congress, and DRI to project oil imports at $15 per barrel. Their conclusions were unequivocal: oil imports will exceed the danger level of 50 percent of U.S. consumption sometime during the next 3 to 5 years—sometime between 1988 and 1990.

As a result of the OPEC price strategy, we will shortly be relying on foreign oil for one-half of all domestic oil consumption.

That would only be an unpleasant fact if all that imported oil was from Canada or the North Sea. But it won't be. Most of the increase in imported oil will come from the Middle East because alternative non-OPEC resources are already producing flat out. North Sea and Alaskan North Slope production will peak next year, for example.

Canadian production and Latin American production in countries like Mexico and Venezuela has plateaued. Indeed, rising U.S. oil demand has already created rising dependence here on OPEC. Saudi Arabia, for example, was only the 15th largest source of oil imports last year. In June 1985, we imported a bare 26,000 barrels per day of Saudi oil. Yet, by last January, that had soared to 664,000. And in February, Saudi Arabia jumped to second place, joining Mexico, Canada, and Venezuela as major suppliers of United States oil imports.

OPEC now accounts for 43 percent of U.S. imports, compared to 36 percent in 1985. Last year, a bare 1 barrel in 9 of our oil as from OPEC.

At present trends, OPEC will be supplying over one-half of all U.S. oil imports by 1988. And by 1990, 1 of every 3 barrels of oil we consume will be OPEC oil.

There are signs that the administration has belatedly come alert to the national security dangers posed by falling production and soaring OPEC imports.

Last month, Admiral Poindexter, the President's National Security Adviser, urged the tax conferees to retain incentives for oil development and exploration. He warned that imports would double by the early nineties, and specifically cited the national security concern related to our looming dependence on OPEC. More recently Secretary Hodel said, and I quote, "We're in very grave danger as a nation of finding ourselves in a very short time back in the grasp of OPEC."

The administration's acknowledgment of the security dangers of rising oil imports is a good first step. But it needs to be followed by a second step—the establishment of policies to hold that dependence at manageable levels—to head off OPEC. Thus far, we've seen little progress toward establishment of a sound energy security policy.

Senator DOMENICI's amendment will help the administration take that second step.

The $4 per barrel import fee on oil in this amendment will move national security to the front burner in energy policy. By restoring some stability to the domestic industry, this provision will slow our headlong rush toward reliance on OPEC. And the $2 differential for product imports will ensure that the domestic refining industry is held harmless by this provision, as well.

The use of an oil import fee for national security reasons will be welcomed by defense experts. Former Defense Secretary Harold Brown, for example, endorsed such a fee in testimony before the Finance Committee on August 13.

Going further back, President Reagan used oil import restraints under section 232 of the Trade Expansion Act to stop Libyan oil sales to the United States. And even further back in the midfifties, President Eisenhower drew on his military experience, and acted to limit foreign oil imports in order to stabilize the domestic oil industry.

Foreign oil producers didn't like those actions, and among the criticisms sure to be raised by OPEC this time around is that this amendment will harm American competitiveness in world markets.

But a number of factors indicate that this fear is greatly exaggerated. First, the dollar has fallen over 30 percent on a trade-weighted basis in the last 18 months—an improvement in American competitiveness more than outweighing any duty.

Second, the sheer size and importance of the U.S. market means that foreign producers will be forced to absorb some of the import duty—prices here will not rise by the full amount of the duty in today's glutted world markets.

And third, energy costs to business in the United States are generally less than those in other Western industrial nations.

According to the International Energy Agency, in the last quarter of 1985, for example, the costs of light fuel oil, heavy fuel oil, and gasoline in Japan were 63 percent, 58 percent, and 125 percent, respectively, above the costs of those products in the United States. Light fuel oil in the United Kingdom was nearly 25-percent higher. And heavy fuel oil in both the United Kingdom and Germany was more than 25-percent higher.

Those differentials may narrow, but American firms will continue to enjoy a favorable cost advantage in energy over European and Japanese competitors.

Let me dicuss one further point. Some have suggested that this amendment may reduce economic growth, produce inflation, and lose rather than gain tax revenue as a result of that slower growth. Let's keep this issue in perspective.

The administration has proposed to tax Americans for some $850 billion in fiscal year 1987. This provision will increase those receipts by far less than 1 percent. If $850 billion in taxes won't cause growth to slow, $855 billion won't either.

Moreover, an economy running at 78-percent capacity with over 7 million men and women looking for work without success is hardly one on the verge of an inflationary binge. This provision is an economic asterisk.

To conclude, let me stress again that we must deal effectively with the OPEC threat now. We know the folly of delay. We've seen the consequences of permitting our domestic oil industry to fall into disrepair. The actions needed to restore its health and limit foreign oil dependence are not easy ones to take. But they are far more palatable than the alternative—which is spending hours waiting in gas lines in 1988 or 1989 with a foreign policy held hostage to OPEC whims.

Mr. DOMENICI. Mr. President, I have three or four cleanup matters.

Will Senator THURMOND make a motion with reference to a part of this bill?

Mr. THURMOND. After your amendment is adopted, I will do that.

Mr. DOMENICI. I understand Senator GORTON has an amendment.

Mr. MOYNIHAN. Senator GORTON will have an amendment.

Mr. DOMENICI. I will do the cleanup before that with the understanding that there are those amendments. The distinguished Presiding Officer has an REA amendment which is acceptable to the Senator from New Mexico. I un-

derstand it is being cleared on this side and it is being cleared on the Democratic side.

Mr. DOMENICI. I ask that a letter from Director Miller indicating how the appropriated account will be used so as to yield $2.4 billion through the Internal Revenue Service be made part of the RECORD. We understand that is a commitment on their part.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

OFFICE OF MANAGEMENT AND BUDGET,
Washington, DC, September 19, 1986.

Hon. PETE DOMENICI,
U.S. Senate,
Washington, DC.

DEAR PETE: As you know, the President's request of $4,097.8 million for IRS spending in 1987 includes a revenue initiative that would increase 1987 Federal tax revenue collections by an estimated $1.8 billion through improved examination and collection efforts. The House appropriation of $4,247.8 million for 1987 includes an additional $150 million to expand these 1987 revenue initiatives. The $4,247.8 million approved by the House would produce an additional $1 billion in 1987 tax collections. If the Congress appropriates funds for the IRS at the House-passed level, the Administration would use the additional funding for examination and collection, thereby increasing revenues for 1987 an additional $2.8 billion above the revenues OMB estimated in its August 20 Gramm-Rudman-Hollings report.

Sincerely yours,

JAMES C. MILLER III,
Director.

MEDICARE PROMPT PAYMENT OF CLAIMS

Mr. CHILES. Mr. President I would like to engage some of my colleagues in a discussion of one of the items in this bill—the prompt payment of Medicare claims.

We found just a few months ago that many Medicare benificiaries, physicians, home health agencies and other providers were having to wait for up to several months before receiving payment on their legitimate Medicare claims. The bill we now have before us would go a long way to correct this problem. It sets a prompt pay standard under which 95 percent of clean claims must be paid within 27 days next year. It would gradually get that down to 24 days. The bill would require that beneficiaries and many providers, including home health agencies, nursing homes and hospices, receive interest if claims are not paid within that time. For hospitals, interest would not be paid on late claims, but they could continue to receive advance, periodic interim payments in the event the prompt pay standard is violated.

But there is one area I still have some concern about. I would have liked to do more. Once these new standards are implemented, I am afraid we may have left a loophole in our distinction between "clean" and "dirty" claims.

The bill mandates a timely payment standard for "clean" claims. These are, in essence, those claims which meet all Medicare statutory and regulatory requirements for legitimate payment. It has to be on paper, it has to be signed, it has to provide required information on the type of medical service rendered. Some providers have to give detailed information on the services provided as well as backup documentation, for example, on patient history and the need for service.

This is not unusual in any insurance claim situation, and Medicare is a complicated program. There are screening and utilization safeguards built into its administration to ensure ligitimate decisions regarding eligibility and coverage, as well as prevent unnecessary utilization. For these reasons, I understand and support the need for allowing some flexibility on the payment standard for "dirty" claims—that is claims which are not complete and cannot be paid without going back to request additional information.

What concerns me, however, is that this administration—or any other administration under pressure to save money by holding back on Medicare payments—could see this as a loophole. They could arbitrarily classify thousands of claims as "dirty." They could then simply hold them for long periods of time before they were even processed. And these "dirty" claims would not come under the prompt pay standard.

The original bill Senator DURENBERGER introduced, and which I cosponsored, at least recognized this possibility by applying the timeliness standard to processing "dirty" claims. In the case of a clean claim, if it was not paid within a certain timeframe the interest penalty would kick in. In the case of a "dirty" claim, notice of the need for additional information had to be sent to the claimant within the same time period, or interest would be paid. In other words, there would also be a deadline for reviewing claims to ensure that they are error-free.

My understanding is that we have not been able to include this notice process in the bill because the administration opposes it. They say they fear the administrative costs. I am sorry this is the case. I still believe we need to have some safeguard to avoid confusion and charges of bad faith in the future—particularly on the part of unassigned part B claims submitted by Medicare beneficiaries. I fear that unless we have a way to monitor the classification and handling of so-called dirty claims it will come back to haunt us.

Mr. DURENBERGER. Mr. President, as the original sponsor of the prompt payment bill—which has been incorporated in large part in the Senate's reconciliation package—I, too, am concerned about the effect of the requirements in S. 2706 on Medicare beneficiaries.

By requiring timely payment of "clean" claims—that is, those which are fully completed and ready for processing—we will see to it that Medicare deals fairly and responsibly with the providers from whom it purchases services for Medicare beneficiaries. As chairman of the Finance Health Subcommittee with jurisdiction over the Medicare Program, this is something which I feel very strongly about, and I know that Dr. Roper, the Administrator of the Health Care Financing Administration shares this commitment with me.

My concern, however, is for Medicare beneficiaries whose claims are not taken on assignment. When providers do not accept assignment on Medicare claims—or do not accept Medicare's determination of a "reasonable charge" as payment in full—then the Medicare patient has to pay the bill, fill out a Medicare claim himself, and wait for Medicare to reimburse him for some portion of the amount he has already paid.

Doctors and hospitals have trained staff people to fill out these forms and deal with the Medicare payment network of carriers and fiscal intermediaries. But Medicare beneficiaries are on their own in dealing with this system. They do not have any training in how to fill out these forms, nor do they have access to Watts lines or electronic billing terminals with which to communicate with insurance carriers.

For these reasons, I am afraid that these unassigned claims from Medicare beneficiaries could come to make up an increasing part of the total of "unclean" claims—and those claims are not subjected to the prompt payment requirements.

In the bill I originally introduced—along with Senator CHILES and a number of other distinguished cosponsors—I required that Medicare's insurance carriers send a notice to Medicare beneficiaries within the prompt pay deadline if their claims were not "clean" and couldn't be processed within the required processing time for clean claims. I envisioned this working in such a way that the carrier could simple check off a box on a preprinted form and have that box explain to the beneficiary what item on the claim was incomplete or incorrectly completed—just as banks do if you submit an incomplete loan application.

I saw this provision as something that would not be unduly burdensome to the carriers, but would be a very important protection for the beneficiary. This timely notice to beneficiaries would enable them to correct or complete their claims and to keep the processing system on the track. It would give beneficiaries information

which would empower them to make the system work for them.

I believe that, with a little more time, we could convince the administration that this provision is very important to Medicare beneficiaries, and that it will not be too burdensome to set up. Therefore, I would like to ask Senator PACKWOOD, Finance Committee chairman, if he would agree to reconsider this provision when we go to conference with the House.

Mr. CHILES. I would like to ask Senator PACKWOOD, as Chairman of the Finance Committee, if he agrees with our concerns on this issue. I wonder if he agrees that we should take another look at this issue when this bill is in conference with the House. Shouldn't we at least require that some notice be given to beneficiaries on unassigned part B claims?

Would the Senator agree that we should ask the Secretary to develop and publish standards for payment of all "dirty" claims? And provide us with reports on the volume and types of claims which fall outside the prompt pay standard? My concern here is that we at least give beneficiaries and providers some idea of what to expect and that we have a way of watching what is happening as the new prompt pay standard is implemented.

Mr. PACKWOOD. Mr. President, I would like to assure my esteemed colleagues that I share your concerns that Medicare beneficiaries and providers be promptly paid for legitimate claims they incur for covered services. As we all know, the cost of health care has risen substantially over the last decade. Even one delayed payment may represent a substantial burden to an elderly person on a fixed income or to a small provider who already has a substantial amount of accounts receivable. These individuals and small providers cannot afford to underwrite the administrative costs of the Medicare Program. Thus, our reconciliation bill includes a requirement that 95 percent of clean claims (those that have complete information) be paid promptly. We define promptly as 27 days which we believe is a reasonable amount of time for the Medicare intermediaries and carriers to process the majority of claims. We do not require a full 100 percent as the standard, even though we expect that many contractors will, in fact, exceed the 95-percent standard. We know there are circumstances that may occur from time to time to delay some claims and we felt that our minimum standard should have some flexibility.

Our concern today is what happens with the other claims, the so-called dirty claims that are missing information essential for payment. Senators CHILES and DURENBERGER feel that we need a system to monitor the classification and handling of these dirty claims and I agree. Their concern is that there be a method to assure that the exclusion of dirty claims from the timeliness and penalty requirements does not create a situation where an increasing number of claims are classified inappropriately as incomplete, in particular, claims where the physician does not accept assignment. They also suggest that we may wish to require that the Secretary establish minimum standards, for example, minimum standards for notifying beneficiaries or providers that their claims have been received and that additional information is required. I think that this is a valid approach and hope that the specific details can be worked out in the conference. I also intend to ask the conferees to consider an approach to monitor the clean claims that do not meet the 95-percent standard to assure that there is no undue burden on certain types of facilities or beneficiaries in certain areas.

Mr. MITCHELL. Mr. President, I have been concerned about the issue of Medicare prompt payments for some time. In my home State of Maine, providers report delays of up to 8 months for payment for Medicare claims.

Clearly this situation cannot be allowed to continue. During the past year, HCFA began a deliberate policy of slowing down Medicare payments to providers through its fiscal intermediaries and carriers in the States.

Several months ago I joined with a number of my colleagues on the Finance Committee in cosponsoring legislation which would require prompt payment of Medicare claims. During deliberation on the fiscal year 1987 budget reconciliation bill, the committee agreed to include a provision which mandates prompt payment of "clean claims" within 24 days. Failure to comply with this mandate would result in fiscal penalties.

It is my understanding that the new package being submitted by the chairman will eliminate important provisions in the prompt-payment section of the bill, and will lengthen the payment schedule to 27 days.

Mr. President, I am particularly concerned about the definition of "clean claim" in the prompt payment provision. Many Maine providers have expressed their deep concern about the definition of "clean claim." Since fiscal intermediaries and carriers only have to comply with the prompt-payment time deadline for "clean claim," some have made arbitrary decisions about which claims are clean and which are not.

The definition of a "clean claim" must be tightened up so that carriers from one State to another have uniform criteria to follow to determine which claims can be returned to the providers for additional information and which must be reimbursed within the 27-day time period. We cannot allow this exception for "clean claims" to result in noncompliance with the prompt-payment provision.

Mr. HUMPHREY. Mr. President, I would like to engage my colleague, the distinguished chairman of the Finance Committee, in a brief discussion about a provision in the House reconciliation bill which authorizes a national adoption information clearinghouse. The Senate reconciliation bill does not address this issue.

Mr. Chairman, many Americans are seeking information about adoption. Infertility affects between 15 to 20 percent of the population, and there is some evidence that the incidence of infertility is rising. At the same time, the Department of Health and Human Services estimates that approximately 36,000 children remain in foster care and institutions, even though they are free for adoption.

I serve as a cochairman of the Congressional Coalition on Adoption, a nonpartisan, bicameral alliance of over 60 Members of Congress who are dedicated to the promotion of infant, special needs, and intercountry adoption. I know there is a need for an adoption clearinghouse because since the Congressional Coalition on Adoption was formed, my office has received telephone calls and letters from people all over the country seeking information on adoption.

Adoptive parents' groups, adoption specialists, public interest groups, and agencies are doing their best to provide adoption information in their local communities. But as the telephone calls to my office attest, many of those interested in adoption do not know where to turn for some of the most basic information, and are discouraged by the formidable barriers to adoption. A national adoption information clearinghouse would collect and disseminate to the American public current and complete information relating to all aspects of adoption.

Mr. Chairman, I know that you are well aware of the importance of adoption since the Federal Adoption Assistance and Foster Care Programs fall within the jurisdiction of the Finance Committee. I would simply ask that you give serious consideration to the House adoption clearinghouse provision when you go to conference on the reconciliation bill. I appreciate your willingness to do so and hope that you and your fellow conferees will look favorably on this provision.

Mr. PACKWOOD. I thank my colleague from New Hampshire for sharing his views on the adoption clearinghouse provision approved by the House of Representatives. I am indeed aware of the need for more information about adoption and foster care in this country.

Just last week, when the Finance Committee marked up H.R. 1868 relat-

ing to Medicare and Medicaid fraud, we included an amendment to provide for the collection of adoption and foster care data from the States. I supported that amendment and I can understand your desire to ensure that the American people are provided the information they need as soon as possible. I would like to assure my colleague that when we go to conference on this bill we will closely examine the provision establishing a national adoption information clearinghouse, and will give every consideration to including it in the final conference agreement.

□ 2250

Mr. HOLLINGS. Will the Senator from New Mexico yield?

Mr. DOMENICI. Yes, Mr. President.

Mr. HOLLINGS. Mr. President, the good news today is that, lo and behold, Gramm-Rudman-Hollings is working. At the 11th hour, we are poised to pass another $14 billion in cuts and bring the 1987 budget under $154 billion. And there is not a man or woman in this Chamber who believes that would have happened without the discipline imposed by Gramm-Rudman-Hollings.

To the American people and to the Nation's financial markets, Gramm-Rudman-Hollings is communicating a powerful message: That the Federal Government, at long last, is committed to a strict, long-term regimen of budget discipline. We are meeting the test for fiscal year 1987, and we will stick to our guns in the years that follow.

Consider, Mr. President, what Gramm-Rudman-Hollings has accomplished in its first year. Without G-R-H, the 1986 deficit would have been $242 billion. With G-R-H, we are now looking at a 1987 budget of $150 billion or less. That is a 1-year reduction of more than $92 billion.

It is a fact of life here in Washington that politicians don't see the light until they feel the heat. Well, Gramm-Rudman-Hollings is the heat, and things stand to get a lot warmer each year until 1991 when G-R-H will bring us a balanced budget. The specter of automatic, across-the-board cuts and sequestration acts like a Sword of Damocles over the politicians' heads. Congress and the President have each been forced to accept sacrifices in their pet programs. The Senate has economized on defense, the House on domestic programs, and the White House in both areas. The result is a 1987 budget that confounds the naysayers and offers genuine hope to ordinary Americans.

Concerning this reconciliation package, however, I must express several reservations. The doctor ordered a root canal, and what we have here is a lot of drilling and filling. The reconciliation package calls for several billion in loan asset sales, and that is just plain bad public policy. It is a sign of desperation that we are resorting to this kind of pseudo-budget-cutting. Moreover, loan asset sales offer 1-year benefits only, and they make next year's budget goals all the harder to reach.

Mr. President, I would commend the original effort of the distinguished Senators from New Mexico and Florida—the chairman and ranking minority member of the Budget Committee, respectively—who put together a reconciliation package that was all bread and no air. It called for $14 billion in real cuts, but regrettably was watered down by the House and the administration.

Nonetheless, I intend to vote for this second-best reconciliation package as a package. It gets the job done. It begins to pay the bills.

Mr. President, despite our success with instilling discipline in the 1987 budget, let me emphasize that the battle of the budget is far from won. The hardest choices still lie ahead of us.

In recent days, we have witnessed a teapot tempest on the subject of drug abuse. Fighting drugs is the perfect, no-lose, mom-and-apple pie issue for an election year. And it beats talking about buget cuts, deficits, and taxes. But let us not forget the real issue facing this Nation and the next Congress. The American people may have a $110 billion a year illegal drug habit. But the Federal Government this year has a $224 billion addiction to deficit spending that is every bit as dangerous to our Nation's future.

Last December, Senators GRAMM and RUDMAN and myself sponsored our version of the "Just Say No!" campaign. And, so far, it is working. But it verges on the hypocritical for Congress to preach and moralize about drug abuse until we have ended our own peculiar addiction. We cannot presume to talk to American youth about self-discipline until we have truly demonstrated that we, too, are capable of discipline.

To that end, this fiscal year 1987 budget is an important milestone. But this is just an initial skirmish. The truly bloody battles of the budget still lie ahead of us.

In fiscal year 1988, we must bring the budget down to $108 billion—at least another $42 billion in cuts beyond what we have achieved for fiscal year 1987. And it is sheer silliness to think budget cuts alone will do it. Another $42 billion in budget cuts will either hurt the national defense or hurt people, and neither option is acceptable.

Consider today's Federal budget. In round numbers, it totals just over $1 trillion: $300 billion for defense, $300 billion for entitlements and $200 billion for interest costs, leaving $200 billion for all the rest of Government, including NASA, highways, law enforcement, and so on. Even if you abolished that last $200 billion for all the rest of Government, you'd still be left with a deficit of nearly $30 billion. Clearly, spending and revenues are grossly out of balance, and Federal spending is out of control.

The point, Mr. President, is this: If Congress and the President—Democrats and Republicians alike—agree that we need a trillion-dollar Government, then we are going to have to pony up the trillion dollars to pay for it. Ordinary citizens have to pay their bills each month, and so should we. Inevitably, that is going to entail adjustments on the revenue side.

That said, we should be allowed to savor this limited victory on the 1987 budget. It is a major step in the right direction.

AMENDMENT NO. 2859

Mr. DOMENICI. Mr. President, I send an amendment to the desk for myself and Mr. CHILES. This is a technical amendment to the small business section of this bill. It has been cleared with the staff of the Small Business Committee in the Senate. As a matter of fact, they asked us to do this. It does not in any way affect the bill in terms of its effectiveness. I ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from New Mexico [Mr. DOMENICI] for himself and Mr. CHILES, proposes an amendment numbered 2859.

Mr. DOMENICI. I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Beginning on page 19, line 23 of the pending amendment, strike all through page 20, line 3, and insert in lieu thereof the following: "Beginning on page 191, line 1, strike all through page 192, line 12, and insert in lieu thereof the following:

TITLE IX—COMMITTEE ON SMALL BUSINESS

PILOT LOAN ASSET SALE

SEC. 901. Title V of the Small Business Investment Act of 1958 is amended by adding at the end thereof the following new section:

"SEC. 506. (a) Except as provided in subsection (c), notwithstanding any law, rule, or regulation, the Secretary of the Treasury shall sell to the public, by private placement or otherwise as the Secretary determines to be appropriate, all of the right, title, and interest in debentures issued pursuant to section 503 of this title and held by the Federal Financing Bank in such amounts as to realize net proceeds of—

"(1) $343,000,000 from such sales during fiscal year 1987;

"(2) $55,000,000 from such sales during fiscal year 1988; and

"(3) $14,000,000 from such sales during fiscal year 1989.

"(b) Simultaneously with the sale referred to in subsection (a), the Administration shall assign all of its interest in notes, mortgages, guarantees, security interest, or other interest in underlying collateral supporting any debenture sold pursuant to this section to the purchaser of such interest.

"(c) Any sales by the Secretary under this section shall be on a nonrecourse basis to the Federal Government and shall provide that for purposes of disbursements, collections, and payments of receipts to purchasers the companies certified under section 503 of this title shall continue to have the right to service the loans underlying such debentures.

"(d) In the event of default on a debenture, the liability of the relevant certified development company shall be limited to all payments made by the small business concern to the certified development company and the collateral securing the defaulted loan.

"(e) With the sale of each debenture as specified in subsection (a), the Administration's guarantee of timely payment of principal and interest on the debenture will be deemed discharged. The Administration shall incur no liability or obligation to the Secretary or the Federal Financing Bank in connection with any sale of a debenture under this section.".

SEC. 902. In order to achieve the budget savings specified in the amendment made by section 901 of this Act, neither the Secretary of the Treasury nor the Administration shall sell any loans, portions of loans, or notes or debentures guaranteed by the Administration pursuant either to the Small Business Act or the Small Business Investment Act of 1958 except those specified in the amendment made by section 901, except that this section shall not apply to the sale of debentures or other securities provided for in sections 321 and 504 of the Small Business Investment Act of 1958.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2859) was agreed to.

AMENDMENT NO. 2860

(Purpose: To deny foreign tax credits, and income tax deferral on income, attributable to activities conducted in foreign countries with which the United States does not conduct diplomatic relations or which repeatedly provide support for acts of international terrorism)

AMENDMENT NO. 2861

(Purpose: To ensure that Food for Peace funds not yet obligated shall be expended for the intended purposes)

AMENDMENT NO. 2862

(Purpose: To provide for appropriate reimbursement to large rural hospitals that serve a significantly disproportionate number of low-income patients)

Mr. DOMENICI. Mr. President, I have been asked by Senators LEAHY, GRASSLEY, and STENNIS to submit amendments in their behalf. I submit them en bloc. Each is accompanied by their statement. These amendments have been approved on both sides by both managers, the chairman and ranking member of each authorizing committee that has jurisdiction over them. They do not contain extraneous matter to the pending amendment and will have no adverse effect and are acceptable.

I send them to the desk and ask that they be considered en bloc.

The PRESIDING OFFICER. Is there objection to the request? Without objection, it is so ordered.

The amendments will be stated en bloc.

The assistant legislative clerk read as follows:

The Senator from New Mexico [Mr. DOMENICI], for Mr. LEAHY, Mr. GRASSLEY, Mr. STENNIS, and others purposes amendments numbered 2860, 2861, and 2862.

The amendments are as follows:

At the appropriate place in the Committee amendment, insert the following:

SEC. . DENIAL OF CERTAIN TAX BENEFITS WITH RESPECT TO ACTIVITIES IN CERTAIN FOREIGN COUNTRIES.

(a) DENIAL OF FOREIGN TAX CREDIT.—Section 901 (relating to taxes of foreign countries and of possessions of the United States) is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

"(i) DENIAL OF FOREIGN TAX CREDIT, ETC. WITH RESPECT TO CERTAIN FOREIGN COUNTRIES.—

"(1) IN GENERAL.—Notwithstanding any other provision of this part—

"(A) no credit shall be allowed under subsection (a) for any income, war profits, or excess profits taxes paid or accrued (or deemed paid under section 902 or 960) during the taxable year to any country to which this subsection applies, and

"(B) subsections (a), (b), and (c) of section 904 and sections 902 and 960 shall be applied separately with respect to income for such taxable year from sources within any country so identified.

"(2) COUNTRIES TO WHICH SUBSECTION APPLIES.—

"(A) IN GENERAL.—This subsection shall apply to any foreign country—

"(i) the government of which the United States does not recognize, unless such government is otherwise eligible to purchase defense articles or services under the Arms Export Control Act,

"(ii) with respect to which the United States has severed diplomatic relations,

"(iii) with respect to which the United States has not severed diplomatic relations but does not conduct such relations, or

"(iv) which the Secretary of State has, pursuant to section 6(j) of the Export Administration Act of 1979, as amended, designated as a foreign country which repeatedly provides support for acts of international terrorisms.

"(B) PERIOD FOR WHICH SUBSECTION APPLIES.—This subsection shall apply to any foreign country described in subparagraph (A) during the period—

"(i) beginning on the later of—

"(I) January 1, 1987, or

"(II) 6 months after such country becomes a country described in subparagraph (A), and

"(ii) ending on the date the Secretary of State certifies to the Secretary of the Treasury that such country is no longer described in subparagraph (A).

"(3) PART-YEAR RULE.—If this subsection applies to any foreign country for any period less than an entire taxable year, paragraph (1) shall be applied by taking into account only that proportion of the taxes and income described in paragraph (1) for the taxable year as the portion of the taxable year which includes such period bears to the entire taxable year."

(b) Denial of Deferral of Income.—

(1) GENERAL RULE.—Section 952(a) (defining subpart F income) is amended by striking out "and" at the end of paragraph (3), by striking out the period at the end of paragraph (4) and inserting in lieu thereof ", and", and by inserting immediately after paragraph (4) the following new paragraph:

"(5) the income of such corporation derived from any foreign country during any period during which section 904(i) applies to such foreign country."

(2) INCOME DERIVED FROM FOREIGN COUNTRY.—Section 952 (defining subpart F income) is amended by adding at the end thereof the following new subsection:

"(e) INCOME DERIVED FROM FOREIGN COUNTRY.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of subsection (a)(5), including regulations which treat income paid through 1 or more entities as derived from a foreign country to which section 904(i) applies if such income was, without regard to such entities, derived from such country."

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 1987.

ANTITERRORISM

Mr. GRASSLEY. Mr. President, I am offering this amendment to deny foreign tax credits to companies operating in terrorist countries, or countries that the United States does not recognize or has severed diplomatic relations, or countries with which the United States does not conduct relations.

Mr. President, this measure has already passed the Senate by unanimous consent as an amendment to the debt ceiling. Therefore, the Senate has determined that our tax policy should conform with our foreign policy, and that American taxpayers should not be indirectly subsidizing terrorist countries or nations whose conduct is contrary to the interests of the United States.

In addition, this amendment is expected to raise over $100 million over a 5-year period for the Federal Government. In this age of annual budget deficits, every dollar counts, and it is this Senator's opinion that the American people should be given $100 million rather than those that directly subsidize terrorism, or those nations that directly support terrorism.

Therefore, I urge my colleagues to join me and my fellow cosponsors, Senators LAUTENBERG, D'AMATO, PROXMIRE, DENTON, DOLE, MATTINGLY, HARKIN, CHILES, DECONCINI, HOLLINGS, and HAWKINS in this vote against terrorism.

I ask unanimous consent that the amendment be adopted.

Mr. CHILES. Mr. President, I rise in support of this amendment. It would

eliminate an inconsistency which currently exists between our foreign policy and our tax policy.

This amendment would eliminate tax breaks which are currently available to U.S. companies doing business with illegitimate governments. It terminates a situation where our Government's foreign policy is undermined by a business as usual attitude from our corporations.

To show displeasure with foreign governments, the State Department divides countries into several groups. They refuse to recognize Albania, Angola, Mongolia, and North Korea. We have severed relations with Cuba, Iran, South Yemen, Vietnam, and Iran. And we recognize as sponsors of terrorism, Libya, Syria, and Nicaragua.

To allow tax credits to companies that do business in these countries does not make sense. We cannot convey one message with our tax policy and another from the State Department.

By repealing the foreign tax credit, U.S. companies would no longer be able to credit, dollar for dollar, all income taxes paid to any of these governments. The tax revenues help support the Governments of Syria and Angola, and this is clearly not a policy we should approve. Denying these tax credits also raises further revenue for the Government.

Mr. President, this amendment rights a previous wrong. We cannot support a policy which takes with the one hand only to give with the other.

AMENDMENT NO. 2861

At the appropriate place, add a new section as follows:

SEC. . Funds made available by title IV of the Agriculture, Rural Development, and Related Agencies Appropriations Act of 1986 for Public Law 480, title II programs, and not otherwise obligated on the date of enactment of this section, shall be obligated during fiscal year 1986 for the purposes for which they were made available only.

Mr. LEAHY. Mr. President, we have received disburbing reports that the administration has again locked up the funding for Food for Peace Program shipments for the remainder of this fiscal year; $50 million remains in the title II, food donation account which Congress appropriated for overseas humanitarian use. The funds were previously budgeted and appropriated—for fiscal year 1986. The amendment requires that the administration use the funds as intended.

This is the second time this summer the administration, without public announcement, halted new obligations of food aid. The last time, following protests by Congress, the hold was temporarily lifted.

This time, we are dangerously close to the end of the fiscal year. If the Senate does not take immediate action to mandate the use of the remaining funds, we will be cutting our commodity exports by $50 million.

At a time of crisis for many American farmers, our surplus commodity levels have reached record proportions. While substantial hunger and need exists overseas, we are spending close to $2 billion to store surplus stocks in the United States.

Common sense says that this is not the time to let our Food for Peace Program lapse. Farmers, commodity groups, and shipppers say, we have the food, we can't even find a place to store it—this is not the time to let our Food for Peace Program lapse. We will continue to see hunger and need in developing countries—for the sake of humanity, this is not the time to let our Food for Peace Program lapse.

Supporting this amendment protects program funding vital to ongoing overseas food assistance. This amendment effectively uses U.S. agriculture products that are currently in surplus.

I urge my colleagues to support this effort to ensure that funds appropriated for food aid are used for that purpose.

AMENDMENT NO. 2862

At the appropriate place in the bill, add the following new section:

SEC. . MEDICARE PAYMENTS TO LARGE RURAL HOSPITALS SERVING A DISPROPORTIONATE SHARE OF LOW-INCOME PATIENTS.

(a) IN GENERAL.—Section 1886(d)(5)(F)(v) of the Social Security Act (42 U.S.C. 1395ww(d)(5)(F)(v)) is amended—

(1) by striking "or" at the end of subclause (II), and

(2) by striking subclause (III) and inserting in lieu thereof the following new subclauses:

"(III) such percentages as are determined by the Secretary to be appropriate for hospitals located in a rural area which have 300 or more beds, or

"(iv) 45 percent if the hospital is located in a rural area and has less than 300 beds."

(b) CONFORMING CHANGE.—Section 1886(d)(5)(F)(iv) of such Act is amended—

(1) in subclause (I) by inserting ", or is located in a rural area and has 300 or more beds," after "beds,", and

(2) in subclause (III) by inserting "and has less than 300 beds" after "area".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to discharges occurring on or after October 1, 1986.

Mr. DOMENICI. Mr. President, I am offering this amendment on behalf of Senator STENNIS and Senator COCHRAN which has been cleared on both sides of the aisle. The amendment would give the Secretary of Health and Human Services discretion in determining appropriate Medicare reimbursement for certain large hospitals in rural areas.

The PRESIDING OFFICER. The question is on agreeing to the amendments en bloc.

The amendments (Nos. 2860, 2861, and 2862) were agreed to en bloc.

Mr. DOMENICI. I move to reconsider the vote by which the amendments were agreed to en bloc.

Mr. CHILES. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOMENICI. Mr. President, I yield the floor.

Mr. CHILES. Mr. President, I yield 1 minute to the Senator from Washington.

AMENDMENT NO. 2863

(Purpose: To provide protections for certain retirement benefits)

Mr. GORTON. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated. The assistant legislative clerk read as follows:

The Senator from Washington [Mr. GORTON] for himself and Mr. HOLLINGS, Mr. GRASSLEY, Mr. MOYNIHAN, Mr. DOMENICI, Mr. MATTINGLY, and others proposes an amendment numbered 2863.

Mr. GORTON. I ask unanimous consent that further reading be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, add the following new title:

TITLE —MISCELLANEOUS RETIREMENT BENEFITS PROTECTIONS

Subtitle A—Protections From Extraordinary Public Debt Management

SEC. 01. INVESTMENT AND RESTORATION OF TRUST FUNDS.

(a) IN GENERAL.—Subsection (d) of section 201 of the Social Security Act (42 U.S.C. 401(d)) is amended—

(1) by striking out "(1) on original issue" and inserting in lieu thereof "(A) on original issue",

(2) by striking out "(2) by purchase" and inserting in lieu thereof "(B) by purchase";

(3) by striking out "It shall be" and inserting in lieu thereof "(1) It shall be", and

(4) by adding at the end thereof the following new paragraphs:

"(2) If—

"(A) any amounts in the Trust Funds have not been invested solely by reason of the public debt limit, and

"(B) the taxes described in clause (3) or (4) of subsection (a) with respect to which such amounts were appropriated to the Trust Funds have actually been received into the general fund of the Treasury of the United States,

such amounts shall be invested by the Managing Trustee as soon as such investments can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title.

"(3)(A) Upon expiration of any debt limit impact period, the Managing Trustee shall immediately—

"(i) reissue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations held by such Trust Fund that—

"(I) were redeemed during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of standard investment

procedures for such Trust Fund in effect on the day before the date on which the debt limit impact period began, would not have been redeemed if the debt limit impact period had not occurred, and

"(ii) issue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations which—

"(I) were not issued during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of such standard investment procedures, would have been issued if the debt limit impact period had not occurred.

"(B) Obligations issued or reissued under subparagraph (A) shall be substituted for obligations that are held by the Trust Fund, and for amounts in the Trust Fund that have not been invested, on the date on which the debt limit impact period ends in a manner that will ensure that, after such substitution, the holdings of the Trust Fund will replicate to the maximum extent practicable the obligations that would be held by such Trust Fund if the debt limit impact period had not occurred.

"(C) In determining, for purposes of this paragraph, the obligations that would be held by a Trust Fund if the debt limit impact period had not occurred, any amounts in the Trust Fund which have not been invested, and any amounts required to be invested under paragraph (2), shall be treated as amounts which were required to be invested upon transfer to the Trust Fund.

"(4) The Managing Trustee shall pay, on the first normal interest payment date that occurs on or after the date on which any debt limit impact period ends, to each of the Trust Funds, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Managing Trustee to be equal to the excess of—

"(A) the net amount of interest that would have been earned by such Trust Fund during such debt limit impact period if—

"(i) amounts in such Trust Fund that were not invested during such debt limit impact period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to such Trust Fund which occurred during such debt limit impact period solely by reason of the public debt limit had not occurred, over

"(B) the sum of—

"(i) the net amount of interest actually earned by such Trust Fund during such debt limit impact period, plus

"(ii) the total amount of the principal of all obligations issued or reissued under paragraph (3)(A) at the end of such debt limit impact period that is attributable to interest that would have been earned by such Trust Fund during such debt limit impact period but for the public debt limit.

"(5) For purposes of this section—

"(A) The term 'public debt limit' means the limitation imposed by subsection (b) of section 3101 of title 31, United States Code.

"(B) The term 'debt limit impact period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) AVAILABILITY OF FUNDS.—Subsection (a) of section 201 of the Social Security Act is amended by adding at the end thereof the following new sentence: "All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under any other provisions of law directly related to the programs established by this title.".

SEC. 02. CIVIL SERVICE RETIREMENT AND DISABILITY FUND.

(a) INVESTMENT AND RESTORATION OF THE FUND.—Section 8348 of title 5, United States Code, is amended by adding at the end the following new subsection:

"(j)(1) Notwithstanding subsection (c) of this section, the Secretary of the Treasury may suspend additional investment of amounts in the Fund if necessary to ensure that the public debt of the United States does not exceed the public debt limit.

"(2) Any amounts in the Fund which, solely by reason of the public debt limit, are not invested shall be invested by the Secretary of the Treasury as soon as such investments can be made without exceeding the public debt limit.

"(3) Upon expiration of the debt issuance suspension period, the Secretary of the Treasury shall immediately issue to the Fund obligations under chapter 31 of title 31 that (notwithstanding subsection (d) of this section) bear such interest rates and maturity dates as are necessary to ensure that, after such obligations are issued, the holdings of the Fund will replicate to the maximum extent practicable the obligations that would be held by the Fund if the debt issuance suspension period had not occurred.

"(4) On the first normal interest payment date after the expiration of any debt issuance suspension period, the Secretary of the Treasury shall pay to the Fund, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Secretary to be equal to the excess of—

"(A) the net amount of interest that would have been earned by the Fund during such debt issuance suspension period if—

"(i) amounts in the Fund that were not invested during such debt issuance suspension period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to the Fund which occurred during such debt issuance suspension period solely by reason of the public debt limit had not occurred, over

"(B) the net amount of interest actually earned by the Fund during such debt issuance suspension period.

"(5) For purposes of this subsection and subsections (k) and (l) of this section—

"(A) the term 'public debt limit' means the limitation imposed by section 3101(b) of title 31; and

"(B) the term 'debt issuance suspension period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) SALES AND REDEMPTIONS BY THE FUND.—Section 8348 of title 5, United States Code, as amended by subsection (a), is further amended by adding at the end the following new subsection:

"(k) The Secretary of the Treasury may sell or redeem securities, obligations, or other invested assets of the Fund only for the purpose of enabling the Fund to make payments authorized by the provisions of this subchapter or chapter 84 of this title or related provisions of law. If the Fund holds any amounts which, by reason of the public debt limit, are not invested, the Secretary may nevertheless make such sales and redemptions if, and only to the extent, necessary to ensure that such payments are made in a timely manner.".

(c) REPORTS REGARDING THE OPERATION AND STATUS OF THE FUND.—Section 8348 of title 5, United States Code, as amended by subsections (a) and (b), is further amended by adding at the end the following new subsection:

"(l)(1) The Secretary of the Treasury shall report to Congress on the operation and status of the Fund during each debt issuance suspension period for which the Secretary is required to take action under paragraph (3) or (4) of subsection (j) of this section. The report shall be submitted as soon as possible after the expiration of such period, but not later than the date that is 30 days after the first normal interest payment date occurring after the expiration of such period. The Secretary shall concurrently transmit a copy of such report to the Comptroller General of the United States.

"(2) Whenever the Secretary of the Treasury determines that, by reason of the public debt limit, the Secretary will be unable to fully comply with the requirements of subsection (c) of this section, the Secretary shall immediately notify Congress of the determination. The notification shall be made in writing.".

SEC. 03. COST-OF-LIVING ADJUSTMENTS IN CERTAIN FEDERAL BENEFITS.

(a) IN GENERAL.—Benefits which are payable in calendar year 1987, 1988, 1989, 1990, or 1991, under programs listed in section 257(1)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), including any cost-of-living adjustment in such benefits, shall not be subject to modification, suspension, or reduction in such calendar year pursuant to a Presidential order issued under such Act.

(b) DEFINITION.—For purposes of this section, the term "cost-of-living adjustment" means any increase or change in the amount of a benefit or in standards relating to such benefit under any provision of Federal law which requires such increase or change as a result of any change in the Consumer Price Index (or any component thereof) or any other index which measures costs, prices, or wages.

SEC. 04. EXEMPT PROGRAMS AND ACTIVITIES.

(a) IN GENERAL.—Section 255(g)(1) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 905(g)(1)) is amended by inserting after the item relating to Compensation of the President the following new item:

"Dual benefits payments account (60-0111-0-1-601);".

(b) APPLICATION.—The amendment made by subsection (a) shall apply to fiscal years beginning after September 30, 1986.

Subtitle B—Older Americans Pension Benefits

SEC. 10. BENEFIT ACCRUAL BEFORE MAXIMUM NORMAL RETIREMENT BENEFIT.

Section 4(f) of the Age Discrimination in Employment Act of 1967 (29 U.S.C. 623(f)) is amended—

(1) by inserting "(1)" after the subsection designation;

(2) by redesignating paragraphs (1) through (3) as subparagraphs (A) through (C), respectively;

(3) in subparagraph (B) (as so redesignated)—

(A) by striking out "and" after "hire any individual,"; and

(B) by inserting before the semicolon at the end thereof a comma and "and no employee benefit plan shall require or permit the suspension of an employee's benefit accrual, or the reduction of the rate of an employee's benefit accrual, because of age before accruing the maximum normal retirement benefit under the plan unless the plan is a defined benefit pension plan that provides that the employee's retirement benefit is actuarially increased to reflect a retirement date that occurs after the month in which the employee attains the normal retirement age under the plan"; and

(4) by adding at the end thereof the following new paragraph:

"(2) Nothing in this section shall be construed to prohibit an employer, employment agency, or labor organization from observing the terms of an employee benefit plan that—

"(A) excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 202(a)(2) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1052(a)(2)); or

"(B) imposes a limitation on the benefits that the plan provides or on the number of years of service or years of participation that the plan recognizes with respect to an employee.".

SEC. 11. BENEFIT ACCRUAL BEYOND NORMAL RETIREMENT AGE.

(a) ERISA AMENDMENTS.—

(1) IN GENERAL.—Subsection (a) of section 204 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1054(a)) is amended to read as follows:

"(a) Each pension plan shall satisfy the requirements of subsection (b)(3), and—

"(1) in the case of a defined benefit plan, shall satisfy the requirements of subsection (b)(1); and

"(2) in the case of a defined contribution plan, shall satisfy the requirements of subsection (b)(2).".

(2) DEFINED BENEFIT PLANS.—Section 204(b)(1) of such Act is amended by adding at the end thereof the following new subparagraph:

"(H)(i) Notwithstanding the preceding subparagraphs, a defined benefit plan shall be treated as not satisfying the requirements of this paragraph if, under the terms of the plan, an employee's benefit accrual is suspended or the rate of an employee's benefit accrual is reduced solely because of age before accruing the maximum normal retirement benefit under the plan unless the plan provides that the employee's retirement benefit is actuarially increased to reflect a retirement date that occurs after the month in which the employee attains the normal retirement age under the plan.

"(ii) A defined benefit plan shall not be treated as not satisfying the requirements of this subparagraph solely because the plan—

"(I) excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 202(a)(2); or

"(II) imposes a limitation on the benefits that the plan provides or on the number of years of service or years of participation that the plan recognizes with respect to an employee.".

(3) DEFINED CONTRIBUTION PLANS.—Section 204(b) of such Act is further amended—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following new paragraph:

"(2)(A) An individual account plan satisfies the requirements of this paragraph if, under the plan, employer contributions to the employee's account are not suspended or reduced solely because of age.

"(B) A target benefit plan (as defined under regulations prescribed by the Secretary of the Treasury) shall not be treated as not satisfying the requirements of this paragraph solely because the plan excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 202(a)(2).

"(C) An individual account plan (including such a target benefit plan) shall not be treated as not satisfying the requirements of this paragraph solely because the plan imposes a limitation on the contributions that may be made or on the number of years for which contributions will be made under the plan with respect to an employee.".

(4) CERTAIN PLAN AMENDMENTS.—Section 204(g)(2) of such Act is amended by adding at the end thereof the following new sentence: "For purposes of paragraph (1), in the case of a plan that on the date of enactment of the Sixth Omnibus Budget Reconciliation Act, 1986, provided for the distribution or the commencement of distribution of the entire interest of an employee under the plan on or after attaining the normal retirement age under the plan regardless of whether the employee has separated from service, an amendment that postpones the date as of which such distribution will be made or commence, and which is adopted within the 12-month period following the date on which section 204(b)(1)(H) or section 204(b)(2) (as amended by such Act) becomes applicable to the plan, shall not be treated as reducing accrued benefits.".

(b) CODE AMENDMENTS.—

(1) DEFINED BENEFITS PLANS.—Section 411(b)(1) of the Internal Revenue Code of 1954 (relating to accrued benefit requirements) is amended—

(A) by striking out "GENERAL RULES.—" and inserting in lieu thereof "DEFINED BENEFIT PLANS.—"; and

(B) by adding at the end thereof the following new subparagraph:

"(H) CONTINUED ACCRUAL BEYOND NORMAL RETIREMENT AGE.—

"(i) IN GENERAL.—Notwithstanding the preceding subparagraphs, a defined benefit plan shall be treated as not satisfying the requirements of this paragraph if, under the terms of the plan, an employee's benefit accrual is suspended or the rate of an employee's benefit accrual is reduced solely because of age before accruing the maximum normal retirement benefit under the plan unless the plan provides that the employee's retirement benefit is actuarially increased to reflect a retirement date that occurs after the month in which the employee attains the normal retirement age under the plan.

"(ii) EXCEPTION.—A defined benefit shall not be treated as not satisfying the requirements of this subparagraph solely because the plan—

"(I) excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 410(a)(2); or

"(II) imposes a limitation on the benefits that the plan provides or on the number of years of service or years of participation that the plan recognizes with respect to an employee.".

(2) DEFINED CONTRIBUTION PLANS.—Section 411(b) of such Code is further amended—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following new paragraph:

"(2) DEFINED CONTRIBUTION PLANS.—

"(A) IN GENERAL.—A defined contribution plan satisfies the requirements of this paragraph if employer contributions to the employee's account are not suspended or reduced solely because of age.

"(B) TARGET BENEFIT PLANS.—A target benefit plan (as defined under regulations prescribed by the Secretary) shall not be treated as not satisfying the requirements of this paragraph solely because the plan excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 410(a)(2).

"(C) INDIVIDUAL ACCOUNT PLANS.—An individual account plan (including such a target benefit plan) shall not be treated as not satisfying the requirements of this paragraph solely because the plan imposes a limitation on the contributions that may be made or on the number of years for which contributions will be made under the plan with respect to an employee.".

(3) CERTAIN PLAN AMENDMENTS.—Section 411(d)(6)(B) of such Code (relating to amendments that reduce accrued benefits) is amended by adding at the end thereof the following sentence: "For purposes of subparagraph (B), in the case of a plan that on the date of enactment of the Sixth Omnibus Budget Reconciliation Act, 1986, provided for the distribution or the commencement of distribution of the entire interest of an employee under the plan on or after attaining the normal retirement age under the plan regardless of whether the employee has separated from service, an amendment that postpones the date as of which such distribution will be made or commence, and which is adopted within the 12-month period following the date on which section 411(b)(1)(H) or section 411(b)(2) (as amended by such Act) becomes applicable to the plan, shall not be treated as reducing accrued benefits.".

(4) INTEGRATED PLANS.—Section 401(a)(5) of such Code (relating to a nondiscriminatory classification of employees) is amended by inserting after the second sentence the following new sentence: "Nor shall a plan be considered discriminatory within the meaning of such provisions merely because, in the case of an employee who has attained the normal retirement age under the plan, the plan provides for a rate of benefit accrual or contributions (including retirement benefits created under State or Federal law) that does not exceed the rate of benefit accrual or contributions under the plan (including retirement benefits created under State or Federal law) in the case of an employee who has not attained the normal retirement age under the plan.".

(5) CONFORMING AMENDMENT.—The first sentence of section 411(a) of such Code (relating to minimum vesting standards) is amended by striking out "paragraph (2) of subsection (b), and" and all that follows through the end thereof and inserting in lieu thereof "subsection (b)(3), and also satisfies, in the case of a defined benefit plan, the requirements of subsection (b)(1) and, in the case of a defined contribution plan, the requirements of subsection (b)(2).".

SEC. 12. EFFECTIVE DATE.

(a) IN GENERAL.—The amendments made by this subtitle shall apply only to employees who are employed after December 31, 1988. In the case of such employees, such amendments shall apply to accrual computation periods beginning after December 31, 1986. In the case of employees not employed after December 31, 1988, the amendments made by this subtitle shall apply only to accrual computation periods beginning after December 31, 1988.

(b) PLAN AMENDMENTS.—If any amendment made by this subtitle requires an amendment to any plan, such plan amendment shall not be required to be made before the first plan year beginning on or after January 1, 1989, if—

(1) during the period after such amendment takes effect and before such first plan year, the plan is operated in accordance with the requirements of such amendment; and

(2) such plan amendment applies retroactively to the period after such amendment takes effect and before such first plan year. A pension plan shall not be treated as failing to provide definitely determinable benefits or contributions merely because it operates in accordance with this provision.

(c) SPECIAL RULE FOR COLLECTIVELY BARGAINED PLANS.—In the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers ratified before March 1, 1986, the amendments made by this subtitle shall not apply to plan years beginning before the earlier of—

(1) the later of—

(A) January 1, 1989, or

(B) the date on which the last of such collective bargaining agreements terminate (determined without regard to any extension thereof after February 28, 1986), or

(2) January 1, 1991.

(d) FINAL REGULATIONS.—The Secretary of Labor or the Secretary of the Treasury, as the case may be, shall issue before February 1, 1988, such final regulations as may be necessary to carry out the amendments made by this subtitle.

Mr. GORTON. Mr. President, I send a modification to the amendment to the desk.

The PRESIDING OFFICER. The Senator has the right to modify his amendment.

The modification is as follows:

At the appropriate place, add the following new title:

TITLE.—SOCIAL SECURITY TRUST FUNDS

SEC. 201. SHORT TITLE.

This title may be cited as the "Social Security Trust Funds Management Act of 1986".

SEC. 202. INVESTMENT AND RESTORATION OF TRUST FUNDS.

(a) Subsection (d) of section 201 of the Social Security Act (42 U.S.C. 401(d)) is amended—

(1) by striking out "(1) on original issue" and inserting in lieu thereof "(A) on original issue",

(2) by striking out "(2) by purchase" and inserting in lieu thereof "(B) by purchase";

(3) by striking out "It shall be" and inserting in lieu thereof "(1) It shall be", and

(4) by adding at the end thereof the following new paragraphs:

"(2) If—

"(A) any amounts in the Trust Funds have not been invested solely by reason of the public debt limit, and

"(B) the taxes described in clause (3) or (4) of subsection (a) with respect to which such amounts were appropriated to the Trust Funds have actually been received into the general fund of the Treasury of the United States,

such amounts shall be invested by the Managing Trustee as soon as such investments can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title.

"(3)(A) Upon expiration of any debt limit impact period, the Managing Trustee shall immediately—

"(i) reissue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations held by such Trust Fund that—

"(I) were redeemed during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of standard investment procedures for such Trust Fund in effect on the day before the date on which the debt limit impact period began, would not have been redeemed if the debt limit impact period had not occurred, and

"(ii) issue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations which—

"(I) were not issued during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of such standard investment procedures, would have been issued if the debt limit impact period had not occurred.

"(B) Obligations issued or reissued under subparagraph (A) shall be substituted for obligations that are held by the Trust Fund, and for amounts in the Trust Fund that have not been invested, on the date on which the debt limit impact period ends in a manner that will ensure that, after such substitution, the holdings of the Trust Fund will replicate to the maximum extent practicable the obligations that would be held by such Trust Fund if the debt limit impact period had not occurred.

"(C) In determining, for purposes of this paragraph, the obligations that would be held by a Trust Fund if the debt limit impact period had not occurred, any amounts in the Trust Fund which have not been invested, and any amounts required to be invested under paragraph (2), shall be treated as amounts which were required to be invested upon transfer to the Trust Fund.

"(4) The Managing Trustee shall pay, on the first normal interest payment date that occurs on or after the date on which any debt limit impact period ends, to each of the Trust Funds, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Managing Trustee to be equal to the excess of—

"(A) the net amount of interest that would have been earned by such Trust Fund during such debt limit impact period if—

"(i) amounts in such Trust Fund that were not invested during such debt limit impact period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to such Trust Fund which occurred during such debt limit impact period solely by reason of the public debt limit had not occurred, over

"(B) the sum of—

"(i) the net amount of interest actually earned by such Trust Fund during such debt limit impact period, plus

"(ii) the total amount of the principal of all obligations issued or reissued under paragraph (3)(A) at the end of such debt limit impact period that is attributable to interest that would have been earned by such Trust Fund during such debt limit impact period but for the public debt limit.

"(5) For purposes of this section—

"(A) The term 'public debt limit' means the limitation imposed by subsection (b) of section 3101 of title 31, United States Code.

"(B) The term 'debt limit impact period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) Subsection (a) of section 201 of the Social Security Act is amended by adding at the end thereof the following new sentence: "All amounts so transferred shall be immediately available exculusively for the purpose for which amounts in the Trust Fund are specially made available under this title or under any other provisions of law directly related to the programs established by this title.".

SEC. 203. REPEAL OF NORMALIZED TAX TRANSFER.

(a) Subsection (a) of section 201 of the Social Security Act is amended by striking out the matter following clause (4) and inserting in lieu thereof the following: "The amounts appropriated by clauses (3) and (4) shall be transfered from the general fund of the Treasury of the United States to the Federal Old-Age and Survivors Insurance Trust Fund, and the amounts appropriated by clauses (1) and (2) of subsection (b) shall be transferred from the general fund of the Treasury to the Federal Disability Insurance Trust Fund, upon receipt by the general fund of taxes specified in clauses (3) and (4) of this subsection (as estimated by the Secretary). Proper adjustments shall be made in amounts subsequently transferred to the extent amounts previously transferred were in excess of, or were less than, the taxes specified in such clauses (3) and (4). All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under other provisions of law directly related to the programs established by this title.".

(b) The amendment made by subsection (a) shall take effect on July 1, 1990.

SEC. 204. FAITHFUL EXECUTION OF DUTIES BY MEMBERS OF BOARD OF TRUSTEES OF TRUST FUNDS.

Section 201(c) of the Social Security Act is amended by striking the last sentence and inserting the following: "A person serving on the Board of Trustees (including the Managing Trustee) shall not be considered to be a fiduciary, but each such person shall faithfully execute the duties imposed on such person by this section. A person serving on the Board of Trustees (including the Managing Trustee) shall not be personally liable for actions taken in such capacity with respect to the Trust Funds.".

SEC. 205. REPORTS REGARDING THE OPERATION AND STATUS OF THE TRUST FUNDS.

Subsection (c) of section 201 of the Social Security Act is amended—

(1) by striking "once" in the fourth sentence and inserting "twice",

(2) by redesignating paragraphs (1) and (2) as subparagraph (A) and (B), respectively,

(3) by redesignating paragraphs (3), (4), and (5) as subparagraphs (D), (E), and (F), respectively,

(4) by inserting after subparagraph (B) (as redesignated by paragraph (2) of this section) the following:

"(C) Report to the Congress as soon as possible, but not later than the date that is 30 days after the first normal interest payment date occurring on or after the date on which any debt limit impact period for which the Managing Trustee is required to take action under paragraph (3) or (4) of subsection (d) ends, on—

"(i) the operation and status of the Trust Funds during such debt limit impact period, and

"(ii) the actions taken under paragraphs (3) and (4) of subsection (d) with respect to such debt limit impact period,",

(5) by striking out "in paragraph (2) above" and inserting in lieu thereof "in subparagraph (B) above",

(6) by inserting "(1)" after "(c)", and

(7) by adding at the end thereof the following:

"(2) The Managing Trustee shall report monthly to the Board of Trustees concerning the operation and status of the Trust Funds and shall report to Congress and to the Board of Trustees not less than 15 days prior to the date on which, by reason of the public debt limit, the Managing Trustee expects to be unable to fully comply with the provisions of subsection (a) or (d)(1), and shall include in such report an estimate of the expected consequences to the Trust Funds of such inability.".

SEC. 206. ELIMINATION OF UNDUE DISCRETION IN THE INVESTMENT OF TRUST FUNDS.

(a) Section 201(d) of the Social Security Act is amended, in the first sentence—

(1) by inserting "immediately" after "to invest"; and

(2) by striking ", in his judgment,".

(b)(1) Paragraph (2) of section 201(d) of the Social Security Act, as added by section 202 of this Act, is amended to read as follows:

"(2) If any amount in either of the Trust Funds is not invested solely by reason of the public debt limit, such amount shall be invested as soon as such investment can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title."

(2) The amendment made by paragraph (1) shall take effect on July 1, 1990.

SEC. 207. SALES AND REDEMPTIONS BY TRUST FUNDS.

Section 201(e) of the Social Security Act is amended—

(1) by inserting "(1)" after "(e)"; and

(2) by adding at the end the following:

"(2)(A) The Managing Trustee may effect any such sale or redemption with respect to either Trust Fund only for the purpose of enabling such Trust Fund to make payments authorized by this title or under any other provisions of law directly related to the programs established by this title. If either of the Trust Funds holds any amounts which are not invested by reason of the public debt limit, the Managing Trustee is nevertheless directed to make such sales and redemptions if, and only to the extent, necessary to assure timely payment of benefits and other payments authorized by this title or by any other provisions of law directly related to the programs established by this title, but the principal amount of obligations sold or redeemed pursuant to this sentence shall not exceed the principal amount of obligations that would have been sold or redeemed under normal operating procedures in order to make such payments.".

SEC. 208. EFFECTIVE DATE.

Except as otherwise provided by this title, the amendment made by this title shall take effect on the date of enactment of this Act.

Mr. GORTON. Mr. President, this amendment simply adds two amendments that were added to the debt limit on August 1 for myself, exempting from Gramm-Rudman the COLA's for civil service and military retirees, and amendments on the disinvestment of the Social Security trust fund of the distinguished Senator from New York [Mr. MOYNIHAN] and a provision by Senator GRASSLEY on the continuation of the accrual of pension benefits from employees who choose to remain employed past the age of 65.

Mr. President, I rise today with my distinguished colleagues—Senator HOLLINGS and Senator GRASSLEY—to offer amendment No. 2863. This amendment is a package of miscellaneous retirement benefit protections, all of which is designed to protect the retirement benefits of older Americans.

There are five major provisions in this bill. First, is a provision that will ensure that Social Security benefits will continue to be paid, even when the debt ceiling is approached. This provision will permit the disinvestment of the Social Security trust funds if its necessary, but requires that the trust funds be reimbursed in full—with interest.

Second, is a provision that is virtually identical to the first, but involves the civil service trust funds instead of the Social Security trust funds.

Third, is a provision exempting civil service, military, and railroad tier II retiree COLA's from a future sequester.

Fourth, is a provision that requires employers to continue to accrue pension benefits for employees who choose to remain employed past the age of 65.

Mr. President, on August 1, 1986, I offered the provision of this amendment that guarantees COLA's for military, civil service and railroad Tier II retirees as an amendment to the debt limit bill. This amendment was adopted by the Senate, but the House and the Senate have yet to successfully conference the debt limit bill. It is not fair Mr. President to let these retirees fall through the cracks, just because the House would not agree to the Gramm-Rudman-Hollings provision in the debt limit bill.

It is time that the inequities with respect to these retirement issues be resolved. This amendment not only creates equity by treating all retirement programs the same in sequester situations, it is consistent with the Domenici-Chiles amendment that provides that all retirees will get full COLA's, regardless of the level of inflation. Under current law, Social Security recipients would not receive COLA's this year because inflation has to exceed 3 percent in order to get a COLA. With inflation currently at 1 to 1½ percent this creates a scenario under current law wherein Social Security retirees would not receive a COLA this year. Mr. President, in my role on the Budget Committee I worked with the leadership to see to it that full COLA's would be provided regardless of the rate of inflation.

Lastly, Mr. President, I would like to address the provision regarding disinvestment of the Social Security and civil service trust funds. Time and time again retirees in my State have expressed fear over the fact that money could be borrowed from the trust funds, get used for other programs and never get repaid. I believe this amendment will absolve these fears because it lays everything out in black and white and guarantees that if there ever is a need to borrow from the trust fund, that the money borrowed will be repaid in full—with interest.

I thank my colleagues Senator Hollings and Grassley for working with me to create this package. In closing, I would like to urge my colleagues to join me in protecting the previously mentioned retirement benefits by voting in support of this amendment.

Mr. HOLLINGS. Mr. President, I am very pleased to cosponsor this amendment, the major purpose of which is to provide for equitable treatment in the payment of all Federal COLA's. The amendment corrects the present inequity in the law and ensures that military and Federal civilian retirees will receive their COLA's in 1987 and exempt their COLA's from automatic sequestration through 1991. This means that everyone will be treated alike. We will not have a repeat of the unfortunate and unfair situation that occurred in 1986 when only military and civilian retirees among all COLA receipts were denied a COLA.

This is basically the amendment that Senator GORTON and I, along with many of our colleagues, successfully offered to the debt limit legislation on August 1. Since the outcome of that issue is in doubt, we have decided that the reconciliation bill, with the certainty of its passage and signature by the President, is the most proper vehicle to ensure the passage of our legislation.

As I have stated on numerous occasions, we should treat all of our retirees alike. The Government has a commitment to them and this commitment must be honored. In the interest of fairness, we must correct the inequity and be responsible toward those who have served their country with years of patriotic service. Mr. President, I urge the passage of this COLA fairness amendment.

Mr. MOYNIHAN. Mr. President, I express my appreciation to the distinguished Senator from Washington for his modification, which adds to his original proposal the full complement of measures with respect to disinvestment and the Social Security trust fund which were added to the debt ceiling bill earlier this year, which my distinguished friend from Michigan [Mr. RIEGLE] joined in offering.

Mr. GORTON. Mr. President, I wish to acknowledge the tremendous contribution to this amendment by the distinguished Senator from Tennessee [Mr. SASSER]. I ask unanimous consent that he be added as a cosponsor.

The PRESIDING OFFICER (Mr. MURKOWSKI). Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, would the Senator include me as a cosponsor and answer a question? Is this the same amendment we adopted on the debt limit with reference to the COLA's on Gramm-Rudman?

Mr. GORTON. This is the amendment we adopted on the debt limit on COLA's on Gramm-Rudman, together with the amendment of the Senator from New York [Mr. MOYNIHAN] on the debt limit with respect to the disinvestment and repayment of interest of the Social Security trust fund and a provision with respect to the accrual of pension benefits to employees who choose to remain employed past the age of 65 by the distinguished Senator from Iowa [Mr. GRASSLEY].

I ask unanimous consent that the distinguished Senators from Florida [Mr. CHILES] and New Mexico [Mr. DOMENICI] be added as cosponsors, along with Senators SPECTER, COHEN, CHAFEE, DECONCINI, and HEINZ.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, I rise in support of the amendment. I would like to briefly discuss a provision of the Gorton-Hollings-Grassley amendment that is of particular interest to me. That provision requires employers to accrue additional benefits under a qualified pension plan to employees who work past normal retirement age, which, in the case of most plans, is age 65.

This provision is similar to S. 1427, which I introduced last July. S. 1427 has been cosponsored by Senator MATSUNAGA, the ranking minority member of the Subcommittee on Aging, Senator HEINZ, Senator PELL, and Senator ZORINSKY. Like S. 1427, the amendment we are currently considering addresses what I regard as an anomaly in the current law. As my colleagues are aware, under the Age Discrimination in Employment Act, an employee cannot be forced to retire before the age of 70. However, due to an interpretative ruling issued by the Department of Labor, an employer is permitted to stop accruing additional benefits to an employee under that employer's pension plan when the employee reaches the plan's normal retirement age. It is therefore possible under current law for an individual to work up to 5 years between age 65 and age 70 and not have those years of service reflected in his or her pension benefit simply because he or she took advantage of the protections offered by the Age Discrimination in Employment Act and worked past normal retirement age.

Post-65 pension accrual is an important economic issue for the 150,000 to 200,000 employees 65 through 69 years of age who have their benefit accruals frozen at age 65. An employee in such a situation can lose nearly half of the lifetime value of his or her pension. It has been estimated that total benefits lost to employees who have their pension benefits frozen is approximately $450 million annually.

On the other hand, the aggregate cost to employers of continuing to accrue pension benefits past age 65 is relatively low. The annual cost to employers has been estimated at between $600 million and $1.4 billion, or between 1 and 2 percent of annual private sector employer contributions. However, I should point out that these additional costs will not necessarily require employers to increase their contributions to pension plans. This is the case because the present value of an employee's pension is highest at age 65. Pension costs fall for every year an employee works past that age, even if additional accruals are factored in. Therefore, if a plan's actuaries anticipate that persons covered by the plan will retire at age 65, actual dollar contributions will probably not have to be increased. In addition, if post-65 accruals result in more persons staying in the work force past age 65, there will actually be a saving to employers and to the Federal Treasury. For example, if there is a 50-percent increase in the employment of workers aged 65 to 69, employers would realize annual savings of more than $600 million within 15 years, according to a study commissioned by the American Association of Retired Persons. That same study estimated potential Social Security savings of as much as $1.5 billion annually.

Permitting employers to freeze pension accruals at age 65 is not consistent with current national retirement policy. According to the National Commission on Employment Policy, the practice of freezing benefit accruals at age 65 provides a disincentive for persons to continue to work. Congress has already made major changes in the Social Security System in order to encourage employees to work beyond age 65. These changes include gradually raising Social Security's normal retirement age from 65 to 67 after the year 2000, increasing the delayed retirement credit, and reducing the withholding rate under Social Security's earnings test. It is inconsistent to encourage employees to work longer through the Social Security Act, while at the same time permitting employers to freeze pension benefits at age 65.

Mr. President, the bottom line question is one of equity. It is not fair to make it the law of the land that a person can work up to age 70, but to allow employers to continue to set a lower age limit on pension accruals. This is particularly true in light of the fact that employers must provide other employer-sponsored benefits in a nondiscriminatory manner to employees through age 69. This is the position that has been adopted twice by the Equal Employment Opportunity Commission. It is also the position that has been adopted by a large number of employers in this country who voluntarily provide post-65 accruals.

In addition to requiring pension plans to continue to accrue benefits past age 65, the amendment contains a number of provisions to clear up ambiguities in S. 1427 and minimize the impact on private pensions of the change contemplated by the amendment. The effective date of this particular provision has been moved to January 1, 1989, in order to give ample time for plans to be amended to comply. There is a "look back" provision that provides that in the case of employees who reach age 65 on or after January 1, 1987, and who continue to work on or after January 1, 1989, years of employment between January 1, 1987, and January 1, 1989, must be counted. The language of the amendment also clarifies that plans may continue to observe the so-called 5-year rule, which provides that a plan may exclude from coverage individuals hired within 5 years of the plan's normal retirement age. It also allows plans that place a maximum limit on years of service or on the benefits the plan provides to continue to do so. The amendment also permits plans that commence benefits at normal retirement age regardless of continued employment to be amended to postpone the date at which such benefits commence, and permits plans to continue to integrate plan benefits with Social Security after normal retirement age. Finally, the amendment provides that those plans that provide for an actuarial increase after normal retirement

age need not also provide additional accruals.

Mr. President, I urge the adoption of the Gorton-Hollings-Grassley amendment.

Mr. HEINZ. Mr. President, I want to express my support for the package of retirement provisions put together by my distinguished colleagues, Senators GORTON, GRASSLEY and HOLLINGS. The theme of this package is security. It will affect retirees in three important areas, each of which will greatly improve the sense of security of our older citizens.

First, the package removes Federal retirement COLA's from the Gramm-Rudman sequestration formula, extending Federal retirees the same protection that we provide to Social Security recipients. This change will affect military retirees, civil service retirees, tier 2 railroad retirees, and several smaller Federal retirement programs. I am sure that my colleagues will agree that it was manifestly unfair to subject some retirees to a COLA freeze while protecting others.

This packagae will also protect from cuts recipients of vested dual benefits under the Railroad Retirement Program, which were hit especially hard by the 1986 sequester. Because of what I believe was an oversight in the design of the sequester formula, vested dual benefits were reduced from an average of $104 per month to an average $96 per month. Although the cut may seem small in nominal dollars, it had a profound affect on the 312,000 recipients who need every cent of their fixed incomes. Making these two changes in the sequestration formula will mean that hundreds of thousands of retirees can now count on receipt of their benefits without having to count on Congress to somehow avoid a Gramm-Rudman sequester.

The second provision in the package protects the Social Security and civil service trust funds from uncontrolled disinvestment in the face of a debt ceiling crisis. As most of us remember, last year's disinvestment, even though it was fully repaid with interest, greatly damaged public confidence in the stability of the trust funds. The provisions in this package mirror the plan developed by the Finance Committee. Under this plan, the Treasury can disinvest the trust funds only for the purpose of paying benefits; the borrowed money must be repaid with interest as soon as borrowing authority becomes available; and the Secretary of the Treasury must provide advance notice of any disinvestment decisions. Enactment of this plan will send a message to retirees that the trust funds are not subject to the uncontrolled manipulation that occurred in the past.

Mr. President, I am also pleased with the third part of this package—the provision which requires employers to continue to make pension contributions for older employees who work beyond age 65. I especially commend Senator GRASSLEY for his long and diligent efforts to gain passage of this legislation.

Senator GRASSLEY and I have long been committed to striking down barriers to the employment of older Americans. My commitment is reinforced each day as I hear from older persons across the country who want to be able to continue to work past age 65, especially in part-time jobs. Unfortunately, the current interpretation of the Age Discrimination in Employment Act [ADEA] permits employers to cease pension contributions and pension credits for active employees who work beyond the normal retirement age. This problem exists despite the fact that the ADEA protects workers between the ages of 40 and 70 from discrimination based solely on age.

Mr. President, the absence of accruals can be very costly to older employees. While relatively few older persons choose to work after age 65, halting pension accruals for those who do choose to work after age 65 results in a substantial loss of retirement benefits. A recent analysis indicates that an employee delaying retirement can lose up to half the value of benefits accrued at age 65. The loss of retirement benefits acts as a disincentive to continued employment and may discourage employees who would prefer deferred retirement. In the fact of serious economic pressures on this Nation's retirement income systems, it is imperative that we encourage rather than discourage continued employment for older workers. We must not penalize older Americans who choose to continue to work for economic or for personal reasons.

While the Equal Employment Opportunity Commission has announced its intention to withdraw current regulations and to issue new ones that require continued accruals, they have become hopelessly stalled. In 1985, Senator GRASSLEY introduced legislation, which I cosponsored, to prohibit the suspension of benefit accruals.

Requiring pension contributions will not significantly affect current practices. More than half of defined benefit pension plan participants in medium and large firms are already covered by plans that offer some adjustment for service after the plan's normal retirement age. Furthermore, there is no cost justification for limiting accruals. A study commissioned by the American Association of Retired Persons and printed by the special committee on aging shows that contributions to pension funds would increase by less than 1 percent and would be invested in capital markets that promote economic growth. There would also be savings to the Social Security trust fund as a result of this amendment. Last, and most important, continued accruals result in substantial benefits to those older workers who continue to work.

Enactment of the ADEA, almost two decades ago, represented a major step toward promoting equal employment opportunities for older persons based on ability rather than on age. While pernicious forms of age discrimination still exist, passage of these pension accrual provisions will eliminate one more obstacle to employing older workers and providing them fair pension treatment.

Mr. STEVENS. Mr. President, would the Senator yield for one question?

Mr. GORTON. I do.

Mr. STEVENS. Is there any provision in this bill pertaining to the Federal Employees Health Benefit Act that has not been approved previously?

Mr. GORTON. There is not.

Mr. FORD. Mr. President, would the distinguished Senator from Washington add the Senator from Kentucky as a cosponsor?

Mr. GORTON. I shall be happy to do so. I ask unanimous consent also that the Senator from Oklahoma [Mr. NICKLES] and Senator MELCHER be added.

The PRESIDING OFFICER. Without objection, it is so ordered.

The question is on agreeing to the amendment.

The amendment (No. 2863) was agreed to.

Mr. MOYNIHAN. I move to reconsider the vote by which the amendment was agreed to.

Mr. DOMENICI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2864

Mr. STEVENS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS], for himself, Mr. ANDREWS, Mr. ABDNOR, and Mr. BOREN, proposed an amendment numbered 2864.

At the end of sec. 102 insert the following new language: "Such regulations shall not prohibit full transferability and assignability of such loans without condition, and shall not require unreasonable reductions in rates to customers."

Mr. STEVENS. Mr. President, I ask unanimous consent that I may proceed for 1 minute to read this statement.

The PRESIDING OFFICER. Without objection, the Senator from Alaska may proceed.

Mr. STEVENS. Mr. President, the REA refinancing section already in the bill directs the Secretary of the Treasury to issue final regulations on refinancing to realize net proceeds of not less than $1.72 billion in fiscal year 1987. The Treasury Department's

draft refinancing regulations are far too restrictive to accomplish this goal. This amendment would facilitate the realization of the needed savings by directing the Secretary and drafting the final regulations to permit transferability and assignability of obligations involved in refinancing.

The amendment would prevent the requirement of unreasonable rate reductions as a result of the refinancing. Other benefits to consumers such as rate stabilization should be adequate to qualify for the refinancing. The draft regulations that were issued in August would have imposed a 25-percent reduction in the rates to consumers. Such a requirement would have been unreasonable. Such a requirement rendered those draft regulations unworkable. Any requirement to reduce rates should take into account other methods of reducing consumer rates such as rate stabilization.

Mr. President, I understand there is an exception to this bill by the managers. I think the Senator from North Carolina [Mr. HELMS] may wish to address the question.

□ 2300

Mr. HELMS addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. My concern is that I learned about this amendment less than a half-hour ago. We have had no hearings on it. The potential implications of it, as I understand the amendment, are enormous in terms of the flooding of the market with all sorts of Federal financing bank loan refinancing, not merely REA. I hope the Senator will allow the Agriculture Committee to have hearings on this and decide where we are going to go. This is too big a thing to handle this late at night on this bill.

Mr. STEVENS. Mr. President, I would be happy to accede to the request of the Senator from North Carolina if he will take the provision out of the bill which addresses the proposed regulations. The bill extends the Secretary authority that he does not have under existing law. My amendment limits that authority by saying he cannot prohibit refinancings by requiring a 25-percent reduction on consumer rates. Now, what we are saying is, his regulations cannot prohibit that, and this is a limitation on his authority. But the authority is granted in the bill not only to do so but to increase the amount to $1.72 billion; thus announcing a savings of $500 million which is taken in this resolution as a credit toward reconciliation.

Now, we are not extending any authority to him. In this amendment we are saying he cannot issue his regulations in a manner so as to prohibit the refinancing based upon a failure of the REA Co-op to carry through a 25-percent reduction in notes to consumers, which we consider to be unreasonable rate reduction. That would result in the REA's not being able to refinance because those REA's are subject to State regulation and it is not possible to comply with that regulation. Therefore, we are saying he can bring about other forms of benefits to consumers such as rate stabilization but he can not promulgate regulations, as the initial regulations did, on the basis of the concept of the 25-percent reduction in rates to consumers. We are not, I assure my friend, authorizing the issuance of any more loans or any more refinancing other than is in the bill itself. We are limiting that by saying the regulations cannot require that the benefit to the consumer in the form of a 25-percent rate reduction is a condition to refinancing or a waiver of the penalty for refinancing.

Mr. DOMENICI addressed the Chair.

The PRESIDING OFFICER. All time has expired.

Mr. DOMENICI. Mr. President, will the Senator yield me 1 minute on this?

The PRESIDING OFFICER. All time has expired. All time has expired.

Mr. DOMENICI. Let me say to the chairman of the Agriculture Committee I think the Senator ought to accept the amendment. The provisions of the leadership amendment require a minimum of $1.72 billion in refinancing, but do not compel the Treasury to conduct any more refinancing of the FFB's debt. This is what you agreed to. We cannot refinance any more loans than the level you agreed to.

Mr. HELMS. I agree with the chairman of the Budget Committee that this amendment will not require more than $1.72 billion in refinancing, but I still wish that I had known about the amendment so that we could have analyzed it. I am told, I will say to my friend from Alaska, that this will open a floodgate of FFB refinancing, which could be equivalent to the total deficit of the Federal Government for this year, because the pressures from all the Federal lending agencies will be to do the same thing.

Mr. STEVENS. I tell my friend the amendment that is in the bill says the Secretary can accept refinancing, and the amount that he issues will raise at least $1.72 billion. In addition, the amendment is not intended to prevent the Treasury from requiring that a refinancing package of REA guaranteed loans be presented to the market with non-REA guaranteed loans or securities in a manner to assure that such refinancing package will not unreasonably compete with the marketing of Treasury issues.

The PRESIDING OFFICER. All time for debate has expired.

Mr. STEVENS. But he cannot do it unless we accept this amendment. If what I have said is wrong, we will change it in conference. I urge adoption of the amendment.

Mr. DOLE. Regular order.

The PRESIDING OFFICER. Regular order has been called for. The question is on agreeing to the amendment of the Senator from Alaska.

The amendment (No. 2864) was agreed to.

Mr. DOMENICI. I move to reconsider the vote by which the amendment was agreed to.

Mr. STEVENS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The question is on the amendment of the Senator from New Mexico, as amended.

The amendment (No. 2850), as amended, was agreed to.

Mr. CHILES. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. DOMENICI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Florida.

Mr. CHILES. Mr. President, I understand the Senator from South Carolina is going to make a motion now. I just wanted to say briefly before that motion is made——

The PRESIDING OFFICER. Debate is not in order at this time.

Mr. CHILES. I ask unanimous consent for 2 minutes.

The PRESIDING OFFICER. Is there objection?

Mr. HART. Reserving the right to object, Mr. President, what is the parliamentary situation?

The PRESIDING OFFICER. The parliamentary situation is that all time for debate has expired. Amendments may be disposed of without debate.

Mr. CHILES. I ask unanimous consent for 2 minutes for myself and 2 minutes for the distinguished Senator from South Carolina.

Mr. WEICKER. I object.

The PRESIDING OFFICER. Is there objection?

Mr. WEICKER. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. THURMOND addressed the Chair.

Mr. DOMENICI. May we have order in the Senate?

PROGRAM FRAUD

The PRESIDING OFFICER. The Senate will be in order.

Mr. THURMOND addressed the Chair.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. THURMOND. Mr. President, I have conferred with the Parliamentarian. It is clear that the material from

page 139, line 1, through page 161, line 17, and from page 162, line 1 through line 24 is extraneous matter in contravention of the intention of section 20001 of the Consolidated Omnibus Budget Reconciliation Act of 1985, and accordingly I raise a point of order against it in keeping with the action taken otherwise here this evening on such extraneous matters.

Mr. COHEN addressed the Chair.

The PRESIDING OFFICER. The Senator from Maine.

Mr. COHEN. I move to waive those provisions of section 20001 of Public Law 99-272 under which this point of order was raised for the purpose of reserving those sections of the program fraud provision that is contained in the reconciliation bill subject to such a point of order. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion to waive. The clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN], the Senator from Arizona [Mr. GOLDWATER], the Senator from Oregon [Mr. PACKWOOD], and the Senator from Vermont [Mr. STAFFORD] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN] and the Senator from Hawaii [Mr. MATSUNAGA] are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 79, nays 15, as follows:

[Rollcall Vote No. 275 Leg.]

YEAS—79

Abdnor	Ford	Metzenbaum
Andrews	Glenn	Mitchell
Armstrong	Gore	Moynihan
Baucus	Gorton	Murkowski
Bentsen	Gramm	Nickles
Biden	Grassley	Nunn
Bingaman	Harkin	Pell
Boschwitz	Hart	Pressler
Bradley	Hatch	Proxmire
Bumpers	Hatfield	Pryor
Burdick	Hecht	Quayle
Byrd	Heinz	Riegle

Chiles	Inouye	Roth
Cohen	Johnston	Rudman
Cranston	Kassebaum	Sarbanes
D'Amato	Kasten	Sasser
Danforth	Kennedy	Simon
DeConcini	Kerry	Specter
Dixon	Lautenberg	Stevens
Dodd	Laxalt	Trible
Dole	Leahy	Warner
Domenici	Levin	Weicker
Durenberger	Mathias	Wilson
Eagleton	Mattingly	Zorinsky
Evans	McConnell	
Exon	Melcher	

NAYS—15

Broyhill	Helms	Simpson
Cochran	Hollings	Stennis
Denton	Long	Symms
Hawkins	Lugar	Thurmond
Heflin	McClure	Wallop

NOT VOTING—6

Boren	Goldwater	Packwood
Garn	Matsunaga	Stafford

□ 2320

The PRESIDING OFFICER. The vote is 79 yeas and 15 nays. The motion to waive has the three-fifths vote required. The point of order fails.

Mr. LEVIN. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. METZENBAUM. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senate is not in order. Senators will please return to their seats and cease conversation.

Mr. GRAMM addressed the Chair.

The PRESIDING OFFICER. The Senator from Texas.

Mr. GRAMM. Mr. President, I raise a point of order under section 20001 of Public Law 99-272 that section 403 of the bill as reported is extraneous because the provision increases outlays and the committee which reported the provision is not in compliance.

The PRESIDING OFFICER. The Chair is informed that the provision specified by the Senator from Texas will result in an increase in outlays and therefore leave the reporting committee out of compliance and would violate section 20001, and the point of order is therefore sustained.

Mr. METZENBAUM. Mr. President, I move to waive the provisions and ask for the yeas and nays.

Mr. GRAMM. Mr. President, that motion is not timely.

The PRESIDING OFFICER. The motion to waive is ruled to be too late.

Mr. METZENBAUM. Mr. President, will the Chair be good enough to explain how it is too late at this point?

The PRESIDING OFFICER. The motion to waive must be made prior to the ruling of the Chair.

Mr. METZENBAUM. Mr. President, I, therefore, appeal the ruling of the Chair.

The PRESIDING OFFICER. The Senator from Ohio has appealed the ruling of the Chair.

Is the Senator from Ohio appealing the ruling that the motion was too late, the appeal itself was too late?

Mr. METZENBAUM. Yes.

I am appealing the ruling of the Chair that the Senator from Ohio was not in a position to move to waive the provisions of the act, because it is not my understanding that the provisions of the act require the waiver to be made at that point. This is a provision of the bill that was included by the Energy Committee, the provision of the bill that the Governors across the country all support. I cannot believe the Senator from Ohio is not entitled to a vote.

The PRESIDING OFFICER. The question is shall the ruling of the Chair stand as the judgment of the Senate——

Mr. CHILES. A parliamentary inquiry.

The PRESIDING OFFICER [continuing]. That the appeal taken by the Senator from Ohio was lodged too late.

Mr. CHILES. A parliamentary inquiry, Mr. President.

The PRESIDING OFFICER. The Senator from Florida will so state it.

Mr. CHILES. The parliamentary inquiry is if the Senator from Ohio was on his feet seeking recognition would he not be entitled to recognition before the Chair made its ruling?

The PRESIDING OFFICER. If the Senator was on his feet seeking recognition——

Mr. CHILES. The Senator was on his feet.

The PRESIDING OFFICER [continuing]. He would be entitled to be recognized.

Mr. METZENBAUM. I was on my feet. I was seeking recognition.

□ 1330

The PRESIDING OFFICER. The Chair heard no such appeal.

Mr. METZENBAUM. No such appeal?

The PRESIDING OFFICER. No such appeal was heard by the Chair in a timely fashion.

Mr. CHILES. Mr. President, parliamentary inquiry. I thought the Chair was listening to the Parliamentarian at the time. The Senator from Ohio was on his feet. I observed that he was on his feet. I think it is bad for us to have a motion overruling the Chair.

Mr. LONG. A point of order, Mr. President. There is more involved than the Senator from Ohio being on his feet. He must get recognized by the Chair. He must by saying, "Mr. President." There are a lot of people on their feet at this very moment. They are not all saying, "Mr. President," addressing the Chair. The question is, was the Senator from Ohio on his feet addressing the Chair, which means, did he say, "Mr. President; Mr. President; Mr. President." I did not hear that.

The PRESIDING OFFICER. The Chair did not observe the Senator from Ohio on his feet addressing the Chair in a timely manner.

Mr. DOMENICI. Mr. President, I ask unanimous consent that I may have 30 seconds.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, the truth of the matter is Senator METZENBAUM made a mistake, that is all. He really was waiting around thinking that he should have made this after you ruled, and that was wrong. If he

wants us now to undo all of our rules, we can, but he just made a mistake. He was asking how to do it and you were ruling and he had to already make it before you started ruling. I mean, that is the way we have been doing it all day. Everybody here has been standing up and, before you rule, they moved and he just did not do that.

Now, the Senate can fix it any way they want. But the Chair is not dealing unfairly with the Senator. That is just the breaks at this point. There is just no question about it.

Mr. METZENBAUM. Mr. President, I am not suggesting the Chair is dealing unfairly with me.

Mr. DOMENICI. I do not think he made a mistake at all on this.

Mr. METZENBAUM. I have two choices. I can ask unanimous consent to offer the waiver motion at this point, as I understand it, or appeal the ruling of the Chair. Does the Parliamentarian agree with that?

The PRESIDING OFFICER. The Senator from Ohio has, in fact, appealed the ruling of the Chair that the original appeal was not timely.

Mr. METZENBAUM. I am appealing the ruling that the Chair made that it was not timely.

The PRESIDING OFFICER. That is the pending question.

Mr. DOMENICI. Parliamentary inquiry. Does it take 60 votes to overrule the Chair on this?

The PRESIDING OFFICER. It takes a majority vote to sustain the Chair on this.

Mr. DOMENICI. If the Chair is not sustained, will the Senator not have to go through the 60 votes on a point of order, assuming he properly makes the motion?

The PRESIDING OFFICER. The Senator from New Mexico is correct.

Mr. DOMENICI. Why do we not just do that by consent?

Mr. METZENBAUM. That is perfectly agreeable with me, that I have an opportunity to have a vote. No problem.

Mr. DOMENICI. I do not think we ought to have precedents overruling the Chair when the Chair is right and allow the Senator to do something.

Mr. METZENBAUM. This is a committee amendment in the committee that was adopted. I am perfectly willing to stand on the basis of the rules and ask for the opportunity to offer the motion to waive. If I get 60 votes, fine.

I, therefore, offer the motion to waive the rule.

The PRESIDING OFFICER. Is there objection to that request? Without objection, then, it is so ordered.

The question is now on the motion to waive.

Mr. GRAMM. Mr. President, I ask unanimous consent that we may both have 30 seconds to explain the issue.

The PRESIDING OFFICER. Is there objection? Thirty seconds was asked for. There is no objection.

Mr. GRAMM. Mr. President, the issue here is very simple. The distinguished minority leader made a point the last time we went through this process that people were using reconciliation to spend money. That is the issue here, pure and simple. The committee missed its reconciliation target by $1.2 billion and the Sentor added on $256 million of new spending on a bill that is supposed to save money. We have an opportunity to do here what we all said we were going to do last year, strip this add-on out. I urge my colleagues to vote that way.

Mr. METZENBAUM. Mr. President, the CBO has said this has no budgetary impact. The Energy Committee agreed to put this provision into the measure. The National Governors Conference totally supports this amendment. We are talking about conservation amendments. We are talking about conservation amendments. We are talking about energy conservation amendments.

I believe that it came out of the committee with it. It is in the bill at the present time. there is no attempt to break the budget. I have no desire to do that. I supported every motion this evening with respect to that.

The PRESIDING OFFICER. The time of the Senator from Ohio has expired.

Mr. FORD. Mr. President, I ask unanimous consent that I might proceed for 15 seconds.

The PRESIDING OFFICER. Is there objection? Hearing none, it is so ordered.

Mr. FORD. What is the amendment all about? What does it do? We have not heard that. We will be able to read that, but we have not heard any explanation of what the amendment does.

Mr. METZENBAUM. Mr. President, 5 seconds.

The PRESIDING OFFICER. The Senate is not in order.

Mr. METZENBAUM. I ask for 5 seconds.

Mr. DOMENICI. If you want 5, I will take 5.

Mr. METZENBAUM. Fine.

The PRESIDING OFFICER. Does the Senator from Ohio have a request of the Chair?

Mr. METZENBAUM. Yes. I ask unanimous consent that I may have 5 seconds.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. METZENBAUM. Five minutes.

Mr. DOLE. I object to 5 minutes.

The PRESIDING OFFICER. Objection is heard.

Mr. DOLE. Let us vote. I object.

The PRESIDING OFFICER. There is an objection.

The question is on the motion to waive.

Mr. METZENBAUM. Mr. President, I ask unanimous consent that I may have 1 minute.

Mr. DANFORTH. I object.

The PRESIDING OFFICER. Is there objection?

Mr. DANFORTH. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. METZENBAUM. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on the motion to waive. The yeas and nays have been ordered and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN], the Senator from Arizona [Mr. GOLDWATER], and the Senator from Vermont [Mr. STAFFORD] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN], the Senator from Hawaii [Mr. MATSUNAGA], the Senator from Arkansas [Mr. PRYOR] and the Senator from Colorado [Mr. HART] are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 32, nays 61, as follows:

[Rollcall Vote 276 Leg.]

YEAS—32

Andrews	Gore	Mitchell
Biden	Harkin	Pell
Bingaman	Inouye	Riegle
Bradley	Johnston	Rockefeller
Cohen	Kennedy	Sarbanes
DeConcini	Kerry	Sasser
Dixon	Lautenberg	Simon
Durenberger	Leahy	Specter
Exon	Levin	Warner
Ford	Melcher	Zorinsky
Glenn	Metzenbaum	

NAYS—61

Abdnor	Gorton	Moynihan
Armstrong	Gramm	Murkowski
Baucus	Grassley	Nickles
Bentsen	Hatch	Nunn
Boschwitz	Hatfield	Packwood
Broyhill	Hawkins	Pressler
Bumpers	Hecht	Proxmire
Burdick	Heflin	Quayle
Byrd	Heinz	Roth
Chafee	Helms	Rudman
Chiles	Hollings	Simpson
Cochran	Humphrey	Stennis
Cranston	Kassebaum	Stevens
D'Amato	Kasten	Symms
Danforth	Laxalt	Thurmond
Denton	Long	Trible
Dodd	Lugar	Wallop
Dole	Mathias	Weicker
Domenici	Mattingly	Wilson
Eagleton	McClure	
Evans	McConnell	

NOT VOTING—7

Boren	Hart	Stafford
Garn	Matsunaga	
Goldwater	Pryor	

So the motion was rejected.

□ 2350

The PRESIDING OFFICER. On the motion to waive the Budget Act, there are 32 yeas, 61 nays. The motion is not agreed to.

Mr. HOLLINGS. I move to reconsider the vote by which the motion was rejected.

Mr. DOMENICI. I move to lay that motion on the table.

The PRESIDING OFFICER. And the point of order is sustained.

Mr. SYMMS. Mr. President, I would like to comment on the budget reconciliation bill before us today. First though, I would like to say that I intend to vote for it and any amendments to it which increase its meager budget cuts. But I will do so with minimal enthusiasm.

Technically, this bill represents $3.7 billion in "savings." And that, technically, is why I will cast my vote in favor of it. But that $3.7 billion is far from impressive, and far short of what must be done to bring Federal spending under control.

First of all, just in order to avoid an October 1 sequester we need to cut $14.5 billion—and even then we're missing the Gramm-Rudman target of $144 billion by $10 billion. Anyone can see that this bill's $3.7 billion reduction is not very significant.

Second, a cursory examination of the provisions in this reconciliation package reveals that it includes few real cuts. At its core is $2.4 billion in cigarette taxes and extended Medicare taxes. Added to that budget cut are several user fees and loan sales. In short, its reductions are largely fluff.

Now, these revenue enhancers may be fine when combined with significant budget cuts, but they make pretty weak legislation on their own.

The third major problem with this legislation is that it literally is three steps forward and two steps back. In addition to the taxes, fees, loan sales, and other spending cuts, this bill also includes $2 billion in increased spending.

Mr. President, this is a strange way to balance the budget. But its the way we've been going about it all along. I opposed this year's budget in committee because of similar, though more serious, weakness.

Our whole approach to deficit reduction has been flawed and ineffective. Congress has demonstrated, throughout this process, an unwillingness or an inability to actually make real budget cuts. Politically, I can understand this reluctance because real budget cuts invariably have negative side-effects for some interest groups. But sooner or later, we will run out of fluff, and if we intend to actually eliminate this massive deficit we will have to start making significant cuts.

We are still a great distance from our goal of a balanced budget and an end to deficit spending. In our refusal to make significant budget cuts we have avoided the only direct approach. The path we have chosen has been so roundabout, and our advance so timid, that I question whether we have made any real progress at all.

This reconciliation bill seems to be just one more stop on this oblique scenic route to deficit reduction.

Mr. President, dispite my criticisms of this bill, and my serious reservations about the way we are handling the deficit problem, I respect the efforts of the distinguished chairman of the Budget Committee. He has the frustrating responsibility of trying to forge some sort of consensus on the question of deficit reduction. He has worked to make this a bipartisan effort, and has faced many roadblocks. I do not envy him his task.

I will vote for this bill—because it represents at least a modest attempt at deficit reduction. I will vote for amendments which strengthen its impact. I hope we can achieve some compromise combination which will avoid a sequester on October 1.

But I hope after this cycle runs its course, that we can come back next session having learned from the failures of this one and finally address the budget problem head on.

CHANGING THE FDIC INSURANCE FUND IN THE RECONCILIATION BILL IS A MISTAKE

Mr. DIXON. Mr. President, the Domenici-Chiles amendment contains a provision that, for the first time, imposes Federal deposit insurance premiums on the foreign deposits of American banks. This provision is designed to raise roughly $310 million.

Insurance premiums, are, or course, user fees. Under current budgetary procedures, they do count as Federal revenues. I also understand that there are legitimate arguments for including foreign deposits in the insurance base of the FDIC fund. Foreign deposits, like domestic deposits, are effectively protected by the FDIC in cases where a bank falls into financial difficulty. On the other side, there are also strong arguments, relating to the impact this change would have on the international competitiveness of U.S. banks, the impact this change would have on our trade deficit, and the impact of the tax reform bill on banks, for not making this kind of change.

However, this is a question that I think should be addressed by the Senate Banking Committee. I do not think it is appropriate to address this issue in the reconciliation bill. The reason I do not is simple: The FDIC fund is currently growing rapidly and there is no need for additional revenues. The fund currently receives about $1.5 billion in insurance premiums, and an additional $1.5 billion investment income on the unused surplus in the fund.

The FDIC fund has never used any of its investment income to address bank problems, or even to meet its administrative expenses. The number of bank failures has been rising dramatically in recent years, but the insurance fund has continued to grow.

Whether to include foreign deposits in the fund's premium base, therefore, should not be viewed as a revenue issue. I am not convinced that the fund needs an additional $310 million in revenue—that case has not been made before the Banking Committee—and since there is no clear need for additional revenue, I do not believe this provision belongs in a reconciliation bill.

I hope everyone in the banking industry understands that, under this bill, the additional revenue could not be used to lower the insurance premiums for all banks. It has to be used to increase the fund balance; otherwise, it provides no net new money to the fund.

I would like to offer an amendment to delete this provision, but given the posture we are in, and the need to avoid across-the-board sequestration, such an amendment would likely not be successful. There should be an opportunity, however, in the upcoming House-Senate conference on the reconciliation bill, to find a more appropriate way to meet the G-R-H targets. I hope this provision can be deleted, and the issue returned to the Banking Committee for decision, which is where it belongs.

Mr. MOYNIHAN. Mr. President, we have before us a reconciliation bill, which putatively would reduce the deficit to $154 billion. That would be a deficit small enough to prevent the necessity of an across-the-board, Gramm-Rudman-Hollings sequester order.

The deficit will, in fact, be much higher: $170 billion or $180 billion. The fact is we don't know what the deficit will be for fiscal year 1987. Economics is not a perfect science, and history has shown that we cannot predict the course of the economy with the degree of accuracy required by Gramm-Rudman-Hollings.

It discourages me to have to say this, but despite the good intentions of those who crafted the proposal, it will not achieve the $13.2 billion of deficit reduction it promises.

The legislation claims to reduce the deficit by $2.4 billion through increased tax compliance. Yet I ask my colleagues how much of an increase in tax revenues through increased compliance is actually possible?

Moreover, if the economy continues as it is, instead of at the relatively optimistic growth rate assumed in the OMB and CBO calculations, there will be more spending than expected, and less revenues flowing to the Treasury. In fact, if the Blue Chip consensus forecast were substituted for OMB/CBO economics, the expected deficit

would be $3 billion to $5 billion greater than projected.

Another $680 million of deficit reduction comes from advancing the final payment for general revenue sharing from October 5, 1986, to September 30, thus moving the expenditure into fiscal year 1986. So, we will increase the deficit in fiscal year 1986 and reduce it by an equal amount—through an accounting practice—in fiscal year 1987.

That is not serious deficit reduction.

Congress should not say it is doing something that it knows it cannot do.

Congress ought not misrepresent the facts. What has happened is that we passed a bad law—"a bad idea whose time had come," so to speak—and now, instead of repealing that law as I have urged, we instead seek to cover our tracks through financial wizardry.

We may realistically expect $5 billion to $7 billion of deficit reduction from this proposal. That would be fine with me, if we told the public that $5 billion to $7 billion of deficit reduction is all we can achieve without causing harm to the economy.

Mr. President, an interesting note with regard to this reconciliation proposal. Last year, Senator LAUTENBERG joined me in offering a proposal to sell over $100 billion of Federal loan assets over 3 years. That proposal was, well, raucously rejected by the Senate Budget Committee. As I recall, on that occasion, the chairman asked whether this was my proposal to sell the Grand Canyon.

Later, on the Senate floor, we offered an amendment to establish a pilot program of loan asset sales, calling for the sale of $8 billion in rural housing loans for each of the next 3 years. At that time, another distinguished member of the committee, designated to oppose our proposal on behalf of the majority, referred to it as the "flim-flam" amendment. That proposal got just 26 votes.

Just before the Budget Committee voted out the budget resolution on March 19 of this year, I asked our indefatigably good-natured chairman whether his proposal for "loan asset sales" in function 500 was similar to the proposal Senator LAUTENBERG and I had offered last year—to the incredulity, nay hilarity, of other members of the committee.

It was, in fact, the very same. What was hooted at by the majority a year ago is quietly adopted 1 year later.

Loan asset sales were contained in the final budget resolution and in the reconciliation bill assembled by the Budget Committee on July 31. That bill—the unamended S. 2706—contained about $3 billion of loan asset sales.

Now we will have more. The amended bill calls for $4.8 billion of loan asset sales.

That does not trouble me. The Government's loans are better serviced by the private sector and, if sold properly—on an overcollaterized basis—could reduce the deficit.

I believe that at least part of our problem stems from the fact that the Senate has seemingly abandoned the committee process in the last 2 years.

There were no hearings held before the Senate passed, let alone considered, the Gramm-Rudman-Hollings legislation.

Increasingly, we find ourselves forced to vote on such important propositions without full committee debate and in a rushed manner on the Senate floor. That is no way to do the business of the Nation.

THE SALE OF CONRAIL

Mr. ROCKEFELLER. Mr. President, I rise to offer my view on the provisions of this bill relative to the sale of the Consolidated Rail Corporation—Conrail.

Mr. President, throughout the congressional review process on the sale of Conrail, I was an advocate of the public offering concept. I am gratified that the action the Senate will take in this bill will lead to that eventual conclusion. I offer my support for the inclusion of the Conrail provision in this bill and encourage my colleagues who might conference with the House to pay special attention to additional provisions which might make a public sale more successful.

When we debated Conrail, Mr. President, I backed the Morgan Stanley public offering plan because for West Virginia and the Nation it is the better option. For West Virginia, it keeps alive and intact the direct and indirect forces of competition from three strong railroads; it likewise avoids the considerable negative impact that might occur from the substantial diversions of coal from one rail line to another, or from one State to another.

For the Nation, in addition to addressing concerns about competition and the diversion or disruption of traffic, I believe the public offering alternative will best serve the future of our Nation's rail system.

Although there was strong support in the Senate for the public offering concept, the Senate backed the Secretary of Transportation's choice. I compliment her for her hard work and success in the Senate, even though I disagreed with her choice. But that option is no longer before us. The House of Representatives wisely refused to go along, and the Norfolk Southern bid has been withdrawn.

Mr. President, under the circumstances, I think we must move ahead to sell the railroad. As a Government, we clearly need the revenues, whether the sale price is $1.7 billion—the minimum amount chosen by the House Energy and Commerce Committee—or a larger figure as some have predicted.

Furthermore, the health, strength, and viability of Conrail makes now the time to sell. The railroad has chalked up a solid financial performance in the last 5 years and continues to demonstrate its capability to modernize, adapt, and profit, even though most other economic indicators are flat. The mere fact that the investment house of Morgan Stanley has developed and maintained a group of over 40 sophisticated investors to purchase the railroad for over a year speaks to the degree of confidence Wall Street places in the future of this railroad.

Mr. President, our decision to include the sale of Conrail in this bill should not be half-hearted, or without the substantive provisions necessary to make the sale a success. After all of our work on the Conrail issue, all of our indepth review of both the Secretary's proposal and the public offering alternative, I think the reconciliation bill passed by the Congress should give as much guidance to the Secretary as is practical to consummate a successful sale.

As it stands, Mr. President, the sale language included in the bill before us references the provisions of the Senate-passed Conrail bill. But that bill did not contemplate a public offering. We have the knowledge and information with which to help structure a sale of Conrail in this manner and we should not fail to exercise reasoned judgment merely because it is late in the session.

Mr. President, how this sale is structured—the manner of offering, the future restrictions and covenants on the railroad, even the way the investment sales team is developed—is critical to receipt of the best sales price. This will be the largest public offering of stock in history. It will likely involve most of Wall Street to bring it to a successful conclusion. As such, it will be absolutely critical to the success of the offering that it be designed and managed in such a way as to maximize the return to the Government as well as to ensure the future health of the railroad.

The House of Representatives, Mr. President, seems poised to deal with such substantive issues and the Energy and Commerce Committee has oriented its Conrail provisions specifically for a public offering. I haven't studied every provision of the bill that the House Energy and Commerce Committee has pieced together; in fact, I'm disappointed that they narrowly rejected much-needed Staggers Act reform amendments. I would urge, nonetheless, that the conferees and the Senate as a whole be prepared to give careful consideration to the package of amendments they have prepared, including the guidance they have given regarding the structure of the Conrail sales team.

Mr. President, I believe we are on the right track as we move toward a public offering of Conrail. We should be mindful to give the Secretary as much guidance as is practical to make the sale a success. We owe it to the railroad, and its thousands of employees, and we owe it to the American people who have invested billions of dollars in Conrail to help it back to financial health.

Mr. DENTON. Mr. President, the Congress once again confronts a most important issue before the American people: How can we reduce and control the Federal deficit, and ultimately balance the budget?

We have before us a package that may relieve the Congress for a short period of the necessity to take decisive action. It does not, however, go to the heart of the problem, and the fundamental difficulties will remain to be dealt with at a future time. The bill simply does not deal with the fundamental and difficult question of how to reduce overall spending for the long run.

The Congress must cut Federal expenditures. And it must reform Federal programs in a way that will effectively reduce those expenditures over the long term. On many occasions, I have spoken about the need for institutional reform of our welfare and entitlement programs. I have recalled for my colleagues the observation of Dr. Thomas Sowell, of Stanford University, who has pointed out that at least two-thirds of the money appropriated for welfare programs does not reach the poor. He says that if only one-third of the money appropriated to fight poverty actually reached poor people, we would have no one left in poverty.

I believe that Dr. Sowell is exactly correct. The Congress must address the issues, and we have not.

If we are to reduce spending over the long term, we must reform programs to meet the legitimate needs of the American public at less cost than is now the case. There has got to be a better way. We cannot do it with cosmetics. We cannot do it with "creative" accounting. We have to do it with a new and revolutionary approach.

There are many existing programs in which the Congress can find ways to reduce costs. We must target public assistance programs to those most in need. GRS, EDA, UDAG's, and other programs should be reformed to help those areas most in distress and in need of Federal assistance, and to put an end to the process of providing Federal funds to areas that are not in need.

We must continue to look at ways to reduce Federal expenditures while continuing the really vital programs.

There are three provisions of the amendment that I want to mention specifically. I support the provisions to eliminate the COLA trigger for Social Security, the provision allowing the prepayment of rural electric loans, and the deficiency payments to farmers for the fiscal year 1987 crops of wheat, feed grains, upland cotton, and rice.

I strongly support eliminating the trigger for Social Security COLA's. I have cosponsored a bill that would delete the trigger requirement. The current trigger provision requires that the consumer price indicator (CPI) rise at least 3 percent during the computation period or the COLA is postponed until the first year in which the combined CPI rise since the last COLA given is at least 3 percent. The COLA trigger creates costs for the Social Security system. I believe that the passage of the provision in the amendment is in the best interests of our Social Security recipients, of the Federal Treasury, and of America's taxpayers.

I support the refinancing of the Rural Electric Program so that it can continue to operate in an efficient and orderly manner. The Rural Electricity Program in Alabama helps to bring energy to the farm areas of my State. Without that vital program, the rural areas of Alabama and other States would not have light in the early morning when children leave for school, or electricity for farm equipment and tools during the day. Farm wives would not be able to perform their household functions except in the most laborious ways. We need the Rural Electric Program for our factories, for our farms, and for our families.

This year, more than any other that I can remember, farmers in Alabama vitally need the Deficiency Payments Program. Because of the drought in the southeastern part of the United States, our farm community has suffered through one of the worst years in history. For most farmers who participate in the Deficiency Payment Program, it provides the only hope that they have this year. The Deficiency Payment Program means the difference in whether farmers in Alabama and in the Southeast will stay in farming or get out of that business. The program means the difference in whether a farmer feeds his family and keeps his farm or declares bankruptcy.

Finally, Mr. President, let me say that I support the provisions in the bill that provide for more effective enforcement of our tax laws. I don't support those provisions because of the revenues that they will generate. I support them because they will help to assure that all taxpayers bear their share of taxes, and will ease the burden on the working men and women of Alabama and of our entire Nation. I know that most Americans are willing to do their part, but they justifiably expect that everyone will do the same.

Mr. President, I will support the amendment and the bill. I do so reluctantly, however, because we have not yet been willing to take on the fundamental financial problems that we face. We will have to come back to those problems, sooner or later, and we will have to solve them, sooner or later.

Otherwise, Mr. President, the people of our States will have no alternative but to find representatives who will be both willing and able to do what needs to be done.

Thank you, Mr. President.

Mr. LAUTENBERG. Mr. President, I rise to support passage of this reconciliation bill. But, let there be no mistake. This bill does not provide a long-term solution to the deficit problem.

The bill would cut the deficit by over $13 billion. That is almost $10 billion more in cuts than the bill would have provided, had it come before us without amendment. Those reductions are welcome and needed.

The bill would increase revenues by close to $4 billion through increased enforcement of and compliance with our tax laws. That would close a small part of the $90 billion revenue gap: revenue that is due and owing to the Federal Government, but which goes uncollected.

I support taking these and additional steps in this area. Faced with a deficit of close to $230 billion, we should do all we can to collect the revenue that is due the Government. Certainly we should do that before imposing additional burdens on the public, through increased taxes or reduced Government services.

The bill would also secure close to $5 billion in deficit reduction through the sale of loan assets. I have urged on other occasions the sale of loan assets, to promote better management of Federal credit programs and to secure the present value of these assets.

The bill also includes legislation authorizing the sale of Conrail, for a deficit reduction of $2.1 billion. I have supported the sale of Conrail, if appropriate conditions were met.

Mr. President, under the provisions of the Gramm-Rudman-Hollings law, there is pending in the Senate a joint resolution to make an across-the-board cut of 7.6 percent in certain nondefense programs, and a cut of 5.6 percent in certain defense programs. I would oppose such a resolution, just as I opposed the Gramm-Rudman-Hollings law. Blind, arbitrary, and indiscriminate cuts in spending is no way for us to exercise our responsibility and to cut the budget deficit.

While the reconciliation bill is not perfect, it is preferable to the Gramm-Rudman-Hollings across-the-board cut.

71-059 O-87-42 (Pt. 17)

While the reconciliation bill is not perfect, it reflects priorities of the Senate. And that is what we are elected to do: set priorities.

Yet, Mr. President, while this bill contains elements that I support, the bill falls short of the kind of action we need to reduce the deficit. We cannot sell Conrail again next year. The Federal Government's loan portfolio is not limitless.

We need to take steps that will get the deficit down and keep it down. In some cases, that will involve increased revenues. The bill as amended removes a provision I supported: an increase in the tax on cigarettes. That was a provision that would have increased revenues by $1.6 billion, while reducing health care costs associated with smoking-related diseases. We cannot reduce the deficit in a lasting way without also making additional cuts in spending. Those cuts are not in this bill. Neither the Senate nor the American people should be under the impression that this bill will secure a permanent reduction of the deficit of the kind we need.

The CBO projects a deficit for next year of $171 billion, assuming current levels of spending. With likely increases in spending, the deficit would be at least $2 billion larger, to accommodate a slight increase in appropriations, to provide for a fourth shuttle, and to provide a Social Security cost-of-living increase. I might add that the CBO's estimate is based on a projection of economic growth of 3.2 percent. That is 0.5 percent higher than the growth rate projected by the Blue Chip consensus of private forecasters. A 1 percent error in projecting the GNP growth would result in an $8-billion error in the deficit projection.

I recognize that the tax reform bill, if passed as expected, is projected to add $11 billion in additional revenue in fiscal year 1987. But if we drink from the tax reform bill's cup, we will have one giant hangover in fiscal year 1988. Because in fiscal year 1988, the tax bill will lose $22 billion.

In sum, Mr. President, the deficit reduction in this bill is welcome, but it does not go far enough.

ON TITLE IX OF S. 2706, RECONCILIATION BILL FOR FY 1987

Mr. WEICKER. Mr. President, I rise to oppose the provision of the leadership amendment to the reconciliation bill, S. 2706, which would change title IX of the reconciliation bill to direct that the Small Business Administration [SBA] section 503 certified development company loans be sold without recourse to the Federal Government. I believe it is a big mistake to sell loans without recourse. The leadership amendment purports to bring the small business provisions of the bill into technical compliance by having loans sold without recourse so that under the Congressional Budget Office and Office of Management and Budget new scorekeeping practices, the sale may be scored as achieving budget savings.

It is our view, however, that this scorekeeping approach has important policy implications and should not be left to the wishes of the OMB and CBO to see loan sales take place without recourse. The Small Business Committee's decision to sell section 503 loans with recourse is based on a desire to maximize our resources to reduce the Federal budget deficit and not to waste valuable Government assets.

The budget resolution, for fiscal year 1987, Senate Concurrent Resolution 120, required the Small Business Committee to achieve outlay savings of $343 million in fiscal year 1987, $55 million in fiscal year 1988, and $14 million in fiscal year 1989, for a 3-year total of $412 million. The budget resolution assumed these savings would be achieved through the sale of SBA's $4 billion disaster loan portfolio. Senator BUMPERS and I rejected those assumptions because, in our judgment, based on comments we reviewed from investment bankers and financial analysts, to sell these loans they would have to be deeply discounted, as low as 30 cents on the dollar, if they could be sold at all.

Furthermore, selling the entire disaster loan portfolio, while at the same time continuing the program, would only require an appropriation to recapitalize the revolving fund in the upcoming fiscal year.

Finally, selling disaster loans without recourse would provide no protections to the homeowners, businesses, and farmers who have received SBA disaster loans. Instead of following the Budget Committee's assumption, we proposed the sale of SBA section 503 development company debentures currently held at the Federal financing bank. Furthermore, we recommended, and the members of the Small Business Committee voted unanimously, that such sales take place with recourse to the Federal Government.

Mr. President, we did not decide lightly to take this action. The committee received estimates that the sale of 503 loans on a nonrecourse basis could yield from 60 to 70 cents on a dollar. On the other hand, investment bankers estimated that a sale of 503 debentures with recourse would yield as much as $1.13 on the dollar. In other words, the difference between the sale of recourse and nonrecourse debentures could be as much as 50 cents on a dollar. On the sale of loan portfolio of approximately $1 billion, this could cost the Federal Government $500 million. In my judgment, a nonrecourse sale is simply too costly and the taxpayer is the loser in the long run. Therefore, we directed that these loans be sold with recourse, in order to maximize our resources.

Now the CBO has scored the committee's recommendation as providing no savings, but rather they estimated there would be a cost to Government. According to the OMB and CBO, the sale of loans with recourse to the Government should be scored as providing budget savings because such sales create another form of borrowing. They argue that because loans sold with a Federal guarantee of timely payment of principle and interest, that is, with full recourse, have a contingent liability that the Government may have to honor at some point in time, none of the proceeds from such sales should be counted. That argument ignores the economic reality that from the sale of an asset the Government collects cash which can be applied to reduce the deficit, and the practical reality that most Federal loan programs have historical loss rates which make the losses in these programs somewhat predictable. Mr. President, I recognize that a liability still exists on loans sold with a guarantee and that there will be losses. But I reject the notion that no savings are achieved. Rather than ignore the proceeds from the sale, sound public policy would dictate that we take notice of the historical loss rate of the program and provide a certain amount from the sale to cover losses.

Recognize that fact, the Small Business Committee provision of S. 2706 called for the sale of a sufficient amount of loans to achieve $430 million of savings, rather than the $412 million over 3 years as required by the budget resolution. The additional $18 million was added during committee makeup at the suggestion of Senator LEVIN in order that there would be an additional cushion to pay for losses. In my view, that would be a better approach for us to take. But that is not the approach taken by the leadership.

In conclusion, Mr. President, sale of loan assets with recourse is in the best interest of the taxpayer and of the Congress. As Senators seek to reduce the Federal deficit, we must be vigilant in our efforts to hold to a realistic, fiscally responsible path. We cannot abandon good sense.

Mr. President, I want to register my objection to that portion of the leadership amendment concerning asset sales. I realize little can be done to stop this initiative. However, I want to be clearly on record indicating that this is not the best way to proceed.

Mr. BINGAMAN. Mr. President, I would like to take a few minutes to explain my concern about the budget measure we are being asked to vote on today.

Let me be clear about what I feel is going on, Mr. President. We are being told this action is important to avoid

the automatic sequestration cuts that would apply under the Gramm-Rudman-Hollings Act, and we are being told it is important to act today to reduce our budget deficit. But, I feel the American people deserve to know the facts about this process and this bill.

At this time we are considering the reconciliation bill—the sixth omnibus budget reconciliation Senate report (S. Rept. 99-348), reconciliation is an important tool to restrain Federal spending. It is authorized and described in title III of the Congressional Budget and Impoundment Control Act of 1974 (P.L. 93-344). The reconciliation procedure allows Congress to consider changes in spending and revenues.

Mr. President, the purpose of the Reconciliation Act may be to restrain spending and to consider changes in spending and revenues, but this bill doesn't meet these lofty goals. This bill instead side-steps any meaningful effort to deal with the deficit crisis. It is unfair to mislead the American people by saying this bill significantly restrains Federal spending, and it is unfair to say it changes spending and revenues, it simply doesn't. The truth is the President has made it clear he is unwilling to consider new revenues and the Congress and President are unwilling to consider real spending restraint.

Last year Congress passed another budget tool, the Gramm-Rudman-Hollings Act. The American public was told that this act would provide the mechanism for solving our budget crisis. It was to put the country on a simple glide path to a balanced budget. It was to force hard choices and avoid unpleasant actions. Less than 1 year later we are passing a bill that is a clear device to avoid doing what every one knows needs to be done. In fact we have not only avoided real action but we have clouded any ability to get at the numbers with elaborate procedures and unrealistic estimates.

The Gramm-Rudman-Hollings target for this year is $144 billion. Next year, we said, we would get it down to $108 billion. And, in 3 years we will eliminate the deficit. Although the Congressional Budget Office/Office of Management and Budget deficit snapshots for the 1987 deficit averaged out to be $163.4 billion on August 20, 1986, the CBO/OMB October 1, 1986 snapshot grew to $168.5 billion as a result of $5.1 billion in additional legislation. The Congress couldn't even exercise spending restraint during the preceding month. And, because there is a $10 billion cushion under G-R-H, we need $14.5 billion to meet the target.

The $10 billion cushion is itself a creative devise and, of course it does not just disappear. As the distinguished ranking minority member of the Budget Committee has pointed out, if we miss by $10 billion this year, and miss by $10 billion in each of the next 4 years we end up $50 billion short of the goal of the balanced budget. We also know that the overrun continues to compound.

The current Federal deficit for fiscal year 1986 is actually in excess of $200 billion. The conference board budget specialists have concluded that next year's deficit will really be about $225 billion, a staggering $81 billion above the G-R-H goal.

Higher actual deficits are no big surprise. The General Accounting Office in its recent testimony to the Temporary Joint Committee on the Reduction of the Deficit stressed that the estimates are based on "a complex set of tenuous assumptions." These assumptions include uncertainty about future Federal spending, the economy, and the effect of the tax bill. The GAO concludes that "considering all these factors together, we think there is a strong possibility that the deficit for 1987 will ultimately prove to be significantly higher than the current estimate under the act."

So the question is, How do we achieve the necessary $14.5 billion needed to meet the target? Do we cut spending or increase revenues or a combination of both? Or, do we continue to sell assets and use accounting procedures. Both the chairman and the ranking minority member of the Budget Committee at various times have expressed their personal skepticism on the ability of the Congress to take realistic action.

The plan before us not only is unrealistic and overstated, but it also includes extraneous matters unrelated to the goal of deficit reduction—in violation of Senate rules. The plan includes selling off Government assets, imposing user fees on Government services, administrative savings, compliance savings and other similar mechanisms. The savings anticipated are simply not realistic, and we know it.

The package includes $4 billion for tougher enforcement of tax laws, a one-shot savings of more than $2 billion for sale of the Conrail system, and several billion dollars for the sale of Government agency loan portfolios and other assets. Some of these assets, of course, are being sold at fire sale prices and everyone knows we can only sell these loans and assets once. We shouldn't, and I do not blame the Budget Committee for the situation. It is difficult to cope with the combined pressures of the need to take some action, any action, the President's refusal to bargain, and the difficulty in getting Congress to act on real changes, particularly with an election approaching.

The truth is that by adopting this reconciliation act and doing nothing more to raise revenues or cut spending this year we are virtually insuring that the deficit targets in Gramm-Rudman-Hollings for 1988, 1989 and 1990 cannot be met. We are giving ourselves a politically impossible task next year. The $108 billion target for the deficit will be unattainable absent a major tax increase, and a major tax increase will likely be politically impossible and economically unwise.

We ought to be taking real, meaningful action. We ought to have a balanced package of spending cuts and tax increases.

Mr. President, in spite of my disappointment with this reconciliation bill, I will vote for it and hope that even yet we can do something more. This is not half a loaf—it is scarcely a slice.

CONRAIL

Mr. PRESSLER. Mr. President, I am pleased that the budget reconciliation package includes a provision for the transfer of Conrail back to the private sector. We need to go forward with this transaction so we can finally sell this railroad and help balance the budget. It is my understanding that our House colleagues will be including a Conrail transfer section in their budget reconciliation package as well. I support the Conrail transfer provisions of that measure.

However, I also understand that the House Conrail measure includes a number of ancillary matters unrelated to the Conrail transfer per se. I rise today to express grave concern over those provisions, and to introduce a sense of the Senate resolution which provides that any part of the Conrail measure which is not directly related to the transfer of the interest of the United States in Conrail stock should not be included as part of this act or any other law providing for the transfer of Conrail.

Let me explain my concern. What the House of Representatives has done is to essentially turn the Conrail transfer bill into an omnibus rail bill. This is a mistake. Its non-Conrail provisions could have enormous impact on the railroad industry, and would for all practical purposes forever prohibit what has become a very positive development in the rail industry.

Over the past decade, thousands of miles of light density railroad lines throughout the country have been abandoned because the larger railroads have been unable to operate them at a profit. Until very recently, there has been no option except to abandon these lines. But during the past few years we have seen a new and very positive alternative to abandonment. Instead of abandoning these lines, we have discovered that smaller operators can run them more effectively and more efficiently than can the large class I lines. As a result, we have seen the birth of a substantial

number of regional and short-line railroads which now profitably operate lines which otherwise would have been abandoned.

A classic example of this is the 965-mile Dakota, Minnesota & Eastern [DM&E] railroad which began operations earlier this month in South Dakota, North Dakota, and Minnesota. Without the DM&E, hundreds of miles of track would have been abandoned. But fortunately we were able to work out a sale arrangement between the Chicago & North Western railroad and the L.B. Foster Co., which ultimately led to the creation of the new DM&E. Today we have a vital and vigorous new line which, under the leadership of J.C. "Pete" McIntyre, is serving dozens of communities which would be without rail service today had the House-passed labor provisions been in effect 2 years ago. The DM&E will not be affected by the House language. It is already established. But there are dozens of other "DM&E's" out there which will almost certainly be lost if this language is not changed.

There are many reasons why a smaller railroad can operate more efficiently than a larger one. I will not go into great detail here on the economics of short-line and regional railroads. But it is important to point out that one of the key reasons they can survive is because of more flexible work rules and because the line can be transferred to the smaller operator without having onerous labor protection requirements being imposed on the selling railroad. If the labor protection is required, the selling railroad is forced to increase the sale price to an amount which is prohibitive for the smaller operator, thereby making the transfer impossible.

We recently held hearings in the Senate Commerce Committee on the development of regional and short-line railroads. Virtually every witness agreed that these lines resulted in a "win-win" situation, and their development should be encouraged by Congress. The House bill does exactly the opposite. And it does not simply discourage their development. It makes it absolutely impossible in the majority of cases. This was done, I believe, without realizing the negative impact it would have on regional and short-line railroad development. The ICC, the FRA, small railroads operators, and rail consultants all testified at the hearing that if these kinds of labor protections are imposed, it will mean an end to short-line and regional rail development in the United States.

Imposing labor protection requirements on these marginal light density lines will hurt rather than help rail labor. The option we have here is choosing between a job with a short-line or regional railroad or no job at all. Those who actually work on the line would be harmed by the House language. So this is not an "anti-laborer" amendment—although it might be considered by some to be an "anti-labor establishment" issue. There will be fewer jobs available in the long run under the House language than if my amendment is adopted. The ICC and the administration are unanimous and unequivocal on this point.

The impact of the House language would be devastating. It would basically give labor leaders the right to unilaterally "veto" any transaction involving the creation or sale of regional and short-line railroads. No other industry in the country is saddled with this kind of requirement, not to mention the already very generous labor protection requirements already imposed on the industry. There is no justification for it being included in a Conrail transfer bill.

Mr. President, the amendment would put the Senate on record in clear opposition to these extraneous provisions in the House Conrail sale bill, which I understand they will include in their budget reconciliation package. We should go forward with the sale of Conrail. But we should not turn it into an omnibus railroad bill, the ramifications of which have not been adequately considered by either body.

So I urge my colleagues to support this amendment. We should not sell Conrail at the expense of light density lines in States throughout the country.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

COALITION OF REGIONAL RAILROADS,
September 19, 1986.

Hon. LARRY PRESSLER,
Russell Senate Office Building,
Washington, DC.

DEAR SENATOR PRESSLER: Wednesday, the House Commerce Committee reported legislation to transfer Conrail to the private sector and to require labor protection on a National basis on lines sales and transfers. We understand that the Senate may authorize the Conrail sale as a part of the Budget Reconciliation Bill presently on the floor of the Senate.

As Regional Railroads, we applaud current efforts in the House Commerce Committee to transfer Conrail to the private sector through a public sale. However, we adamantly oppose an extraneous non-Conrail related proposal requiring the Interstate Commerce Commission to impose substantial labor protection on railroad line sales and transfers. This matter is critically important to us, and we would urge defeat of any legislation containing such a provision.

Prior to the Staggers Act, the large railroads addressed marginal lines by downgrading service and abandonment. Since the Staggers Act, the ICC has used its discretion to not impose labor protection when the large railroad opts to sell a line to a new regional carrier. As a result, literally thousands of miles of rail lines are in operation today under the management of entrepreneurial new companies, enthusiastically serving a multitude of shippers in hundreds of communities. These smaller companies can operate these lines at a profit, where the large railroads could not. Most important, their employees are individuals who would have lost their jobs had the lines been abandoned. As the new regional railroads prosper, and there is every indication they will, it is very possible that total railroad employment will ultimately exceed the level that would have existed given the large scale abandonments contemplated by the Class I railroads.

Most of these regional carriers have labor agreements with the unions. While these agreements differ from the National Class I Railroad arrangements, they are both fair to employees and suitable to the economic conditions of the regions they serve. In many instances, they incorporate some very innovative profit sharing provisions. Thus, these carriers can compete in a deregulated environment with other modes of transportation, and preserve investment, service, and jobs in a manner which is not possible for the larger carriers.

It would be a tragedy if this one bright development in railroading was killed by requiring the ICC to impose onerous labor protection on these transactions. Please assist us in helping to defeat any such proposal.

House provisions mandating labor protection would virtually kill regional and short-line railroad development. We urge you to do everything in your power to have the Senate oppose the House provisions mandating labor protection. We strongly support your amendment in this regard.

Sincerely

Mike Barron, Chief Executive Office, Ann Arbor Railroad; S.R. Tedder, President, Ashley, Drew & Northern Railway; Walter Travis, President, Bangor & Aroostook Railroad; Gordon Fay, Chairman, Bay Colony Railroad; J.E. Heley, President, Chicago Central & Pacific; J.A. Darling, Chairman, Chicago South Shore & South Bend Railroad; J.C. McIntrye, President, Dakota Minnesota & Eastern Railroad Corporation; Walter Rich, President, Delaware Otsego Corporation, New York Susquehanna & Western Railway, Lackawaxen & Stourbridge Railroad (PA); Staten Island Railway; J.C. Larkin, President, Escanaba & Lake Superior Railroad; George C. Betke, Jr., Chairman and Chief Executive Officer, Farmrail; Mortimer Fuller, III, President, Genesee & Wyoming Railroad, Rochester & Southern Railroad; Tad Trantum, President, Gulf & Mississippi Railroad; Daniel Cleary, General Manager—Freight, Long Island Rail Road Company; Alfred Smith, Vice President, Operations, Maryland & Pennsylvania Railroad; Glen Bowden, President, Michigan & Wisconsin Transportation Company; E.L. Moyers, President, MidSouth Rail Corporation; Mark Levin, General Counsel, Paducah & Louisville Railroad; John Reale, Vice President for Traffic, Pittsburg & Shamut Railroad; Bernie Cahill, President, Rahway Valley Railway Company; A.P. Smith, Vice President, West Virginia Northern Railroad Company.

Mr. PRESSLER. Mr. President, I would like to engage the distinguished chairman of the Senate Commerce Committee in a short colloquy regard-

ing the Conrail provisions of this bill. It is my understanding that the House reconciliation bill will contain Conrail sale language which includes a great deal of extraneous language not related to the sale. In particular, it includes mandatory labor protection language which would essentially prohibit the development of regional and short-line railroads. The development of these lines is essential to the light density lines in rural States. They are our only alternative to abandonment. So I would like to offer an amendment on this matter.

We held a hearing in the Commerce Committee recently on this issue. It became clear that labor protection of the sort included in the House bill would absolutely kill any future these lines might have. I have a letter from 20 regional and short-line railroads opposing the House language. I ask unanimous consent that it, along with my extended remarks, appear in the RECORD at this point.

I have prepared an amendment on this issue which I would like to offer. There has been one objection to the amendment based on germaneness. But I am prepared to go forward with a vote unless I can get some assurances from the chairman regarding the Senate's position on this issue going into the conference. I hope to be on that conference, but I would like to ask the distinguished chairman of the Commerce Committee whether it is possible to get a clear understanding here that the Senate conferees' position on this issue would be to vigorously oppose these labor protection provisions?

Mr. DANFORTH. Mr. President, the Senator from South Dakota makes an excellent point. Based on the hearings in the Commerce Committee, it is clear that the House language would certainly put an end to the development of these railroads. That would be a serious mistake. I agree with him, and it is my intention to oppose strongly not only that kind of extraneous language, but also any other extraneous matters in the conference committee.

Mr. PRESSLER. I thank the distinguished chairman of the Commerce Committee, and appreciate his assurances.

Mr. PELL. Mr. President, it is with considerable doubt and many reservations that I vote in favor of the budget reconciliation as presented to the Senate today.

Indeed, about the only good thing that can be said about this reconciliation bill is that it holds some promise of preventing the imposition of deep Gramm-Rudman formula spending cuts in nearly all Federal Government programs.

The Gramm-Rudman Act requires that the Congress either reduce the deficit to $154 billion for the 1987 fiscal year or face the alternative of formula spending cuts in nearly every Federal Government program.

And, according to the official estimates, unless we are able to reduce the estimated deficit to $154 billion, nearly all domestic programs would be cut by 7.6 percent and defense spending would be cut by 5.6 percent under the Gramm-Rudman Act.

In my view, such mindless, across-the-board budget cuts are wrong and an abrogation of the responsibility of the Congress. That is why I voted against the entire Gramm-Rudman Act.

The reconciliation bill before us would avoid those formula Gramm-Rudman budget cuts by providing for about $13 billion in deficit reduction for the coming year. Regrettably, however, these deficit reduction proposals are badly flawed, and the bill consequently, is little more than a thin fig leaf to cover the embarrassing failure of the Gramm-Rudman Act. This is what is wrong with this reconciliation bill:

First. The bill eliminates a cigarette tax increase previously approved by the Senate Finance Committee, and which would raise $1.8 billion in revenue in the coming year.

Second. Many, if not most, of the savings in the bill are 1 year savings produced by what is best described as a "lawn sale" of Government assets—the sale of Conrail, and a whole range of loans made by various Government agencies. These sales do nothing whatsoever about the long-term deficit problem of the Government. Indeed, the loan sales may well make deficits in future years larger by reducing revenues that would be expected in those years.

Third. I do not favor the provision of the bill that would impose for the first time fees for the use of services provided by the U.S. Coast Guard.

Fourth. It includes as savings some provisions which merely shift expenses from 1 year to the next. For example a saving of $680 million is claimed by giving to the local governments their final general revenue sharing payments in this fiscal year instead of next year.

Fifth. It includes provisions totally extraneous to deficit reduction, such as a requirement that farmers be given advanced deficiency payments in 1987.

Indeed, the sponsors concede that many of the provisions of the reconciliation bill are less than ideal, and have indicated they share many of the misgivings that I have.

The one saving grace of this legislation is that it may avoid the foolishness of the across-the-board formula grants required by the Gramm-Rudman Act. For that reason alone I vote for it.

TITLE I OF S. 2706

Mr. ZORINSKY. Mr. President, the statutory changes recommended by the Committee on Agriculture, Nutrition, and Forestry to meet the savings target under the budget resolution are contained in title I of S. 2706. The legislation—as reported by the committee—would require the Secretary of Agriculture to sell notes and other obligations held in the Rural Development Insurance Fund in such amounts as to realize net proceeds to the Government of not less than $555 million during fiscal 1987, $549 million during fiscal 1988, and $543 million during fiscal year 1989. The sale of these notes and obligations would be on a nonrecourse basis.

The bill, as revised by the Domenici-Childs amendment, would achieve higher budgetary savings by: First, increasing the amount to be generated from the sale of loans from the Rural Development Insurance Fund during fiscal year 1987 to $1 billion and, second, permitting the repayment of certain Rural Electrification Administration loans without prepayment penalties. The amended bill would also require the Secretary of Agriculture to make advance deficiency payments for the 1987 wheat, feed grains, upland cotton, and rice programs.

SALE OF NOTES FROM THE RURAL DEVELOPMENT INSURANCE FUND

The notes and obligations in the Rural Development Insurance Fund represent loans made by the Farmers Home Administration under the water and waste disposal program and the community facilities program. The water and waste disposal program provides financing for the construction of water and waste disposal systems in rural areas and towns having populations of up to 20,000 people. The program offers credit at favorable rates of interest to public bodies, corporations operated on a nonprofit basis, and Indian tribes that are unable to obtain credit at reasonable rates and term from other sources.

Under the community facilities programs, financing is made available to rural communities and nonprofit organizations for community facilities that provide rural residents with essential services, such as fire protection, hospitals and libraries.

Loans under the water and waste disposal program and the community facilities program may have repayment terms of up to 40 years. In addition, the interest rate on these loans may be as low as 5 percent or as high as the rate on comparable municipal tax-exempt obligations.

Currently, the Rural Development Insurance Fund contains notes representing outstanding loans of over $7 billion. I understand that most of these notes are of high quality. Therefore, there should be little problem for

the Secretary of Agriculture to sell sufficient numbers of these loans to meet the revenue targets in the bill. In this regard, to ensure that there will be a viable and competitive market for these notes and obligations, the institutions of the Farm Credit System would be authorized to purchase and service the loans. The sale of the loans to a farm credit institution would be on such terms and conditions as are agreed to by the institution and the Secretary and approved by the Farm Credit Administration.

The Farm Credit System is well suited to purchase and service these loans inasmuch as the system institutions provide similar financing to cooperatives and other organizations in rural areas. In addition, the acquisition of a substantial number of these high quality loans by the farm credit institutions should improve the overall quality of the system's loan portfolio and help to stabilize its financial condition.

Mr. President, unlike many Government programs, the water and waste disposal and community facilities programs have been very successful. Traditionally, loans made under these programs have had a very low default rate, and they have been important tools in improving the quality of life in rural America. I believe that these programs warrant the continued strong support of the Congress, and I am hopeful that title I of the legislation before us will ultimately benefit the programs by allowing the Farmers Home Administration to better utilize available program resources to finance additional worthy projects. Therefore, I support its enactment.

ADVANCE DEFICIENCY PAYMENTS

Title I, as amended by the Senate, would also require the Secretary of Agriculture to make advance deficiency payments available under section 107C of the Agricultural Act of 1949 for the 1987 crops of wheat, feed grains, upland cotton, and rice. The percentage of the projected payment rate for a commodity that is to be used for computing the advance payment would be not less than: First, 40 percent in the case of wheat and feed grains, and second, 30 percent in the case of upland cotton and rice.

Mr. President, this provision is very important to our farmers and ranchers. It will ensure that part of the deficiency payments that a farmer would receive for participating in the programs will be made shortly after they sign up to participate. If these advances are not made, the farmer would not receive any deficiency payments under the programs until after the crops are harvested. Advance payments will provide producers with funds that they would otherwise have to borrow to finance the production of their 1987 crops. Many farmers are currently financially hard-pressed and do not have any source of operating credit available to them. My colleague from Nebraska, Senator EXON, and I, and other Senators, offered a, similar amendment to House Joint Resolution 668, the joint resolution to increase the public debt limit that was adopted by the Senate. Inasmuch as House Joint Resolution 668 has not yet been enacted into law, I am glad that the advance deficiency payment provision is part of the reconciliation bill.

PREPAYMENT OF RURAL ELECTRIFICATION ADMINISTRATION LOANS

Title I, as amended by the Senate, would also produce additional revenues of $500 million by requiring the Secretary of Treasury to permit the prepayment of loans made to rural electric and telephone systems by the Federal Financing Bank, and guaranteed by the Adminstrator of the Rural Electrification Administration, in the manner provided for in Public Law 99-349. Public Law 99-349 provided supplemental appropriations for the fiscal year ending September 30, 1986. Under that act, prepayment of such loans are permitted without the payment of a penalty equal to 1 year's interest on the loan. Although it may be preferable to allow the prepayment of all of these loans without penalty, I believe that the provision requiring the Secretary of the Treasury to issue revised regulations that will permit the repayment of loans in such amounts as to realize net proceeds of not less than $1.72 billion from such prepayments during 1987 is a definite improvement, and I am glad that the provision is included in the bill.

Mr. President, I commend Senators DOMENICI and CHILES for their efforts in developing the amendment to revise title I. I urge my colleagues to join me in supporting title I of S. 2706.

Mr. BYRD. Mr. President, the amount of the budget deficit that the Federal Government has been incurring for the past 5 years is a national disgrace. The cumulative effect of these deficits when added to those of prior years—our national debt—is beyond disgrace. I would like to remind my colleagues of some pertinent statistics.

The budget deficit incurred in fiscal year 1981—the last year for which the budget was prepared by the Carter administration—was $78.9 billion. In fiscal 1982, under the first Reagan administration budget, the deficit soared to $127.9 billion. In fiscal 1983 it leapt over the $200 billion mark for the first time in our history: to $207.8 billion. In fiscal 1984, we moved slightly downward to a $185.3 billion deficit, only to charge back to a $212.3 billion deficit in fiscal 1985. I think it is pertinent, Mr. President, that President Reagan and his administration did not submit even one budget during this entire period of time that provided for a balanced budget.

What has been the effect of these monstrous deficits on top of deficits? President Reagan, who campaigned for office in 1980 with a platform which had as one of its principal components a demand for a balanced budget, has succeeded in doubling the national debt in the short space of 5 years. What it had taken 39 other Presidents 191 years to accomplish—amassing a national debt of $1 trillion—President Reagan was able to accomplish in 5 short years by adding over $1 trillion more to the national debt. Before we adjourn sine die this year, we will be forced to increase the debt ceiling to approximately $2.3 trillion.

But this is far from the end of the tale. Because despite the enactment of the many-fabled and much-heralded Gramm-Rudman-Hollings law which was supposed to assure we would climb on a glide path that would yield a balanced budget in 1991, we continue to see deficits in the $200 billion range.

The budget process and the reconciliation bills that are a part of it—with the Gramm-Rudman-Hollings deficit targets as a backdrop—are supposed to result every year in those policy and spending changes that are necessary to take us to the balanced budget target in 1991.

I need not spend much time talking about how difficult this is. Cutting a current policy budget by $30 to $40 billion in 1 year—and doing this in 5 consecutive years—is a tough mission. Although I believed at the time the Senate voted on it that the Gramm-Rudman-Hollings process was fatally flawed, and voted against it for that reason, the Congress and the President did make it the law of the land. And, irrespective, I strongly concur in the necessity of reasserting control over the budget, obtaining real and lasting deficit reduction, and achieving a balanced budget—soon.

I regret to say, Mr. President, that the measure before us today is only a perilously thin reed. It does not take us very far down the long and arduous path we must traverse, and many—perhaps most—of its provisions will result in only one-time, 1-year quick fixes of budget reduction. These provisions will not place us on a glide path toward a balanced budget. In fact, several of them actually will make the deficit gap we must close next year—in order to reach the Gramm-Rudman-Hollings deficit reduction targets—even larger and harder to close.

In this respect, Mr. President, we sadly are squandering an important chance to make a real dent in the deficit. This amendment avoids the hard choices that we all know are necessary.

But, Mr. President, as the old saying goes, beggars can't be choosers. While the measure before us doesn't do

enough, and it doesn't result in placing us on a glide path toward a balanced budget, it does, in fact, produce some deficit reduction. And it will result in some diminution of the interest we will be forced to pay on the national debt in future years.

It is a mystery to me, Mr. President, why he has done so—and how he has done so with no apparent political detriment; but President Reagan simply has turned in his equipment and left the budget playing field. On the subject of the budget, the Reagan administration seems to me quite like an old Victrola when the needle got stuck in a groove. The record continues to go around and around, a bunch of squawking continues to come out of the speaker, but there is absolutely no progress.

Time and again, the President or some of his lieutenants have rattled the veto saber at any fair and balanced deficit reduction proposal. That occurred once again as the chairman and the ranking member of the Budget Committee sought on a bipartisan basis to devise a strong, balanced, fair reconciliation proposal over a period of several months this year that would point us certainly toward a balanced budget. I want to commend them at this point, Mr. President, for struggling mightly and valiantly—especially during the past few days. But their efforts were thwarted—largely by the Reagan administration's intransigence. They did the best they could under the circumstances.

That brings us to tonight, Mr. President. I may never cast a vote with less enthuasism. In fact, I think the correct term to describe how I feel about this vote is "resigned." But we have come down to the point where, quite literally, it is this or nothing.

That's really the irreducible kernel of this debate. It is this or nothing—at least so far as reconciliation spending reductions are concerned this year.

Although we are going to vote on it later this evening, I feel confident in predicting that the Gramm-Rudman-Hollings backup sequestration resolution for fiscal year 1987 will never become law. Assuming it were to pass both Houses of the Congress—and I have a large question about its ability to obtain a majority vote in either House—I predict the President would veto it. I believe he will veto it because, despite the fact that he was one of the loudest cheerleaders for Gramm-Rudman-Hollings and signed it into law, and despite the fact that I told him personally and others told him that it likely would have this effect, the sequestration will make deep and harmful cuts in our defense capability.

There will be no sequestration in October, Mr. President. If we are to reduce the deficit this year, the bill before us is the means.

Next year the Congress is going to confront a budget crisis like nothing we have seen. It is quite conceivable that we will face a projected budget deficit that will be $70 or $80 billion above the fiscal year 1988 Gramm-Rudman-Hollings target. When the Director of the President's Office of Management and Budget, Mr. Miller, was asked recently in a hearing how that could be done, he replied, "with difficulty." And when he was asked how it could be done without resorting to new revenues, he replied, "with great difficulty." Those two replies may go down among the greatest understatements in history.

Mr. President, we will never reach the fiscal year 1988 target with only the kinds of one-shot, 1-year, smoke-and-mirrors provisions that make up the bulk of this reconciliation bill. We have run out of "magic asterisks;" we have run out of smoke and mirrors. I hope none of my colleagues will be surprised next year when the chickens we are hatching tonight come home to roost.

Next year, regardless of our party affiliation, regardless of which party controls the Senate, we all are going to be playing on the frontline. It is going to be as pleasant as playing in a football game in a blinding rainstorm on a muddy field with the temperature just above freezing and falling.

But, with the President having abondoned the cause of realistic efforts toward deficit reduction, that will not occur until next year. Tonight we are dealing with this year. I suggest to my colleagues that we accept what is here and ready for us to vote on, recognizing it for what it is. It is better than nothing, but not much. It will reduce the deficit in fiscal year 1987. It will result in somewhat lower-interest payments on the national debt. There are some worthwhile policy and program changes included in the bill.

I will vote aye, Mr. President.

Mr. DOMENICI. Third reading.

The PRESIDING OFFICER. Are there further amendments?

Mr. HARKIN addressed the Chair.

Mr. DOLE. Third reading.

The PRESIDING OFFICER. If there are no further amendments, third reading of the bill.

Mr. HARKIN. Mr. President, yeas and nays on third reading.

The PRESIDING OFFICER. Is the Senator asking for the yeas and nays on third reading?

Mr. HARKIN. Mr. President, I ask for the yeas and nays on third reading.

The PRESIDING OFFICER. Is there a sufficient second?

Mr. HARKIN. Yeas and nays on third reading.

Mr. METZENBAUM. Mr. President, parliamentary inquiry.

The PRESIDING OFFICER. There is not a sufficient second.

Mr. METZENBAUM. Parliamentary inquiry, Mr. President.

The PRESIDING OFFICER. The Senator from Ohio will state his inquiry.

Mr. METZENBAUM. Has the amendment of Senator DOMENICI and Senator CHILES been adopted?

The PRESIDING OFFICER. That amendment has been adopted.

Mr. METZENBAUM. So the matter before us now is the bill as amended with the Domenici-Chiles amendment on it?

The PRESIDING OFFICER. The Senator from Ohio is correct.

If there are no further amendments—

AMENDMENT NO. 2865

Mr. HARKIN. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER. the clerk will please report.

The legislative clerk read as follows:

The Senator from Iowa [Mr. HARKIN] proposes an amendment numbered 2865:

On page 10 of the amendment, strike lines 8 and 9.

The PRESIDING OFFICER. There is no pending amendment. The amendment is therefore out of order.

Mr. HARKIN. Mr. President, parliamentary inquiry.

Mr. DOLE. Third reading, Mr. President.

Mr. HARKIN. Parliamentary inquiry, Mr. President.

The PRESIDING OFFICER. The Senator will state the inquiry.

Mr. HARKIN. Could the Chair inform the Senator why that amendment was out of order?

The PRESIDING OFFICER. The amendment was drafted to the pending amendment and there is no pending amendment.

Mr. HARKIN. Mr. President, I ask for the yeas and nays on third reading.

Mr. DOLE. Mr. President, third reading.

The PRESIDING OFFICER. Is there a sufficient second?

Mr. HARKIN. I ask for the yeas and nays on third reading, Mr. President.

The PRESIDING OFFICER. There is not a sufficient second.

The bill is open to further amendment. If there be no further amendment to be proposed, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed for a third reading and was read the third time.

Mr. DOLE. I ask for the yeas and nays on final passage.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass? On this

question the yeas and nays have been ordered and the clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN], the Senator from Arizona [Mr. GOLDWATER], and the Senator from Vermont [Mr. STAFFORD] are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN] and the Senator from Hawaii [Mr. MATSUNAGA] are necessarily absent.

The PRESIDING OFFICER (Mr. EVANS). Are there any other Senators in the Chamber who desire to vote?

The result was announced—88 yeas, 7 nays, as follows:

[Rollcall Vote No. 277 Leg.]

So the bill (S. 2706), as amended, was passed, as follows:

S. 2706

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Sixth Omnibus Budget Reconciliation Act, 1986".

TITLE I-AGRICULTURAL SECURITIES

SEC. 101. SALE OF AGRICULTURAL NOTES AND OTHER OBLIGATIONS.

(a) The Secretary of Agriculture shall, under such terms as the Secretary may prescribe, sell notes and other obligations held in the Rural Development Insurance Fund established under section 309A of the Consolidated Farm and Rural Development Act (7 U.S.C. 1929a) in such amounts as to realize net proceeds of not less than—

(1) $1,000,000,000 from such sales during fiscal year 1987;

(2) $549,000,000 from such sales during fiscal year 1988; and

(3) $543,000,000 from such sales during fiscal year 1989.

(b) The second sentence of section 309A(e) of the Consolidated Farm and Rural Development Act (7 U.S.C. 1929a(e)) is amended by—

(1) inserting "and other obligations" after "Notes"; and

(2) striking out the period at the end thereof and inserting the following: ", including sale on a nonrecourse basis. The Secretary and any subsequent purchaser of such notes and other obligations sold by the Secretary on a nonrecourse basis shall be relieved of any responsibilities that might have been imposed had the borrower remained indebted to the Secretary.".

(c) Notwithstanding any other provision of law, institutions of the Farm Credit System operating under the Farm Credit Act of 1971 (12 U.S.C. 2001) shall be eligible to purchase notes and other obligations held in the Rural Development Insurance Fund and to service (including the extension of additional credit and all other actions necessary to preserve, conserve, or protect the institutions' interests in such notes and other obligations), collect, and dispose of such notes and other obligations, subject only to such terms and conditions as may be agreed to by the Secretary of Agriculture and such purchasing institutions and as are approved by the Farm Credit Administration.

SEC. 102. ADVANCE DEFICIENCY PAYMENTS.

Notwithstanding any other provision of law, the Secretary of Agriculture shall, in accordance with the criteria in section 107C of the agricultural Act of 1949, make advance deficiency payments available for the 1987 crops of wheat, feed grains, upland cotton, and rice: *Provided,* That the percentage of the projected payment rate used in computing such payments shall not be less than (1) 40 percent in the case of wheat and feed grains, and (2) 30 percent in the case of rice and upland cotton.

SEC. 103. PREPAYMENT OF REA LOANS.

The Secretary of the Treasury shall issue final regulations implementing the provisions of the undesignated paragraph captioned "PREPAYMENT OF LOANS BY RURAL ELECTRIFICATION AND TELEPHONE SYSTEMS" appearing at 100 Stat. 713-14 in Public Law 99-349 (7 U.S.C. 936 note) to permit the prepayment of loans made by the Federal Financing Bank and guaranteed under section 306 of the Rural Electrification Act of 1936 (7 U.S.C. 936) by the Administrator of the Rural Electrification Administration in such amounts as to realize net proceeds of not less than $1,720,000,000 from such loan prepayments during fiscal year 1987. Such regulations shall not prohibit full transferability and assignability of such loans without condition, and shall not require unreasonable reductions in rates to customers.

TITLE II—COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

SEC. 201. SALE OF RURAL HOUSING LOANS.

(a) IN GENERAL.—The Secretary of Agriculture (hereinafter referred to as the "Secretary") shall ensure that loans made under title V of the Housing Act of 1949 are sold to the public in amounts sufficient to provide from the proceeds of such sales a net reduction in outlays of—

(1) not less than $1,158,000,000 in fiscal year 1987;

(2) not less than $500,000,000 in fiscal year 1988; and

(3) not less than $500,000,000 in fiscal year 1989.

(b) PROCEDURES AND TERMS OF SALES.—

(1) The Secretary shall establish specific guidelines for the sale of loans under subsection (a). The guidelines shall address the procedures and terms applicable to the sale of such loans, including whether such loans should be subject to any form of Federal guarantee, the kind of protections that should be provided to borrowers, and terms that will ensure that the sale of such loans will be made at the lowest practicable cost to the Federal Government.

(2) The sale of loans under this section shall not be subject to paragraph (2) or (3) of section 517(d) of the Housing Act of 1949.

(c) REPORTS TO CONGRESS.—

(1) The Secretary shall submit periodic reports to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives setting forth the activities of the Secretary under this section. Each such report shall include the guidelines established under subsection (b)(1), a description of the loans sold under this section, and an analysis of the net reduction in outlays provided by the sale of such loans. The Secretary shall submit the first report under this paragraph not later than 90 days after the date of the enactment of this Act, and shall submit subsequent reports each 90 days thereafter through the end of fiscal year 1987.

(2) The Comptroller General of the United States shall conduct an audit and evaluation of the activities of the Secretary described in each report submitted under paragraph (1), in accordance with such regulations as the Comptroller General may prescribe. The Comptroller General shall have access to such books, records, accounts, and other materials of the Secretary as the Comptroller General determines necessary to conduct each such audit and evaluation. The Comptroller General shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives a report setting forth the results of each such audit and evaluation.

SEC. 202. SALE OF EXPORT-IMPORT BANK LOANS.

The Export-Import Bank Act of 1945 (12 U.S.C. 635 et seq.) is amended by adding at the end thereof the following new section:

"SEC. 45. SALE OF BANK LOANS.

"(a) IN GENERAL.—The Board of Directors shall take such steps as may be necessary to ensure that loans made by the Bank under this Act are sold to the public in amounts sufficient to provide a net reduction in outlays of not less than $1,500,000,000 in fiscal year 1987 from the proceeds of such sales.

"(b) PROCEDURES AND TERMS OF SALES.—The Board of Directors shall establish specific guidelines for the sale of loans under subsection (a). Such guidelines shall be developed after consultation with the Secretary of the Treasury. The guidelines shall address the procedures and terms applicable to the sale of such loans, including terms that will ensure that the sale of such loans will bring the highest possible return to the Federal Government, taking into account the requirements of subsection (c).

"(c) RESTORATION OF CAPITAL.—The Bank is hereby authorized to issue capital stock in an amount equal to any reduction in the capital and reserves of the Bank resulting from the implementation of this section.

The Secretary of the Treasury is authorized and directed to purchase such stock, and for such purpose he may use the proceeds from obligations issued under chapter 31 of title 31, United States Code.

"(d) REPORTS TO CONGRESS.—

"(1) BANK REPORTS.—The Board of Directors shall submit periodic reports to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives setting forth the activities of the Board of Directors under this section. Each such report shall include the guidelines established under subsection (b), a description of the loans sold under this section, and an analysis of the net reduction in outlays provided by the sale of such loans. The Board of Directors shall submit the first report under this paragraph not later than 60 days after the date of the enactment of this Act, and shall submit subsequent reports each 60 days thereafter through the end of fiscal year 1987.

"(2) REPORTS BY COMPTROLLER GENERAL.—The Comptroller General of the United States shall conduct an audit and evaluation of the activities of the Board of Directors described in each report submitted under paragraph (1), in accordance with such regulations as the Comptroller General may prescribe. The Comptroller General shall have access to such books, records, accounts, and other materials of the Board of Directors as the Comptroller General determines necessary to conduct each such audit and evaluation. The Comptroller General shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives a report setting forth the results of each such audit and evaluation.

"(e) SECURITIES LAWS NOT APPLICABLE TO SALES.—The sale of any loan under this section shall be deemed to be a sale of exempted securities within the meaning of section 3(a)(2) of the Securities Act of 1933 (15 U.S.C. 77c(a)(2)) and section 3(a)(12) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(12)). The Bank shall file with the Securities and Exchange Commission such annual and other reports with regard to such securities as the Commission shall determine to be appropriate in view of the special character of the Bank and its operations as may be necessary in the public interest or for the protection of investors.".

SEC. 203. FDIC PREMIUMS ON FOREIGN DEPOSITS OF UNITED STATES BANKS.

The Federal Deposit Insurance Act is amended—

(1) by inserting "except as provided in section 7(b)(5)," after "(A)" in section 3(1)(5);

(2) by striking out "and" at the end of clause (A) of section 7(b)(5); and

(3) by striking out the period at the end of section 7(b)(5) and inserting in lieu thereof the following: ";

"(C) any deposits received in any foreign branch or international banking facility, other than any foreign branch of a foreign bank as defined in section 1(b)(7) of the International Banking Act of 1978.".

TITLE III

COAST GUARD USER FEES

SEC. 301. (a) Notwithstanding the provisions of section 2110 of title 46, United States Code, the Secretary of the department in which the Coast Guard is operating (hereinafter in this section referred to as the "Secretary") shall establish and implement a system for the collection, commencing January 1, 1987, of $38 million in fiscal year 1987 and $50 million in each of fiscal years 1988 and 1989 in receipts from payments by users of services provided by the Coast Guard, other than services associated with emergency search and rescue.

(b) The Secretary shall, by January 1, 1987, issue regulations to carry out the provisions of subsection (a) of this section. Such regulations shall include a schedule of fees which shall be established in accordance with the provisions of section 9701 of title 31, United States Code.

(c)(1) The system established and implemented under subsection (a) of this section shall include collections of payments of—

(A) the sale of Support of Services Stamps, possession of which will entitle the holder of such stamps to specified services without charge; and

(B) fees to be charged to users of such specified services who have not purchased such a Support of Services Stamp.

(2) In developing such system and issuing regulations under this section, the Secretary shall consider collection of receipts from payments for nonemergency search and rescue, as well as other services provided by the Coast Guard.

(d) The Secretary shall, to the maximum extent practicable, ensure that such system minimizes adverse economic effects upon commercial towing services and other segments of the maritime industry.

(e) The Secretary shall report to the Congress on or before December 1, 1986, regarding activities undertaken to establish and implement such system and on or before December 1, 1987, regarding the implementation and effects of such system.

(f) Nothing in this section shall alter or expand the duties and liability of the United States under existing law for the performance of functions for which fees or payments are collected. The collection of such fees or payments shall not constitute an express or implied undertaking by the United States to perform any service or activity in a certain manner or to provide any service at a particular time or place.

LOAN GUARANTEES

SEC. 302. (a) Section 362(b) of title 11, United States Code, is amended—

(1) by striking the period in paragraph (11) and inserting in lieu thereof a semicolon; and

(2) by adding at the end thereof the following:

"(12) under subsection (a) of this section, after the date which is 90 days after the filing of such petition, of the commencement or continuation, and conclusion to the entry of final judgment, of an action which involves a debtor subject to reorganization pursuant to chapter 11 of this title and which was brought by the Secretary of Transportation under the Ship Mortgage Act, 1920 (46 App. U.S.C. 911 et seq.) (including distribution of any proceeds of sale) to foreclose a preferred ship or fleet mortgage, or a security interest in or relating to a vessel or vessel under construction, held by the Secretary of Transportation under section 207 or title XI of the Merchant Marine Act, 1936 (46 App. U.S.C. 1117 and 1271 et seq., respectively), or under applicable State law; or

"(13) under subsection (a) of this section, after the date which is 90 days after the filing of such petition, of the commencement or continuation, and conclusion to the entry of final judgment, of an action which involves a debtor subject to reorganization pursuant to chapter 11 of this title and which was brought by the Secretary of Commerce under the Ship Mortgage Act, 1920 (46 App. U.S.C. 911 et seq.) (including distribution of any proceeds of sale) to foreclose a preferred ship or fleet mortgage in a vessel or a mortgage, deed of trust, or other security interest in a fishing facility held by the Secretary of Commerce under section 207 or title XI of the Merchant Marine Act, 1936 (46 App. U.S.C. 1117 and 1271 et seq., respectively).

The provisions of paragraphs (12) and (13) of this subsection shall apply with respect to any such petition filed on or before December 31, 1989.".

(b) The amendments made by subsection (a) of this section shall apply only to petitions filed under section 362 of title 11, United States Code, which are made after August 1, 1986.

SALE OF CONRAIL

SEC. 303. The Secretary of Transportation is directed in fiscal year 1987 to sell the interest of the United States in the common stock of the Consolidated Rail Corporation (Conrail). Consistent with the public interest convenants provided for pursuant to S. 638, the "Conrail Sale Amendments Act of 1985" as passed by the Senate on February 4, 1986, the Secretary, as part of such sale, shall ensure that Conrail's rail service is continued, that the interests of rail labor are protected, that it is in the strongest possible financial condition after the sale, that it is viable long-term, and that the return to the Federal Government is maximized.

TITLE IV—COMMITTEE ON ENERGY AND NATURAL RESOURCES

Subtitle A—Department of Energy Programs

SEC. 401. CRUDE OIL OR PETROLEUM PRODUCTS OVERCHARGE FUNDS.

(a) RESTITUTIONARY AMOUNTS.—Sections 402 and 403 specify the procedure for the distribution of the following restitutionary amounts—

(1) amounts held in escrow on the date of enactment of this Act, and

(2) amounts received after the date of enactment of this Act,

which are held or received as a result of a settlement, order, or judgment (including a declaratory judgment) involving overcharges resulting from alleged crude or petroleum products oil pricing violations under the Emergency Petroleum Allocation Act of 1973 or the Economic Stabilization Act of 1970.

(b) STATUTE OF LIMITATIONS.—Section 18 of the Emergency Petroleum Allocation Act of 1973 is amended by—

(1) inserting the subsection designator "(a)" before "Notwithstanding"; and

(2) adding the following new subsection:

"(b)(1) Except as provided in paragraph (4) of this subsection, the commencement of an enforcement action by Proposed Remedial Order or Proposed Order of Disallowance under section 503 of the Department of Energy Organization Act or by complaint filed in a district court of the United States under section 209 of the Economic Stabilization Act of 1970 (referred to in this subsection as "section 209") shall be barred unless such action is filed before the later of (A) January 1, 1987; or (B) six years after the date of the violation upon which the action is based.

"(2) After the date of enactment of this subsection, and except as provided in paragraph (4) of this subsection, an action for enforcement of an order that constitutes final agency action brought by the United

States or an officer or agency thereof which is founded upon section 209 shall be barred unless a complaint is filed or an application for modification is filed under section 7 of the Federal Energy Administration Act of 1974 within one year after the order has been issued or one year after the final compliance date prescribed by the order, whichever is later.

"(3) An appropriate district court of the United States shall have jurisdiction over a petition for review brought by a private party subject to a final agency action determined under section 503 or 504 of the Department of Energy Organization Act if the petition is filed within 60 days after the effective date of that final agency action, or within 60 days of the date of enactment of this subsection, whichever occurs later.

"(4) In computing the periods established in paragraphs (1) and (2) of this subsection, there shall be excluded all periods—

"(A) during which any person who is or may become the subject of an enforcement action is outside the United States, has absconded or concealed himself, or is not subject to legal process;

"(B) during which facts material to the enforcement action could not, by reason of that person's actions, be known;

"(C) prior to full compliance with any valid subpoena or special report order issued under section 13 of the Federal Energy Administration Act of 1974;

"(D) prior to the issuance of an order which constitutes final agency action on a request for adjustment from any rule, regulation, or order under section 504 of the Department of Energy Organization Act; or

"(E) of extensions, to which the President or the President's delegee and the person who is or may become the subject of an enforcement action have consented in writing, prior to the expiration of the time periods prescribed in paragraphs (1) and (2) of this subsection.

"(5) Laches shall be available as a defense against any enforcement action covered by this subsection.".

SEC. 402. DISTRIBUTION OF RESTITUTIONARY AMOUNTS.

(a) Any of the restitutionary amounts described in section 401 to which the Federal Government is entitled pursuant to the express terms of a settlement, order, or judgment described in section 401 entered prior to the date of enactment of this Act shall be credited to the general fund of the Treasury. Nothing in this subtitle shall affect any amounts to which persons or classes of persons have an enforceable right, created or vested as of the date of enactment of this Act, pursuant to such a settlement, order, or judgment, including the settlement, approved on July 7, 1986, in "In Re: The Department of Energy Stripper Well Exemption Litigation," M.D.L. No. 378, in the United States District Court for the District of Kansas.

(b) Except as provided for in subsection (a), effective on the date of enactment of this Act, any of the amounts described in section 401 which remain after the identification of and restitution to persons or classes of persons who have sustained economic injury shall be credited to the general fund of the Treasury.

SEC. 403. FEDERAL ENERGY MANAGEMENT.

Section 545(a)(2) of the National Energy Conservation Policy Act (42 U.S.C. 8255(a)(2)), relating to Federal energy management, is amended by striking "marginal" and inserting "average" in its place.

SEC. 404. MANUFACTURERS ENERGY CONSUMPTION SURVEY.

(a) Section 205 of the Department of Energy Organization Act (42 U.S.C. 7135) is amended by adding a new subsection after subsection (h) to read as follows:

"(i)(1) The Administrator shall conduct and publish the results of a survey of energy consumption in the manufacturing industries in the United States on at least a triennial basis and in a manner designed to protect the confidentiality of individual responses. In conducting the survey, the Administrator shall collect information on such topics as—

"(A) quantity of fuels consumed,

"(B) energy expenditures,

"(C) fuel switching capabilities, and

"(D) use of non-purchased sources of energy, such as cogeneration and waste by-products.

"(2) This subsection does not affect the authority of the Administrator to collect data under section 52 of the Federal Energy Administration Act of 1974 (15 U.S.C. 790a).".

(b) Part E of title III of the Energy Policy and Conservation Act (42 U.S.C. 6341-6346) is hereby repealed.

SEC. 405. CRUDE OIL PRODUCTION AND REFINING CAPACITY IN THE UNITED STATES.

(a) IN GENERAL.—(1) The Secretary of Energy, acting with the Energy Information Administration, shall conduct a study of domestic crude oil production and petroleum refining capacity and the effects of imports thereon in order to assist the Congress and the President in determining whether such production and capacity are adequate to protect the national security.

(2) The study provided for by this section shall be carried out within available appropriations.

(b) PUBLIC COMMENT.—The Secretary shall provide notice and reasonable opportunity for public comment with respect to conducting the study carried out under this section.

(c) REPORTING DATE.—The Secretary shall, within 60 days of enactment of this Act, transmit to the Congress and the President a copy of the findings and conclusions of the study carried out under this section. Such findings and conclusions shall be referred to the Committee on Energy and Natural Resources of the Senate and appropriate authorization committees of the House of Representatives.

(d) ACTION BY THE PRESIDENT.—The President shall, within 45 days after the date on which such report is transmitted to him, report his views concerning the levels at which imports of crude oil and refined petroleum products become a threat to the national security and advise the Congress what his views are on what legislative or administrative action, or both, will be required to prevent imports of crude oil and refined petroleum products from exceeding those import levels that threaten out national security.

Subtitle B—Federal Energy Regulatory Commission

SEC. 411. FERC FEES AND ANNUAL CHARGES.

(a) AUTHORIZATION.—The Federal Energy Regulatory Commission shall be authorized to collect fees and annual charges as provided in this subtitle.

(b) IN GENERAL.—The Federal Energy Regulatory Commission shall assess and collect fees and annual charges in amounts sufficient to reimburse the United States for all of the costs incurred by the Commission: *Provided*, That the Commission shall increase fees and annual charges sufficient to increase offsetting receipts by at least $33,000,000 in fiscal year 1987 above current collections.

(c) BASIS FOR ASSESSMENTS.—The fees or annual charges assessed shall be computed based on methods that the Commission determines, by rule, to be fair and equitable.

(d) USE OF FUNDS.—All moneys received under the provisions of this section shall be credited to the general fund of the Treasury.

(e) WAIVER.—The Commission may, by rule or order, waive all or part of any fee or annual charge assessed under this subtitle for good cause shown.

Subtitle C—Department of the Interior Program

SEC. 421. GREAT SWAMP NATIONAL WILDLIFE REFUGE.

(a) No later than 60 days after the enactment of this section, the Secretary of the Interior shall appoint an interagency task force to develop a systematic and comprehensive environmental clean-up plan for the Great Swamp National Wildlife Refuge in New Jersey. Such a plan shall include, but not be limited to:

(1) the appointment of appropriate field personnel to direct the clean-up effort;

(2) an assessment and ranking of environmental threats to the refuge to be updated as new information becomes available;

(3) a detailed clean-up schedule and work plan to be updated on a regular basis; and

(4) an annual report on the progress made toward the clean-up effort of the refuge.

(b) No later than 240 days after the enactment of this section, the Secretary shall provide the appropriate Committees of Congress with a report on the progress of establishing such a task force and the implementation of the clean-up effort.

(c) The development of the plan set out in subsections (a) and (b) shall be carried out with unobligated funds available to the U.S. Fish and Wildlife Service.

TITLE V—COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

SEC. 501. FEES OF THE ENVIRONMENTAL PROTECTION AGENCY.—(a) The Administrator of the Environmental Protection Agency is authorized to assess and collect fees and charges for services and activities carried out pursuant to the statutes which are administered by the Agency in the amount of $20 million annually for the fiscal years 1987, 1988 and 1989. The amount of any fee or charge assessed pursuant to this section shall be established by rule, after notice and opportunity for public comment.

(b) Except as may otherwise be specifically provided by law with regard to fees and charges, and their deposit and retention, any fees and charges established and collected by the Administrator of the Environmental Protection Agency pursuant to this section or other statutes administered by the Agency shall be deposited in a special fund in the United States Treasury which thereafter shall be available for appropriation, to remain available until expended, to carry out the Agency's activities for which the fee or charge is made.

(c) Not later than September 30, 1987, the Administrator of the Environmental Protection Agency shall transmit to the Congress a report on the implementation of this section and on other fees and charges that might be assessed to defray the costs of administering the statutory authorities assigned to the Agency. Such report shall be made available to organizations representing State and local officials who have been

delegated authority to administer programs under these statutes for comment, and summaries of such comments shall be included in the report.

SEC. 502. 42 U.S.C. 2213 is amended to read as follows:

"SEC. 7601. NUCLEAR REGULATORY COMMISSION REVENUES.

"(a) For fiscal years 1987, 1988, and 1989, the Nuclear Regulatory Commission is authorized to assess and collect annual charges from its licensees on a fiscal year basis for costs incurred by the Commission with respect to such licensees in an amount that, when added to other amounts collected by the Commission for each such fiscal year under other provisions of law, does not exceed 38 percent of the funds appropriated to the Commission each such fiscal year.

"(b) Any such charge assessed pursuant to this section for costs incurred by the Commission with respect to its licensees shall be reasonably related to the regulatory service provided by the Commission for each such individual licensee and shall fairly reflect the actual cost of the Commission of providing such service to each such individual licensee.

"(c) The amount of the charges assessed pursuant to this section shall be established by rule, after reasonable opportunity for notice and comment by all interested persons.".

SEC. 503. SALES OF NOTES.—(a) Notwithstanding any other provision of law, the Secretary of Commerce shall, under such terms as the Secretary may provide, sell defaulted notes held in the Economic Development Administration's Revolving Fund in such amounts as to realize net proceeds of not less than $50,000,000 from such sales during fiscal year 1987.

(b) The Secretary is authorized to sell such notes on a nonrecourse basis. The Secretary and any subsequent purchaser of such notes sold by the Secretary on a nonrecourse basis shall be relieved of any responsibilities that might have been imposed, had the borrower remained indebted to the Secretary.

SEC. 504. HIGHWAY PROGRAM.—(a) There is authorized to be appropriated for Federal-aid highways and highway safety construction programs $13,082,000,000 for each of the fiscal years ending September 30, 1987, 1988 and 1989.

(b)(1) Notwithstanding any other provisions of law, the total of all obligations for Federal-aid highways and highway safety construction programs shall not exceed $12,350,000,000 for each of the fiscal years ending September 30, 1987, 1988, and 1989. These limitations shall not apply to obligations for emergency relief under section 125 of title 23, United States Code, and projects under section 157 of title 23, United States Code.

(ii) For each of the fiscal years 1987, 1988 and 1989, the Secretary of Transportation shall distribute the limitation imposed by paragraph (i) by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bears to the total of the sums authorized to appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(iii) During the period October 1 through December 31, 1986, no State shall obligate more than 35 per centum of the amount distributed to such State under paragraph (ii) for fiscal year 1987, and the total of all State obligations during such period shall not exceed 25 per centum of the total amount distributed to all States under such subsection for such fiscal year.

(iv) Notwithstanding paragraph (ii) and (iii), the Secretary shall—

(A) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned or allocated to a State;

(B) after August 1 of each of the fiscal years 1987, 1988 and 1989 revise a distribution of the funds made available under paragraph (ii) for such fiscal year if a State will not obligate the amount distributed during such fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during such fiscal year giving priority to those States having large unobligated balances of funds apportioned under section 104 of title 23, United States Code, and giving priority to those States which, because of statutory changes made by the Surface Transportation Assistance Act of 1982 and the Federal-Aid Highway Act of 1981, have experienced substantial proportional reductions in their apportionments and allocations; and

(C) not distribute amounts authorized for administrative expenses, Federal land highways, and the Strategic Highway Research Program.

TITLE VI—COMMITTEE ON FINANCE: OUTLAY PROVISIONS

TABLE OF CONTENTS

Subtitle A—Provisions Relating to the Medicare Program

PART 1—PROVISIONS RELATING TO PART A OF MEDICARE

Sec. 601. Payments for inpatient hospital services.
Sec. 602. Payments for hospital capital-related costs.
Sec. 603. Changes in inpatient hospital deductible.
Sec. 604. Notice of hospital discharge rights; discharge planning.

PART 2—PROVISIONS RELATING TO PARTS A AND B OF MEDICARE

Sec. 611. Medicare as secondary payer; coverage requirements for certain other payers.
Sec. 612. Payment of medicare claims.
Sec. 613. Payments for home health services.
Sec. 614. Modification of waiver of liability and appeal provisions relating to home health services.
Sec. 615. Provider representation of beneficiaries on appeals.
Sec. 616. Establishment of patient outcome assessment project.

PART 3—PROVISIONS RELATING TO PART B OF MEDICARE

Sec. 621. Payments for physicians' services.
Sec. 622. Medicare economic index for physicians' services.
Sec. 623. End stage renal disease payments.
Sec. 624. Payments for ambulatory surgery.
Sec. 625. Occupational therapy services.

PART 4—PEER REVIEW ORGANIZATIONS

Sec. 631. PRO review of hospital denial notices.
Sec. 632. PRO review of inpatient hospital services and readmissions.
Sec. 633. PRO review of quality of care.

Subtitle B—Provisions Relating to the Medicaid Program

Sec. 641. Optional coverage of poor pregnant women, infants, and children.
Sec. 642. Optional coverage of elderly and disabled poor and of poor medicare beneficiaries.
Sec. 643. Respiratory care services for ventilator-dependent individuals.
Sec. 644. Hold-harmless provision for change in Federal medical assistance percentage for purposes of medicaid program.
Sec. 645. New Jersey respite care pilot project.
Sec. 646. Optional presumptive eligibility period for pregnant women.

Subtitle C—Miscellaneous Provisions

Sec. 651. Requirement of statutorily prescribed procedure to prohibit retroactive modification of child support arrearages.
Sec. 652. Hold-harmless provision for change in Federal medical assistance percentage for purposes of AFDC program.
Sec. 653. Revenue sharing payments.

Subtitle A—Provisions Relating to the Medicare Program

PART 1—PROVISIONS RELATING TO PART A OF MEDICARE

SEC. 601. PAYMENTS FOR INPATIENT HOSPITAL SERVICES.

(a) APPLICABLE PERCENTAGE INCREASE.—

(1) Section 1886(b)(3)(B)(i) of the Social Security Act (42 U.S.C. 1395ww(b)(3)(B)(i)) is amended—

(A) in subclause (II) by striking "1987 and 1988" and inserting in lieu thereof "1988 and 1989",

(B) in subclause (III) by striking "1989" and inserting in lieu thereof "1990",

(C) by redesignating subclauses (II) and (III) as subclauses (III) and (IV), respectively, and

(D) by inserting after subclause (I) the following:

"(II) for fiscal year 1987, 1.3 percent,".

(2)(A) Section 1886(d)(3)(A) of such Act is amended by striking "1985 and 1986" and inserting in lieu thereof "1986 and 1987".

(B) Section 1886(e)(4) of such Act is amended by striking "1987" and inserting in lieu thereof "1988".

(3)(A) In the case of a subsection (d) hospital, the amendments made by paragraph (1) shall apply to payments made under section 1886(d)(1)(A)(ii)(II) of such Act made on the basis of discharges occurring on or after October 1, 1986.

(B) In the case of a subsection (d) hospital, the amendments made by paragraph (1) shall apply to payments under section 1886(d)(1)(A)(ii)(I) of such Act made on the basis of discharges occurring during a cost reporting period of a hospital, for the hospital's cost reporting periods beginning on or after October 1, 1986.

(C) In the case of a hospital that is not a subsection (d) hospital, the amendments made by paragraph (1) shall apply to cost reporting periods beginning on or after October 1, 1986.

(D) For purposes of this paragraph, the term "subsection (d) hospital" has the meaning given to such term in section 1886(d)(1)(B) of such Act.

(b) OUTLIER PAYMENTS FOR SMALL RURAL HOSPITALS AND SOLE COMMUNITY HOSPITALS.—

(1) Section 1886(d)(5)(A) of the Social Security Act (42 U.S.C. 1395ww(d)(5)(A)) is amended by adding at the end the following new clause:

"(v)(I) The total amount of the additional payments made under this subparagraph for discharges from a hospital described in subclause (II) may not be less than 5 percent nor more than 6 percent of the total payments projected or estimated to be made to all such hospitals based on DRG prospective payment rates for discharges in that year.

"(II) For purposes of subclause (I), a hospital is described in this subclause if it is a sole community hospital (as defined in subparagraph (C)(ii)) with an average occupancy of 50 beds or less for the most recently completed Federal fiscal year or a small rural hospital (as described in section 1883(b)(1)).".

(2)(A) The Prospective Payment Assessment Commission shall include in its annual report an analysis of the appropriate thresholds for outliers which are necessary to ensure that outlier payments will be made in accordance with the requirements of section 1886(d)(5)(A) of the Social Security Act.

(B) Section 9113(a) of the Consolidated Omnibus Budget Reconciliation Act of 1985 is amended by inserting "and sole community providers" after "rural hospitals with less than 100 beds".

(3) The amendment made by paragraph (1) shall apply to discharges occurring after September 30, 1986, and before the first October 1 that is more than 270 days after the date on which the Secretary of Health and Human Services submits the report required under section 9113 of the Consolidated Omnibus Budget Reconciliation Act of 1985.

(c) COMPUTING URBAN AND RURAL AVERAGES.—Section 1886(d)(3)(A) of the Social Security Act (42 U.S.C. 1395ww(d)(3)(A)) is amended by adding at the end the following: "With respect to discharges occurring on or after October 1, 1986, the Secretary shall compute urban and rural averages on the basis of discharge weighting rather than hospital weighting, making appropriate adjustments to ensure that computation on such basis does not result in total payments under this section that are greater or less than the total payments that would have been made under this section but for this sentence, and making appropriate changes in the manner of determining the reductions under subparagraph (C)(ii).".

(d) RURAL REFERRAL CENTERS.—

(1)(A) The criteria established by the Secretary of Health and Human Services under section 1886(d)(5)(C)(i) of the Social Security Act (42 U.S.C. 1395ww(d)(5)(C)(i)) shall provide that a rural hospital that—

(i) has a case mix equal to or greater than the median case mix for urban hospitals located in the same census region or the Nation (other than hospitals with approved teaching programs),

(ii)(I) has 5,000 or more discharges a year, or

(II) in the case of a rural osteopathic hospital, meets the criterion established by the Secretary under such section with respect to the annual number of discharges for such hospitals, and

(iii) meets any other criteria established by the Secretary under such section,

shall be classified as a rural referral center.

(B) Subparagraph (A) shall apply to payments for discharges occurring on or after October 1, 1986.

(2) Any hospital that is classified as a rural referral center under section 1886(d)(5)(C)(i) of the Social Security Act on the date of the enactment of this Act shall continue to be classified as a rural referral center for cost reporting periods beginning on or after October 1, 1986, and before October 1, 1989.

(3) Paragraphs (1) and (2) shall be implemented in a manner that ensures that total payments under section 1886 of the Social Security Act are not increased or decreased by reason of the classifications required by such paragraphs.

SEC. 602. PAYMENTS FOR HOSPITAL CAPITAL-RELATED COSTS.

Section 1861(v)(1) of the Social Security Act (42 U.S.C. 1395x(v)(1)) is amended by adding at the end the following new subparagraph:

"(R)(i) Except as provided in clause (ii), in determining the amount of the payments that may be made under this title with respect to the capital-related costs of inpatient hospital services of a subsection (d) hospital (as defined in section 1886(d)(1)(B)), the Secretary shall reduce the amounts determined to be reasonable (without regard to this subparagraph) by—

"(I) 3 percent for cost reporting periods beginning on or after October 1, 1986, and before October 1, 1987,

"(II) 5 percent for cost reporting periods beginning on or after October 1, 1987, and before October 1, 1988, and

"(III) 6 percent for cost reporting periods beginning on or after October 1, 1988, and before October 1, 1989.

"(ii) This subparagraph shall not apply to payments with respect to the capital-related costs of any hospital that is a sole community hospital (as defined in section 1886(d)(5)(C)(ii)).".

SEC. 603. CHANGES IN INPATIENT HOSPITAL DEDUCTIBLE.

(a) IN GENERAL.—Section 1813(b) of the Social Security Act (42 U.S.C. 1395e(b)) is amended to read as follows:

"(b)(1) The inpatient hospital deductible shall be $520 in the case of any spell of illness beginning in calendar year 1987. The inpatient hospital deductible for any spell of illness beginning in any succeeding year shall be an amount equal to the inpatient hospital deductible for spells of illness beginning in the preceding calendar year, changed by the same percentage change as applies for purposes of DRG prospective payment rates under section 1886(b)(3) or section 1886(e)(4) (whichever is applicable) for discharges in the fiscal year that begins on October 1 of such preceding calendar year, and adjusted to reflect changes in real case mix (determined on the basis of the most recent case mix data available). Any amount determined under the preceding sentence which is not a multiple of $4 shall be rounded to the nearest multiple of $4 (or, if it is midway between two multiples of $4, to the next higher multiple of $4).

"(2) The Secretary shall promulgate the inpatient hospital deductible and all coinsurance amounts under this section between September 1 and September 15 of the year preceding the year to which they will apply.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to spells of illness beginning in or after calendar year 1987.

SEC. 604. NOTICE OF HOSPITAL DISCHARGE RIGHTS; DISCHARGE PLANNING.

(a) REQUIREMENT FOR HOSPITALS TO PROVIDE STATEMENT.—

(1) Section 1866(a)(1) of the Social Security Act (42 U.S.C. 1395cc(a)(1)) is amended—

(A) by striking the "and" inserted at the end of the subparagraph (I) by section 9122(a) of the Consolidated Omnibus Budget Reconciliation Act of 1985,

(B) by striking the period at the end of subparagraph (J) and inserting in lieu thereof a comma,

(C) by redesignating the subparagraph (I) inserted by section 9403(b) of the Consolidated Omnibus Budget Reconciliation Act of 1985 as subparagraph (K) and by inserting it after subparagraph (J), and

(D) by inserting "and" at the end of subparagraph (K), as redesignated, and

(E) by inserting after subparagraph (K) the following new subparagraph:

"(L) in the case of hospitals, to provide to each individual who is entitled to benefits under part A (or to a legally responsible person or persons acting on the individual's behalf), at or about the time of the individual's admission as an inpatient to the hospital, a written statement (containing such language as the Secretary prescribes consistent with this paragraph) which explains—

"(i) the individual's rights to benefits for inpatient hospital services and for post-hospital services under this title,

"(ii) the circumstances under which such an individual will and will not be liable for charges for continued stay in the hospital,

"(iii) the individual's right to appeal denials of benefits for continued inpatient hospital services, including the practical steps to initiate such an appeal, and

"(iv) the individual's liability for payment for services if such a denial of benefits is upheld on appeal.".

(2) The Secretary of Health and Human Services shall first prescribe the language required under section 1866(a)(1)(L) of the Social Security Act not later than six months after the date of the enactment of this Act. The requirement of such section shall apply to admissions to hospitals occurring on such date (not later than 60 days after the date such language is first prescribed) as the Secretary shall provide.

(b) REQUIRING HOSPITALS TO PROVIDE DISCHARGE PLANNING.—

(1) Section 1861(e)(6) of the Social Security Act (42 U.S.C. 1395x(e)(6)) is amended—

(A) by inserting "(A)" after "(6)", and

(B) by inserting before the semicolon at the end the following: "and (B) has in place a discharge planning process that meets the requirements of subsection (ee)".

(2) Section 1861 of such Act is further amended by adding at the end the following new subsection:

"DISCHARGE PLANNING PROCESS

"(ee)(1) A discharge planning process of a hospital shall be considered sufficient if it is applicable to services furnished by the hospital to individuals entitled to insurance benefits under this title and if it meets the guidelines and standards established by the Secretary under paragraph (2).

"(2) The Secretary shall develop guidelines and standards for the discharge planning process in order to ensure a timely and smooth transition to the most appropriate type of and setting for post-hospital or rehabilitative care. The guidelines and standards shall include the following:

"(A) The hospital must identify, at an early stage of hospitalization, those patients who are likely to suffer adverse health consequences upon discharge in the absence of adequate discharge planning.

"(B) The hospital must provide a discharge planning evaluation for patients

identified under subparagraph (A) and for other patients upon the request of the patient, patient's representative, or patient's physician.

"(C) Any discharge planning evaluation must be made on a timely basis to ensure that appropriate arrangements for post-hospital care will be made before discharge and to avoid unnecessary delays in discharge.

"(D) A discharge planning evaluation must include an evaluation of a patient's likely need for appropriate post-hospital services and the availability of those services.

"(E) The results of a discharge planning evaluation must be made available to the patient (or the patient's representative) and the patient's physician for use in establishing an appropriate discharge plan.

"(F) Upon the request of a patient's physician, the hospital must arrange for the development and initial implementation of a discharge plan for the patient.

"(G) Any discharge planning evaluation or discharge plan required under this paragraph must be developed by, or under the supervision of, a registered professional nurse, social worker, or other appropriately qualified personnel.".

(3) The second sentence of section 1865(a) of such Act (42 U.S.C. 1395bb(a)) is amended—

(A) by inserting "or, (3) requires a discharge planning process (or imposes another requirement which serves substantially the same purpose)," after "the same purpose" the second place it appears, and

(B) by striking "or 1861(e)(8)" and inserting in lieu thereof "1861(e)(8), or 1861(ee)".

(4) The requirements of section 1861(ee) of the Social Security Act shall become effective one year after the date of the enactment of this Act.

(c) ESTABLISHMENT OF DEMONSTRATION PROJECT.—

(1)(A) The Secretary of Health and Human Services (in this subsection referred to as the "Secretary") shall develop and carry out a demonstration project to determine whether prior and concurrent authorization for skilled nursing facility services and home health services, when used in place of the current medicare waiver of liability for skilled nursing facilities and home health agencies, will protect beneficiaries against liabilities incurred as a result of claim denials.

(B) The Secretary shall monitor the acceptance of individuals entitled to benefits under title XVIII of the Social Security Act by providers to ensure that the placement of such individuals is not delayed until the results of prior and concurrent review are known.

(2) The demonstration project shall be initiated not later than January 1, 1987, and shall continue for not more than two years.

(3) The Secretary may require providers participating in the demonstration project to submit such information as the Secretary determines necessary to evaluate the project.

(4) Not later than April 2, 1988, the Secretary shall report on the results of the demonstration project to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate.

PART 2—PROVISIONS RELATING TO PARTS A AND B OF MEDICARE

SEC. 611. MEDICARE AS SECONDARY PAYER; COVERAGE REQUIREMENTS FOR CERTAIN OTHER PAYERS.

(a) REPEAL.—Section 1862(b) of the Social Security Act (42 U.S.C. 1395y(b)) is repealed.

(b) COVERAGE REQUIREMENTS; MEDICARE AS SECOND PAYER.—Title XVIII of such Act is amended by adding at the end the following:

"MEDICARE AS SECONDARY PAYER; COVERAGE REQUIREMENTS FOR CERTAIN OTHER PAYERS

"SEC. 1890. (a)(1) A workers' compensation law or plan of the United States or of a State, an automobile or liability insurance policy or plan (including a self-insured plan), and no fault insurance may not take into account that an individual is eligible for or receives benefits under this title.

"(2)(A) A group health plan may not take into account that an individual who is entitled to benefits under this title solely by reason of section 226A is eligible for or receives benefits under this title during the 12-month period that begins with the earlier of (i) the month in which a regular course of renal dialysis is initiated, or (ii) in the case of an individual who receives a kidney transplant, the first month in which he would be eligible for benefits under this title (if he had filed an application for such benefits) under the provisions of section 226A(b)(1)(B).

"(B) A group health plan may not differentiate in the benefits it provides, in the premiums it charges, or in any other manner between individuals who have end stage renal disease and other individuals, except that the plan may take into account entitlement to benefits under this title to the extent permitted under subparagraph (A).

"(3)(A) A large group health plan may not take into account that an active individual (other than an individual described in paragraph (2)(A)) is eligible for or receives benefits under this title.

"(B) A large group health plan may not differentiate on the basis of age in the benefits it provides, in the premiums it charges, or in any other manner between active individuals who have attained age 65 and other active individuals.

"(4) The preceding paragraphs create a private cause of action for which damages shall be doubled.

"(5) For purposes of this subsection—

"(A) the term 'group health plan' means a plan contributed to by an employer or employee organization (including a self-insured plan) to provide health care (directly or otherwise) to the employees, former employees, the employer, others associated or formerly associated with the employer in a business relationship, or their families,

"(B) the term 'large group health plan' means a group health plan that covers employees of at least one employer that normally employed at least 20 employees on a typical business day during the previous calendar year, and

"(C) the term 'active individual' means an employee (as defined in regulations), a former employee under age 65, the employer, an individual associated with the employer in a business relationship, an individual under age 65 formerly associated with the employer in a business relationship, or a member of the family of any of those persons.

"(b)(1) Payment may not be made under this title with respect to any item or service to the extent that payment has been made, or can reasonably be expected to be made, with respect to the item or service as required under subsection (a). Any payment under this title with respect to the item or service shall be conditioned on reimbursement to the appropriate Trust Fund established by this title. In order to recover payment made under this title for the item or service, the United States may bring an action against any entity which is required under subsection (a) to pay with respect to the item or service (and may collect double damages against that entity), or against any other entity that has received payment from that entity with respect to the item or service, and may join or intervene in any action related to the events that gave rise to the need for the item or service. The United States shall be subrogated (to the extent of payment made under this title for an item or service) to any right under subsection (a) of an individual or any other entity to payment with respect to the item or service. The Secretary may waive (in whole or in part) the provisions of this paragraph in the case of an individual claim if the Secretary determines that the waiver is in the best interests of the program established under this title.

"(2) If payment required under subsection (a) is less than the amount of the charge for the item or service and is not payment in full, payment may be made under this title (without regard to deductibles and coinsurance under this title) for the remainder of the charge, but—

"(A) payment under this title may not exceed an amount that would be payable under this title for the item or service in the absence of the payment required under subsection (a), and

"(B) payment under this title, when combined with the amount payable under subsection (a), may not exceed—

"(i) in the case of an item or service for which payment is determined under this title on the basis of reasonable cost (or other cost-related basis) or under section 1886, the amount that would be payable under this title on that basis, and

"(ii) in the case of an item or service for which payment is determined under this title on another basis, the greater of the amount that would be payable under subsection (a) (without regard to deductibles and coinsurance) and the reasonable charge or other amount that would be payable under this title (without regard to deductibles and coinsurance under this title).".

(c) SPECIAL ENROLLMENT PERIOD.—

(1) Section 1837(i)(1) of such Act (42 U.S.C. 1395p(i)(1)) is amended—

(A) by striking subparagraph (A),

(B) in subparagraph (B), by striking "a group health plan described in section 1862(b)(3)(A)(iv) by reason of the individual's (or the individual's spouse's) current employment" and inserting in lieu thereof "a group health plan as an active individual (as those terms are defined in section 1890(a)(5))", and

(C) by redesignating subparagraphs (B) and (C) as subparagraphs (A) and (B), respectively.

(2) Section 1837(i)(2) of such Act (42 U.S.C. 1395p(i)(2)) is amended—

(A) by striking subparagraph (A),

(B) in subparagraph (B)(ii), by striking "(1)(B)" and inserting in lieu thereof "(1)(A)",

(C) in subparagraph (C), by striking "a group health plan described in section 1862(b)(3)(A)(iv) by reason of the individ-

ual's (or the individual's spouse's) current employment" and inserting in lieu thereof "a group health plan as an active individual (as those terms are defined in section 1890(a)(5))", and

(D) by redesignating subparagraphs (B) through (D) as subparagraphs (A) through (C), respectively.

(3) Section 1837(i)(3) of such Act (42 U.S.C. 1395p(i)(3)) is amended by striking "a group health plan described in section 1862(b)(3)(A)(iv) by reason of current employment" and inserting in lieu thereof "a group health plan as an active individual (as those terms are defined in section 1890(a)(5))".

(4) The second sentence of section 1839(b) of such Act (42 U.S.C. 1395r(b)) is amended by striking "has attained the age of 65 and for which the individual can demonstrate that the individual was enrolled in a group health plan described in section 1862(b)(3)(A)(iv) by reason of the individual's (or the individual's spouse's) current employment" and inserting in lieu thereof "can demonstrate that the individual was enrolled in a group health plan as an active individual (as those terms are defined in section 1890(a)(5))".

(d) TAX IMPOSED ON NONCONFORMING PLANS.—

(1) Subtitle D of the Internal Revenue Code of 1954 (relating to miscellaneous excise taxes) is amended by adding at the end the following new chapter:

"CHAPTER 47—CERTAIN GROUP HEALTH PLANS

"Sec. 5000. Certain group health plans.

"SEC. 5000. CERTAIN GROUP HEALTH PLANS.

"(a) IMPOSITION OF TAX.—There is hereby imposed on any employer or employee organization that contributes to a nonconforming group health plan a tax equal to 25 percent of the employer's or employee organization's expenses incurred during the calendar year for each group health plan to which the employer or employee organization contributes.

"(b) GROUP HEALTH PLAN.—For purposes of this section, the term 'group health plan' means a plan contributed to by an employer or employee organization (including a self-insured plan) to provide health care (directly or otherwise) to the employees, former employees, the employer, others associated or formerly associated with the employer in a business relationship, or their families.

"(c) NONCONFORMING GROUP HEALTH PLAN.—For purposes of this section, the term 'nonconforming group health plan' means a group health plan that at any time during a calendar year does not comply with the requirements of section 1890(a)(2) of the Social Security Act, as in effect on the date of the enactment of this subsection, or if a large group health plan (as defined in section 1890(a)(5)(B) of such Act), with the requirements of section 1890(a)(3) of such Act.

"(d) GOVERNMENT ENTITIES.—For purposes of this section, the term 'employer' does not include a Federal or other governmental entity.".

(2) The table of chapters of subtitle D of such Code is amended by adding at the end thereof the following:

"CHAPTER 47. Certain group health plans.".

(e) MEDICAID PAYMENTS.—Section 1903 of the Social Security Act (42 U.S.C. 1396b) is amended by adding at the end the following:

"(v) The Secretary shall reduce the amount payable under this section to a State for a quarter by 25 percent of the amount of the expenses incurred by the State (or by a State or local governmental entity) during that quarter for each group health plan (as defined in section 1890(a)(5)(A)) to which the State (or a State or local governmental entity) contributes if any such plan at any time during that quarter does not comply with the requirements of section 1890(a)(2), or, if a large group health plan (as defined in section 1890(a)(5)), with the requirements of section 1890(a)(3).".

(f) REPEAL.—

(1) Section 4(g) of the Age Discrimination in Employment Act of 1967 (29 U.S.C. 623(g)) (relating to entitlement to coverage under the group health plan) is repealed.

(2) Section 12(a) of such Act (29 U.S.C. 631(a)) is amended by striking "(except the provisions of section 4(g))".

(g) EFFECTIVE DATES.—

(1) The amendments made by subsections (a), (b), and (d) through (f) shall apply to items and services furnished in calendar quarters beginning on or after October 1, 1986.

(2) The amendments made by subsection (c) shall apply to enrollments occurring on or after, and premiums for months beginning on or after, October 1, 1986.

SEC. 612. PAYMENT OF MEDICARE CLAIMS.

(a) PAYMENTS UNDER PART A.—Section 1816(c) of the Social Security Act (42 U.S.C. 1395h(c)) is amended—

(1) by inserting "(1)" after "(c)", and

(2) by adding at the end the following new paragraph:

"(2)(A) Each agreement under this section shall provide that payment shall be issued, mailed, or otherwise transmitted with respect to not less than 95 percent of all claims submitted under this part—

"(i) which are clean claims, and

"(ii) for which payment is not made on a periodic interim payment basis,

within the applicable number of calendar days after the date on which the claim is received.

"(B) In this paragraph—

"(i) the term 'clean claim' means a claim which meets the requirements of section 1814(a)(1) and any other requirements of this title for payment under this part, and

"(ii) the term 'applicable number of calendar days' means—

"(I) with respect to claims received in the 12-month period beginning October 1, 1986, 27 calendar days,

"(II) with respect to claims received in the 12-month period beginning October 1, 1987, 26 calendar days,

"(III) with respect to claims received in the 12-month period beginning October 1, 1988, 25 calendar days, and

"(IV) with respect to claims received in the 12-month period beginning October 1, 1989, and claims received in any succeeding 12-month period, 24 calendar days.".

(b) PAYMENTS UNDER PART B.—Section 1842(c) of the Social Security Act (42 U.S.C. 1395u(c)) is amended—

(1) by inserting "(1)" after "(c)", and

(2) by adding at the end the following new paragraph:

"(2)(A) Each contract under this section which provides for the disbursement of funds, as described in subsection (a)(1)(B), shall provide that payment shall be issued, mailed, or otherwise transmitted with respect to not less than 95 percent of all claims submitted under this part—

"(i) which are clean claims, and

"(ii) for which payment is not made on a periodic interim payment basis,

within the applicable number of calendar days after the date on which the claim is received.

"(B) In this paragraph—

"(i) the term 'clean claim' means a claim which meets the requirements of section 1814(a)(1) and any other requirements of this title for payment under this part, and

"(ii) the term 'applicable number of calendar days' means—

"(I) with respect to claims received in the 12-month period beginning October 1, 1986, 27 calendar days,

"(II) with respect to claims received in the 12-month period beginning October 1, 1987, 26 calendar days,

"(III) with respect to claims received in the 12-month period beginning October 1, 1988, 25 calendar days, and

"(IV) with respect to claims received in the 12-month period beginning October 1, 1989, and claims received in any succeeding 12-month period, 24 calendar days.".

(c) PERIODIC INTERIM PAYMENTS; PAYMENT OF INTEREST.—

(1) Section 1815 of the Social Security Act (42 U.S.C. 1395g) is amended by adding at the end the following new subsection:

"(e)(1) If for three consecutive calendar months, an agency or organization with an agreement with the Secretary under section 1816 meets the requirements of subsection (c)(2) of such section, the Secretary shall discontinue periodic interim payments (under 42 CFR 405.454(j)) with respect to all providers of services (other than providers of the type described in paragraph (3)) paid through the agency or organization until such time as the agency or organization fails to meet such requirements for three consecutive calendar months.

"(2) If for three consecutive calendar months, an agency or organization with an agreement with the Secretary under section 1816 fails to meet the requirements of subsection (c)(2) of such section, the Secretary shall provide for periodic interim payments with respect to all subsection (d) hospitals (as defined in section 1886(d)(1)(B)) that request such payments and that are paid through the agency or organization until such time as the agency or organization meets such requirements for three consecutive calendar months.

"(3) Notwithstanding paragraphs (1) and (2), the Secretary shall not discontinue periodic interim payments (under 42 C.F.R. 405.454(j)) with respect to inpatient hospital services of a hospital that is not a subsection (d) hospital (as defined in section 1886(d)(1)(B)), skilled nursing facility services, or home health services if the provider of such services elects to receive, and qualifies for, such payments.".

(2) Section 1842(c) of such Act, as amended by subsection (b), is further amended by adding at the end the following new paragraph:

"(3) If payment is not issued, mailed, or otherwise transmitted within the applicable number of calendar days (as defined in clause (ii) of paragraph (2)(B)) after a clean claim (as defined in clause (i) of such paragraph) is received, interest shall be paid at the rate used for purposes of section 3902(a) of title 31, United States Code (relating to interest penalities for failure to make prompt payments) for the period beginning on the day after the required payment date and ending on the date on which payment is made.".

(3) Section 1816(c) of such Act, as amended by subsection (a), is further amended by adding at the end thereof the following new paragraph:

"(3) If payment is not issued, mailed, or otherwise transmitted within the applicable number of calendar days (as defined in clause (ii) of paragraph (2)(B)) after a clean claim (as defined in clause (i) of such paragraph) is received from a provider of skilled nursing facility services, home health services, or hospice services that is not receiving periodic interim payments with respect to such services, interest shall be paid at the rate used for purposes of section 3902(a) of title 31, United States Code (relating to interest penalities for failure to make prompt payments) for the period beginning on the day after the required payment date and ending on the date on which payment is made.".

(d) EFFECTIVE DATE.—

(1) Except as provided in paragraph (2), the amendments made by this section shall apply to claims received on or after October 1, 1986.

(2) The amendments made by paragraphs (2) and (3) of subsection (c) shall apply to claims received on or after April 1, 1987.

(3) The Secretary of Health and Human Services shall provide for such timely amendments to agreements under section 1816 of the Social Security Act and contracts under section 1842 of such Act, and regulations, to such extent as may be necessary to implement the provisions of this Act on a timely basis.

SEC. 613. PAYMENTS FOR HOME HEALTH SERVICES.

(a) LIMITATIONS ON PAYMENT FOR HOME HEALTH SERVICES.—Section 1861(u)(1)(L) of the Social Security Act (42 U.S.C. 1395x(u)(1)(L)) is amended—

(1) by inserting "(i)" after "(L)", and

(2) by striking "the 75th percentile" and all that follows through "as the Secretary may determine." and inserting in lieu thereof "for cost reporting periods beginning on or after—

"(I) July 1, 1985, and before July 1, 1986, 120 percent,

"(II) July 1, 1986, and before July 1, 1987, 115 percent, or

"(III) July 1, 1987, 112 percent,

of the mean of the labor-related and nonlabor per visit costs for free standing home health agencies.

"(ii) Effective for cost reporting periods beginning on or after October 1, 1986, such limitations shall be applied on an aggregate basis for the agency, rather than on a discipline specific basis, with appropriate adjustment for administrative and general costs of hospital-based agencies.".

(b) GAO REPORT.—The Comptroller General shall study and report to Congress, not later than September 1, 1987, on the appropriateness of applying the per visit cost limits for home health services under the medicare program on a discipline-specific basis, rather than on an aggregate basis for all home health services furnished by an agency.

SEC. 614. MODIFICATION OF WAIVER OF LIABILITY AND APPEAL PROVISIONS RELATING TO HOME HEALTH SERVICES.

(a) WAIVER OF LIABILITY.—

(1) Section 1879 of the Social Security Act (42 U.S.C. 1395pp) is amended—

(A) in subsection (a)(1), by inserting "or by reason of a coverage denial described in subsection (f)" after "section 1862(a) (1) or (9)";

(B) in the first sentence of subsection (a), by inserting "and as though the coverage denial described in subsection (f) had not occurred" before the period at the end;

(C) in the third sentence, by inserting "or by reason of a coverage denial described in subsection (f)" after "section 1862(a) (1) or (9)";

(D) in subsection (c), by inserting "or by reason of a coverage denial described in subsection (f)" after "section 1862 (a)(1) or (a)(9)"; and

(E) by adding at the end the following new subsection:

"(f) The coverage denial described in this subsection is, with respect to the provision of home health services to an individual, a failure to meet the requirements of section 1814(a)(2)(C) or 1835(a)(2)(A) in that the individual—

"(1) is not or was not confined to his home, or

"(2) does not or did not need skilled nursing care on an intermittent basis.".

(2) Not later than July 1, 1987, the Secretary of Health and Human Services shall publish in the Federal Register final regulations specifying the criteria in effect on January 1, 1986, that were used in determining under sections 1814(a)(2)(C) and 1835(a)(2)(A) of the Social Security Act whether an individual—

(A) is or was confined to his home, and

(B) does or did need skilled nursing care on an intermittent basis.

(b) PERMITTING REVIEW OF TECHNICAL DENIALS.—Section 1869 of such Act (42 U.S.C. 1395ff) is amended—

(1) in subsection (a), by inserting ", the amount of benefits with respect to home health services under part B, and any other determination with respect to a claim for benefits under part A" after "part A,", and

(2) in subsection (b)(1)—

(A) by inserting ", or" at the end of subparagraph (C), and

(B) by inserting after subparagraph (C) the following new subparagraph:

"(D) any other denial (other than under part B of title XI) of a claim for benefits under part A or a claim for benefits with respect to home health services under part B,".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply to coverage denials occurring on or after July 1, 1987.

SEC. 615. PROVIDER REPRESENTATION OF BENEFICIARIES ON APPEALS.

(a) PERMITTING PROVIDER REPRESENTATION OF BENEFICIARIES.—Section 1869(b)(1) of the Social Security Act (42 U.S.C. 1395ff(b)(1)) is amended by adding at the end the following new sentence: "Sections 206(a), 1102, and 1871 shall not be construed as authorizing the Secretary to prohibit an individual from being represented under this subsection by a person that furnishes or supplies the individual, directly or indirectly, with services or items solely on the basis that the person furnishes or supplies the individual with such a service or item. No person that furnishes services or items to an individual and represents the individual under this subsection may impose any financial liability on such individual in connection with such representation.".

(b) TREATMENT OF COSTS OF UNSUCCESSFUL APPEAL.—Section 1861(v)(1) of such Act (42 U.S.C. 1395x(v)(1)), as amended by section 602 of this Act, is further amended by adding at the end the following new subparagraph:

"(S) In determining such reasonable cost, costs incurred by a provider of services representing a beneficiary in an unsuccessful appeal of a determination described in section 1869(b) shall not be allowable as reasonable costs.".

(c) EFFECTIVE DATE.—The amendments made by this section take effect on the date of the enactment of this Act.

SEC. 616. ESTABLISHMENT OF PATIENT OUTCOME ASSESSMENT PROJECT.

(a) IN GENERAL.—Section 1875 of the Social Security Act (42 U.S.C. 1395ll) is amended by adding at the end the following new subsection:

"(c)(1) The Secretary, through the Assistant Secretary for Planning and Evaluation, shall establish a patient outcome assessment project (in this subsection referred to as the 'project') to promote research with respect to patient outcomes of selected medical treatments and surgical procedures for the purpose of assessing their appropriateness, necessity, and effectiveness. The project shall include—

"(A) reorganization of data relating to claims under parts A and B of this title in a manner that facilitates research with respect to patient outcomes,

"(B) assessments of the appropriateness of admissions and discharges,

"(C) assessments of the extent of professional uncertainty regarding efficacy,

"(D) development of improved methods for measuring quality-of-life patient outcomes,

"(E) model evaluations of patient outcomes, and

"(F) evaluation of the effects on physicians' practice patterns of the dissemination to physicians and peer review organizations with contracts under part B of title XI of the findings of the research conducted under subparagraphs (B), (C), (D), and (E).

"(2) In selecting treatments and procedures to be studied, the Secretary shall give priority to those medical and surgical treatments and procedures—

"(A) for which data indicate a highly (or potentially highly) variable pattern of utilization among beneficiaries under this title in different geographic areas, and

"(B) which are significant (or potentially significant) for purposes of this title in terms of utilization by beneficiaries, length of hospitalization associated with the treatment or procedure, costs to the program, and risk involved to the beneficiary.

"(3) For purposes of carrying out the project, there shall be available from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund—

"(A) $6,000,000 for fiscal year 1987,

"(B) $5,500,000 for fiscal year 1988, and

"(C) $3,500,000 for fiscal year 1989.

One-half of the amount specified in subparagraph (A), (B), or (C) for a fiscal year shall be available from each such Trust Fund.

"(4) Not less than 90 percent of the amount appropriated for any fiscal year to carry out the project shall be used to fund grants to, and cooperative agreements with, non-Federal entities to conduct the activities described in paragraph (1). The remainder may be used by the Secretary to provide for such activities by Federal entities and for administrative costs.

"(5) The project shall be administered by the National Center for Health Services Research and Health Care Technology established under section 305 of the Public Health Service Act (in this subsection referred to as the 'Center'). The Center shall establish application procedures for grants

and cooperative agreements, and shall establish peer review panels to review all such applications and all research findings. The Center shall consult with the council on health care technology (established under a grant under section 309 of the Public Health Service Act) in establishing the scope and priorities for the project and shall report periodically to such council on the status of the activities conducted under the project.

"(6) The Secretary shall make available data derived from the programs under this title and other programs administered by the Secretary for use in the project.

"(7) The Center shall report to the Congress not later than 18 months after the date of the enactment of this Act, and annually thereafter, with respect to the findings under the project. In cooperation with appropriate medical specialty groups, the Center shall disseminate such findings as widely as possible, including disseminating such findings to each peer review organization which has a contract under part B of title XI.".

(b) PERMITTING SERVICES TO BE PROVIDED UNDER RESEARCH PROGRAM.—Section 1862(a)(1) of such Act (42 U.S.C. 1395y(a)(1)) is amended—

(1) by striking "and" at the end of subparagraph (C),

(2) by striking the semicolon at the end of subparagraph (D) and inserting ", and", and

(3) by adding at the end the following new subparagraph:

"(E) in the case of research conducted pursuant to section 1875(c), which is not reasonable and necessary to carry out the purposes of that section;".

PART 3—PROVISIONS RELATING TO PART B OF MEDICARE

SEC. 621. PAYMENTS FOR PHYSICIANS' SERVICES.

(a) PROCEDURES FOR ESTABLISHMENT OF SPECIAL LIMITS ON REASONABLE CHARGES.—

(1) Section 1842(b)(8) of the Social Security Act (42 U.S.C. 1395u(b)(8)) is amended—

(A) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively;

(B) by inserting "(A)" after "(8)"; and

(C) by adding at the end the following new subparagraph:

"(B)(i) The factors described pursuant to subparagraph (A)(i) with respect to payment for physicians' services shall include, but shall not be limited to, the following:

"(I) prevailing charges for a service in a particular locality are significantly in excess of or below prevailing charges in other comparable localities;

"(II) the programs established under this title and title XIX are the sole or primary sources of payment for a service;

"(III) the marketplace for a service is not truly competitive because of a limited number of physicians who perform that service;

"(IV) there have been increases in charges for a service that cannot be explained by inflation or technology;

"(V) the charges do not reflect changing technology, increased facility with that technology, or reductions in acquisition or production costs; or

"(VI) the prevailing charges for a service under this part are substantially higher than the payments made for the service by other purchasers in the same locality.

"(ii) The factors considered under subparagraph (A)(ii) shall take into account regional differences in fees, unless there is substantial economic justification for a uniform fee or a uniform payment limit. Such substantial economic justification must be explained by the Secretary in the notice and final determination required by paragraph (9).".

(2) Section 1842(b) of the Social Security Act (42 U.S.C. 1395u(b)) is amended by redesignating paragraph (9) as paragraph (10) and inserting after paragraph (8) the following new paragraph:

"(9)(A) In the case of any physicians' service with respect to which the Secretary—

"(i) determines that the application of this subsection results in the determination of a reasonable charge that, by reason of its grossly excessive or grossly deficient amount, is not inherently reasonable, and

"(ii) proposes to establish a reasonable charge that is realistic and equitable or a methodology for arriving at such a charge,

the Secretary shall publish notice of such proposal in the Federal Register.

"(B) A notice required by subparagraph (A) shall—

"(i) specify the charge or methodology proposed to be established with respect to a service and shall explain the factors and data that the Secretary took into account in determining the charge or methodology so specified, and

"(ii) evaluate the impact of the charge or methodology proposed to be established with respect to the service on accessibility of the service to individuals entitled to benefits under this part and on the amounts payable by such individuals with respect to such service,

"(C) After publication of the notice required by subparagraph (A), the Secretary shall allow not less than 60 days for public comment on the proposal.

"(D) In addition to carrying out its functions under section 1845, the Physician Payment Review Commission (hereafter in this paragraph referred to as the 'Commission') shall comment on any such proposal within the period of comment allowed by the Secretary pursuant to subparagraph (C).

"(E)(i) Taking into consideration the comments made by the Commission and the public, the Secretary shall publish in the Federal Register a final determination with respect to the reasonable charge or methodology to be established with respect to the service.

"(ii) A final determination published pursuant to clause (i) shall explain the factors and data that the Secretary took into consideration in making the final determination, and shall include and respond to the comments made by the Commission pursuant to subparagraph (D).".

(3) Not later than October 1, 1987, the Secretary of Health and Human Services (in this paragraph referred to as the "Secretary") shall review the inherent reasonableness of the reasonable charges for each of the ten most costly procedures with respect to which payment is made under part B of title XVIII of the Social Security Act (determined on the basis of the aggregate annual payments under such part with respect to each such procedure). The Secretary may review procedures in addition to the procedures with respect to which review is required under this paragraph.

(4) The amendments made by paragraphs (1) and (2) shall apply to regulations promulgated as final regulations after July 1, 1986.

(b) DEVELOPMENT AND USE OF HCFA COMMON PROCEDURE CODING SYSTEM.—

(1) Not later than July 1, 1987, the Secretary of Health and Human Services (hereafter in this subsection referred to as the "Secretary") shall consolidate the payment methodology under the HCFA Common Procedure Coding System to ensure that such methodology minimizes the possibility of overstating the intensity or volume of services provided.

(2) Not later than July 1, 1987, each carrier with which the Secretary has entered into a contract under section 1842 of the Social Security Act, and each fiscal intermediary which processes claims under part B of title XVIII of such Act, shall require hospital providers of outpatient hospital services to report services and claims using the HCFA Common Procedure Coding System for purposes of such part.

(3) Not later than January 1, 1988, each carrier with which the Secretary has entered into a contract under section 1842 of the Social Security Act, and each fiscal intermediary which processes claims under part B of title XVIII of such Act, shall report services and claims using the payment methodology based on the HCFA Common Procedure Coding System (as revised by the Secretary in accordance with paragraph (1)) for purposes of such part.

(c) RECOMMENDATIONS.—

(1) Section 1845(e) of the Social Security Act is amended by adding at the end thereof the following new paragraph:

"(4)(A) In making recommendations with respect to the application of the relative value scale for purposes of establishing a fee schedule, the Secretary shall—

"(i) develop and assess an appropriate index to be used for making adjustments to reflect justifiable differences in the costs of practice based upon geographic location without exacerbating the geographic maldistribution of physicians, and

"(ii) assess the advisability and feasibility of developing an appropriate adjustment to assist in attracting and retaining physicians in medically underserved areas.

"(B) In carrying out the requirements of subparagraph (A), the Secretary shall take into consideration the recommendations made by the Physician Payment Review Commission.

"(C)(i) The Secretary shall develop an interim index under subparagraph (A)(i) prior to July 1, 1987, based upon the most accurate and recent data that are available with respect to the costs of practice.

"(ii) The Secretary shall collect data with respect to the costs of practice (including, but not limited to, data on nonphysician personnel costs, malpractice insurance costs, and commercial rents) for the purpose of refining the index under subparagraph (A)(i) prior to December 31, 1989, and periodically updating the index thereafter.

"(D) In conjunction with developing an index under subparagraph (A), the Secretary shall conduct a study of the advisability of redefining the localities designated by carriers for payment purposes.".

(2) Section 1845(b)(3) of such Act is amended by inserting "and respecting the index and the adjustment described in subsection (e)(4)(A)" after "subsection (e)".

(3) Section 1845(e)(3) of such Act is amended—

(A) by striking "July 1, 1987" and inserting in lieu thereof "July 1, 1989", and

(B) by striking "on or after January 1, 1988" and inserting in lieu thereof "after December 31, 1989".

SEC. 622. MEDICARE ECONOMIC INDEX FOR PHYSICIANS' SERVICES.

(a) IMPLEMENTATION OF CERTAIN ADJUSTMENTS.—The adjustment to the medicare economic index for physicians' services pro-

posed by the Secretary of Health and Human Services (in this section referred to as the "Secretary") to take into account the substitution of a rental equivalence or rental substitution factor for the housing component of the consumer price index for periods prior to January 1, 1985, shall be made in two stages, with one-half of such adjustment to be made to the index to become effective January 1, 1987, and one-half of such adjustment to be made to the index to become effective January 1, 1988.

(b) NOTIFICATION OF CHANGES.—The Secretary shall publish notice of any proposed change in the methodology, basis, or elements of the medicare economic index for physicians' services in the Federal Register and shall allow not less than 60 days for public comment on the proposal. Taking into consideration the comments made by the public, the Secretary shall publish in the Federal Register a final determination with respect to such proposal.

(c) DEFINITION.—For purposes of this section, the term "medicare economic index for physicians' services" means the index used by the Secretary for purposes of the fourth sentence of section 1842(b)(3) of the Social Security Act (42 U.S.C. 1395u(b)(3)).

SEC. 623. END STAGE RENAL DISEASE PAYMENTS.

(a) MONTHLY CAPITATION PAYMENTS FOR PHYSICIANS' OUTPATIENT DIALYSIS SERVICES.—Not later than August 1, 1986, the Secretary of Health and Human Services shall implement the changes in the monthly capitation payments for physicians' outpatient maintenance dialysis services (and the methodology for computing such payments) set forth in the notice of July 2, 1986 (51 Fed. Reg. 24226-24231).

(b) PROSPECTIVE PAYMENTS FOR ESRD FACILITIES AND PROVIDERS.—

(1) The Secretary may not, during the period beginning with the publication of the proposed notice of May 13, 1986 (51 Fed. Reg. 17537-17549), and ending with (and including) September 30, 1986, reduce the prospective payment rates for outpatient dialysis services established under section 1881(b)(7) of the Social Security Act (42 U.S.C. 1395rr(b)(7)) below the rates that were in effect on the first day of such period.

(2)(A) Effective with respect to dialysis services provided on or after October 1, 1986, and before October 1, 1988, the Secretary shall reduce by $1.00 each of the prospective payment rates established under section 1881(b)(7) of such Act that were in effect during the period referred to in paragraph (1).

(B) The Secretary may not reduce further the payment rates under section 1881(b)(7) of such Act with respect to services for which the payment rates under such section are reduced in accordance with subparagraph (A).

(3) The Comptroller General shall—

(A) conduct a study of the appropriateness of—

(i) the prospective payment rates in effect during the period specified in paragraph (2), and

(ii) the rates proposed in the notice referred to in paragraph (1) (or any subsequent revision thereof); and

(B) submit a report to the Congress on the results of the study not later than September 30, 1987.

SEC. 624. PAYMENTS FOR AMBULATORY SURGERY.

(a) AMOUNTS PAYABLE; ANNUAL UPDATING.—

(1)(A) Section 1833(a)(4) of the Social Security Act (42 U.S.C. 1395l(a)(4)) is amended to read as follows:

"(4) in the case of facility services described in section 1832(a)(2)(F), and outpatient hospital services furnished in connection with surgical procedures specified by the Secretary pursuant to section 1833(i)(1)(A), the applicable amount as determined under paragraph (2) or (3) of subsection (i).".

(B) Section 1833(i) of such Act (42 U.S.C. 1395l(i)) is amended by redesignating paragraphs (3) and (4) as paragraphs (4) and (5), respectively, and inserting after paragraph (2) the following new paragraph:

"(3)(A) The amount of the payment to be made under this part for outpatient hospital services furnished in connection with a surgical procedure specified under paragraph (1)(A) shall be equal to the lesser of—

"(i) the amount determined with respect to such services under subsection (a)(2)(B); or

"(ii) 80 percent of the standard overhead amount payable with respect to the same surgical procedure when provided in an ambulatory surgical center in the same area, as determined under paragraph (2)(A).

"(B)(i) In the case of outpatient hospital services for which the amount of the payment to be made under this part is the amount determined under clause (ii) of subparagraph (A), the payments specified in clauses (ii) and (iii) of this subparagraph shall be in addition to such amount.

"(ii) With respect to costs incurred in cost reporting periods beginning before October 1, 1987, payment shall be made with respect to the costs of anesthesia services provided by a certified registered nurse anesthetist in the same manner as such payments are made with respect to outpatient hospital services to which this subsection does not apply.

"(iii) Payment with respect to the direct costs of graduate medical education shall be made in the manner specified in section 1886(h).".

(2)(A) Subparagraphs (A) and (B) of section 1833(i)(2) of such Act are each amended by striking "shall be reviewed periodically" and inserting in lieu thereof "shall be reviewed and updated not later than July 1, 1987, and annually thereafter".

(B) Section 1833(i)(1) of such Act is amended by adding at the end (after and below subparagraph (B)) the following:

"The lists of procedures established under subparagraphs (A) and (B) shall be reviewed and updated not less often than annually.".

(3)(A) Section 1833(a)(1)(F) of such Act is amended by striking "subsection (i)(3)" and inserting in lieu thereof "subsection (i)(4)".

(B) Section 1833(b)(3) of such Act is amended by striking "or (i)(4)" and inserting in lieu thereof "or (i)(5)".

(b) FACILITY SERVICES TO INCLUDE RELATED SERVICES.—

(1) Section 1833(i) of the Social Security Act (42 U.S.C. 1395l(i)), as amended by subsection (a), is further amended by adding at the end the following new paragraph:

"(6) For purposes of this section, 'facility services' and 'outpatient hospital services' shall include all medical and other health services (as defined in section 1861(s)) which are furnished in connection with a surgical procedure specified under paragraph (1), other than the physicians' services.".

(2)(A) Section 1832(a)(2)(F) of such Act (42 U.S.C. 1395k(a)(2)(F)) is amended by striking "services (including all pre- and post-operative services) described in paragraphs (1) and (2)(A) of section 1861(s) and" and inserting in lieu thereof "physicians' services and facility services, including all preoperative and postoperative services,".

(B) Section 1833(i)(4) (as redesignated by subsection (a)(1)(B)) is amended by striking all beginning with "services (including" through "1861(s) and" and inserting in lieu thereof "physicians' services".

(C) Section 1833(i)(5)(A) of such Act (as so redesignated) is amended by striking "and with respect to all related services (including physicians' services, laboratory, X-ray, and diagnostic services)" and inserting in lieu thereof "and the physicians' services".

(c) PRO REVIEW.—

(1) Section 1154(a)(1) of the Social Security Act (42 U.S.C. 1320c-3(a)(1)) is amended by inserting "and subject to the requirements of subsection (d)" after "subject to the terms of the contract".

(2) Section 1154 of such Act is amended by adding at the end the following new subsection:

"(d) Each contract under this part shall require that the utilization and quality control peer review organization's review responsibility pursuant to subsection (a)(1) will include review of all ambulatory surgical procedures specified pursuant to section 1833(i)(1)(A) which are performed in the area, or, at the discretion of the Secretary (and except as provided in section 1164(b)(4)) a sample of each such procedure.".

(d) COINSURANCE AND DEDUCTIBLE TO APPLY WITHOUT REGARD TO SETTING OF AMBULATORY SURGERY.—

(1) Clauses (i) and (ii) of section 1832(a)(2)(F) of the Social Security Act (42 U.S.C. 1395k(a)(2)(F)) are each amended by inserting "standard overhead" before "amount".

(2)(A) Section 1833(b) of such Act (42 U.S.C. 1395l(b)) is amended by striking paragraph (3) and redesignating paragraphs (4) and (5) as paragraphs (3) and (4).

(B) Subparagraphs (A) and (B) of section 1833(i)(2) of such Act are each amended by inserting "80 percent of" before "a standard overhead amount".

(e) DEVELOPMENT OF PROSPECTIVE PAYMENT METHODOLOGY FOR OUTPATIENT HOSPITAL SERVICES.—Section 1135 of the Social Security Act (42 U.S.C. 1320b-5) is amended by adding at the end the following new subsection:

"(d) The Secretary shall—

"(1) develop—

"(A) groupings of preoperative and postoperative services that are related to each surgical procedure appropriately performed in a hospital outpatient department, and

"(B) a model system for the payment of hospitals for outpatient hospital services on a prospective basis that may be applied for reimbursement of hospitals under part B of title XVIII; and

"(2) report to the Congress on the groupings and system developed pursuant to paragraph (1) not later than January 1, 1991.".

(f) STUDY AND REPORT.—The Secretary of Health and Human Services shall conduct a study on educational activities in hospital outpatient settings and report the results of the study to the Congress not later than two years after the date of the enactment of this Act, together with recommendations with respect to proper payment for graduate medical education (GME) related to outpatient hospital services.

(g) EFFECTIVE DATES.—

(1) The amendments made by subsection (a)(1) shall apply to services furnished in cost reporting periods beginning on or after July 1, 1987.

(2) The amendments made by subsections (b) and (d) shall apply to services furnished after June 30, 1987.

(3) The amendments made by subsection (c) shall apply to contracts entered into or renewed after January 1, 1987.

SEC. 625. OCCUPATIONAL THERAPY SERVICES.

(a) COVERAGE.—Subparagraph (C) of section 1832(a)(2) of the Social Security Act (42 U.S.C. 1395k(a)(2)) is amended to read as follows:

"(C) outpatient physical therapy services (other than services to which the second sentence of section 1861(p) applies) and outpatient occupational therapy services (other than services to which such sentence applies through the operation of section 1861(g));".

(b) LIMITATION ON PAYMENTS.—Section 1833(g) of such Act (42 U.S.C. 1395l(g)) is amended—

(1) by striking "next to last sentence" and inserting in lieu thereof "second sentence", and

(2) by adding at the end the following new sentence: "In the case of outpatient occupational therapy services which are described in the second sentence of section 1861(p) through the operation of section 1861(g), with respect to expenses incurred in any calendar year, no more than $500 shall be considered as incurred expenses for purposes of subsections (a) and (b).".

(c) CERTIFICATION STANDARD.—

(1) Section 1835(a)(2)(C) of such Act (42 U.S.C. 1395n(a)(2)(C)) is amended—

(A) by inserting "or outpatient occupational therapy services" after "outpatient physical therapy services",

(B) in clause (i), by inserting "or occupational therapy services, respectively," after "physical therapy services", and

(C) in clause (ii), by inserting "or qualified occupational therapist, respectively," after "qualified physical therapist".

(2) The second sentence of section 1835(a) of such Act and section 1866(e) of such Act (42 U.S.C. 1395n(a), 1395cc(e)) are each amended—

(A) by inserting "(or meets the requirements of such section through the operation of section 1861(g))" after "1861(p)(4)(A)" and after "1861(p)(4)(B)", and

(B) by inserting "or (through the operation of section 1861(g)) with respect to the furnishing of outpatient occupational therapy services" after "(as therein defined)".

(d) DEFINITION AND INCLUSION WITH OTHER PART B SERVICES.—

(1) Section 1861 of the Social Security Act (42 U.S.C. 1395x) is amended by inserting after subsection (f) the following new subsection:

"OUTPATIENT OCCUPATIONAL THERAPY SERVICES

"(g) The term 'outpatient occupational therapy services' has the meaning given the term 'outpatient physical therapy services' in subsection (p), except that 'occupational' shall be substituted for 'physical' each place it appears therein.".

(2) Section 1861(s)(2)(D) of such Act (42 U.S.C. 1395x(s)(2)(D)) is amended by inserting "and outpatient occupational therapy services" after "outpatient physical therapy services".

(3) Section 1861(v)(5)(A) of such Act (42 U.S.C. 1395x(v)(5)(A)) is amended by inserting "(including through the operation of section 1861(g))" after "section 1861(p)".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to expenses incurred for outpatient occupational therapy services furnished on or after October 1, 1986.

PART 4—PEER REVIEW ORGANIZATIONS

SEC. 631. PRO REVIEW OF HOSPITAL DENIAL NOTICES.

(a) IN GENERAL.—Section 1154 of the Social Security Act (42 U.S.C. 1320c-3) is amended by adding at the end the following new subsection:

"(d)(1) If—

"(A) a hospital has determined that a patient no longer requires inpatient hospital care, and

"(B) the attending physician has agreed with the hospital's determination,

the hospital may provide the patient (or the patient's representative) with a notice (meeting conditions prescribed by the Secretary under section 1879) of the determination that inpatient hospital services are no longer medically necessary.

"(2) If—

"(A) a hospital has determined that a patient no longer requires inpatient hospital care, but

"(B) the attending physician has not agreed with the hospital's determination,

the hospital may request the appropriate peer review organization to review under subsection (a) the validity of the hospital's determination.

"(3) If a patient (or a patient's representative)—

"(A) has received a notice under paragraph (1), and

"(B) while the patient is still an inpatient in the hospital, requests the appropriate peer review organization to review the determination,

then, the organization shall conduct a review under subsection (a) of the validity of the hospital's determination and shall provide notice (by telephone and in writing) to the patient or representative of the results of the review not later than 2 calendar days after the date the organization receives the request. Such review shall be conducted regardless of whether or not the hospital will charge for continued hospital care or the patient will be liable for payment for such continued care.

"(4) If—

"(A) a request is made under paragraph (3) not later than 1 day after the date the patient (or patient's representative) receives the notice under paragraph (1), and

"(B) the conditions described in section 1879(a)(2) with respect to the patient or representative are met,

the hospital may not charge the patient for inpatient hospital services furnished on a day before the fourth day that begins after the date of receipt of the notice under paragraph (1).

"(5) In any review conducted under paragraph (2) or (3), the organization shall solicit the views of the patient involved (or the patient's representative).".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to denial notices furnished by hospitals to individuals on and after the first day of the first month that begins more than 30 days after the date of the enactment of this Act.

SEC. 632. PRO REVIEW OF INPATIENT HOSPITAL SERVICES AND READMISSIONS.

(a) TIMELY PROVISION OF HOSPITAL INFORMATION.—Section 1153 of the Social Security Act (42 U.S.C. 1320c-2) is amended by adding at the end the following new subsection:

"(g) The Secretary shall provide that fiscal intermediaries furnish to peer review organizations, each month on a timely basis, data necessary to initiate the review process under section 1154(a) on a timely basis. If the Secretary determines that a fiscal intermediary is unable to furnish such data on a timely basis, the Secretary shall require the hospital to do so.".

(b) REQUIRING REVIEW OF EARLY READMISSION CASES.—Section 1154(a) of such Act (42 U.S.C. 1320c-3(a)) is amended by adding at the end the following new paragraph:

"(13) Notwithstanding paragraph (4), the organization shall perform the review described in paragraph (1) with respect to early readmission cases to determine if the previous inpatient hospital services and the post-hospital services met professionally recognized standards of health care. Such reviews may be performed on a sample basis if the organization and the Secretary determine it to be appropriate. In this paragraph, an 'early readmission case' is a case in which an individual, after discharge from a hospital, is readmitted to a hospital less than 31 days after the date of the most recent previous discharge.".

(c) EFFECTIVE DATES.—

(1) The Secretary shall implement the amendment made by subsection (a) not later than 6 months after the date of the enactment of this Act.

(2) The amendment made by subsection (b) shall apply to contracts entered into or renewed on or after January 1, 1987.

SEC. 633. PRO REVIEW OF QUALITY OF CARE.

(a) ALLOCATION OF FUNDS FOR QUALITY CARE REVIEW.—

(1) Section 1154(a)(4) of the Social Security Act (42 U.S.C. 1320c-3(a)(4)) is amended by adding at the end the following: "Each peer review organization shall provide that a reasonable proportion of its activities are involved with reviewing, under paragraph (1)(B), the quality of services and that a reasonable allocation of such activities is made among the different cases and settings (including post-acute-care settings, ambulatory settings, and health maintenance organizations) for which potential problems of quality have been identified.".

(2) Section 1154 of such Act (42 U.S.C. 1320c-3), as amended by section 631 of this Act is amended by adding at the end the following new subsection:

"(e) The Secretary, in consultation with appropriate experts, shall identify methods that would be available to assist peer review organizations (under subsection (a)(4)) in identifying those cases which are more likely than others to be associated with a quality of services which does not meet professionally recognized standards of health care.".

(3)(A) The amendment made by paragraph (1) shall apply to contracts entered into or renewed on or after January 1, 1987.

(B) The amendment made by the paragraph (2) shall become effective on the date of the enactment of this Act.

(b) APPROPRIATE INVESTIGATION OF COMPLAINTS REQUIRED.—

(1) Section 1154(a) of the Social Security Act (42 U.S.C. 1320c-3(a)), as amended by section 632 of this Act, is further amended by adding at the end the following new paragraph:

"(14) The organization shall conduct an appropriate review of all written complaints about the quality of services (for which payment may otherwise be made under title XVIII) not meeting professionally recognized standards of health care, if the complaint is filed with the organization by a individual entitled to benefits for such services under such title (or a person acting on the individual's behalf). The fact that such

a complaint is made and the name of the complainant shall be treated as confidential. The organization shall inform the individual (or representative) that the organization has received the complaint and will take appropriate action.".

(2) The amendment made by paragraph (1) shall apply to complaints received on or after the first day of the first month that begins at least 9 months after the date of the enactment of this Act.

(c) SHARING OF INFORMATION BY PROs.—

(1) Section 1160(b)(1) of the Social Security Act (42 U.S.C. 1320c-9(b)(1)) is amended—

(A) in subparagraph (C), by striking "is required" and inserting "are required",

(B) by striking "and" at the end of subparagraph (B), and

(C) by adding at the end the following new subparagraph:

"(D) to assist—

"(i) national accreditation bodies which are acting, pursuant to section 1865, in accrediting providers for purposes of meeting the conditions described in provisions in title XVIII, and

"(ii) State licensing authorities having responsibility for assuring the qualifications of providers or practitioners,

which data and information shall be provided by the peer review organization to any such body upon request relating to a specific provider or practitioner, but only to the extent that such data and information are related to the quality of care furnished by a provider or practitioner and only if the peer review organization determines that the data and information may reflect a failure in a substantial number of cases or a gross and flagrant failure in one or more instances to provide services of a quality which meets professionally recognized standards of health care, and that the data and information are needed by the body in carrying out official duties;".

(2) The amendments made by paragraph (1) shall apply to requests for data and information made on and after the end of the 6-month period beginning on the date of the enactment of this Act.

Subtitle B—Provisions Relating to the Medicaid Program

SEC. 641. OPTIONAL COVERAGE OF POOR PREGNANT WOMEN, INFANTS, AND CHILDREN.

(a) CREATION OF NEW OPTIONAL CATEGORICALLY NEEDY GROUP.—Section 1902(a)(10)(A)(ii) of the Social Security Act (42 U.S.C. 1396a(a)(10)(A)(ii)) is amended—

(1) by striking ", or" at the end of subclause (VII) and inserting a semicolon,

(2) by inserting "or" at the end of subclause (VIII), and

(3) by adding at the end the following new subclause:

"(IX) subject to subsection (h)(4), who are described in subsection (h)(1);".

(b) DESCRIPTION OF GROUP.—Section 1902 of such Act is amended by inserting after subsection (g) the following new subsection:

"(h)(1) Individuals described in this paragraph are—

"(A) women during pregnancy (and during the 60-day period following pregnancy),

"(B) infants under one year of age,

"(C) children who have attained one year of age but have not attained two years of age,

"(D) children who have attained two years of age but have not attained three years of age,

"(E) children who have attained three years of age but have not attained four years of age, and

"(F) children who have attained four years of age but have not yet attained five years of age,

who are not described in subsection (a)(10)(A)(i), whose family income does not exceed the maximum income level established by the State under paragraph (2) for a family size equal to the size of the family.

"(2) For purposes of paragraph (1), the State shall establish a maximum income level which is not more than 100 percent of the nonfarm income official poverty line defined by the Office of Management and Budget (and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

"(3) Notwithstanding subsection (a)(17), for individuals who are eligible for medical assistance because of subsection (a)(10)(A)(ii)(IX)—

"(A) application of a resource standard shall be at the option of the State,

"(B) the resource standard and methodology (if any) to be applied shall be—

"(i) the resource standard and methodology that is applied under the State plan under part A of title IV,

"(ii) the resource standard and methodology that is applied under title XVI or under subsection (f), or

"(iii) the resource standard and methodology that is applied under subsection (a)(10)(C)(i)(III);

"(C) the income standard to be applied is the income standard established under paragraph (2), and

"(D) family income shall be determined in accordance with the methodology employed under the State plan under part A or E of title IV, and costs incurred for medical care or for any other type of remedial care shall not be taken into account.

Any different treatment provided under this paragraph for such individuals shall not, because of subsection (a)(17), require or permit such treatment for other individuals.

"(4)(A) A State plan may not elect the option of furnishing medical assistance to individuals described in subsection (a)(10)(A)(ii)(IX) unless the State has in effect, under its plan established under part A of title IV, payment levels that are not less than the payment levels in effect under its plan on the date of the enactment of this subsection.

"(B)(i) A State may not elect, under subsection (a)(10)(A)(ii)(IX), to cover only individuals described in paragraph (1)(A) or to cover only individuals described in paragraph (1)(B).

"(ii) A State may not elect, under subsection (a)(10)(A)(ii)(IX), to cover individuals described in subparagraph (C), (D), (E), or (F) of paragraph (1) unless the State has elected, under such subsection, to cover individuals described in the preceding subparagraphs of such paragraph.".

(c) LIMITED BENEFITS FOR NEWLY ELIGIBLE PREGNANT WOMEN.—Section 1902(a)(10) of such Act (42 U.S.C. 1396a(a)(10)) is amended, in the matter after subparagraph (D)—

(1) by striking "and" before "(VI)" and inserting a comma, and

(2) by inserting before the semicolon at the end the following: ", and (VII) the medical assistance made available to an individual described in subsection (h)(1)(A) who is eligible for medical assistance only because of subparagraph (A)(ii)(IX) shall be limited to medical assistance for services related to pregnancy (including prenatal, delivery, and postpartum services) and to other conditions which may complicate pregnancy".

(d) CONTINUATION OF MEDICAL ASSISTANCE FOR CERTAIN PREGNANT WOMEN DURING PREGNANCY AND FOR CERTAIN INFANTS AND CHILDREN RECEIVING INPATIENT SERVICES.—Section 1902(e) of such Act (42 U.S.C. 1396a(e)) is amended by adding at the end the following new paragraphs:

"(6) At the option of a State, if a State plan provides medical assistance for individuals under subsection (a)(10)(A)(ii)(IX), the plan may provide that any woman described in such subsection and subsection (h)(1)(A) shall continue to be treated as an individual described in subsection (a)(10)(A)(ii)(IX) without regard to any change in income of the family of which she is a member until the end of the 60-day period beginning on the last day of her pregnancy.

"(7) If a State plan provides medical assistance for individuals under subsection (a)(10)(A)(ii)(IX), in the case of an infant or child described in subparagraph (B), (C), (D), (E), or (F) of subsection (h)(1)—

"(A) who is receiving inpatient services for which medical assistance is provided on the date the infant or child attains the maximum age with respect to which coverage is provided under the State plan for such individuals, and

"(B) who, but for attaining such age, would remain eligible for medical assistance under such subsection,

the infant or child shall continue to be treated as an individual described in subsection (a)(10)(A)(ii)(IX) and subsection (h)(1) until the end of the stay for which the inpatient services are furnished.".

(e) CONFORMING AMENDMENTS.—

(1) Section 1902(a)(17) of such Act (42 U.S.C. 1396(a)(17)) is amended by inserting "except as provided in subsection (h)(3)," after "(17)".

(2) Section 1903(f)(4) of such Act (42 U.S.C. 1396b(f)(4)) is amended by inserting "for any individual described in section 1902(a)(10)(A)(ii)(IX) or" after "as medical assistance".

(f) EFFECTIVE DATES.—

(1) Except as provided in paragraph (2), the amendments made by this section shall apply to medical assistance furnished in calendar quarters beginning on or after April 1, 1987, without regard to whether or not final regulations to carry out such amendments have been promulgated by such date.

(2)(A) Subparagraph (C) of section 1902(h)(1) of the Social Security Act, as added by subsection (b) of this section, shall apply to medical assistance furnished in calendar quarters beginning on or after October 1, 1987.

(B) Subparagraph (D) of section 1902(h)(1) of the Social Security Act, as added by subsection (b) of this section, shall apply to medical assistance furnished in calendar quarters beginning on or after October 1, 1988.

(C) Subparagraph (E) of section 1902(h)(1) of the Social Security Act, as added by subsection (b) of this section, shall apply to medical assistance furnished in calendar quarters beginning on or after October 1, 1989.

(D) Subparagraph (F) of section 1902(h)(1) of the Social Security Act, as added by subsection (b) of this section, shall apply to medical assistance furnished in calendar quarters beginning on or after October 1, 1990.

SEC. 642. OPTIONAL COVERAGE OF ELDERLY AND DISABLED POOR AND OF POOR MEDICARE BENEFICIARIES.

(a) OPTIONAL COVERAGE OF ELDERLY AND DISABLED POOR FOR ALL MEDICAID BENEFITS.—

(1)(A) Subsection (a)(10)(A)(ii) of section 1902 of the Social Security Act (42 U.S.C. 1396a), as amended by section 641 of this Act, is further amended—

(i) by striking "or" at the end of subclause (VIII),

(ii) by striking the semicolon at the end of subclause (IX) and inserting ", or", and

(iii) by adding at the end the following new subclause:

"(X) subject to subsection (l)(3), who are described in subsection (l)(1);".

(B) Section 1902 of such Act is further amended by adding at the end the following new subsection:

"(l)(1) Individuals described in this paragraph are individuals—

"(A) who are 65 years of age or older or are disabled individuals (as determined under section 1614(a)(3)),

"(B) whose income (as determined under section 1612 for purposes of the supplemental security income program) does not exceed an income level established by the State consistent with paragraph (2)(A), and

"(C) whose resources (as determined under section 1613 for purposes of the supplemental security income program) do not exceed (except as provided in paragraph (2)(B)) the maximum amount of resources that an individual may have and obtain benefits under that program.

"(2)(A) The income level established under paragraph (1)(B) may not exceed 100 percent of the nonfarm official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

"(B) In the case of a State that provides medical assistance to individuals not described in section 1902(a)(10)(A) and at the State's option, the State may use under paragraph (1)(C) such resource level (which is higher than the level described in that paragraph) as may be applicable with respect to individuals described in paragraph (1)(A) who are not described in section 1902(a)(10)(A).".

(2) Section 1902(l) of such Act, as added by subsection (a), is further amended by adding at the end the following new paragraphs:

"(3) A State plan may not provide coverage for individuals under subsection (a)(10)(A)(ii)(X) unless the plan provides coverage of some or all of the individuals described in subsection (h)(1).

"(4) Notwithstanding subsection (a)(17), for individuals described in paragraph (1) who are covered under the State plan by virtue of subsection (a)(10)(A)(ii)(X)—

"(A) the income standard to be applied is the income standard described in paragraph (1)(B), and

"(B) except as provided in section 1612(b)(4)(B)(ii), costs incurred for medical care or for any other type of remedial care shall not be taken into account in determining income.

Any different treatment provided under this paragraph for such individuals shall not, because of subsection (a)(17), require or permit such treatment for other individuals.".

(3) The amendments made by this subsection shall apply to payments to States for calendar quarters beginning on or after July 1, 1987, without regard to whether or not final regulations to carry out such amendments have been promulgated by such date.

(b) OPTIONAL COVERAGE OF QUALIFIED MEDICARE BENEFICIARIES FOR MEDICARE COST-SHARING.—

(1) Section 1902(a)(10) of such Act (42 U.S.C. 1396a(a)(10)) is amended—

(A) by striking "and" at the end of subparagraph (C),

(B) by inserting "and" at the end of subparagraph (D), and

(C) by inserting after subparagraph (D) the following new subparagraph:

"(E) at the option of a State but subject to subsection (l)(3), for making medical assistance available for medicare cost-sharing (as defined in section 1905(o)(3)) for qualified medicare beneficiaries described in section 1905(o)(1);".

(2) Section 1905 of such Act (42 U.S.C. 1396d) is amended by adding at the end the following new subsection:

"(o)(1) The term 'qualified medicare beneficiary' means an individual—

"(A) who is entitled to hospital insurance benefits under part A of title XVIII (including an individual entitled to such benefits pursuant to an enrollment under section 1818),

"(B) who, but for section 1902(a)(10)(E) and the election of the State, is not eligible for medical assistance under the plan,

"(C) whose income (as determined under section 1612 for purposes of the supplemental security income program) does not exceed an income level established by the State consistent with paragraph (2)(A), and

"(D) whose resources (as determined under section 1613 for purposes of the supplemental security income program) do not exceed (except as provided in paragraph (2)(B)) the maximum amount of resources that an individual may have and obtain benefits under that program.

"(2)(A) The income level established under paragraph (1)(C) may not exceed 100 percent of the nonfarm official poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981) applicable to a family of the size involved.

"(B) In the case of a State that provides medical assistance to individuals not described in section 1902(a)(10)(A) and at the State's option, the State may use under paragraph (1)(D) such resource level (which is higher than the level described in that paragraph) as may be applicable with respect to individuals described in paragraph (1)(A) who are not described in section 1902(a)(10)(A).".

(3)(A) Section 1902(l) of such Act, as added by subsection (a), is amended—

(i) in paragraph (3), by inserting "or coverage under subsection (a)(10)(E)" after "subsection (a)(10)(A)(ii)(X)", and

(ii) by adding at the end the following new paragraph:

"(5) Notwithstanding subsection (a)(17), for qualified medicare beneficiaries described in section 1905(o)(1)—

"(A) the income standard to be applied is the income standard described in section 1905(o)(1)(C), and

"(B) except as provided in section 1612(b)(4)(B)(ii), costs incurred for medical care or for any other type of remedial care shall not be taken into account in determining income.

Any different treatment provided under this paragraph for such individuals shall not, because of subsection (a)(17), require or permit such treatment for other individuals.".

(B) Section 1902(e) of such Act, as amended by section 641 of this Act, is further amended by adding at the end the following new paragraph:

"(8) If an individual is determined to be a qualified medicare beneficiary (as defined in section 1905(o)(1)), such determination shall apply to services furnished after the end of the month in which the determination first occurs. For purposes of payment to a State under section 1903(a), such determination shall be considered to be valid for an individual for a period of 12 months, except that a State may provide for such determinations more frequently, but not more frequently than once every 6 months for an individual.".

(4) Section 1902(a)(10) of the Social Security Act (42 U.S.C. 1395a(a)(10)), as amended by paragraph (1) of this subsection and by section 641 of this Act, is further amended, in the matter after subparagraph (E)—

(A) by striking "and" before "(VII)" and inserting a comma, and

(B) by inserting before the semicolon at the end the following: ", and (VIII) the medical assistance made available to a qualified medicare beneficiary described in section 1905(o)(1) shall be limited to medical assistance for medicare cost-sharing (described in section 1905(o)(3)), subject to the provisions of subsection (m) and section 1916(b)".

(5) Section 1905(o) of such Act, as added by paragraph (2) of this subsection, is further amended by adding at the end the following:

"(3) The term 'medicare cost-sharing' means the following costs incurred with respect to a qualified medicare beneficiary:

"(A) Premiums under part B and (if applicable) under section 1818.

"(B) Deductibles and coinsurance described in section 1813.

"(C) The annual deductible described in section 1833(b).

"(D) The difference between the amount that is paid under section 1833(a) and the amount that would be paid under such section if any reference to '80 percent' therein were deemed a reference to '100 percent'.

Such term also may include, at the option of a State, premiums for enrollment of a qualified medicare beneficiary with an eligible organization under section 1876.".

(6) Section 1902 of such Act, as amended by subsection (a), is further amended by adding at the end the following new subsection:

"(m) In the case of medical assistance furnished under this title for medicare cost-sharing respecting the furnishing of a service or item to a qualified medicare beneficiary, the State plan may provide payment in an amount with respect to the service or item that results in the sum of such payment amount and any amount of payment made under title XVIII with respect to the service or item exceeding the amount that is otherwise payable under the State plan for the item or service for eligible individuals who are not qualified medicare beneficiaries.".

(7)(A) Section 1902(a)(10)(C) of such Act (42 U.S.C. 1396a(a)(10)(C)) is amended, in the matter before clause (i), by inserting "or (E)" after "subparagraph (A)".

(B) Section 1903(a)(1) of such Act (42 U.S.C. 1396b(a)(1)) is amended—

(i) by inserting "deductible amounts under part A and" after "(including expenditures for",

(ii) by inserting "(and, in the case of qualified medicare beneficiaries described in section 1905(o)(1), part A)" after "premiums under part B", and

(iii) by striking "or (B)" and inserting "(B) are qualified medicare beneficiaries described in section 1905(o)(1), or (C)".

(C) Section 1905(a) of such Act (42 U.S.C. 1396d(a)) is amended, in the matter before subdivision (i), by inserting "or, in the case of a qualified medicare beneficiary described in section 1905(o)(1), if provided after the month in which the individual becomes such a beneficiary" after "makes application for assistance".

(D)(i) Section 1902(a)(15) of such Act (42 U.S.C. 1396a(a)(15)) is amended by inserting "are not qualified medicare beneficiaries (as defined in section 1905(o)(1)) but" after "older who".

(ii) Subsections (a) and (b) of section 1916 of such Act (42 U.S.C. 1396o) are each amended by striking "section 1902(a)(10)(A)" and inserting "subparagraph (A) or (E) of section 1902(a)(10)".

(8) The amendments made by this subsection shall apply to payments under title XIX of the Social Security Act for calendar quarters beginning on or after July 1, 1987, without regard to whether or not final regulations to carry out such amendments have been promulgated by such date.

SEC. 643. RESPIRATORY CARE SERVICES FOR VENTILATOR-DEPENDENT INDIVIDUALS.

(a) REQUIRED SERVICES.—Section 1902(e) of the Social Security Act (42 U.S.C. 1396b(e)), as amended by sections 641 and 642 of this Act, is further amended by adding at the end the following new paragraph:

"(9)(A) A State plan approved under this title must include as medical assistance respiratory care services for any individual who—

"(i) is medically dependent on a ventilator for life support at least six hours per day;

"(ii) has been so dependent for at least 30 consecutive days (or the maximum number of days authorized under the State plan, whichever is less) as an inpatient;

"(iii) but for the availability of respiratory care services, would require respiratory care as an inpatient in a hospital, skilled nursing facility, or intermediate care facility, and would be eligible to have payment made for such inpatient care under the State plan;

"(iv) has adequate social support services to be cared for at home; and

"(v) wishes to be cared for at home.

"(B) The requirements of subparagraph (A)(ii) may be satisfied by a continuous stay in one or more hospitals, skilled nursing facilities, or intermediate care facilities.

"(C) For purposes of this paragraph, respiratory care services means services provided on a part-time basis in the home of the individual by a respiratory therapist or other health care professional trained in respiratory therapy (as determined by the State), payment for which is not otherwise included within other items and services furnished to such individual as medical assistance under the plan.".

(b) WAIVER OF COMPARABILITY.—Section 1902(a)(10) of such Act (42 U.S.C. 1396a(a)(10)), as amended by sections 641 and 642 of this Act, is further amended, in the matter following subparagraph (E)—

(1) by striking "and" before "(VIII)" and inserting in lieu thereof a comma; and

(2) by inserting before the semicolon at the end thereof the following: ", and (IX) the making available of respiratory care services in accordance with subsection (e)(9) shall not, by reason of this paragraph (10), require the making available of such services, or the making available of such services of the same amount, duration, and scope, to any individuals not included under subsection (e)(9)(A), provided such services are made available (in the same amount, duration, and scope) to all individuals described in such subsection".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to services furnished on or after October 1, 1986.

SEC. 644. HOLD-HARMLESS PROVISION FOR CHANGE IN FEDERAL MEDICAL ASSISTANCE PERCENTAGE FOR PURPOSES OF MEDICAID PROGRAM.

(a) IN GENERAL.—Section 9528 of the Consolidated Omnibus Budget Reconciliation Act of 1985 is amended by adding at the end the following new subsection:

"(c) HOLD-HARMLESS PROVISION.—Notwithstanding subsection (b), for calendar quarters occurring during fiscal year 1987 and only for purposes of making payment to a State under section 1903 of the Social Security Act, the amendments made by subsection (a) shall not apply to a State if the effect of applying the amendments would be to reduce the amount of payment made to the State under that section.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall be effective as though it had been included in the Consolidated Omnibus Budget Reconciliation Act of 1985 at the time of its enactment.

SEC. 645. NEW JERSEY RESPITE CARE PILOT PROJECT.

(a) ESTABLISHMENT.—The Secretary of Health and Human Services (in this section referred to as the "Secretary") shall enter into an agreement with the State of New Jersey for the purpose of conducting a pilot project (in this section referred to as the project) under title XIX of the Social Security Act for providing respite care services for—

(1) elderly and disabled individuals eligible for benefits under such title, and

(2) other elderly and disabled individuals, for whom such services are not otherwise reasonably and actually available or provided, and who would be reasonably anticipated to require institutional care without the availability of such services.

(b) CONDITIONS.—The agreement with the Secretary under this section shall—

(1) provide that the project shall be administered by a State health services agency designated for such purpose by the Governor (which may be the State agency administering or responsible for the administration of the State plan for medical assistance under title XIX of the Social Security Act);

(2) provide that the agency designated shall, to the maximum extent feasible, arrange for coordinating its activities under the agreement with activities of other State agencies having related responsibilities;

(3) provide that respite care services provided under the project to individuals specified in subsection (a)(2) shall be available without regard to the income of the individual requiring such services, but that a reasonable fee will be charged (on a sliding-scale basis related to income) for services provided to individuals who have income (as determined in accordance with a methodology designated by the State) in excess of the income standard established by the State pursuant to section 1902(a)(10)(C)(i)(III) of the Social Security Act;

(4) provide that, in making respite care services available to individuals specified in subsection (a)(2), special priority will be given to individuals who would be eligible for benefits under title XIX of the Social Security Act upon institutionalization;

(5) provide for a system of continuing independent professional review by an appropriate panel, which is not affiliated with the entity providing the services involved, to assure that respite care services provided only to individuals reasonably determined to be in need of such services;

(6) provide for evaluation of the project and review of all agencies providing services under the project;

(7) submit periodic reports to the Secretary as he may require; and

(8) meet such other requirements as the Secretary may establish for the proper and efficient implementation of the project.

(c) DEFINITION.—For purposes of this section, the term "respite care services" shall include—

(1) short-term and intermittent—

(A) companion or sitter services (paid as well as volunteer),

(B) homemaker and personal-care services,

(C) adult day care,

(D) inpatient care, and

(E) emergency respite; and

(2) peer support and training for family caregivers.

(d) PAYMENTS.—The agreement under this section shall be entered into between the Secretary and the State agency designated by the Governor. Under such agreement the Secretary shall pay to the State, as an additional payment under section 1903 of the Social Security Act for each quarter, an amount equal to 50 percent of the reasonable costs incurred (less the Federal share of any related fees collected) by such State during such quarter in carrying out the project under this section. The Federal payment shall not exceed $1,000,000 for fiscal year 1987, and $2,000,000 for each of the fiscal years 1988, 1989, and 1990. No payments shall be made pursuant to this section for any fiscal year beginning after September 30, 1990.

(e) DURATION.—The project under this section shall be of a maximum duration of four years, plus an additional time period of up to six months for final evaluation and reporting.

(f) REPORTS.—The Secretary shall submit annual reports to the Congress evaluating the project carried out under this section, and shall submit a final report to the Congress not more than six months after receiving the final report from the State participating in such project.

(g) WAIVERS.—The Secretary shall and is hereby authorized to, waive such requirements, including formal solicitation and approval requirements, as will further the expeditious and effective implementation of this section.

SEC. 646. OPTIONAL PRESUMPTIVE ELIGIBILITY PERIOD FOR PREGNANT WOMEN.

(a) STATE OPTION.—Section 1902(a) of such Act (42 U.S.C. 1396a(a)) is amended—

(1) by striking "and" at the end of paragraph (45),

(2) by striking the period at the end of paragraph (46) and inserting in lieu thereof "; and", and

(3) by adding at the end the following:

"(47) at the option of the State, provide for making ambulatory prenatal care available to pregnant women during a presumptive eligibility period in accordance with section 1920.".

(b) PRESUMPTIVE ELIGIBILITY.—Title XIX of the Social Security Act is amended by redesignating section 1920 as section 1921 and inserting after section 1919 the following new section:

"PRESUMPTIVE ELIGIBILITY FOR PREGNANT WOMEN

"SEC. 1920. (a) A State plan approved under section 1902 may provide for making ambulatory prenatal care available to a pregnant woman during a presumptive eligibility period.

"(b) For purposes of this section—

"(1) the term 'presumptive eligibility period' means, with respect to a pregnant woman, the period that—

"(A) begins with the date on which a qualified provider determines, on the basis of preliminary information, that the family income of the woman does not exceed the applicable income level of eligibility under the State plan, and

"(B) ends with (and includes) the earlier of—

"(i) the day on which a determination is made with respect to the eligibility of the woman for medical assistance under the State plan, or

"(ii) the day that is 45 days after the date on which the provider makes the determination referred to in subparagraph (A); and

"(2) the term 'qualified provider' means any provider that—

"(A) is eligible for payments under a State plan approved under this title,

"(B) provides services of the type described in subparagraph (A) or (B) of section 1905(a)(2) or in section 1905(a)(9),

"(C) is determined by the State agency to be capable of making determinations of the type described in paragraph (1)(A), and

"(D)(i) receives funds under—

"(I) section 329 or section 330 of the Public Health Service Act, or

"(II) title V of this Act;

"(ii) participates in a program established under—

"(I) section 17 of the Child Nutrition Act of 1966, or

"(II) section 4(a) of the Agriculture and Consumer Protection Act of 1973; or

"(iii) participates in a State perinatal program.

"(c)(1) The State agency shall provide qualified providers with—

"(A) such forms as are necessary for a pregnant woman to make application for medical assistance under the State plan, and

"(B) information on how to assist such women in completing and filing such forms.

"(2) A qualified provider that determines under subsection (b)(1)(A) that a pregnant woman is presumptively eligible for medical assistance under a State plan shall—

"(A) notify the State agency of the determination within 5 working days after the date on which determination is made, and

"(B) inform the woman at the time the determination is made that she is required to make application for medical assistance under the State plan within 14 calendar days after the date on which the determination is made.

"(3) A pregnant woman who is determined by a qualified provider to be presumptively eligible for medical assistance under a State plan shall make application for medical assistance under such plan within 14 calendar days after the date on which the determination is made.

"(d) Notwithstanding any other provision of this title, ambulatory prenatal care that—

"(1) is furnished to a pregnant woman—

"(A) during a presumptive eligibility period,

"(B) by a qualified provider; and

"(2) is included in the care and services covered by a State plan;

shall be treated as medical assistance provided by such plan for purposes of section 1903.".

(c) CONFORMING CHANGE.—Section 1903(u)(1)(D) of such Act (42 U.S.C. 1396b(u)(1)(D)) is amended by adding at the end the following:

"(v) In determining the amount of erroneous excess payments, there shall not be included any erroneous payments made for ambulatory prenatal care provided during a presumptive eligibility period (as defined in section 1920(b)(1)).".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to ambulatory prenatal care furnished in calendar quarters beginning on or after April 1, 1987.

Subtitle C—Miscellaneous Provisions

SEC. 651. REQUIREMENT OF STATUTORILY PRESCRIBED PROCEDURE TO PROHIBIT RETROACTIVE MODIFICATION OF CHILD SUPPORT ARREARAGES.

(a) IN GENERAL.—Section 466(a) of the Social Security Act (42 U.S.C. 666(a)) is amended by inserting between paragraph (8) and the matter following paragraph (8), the following:

"(9) Procedures which insure that each obligation under any child support order, whether such order was issued in such State or in another State, is fully enforceable and entitled to full faith and credit on and after the date such obligation becomes due and is not subject to retroactive modification, except that such procedures may permit modification with respect to any period during which there is pending an active application for modification but only from the date that notice of such application has been given to the obligee and to the court or other entity which issued such order.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall be effective with respect to any State ninety days after the close of the first legislative session of such State which ends at least sixty days after the date of enactment of this Act.

SEC. 652. HOLD-HARMLESS PROVISION FOR CHANGE IN FEDERAL MEDICAL ASSISTANCE PERCENTAGE FOR PURPOSES OF AFDC PROGRAM.

(a) IN GENERAL.—Section 9528(c) of the Consolidated Omnibus Budget Reconciliation Act of 1985, as added by section 644 of this Act, is amended by striking "section 1903" and inserting in lieu thereof "sections 403 and 1903".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall be effective as though it had been included in the Consolidated Omnibus Budget Reconciliation Act of 1985 at the time of its enactment.

SEC. 653. REVENUE SHARING PAYMENTS.

Notwithstanding section 6702(b) of title 31, United States Code, the Secretary of the Treasury shall make the installment payment of revenue sharing funds under chapter 67 of such title that is otherwise required to be paid on or before October 5, 1986, by no later than September 30, 1986.

TITLE VI-A—COMMITTEE ON FINANCE: REVENUE PROVISIONS

TABLE OF CONTENTS

Sec. 661. Medicare coverage of, and application of hospital insurance tax to, all State and local government employees.
Sec. 662. Medicare coverage of, and application of hospital insurance tax to, all State and local government employees.
Sec. 663. Certain excise tax deposits accelerated.
Sec. 664. Increases in certain penalties.
Sec. 665. Appropriations for IRS enforcement.

SEC. 661. MEDICARE COVERAGE OF, AND APPLICATION OF HOSPITAL INSURANCE TAX TO, ALL STATE AND LOCAL GOVERNMENT EMPLOYEES.

(a) APPLICATION OF HOSPITAL INSURANCE TAX TO ALL STATE AND LOCAL GOVERNMENT EMPLOYEES.—

(1) IN GENERAL.—Paragraph (2) of section 3121(u) of the Internal Revenue Code of 1954 (relating to application of hospital insurance tax to Federal, State, and local employment) is amended by striking subparagraphs (C) and (D).

(2) CONFORMING AMENDMENT.—Subparagraph (A) of section 3121(u)(2) of such Code (relating to State and local employment) is amended by striking "subparagraphs (B) and (C)" and inserting in lieu thereof "subparagraph (B)".

(3) TECHNICAL AMENDMENT.—Clause (i) of section 3121(u)(2)(B) of such Code (relating to exception for certain services) is amended—

(A) by striking "or" at the end of subclause (III),

(B) by striking the period at the end of subclause (IV) and inserting in lieu thereof ", or", and

(C) by adding at the end thereof the following:

"(V) by an election official or election worker if the remuneration paid in a calendar year for such service is less than $100.".

(b) ENTITLEMENT TO HOSPITAL INSURANCE BENEFITS.—

(1) IN GENERAL.—Section 210(p) of the Social Security Act is amended by striking paragraphs (3) and (4).

(2) CONFORMING AMENDMENT.—Subparagraph (B) of section 210(p)(1) of such Act is amended by striking "paragraphs (2) and (3)" and inserting in lieu thereof "paragraph (2)".

(3) TECHNICAL AMENDMENT.—Paragraph (2) of section 210(p) of such Act is amended—

(A) by striking "or" at the end of subparagraph (C),

(B) by striking the period at the end of subparagraph (D) and inserting in lieu thereof ", or", and

(C) by inserting after subparagraph (D) and before the matter following such subparagraph the following new subparagraph:

"(E) by an election official or election worker if the remuneration paid in a calendar year for such service is less than $100.".

(c) TERMINATION OF OPTIONAL COVERAGE.—Subsection (v) of section 218 of the Social Security Act is repealed.

(d) EFFECTIVE DATES.—

(1) HOSPITAL INSURANCE TAXES.—Except as provided in paragraph (4), the amendments made by subsection (a) shall apply to service performed after April 30, 1987.

(2) MEDICARE COVERAGE.—

(A) IN GENERAL.—Except as provided in paragraph (4), the amendments made by subsection (b) shall take effect after April 30, 1987.

(B) TREATMENT OF CERTAIN DISABILITIES.—For purposes of establishing entitlement to hospital insurance benefits under part A of title XVIII of the Social Security Act pursuant to the amendments made by subsection (b) or the provisions of subsection (e), on

the basis of medicare qualified government employment (as defined in section 210(p)(1)(B) of such Act), no individual may be considered to be under a disability for any period beginning before May 1, 1987.

(3) TERMINATION OF OPTIONAL COVERAGE.—The amendment made by subsection (c) shall take effect after April 30, 1987.

(4) ELECTION WORKER EXCEPTION.—The amendments made by subsections (a)(3) and (b)(3) shall take effect as if included in the enactment of the Consolidated Omnibus Budget Reconciliation Act of 1985.

(e) TRANSITIONAL PROVISIONS.—

(1) IN GENERAL.—For purposes of sections 226, 226A, and 1811 of the Social Security Act, in the case of any individual who—

(A) performs service during May 1987 which constitutes medicare qualified government employment (as defined in section 210(p)(1)(B) of such Act), and

(B) performed service before May 1, 1987, which would constitute such medicare qualified government employment if performed after May 1, 1987,

such individual's State and local government employment performed before May 1, 1987, shall be considered to be "employment" (as defined for purposes of title II of such Act), but only for the purpose of providing the individual (or another person) with entitlement to hospital insurance benefits under part A of title XVIII of such Act.

(2) APPROPRIATIONS.—There are authorized to be appropriated to the Federal Hospital Insurance Trust Fund from time to time such sums as the Secretary of Health and Human Services deems necessary for any fiscal year, on account of—

(A) payments made or to be made during such fiscal year from such Trust Fund with respect to individuals who are entitled to benefits under title XVIII of the Social Security Act solely by reason of paragraph (1) of this subsection,

(B) the additional administrative expenses resulting or expected to result therefrom, and

(C) any loss in interest to such Trust Fund resulting from the payment of those amounts,

in order to place such Trust Fund in the same position at the end of such fiscal year as it would have been in if this subsection had not been enacted.

SEC. 662. DEPOSITS OF SOCIAL SECURITY CONTRIBUTIONS BY STATE AND LOCAL GOVERNMENT EMPLOYERS.

(a) RETURNS AND PAYMENTS.—(1) Subchapter C of chapter 21 of the Internal Revenue Code of 1954 is amended by redesignating section 3126 as section 3127, and by inserting after section 3125 the following new section:

"SEC. 3126. RETURN AND PAYMENT BY GOVERNMENTAL EMPLOYER.

"If the employer is a State or political subdivision thereof, or an agency or instrumentality of any one or more of the foregoing, the return of the amount deducted and withheld upon any wages under section 3101 and the amount of the tax imposed by section 3111 may be made by an officer or employee of such State or political subdivision or such agency or instrumentality, as the case may be, having control of the payment of such wages, or appropriately designated for that purpose.".

(2) The table of sections for subchapter C of chapter 21 of such Code is amended by striking out the last item and inserting in lieu thereof the following:

"Sec. 3126. Return and payment by governmental employer.
"Sec. 3127. Short title.".

(b) TREATMENT OF SERVICE UNDER SECTION 218 AGREEMENTS AS EMPLOYMENT PERFORMED BY EMPLOYEES.—

(1) SERVICE TREATED AS EMPLOYMENT.—(A) Section 3121(b)(7) of such Code is amended—

(i) by striking out "; or" at the end of subparagraph (C) and inserting in lieu thereof a comma;

(ii) by striking out the semicolon at the end of subparagraph (D) and inserting in lieu thereof ", or ", and

(iii) by adding after subparagraph (D) the following new subparagraph:

"(E) service included under an agreement entered into pursuant to section 218 of the Social Security Act;".

(B) Section 1402(b) of such Code is amended by striking out "under an agreement entered into pursuant to the provisions of section 218 of the Social Security Act (relating to coverage of State employees), or" in the flush sentence immediately following paragraph (2).

(2) INDIVIDUAL PERFORMING SERVICES TREATED AS EMPLOYEE.—(A) Section 3121(d) of such Code is amended by redesignating paragraph (3) as paragraph (4), and by inserting after paragraph (2) the following new paragraph:

"(3) any individual who performs services that are included under an agreement entered into pursuant to section 218 of the Social Security Act; or".

(B) Section 3306(i) of such Code is amended by striking out "subparagraphs (B) and (C) of paragraph (3)" and inserting in lieu thereof "paragraph (3) and subparagraphs (B) and (C) of paragraph (4)".

(c) CONFORMING AMENDMENTS IN SOCIAL SECURITY ACT.—(1) Subsections (e), (h), (i), (j), (q), (r), (s), and (t) of section 218 of the Social Security Act are repealed; and subsections (f), (g), (k), (l), (m), (n), (o), (p), and (u) of such section are redesignated as subsections (e), (f), (g), (h), (i), (j), (k), (l), and (m), respectively.

(2)(A) Section 205(c)(1)(D)(i) of such Act is amended by inserting "(as in effect prior to December 31, 1986)" after "section 218(e)".

(B) Section 205(c)(5)(F)(iii) of such Act is amended—

(i) by inserting "(as in effect prior to December 31, 1986)" after "section 218", and

(ii) by inserting "(as so in effect)" after "subsection (q) of such section".

(C) Section 218(d)(6) of such Act is amended—

(i) by striking out "subsection (f)" in subparagraph (A) and inserting in lieu thereof "subsection (e)", and

(ii) by striking out "subsection (f)(1)" in subparagraph (F) and inserting in lieu thereof "subsection (e)(1)".

(D) Section 218(d)(8)(D) of such Act is amended by striking out "subsection (p)" and inserting in lieu thereof "subsection (1)".

(E) Section 218(e)(1) of such Act (as redesignated by paragraph (1) of this subsection) is amended by striking out "Except as provided in subsection (e)(2), any agreement" and inserting in lieu thereof "Any agreement".

(F) Section 24(a)(2)(B) of such Act is amended by striking out "section 218(k)" and inserting in lieu thereof "section 218(g)".

(d) EFFECTIVE DATE.—The amendments made by this section are effective with respect to payments due with respect to wages paid after December 31, 1986, including wages paid after such date by a State (or political subdivision thereof) that modified its agreement pursuant to the provisions of section 218(e)(2) of the Social Security Act prior to the date of the enactment of this Act; except that in cases where, in accordance with the currently applicable schedule, deposits of taxes due under an agreement entered into pursuant to section 218 of the Social Security Act would be required within 3 days after the close of an eighth-monthly period, such 3-day requirement shall be changed to a 7-day requirement for wages paid prior to October 1, 1987, and to a 5-day requirement for wages paid after September 30, 1987, and prior to October 1, 1988. For wages paid prior to October 1, 1988, the deposit schedule for taxes imposed under sections 3101 and 3111 shall be determined separately from the deposit schedule for taxes withheld under section 3402 if the taxes imposed under sections 3101 and 3111 are due with respect to service included under an agreement entered into pursuant to section 218 of the Social Security Act.

SEC. 663. CERTAIN EXCISE TAX DEPOSITS ACCELERATED.

(a) TOBACCO.—Subsection (b) of section 5703 of the Internal Revenue Code of 1954 (relating to method of payment of tax) is amended by striking out paragraph (2) and inserting in lieu thereof the following new paragraph:

"(2) TIME FOR PAYMENT OF TAXES.—

"(A) IN GENERAL.—In the case of taxes on tobacco products and cigarette papers and tubes removed during any semimonthly period, the last day for the payment of such taxes shall be the 14th day after the last day of such semimonthly period.

"(B) SPECIAL RULE WHERE 14TH DAY FALLS ON SATURDAY, SUNDAY, OR HOLIDAY.—If, but for this subparagraph, the due date under paragraph (1) would fall on a Saturday, Sunday, or a Federal holiday, such due date shall be the immediately preceding day which is not a Saturday, Sunday, or such a holiday."

(b) DISTILLED SPIRITS.—Section 5061 of the Internal Revenue Code of 1954 (relating to method of collecting tax) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

"(e) TIME FOR PAYMENT OF TAXES ON DISTILLED SPIRITS.—

"(1) IN GENERAL.—If—

"(A) any tax is imposed on distilled spirits under this part, and

"(B) such distilled spirits are withdrawn under bond for deferred payment of tax or from bonded premises (including customs custody),

the last day for payment of such tax shall be the 14th day after the last day of the semimonthly period during which such withdrawal occurred.

"(2) EXCEPTION WHERE EARLIER PAYMENT REQUIRED.—Paragraph (1) shall not apply to any tax imposed on distilled spirits if the due date for the payment of such tax is earlier under subsection (b).

"(3) SPECIAL RULE WHERE 14TH DAY FALLS ON SATURDAY, SUNDAY, OR HOLIDAY.—If, but for this paragraph, the due date under paragraph (1) would fall on a Saturday, Sunday, or a Federal holiday, such due date shall be the immediately preceding day which is not a Saturday, Sunday, or such a holiday."

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to taxes paid

after September 30, 1986, for semimonthly periods ending on or after such date.

(2) SPECIAL RULE FOR SEMIMONTHLY PERIOD ENDING SEPTEMBER 15, 1986.—With respect to remittances for taxes imposed on tobacco products and cigarette papers and tubes under section 5701 of the Internal Revenue Code of 1954 for the semimonthly period ending on September 15, 1986, the last day for such remittances shall be October 14, 1986.

SEC. 664. INCREASES IN CERTAIN PENALTIES.

(a) AGGREGATE NEGLIGENCE AND SUBSTANTIAL UNDERSTATEMENT PENALTIES NOT TO BE LESS THAN 25 PERCENT.—

(1) IN GENERAL.—Subchapter A of chapter 68 of subtitle F (relating to additions to tax) is amended by redesignating section 6662 as section 6663 and by inserting after section 6661 the following new section:

"SEC. 6662. AGGREGATE PENALTY ON CERTAIN UNDERPAYMENTS NOT TO BE LESS THAN 25 PERCENT.

"(a) GENERAL RULE.—If there is a tax imposed under section 6653(a) or 6661, or both, on any portion of the underpayment or understatement, then there is hereby imposed a tax equal to the excess (if any) of—

"(1) 25 percent of the amount of such portion, over

"(2) the aggregate amount of taxes imposed under sections 6653(a) and 6661 on such portion.

"(b) DEFINITION.—For purposes of this section, the terms 'underpayment' and 'understatement' have the meanings given such terms by section 6653(c)(1) and 6661(b)(2), respectively."

(b) INCREASE IN TAX ON FAILURE TO MAKE DEPOSIT OF TAXES.—Section 6656(a) (relating to underpayment of deposits) is amended by striking out "5 percent" and inserting in lieu thereof "10 percent".

(c) CONFORMING AMENDMENTS.—The table of sections for subchapter A of chapter 68 of subtitle F is amended by striking out the item relating to section 6662 and inserting in lieu thereof the following new items:

"Sec. 6662. Aggregate penalty on certain underpayments not to be less than 25 percent.

"Sec. 6663. Applicable rules."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to penalties assessed after the date of enactment of this Act.

SEC. 665. APPROPRIATIONS FOR IRS ENFORCEMENT.

The conference agreement on the appropriations measure providing funding for the Internal Revenue Service for the fiscal year ending September 30, 1987, will include the following funding levels: for "Salaries and Expenses", $95,147,000; for "Processing Tax Returns", $1,332,902,000; for "Examinations and Appeals", $1,623,162,000; and for "Investigation, Collection, and Taxpayer Service", $1,196,581,000: *Provided,* That the allocation to the Senate Committee on Appropriations pursuant to section 302(a) of the Budget Act, as amended, under Senate Concurrent Resolution 120, the concurrent resolution on the budget for fiscal year 1987, is increased by $300,000,000 in both new budget authority and outlays.

TITLE VII—GOVERNMENTAL AFFAIRS

PART A—POSTAL SERVICE MATTERS

SEC. 701. METHOD OF COMPUTING FORGONE REVENUE RESULTING FROM REDUCED POSTAGE RATES.

(a) IN GENERAL.—Section 3626 of title 39, United States Code, is amended by adding at the end thereof the following new subsection:

"(i)(1) For the purposes of this subsection—

"(A) the term 'regular rate category of mail' means a class of mail or kind of mailer which is not covered by the provisions of law referred to in section 2401(c) of this title; and

"(B) the term 'reduced rate category of mail' means a class of mail or kind of mailer for which rate schedules are established pursuant to subsection (a) of this section.

"(2) The assumption prescribed in paragraph (3) shall be used for the purposes of—

"(A) distinguishing the costs expected to be recovered under this subchapter from rates and fees charged for reduced rate categories of mail from the costs expected to be recovered under this subchapter from rates and fees charged for regular rate categories of mail; and

"(B) determining the amount of any appropriation to be requested for a fiscal year under section 2401(c) of this title with respect to the reduced rate categories of mail.

"(3) For the purposes stated in paragraph (2) of this subsection, it shall be assumed that the total amount of postage and appropriations expected to be received with respect to each reduced rate category of mail bears the same ratio to the costs attributed (pursuant to subsection (a)) to each reduced rate category of mail as the amount of the revenues expected to be received from the use of the most closely corresponding regular rate category of mail (as estimated in determining the rates for such category) bears to the costs attributed (pursuant to section 3622(b)(3) of this title) to that category.".

(b) CONFORMING AMENDMENT.—Section 2401(c) of title 39, United States Code, is amended by inserting "(a)-(h)" after "3626" in the first sentence.

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall take effect on the earlier of—

(1) January 1, 1989; or

(2) the effective date of the first general change in postage rates and postal fees taking effect under section 3625 of title 39, United States Code, on or after the date of the enactment of this Act.

PART B—FEDERAL EMPLOYEES RETIREMENT SYSTEM

SEC. 711. ELECTIONS TO PARTICIPATE IN THE FEDERAL EMPLOYEES' RETIREMENT SYSTEM.

(a) ELECTIONS FOR INDIVIDUALS SUBJECT TO THE CIVIL SERVICE RETIREMENT AND DISABILITY SYSTEM.—Section 301(a) of the Federal Employees' Retirement System Act of 1986 (Public Law 99-335) is amended—

(1) by striking out "June 30, 1987," each place it appears in paragraphs (1)(A) and (2)(A) and inserting in lieu thereof "March 31, 1987,"; and

(2) by striking out "July 1, 1987," in paragraph (1)(B) and inserting in lieu thereof "April 1, 1987,".

(b) ELECTIONS FOR CERTAIN INDIVIDUALS SERVING CONTINUOUSLY SINCE DECEMBER 31, 1983.—Section 301(b)(1) of the Federal Employees' Retirement System Act of 1986 (Public Law 99-335) is amended by striking out "June 30, 1987," and inserting in lieu thereof "March 31, 1987,".

(c) ELECTIONS TO PARTICIPATE IN THRIFT SAVINGS PLAN.—Section 206(b) of the Federal Employees' Retirement System Act of 1986 (Public Law 99-335) is amended to read as follows:

"(b) Notwithstanding subsection (a)(2) of section 8351 of title 5, United States Code (as added by subsection (a)(1)), an election may first be made by an employee of the Federal Government or a Member of Congress under such section during an election period prescribed for the purposes of this subsection by the Executive Director of the Federal Retirement Thrift Investment Board. Such period shall begin on April 1, 1987.".

PART C—PROGRAM CIVIL FRAUD

SEC. 721. SHORT TITLE.

This part may be cited as the "Program Civil Fraud Remedies Act of 1986".

SEC. 722. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) false, fictitious, and fraudulent claims and statements in Government programs are a serious problem;

(2) false, fictitious, and fraudulent claims and statements in Government programs result in the loss of millions of dollars annually by allowing persons to receive Federal funds to which they are not entitled;

(3) false, fictitious, and fraudulent claims and statements in Government programs undermine the integrity of such programs by allowing ineligible persons to participate in such programs; and

(4) present civil and criminal remedies for such claims and statements are not sufficiently responsive.

(b) PURPOSES.—The purposes of this part are—

(1) to provide Federal agencies which are the victims of false, fictitious, and fraudulent claims and statements with an administrative remedy to recompense such agencies for losses resulting from such claims and statements, to permit administrative proceedings to be brought against persons who make, present, or submit such claims and statements, and to deter the making, presenting, and submitting of such claims and statements in the future; and

(2) to provide due process protections to all persons who are subject to the administrative adjudication of false, fictitious, or fraudulent claims or statements.

SEC. 723. PROVISION OF ADMINISTRATIVE REMEDIES FOR FALSE CLAIMS AND STATEMENTS.

(a) ESTABLISHMENT OF REMEDIES.—Title 5, United States Code, is amended by inserting after chapter 7 the following new chapter:

"CHAPTER 8—ADMINISTRATIVE REMEDIES FOR FALSE CLAIMS AND STATEMENTS

"Sec.
"801. Definitions.
"802. False claims and statements; liability.
"803. Hearing and determinations.
"804. Subpoena authority.
"805. Judicial review.
"806. Collection of civil penalties and assessments.
"807. Right to setoff.
"808. Limitations.
"809. Regulations.
"810. Reports.
"811. Effect on other law.
"812. Prohibition against delegation.

"§ 801. Definitions

"(a) For purposes of this chapter—

"(1) 'authority' means—

"(A) an executive department;

"(B) a military department;

"(C) an establishment (as such term is defined in section 11(2) of the Inspector General Act of 1978) which is not an executive department; and

"(D) the United States Postal Service;

"(2) 'authority head' means—

"(A) the head of an authority; or

"(B) an official or employee of the authority designated, in regulations promulgated by the head of the authority, to act on behalf of the head of the authority;

"(3) 'claim' means any request, demand, or submission—

"(A) made to an authority for property, services, or money (including money representing grants, loans, insurance, or benefits);

"(B) made to a recipient of property, services, or money from an authority or to a party to a contract with an authority—

"(i) for property or services if the United States—

"(I) provided such property or services;

"(II) provided any portion of the funds for the purchase of such property or services; or

"(III) will reimburse such recipient or party for the purchase of such property or services; or

"(ii) for the payment of money (including money representing grants, loans, insurance, or benefits) if the United States—

"(I) provided any portion of the money requested or demanded; or

"(II) will reimburse such recipient or party for any portion of the money paid on such request or demand; or

"(C) made to an authority which has the effect of decreasing an obligation to pay or account for property, services, or money,

except that such term does not include any claim made in any return of tax imposed by the Internal Revenue Code of 1954;

"(4) 'hearing examiner' means—

"(A) in the case of an authority to which the provisions of subchapter II of chapter 5 of this title apply, an administrative law judge appointed in the authority pursuant to section 3105 of this title or detailed to the authority pursuant to section 3344 of this title; or

"(B) in the case of an authority to which the provisions of such subchapter do not apply, an officer or employee of the authority who—

"(i) is selected under chapter 33 of this title pursuant to the competitive examination process applicable to administrative law judges;

"(ii) is appointed by the authority head to conduct hearings under section 803 of this title;

"(iii) is assigned to cases in rotation so far as practicable;

"(iv) may not perform duties inconsistent with the duties and responsibilities of a hearing examiner;

"(v) is entitled to pay prescribed by the Office of Personnel Management independently of ratings and recommendations made by the authority and in accordance with chapter 51 of this title and subchapter III of chapter 53 of this title;

"(vi) is not subject to performance appraisal pursuant to chapter 43 of this title; and

"(vii) may be removed, suspended, furloughed, or reduced in grade or pay only for good cause established and determined by the Merit Systems Protection Board on the record after opportunity for hearing by such Board;

"(5) 'investigating official' means an individual who—

"(A)(i) in the case of an authority in which an Office of Inspector General is established by the Inspector General Act of 1978 or by any other Federal law, is the Inspector General of that authority or an officer or employee of such Office designated by the Inspector General;

"(ii) in the case of an authority in which an Office of Inspector General is not established by the Inspector General Act of 1978 or by any other Federal law, is an officer or employee of the authority designated by the authority head to conduct investigations under section 803(a)(1) of this title; or

"(iii) in the case of a military department, is the Inspector General of the Department of Defense or an officer or employee of the Office of Inspector General of the Department of Defense who is designated by the Inspector General; and

"(B) who, if a member of the Armed Forces of the United States on active duty, is serving in grade O-7 or above or, if a civilian employee, is serving in a position for which the rate of basic pay is not less than the minimum rate of basic pay for grade GS-16 or above under the General Schedule;

"(6) 'knows or has reason to know', for purposes of establishing liability under section 802, means that a person, with respect to a claim or statement—

"(A) has actual knowledge that the claim or statement is false, fictitious, or fraudulent;

"(B) acts in deliberate ignorance of the truth or falsity of the claim or statement; or

"(C) acts in reckless disregard of the truth or falsity of the claim or statement.

"(7) 'person' means any individual, partnership, corporation, association, or private organization;

"(8) 'reviewing official' means any officer or employee of an authority—

"(A) who is designated by the authority head to make the determination required under section 803(a)(2) of this title;

"(B) who, if a member of the Armed Forces of the United States on active duty, is serving in grade O-7 or above or, if a civilian employee, is serving in a position for which the rate of basic pay is not less than the minimum rate of basic pay for grade GS-16 or above under the General Schedule; and

"(C) who is—

"(i) not subject to supervision by, or required to report to, the investigating official; and

"(ii) not employed in the organizational unit of the authority in which the investigating official is employed; and

"(9) 'statement' means any written representation, certification, affirmation, document, record, or accounting or bookkeeping entry—

"(A) with respect to a claim; or

"(B) with respect to—

"(i) a contract with, or a bid or proposal for a contract with;

"(ii) a grant, loan, or benefit from;

"(iii) an application for insurance from; or

"(iv) an application for employment with,

an authority, or any State, political subdivision of a State, or other party acting on behalf of, or based upon the credit or guarantee of, an authority,

except that such term does not include any statement made in any return of tax imposed by the Internal Revenue Code of 1954.

"(b) For purposes of paragraph (3) of subsection (a)—

"(1) each voucher, invoice, claim form, or other individual request or demand for property, services, or money constitutes a separate claim;

"(2) each claim for property, services, or money is subject to this chapter regardless of whether such property, services, or money is actually delivered or paid; and

"(3) a claim shall be considered made, presented, or submitted to an authority, recipient, or party when such claim is actually made to an agent, fiscal intermediary, or other entity, including any State or political subdivision thereof, acting for or on behalf of such authority, recipient, or party.

"(c) For purposes of paragraph (9) of subsection (a)—

"(1) each written representation, certification, or affirmation constitutes a separate statement; and

"(2) a statement shall be considered made, presented, or submitted to an authority when such statement is actually made to an agent, fiscal intermediary, or other entity, including any State or political subdivision thereof, acting for or on behalf of such authority.

"§ 802. False claims and statements; liability

"(a)(1) Any person who makes, presents, or submits, or causes to be made, presented, or submitted, a claim that the person knows or has reason to know—

"(A) is false, fictitious, or fraudulent;

"(B) includes or is supported by any statement which is described in clause (i) or (ii) of paragraph (2)(A); or

"(C) is for payment for the provision of property or services which the person has not provided as claimed,

shall be subject to, in addition to any other remedy that may be prescribed by law, a civil penalty of not more than $10,000 for each such claim. Except as provided in paragraph (3) of this subsection, such person shall also be subject to an assessment, in lieu of damages sustained by the United States because of such claim, of not more than twice the amount of such claim, or the portion of such claim, which is determined under this chapter to be in violation of the preceding sentence.

"(2) Any person who makes, presents, or submits, or causes to be made, presented, or submitted, a written statement that—

"(A) the person knows or has reason to know—

"(i) asserts a material fact which is false, fictitious, or fraudulent; or

"(ii)(I) omits a material fact;

"(II) as a result of such omission, such statement is false, fictitious, or fraudulent; and

"(III) the person making, presenting, or submitting such statement has a duty to include such material fact in the statement; and

"(B) contains or is accompanied by an express certification or affirmation of the truthfulness and accuracy of the contents of the statement,

shall be subject to, in addition to any other remedy that may be prescribed by law, a civil penalty of not more than $10,000 for each such statement.

"(3) An assessment shall not be made under the second sentence of paragraph (1) with respect to a claim if payment by the Government has not been made on such claim prior to the date on which a notice is issued with respect to such claim under section 803(d)(1) of this title.

"(b)(1) Except as provided in paragraphs (2) and (3) of this subsection—

"(A) a determination under section 803(a)(2) of this title that there is adequate evidence to believe that a person is liable under subsection (a) of this section, or

"(B) a determination under section 803 of this title that a person is liable under subsection (a) of this section,

may provide the authority with grounds for commencing any administrative or contractual action against such person which is authorized by law and which is in addition to any action against such person under this chapter.

"(2) A determination referred to in paragraph (1) of this subsection may be used by the authority, but shall not require such authority, to commence any administrative or contractual action which is authorized by law.

"(3) In the case of an administrative or contractual action to suspend or debar any person who is eligible to enter into contracts with the Federal Government, a determination referred to in paragraph (1) of this subsection shall not be considered as a conclusive determination of such person's responsibility pursuant to Federal procurement laws and regulations.

"§ 803. Hearing and determinations

"(a)(1) The investigating official of an authority may investigate allegations that a person is liable under section 802 of this title and shall report the findings and conclusions of such investigation to the reviewing official of the authority. The preceding sentence does not modify any responsibility of an investigating official to report violations of criminal law to the Attorney General.

"(2) If the reviewing official of an authority determines, based upon the report of the investigating official under paragraph (1) of this subsection, that there is adequate evidence to believe that a person is liable under section 802 of this title, the reviewing official shall transmit to the Attorney General a written notice of the intention of such official to refer the allegations of such liability to a hearing examiner of such authority. Such notice shall include—

"(A) a statement of the reasons of the reviewing official for the referral of such allegations;

"(B) a statement specifying the evidence which supports such allegations;

"(C) a description of the claims or statements for which liability under section 802 of this title is alleged;

"(D) an estimate of the amount of money or the value of property or services requested or demanded in violation of section 802 of this title; and

"(E) a statement of any exculpatory or mitigating circumstances which may relate to such claims or statements.

"(b)(1) Within 90 days after receipt of a notice from a reviewing official under paragraph (2) of subsection (a), the Attorney General or an Assistant Attorney General designated by the Attorney General shall transmit a written statement to the reviewing official which specifies—

"(A) that the Attorney General or such Assistant Attorney General approves or disapproves the referral to a hearing examiner of the allegations of liability stated in such notice;

"(B) in any case in which the referral of allegations is approved, that the initiation of a proceeding under section 803 of this title with respect to such allegations is appropriate; and

"(C) in any case in which the referral of allegations is disapproved, the reasons for such disapproval.

"(2) A reviewing official may refer allegations of liability to a hearing examiner only if the Attorney General or an Assistant Attorney General designated by the Attorney General approves the referral of such allegations in accordance with paragraph (1) of this subsection.

"(3) If the Attorney General or an Assistant Attorney General designated by the Attorney General transmits to an authority head a written finding that the continuation of any hearing under this section with respect to a claim or statement may adversely affect any pending or potential criminal or civil action related to such claim or statement, such hearing shall be immediately stayed and may be resumed only upon written authorization of the Attorney General.

"(c) No allegations of liability under section 802 of this title with respect to any claim made, presented, or submitted by any person shall be referred to a hearing examiner under paragraph (2) of subsection (b) if the reviewing official determines that—

"(1) an amount of money in excess of $100,000; or

"(2) property or services with a value in excess of $100,000,

is requested or demanded in violation of section 802 of this title in such claim or in a group of related claims which are submitted at the time such claim is submitted.

"(d)(1) On the date on which a reviewing official is permitted to refer allegations of liability to a hearing examiner under subsection (b) of this section, the reviewing official shall mail, by registered or certified mail, or shall deliver, a notice to the person alleged to be liable under section 802 of this title. Such notice shall specify the allegations of liability against such person and shall state the right of such person to request a hearing with respect to such allegations.

"(2) If, within 30 days after receiving a notice under paragraph (1) of this subsection, the person receiving such notice requests a hearing with respect to the allegations contained in such notice—

"(A) the reviewing official shall refer such allegations to a hearing examiner for the commencement of such hearing; and

"(B) the hearing examiner shall commence such hearing by mailing by registered or certified mail, or by delivery, of a notice which complies with paragraphs (2)(A) and (3)(B)(i) of subsection (g) to such person.

"(e)(1)(A) Except as provided in subparagraph (B) of this paragraph, at any time after receiving a notice under paragraph (2)(B) of subsection (d), the person receiving such notice shall be entitled to review, and upon payment of a reasonable fee for duplication, shall be entitled to obtain a copy of, all relevant and material documents, transcripts, records, and other materials, which relate to such allegations and upon which the findings and conclusions of the investigating official under paragraph (1) of subsection (a) are based.

"(B) A person is not entitled under subparagraph (A) to review and obtain a copy of any document, transcript, record, or material which—

"(i) is privileged under Federal or State law; or

"(ii) is an interagency or intraagency letter, memorandum, analysis, or other material which would not be available by law to a party other than an agency in a legal action to which an agency is a party.

"(2) At any time after receiving a notice under paragraph (2)(B) of subsection (d), the person receiving such notice shall be entitled to obtain all exculpatory information in the possession of the investigating official or the reviewing official relating to the allegations contained in such notice. The provisions of subparagraph (B) of paragraph (1) do not apply to any document, transcript, record, or other material, or any portion thereof, in which such exculpatory information is contained.

"(f) Any hearing commenced under paragraph (2) of subsection (d) shall be conducted by the hearing examiner on the record in order to determine—

"(1) the liability of a person under section 802 of this title; and

"(2) if a person is determined to be liable under such section, the amount of any civil penalty and assessment to be imposed on such person.

Any such determination shall be based on the preponderance of the evidence.

"(g)(1) Each hearing under subsection (f) of this section shall be conducted—

"(A) in the case of an authority to which the provisions of subchapter II of chapter 5 of this title apply, in accordance with—

"(i) the provisions of such subchapter to the extent that such provisions are not inconsistent with the provisions of this chapter; and

"(ii) procedures promulgated by the authority head under paragraph (3) of this subsection; or

"(B) in the case of an authority to which the provisions of such subchapter do not apply, in accordance with procedures promulgated by the authority head under paragraphs (2) and (3) of this subsection.

"(2) An authority head of an authority described in subparagraph (B) of paragraph (1) shall by regulation promulgate procedures for the conduct of hearings under this chapter. Such procedures shall include:

"(A) The provision of written notice of the hearing to any person alleged to be liable under section 802 of this title, including written notice of—

"(i) the time, place, and nature of the hearing;

"(ii) the legal authority and jurisdiction under which the hearing is to be held; and

"(iii) the matters of facts and law to be asserted.

"(B) The provision to any person alleged to be liable under section 802 of this title of opportunities for the submission of facts, arguments, offers of settlement, or proposals of adjustment.

"(C) Procedures to ensure that the hearing examiner shall not, except to the extent required for the disposition of ex parte matters as authorized by law—

"(i) consult a person or party on a fact in issue, unless on notice and opportunity for all parties to the hearing to participate; or

"(ii) be responsible to or subject to the supervision or direction of the investigating official or the reviewing official.

"(D) Procedures to ensure that the investigating official and the reviewing official do not participate or advise in the decision required under subsection (h) of this section or the review of the decision by the authority head under subsection (i) of this section, except as provided in subsection (j) of this section.

"(E) The provision to any person alleged to be liable under section 802 of this title of opportunities to present such person's case through oral or documentary evidence, to submit rebuttal evidence, and to conduct such cross-examination as may be required for a full and true disclosure of the facts.

"(F) Procedures to permit any person alleged to be liable under section 802 of this title to be accompanied, represented, and advised by counsel or such other qualified

representative as the authority head may specify in such regulations.

"(G) Procedures to ensure that the hearing is conducted in an impartial manner, including procedures to—

"(i) permit the hearing examiner to at any time disqualify himself; and

"(ii) permit the filing, in good faith, of a timely and sufficient affidavit alleging personal bias or another reason for disqualification of a hearing examiner or a reviewing official.

"(3)(A) Each authority head shall promulgate by regulation procedures described in subparagraph (B) of this paragraph for the conduct of hearings under this chapter. Such procedures shall be in addition to the procedures described in paragraph (1) or paragraph (2) of this subsection, as the case may be.

"(B) The procedures referred to in subparagraph (A) of this paragraph are:

"(i) Procedures for the inclusion, in any written notice of a hearing under this section to any person alleged to be liable under section 802 of this title, of a description of the procedures for the conduct of the hearing.

"(ii) Procedures to permit discovery by any person alleged to be liable under section 802 of this title only to the extent that the hearing examiner determines that such discovery is necessary for the expeditious, fair, and reasonable consideration of the issues, except that such procedures shall not apply to documents, transcripts, records, or other material which a person is entitled to review under paragraph (1) of subsection (e) or to information to which a person is entitled under paragraph (2) of such subsection. Procedures promulgated under this clause shall prohibit the discovery of the notice required under subsection (a)(2) of this section. Procedures promulgated under this clause shall provide that requests for discovery under this clause shall not be denied unreasonably.

"(4) Each hearing under subsection (f) of this section shall be held—

"(A) in the judicial district of the United States in which the person alleged to be liable under section 802 of this title resides or transacts business;

"(B) in the judicial district of the United States in which the claim or statement upon which the allegation of liability under such section was made, presented, or submitted; or

"(C) in such other place as may be agreed upon by such person and the hearing examiner who will conduct such hearing.

"(h) The hearing examiner shall issue a written decision, including findings and determinations, after the conclusion of the hearing. Such decision shall include the findings of fact and conclusions of law which the hearing examiner relied upon in determining whether a person is liable under this chapter. The hearing examiner shall promptly send to each party to the hearing a copy of such decision and a statement describing the right of any person determined to be liable under section 802 of this title to appeal the decision of the hearing examiner to the authority head under paragraph (2) of subsection (i).

"(i)(1) Except as provided in paragraph (2) of this subsection and section 805 of this title, the decision, including the findings and determinations, of the hearing examiner issued under subsection (h) of this section are final.

"(2)(A)(i) Except as provided in clause (ii) of this subparagraph, within 30 days after the hearing examiner issues a decision under subsection (h) of this section, any person determined in such decision to be liable under section 802 of this title may appeal such decision to the authority head.

"(ii) If, within the 30-day period described in clause (i) of this subparagraph, a person determined to be liable under this chapter requests the authority head for an extension of such 30-day period to file an appeal of a decision issued by the hearing examiner under subsection (h) of this section, the authority head may extend such period if such person demonstrates good cause for such extension.

"(B) Any authority head reviewing under this section the decision, findings, and determinations of a hearing examiner shall not consider any objection that was not raised in the hearing conducted pursuant to subsection (f) of this section unless a demonstration is made of extraordinary circumstances causing the failure to raise the objection. If any party demonstrates to the satisfaction of the authority head that additional evidence not presented at such hearing is material and that there were reasonable grounds for the failure to present such evidence at such hearing, the authority head shall remand the matter to the hearing examiner for consideration of such additional evidence.

"(C) The authority head may affirm, reduce, reverse, compromise, remand, or settle any penalty and assessment determined by the hearing examiner pursuant to this section. The authority head shall promptly send to each party to the appeal a copy of the decision of the authority head and a statement describing the right of any person determined to be liable under section 802 of this title to judicial review under section 805 of this title.

"(j) The reviewing official has the exclusive authority to compromise or settle any allegations of liability under section 802 of this title against a person without the consent of the hearing examiner at any time after the date on which the reviewing official is permitted to refer allegations of liability to a hearing examiner under subsection (b) of this section and prior to the date on which the hearing examiner issues a decision under subsection (h) of this section. Any such compromise or settlement shall be in writing.

"§ 804. Subpoena authority

"(a)(1) For the purposes of an investigation under section 803(a)(1) of this title, an investigating official is authorized—

"(A) to administer oaths or affirmations; or

"(B) to require by subpoena the production of all information, documents, reports, answers, records, accounts, papers, and data not otherwise reasonably available to the authority.

"(2) In conducting an investigation under section 803(a)(1) of this title, the Inspector General of an authority may require by subpoena the attendance and testimony of witnesses if—

"(A) such Inspector General transmits a written notice to the Attorney General specifying that—

"(i) such attendance and testimony are necessary to the conduct of such investigation; and

"(ii) means other than a subpoena to obtain such attendance and testimony are inadequate; and

"(B) within 30 days after the Attorney General receives the notice required by subparagraph (A) of this paragraph, the Attorney General, the Deputy Attorney General, or an Associate Attorney General designated by the Attorney General transmits to such Inspector General a written statement approving such subpoena.

"(3)(A) Within 30 days after receiving a notice under subparagraph (A) of paragraph (2), the Attorney General, the Deputy Attorney General, or an Associate Attorney General designated by the Attorney General, shall transmit to such Inspector General a written statement approving or disapproving the subpoena with which such notice is concerned.

"(B) If a subpoena has been issued under this subsection to a person with respect to a particular allegation or set of allegations of liability under section 802 of this title, the Attorney General, the Deputy Attorney General, or an Associate Attorney General designated by the Attorney General, may not approve an additional subpoena under this subsection to such person with respect to such allegation or set of allegations unless such person requests the issuance of an additional subpoena under this subsection or unless—

"(i) the Attorney General, the Deputy Attorney General, or an Associate Attorney General designated by the Attorney General determines, after investigation, that an additional subpoena under this subsection to such person is necessary; and

"(ii) the Attorney General, the Deputy Attorney General, or such Associate Attorney General requires the Inspector General issuing such subpoena to include with such subpoena a statement specifying the determination of the Attorney General, the Deputy Attorney General, or such Associate Attorney General under clause (i) of this subparagraph and the reasons for such determination.

"(4)(A) An Inspector General of an authority may not delegate the authority of such Inspector General under paragraph (2) of this subsection to require by subpoena the attendance and testimony of witnesses to any officer or employee of the authority.

"(B) For purposes of this paragraph and paragraph (2), the term 'Inspector General' means an Inspector General of an authority in which an Office of Inspector General is established by the Inspector General Act of 1978 or by any other Federal law.

"(5)(A) Each subpoena issued under this subsection shall—

"(i) prescribe a date, time, and place at which oral testimony shall be commenced;

"(ii) describe the procedures under which, in accordance with this section, such testimony will be taken;

"(iii) notify the person receiving the subpoena of the right to be accompanied by an attorney and any other representative;

"(iv) describe the general purpose for which the subpoena is being issued and the general nature of the testimony, including the primary areas of inquiry, which will be taken pursuant to the subpoena; and

"(v) identify the investigating official designated by the Inspector General who shall conduct the investigation.

"(B) The date prescribed under clause (i) of subparagraph (A) for the commencement of oral testimony pursuant to a subpoena issued under this subsection shall be a date which is not less than 7 days after the date on which such subpoena is received, unless the Attorney General, the Deputy Attorney General, or an Associate Attorney General designated by the Attorney General, determines that exceptional circumstances are present which warrant the commencement

of such testimony within a lesser period of time.

"(6)(A) Any investigating official before whom oral testimony is to be taken shall put the person giving such testimony under oath or affirmation and shall personally, or by any individual acting under the direction and in the presence of such investigating official, record and transcribe the testimony of such person.

"(B) Any investigating official before whom oral testimony under this section is to be taken shall exclude from the place where the testimony is to be taken all persons except the person giving the testimony, the attorney and any other representative for the person giving the testimony, the attorney for the investigating official, any person who may be agreed upon by the investigating official and the person giving the testimony, and any stenographer taking such testimony.

"(C) The oral testimony of any person taken pursuant to a subpoena issued under this subsection shall be taken in the judicial district of the United States in which such person resides or transacts business, or in such other place as may be agreed upon by such person and the investigating official before whom the oral testimony of such person is to be taken.

"(D) Any person compelled to appear under a subpoena issued under this subsection may be accompanied, represented, and advised by an attorney. The attorney may advise such person, in confidence, either upon the request of such person or upon the initiative of the attorney, with respect to any question asked of such person.

"(E)(i) After the testimony of any person is fully transcribed, the investigating official shall afford the person (who may be accompanied by an attorney) a reasonable opportunity to examine the transcript of such testimony. The transcript shall be read to or by such person, unless such examination and reading are waived by such person. Any changes in form or substance which such person desires to make shall be entered and identified upon the transcript by the investigating official with a statement of the reasons given by such person for making such changes. The transcript shall then be signed by such person, unless such person in writing waives the signing, is ill, cannot be found, or refuses to sign.

"(ii) If the transcript is not signed by the person within 30 days after the date upon which the person is first afforded a reasonable opportunity to examine the transcript, the investigating official shall sign the transcript and state on the record the fact of the waiver, illness, absence of such person, or the refusal to sign, together with any reasons given for the failure to sign.

"(F) The investigating official shall certify on the transcript that the person giving testimony was duly sworn by the investigating official and that the transcript is a true record of the testimony given by such person.

"(G) The investigating official shall furnish a copy of the transcript (upon payment of reasonable charges for the transcript) to the person giving testimony.

"(H) Any person appearing for the taking of oral testimony pursuant to a subpoena issued under this subsection shall be entitled to the same fees and mileage which are paid to witnesses in the district courts of the United States.

"(b) For the purposes of conducting a hearing under section 803(f) of this title, a hearing examiner is authorized—

"(1) to administer oaths or affirmations; and

"(2) to require by subpoena the attendance and testimony of witnesses and the production of all information, documents, reports, answers, records, accounts, papers, and other data and documentary evidence which the hearing examiner considers relevant and material to the hearing.

"(c) In the case of contumacy or refusal to obey a subpoena issued pursuant to subsection (a) or (b) of this section, an investigating official or a hearing examiner, as the case may be, may request the Attorney General to invoke the aid of any district court of the United States in the district in which such investigation or hearing is being conducted, or where the person receiving the subpoena resides or conducts business. The district courts of the United States shall have jurisdiction to issue an appropriate order for the enforcement of any such subpoena. Any failure to obey such order of the court is punishable by such court as contempt.

"§ 805. Judicial review

"(a)(1) A determination by a reviewing official under section 803 of this title shall be final and shall not be subject to judicial review.

"(2) Unless a petition is filed under this section, a determination under section 803 of this title that a person is liable under section 802 of this title shall be final and shall not be subject to judicial review.

"(b)(1)(A) Any person for whom a determination of liability under section 802 of this title has been made pursuant to section 803 of this title may obtain review of such determination in—

"(i) the United States Court of Appeals for the circuit in which such person resides or transacts business;

"(ii) the United States Court of Appeals for the circuit in which the claim or statement upon which the determination of liability is based was made, presented, or submitted; or

"(iii) the United States Court of Appeals for the District of Columbia Circuit.

"(B) Such review may be obtained by filing in any such court a written petition that such determination be modified or set aside. Such petition shall be filed—

"(i) only after such person has exhausted all administrative remedies under this chapter; and

"(ii) within 60 days after the date on which the authority head sends such person a copy of the decision of such authority head under section 803(i)(2) of this title.

"(2) The clerk of the court shall transmit a copy of a petition filed under paragraph (1) of this subsection to the authority head and to the Attorney General. Upon receipt of the copy of such petition, the authority head shall transmit to the Attorney General the record in the proceeding resulting in the determination of liability under section 802 of this title. Except as otherwise provided in this section, the courts of appeals of the United States shall have jurisdiction to review the decision, findings, and determinations in issue and to affirm, modify, remand for further consideration, or set aside, in whole or in part, the decision, findings, and determinations of the hearing examiner and the authority head, and to enforce such decision, findings, and determinations to the extent that such decision, findings, and determinations are affirmed or modified.

"(c) The findings of the hearing examiner with respect to questions of fact shall be final and conclusive, and shall not be set aside unless the decision of the hearing examiner is arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law, or if such findings are not supported by substantial evidence.

"(d) Any court of appeals reviewing under this section the decision, findings, and determinations of a hearing examiner or an authority head shall not consider any objection that was not raised in the hearing conducted pursuant to section 803(f) of this title unless a demonstration is made of extraordinary circumstances causing the failure to raise the objection. If any party demonstrates to the satisfaction of the court that additional evidence not presented at such hearing is material and that there were reasonable grounds for the failure to present such evidence at such hearing, the court shall remand the matter to the hearing examiner for consideration of such additional evidence.

"(e) Upon a final determination by the court of appeals that a person is liable under section 802 of this title, the court shall enter a final judgment for the appropriate amount in favor of the United States, and such judgment may be recorded and enforced by the Attorney General to the same extent and in the same manner as a judgment entered by any United States district court.

"§ 806. Collection of civil penalties and assessments

"(a) The Attorney General shall be responsible for judicial enforcement of any civil penalty or assessment imposed pursuant to the provisions of this chapter.

"(b) Any penalty or assessment imposed in a determination which has become final pursuant to section 803 of this title may be recovered in a civil action brought by the Attorney General. In any such action, no matter that was raised or that could have been raised in a hearing conducted under section 803(f) of this title or pursuant to judicial review under section 805 of this title may be raised as a defense, and the determination of liability and the determination of amounts of penalties and assessments shall not be subject to review.

"(c) The district courts of the United States and of any territory or possession of the United States shall have jurisdiction of any action commenced by the United States under subsection (b) of this section.

"(d) Any action under subsection (b) of this section may, without regard to venue requirements, be joined and consolidated with or asserted as a counterclaim, crossclaim, or setoff by the United States in any other civil action which includes as parties the United States and the person against whom such action may be brought.

"(e)(1) The United States Claims Court shall have jurisdiction of any action under subsection (b) of this section to recover any penalty and assessment if the cause of action is asserted by the United States as a counterclaim in a matter pending in such court. The United States may join as additional parties in such counterclaim all persons who may be jointly and severally liable with the person against whom such counterclaim is asserted.

"(2) No cross-claims or third-party claims not otherwise within the jurisdiction of the United States Claims Court shall be asserted among additional parties joined under paragraph (1) of this subsection.

"(f) The Attorney General shall have exclusive authority to compromise or settle

any penalty and assessment the determination of which is the subject of a pending petition pursuant to section 805 of this title or a pending action to recover such penalty or assessment pursuant to this section.

"(g)(1) Except as provided in paragraph (2) of this subsection, any amount of penalty and assessment collected under this chapter shall be deposited as miscellaneous receipts in the Treasury of the United States.

"(2)(A) Any amount of a penalty or assessment imposed by the United States Postal Service under this chapter shall be deposited in the Postal Service Fund established by section 2003 of title 39, United States Code.

"(B) Any amount of a penalty or assessment imposed by the Secretary of Health and Human Services under this chapter with respect to a claim or statement made in connection with old age and survivors benefits under title II of the Social Security Act shall be deposited in the Federal Old Age and Survivors Insurance Trust Fund.

"(C) Any amount of a penalty or assessment imposed by the Secretary of Health and Human Services under this chapter with respect to a claim or statement made in connection with disability benefits under title II of the Social Security Act shall be deposited in the Federal Disability Insurance Trust Fund.

"(D) Any amount of a penalty or assessment imposed by the Secretary of Health and Human Services under this chapter with respect to a claim or statement made in connection with benefits under part A of title XVIII of the Social Security Act shall be deposited in the Federal Hospital Insurance Trust Fund.

"(E) Any amount of a penalty or assessment imposed by the Secretary of Health and Human Services under this chapter with respect to a claim or statement made in connection with benefits under part B of title XVIII of the Social Security Act shall be deposited in the Federal Supplementary Medical Insurance Trust Fund.

"§ 807. Right to setoff

"(a)(1) The amount of any penalty or assessment which has become final under section 803 of this title, or for which a judgment has been entered under section 805(e) or 806 of this title, or any amount agreed upon in a settlement or compromise under section 803(j) or 806(f) of this title, may be deducted from any sum, except for a refund of an overpayment of Federal taxes, then or later owing by the United States to the person liable for such penalty and assessment.

"(2) The authority head shall transmit written notice of each deduction made under this paragraph to the person liable for such penalty and assessment.

"(3) All amounts retained pursuant to this paragraph shall be remitted to the Secretary of the Treasury for deposit in accordance with section 806(g) of this title.

"(b) An authority head may forward a certified copy of any determination as to liability for any penalty or assessment which has become final under section 803 of this title, a certified copy of any judgment which has been entered under section 805(e) or 806 of this title, or a certified copy of any settlement or compromise under section 803(j) or 806(f) of this title, to the Secretary of the Treasury for action in accordance with subsection (a) of this section.

"§ 808. Limitations

"(a) A hearing under section 803(d)(2) of this title with respect to a claim or statement shall be commenced within six years after the date on which such claim or statement is made, presented, or submitted.

"(b) A civil action to recover a penalty and assessment under section 806 of this title shall be commenced within three years after the date on which the determination of liability for such penalty and assessment becomes final.

"(c) If at any time during the course of proceedings brought pursuant to this chapter the authority head receives or discovers any specific information regarding bribery, gratuities, conflict of interest, or other corruption or similar activity in relation to a false claim or statement, the authority head shall immediately report such information to the Attorney General, and in the case of an authority in which an Office of Inspector General is established by the Inspector General Act of 1978 or by any other Federal law, to the Inspector General of that authority.

"§ 809. Regulations

"(a) Within 180 days after the date of enactment of this chapter, each authority head shall promulgate rules and regulations necessary to implement the provisions of this chapter. Such rules and regulations shall—

"(1) ensure that investigating officials and reviewing officials are not responsible for conducting the hearing required in section 803(f) of this title, making the determinations required by subsections (f) and (h) of section 803 of this title, or making the collections under section 806 of this title; and

"(2) require a reviewing official to include in any notice required by section 803(a)(2) of this title a statement of the reviewing official which—

"(A) specifies that the reviewing official has determined that there is a reasonable prospect of collecting, from a person with respect to whom the reviewing official is referring allegations of liability in such notice, the amount for which such person may be liable; and

"(B) describes the financial data specified in subsection (c) of this section.

"(b) The determination required under paragraph (2)(A) of subsection (a) shall be made by the reviewing official after the consideration of the financial data specified in subsection (c) of this section.

"(c) The financial data referred to in subsections (a)(2)(B) and (b) of this section may include—

"(1) a commercial credit report with respect to the person alleged to be liable under this chapter;

"(2) an agency investigative report specifying the assets, liabilities, income, and expenses of such person;

"(3) a financial statement of such person specifying the assets, liabilities, income, and expenses of such person;

"(4) an audited balance sheet of such person; or

"(5) such financial information as is reasonably available to the authority.

"§ 810. Reports

"Not later than October 31 of each year, each authority head shall prepare and transmit to the appropriate committees and subcommittees of the Congress an annual report summarizing actions taken under this chapter during the most recent twelve-month period ending the previous September 30. Such report shall include—

"(1) a summary of matters referred by the investigating official of the authority to the reviewing official of the authority under section 803(a)(1) of this title during such period;

"(2) a summary of matters transmitted to the Attorney General under section 803(a)(2) of this title during such period;

"(3) a summary of all hearings conducted by hearing examiners under section 803(f) of this title, and the results of such hearings, during such period; and

"(4) a summary of the actions taken during such period to collect any civil penalty or assessment imposed under this chapter.

"§ 811. Effect on other law

"(a) This chapter does not diminish the responsibility of any agency to comply with the provisions of chapter 35 of title 44.

"(b) This chapter does not supersede the provisions of section 3512 of title 44.

"(c) For purposes of this section, the term 'agency' has the same meaning as in section 3502(1) of title 44.

"§ 812. Prohibition against delegation

"Any function, duty, or responsibility which this chapter specifies be carried out by the Attorney General, the Deputy Attorney General, an Associate Attorney General designated by the Attorney General, or an Assistant Attorney General designated by the Attorney General, shall not be delegated to, or carried out by, any other officer or employee of the Department of Justice.".

(b) TECHNICAL AMENDMENT.—The table of chapters for part I of title 5, United States Code, is amended by inserting after the item relating to chapter 7 the following new item:

"8. Administrative Remedies for False Claims and Statements ..... 801.".

(c) CONFORMING AMENDMENTS.—Section 504(b)(1)(C) of title 5, United States Code, is amended—

(1) by striking out "and" before "(ii)"; and

(2) by inserting before the semicolon a comma and "and (iii) any hearing conducted under chapter 8 of this title".

SEC. 724. EFFECTIVE DATE.

This part and the amendments made by this part shall take effect on the date of enactment of this Act, and shall apply to any claim or statement made, presented, or submitted on or after such date.

TITLE VIII—COMMITTEE ON LABOR AND HUMAN RESOURCES

SEC. 801. This title may be cited as the "Education Budget Savings Act of 1986".

NEEDS BASIS FOR THE GUARANTEED STUDENT LOAN PROGRAM

SEC. 802. (a) NEEDS BASIS REQUIRED.—(1) Section 428(a)(2)(B) of the Higher Education Act of 1965 (hereafter in this title referred to as the "Act") is amended to read as follows:

"(B) For the purpose of clause (ii) of subparagraph (A), a student shall qualify for a portion of an interest payment under paragraph (1) if the eligible institution has provided the lender with a statement evidencing a determination of need for a loan and the amount of such need.".

(2)(A) Section 428(a)(2)(B) of the Act is amended to read as follows:

"(D) The schedule of expected family contributions required by section 482 shall apply to the determination required by this paragraph.".

(B) Section 428(a)(2)(E) of the Act is repealed.

(b) INSTITUTIONAL RESPONSIBILITY FOR DETERMINATION OF NEED.—Section 428(a)(2)(F) of the Act is amended to read as follows:

"(E)(i) For the purpose of subparagraph (B), the amount of the loan which is quali-

fied for a payment under paragraph (1) is the amount of the need of such student as determined by the eligible institution.

"(ii) An eligible institution may not, in carrying out the provisions of subparagraphs (A) and (B) of this paragraph, provide a statement which permits the student to receive any loan under this part in excess of the maximum amount applicable to such loan.".

(c) EXPECTED FAMILY CONTRIBUTION OFFSET.—Section 428(a)(2) of the Act is amended by adding at the end thereof the following new subparagraph:

"(F) For the purpose of subparagraphs (B) and (C) of this paragraph, any loan obtained by a student or a parent under section 428B of this Act or under any State-sponsored or private loan program for an academic year for which the determination is made may be used to offset the expected family contribution of the student for that year.".

(d) REPEAL OF GUARANTEED STUDENT LOAN FAMILY CONTRIBUTION SCHEDULE.—Section 9 of the Student Financial Assistance Technical Amendments of 1982 is repealed.

INTEREST RATE FOR NEW BORROWERS

SEC. 803. (a) NEW BORROWERS.—Section 427A of the Act is amended—

(1) by redesignating subsections (d) and (e) as subsections (e) and (f), respectively; and

(2) by adding after subsection (c) the following new subsection:

"(d) INTEREST RATES FOR NEW BORROWERS AFTER SEPTEMBER 30, 1986.—Notwithstanding subsections (a) and (b) of this section, with respect to any loan (other than a loan made pursuant to section 428B and section 428C) to cover the cost of instruction for any period of enrollment beginning on or after October 1, 1986, to any borrower who, on the date of entering into the note or other written evidence of the loan, has no outstanding balance of principal or interest on any loan made, insured, or guaranteed under this part, the applicable rate of interest shall be—

"(1) 8 percent per year on the unpaid principal balance of the loan during the period beginning on the date of the disbursement of the loan and ending with the commencement of the repayment period; and

"(2) 10 percent per year on the unpaid principal balance of the loan during the repayment period.".

(b) CONFORMING AMENDMENTS.—Section 427A is amended—

(1) by inserting after the subsection designation (a) the following: "RATES TO BE CONSISTENT WITH BORROWER'S ENTIRE DEBT.—";

(2) by inserting after the subsection designation (b) the following: "REDUCTION FOR CERTAIN BORROWERS AFTER DECLINE IN CERTAIN RATES.—";

(3) by inserting after the subsection designation (c) the following: "RATES FOR SUPPLEMENTAL AND PARENTAL LOANS.—";

(4) by inserting after the subsection designation (e) (as redesignated by subsection (a)) the following: "LESSER LOAN RATES PERMITTED.—"; and

(5) by inserting after the subsection designation (f) (as redesignated by subsection (a)) the following: "DEFINITIONS.—".

RULE FOR REINSURANCE BASED ON DEFAULT RATES

SEC. 804. Section 428(c)(1)(B) of the Act is amended—

(1) by striking out "90 per centum" in clause (i) and inserting in lieu thereof "80 per centum"; and

(2) by striking out "80 per centum" in clause (ii) and inserting in lieu thereof "70 per centum".

SPECIAL ALLOWANCE

SEC. 805. (a) GENERAL RULE.—Section 438(b)(2)(A) of the Act is amended by striking out "3.5 per centum" and inserting in lieu thereof "3 per centum".

(b) SPECIAL RULE FOR HOLDERS OBTAINING LOANS FROM TAX EXEMPT OBLIGATIONS.—The first sentence of section 438(b)(2)(B)(i) of the Act is amended by inserting before the period at the end thereof a comma and the following: "except that in setting the rate under this division the per centum prescribed in clause (iii) of subparagraph (A) shall be 3.5 per centum.".

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) of this section shall take effect with respect to loans made on or after October 1, 1986.

DEFINITION OF INDEPENDENT STUDENT

SEC. 806. Section 482(c)(2) of the Act is amended to read as follows:

"(2)(A) For the purpose of this title, the term 'independent student' means a student who is determined, pursuant to regulations of the Secretary, to be independent of the parents or legal guardians of the students.

"(B) In carrying out subparagraph (A) of this paragraph, the Secretary shall apply the criteria specified in subparagraph (C) for the relevant years described in subparagraph (D).

"(C) A student qualifies as an independent student for an award year if the student—

"(i) does not, during any of the relevant years described in subparagraph (D), live for more than 6 weeks in the home of the student's parent for whom income must be reported;

"(ii) is not, for any of the relevant years described in subparagraph (D), claimed as a dependent for Federal income tax purposes by such parent; and

"(iii) does not, during any of the relevant years described in subparagraph (D), receive financial assistance of more than $750 from such parent.

"(D) Except as provided in subparagraph (E), to qualify as an independent student for any award year—

"(i) an unmarried student who has not attained 23 years of age by January 1 of the first calendar year of the award year must satisfy the criteria set forth in subparagraph (C) for the first calendar year of an award year and the 2 preceding calendar years;

"(ii) an unmarried student who has attained 23 years of age by January 1 of the first calendar year of the award year must satisfy the criteria set forth in subparagraph (C) for the first calendar year of an award year and the preceding calendar year;

"(iii) a married student must satisfy the criteria set forth in subparagraph (C) for the first calendar year of the award year and the preceding year; and

"(iv) an unmarried student with minor dependents (excluding a minor spouse) must satisfy the criteria set forth in subparagraph (C) for the first calendar year of the award year and the preceding year.

"(E) Any student will qualify to be an independent student if, before the end of the award year—

"(i) the student is an orphan;

"(ii) the student is declared a ward of a court; or

"(iii) the student is a veteran.

"(F) A student qualifies as an independent student for an award year if, in addition to the requirements otherwise applicable under this paragraph, the student demonstrates to the satisfaction of the institution, in accordance with guidelines prescribed by the Secretary, how, for any of the relevant years prescribed, such student was self-supporting.".

RECOVERY OF OUTSTANDING ADVANCES TO GUARANTY AGENCIES

SEC. 807. Section 422(d)(1) of the Act is amended—

(1) by inserting after the first sentence the following new sentence: "The Secretary shall, in accordance with the requirements of paragraph (2), recover (and so deposit) an amount equal to $20,000,000 during fiscal year 1987."; and

(2) by inserting "additional" before "$75,000,000" in the last sentence.

HOUSING AND OTHER EDUCATIONAL FACILITIES LOANS REAUTHORIZED

SEC. 808. (a) Title VII of the Act is amended—

(1) by redesignating part D as part E;

(2) by redesignating section 741 and section 742 as section 751 and section 752, respectively; and

(3) by adding after part C the following new part:

"PART D—HOUSING AND OTHER EDUCATIONAL FACILITIES LOANS

"FEDERAL ASSISTANCE IN THE FORM OF LOANS

"SEC. 741. (a) AUTHORITY AND CONDITIONS FOR LOANS.—To assist undergraduate postsecondary educational institutions in the construction, reconstruction, or renovation of housing, undergraduate academic facilities, and other educational facilities for students and faculties, the Secretary may make loans of funds to such institutions for the construction, reconstruction, or renovation of such facilities. No such assistance shall be provided unless—

"(1) the educational institution involved is unable to secure the necessary funds for the construction or purchase from other sources upon terms and conditions equally as favorable as the terms and conditions applicable to loans under this title; and

"(2) the Secretary finds that any such construction will be undertaken in an economical manner, and that any such facilities are not or will not be of elaborate or extravagant design or materials.

"(b) USE OF LOANS FOR PREVIOUSLY MADE CONTRACTS.—Any undergraduate postsecondary educational institution which, prior to the date of enactment of this section, has contracted for housing or other educational facilities may, in connection therewith, receive loans authorized under this title, as the Secretary may determine. No such loan shall be made for any housing or other educational facilities, the construction of which was begun prior to the effective date of this section, or completed prior to the filing of an application under this title.

"(c) AMOUNT AND CONDITIONS OF LOANS.—A loan to an undergraduate postsecondary educational institution—

"(1) may be in an amount not exceeding the total development cost of the facility, as determined by the Secretary;

"(2) shall be secured in such manner and be repaid within such period, not exceeding forty years, as may be determined by the Secretary; and

"(3) shall bear interest at a rate determined by the Secretary of the Treasury which shall not be more than the average current yield on outstanding obligations of the United States of comparable maturities

in the month preceding the month in which the contract for such loan is made.

"(d) USE OF FUNDS FROM TITLE IV OF THE HOUSING ACT OF 1950.—Funds obtained pursuant to section 401(d) of the Housing Act of 1950 shall be available for the purposes of carrying out this part. For such purposes, the total amount of notes and obligations which the Secretary may continue to issue and have outstanding for purchase by the Secretary of the Treasury shall not exceed the amount issued and outstanding under such section 401(d) as of September 30, 1985. Such notes and other obligations shall be in such forms and denominations, have such maturities, and be subject to such terms and conditions as may be prescribed by the Secretary, with the approval of the Secretary of the Treasury. Such notes or other obligations issued to obtain funds for loan contracts entered into after the effective date of the Education Savings Act of 1986 shall bear interest at a rate determined by the Secretary of the Treasury which shall not be more than the average current yield on outstanding obligations of the United States of comparable maturities in the month preceding the month in which the contract for such loan is made. The Secretary of the Treasury is authorized and directed to purchase any notes and other obligations of the Secretary issued under this part and for such purpose is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, United States Code, and the purposes for which securities may be issued under such chapter are extended to include any purchases of such notes and other obligations. The Secretary of the Treasury may at any time sell any of the notes or other obligations acquired under this part. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes or other obligations shall be treated as public debt transactions of the United States.

"(e) USE OF FUNDS.—Not less than 10 percent of the funds held by the Secretary under subsection (d) of this section shall be made available for loans under this part for each fiscal year.

"(f) APPROPRIATION TO COVER NOTES AND OBLIGATIONS NOT COVERED BY LOAN REPAYMENT.—There are authorized to be appropriated to the Secretary such sums as may be necessary, together with principal and interest payments made by postsecondary educational institutions assisted with loans made under this part (or under title IV of the Housing Act of 1950), for payment on notes and obligations issued by the Secretary under this part or such title.

"GENERAL PROVISIONS

"SEC. 742. (a) BUDGET AND ACCOUNTING.—In the performance of, and with respect to, the functions, powers, and duties under this part, the Secretary, notwithstanding the provisions of any other law, shall—

"(1) prepare annually and submit a budget program as provided for wholly owned Government corporations by chapter 91 of title 31, United States Code; and

"(2) maintain a set of accounts which shall be audited by the Comptroller General in accordance with the provisions of chapter 35 of title 31, United States Code, but such financial transactions of the Secretary, as the making of loans and vouchers approved by the Secretary, in connection with such financial transactions shall be final and conclusive upon all officers of the Government.

"(b) USE OF FUNDS.—Funds made available to the Secretary pursuant to the provisions of this part shall be deposited in a checking account or accounts with the Treasurer of the United States. Receipts and assets obtained or held by the Secretary in connection with the performance of functions under this part, and all funds available for carrying out the functions of the Secretary under this part (including appropriations therefore, which are hereby authorized), shall be available, in such amounts as may from year to year be authorized by the Congress, for the administrative expenses of the Secretary in connection with the performance of such functions.

"(c) LEGAL POWERS.—In the performance of, and with respect to, the functions, powers, and duties under this part, the Secretary, notwithstanding the provisions of any other law, may—

"(1) prescribe such rules and regulations as may be necessary to carry out the purposes of this part;

"(2) sue and be sued;

"(3) foreclose on any property or commence any action to protect or enforce any right conferred upon him by any law, contract, or other agreement, and bid for and purchase at any foreclosure or any other sale any property in connection with which the Secretary has made a loan pursuant to this part;

"(4) in the event of any such acquisition, notwithstanding any other provision of law relating to the acquisition, handling, or disposal of real property by the United States, complete, administer, remodel and convert, dispose of, lease and otherwise deal with, such property, but any such acquisition of real property shall not deprive any State or political subdivision thereof of its civil or criminal jurisdiction in and over such property or impair the civil rights under the State or local laws of the inhabitants on such property;

"(5) sell or exchange at public or private sale, or lease, real or personal property, and sell or exchange any securities or obligations, upon such terms as the Secretary may fix;

"(6) obtain insurance against loss in connection with property and other assets held;

"(7) subject to the specific limitations in this part, consent to the modification, with respect to the rate of interest, time of payment of any installment of principal or interest, security, or any other term of any contract or agreement to which the Secretary is a party or which has been transferred to the Secretary pursuant to this part granting to a borrower of a loan made before October 1, 1986, the option of repaying the loan at a discount computed in accordance with subsection (d); and

"(8) include in any contract or instrument made pursuant to this title such other covenants, conditions, or provisions as may be necessary to assure that the purposes of this part will be achieved.

"(d) COMPUTATION OF ALLOWABLE DISCOUNTS.—The Secretary shall compute the discount which may be offered to a borrower as an inducement to early repayment under subsection (b)(7) in an amount determined by the Secretary to be in the best financial interests of the Government, taking into account the yield on outstanding marketable obligations of the United States having maturities comparable to the remaining term of such loan, if (1) the repayment is made from non-Federal sources, (2) the Secretary has received satisfactory assurances that the housing or other educational facilities financed with the loan will continue to be used for purposes related to the educational institution for the original term of the loan, and (3) the repayment is made prior to October 1, 1991.

"(e) CONTRACTS FOR SUPPLIES OR SERVICES.—Section 3709 of the Revised Statutes shall not apply to any contract for services or supplies on account of any property acquired pursuant to this part if the amount of such contract does not exceed $1,000.

"(f) APPLICABILITY OF GOVERNMENT CORPORATION CONTROL ACT.—The provisions of section 9107(a) of title 31, United States Code, which are applicable to corporations or agencies subject to chapter 91 of such title, shall also be applicable to the activities of the Secretary under this part.

"(g) WAGE RATES.—The Secretary shall take such action as may be necessary to ensure that all laborers and mechanics employed by contractors or subcontractors or any project assisted under this part, the construction or rehabilitation of which was commenced after the date of enactment of the Housing Act of 1950—

"(1) shall be paid wages at rates not less than those prevailing on the same type of work on similar construction in the immediate locality as determined by the Secretary of Labor in accordance with the Act of March 3, 1931 (Davis-Bacon Act), as amended; and

"(2) shall be employed not more than forty hours in any one week unless the employee receives wages for his employment in excess of the hours specified above at a rate not less than one and one-half times the regular rate at which he is employed;

but the Secretary may waive the application of this subsection in cases or classes of cases where laborers or mechanics, not otherwise employed at any time in the construction of such project, voluntarily donate their services without full compensation for the purpose of lowering the costs of construction and the Secretary determines that any amounts saved thereby are fully credited to the educational institution undertaking the construction.

"(h) SALES OF OBLIGATIONS REQUIRED.—The Secretary shall sell, at public or private sale, obligations held under this title upon such terms as the Secretary may fix and in such amounts as the Secretary determines will carry out the directions in the concurrent resolution on the budget for the fiscal year 1987 (S. Con. Res. 120, 99th Congress, agreed to June 27, 1986).

"APPORTIONMENT; PRIORITIES; LIMITATION

"SEC. 743. (a) APPORTIONMENT.—Not more than 12.5 percent of the amount of the funds provided for in this part in the form of loans shall be made available to educational institutions within any one State.

"(b) PRIORITIES.—In awarding loans under this part, the Secretary shall give priority—

"(A) to loans for renovation or reconstruction of undergraduate academic facilities;

"(B) to loans for renovation or reconstruction of older undergraduate academic facilities and undergraduate academic facilities that have gone without major renovation or reconstruction for an extended period.

"(c) LIMITATION.—No loan application may be made under this part until 10 years after the date on which an undergraduate postsecondary educational institution received a loan under this part.

"DEFINITIONS

"SEC. 744. For the purposes of this part—

"(1) HOUSING.—The term 'housing' means—

"(A) new or existing structures suitable for dwelling use, including single-room dormitories and apartments; and

"(B) dwelling facilities provided for rehabilitation, alteration, conversion, or improvement of existing structures which are otherwise inadequate for the proposed dwelling use.

"(2) EDUCATIONAL INSTITUTION.—The term 'undergraduate postsecondary educational institution' means—

"(A)(i) any educational institution which offers, or provides satisfactory assurance to the Secretary that it will offer within a reasonable time after completion of a facility for which assistance is requested under this part, at least a two-year program acceptable for full credit toward a baccalaureate degree (including any public educational institution, or any private educational institution no part of the net earnings of which inures to the benefit of any private shareholder or individual); or

"(ii) any public educational institution which—

"(I) is administered by a college or university which is accredited by a nationally recognized accrediting agency or association;

"(II) offers technical or vocational instruction; and

"(III) provides residential facilities for some or all of the students receiving such instruction;

"(B) any hospital operating a school of nursing beyond the level of high school approved by the appropriate State authority, or any hospital approved for internships, by recognized authority, if such hospital is either a public hospital or a private hospital, no part of the net earnings of which inures to the benefit of any private shareholder or individual;

"(C) any corporation (no part of the net earnings of which inures to the benefit of any private shareholder or individual)—

"(i) established for the sole purpose of providing housing or other educational facilities for students or students and faculty of one or more institutions included in clause (A) of this paragraph without regard to their membership in or affiliation with any social, fraternal, or honorary society or organization; and

"(ii) upon dissolution of which all title to any property purchased or built from the proceeds of any loan which is made under section 741, will pass to such institution (or to any one or more of such institutions) unless it is shown to the satisfaction of the Secretary that such property or the proceeds from its sale will be used for some other nonprofit educational purpose;

"(D) any agency, public authority, or other instrumentality of any State, established for the purpose of providing or financing housing or other educational facilities for students or faculty of any educational institution included in clause (A) of this paragraph, but nothing in this paragraph shall require an institution included in clause (A) of this paragraph to obtain loans or grants through any instrumentality included in this clause; and

"(E) any nonprofit student housing cooperative corporation established for the purpose of providing housing for students or students and faculty of any institution included in clause (A) of this paragraph.

In the case of any loan made under section 741 to a corporation described in clause (C) of this paragraph which was not established by the institution or institutions for whose students or students and faculty it would provide housing, or to a student housing cooperative corporation described in clause (E) of this paragraph, and in the case of any loan which is obtained from other sources by such a corporation, the Secretary shall require that the note securing such loan be cosigned by such institution (or by any one or more of such institutions). Where the law of any State in effect on the date of enactment of the Housing Act of 1964 prevents the institution or institutions, for whose students or students and faculty housing is to be provided, from cosigning the note, the Secretary shall require the corporation and the proposed project to be approved by such institution (or by any one or more of such institutions) in lieu of such cosigning.

"(3) UNDERGRADUATE ACADEMIC FACILITIES.—(A) Except as provided in subparagraph (B) of this paragraph, the term 'undergraduate academic facilities' means structures suitable for use as classrooms, laboratories, libraries, and related facilities, the primary purpose of which is the instruction of students pursuing a baccalaureate degree, or for administration of the educational programs serving such students, of an institution of higher education, and maintenance, storage, or utility facilities essential to operation of the foregoing facilities, as well as infirmaries or other facilities designed to provide primarily for outpatient care of student and instructional personnel. Plans for such facilities shall be in compliance with such standards as the Secretary may prescribe or approve in order to insure that projects assisted with the use of Federal funds under this title shall be, to the extent appropriate in view of the uses to be made of the facilities, accessible to and usable by handicapped persons.

"(B) The term 'undergraduate academic facilities' shall not include—

"(i) any facility intended primarily for events for which admission is to be charged to the general public,

"(ii) any gymnasium or other facility specially designed for athletic or recreational activities, other than for an academic course in physical education or where the Secretary finds that the physical integration of such facilities with other undergraduate academic facilities included under this part is required to carry out the objectives of this part,

"(iii) any facility used or to be used for sectarian instruction or as a place for religious worship, or

"(iv) any facility which (although not a facility described in the preceding clause) is used or to be used primarily in connection with any part of the program of a school or department of divinity.

"(4) DEVELOPMENT COST.—The term 'development cost' means costs of the construction of the housing or other educational facilities and the land on which it is located, including necessary site improvements to permit its use for housing or other educational facilities; except that in the case of the purchase of facilities such term means the cost as approved by the Secretary.

"(5) FACULTIES.—The term 'faculties' means members of the faculty and their families.

"(6) OTHER EDUCATIONAL FACILITIES.—The term 'other educational facilities' means (A) new or existing structures suitable for use as cafeterias or dining halls, student centers or student unions, infirmaries or other inpatient or outpatient health facilities, or for other essential service facilities, and (B) structures suitable for the above uses provided by rehabilitation, alteration, conversion, or improvement of existing structures which are otherwise inadequate for such uses.".

(b) Title IV of the Housing Act of 1950 is repealed.

EFFECTIVE DATE

SEC. 809. Except as otherwise provided in this Act, the amendments made by this title shall take effect on October 1, 1986.

TITLE IX—COMMITTEE ON SMALL BUSINESS

SEC. 901. PILOT LOAN ASSET SALE.

Title V of the Small Business Investment Act of 1958 is amended by adding at the end thereof the following new section:

"SEC. 506. (a) Except as provided in subsection (c), notwithstanding any law, rule, or regulation, the Secretary of the Treasury shall sell to the public, by private placement or otherwise as the Secretary determines to be appropriate, all of the right, title, and interest in debentures issued pursuant to section 503 of this title and held by the Federal Financing Bank in such amounts as to realize net proceeds of—

"(1) $343,000,000 from such sales during fiscal year 1987;

"(2) $55,000,000 from such sales during fiscal year 1988; and

"(3) $14,000,000 from such sales during fiscal year 1989.

"(b) Simultaneously with the sale referred to in subsection (a), the Administration shall assign all of its interest in notes, mortgages, guarantees, security interest, or other interest in underlying collateral supporting any debenture sold pursuant to this section to the purchaser of such interest.

"(c) Any sales by the Secretary under this section shall be on a nonrecourse basis to the Federal Government and shall provide that for purposes of disbursements, collections, and payments of receipts to purchasers the companies certified under section 503 of this title shall continue to have the right to service the loans underlying such debentures.

"(d) In the event of default on a debenture, the liability of the relevant certified development company shall be limited to all payments made by the small business concern to the certified development company and the collateral securing the defaulted loan.

"(e) With the sale of each debenture as specified in subsection (a), the Administration's guarantee of timely payment of principal and interest on the debenture will be deemed discharged. The Administration shall incur no liability or obligation to the Secretary or the Federal Financing Bank in connection with any sale of a debenture under this section.".

SEC. 902. In order to achieve the budget savings specified in the amendment made by section 901 of this Act, neither the Secretary of the Treasury nor the Administration shall sell any loans, portions of loans, or notes or debentures guaranteed by the Administration pursuant either to the Small Business Act or the Small Business Investment Act of 1958 except those specified in the amendment made by section 901, except that this section shall not apply to the sale of debentures or other securities provided for in sections 321 and 504 of the Small Business Investment Act of 1958.

TITLE X—SOCIAL SECURITY COLAS

SEC. 1001. REMOVAL OF THREE PERCENT THRESHOLD FOR COST-OF-LIVING ADJUSTMENTS.

(a) SHORT TITLE.—This title may be cited as the "Cost-of-Living Adjustment Reform Act of 1986".

(b) IN GENERAL.—

(1) Section 215(i) of the Social Security Act is amended by striking out "is 3 percent or more" in paragraph (1)(B) and inserting in lieu thereof "is greater than zero".

(2) Section 215(i)(1)(B) of such Act, as in effect in December 1978 and applied in certain cases under the provisions of such Act as in effect after December 1978, is amended by striking out "exceeds, by not less than 3 per centum, such Index" and inserting in lieu thereof "exceeds such Index".

(3) Section 215(i)(2)(C) of such Act is amended—

(A) by striking out clause (i) and redesignating clauses (ii) and (iii) as clauses (i) and (ii), respectively; and

(B) by striking out "under clause (ii)" and clause (ii) as so redesignated and inserting in lieu thereof "under clause (i)".

(4) Section 215(i)(2)(C) of such Act, as in effect in December 1978 and applied in certain cases under the provisions of such Act as in effect after December 1978, is amended by striking out clause (i) and by striking out "(ii)".

(5) Section 215(i)(4) of such Act is amended by inserting "and by the Cost-of-Living Adjustment Reform Act of 1986" after "Social Security Amendments of 1983".

(6) Section 215(i)(5)(A)(i) of such Act is amended by striking out "because the wage percentage increase was less than 3 percent" and inserting in lieu thereof "because there was no wage percentage increase greater than zero".

(c) TECHNICAL AMENDMENT TO SMI PROGRAM.—Section 1839(f)(2)(A) of such Act is amended to read as follows:

"(A) the monthly premium amount determined under subsection (a)(2) for that January reduced by the amount (if any) by which the month benefit under section 202 or 223 for that November, after the deduction of the premium (disregarding subsection (b)) for that individual for that December and after rounding under section 215(g), would exceed the monthly benefit under section 202 or 223 for that December, after the deduction of monthly premium amount determined under subsection (a)(2) (disregarding subsection (b)) for that individual for that January and after rounding under section 215(g), or".

(d) EFFECTIVE DATE.—

(1) Except as otherwise provided in this subsection, the amendments made by this section shall apply with respect to cost-of-living increases determined in 1986 and all subsequent years.

(2) The amendments made by paragraphs (3) and (4) of subsection (b) shall apply with respect to months beginning after September 1986.

(3) The amendment made by subsection (c) shall apply with respect to monthly premiums (under section 1839 of the Social Security Act) for months after December 1986.

TITLE XI—MISCELLANEOUS PROVISIONS

SEC. 1101. COMPUTATION OF RETIREMENT ANNUITY FOR PART-TIME EMPLOYMENT.

(a)(1) Subsection (b) of section 15204 of the Consolidated Omnibus Budget Reconciliation Act of 1985 (Public Law 99-272; 100 Stat. 335) is repealed.

(2) The provision of title 38, United States Code, that was repealed by such subsection is revived.

(b) Subsection (c) of section 15204 of such Act is redesignated as subsection (b).

(c) This section is effective with respect to individuals who retire after September 19, 1986.

SEC. 1102. MAKING RULES ON EXTRANEOUS PROVISIONS PERMANENT.

(a) Section 20001(c) of Public Law 99-272 is amended by striking out "and shall remain in effect until January 2, 1987".

(b) Senate Resolution 286, adopted December 19, 1985, is amended by striking "section 1201" each place it appears and inserting in lieu thereof "section 20001".

SEC. 1103. MODIFICATION OF DEADLINE FOR SUBMISSION OF PRESIDENT'S BUDGET.

(a) Section 1105(a) of title 31, United States Code, is amended by striking out "first Monday after January 3 of each year (or on or before February 5 in 1986)" and inserting in lieu thereof "first Tuesday in February of each year".

(b) Section 300 of the Congressional Budget Act of 1974 is amended by striking out "First Monday after January 3" and inserting in lieu thereof "First Tuesday in February".

(c) Section 1109(a) of title 31, United States Code, is amended by striking out "On or before the first Monday after January 3 of each year (on or before February 5 in 1986)" and inserting "Concurrently with each budget submitted pursuant to section 1105(a) of this title".

SEC. 1104. TREATMENT OF LOAN ASSET SALES FOR DEFICIT REDUCTION.

(a) In order to achieve the purposes of the concurrent resolution on the budget for fiscal year 1987, S. Con. Res. 120, 99th Congress, and notwithstanding any other provision of this Act, any sale of debentures, as well as any underlying Federal guaranty, by the Secretary of the Treasury, or any other agent of the United States, pursuant to provisions of this Act, shall be without recourse to the Federal Government and shall discharge the Federal Government's obligations with respect to any individual purchaser or assignee of such debenture.

(b) In the interest of budgetary savings, it is the intent of the Congress that this section be interpreted by the Secretary of the Treasury, or any other agent of the United States, and any court of law, as superseding any provision of this Act appearing to set forth a contrary requirement.

SEC. 1105. DENIAL OF CERTAIN TAX BENEFITS WITH RESPECT TO ACTIVITIES IN CERTAIN FOREIGN COUNTRIES.

(a) DENIAL OF FOREIGN TAX CREDIT.—Section 901 (relating to taxes of foreign countries and of possessions of the United States) is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

"(i) DENIAL OF FOREIGN TAX CREDIT, ETC. WITH RESPECT TO CERTAIN FOREIGN COUNTRIES.—

"(1) IN GENERAL.—Notwithstanding any other provision of this part—

"(A) no credit shall be allowed under subsection (a) for any income, war profits, or excess profits taxes paid or accrued (or deemed paid under section 902 or 960) during the taxable year to any country to which this subsection applies, and

"(B) subsections (a), (b), and (c) of section 904 and sections 902 and 960 shall be applied separately with respect to income for such taxable year from sources within any country so identified.

"(2) COUNTRIES TO WHICH SUBSECTION APPLIES.—

"(A) IN GENERAL.—This subsection shall apply to any foreign country—

"(i) the government of which the United States does not recognize, unless such government is otherwise eligible to purchase defense articles or services under the Arms Export Control Act,

"(ii) with respect to which the United States has severed diplomatic relations,

"(iii) with respect to which the United States has not severed diplomatic relations but does not conduct such relations, or

"(iv) which the Secretary of State has, pursuant to section 6(j) of the Export Administration Act of 1979, as amended, designated as a foreign country which repeatedly provides support for acts of international terrorisms.

"(B) PERIOD FOR WHICH SUBSECTION APPLIES.—This subsection shall apply to any foreign country described in subparagraph (A) during the period—

"(i) beginning on the later of—

"(I) January 1, 1987, or

"(II) 6 months after such country becomes a country described in subparagraph (A), and

"(ii) ending on the date the Secretary of State certifies to the Secretary of the Treasury that such country is no longer described in subparagraph (A).

"(3) PART-YEAR RULE.—If this subsection applies to any foreign country for any period less than an entire taxable year, paragraph (1) shall be applied by taking into account only that proportion of the taxes and income described in paragraph (1) for the taxable year as the portion of the taxable year which includes such period bears to the entire taxable year."

"(b) DENIAL OF DEFERRAL OF INCOME.—

"(1) GENERAL RULE.—Section 952(a) (defining subpart F income) is amended by striking out "and" at the end of paragraph (3), by striking out the period at the end of paragraph (4) and inserting in lieu thereof ", and", and by inserting immediately after paragraph (4) the following new paragraph:

"(5) the income of such corporation derived from any foreign country during any period during which section 904(i) applies to such foreign country."

(2) INCOME DERIVED FROM FOREIGN COUNTRY.—Section 952 (defining subpart F income) is amended by adding at the end thereof the following new subsection:

"(e) INCOME DERIVED FROM FOREIGN COUNTRY.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of subsection (a)(5), including regulations which treat income paid through 1 or more entities as derived from a foreign country to which section 904(i) applies if such income was, without regard to such entities, derived from such country."

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 1987.

SEC. 1106. FOOD FOR PEACE FUNDS.

Funds made available by title IV of the Agriculture, Rural Development, and Related Agencies Appropriations Act of 1986 for Public Law 480, title II programs, and not otherwise obligated on the date of enactment of this section, shall be obligated during fiscal year 1986 for the purposes for which they were made available only.

71-059 O-87-43 (Pt. 17)

SEC. 1107. MEDICARE PAYMENTS TO LARGE RURAL HOSPITALS SERVING A DISPROPORTIONATE SHARE OF LOW-INCOME PATIENTS.

(a) IN GENERAL.—Section 1886(d)(5)(F)(v) of the Social Security Act (42 U.S.C. 1395ww(d)(5)(F)(v)) is amended—

(1) by striking "or" at the end of subclause (II), and

(2) by striking subclause (III) and inserting in lieu thereof the following new subclauses:

"(III) such percentages as are determined by the Secretary to be appropriate for hospitals located in a rural area which have 300 or more beds, or

"(IV) 45 percent if the hospital is located in a rural area and has less than 300 beds."

(b) CONFORMING CHANGE.—Section 1886(d)(5)(F)(iv) of such Act is amended—

(1) in subclause (I) by inserting ", or is located in a rural area and has 300 or more beds," after "beds,", and

(2) in subclause (III) by inserting "and has less than 300 beds" after "area".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to discharges occurring on or after October 1, 1986.

TITLE XII—MISCELLANEOUS RETIREMENT BENEFITS PROTECTIONS

Subtitle A—Protections From Extraordinary Public Debt Management

SEC. 1201. INVESTMENT AND RESTORATION OF TRUST FUNDS.

(a) IN GENERAL.—Subsection (d) of section 201 of the Social Security Act (42 U.S.C. 401(d)) is amended—

(1) by striking out "(1) on original issue" and inserting in lieu thereof "(A) on original issue",

(2) by striking out "(2) by purchase" and inserting in lieu thereof "(B) by purchase";

(3) by striking out "It shall be" and inserting in lieu thereof "(1) It shall be", and

(4) by adding at the end thereof the following new paragraphs:

"(2) If—

"(A) any amounts in the Trust Funds have not been invested solely by reason of the public debt limit, and

"(B) the taxes described in clause (3) or (4) of subsection (a) with respect to such amounts were appropriated to the Trust Funds have actually been received into the general fund of the Treasury of the United States,

such amounts shall be invested by the Managing Trustee as soon as such investments can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title.

"(3)(A) Upon expiration of any debt limit impact period, the Managing Trustee shall immediately—

"(i) reissue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations held by such Trust Fund that—

"(I) were redeemed during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of standard investment procedures for such Trust Fund in effect on the day before the date on which the debt limit impact period began, would not have been redeemed if the debt limit impact period had not occurred, and

"(ii) issue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations which—

"(I) were not issued during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of such standard investment procedures, would have been issued if the debt limit impact period had not occurred.

"(B) Obligations issued or reissued under subparagraph (A) shall be substituted for obligations that are held by the Trust Fund, and for amounts in the Trust Fund that have not been invested, on the date on which the debt limit impact period ends in a manner that will ensure that, after such substitution, the holdings of the Trust Fund will replicate to the maximum extent practicable the obligations that would be held by such Trust Fund if the debt limit impact period had not occurred.

"(C) In determining, for purposes of this paragraph, the obligations that would be held by a Trust Fund if the debt limit impact period had not occurred, any amounts in the Trust Fund which have not been invested, and any amounts required to be invested under paragraph (2), shall be treated as amounts which were required to be invested upon transfer to the Trust Fund.

"(4) The Managing Trustee shall pay, on the first normal interest payment date that occurs on or after the date on which any debt limit impact period ends, to each of the Trust Funds, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Managing Trustee to be equal to the excess of—

"(A) the net amount of interest that would have been earned by such Trust Fund during such debt limit impact period if—

"(i) amounts in such Trust Fund that were not invested during such debt limit impact period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to such Trust Fund which occurred during such debt limit impact period solely by reason of the public debt limit had not occurred, over

"(B) the sum of—

"(i) the net amount of interest actually earned by such Trust Fund during such debt limit impact period, plus

"(ii) the total amount of the principal of all obligations issued or reissued under paragraph (3)(A) at the end of such debt limit impact period that is attributable to interest that would have earned by such Trust Fund during such debt limit impact period but for the public debt limit.

"(5) For purposes of this section—

"(A) The term 'public debt limit' means the limitation imposed by subsection (b) of section 3101 of title 31, United States Code.

"(B) The term 'debt limit impact period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) AVAILABILITY OF FUNDS.—Subsection (a) of section 201 of the Social Security Act is amended by adding at the end thereof the following new sentence: "All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Funds are specifically made available under this title or under any other provisions of law directly related to the programs established by this title.".

SEC. 1202. CIVIL SERVICE RETIREMENT AND DISABILITY FUND.

(a) INVESTMENT AND RESTORATION OF THE FUND.—Section 8348 of title 5, United States Code, is amended by adding at the end the following new subsection:

"(j)(1) Notwithstanding subsection (c) of this section, the Secretary of the Treasury may suspend additional investment of amounts in the Fund if necessary to ensure that the public debt of the United States does not exceed the public debt limit.

"(2) Any amounts of the Fund which, solely by reason of the public debt limit, are not invested shall be invested by the Secretary of the Treasury as soon as such investments can be made without exceeding the public debt limit.

"(3) Upon expiration of the debt issuance suspension period, the Secretary of the Treasury shall immediately issue to the Fund obligations under chapter 31 of title 31 that (notwithstanding subsection (d) of this section) bear such interest rates and maturity dates as are necessary to ensure that, after such obligations are issued, the holdings of the Fund will replicate to the maximum extent practicable the obligations that would be held by the Fund if the debt issuance suspension period had not occurred.

"(4) On the first normal interest payment date after the expiration of any debt issuance suspension period, the Secretary of the Treasury shall pay to the Fund, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Secretary to be equal to the excess of—

"(A) the net amount of interest that would have been earned by the Fund during such debt issuance suspension period if—

"(i) amounts in the Fund that were not invested during such debt issuance suspension period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to the Fund which occurred during such debt issuance suspension period solely by reason of the public debt limit had not occurred, over

"(B) the net amount of interest actually earned by the Fund during such debt issuance suspension period.

"(5) For purposes of this subsection and subsections (k) and (l) of this section—

"(A) the term 'public debt limit' means the limitation imposed by section 3101(b) of title 31; and

"(B) the term 'debt issuance suspension period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) SALES AND REDEMPTIONS BY THE FUND.—Section 8348 of title 5, United States Code, as amended by subsection (a), is further amended by adding at the end the following new subsection:

"(k) The Secretary of the Treasury may sell or redeem securities, obligations, or other invested assets of the Fund only for the purpose of enabling the Fund to make payments authorized by the provisions of this subchapter or chapter 84 of this title is related provisions of law. If the Fund holds any amounts which, by reason of the public debt limit, are not invested, the Secretary

may nevertheless make such sales and redemptions if, and only to the extent, necessary to ensure that such payments are made in a timely manner.".

(c) REPORTS REGARDING THE OPERATION AND STATUS OF THE FUND.—Section 8348 of title 5, United States Code, as amended by subsections (a) and (b), is further amended by adding at the end the following new subsection:

"(l)(1) The Secretary of the Treasury shall report to Congress on the operation and status of the Fund during each debt issuance suspension period for which the Secretary is required to take action under paragraph (3) or (4) of subsection (j) of this section. The report shall be submitted as soon as possible after the expiration of such period, but not later than the date that is 30 days after the first normal interest payment date occurring after the expiration of such period. The Secretary shall concurrently transmit a copy of such report to the Comptroller General of the United States.

"(2) Whenever the Secretary of the Treasury determines that, by reason of the public debt limit, the Secretary will be unable to fully comply with the requirements of subsection (c) of this section, the Secretary shall immediately notify Congress of the determination. The notification shall be made in writing.".

SEC. 1203. COST-OF-LIVING ADJUSTMENTS IN CERTAIN FEDERAL BENEFITS.

(a) IN GENERAL.—Benefits which are payable in calendar year 1987, 1988, 1989, 1990, or 1991, under programs listed in section 257(1)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), including any cost-of-living adjustment in such benefits, shall not be subject to modification, suspension, or reduction in such calendar year pursuant to a Presidential order issued under such Act.

(b) DEFINITION.—For purposes of this section, the term "cost-of-living adjustment" means any increase or change in the amount of a benefit or in standards relating to such benefit under any provision of Federal law which requires such increase or change as a result of any change in the Consumer Price Index (or any component thereof) or any other index which measures costs, prices, or wages.

SEC. 1204. EXEMPT PROGRAMS AND ACTIVITIES.

(a) IN GENERAL.—Section 255(g)(1) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 905(g)(1)) is amended by inserting after the item relating to Compensation of the President the following new item:

"Dual benefits payments account (60-0111-0-1-601);".

(b) APPLICATION.—The amendment made by subsection (a) shall apply to fiscal years beginning after September 30, 1986.

Subtitle B—Older Americans Pension Benefits

SEC. 1210. BENEFIT ACCRUAL BEFORE MAXIMUM NORMAL RETIREMENT BENEFIT.

Section 4(f) of the Age Discrimination in Employment Act of 1967 (29 U.S.C. 623(f)) is amended—

(1) by inserting "(1)" after the subsection designation;

(2) by redesignating paragraphs (1) through (3) as subparagraphs (A) through (C), respectively;

(3) in subparagraph (B) (as so redesignated)—

(A) by striking out "and" after "hire any individual,"; and

(B) by inserting before the semicolon at the end thereof a comma and "and no employee benefit plan shall require or permit the suspension of an employee's benefit accrual, or the reduction of the rate of an employee's benefit accrual, because of age before accruing the maximum normal retirement benefit under the plan unless the plan is a defined benefit pension plan that provides that the employee's retirement benefit is actuarially increased to reflect a retirement date that occurs after the month in which the employee attains the normal retirement age under the plan"; and

(4) by adding at the end thereof the following new paragraph:

"(2) Nothing in this section shall be construed to prohibit an employer, employment agency, or labor organization from observing the terms of an employee benefit plan that—

"(A) excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 202(a)(2) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1052(a)(2)); or

"(B) imposes a limitation on the benefits that the plan provides or on the number of years of service or years of participation that the plan recognizes with respect to an employee.".

SEC. 1211. BENEFIT ACCRUAL BEYOND NORMAL RETIREMENT AGE.

(a) ERISA AMENDMENT.—

(1) IN GENERAL.—Subsection (a) of section 204 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1054(a)) is amended to read as follows:

"(a) Each pension plan shall satisfy the requirements of subsection (b)(3), and—

"(1) in the case of a defined benefit plan, shall satisfy the requirements of subsection (b)(1); and

"(2) in the case of a defined contribution plan, shall satisfy the requirements of subsection (b)(2).".

(2) DEFINED BENEFIT PLANS.—Section 204(b)(1) of such Act is amended by adding at the end thereof the following new subparagraph:

"(H)(i) Notwithstanding the preceding subparagraphs, a defined benefit plan shall be treated as not satisfying the requirements of this paragraph if, under the terms of the plan, an employee's benefit accrual is suspended or the rate of an employee's benefit accrual is reduced solely because of age before accruing the maximum normal retirement benefit under the plan unless the plan provides that the employee's retirement benefit is actuarially increased to reflect a retirement date that occurs after the month in which the employee attains the normal retirement age under the plan.

"(ii) A defined benefit plan shall not be treated as not satisfying the requirements of this subparagraph solely because the plan—

"(I) excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 202(a)(2); or

"(II) imposes a limitation on the benefits that the plan provides or on the number of years of service or years of participation that the plan recognizes with respect to an employee.".

(3) DEFINED CONTRIBUTION PLANS.—Section 204(b) of such Act is further amended—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following new paragraph:

"(2)(A) An individual account plan satisfies the requirements of this paragraph if, under the plan, employer contributions to the employee's account are not suspended or reduced solely because of age.

"(B) A target benefit plan (as defined under regulations prescribed by the Secretary of the Treasury) shall not be treated as not satisfying the requirements of this paragraph solely because the plan excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 202(a)(2).

"(C) An individual account plan (including such a target benefit plan) shall not be treated as not satisfying the requirements of this paragraph solely because the plan imposes a limitation on the contributions that may be made or on the number of years for which contributions will be made under the plan with respect to an employee.".

(4) CERTAIN PLAN AMENDMENTS.—Section 204(g)(2) of such Act is amended by adding at the end thereof the following new sentence: "For purposes of paragraph (1), in the case of a plan that on the date of enactment of the Sixth Omnibus Budget Reconciliation Act, 1986, provided for the distribution or the commencement of distribution of the entire interest of an employee under the plan on or after attaining the normal retirement age under the plan regardless of whether the employee has separated from service, an amendment that postpones the date as of which such distribution will be made or commence, and which is adopted within the 12-month period following the date on which section 204(h)(1)(H) or section 204(b)(2) (as amended by such Act) becomes applicable to the plan, shall not be treated as reducing accrued benefits.".

(b) CODE AMENDMENTS.—

(1) DEFINED BENEFITS PLANS.—Section 411(b)(1) of the Internal Revenue Code of 1954 (relating to accrued benefit requirements) is amended—

(A) by striking out "GENERAL RULES.—" and inserting in lieu thereof "DEFINED BENEFIT PLANS.— "; and

(B) by adding at the end thereof the following new subparagraph:

"(H) CONTINUED ACCRUAL BEYOND NORMAL RETIREMENT AGE.—

"(i) IN GENERAL.—Notwithstanding the preceding subparagraphs, a defined benefit plan shall be treated as not satisfying the requirements of this paragraph if, under the terms of the plan, an employee's benefit accrual is suspended or the rate of an employee's benefit accrual is reduced solely because of age before accruing the maximum normal retirement benefit under the plan unless the plan provides that the employee's retirement benefit is actuarially increased to reflect a retirement date that occurs after the month in which the employee attains the normal retirement age under the plan.

"(ii) EXCEPTION.—A defined benefit shall not be treated as not satisfying the requirements of this subparagraph solely because the plan—

"(I) excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 410(a)(2); or

"(II) imposes a limitation on the benefits that the plan provides or on the number of years of service or years of participation that the plan recognizes with respect to an employee.".

(2) DEFINED CONTRIBUTION PLANS.—Section 411(b) of such Code is further amended—

(A) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(B) by inserting after paragraph (1) the following new paragraph:

"(2) DEFINED CONTRIBUTION PLANS.—

"(A) IN GENERAL.—A defined contribution plan satisfies the requirements of this paragraph if employer contributions to the employee's account are not suspended or reduced solely because of age.

"(B) TARGET BENEFIT PLANS.—A target benefit plan (as defined under regulations prescribed by the Secretary) shall not be treated as not satisfying the requirements of this paragraph solely because the plan excludes from participation (on the basis of age) employees who have attained a specified age in accordance with section 410(a)(2).

"(C) INDIVIDUAL ACCOUNT PLANS.—An individual account plan (including such a target benefit plan) shall not be treated as not satisfying the requirements of this paragraph solely because the plan imposes a limitation on the contributions that may be made or on the number of years for which contributions will be made under the plan with respect to an employee.".

(3) CERTAIN PLAN AMENDMENTS.—Section 411(d)(6)(B) of such Code (relating to amendments that reduce accrued benefits) is amended by adding at the end thereof the following sentence: "For purposes of subparagraph (B), in the case of a plan that on the date of enactment of the Sixth Omnibus Budget Reconciliation Act, 1986, provided for the distribution or the commencement of distribution of the entire interest of an employee under the plan on or after attaining the normal retirement age under the plan regardless of whether the employee has separated from service, an amendment that postpones the date as of which such distribution will be made or commence, and which is adopted within the 12-month period following the date on which section 411(b)(1)(H) or section 411(b)(2) (as amended by such Act) becomes applicable to the plan, shall not be treated as reducing accured benefits.".

(4) INTEGRATED PLANS.—Section 401(a)(5) of such Code (relating to a nondiscriminatory classification of employees) is amended by inserting after the second sentence the following new sentence: "Nor shall a plan be considered discriminatory within the meaning of such provisions merely because, in the case of an employee who has attained the normal retirement age under the plan, the plan provides for a rate of benefit accrual or contributions (including retirement benefits created under State or Federal law) that does not exceed the rate of benefit accrual or contributions under the plan (including retirement benefits created under State or Federal law) in the case of an employee who has not attained the normal retirement age under the plan.".

(5) CONFORMING AMENDMENT.—The first sentence of section 411(a) of such Code (relating to minimum vesting standards) is amended by striking out "paragraph (2) of subsection (b), and" and all that follows through the end thereof and inserting in lieu thereof "subsection (b)(3), and also satisfies, in the case of a defined benefit plan, the requirements of subsection (b)(1) and, in the case of a defined contribution plan, the requirements of subsection (b)(2).".

SEC. 1212. EFFECTIVE DATE.

(a) IN GENERAL.—The amendments made by this subtitle shall apply only to employees who are employed after December 31, 1988. In cases of such employees, such amendments shall apply to accrual computation periods beginning after December 31, 1986. In the case of employees not employed after December 31, 1988, the amendments made by this subtitle shall apply only to accrual computation periods beginning after December 31, 1988.

(b) PLAN AMENDMENTS.—If any amendment made by this subtitle requires an amendment to any plan, such plan amendment shall not be required to be made before the first plan year beginning on or after January 1, 1989, if—

(1) during the period after such amendment takes effect and before such first plan year, the plan is operated in accordance with the requirements of such amendment; and

(2) such plan amendment applies retroactively to the period after such amendment takes effect and before such first plan year.

A pension plan shall not be treated as failing to provide definitely determinable benefits or contributions merely because it operates in accordance with this provision.

(c) SPECIAL RULE FOR COLLECTIVELY BARGAINED PLANS.—In the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers ratified before March 1 1986, the amendments made by this subtitle shall not apply to plan years beginning before the earlier of—

(1) the later of—

(A) January 1, 1989, or

(B) the date on which the last of such collective bargaining agreements terminate (determined without regard to any extension thereof after February 28, 1986), or

(2) January 1, 1991.

(d) FINAL REGULATIONS.—The Secretary of Labor or the Secretary of the Treasury, as the case may be, shall issue before February 1, 1988, such final regulations as may be necessary to carry out the amendments made by this subtitle.

TITLE XIII—SOCIAL SECURITY TRUST FUNDS

SEC. 1301. SHORT TITLE.

This title may be cited as the "Social Security Trust Funds Management Act of 1986".

SEC. 1302. INVESTMENT AND RESTORATION OF TRUST FUNDS.

(a) Subsection (d) of section 201 of the Social Security Act (42 U.S.C. 401(d)) is amended—

(1) by striking out "(1) on original issue" and inserting in lieu thereof "(A) on original issue",

(2) by striking out "(2) by purchase" and inserting in lieu thereof "(B) by purchase";

(3) by striking out "It shall be" and inserting in lieu thereof "(1) It shall be", and

(4) by adding at the end thereof the following new paragraphs:

"(2) If—

"(A) any amounts in the Trust Funds have not been invested solely by reason of the public debt limit, and

"(B) the taxes described in clause (3) or (4) of subsection (a) with respect to which such amounts were appropriated to the Trust Funds have actually been received into the general fund of the Treasury of the United States,

such amounts shall be invested by the Managing Trustee as soon as such investments can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title.

"(3)(A) Upon expiration of any debt limit impact period, the Managing Trustee shall immediately—

"(i) reissue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations held by such Trust Fund that—

"(I) were redeemed during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of standard investment procedures for such Trust Fund in effect on the day before the date on which the debt limit impact period began, would not have been redeemed if the debt limit impact period had not occurred, and

"(ii) issue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations which—

"(I) were not issued during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of such standard investment procedures, would have been issued if the debt limit impact period had not occurred.

"(B) Obligations issued or reissued under subparagraph (A) shall be substituted for obligations that are held by the Trust Fund, and for amounts in the Trust Fund that have not been invested, on the date on which the debt limit impact period ends in a manner that will ensure that, after such substitution, the holdings of the Trust Fund will replicate to the maximum extent practicable the obligations that would be held by such Trust Fund if the debt limit impact period had not occurred.

"(C) In determining, for purposes of this paragraph, the obligations that would be held by a Trust Fund if the debt limit impact period had not occurred, any amounts in the Trust Fund which have not been invested, and any amounts required to be invested under paragraph (2), shall be treated as amounts which were required to be invested upon transfer to the Trust Fund.

"(4) The Managing Trustee shall pay, on the first normal interest payment date that occurs on or after the date on which any debt limit impact period ends, to each of the Trust Funds, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Managing Trustee to be equal to the excess of—

"(A) the net amount of interest that would have been earned by such Trust Fund during such debt limit impact period if—

"(i) amounts in such Trust Fund that were not invested during such debt limit impact period solely by reason of the public debt limit had been invested, and

"(ii) redemptions and disinvestments with respect to such Trust Fund which occurred during such debt limit impact period solely by reason of the public debt limit had not occurred, over

"(B) the sum of—

"(i) the net amount of interest actually earned by such Trust Fund during such debt limit impact period, plus

"(ii) the total amount of the principal of all obligations issued or reissued under paragraph (3)(A) at the end of such debt limit impact period that is attributable to interest that would have been earned by such Trust

Fund during such debt limit impact period but for the public debt limit.

"(5) For purposes of this section—

"(A) The term 'public debt limit' means the limitation imposed by subsection (b) of section 3101 of title 31, United States Code.

"(B) The term 'debt limit impact period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States sufficient to orderly conduct the financial operations of the United States may not be made without exceeding the public debt limit.".

(b) Subsection (a) of section 201 of the Social Security Act is amended by adding at the end thereof the following new sentence: "All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under any other provisions of law directly related to the programs established by this title.".

SEC. 1303. REPEAL OF NORMALIZED TAX TRANSFER.

(a) Subsection (a) of section 201 of the Social Security Act is amended by striking out the matter following clause (4) and inserting in lieu thereof the following: "The amounts appropriated by clauses (3) and (4) shall be transferred from the general fund of the Treasury of the United States to the Federal Old-Age and Survivors Insurance Trust Fund, and the amounts appropriated by clauses (1) and (2) of subsection (b) shall be transferred from the general fund of the Treasury to the Federal Disability Insurance Trust Fund, upon receipt by the general fund of taxes specified in clauses (3) and (4) of this subsection (as estimated by the Secretary). Proper adjustments shall be made in amounts subsequently transferred to the extent amounts previously transferred were in excess of, or were less than, the taxes specified in such clauses (3) and (4). All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under other provisions of law directly related to the programs established by this title.".

(b) The amendment made by subsection (a) shall take effect on July 1, 1990.

SEC. 1304. FAITHFUL EXECUTION OF DUTIES BY MEMBERS OF BOARD OF TRUSTEES OF TRUST FUNDS.

Section 201(c) of the Social Security Act is amended by striking the last sentence and inserting the following: "A person serving on the Board of Trustees (including the Managing Trustee) shall not be considered to be a fiduciary, but each such person shall faithfully execute the duties imposed on such person by this section. A person serving on the Board of Trustees (including the Managing Trustee) shall not be personally liable for actions taken in such capacity with respect to the Trust Funds.".

SEC. 1305. REPORTS REGARDING THE OPERATION AND STATUS OF THE TRUST FUNDS.

Subsection (c) of section 201 of the Social Security Act is amended—

(1) by striking "once" in the fourth sentence and inserting "twice",

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively,

(3) by redesignating paragraphs (3), (4), and (5) as subparagraphs (D), (E), and (F), respectively,

(4) by inserting after subparagraph (B) (as redesignated by paragraph (2) of this section) the following:

"(C) Report to the Congress as soon as possible, but not later than the date that is 30 days after the first normal interest payment date occurring on or after the date on which any debt limit impact period for which the Managing Trustee is required to take action under paragraph (3) or (4) of subsection (d) ends, on—

"(i) the operation and status of the Trust Funds during such debt limit impact period, and

"(ii) the actions taken under paragraphs (3) and (4) of subsection (d) with respect to such debt limit impact period;",

(5) by striking out "in paragraph (2) above" and inserting in lieu thereof "in subparagraph (B) above",

(6) by inserting "(1)" after "(c)", and

(7) by adding at the end thereof the following:

"(2) The Managing Trustee shall report monthly to the Board of Trustees concerning the operation and status of the Trust Funds and shall report to Congress and to the Board of Trustees not less than 15 days prior to the date on which, by reason of the public debt limit, the Managing Trustee expects to be unable to fully comply with the provisions of subsection (a) or (d)(1), and shall include in such report an estimate of the expected consequences to the Trust Funds of such inability.".

SEC. 1306. ELIMINATION OF UNDUE DISCRETION IN THE INVESTMENT OF TRUST FUNDS.

(a) Section 201(d) of the Social Security Act is amended, in the first sentence—

(1) by inserting "immediately" after "to invest"; and

(2) by striking ", in his judgment,".

(b)(1) Paragraph (2) of section 201(d) of the Social Security Act, as added by section 202 of this Act, is amended to read as follows:

"(2) If any amount in either of the Trust Funds is not invested solely by reason of the public debt limit, such amount shall be invested as soon as such investment can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title."

(2) The amendment made by paragraph (1) shall take effect on July 1, 1990.

SEC. 1307. SALES AND REDEMPTIONS BY TRUST FUNDS.

Section 201(e) of the Social Security Act is amended—

(1) by inserting "(1)" after "(e)"; and

(2) by adding at the end the following:

"(2)(A) The Managing Trustee may effect any such sale or redemption with respect to either Trust Fund only for the purpose of enabling such Trust Fund to make payments authorized by this title or under any other provisions of law directly related to the programs established by this title. If either of the Trust Funds holds any amounts which are not invested by reason of the public debt limit, the Managing Trustee is nevertheless directed to make such sales and redemptions if, and only to the extent, necessary to assure timely payment of benefits and other payments authorized by this title or by any other provisions of law directly related to the programs established by this title, but the principal amount of obligations sold or redeemed pursuant to this sentence shall not exceed the principal amount of obligations that would have been sold or redeemed under normal operating procedures in order to make such payments.".

SEC. 1308. EFFECTIVE DATE.

Except as otherwise provided by this title, the amendments made by this title shall take effect on the date of enactment of this Act.

Passed the Senate September 20 (legislative day, September 15), 1986.

Attest:

Secretary.

□ 0010

Mr. DOMENICI. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. CHILES. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

COMPLIANCE WITH CERTAIN REQUIREMENTS OF THE BALANCED BUDGET AND EMERGENCY DEFICIT CONTROL ACT

The PRESIDING OFFICER. Under the provisions of Public Law 99-177, the hour of 12 midnight having arrived, the Senate will now turn to the consideration of Senate Joint Resolution 412.

The clerk will report.

The assistant legislative clerk read as follows:

A joint resolution (S.J. Res. 412) complying with the requirements of section 274(f)(1) of the Balanced Budget and Emergency Deficit Control Act of 1985.

Mr. BYRD. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. Under the provisions of the Balanced Budget and Emergency Deficit Control Act of 1985, Public Law 99-177, the joint resolution is not longer debatable, nor may it be amended.

The joint resolution will be read the third time.

The joint resolution was read a third time.

□ 0020

The PRESIDING OFFICER. The question is on final passage of the joint resolution.

The Senator from Florida.

Mr. CHILES. Mr. President, how much time is available now?

Mr. DOLE. None.

The PRESIDING OFFICER. No time is available. All time has expired.

The question is on the passage.

AGENDA

Mr. BYRD. Mr. President, I ask unanimous consent to proceed for 1 minute so I might ask the distinguished majority leader what his plans are for the remainder of the evening and Monday.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. I thought there might be one additional vote on a Daniloff resolution. I understand there will be an objection to that. So there will be no vote on that.

Am I correct there will be an objection?

Mr. PELL. As long as the summit meeting or arms control is related to the release of Daniloff there would be.

Mr. DOLE. So there will be an objection. So this will be the last vote tonight.

We will not be in—this is Saturday. We will not be in today. We will not have votes on Monday. We will discuss product liability on Monday, probably starting about noon or lasting to 4 or 5 o'clock, but there will be no votes on Monday. There will be votes on Tuesday. We hope to go to the highway bill on Tuesday.

Mr. BYRD. May we have order so the majority leader may be heard?

The PRESIDING OFFICER. The Senator is correct. The Senate is not in order. Those standing in the aisles or well of the Senate please take their seats and cease conversation. The Senate will not continue until the Senate is in order. Those who are conversing in the aisles, please take their seats.

Mr. DOLE. I would indicate there will be votes on Tuesday. We will be in a week from today, Saturday, and we will probably have a number of late nights this next week because I am still convinced we can conclude our business by the third. Our respective staffs, Republican and Democratic staffs, have been working on the drug bill starting this afternoon, will be working on the weekend and Monday. There is a chance we might work out a bipartisan approach on that.

It does seem to me we ought to at least have the managers have a couple minutes on each side before we vote on this rather important issue. I hope there would be unanimous consent to do that.

Mr. BYRD. Yes.

The PRESIDING OFFICER. The question is on final passage.

Mr. DOLE. I ask unanimous consent we may proceed for 3 minutes on a side.

Mr. ARMSTRONG. Mr. President, reserving the right to object, and of course I will not object, it would appear to me that both managers may be of the same mind on this issue. It would be well to divide the time in a way that would afford an opportunity for someone who wishes to speak in favor of passage of the motion.

The PRESIDING OFFICER. Is there objection to the request? Without objection, it is so ordered.

Mr. DOLE. Mr. President, let me indicate whatever the outcome is I will vote with the prevailing side. I say that for a reason. Then I will enter a motion to reconsider.

If the House does not comply as we have complied today, then I will bring up the motion to reconsider and we will then vote for sequester or whatever.

The PRESIDING OFFICER. Who yields time?

Mr. DOMENICI. Mr. President, I yield myself 1 minute.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. I will ask on our side who does the leader——

The Senator from Texas favors; I oppose. He favors the adoption of the sequester resolution.

Mr. GRAMM. I do, Mr. President.

Mr. DOMENICI. I yield myself 1 minute.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I am not going to vote for sequester because I just heard the distinguished majority leader say that whatever happens tonight, he is going to enter a motion to reconsider. That will keep this matter before the Senate.

The only possible reason to vote for it is to be concerned if the U.S. House will not do their job. We have done ours. The very reason that we had this temporary sequester which we are going to vote on in a few minutes, the very reason for it being in the law is to make sure we do our job.

Some may not like the way we did our job, but I do not believe anyone can say we have not done our job. That means that the American people——

The PRESIDING OFFICER. The Senator has used his 1 minute.

Mr. DOMENICI. I will yield the floor and save 2 minutes to me. I yield to the distinguished Senator from Texas.

Mr. GRAMM. I had 3 minutes. The Senator still has 2 minutes left.

Mr. DOLE. No, 3 minutes together.

The PRESIDING OFFICER. Who yields time?

Mr. GRAMM. Mr. President, how much time do I have?

The PRESIDING OFFICER. Three minutes.

Mr. DOLE. That is right.

The PRESIDING OFFICER. Three minutes to the side of those who favor the resolution.

Mr. GRAMM. Mr. President, I will vote "aye" on this motion to conform with the law. But let me make the vote clear to everybody. The purpose of this vote is to serve as a disciplining agent. When we cast this vote tonight, this vote is meaningless so far as the U.S. Senate is concerned. Under Gramm-Rudman-Hollings no one can go back at this point and change the economic base numbers, that is set by law. The Appropriations Committee has set out a pattern and bills that will clearly meet the targets of Gramm-Rudman and, as the distinguished chairman has said, while we may not in groups or individually like the way this was achieved, it meets the targets.

The distinguished majority leader will move to reconsider the vote. The vote will be left open. If the House does not do its job, we can come back and pull the trigger and put the heat on everybody.

So I submit that in a very real sense this is simply a political vote. I intend to vote for it to conform with the process. But I urge my colleagues to make their own judgment as to whether they want to vote "aye" or "nay", but to be prepared if the House does not act, if we do not come to a conference, if we do not meet the target, to pull the trigger at that point. At that point the vote will become meaningful. Tonight it is not meaningful and I ask my colleagues to vote on that basis.

I reserve the remainder of my time.

The PRESIDING OFFICER. Who yields time?

Mr. DOMENICI. I yield 1 minute to the distinguished Senator from Florida.

The PRESIDING OFFICER. The Senator from Florida.

Mr. CHILES. Mr. President, I intend to vote "no" tonight. I urge my colleagues to vote "no."

I think by an overwhelming vote we have provided the savings that allow us to meet the targets. I see no reason why we should vote now to sequester defense 5.6 percent, $9.7 billion, to sequester the domestic programs, 7.6 percent, a total of $9.7 billion, to freeze Federal Reserve COLA's for the second year in a row, and one reason I am going to vote "no" is that I do not want to cast that vote, and I think I can do that with good conscience because we have done our job and we have met the target.

The PRESIDING OFFICER. Who yields time?

Mr. GRAMM. Mr. President, how much time do we have remaining?

The PRESIDING OFFICER. One minute and 24 seconds.

Mr. GRAMM. Let me respond by saying the vote tonight does none of those things. It confirms what the deficit is. CBO and OMB had a finding regarding the size of the deficit. It is $163 billion.

Tonight we certify that finding; if we vote for it here or by waiting, we have an opportunity to bring it back up. We can do that when the time comes.

I yield the remainder of my time to the distinguished Senator from New Hampshire.

Mr. RUDMAN. Mr. President, I will take 30 seconds.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. RUDMAN. What we are doing here with this vote is following a process that many people in this Chamber said that we ought to follow. They did not like the automatic procedure. The Supreme Court overruled it. They said let us vote. This is the chance to vote.

I make one final point. This is not a unicameral legislative body. The U.S. Senate did a great work tonight. The Senator from New Mexico and the Senator from Florida deserve tremendous thanks and commendation of the body. We have done our work but the work is not done. It is not yet the law. We should set the benchmark for Americans to see, cast the vote the people said they want a chance to cast and hope the other body does its work.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. DOMENICI. Mr. President, how much do I have?

The PRESIDING OFFICER. It is 54 seconds.

Mr. DOMENICI. I can assure Members of the U.S. Senate, that come October there will be no sequester. With the passage of this bill holding resolution at the desk and with what is going to happen in both Houses, there will be no sequester in October.

If that is the case, what do we want to vote in a temporary sequester for tonight—to prove our macho. All it does is hold some budget authority in abeyance until October to see if we meet the targets.

I think we have met them. They told us to do this. That is what this process said. It has worked. I commend its sponsors. It has worked. It puts us here tonight. It put the appropriators where they are not spending over the budget resolution. When you add it up, there will not be a sequester. What do we want to have a temporary one held out there for? You know it will just hold all the budget authority around and confuse things for October.

The PRESIDING OFFICER. The time has expired.

SEVERAL SENATORS. Vote.

The PRESIDING OFFICER. Who yields time?

SEVERAL SENATORS. Vote, vote.

Mr. GRAMM. I yield back.

Mr. DOMENICI. I yield back my time.

The PRESIDING OFFICER. All time has expired.

Mr. LEVIN. Mr. President, I supported the reconciliation deficit reduction package offered by Senators DOMENICI and CHILES. I looked at this package with two questions in mind: Is this an ideal way to reduce the deficit and reach the Gramm-Rudman target for 1987; and, if it is not idea, is it least a real way to reduce the deficit?

It is clear to me that this is not an ideal approach. First of all, many of the elements in this package are one year savings. The sale of loan assets, for example, will bring in revenue 1987, but we cannot sell the same asset 2 years in a row. The goal we should have in terms of spending restraint is to make changes in the law now which are lasting in their effect, resulting in deficit reduction in 1987 and beyond.

Second, a better way to reduce the deficit, which would have had an effect in 1987 and beyond, would have been to combine spending restraint with revenue increases from tax reforms such as a tough minimum tax on profitable corporations and wealthy individuals who are not now paying anything in taxes. In that way, we could have achieved greater fairness in the Tax Code and done something lasting about the deficit. Unfortunately, that tax reform revenue is now being used to fund uneven tax cuts in the tax reform bill. I oppose the tax reform bill for a number of reasons, but one of them is that by using those revenues to fund uneven tax cuts, we are putting ourselves in the position in the future of reducing the deficit through raising revenues from regressive taxes such as excise taxes on telephone bills and beer and through unwise or temporary spending restraint. So, for those who find this particular reconciliation package distasteful, let me state as clearly as I can—we have an option that is far better.

But if this is not an ideal deficit reduction package, is it adequate to meet the deficit reduction target of Gramm-Rudman for 1987? Chairman of the Budget Committee, Senator DOMENICI, and the ranking minority member, Senator CHILES have assured the Senate that the Congressional Budget Office is scoring the actions contained in this package as resulting in real deficit reduction for 1987. In the past, we in this body have looked to CBO as the impartial yardstick for measuring projected spending, revenues and deficits. Many in this body have looked to its analysis of the President's budget each year in order to determine the credibility of his budget. With our track record of trust in CBO, I believe we should trust CBO in its evaluation that the deficit reduction in this package will result in our meeting the Gramm-Rudman target for 1987.

Having supported a reconciliation package which CBO certifies will meet the 1987 target, I now believe it is possible to vote against putting in place a mechanism which would provide for across-the-board cuts in the event we miss the target. That is why I oppose the sequester order.

The theory behind Gramm-Rudman has always been that across-the-board cuts are only better than no action at all to reduce the deficit. The goal of having the possibility of across-the-board cuts was to set up a threat which would force us to take real action to reduce the deficit. And as it has turned out, the threat of having to vote for the across-the-board cuts has forced us to take real action. It is not ideal action, but it is real action. As imperfect as the process is, and as imperfect as the reconciliation bill itself is, I am convinced that without the presence of Gramm-Rudman hovering over us, there would have been very little real deficit reduction this year. Therefore, the reconciliation bill's being passed and the sequester order's being defeated are vindications of the Gramm-Rudman process and not signs of its demise.

If the reconciliation bill fails in the House of Representatives, the majority leader has assured us we will be able to reconsider the sequester resolution. He will accomplish this by moving to reconsider the vote on the sequester resolution and keeping that motion pending until the House acts. That is significant assurance that our action on reconciliation tonight, and basing defeat of sequester upon that action, will not be illusory. The discipline will remain intack therefore.

Mr. PELL. Mr President, the resolution being considered by the Senate would make possible deep spending cuts in nearly every Federal Government spending program—spending cuts mindlessly calculated by computers following a rigid formula. I shall vote against this resolution.

The proposal before us is a central part of the Gramm-Rudman Act enacted by the Congress late in 1985. I was one of just 24 Senators who voted consistently against the Gramm-Rudman Act in each of the three different versions brought before the Senate. The elaborate Gramm-Rudman process is simply the wrong way and a bad way to achieve a good end—reducing the annual Federal Government deficits.

The resolution before us today is a clear demonstration of what is wrong with the Gramm-Rudman process. This resolution would require spending cuts of 7.6 percent in nearly all nondefense spending programs and a reduction of 5.6 percent in defense spending. These cuts would be made without any consideration of whether some Federal Government programs are of greater or lesser value, or a higher or lower priority, than others. All would be cut by the same percentage—education, air traffic control, tobacco subsidies, foreign aid, health research, or military aid to the Contras in Nicaragua—all get the same treatment.

This is no way to run a government and no way to establish our national priorities. No family would manage its budget this way; no corporation would manage its business this way, and the Federal Government should not either.

The Congress in fact has a procedure for establishing spending priorities. We establish priorities by enacting appropriations bills for each government agency and program, deciding how much or how little should be spent on each.

But, with the Gramm-Rudman Act in effect, that procedure has been all but abandoned this year. Of the 14 annual appropriations bills, the Senate this year has considered and acted on only seven. The Senate has had no opportunity to establish priorities by acting on spending bills for the Departments of State, Defense, Justice, Energy, Agriculture, Treasury, Housing and Urban Development or for foreign assistance.

And yet, by the resolution before us, we would willy-nilly cut these programs and the programs of all other departments by precisely 7.6 percent or, in the case of defense spending by 5.6 percent. And we are asked to approve this process even though we have not determined to what spending level the cut will apply.

Supporters of the Gramm-Rudman process contended from the outset that the threat of formula spending cuts would force the Congress to act in a timely and responsible manner on the Federal Budget. The fact is that with Gramm-Rudman in effect for the first year, we have not acted in a timely and responsible manner on Federal spending bills. The Congress has not completed action on one—not one—spending bill for the fiscal year that begins in just 3 weeks. The fact that this resolution is before us is a measure of the failure of the Gramm-Rudman Act.

Even now, with less than 3 weeks remaining before the start of the 1987 fiscal year on October 1, we are told that no one wants these formula cuts to take place, but the threat of them is necessary to force us to act on an alternative. In short, we are told we must load this pistol and hold it against our foreheads to remind us that we have a serious budgetary responsibility to fulfill. That is childish nonsense.

The truth is that there will be severe penalties if we do not bring Federal deficits under control. If deficits continue as they have during these past 5 years, our Nation will face a growing threat of inflation, we will become increasingly a debtor among the nations of the world, and we will find it increasingly difficult to reduce our huge trade deficits. With those kinds of real world penalties for budget deficits, do we really need to add these artificial threats of cutting funds for education, scientific research, air traffic safety, and drug enforcement by 7.6 percent?

It is argued that the resolution before us is only a technicality, that we are being asked only to affirm the accuracy of the deficit estimates for the coming fiscal year.

Well, the fact is that if this resolution is approved, the Gramm-Rudman formula cuts in spending will be possible. If the resolution is defeated, the Gramm-Rudman formula cuts will not be possible.

I am opposed to the Gramm-Rudman process. I am opposed to many of the program cuts this resolution would make possible. For that reason I shall vote against the resolution.

Mr. BYRD. Mr. President, the Gramm-Rudman chicken is coming home to roost tonight. Shortly, we will be voting on the sequester resolution that was reported by the temporary joint committee. That resolution incorporates the contents of the report of the directors of CBO and OMB, which estimates the deficit next year at $163.4 billion and calls for $19.4 billion in outlay reductions to meet the $144 billion deficit target. That will require outlay reductions of 5.6 percent in defense programs and 7.6 percent in affected nondefense programs.

These are not dry numbers. Let me explain what some of these cuts will mean. This sequestration resolution would cut $19.1 billion in spending authority from national defense. That includes $3.8 billion from military personnel, and $4.2 billion from operation and maintenance activities. These are at the heart of our military readiness budget.

The sequester resolution would strike directly at military personnel levels, possibly forcing drastic and dangerous reductions in troop strength. And it would start a return to the days of the "hollow" army, when planes could not fly for want of spare parts—when ships could not sail for want of trained personnel—when soldiers did not have enough ammunition for training, let alone defending out national interests.

I do not believe that the world situation has relaxed to the point where such reductions are wise. If the resolution only made these cuts in the defense budget, I would strongly oppose it. But it also makes penny-wise and pound-foolish cuts in domestic programs.

Let me illustrate some of these cuts. At a time of declining margins of safety in air travel, the sequester resolution would cut $174.6 million in spending authority from the FAA's operation budget. This Nation's air traffic control system is dangerously undermanned right now. Cutting the FAA's budget is exactly the wrong step to take if we are interested in reversing the slide in the margins of aviation safety.

Another example, the budget of the National Cancer Institute would be slashed by $89 million next year. I ask my colleagues to consider whether sufficient progress has been made in the war against cancer to justify this kind of cut? I believe that we must do more, not less in searching for a cure for this dreaded disease.

Moreover, the sequester resolution would cut financial assistance to college students by $367 million next year. How on earth is this Nation going to become competitive in the world economy if we consume our seed corn and do not provide for the education of our children? Again, this is an ill-considered and unwise policy.

I could name many other areas in which this resolution would do serious damage to the national interest. But let me conclude with just one. This Senate is rightfully concerned with the epidemic of drug use that is enveloping this country. No area of activity is safe from its pernicious effects. It is destroying productive lives, and is wreaking untold damage on our children.

Yet, this resolution would cut $28 million from the Drug Enforcement Administration's budget next year, $89 million from the FBI, and over $60 million from the Customs Service. How can we be serious about the need to strengthen efforts to eradicate illegal drugs if we cut the budget of those agencies that are on the front line of the drug war? This is just one more example of the unsound, wrongheaded, and just plain foolish budget cuts that this resolution would make.

Mr. President, these are but a few examples of the absurdities of the across-the-board budget cuts mandated by Gramm-Rudman. Even some of the President's key advisers who were among the strongest cheerleaders for the Gramm-Rudman proposal last year are counseling a veto of this resolution now that the consequences of it are apparent. I warned the President last year that Gramm-Rudman could have a detrimental effect on our defense capabilities and important domestic programs. And now those predictions are coming true.

This resolution is an abdication of the fundamental responsibility of the Congress to set fiscal priorities—to determine which programs are essential to our Nation and which can be reduced. But this resolution reduces programs by equal percentages. It assumes, for instance, that cancer research is no more important than construction of new office buildings.

Mr. President, this resolution, if it becomes law, would be a disaster to this country. Thus, I will vote against it and urge my colleagues to do likewise.

The PRESIDING OFFICER. The joint resolution having been read the third time, the question is, Shall it pass?

On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. SIMPSON. I announce that the Senator from Utah [Mr. GARN], the Senator from Arizona [Mr. GOLDWATER], and the Senator from Vermont [Mr. STAFFORD], are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Oklahoma [Mr. BOREN] and the Senator from Hawaii [Mr. MATSUNAGA], are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 15, nays 80—as follows:

[Rollcall Vote No. 278 Leg.]

YEAS—15

Armstrong	Hecht	Proxmire
Cohen	Helms	Rudman
Danforth	Hollings	Stennis
Gramm	Humphrey	Wallop
Hatch	Long	Wilson

NAYS—80

Abdnor	Ford	Metzenbaum
Andrews	Glenn	Mitchell
Baucus	Gore	Moynihan

Durenberger	Mattingly	Warner
Eagleton	McClure	Weicker
Evans	McConnell	Zorinsky
Exon	Melcher	

NOT VOTING—5

Boren	Goldwater	Stafford
Garn	Matsunaga	

So the joint resolution (S.J. Res. 412) was rejected.

□ 0040

Mr. DOLE. Mr. President, I enter a motion to reconsider the vote by which Senate Joint Resolution 412 was defeated.

ROUTINE MORNING BUSINESS

Mr. DOLE. Mr. President, I ask unanimous consent that there now be a period for the transaction of routine morning business not to extend beyond the hour of 1 a.m.

Mr. HUMPHREY. Mr. President, reserving the right to object.

Mr. President, I withdraw the reservation.

The PRESIDING OFFICER. Without objection, it is so ordered.

MARINE CENTRAL RAILROAD CO. AND PORTLAND TERMINAL CO. LABOR-MANAGEMENT DISPUTE

Mr. COHEN. Mr. President, Wednesday night the Senate passed Senate Joint Resolution 415, a bill to provide for a settlement to the Maine Central Railroad Co. and Portland Terminal Co. labor-management dispute.

This dispute, which began more than 6 months ago and threatens to disrupt rail transportation services essential to Maine and the Nation, remains unresolved.

The parties involved in the dispute are as far apart today as they were 6 months ago, despite two congressionally imposed cooling off periods. No resolution of the differences between the parties is in sight. Negotiations are at a standstill.

The most recent cooling off period expired yesterday. At this time, both parties are free to unilaterally take whatever steps are warranted by the circumstances. Guilford Transportation Industries, owner of the Maine Central Railroad, has publicly stated that it intends to swiftly and unilaterally impose a 20-percent wage cut and extensive work rule changes. The union has stated that it will not accept this course of action and will strike. The strike is certain to spread quickly throughout the Nation, crippling the flow of interstate commerce. The stage is set for a nationwide strike.

I fully support the collectives bargaining process and would prefer to see the parties in this dispute work out their differences through this process. Congress extended the cooling off period last month in order to allow the parties additional time to resolve their differences on their own. Unfortunately, no progress was made by the parties and they remain at an impasse.

The flow of interstate commerce is critical to the Nation's economic well-being and transcends the narrow interests of any party. Congress is obligated to protect the flow of interstate commerce. It has no option other than to take the steps necessary to prevent a nationwide rail strike from occurring.

The Congressional Advisory Board, a second independent panel established by Congress to investigate this dispute, found the Presidential Emergency Board's recommendations reasonable and well-founded and recommended them as a reasonable settlement of the dispute.

These recommendations constitute Senate Joint Resolution 415 and I am pleased that the Senate acted so quickly in adopting this resolution. The speed with which the Senate has acted will increase the chances that a national railroad strike can be averted. That is good news for Maine and the Nation.

NATIONAL POW/MIA RECOGNITION DAY

Mr. SIMPSON. Mr. President, it is particularly appropriate that we commemorate "National POW/MIA Recognition Day," a day set aside to honor those who are missing or who have been or are prisoners of war. It is my fervent hope that this day of recognition will serve as a reminder that there are missing American citizens who have not been accounted for, and that a full accounting of those Americans remains a highest priority of this administration. Until that accounting has been made and all of our imprisoned Americans are returned, this great Nation will itself yet remain a prisoner of the conflict in Southeast Asia.

There are some 2,430 Americans who are still unaccounted for from the Vietnam war. Six of those were from my native State of Wyoming. The location and condition of each of these persons should be a matter of vital concern to each of us. For those who may still be living, our concern must be to make every possible effort to bring about their return as swiftly as possible. For those for whom the heavy struggle has ceased, we must labor to provide answers to their families in order that the horrible uncertainly with which they daily contend can be resolved at last.

I earnestly commend the efforts of those who remind us all of the commitment of this Nation to the return of those living and a final accounting of all of those who gave their lives for this great country.

POW/MIA DAY OUR CONTINUED COMMITMENT

Mr. BYRD. Mr. President, earlier today, the distinguished majority leader called attention to the observance of this day as National POW/MIA Day. I commend him for recognizing this significant occasion. As my colleagues know, the issue of our countrymen missing in action, or otherwise unaccounted for, has been of profound concern to me. I sponsored successful legislation to award a congressional medal to the families of the missing, in recognition of their sacrifice and their determination to keep this issue high on the list of our national priorities. I wrote to the former Postmaster General to encourage him to have a stamp issued to recognize this important piece of unfinished national business.

These are tangible symbols of our concern—our commitment—to a full

accounting of those missing in the service of their country. But the real evidence of our commitment is to be found in the fact we continue to press for that accounting. When I had the privilege of addressing the National League of Families of American Prisoners and Missing in Southeast Asia, I quoted from the book of Matthew, chapter 10, in which Jesus said "are not two sparrows sold for a farthing? And one of them shall not fall on the ground without your father. But the very hairs of your head are all numbered. Fear ye not therefore, ye are of more value than many sparrows."

God does not lose us. He has not lost sight of those nearly 2,000 of our countrymen missing in Southeast Asia. While these Americans are beyond our sight, they are not beyond our thoughts. We will continue to insist upon the fullest possible accounting.

It is only fitting that we recognize POW/MIA Day. I commend the families of those brave Americans. Their perseverance and resolve will assure the full accounting that all Americans require.

SUPERFUND

Mr. BROYHILL. Mr. President, I am pleased to be a cosponsor of the programmatic portions of the conference report on H.R. 2005 being introduced today by the chairman of the Environment and Public Works Committee.

As an original cosponsor of the House bill, I congratulate the members of the Superfund Conference Committee on forging a good compromise bill. This compromise will greatly expand and strengthen the Superfund Program at a time when this program has been starving for funds since its original funding authorization expired last September 30—almost 1 year ago.

Despite the uncertainties in funding, and the long wait for additional authorities, the EPA has been doing what it can to clean up the most critical waste sites.

My office has been informed that, beginning Sunday, September 28, EPA Southeast region will begin evacuating 22 families near the Sanford Plating Superfund site in Sanford, NC. The evacuation is a precaution to ensure their safety while the EPA is chemically altering cyanide found in the site. The evacuation is expected to last 3 or 4 days.

The Sanford Plating site is on the national priority list as a heavy metals and plating waste site. Located near Route 5 and Deep River Road, the site contains 15,000 gallons of plating solutions and 50 tons of contaminated soil and sludge. Preliminary work on the site began in August under EPA's immediate removal phase of the Superfund Program.

The families are being asked to stay in local motels at Government expense. EPA has already transferred $30,000 to FEMA to cover the temporary relocation expense.

The families are being evacuated as a precautionary measure. EPA intends to threat the plating acids and cyanide wastes at the site. There is the possibility that the chemical treatment process could produce small amounts of cyanide gas, thus the precaution of removing the families. EPA will establish a complete air-monitoring system around the site during the treatment period.

Once the wastes are rendered inert, EPA intends to transport the material to one or more approved disposal sites.

I inform my colleagues of this action in North Carolina to illustrate that EPA is moving forward to cleanup abandoned hazardous waste dumps as quickly as funding and resources will allow. We in the Congress must do our part to ensure that the Superfund Program not only continues, but is expanded to ensure the permanent elimination of these hazardous waste dumpsites.

FORMER SENATOR NORRIS COTTON

Mr. RUDMAN. Mr. President, I ask unanimous consent that an article appearing in the Manchester, NH, Union Leader dated September 17, 1986, about a former colleague and a Member of this body, Senator Norris Cotton, of the State of New Hampshire, be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Manchester (NH) Union Leader, Sept. 17, 1986]

UNDER THE STATE HOUSE DOME

(By Donn Tibbetts)

The history of Warren, a town far up in the foothills of New Hampshire, has just been published by author Roland Bixby.

In a preface, a famous Warren son, former U.S. Sen. Norris Cotton writes: "Perhaps no other New Hampshire town is quite so closely pinched by hills and mountains as Warren. Legend has it that Daniel Webster in his early days visited Warren and later remarked that a cobbler plying his trade in Warren couldn't pull out his last without bumping his elbow against the pressing hills.

Cotton, 86, says that Bixby "has a remarkable talent for reaching into the past and painting such a vivid picture of long-ago events that he breathes life into them and makes them sound as if they were recent occurrences."

"Being native born and of kindred spirits with the residents of Warren," said Bixby, "it has been a satisfying undertaking to preserve the account of their pains, their dilemmas, their adventures, their advances, their God-given abilities and their attitudes about life."

"One cannot help but be awestruck by the admiring qualities of a people who are anything but naive to the ways of the modern world," wrote Bixby.

In writing about Cotton, Bixby recalls: "When after his retirement, a large statewide banquet was planned with a high price plate, Norris objected, saying, 'It was the people who sent me to Washington and gave me a successful career. Charge them $10 a plate or I'll not be there.'

"And they did, and he was there. This was the real Norris Cotton, second only to Daniel Webster who also hailed from New Hampshire and the small town of Franklin," wrote Bixby.

It all whets the appetite for Bixby's "Standing Tall—The Life Story of Norris Cotton" due out later this year.

DAVID A. WINSTON

Mr. DOLE. Mr. President, last week David A. Winston, a former Senate staff member, White House consultant, and health-care expert died. Mr. Winston's premature death at age 44 was sad news to all of us who had the honor of working with him over the past 10 years.

I speak as a Senator with great interest in quality health care and quality Federal health policy when I say that David Winston's contributions toward achieving these same goals were noteworthy. And those of us who have been involved in the health field will miss his leadership, dedication, and ability on this issue.

During the late 1970's, when this Nation was making significant decisions about health policy, Mr. Winston served as a staff member to the ranking member, Senator Schweiker, and the whole committee. Later, Mr. Winston served as the head of President Reagan's health transition team and as a consultant to the White House.

At this point I would like to introduce three letters: The first from the President, the second from the Secretary of Health and Human Services Dr. Otis Bowen; and the third from former Senator and Health and Human Services Secretary, Richard Schweiker.

Mr. President, I want to extend my sympathies to Mr. Winston's family and friends. David Winston was trusted and admired by everyone who ever worked with him, on the Hill and in the executive branch. And his presence will be much missed.

There being no objection the material was ordered to be printed in the RECORD, as follows:

THE WHITE HOUSE,
Washington, September 19, 1986.

Hon. ROBERT DOLE,
Majority Leader,
U.S. Senate, Washington, DC.

DEAR BOB: With the untimely death of David A. Winston all of us have lost a dear friend and trusted adviser. David contributed greatly to our efforts to improve the Nation's health care, and we will all miss him. I appreciate the opportunity to share my thoughts for this eulogy for David.

My association with David Winston goes back to my days in California. In progres-

sively responsible positions, he advised the State Assembly Health Committee, he served as Deputy Secretary of the California Health and Welfare Agency, and he was Chief Deputy Director of the California Department of Health. Throughout that time he was instrumental—indeed indispensible—in helping us accomplish many of the goals we sought to achieve for the people of California.

With his store of experience on the State level, David next turned the focus of his attention to the national level, serving on the Senate staff as a trusted and valued aide to Dick Schweiker.

From the outset of my first team, David was adviser to all my appointees as Secretary of Health and Human Services. In 1982, he took on the additional role of advising us at the White House on health issues.

David was the kind of person who made a trememdous contribution by working largely behind the scenes, but those who knew him were keenly aware of his central role. His passing deprives us of his continued counsel and help, and his family of a loving husband and father whose integrity and strength matched his public character in every respect.

We will all miss David's intelligence and dedication, but we should remember him for what he gave us, and be grateful for the splendid work he did for the land he loved so much. The Nation is better off, and we each are better off, because of David Winston. May the Lord who welcomes him to the everlasting City of God console all those who mourn him here in this City of Man.

Sincerely,

RONALD REAGAN.

SECRETARY OF HEALTH AND HUMAN SERVICES,
Washington, DC, September 16, 1986.

Hon. ROBERT DOLE,
U.S. Senate,
Washington, DC.

DEAR BOB: We have both lost a dear friend and respected colleague with the untimely death of David A. Winston. Each of us who strives to improve our Nation's health care knows our work will be harder without him. I am, therefore, grateful for the opportunity to share with you some thoughts for your eulogy for David.

I first came to know David Winston in 1982 when I was Chairman of the Advisory Council on Social Security. We renewed acquaintances and became good friends when I became Secretary in 1985. I quickly endorsed what my immediate predecessors, Secretary Schweiker and Secretary Heckler, had done in making David Winston an unofficial albeit trusted advisor. David's advice on all occasions was not only invaluable but also so incisive that it became immediately clear to me why so many of our nation's leaders had come to rely on him.

It is always hard to feel satisfied with any single characterization of an individual especially one with as many talents and virtues as David possessed. His insight and wisdom were always valued. However, there are two pespectives of David which I will always remember best.

First, was the way in which he blended his graciousness and his superior knowledge of health policy with an intense dedication to integrity. When David made a commitment, whether it was for or against you, you knew where you stood. Most of all, when you had a "yes" you did not have to worry; you had his bond.

Just as important was David's role as a teacher whose influence and inspiration touched everyone he dealt with. I am honored to include myself in that company. Further, it is amazing the extent to which David Winston's "students" are represented in the senior leadership of this Department. Yet, this should be no surprise: each learned from David his high standards of integrity, dedication, and professionalism. This made these individuals so attractive and essential both to me and my predecessors. Those who learned from David learned well how to handle the responsibilities of public office. Certainly all of the "Bowen team" have profited from the sage advice and counsel that he so graciously and unselfishly provided.

Senator Hatch once described David Winston as a "symphony of professionalism." How fitting a description for a man who was in every sense of the word a virtuoso and who seemed never to have played a discordant note.

As John Donne has written "No man is an island. . . ." and with David's passing many Americans throughout this great country must feel as if a part of themselves is floating away. He will be sorely missed in so many ways, yet we can take solace in the knowledge that we are all better for his having passed our way.

Sincerely,

OTIS R. BOWEN, M.D.

AMERICAN COUNCIL OF LIFE INSURANCE,
Washington, DC, September 17, 1986.

Hon. ROBERT DOLE,
Senate Majority Leader,
U.S. Capitol, Washington, DC.

DEAR BOB: The tragic and untimely death of David A. Winston reminds us all of the outstanding contributions he has made to his government, his profession and his family. David was a dedicated public servant, a skilled health professional, and a devoted family man.

Very early in his career David made a strong commitment to the state of California by serving the Governor of California and the State Assembly. He continued that strong commitment to public service by coming to Washington to work for me as Senator by serving as Minority Staff Director of the Senator Labor, Health and Human Resources Committee.

Even when he went to the private sector, he voluntarily served me when I was Secretary of the Department of Health & Human Services, and he also served President Reagan in both unofficial and official capacities in the health care field. He was able to blend a very unique knowledge of health care issues in both the public and the private sectors.

His leadership, ingenuity and creativity in the health care field was clearly evident in his work on health policy issues for the Senate Health Subcommittee and for the Senate Appropriations Subcommittee on Labor, Health, Human Services and Education on which I served as ranking Republican. His initiative, professional and administrative abilities made him a very effective health issues manager for the committee and me.

It is not surprising that when he entered the private sector in the health care field that he served as President of the National Committee on quality Health Care and Vice President of American Health Capital as well as Vice President of the Voluntary Hospitals of America. All of these positions testified to his unique ability.

In his role as my key health advisor he was able to develop a credible and creative alternative to the federal regulatory approach to health policy matters.

During his extensive career in public service to California, to President Reagan and to me, he was able to demonstrate a commitment of time and energy to his wife, Susan, and their two children, Heath and Shannon, which was exemplary.

All of us will miss his strong leadership in the health policy area as well as his kind and friendly personality that made working with him so interesting and enjoyable.

Sincerely,

RICHARD S. SCHWEIKER,
Former Secretary of Health, and Human Services.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Emery, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session, the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the Committee on Foreign Relations.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

At 11:02 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House agrees to the amendments of the Senate to the following joint resolution:

H.J. Res. 60. Joint resolution to designate the week beginning September 1, 1985, as "National School-Age Child Care Awareness Week."

The message also announced that the House has passed the following joint resolutions, without amendment:

S.J. Res. 196. Joint resolution designating September 22, 1986, as "American Business Women's Day";

S.J. Res. 317. Joint resolution to designate the month of November 1986 as "National Hospice Month";

S.J. Res. 354. Joint resolution to designate the week of October 5, 1986, through October 11, 1986, as "National Drug Abuse Education and Prevention Week";

S.J. Res. 357. Joint resolution to designate the week of September 15, 1986, through September 21, 1986, as "National Historically Black Colleges Week";

S.J. Res. 362. Joint resolution to designate the week of December 14, 1986, through December 20, 1986, as "National Drunk and Drugged Driving Awareness Week"; and

S.J. Res. 402. Joint resolution designating July 2 and 3, 1987, as the "United States-Canada Days of Peace and Friendship."

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

At 2:02 p.m., a message from the House of Representatives delivered by Ms. Goetz, one of its reading clerks, announced that the Speaker has signed the following enrolled bills and joint resolutions:

S. 290. An act for the relief of Catherine and Robert Fossez;

H.R. 3358. An act to reauthorize the Atlantic Striped Bass Conservation Act, and for other purposes;

H.R. 4421. An act to authorize appropriations for fiscal years 1987, 1988, 1989, and 1990 to carry out the Head Start, Follow Through, dependent care, community services block grant, and community food and nutrition programs, and for other purposes;

S.J. Res. 196. Joint resolution designating September 22, 1986, as "American Business Women's Day";

S.J. Res. 357. Joint resolution to designate the week of September 15, 1986, through September 21, 1986, as "National Historically Black Colleges Week"; and

H.J. Res. 60. Joint resolution to designate the week beginning September 15, 1986, as "National School-Age Child Care Awareness Week."

The enrolled bills and joint resolutions were subsequently signed by the President pro tempore [Mr. THURMOND].

At 4:13 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House agrees to the amendments of the Senate to the bill (H.R. 2787) to extend fiscal year 1988 SBA Pilot Programs under section 8 of the Small Business Act.

The message also announced that the House has passed the following bill, with amendments, in which it requests the concurrence of the Senate:

S. 1298. An act to coordinate and expand services for the prevention, identification, and treatment of alcohol and drug abuse among Indian youth, and for the other purposes.

The message further announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 4759. An act to authorize appropriations for fiscal year 1987 for intelligence and intelligence-related activities of the United States Government, the Intelligence Community Staff, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

ENROLLED BILLS SIGNED

At 5:34 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the Speaker pro tempore [Mr. FOLEY] has signed the following enrolled bills:

H.R. 1483. An Act to authorize the Smithsonian Institution to plan and construct facilities for certain science activities of the Institution, and for other purposes; and

H.R. 3622. An act to reorganize the Department of Defense and strengthen civilian authority in the Department of Defense, to improve the military advice provided to the President, the National Security Council, and the Secretary of Defense, to place clear responsibility on the commanders of the unified and specified combatant commands for the accomplishment of missions assigned to those commands and ensure that the authority of those commanders is fully commensurate with that responsibility, in increase attention to the formulation of strategy and to contingency planning, to provide for more efficient use of defense resources, to improve joint officer management policies, otherwise to enhance the effectiveness of military operations and improve the management and administration of the Department of Defense, and for other purposes.

The enrolled bills were subsequently signed by the President pro tempore [Mr. THURMOND].

MEASURES PLACED ON THE CALENDAR

The following bill was read the first and second times by unanimous consent, and placed on the calendar:

H.R. 4759. An act to authorize appropriations for fiscal year 1987 for intelligence and intelligence-related activities of the United States Government, the Intelligence Community Staff, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The following joint resolution, previously received from the House of Representatives, was read the first and second times by unanimous consent, and placed on the calendar:

H.J. Res. 732. Joint resolution making urgent supplemental appropriations for the fiscal year ending September 30, 1986, for emergency assistance to the Government of the Philippines.

The Committee on Labor and Human Resources was discharged from the further consideration of the following bill, which was placed on the calendar:

H.R. 4244. An act to authorize funds to preserve the official papers of Joseph W. Martin, Jr.

MEASURES HELD AT THE DESK

The following bills were ordered held at the desk pending further disposition by unanimous consent:

H.R. 4754. An act to amend the Federal Food, Drug, and Cosmetic Act to require the appointment of the Commissioner of Food and Drugs to be subject to Senate confirmation;

H.R. 4873. An act to authorize certain transfers affecting the Pueblo of Santa Ana in New Mexico, and for other purposes.

ENROLLED BILL AND JOINT RESOLUTIONS PRESENTED

The Secretary of the Senate reported that on today, September 19, 1986, she had presented to the President of the United States the following enrolled bill and joint resolutions:

S. 290. An act for the relief of Catherine and Robert Fossez;

S.J. Res. 196. Joint resolution designating September 22, 1986, as "American Business Women's Day"; and

S.J. Res. 357. Joint resolution to designate the week of September 15, 1986, through September 21, 1986, as "National Historically Black Colleges Week."

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-3748. A communication from the President's Personal Representative for Micronesian Status Negotiations, transmitting, pursuant to law, a report on the constitutional approval process and the status thereof in Palau; to the Committee on Energy and Natural Resources.

EC-3749. A communication from the Deputy Associate Director for Royalty Management, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of certain overpayment of offshore lease revenues; to the Committee on Energy and Natural Resources.

EC-3750. A communication from the Deputy Associate Director for Royalty Management, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of certain overpayment of offshore lease revenues; to the Committee on Energy and Natural Resources.

EC-3751. A communication from the Deputy Chief for Programs, Minerals Management Service, Department of Agriculture, transmitting, pursuant to law, a cover letter to accompany the previously submitted Deer Creek Watershed Plan in Oklahoma; to the Committee on Environment and Public Works.

EC-3752. A communication from the Deputy Administrator, General Services Administration, transmitting, pursuant to law, a proposed lease prospectus for the Internal Revenue Service in Austin TX; to the Committee on Environment and Public Works.

EC-3753. A communication from the Administrator of General Services, transmitting, pursuant to law, copies of proposed lease prospectuses; to the Committee on Environment and Public Works.

EC-3754. A communication from the Administrator of General Services, transmitting, pursuant to law, a copy of an amended lease prospectus; to the Committee on Environment and Public Works.

EC-3755. A communication from the Administrator of General Services, transmitting, pursuant to law, a proposed prospectus for leasing space in Rockville, MD; to the Committee on Environment and Public Works.

EC-3756. A communication from the Administrator of General Services, transmitting, pursuant to law, a report of building project survey for Tacoma WA; to the Committee on Environment and Public Works.

EC-3757. A communication from a member of the National Council on Public Works Improvement, transmitting, pursuant to law, the first of three reports on the state of the Nation's infrastructure; to the Committee on Environment and Public Works.

EC-3758. A communication from the Administrator of the Saint Lawrence Seaway Development Corporation, transmitting, pursuant to law, the annual report of the

Corporation for fiscal year 1985; to the Committee on Environment and Public Works.

EC-3759. A communication from the Secretary of Labor, transmitting, pursuant to law, the second annual report on the trade and employment effects of the Caribbean Basin Economic Recovery Act; to the Committee on Finance.

EC-3760. A communication from the Acting Director of the Defense Security Assistance Agency, transmitting, pursuant to law, a report on the provision of emergency military assistance to Chad; to the Committee on Foreign Relations.

EC-3761. A communication from the Chairman of the National Transportation Safety Board, transmitting, pursuant to law, a report on the implementation of an internal control review system under the Federal Managers Financial Integrity Act and a report on activities under that act for calendar year 1985; to the Committee on Governmental Affairs.

EC-3762. A communication from the Chairman of the Merit Systems Protection Board, transmitting, pursuant to law, the annual report of the Board on the significant actions taken by the Office of Personnel Management; to the Committee on Governmental Affairs.

EC-3763. A communication from the Chairman of the Merit Systems Protection Board, transmitting, pursuant to law, a report entitled "Getting Involved: Improving Federal Management With Employee Participation;" to the Committee on Governmental Affairs.

EC-3764. A communication from the Director of the Administrative Office of the United States Courts, transmitting a draft of proposed legislation to authorize additional judicial positions for the Courts of Appeals and District Courts of the United States; to the Committee on the Judiciary.

EC-3765. A communication from the President of the United States Capitol Historical Society, transmitting, pursuant to law, the annual report of the Society for the year ending January 31, 1986; to the Committee on Rules and Administration.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-856. A joint resolution adopted by the Legislature of the State of California; to the Committee on Commerce, Science, and Transportation.

"ASSEMBLY JOINT RESOLUTION NO. 91

"Whereas, the coast of California is a place of rare beauty and incalculable value to the spirit of humankind as well as for its economic well-being, and it is a national treasure admired and loved by all who have been refreshed by it; and

"Whereas, the oil industry intends to drill for oil off this spectacular coast, which will result in a new and noxious chemical odor in the air that will never leave; the potential destruction of seabirds and marine life; possible contamination of the food chain, including seafood shipped throughout California; large-scale air and water pollution from tankers, rigs, drill ships, trucks, and refineries; added pressure on highways, already badly in need of repair, as well as on other local services and resources; and

"Whereas, the plan to drill the north coast of California is related not to the real energy needs of Americans, but rather to federal decisions that discarded regulations regarding fuel-efficient cars, threw out government funding of alternative energy research, ended tax incentives for conservation and alternative energy use, and scrapped the once highly touted Synfuels program; and

"Whereas, despite the Department of the Interior's contention that California is not supplying its fair share of the nation's energy, this state is in reality a net energy exporter, producing far more energy than it consumes, and leading the nation in the development of alternative energy and conservation methods; and

"Whereas, The drilling for oil off of the north coast of California will not result in an increase in local employment or an improvement in the local economy as has been cynically promised, but will actually threaten the few remaining economic bases of the north coast, such as the commercial fishing and tourism industries, all for about one week's worth of energy for the nation; now, therefore, be it

"Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact legislation creating a zone of permanent protection for the northern California coast, from Point Buchon to the Oregon border, from 200 miles offshore to the tide and submerged lands of the State of California, and that this zone be set aside as a marine sanctuary, where extraction of fossil fuels, minerals, and other nonrenewable materials, and the dumping or burning of toxic wastes, are forbidden and the protection of the marine environment and the needs of the commercial and sports fisheries are assured forever, and be it further

"Resolved, That the Legislature respectfully requests that, as part of the establishment of this zone of permanent protection, recommendations be developed and submitted to California for the establishment of compatible zones in adjacent state waters; and be it further

"Resolved, that the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of the Interior, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States."

POM-857. Resolutions adopted by the Catholic War Veterans of the United States relative to observance of certain commemorative periods; to the Committee on the Judiciary.

POM-858. A petition from the President of the Brotherhood of Maintenance of Way Employees relative to the dispute between the Brotherhood of Maintenance of Way Employees and Maine Central and Portland Terminal Railroad Companies; to the Committee on Labor and Human Resources.

POM-859. A joint resolution adopted by the Legislature of the State of California; to the Committee on Labor and Human Resources.

"ASSEMBLY JOINT RESOLUTION NO. 94

"Whereas, Federal law applies to persons injured in the course of martime employment; and

"Whereas, applicable legislation appears to be mutually exclusive, in that workers covered under the Jones Act do not have access to the remedies available under any other federal act; and

"Whereas, rising insurance rates for commercial fishing vessels which are subject to the Jones Act have increased costs and slowed expansion in this vital industry; and

"Whereas, the Jones Act has no provision rendering inoperative state laws which create parallel remedies such as workers' compensation; now, therefore, be it

"Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature respectfully memorializes the President and the Congress of the United States to amend the Jones Act to allow commercial fishermen the option of coverage by the state workers' compensation program or other remedies which may resolve the problem of rising insurance rates for commercial fishing vessels; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States."

FOREIGN CURRENCY REPORTS

In accordance with the appropriate provisions of law, the Secretary of the Senate herewith submits the following report(s) of standing committees of the Senate, certain joint committees of the Congress, delegations and groups, and select and special committees of the Senate, relating to expenses incurred in the performance of authorized foreign travel:

CONSOLIDATED REPORT OF EXPENDITURE OF FOREIGN CURRENCIES AND APPROPRIATED FUNDS FOR FOREIGN TRAVEL BY MEMBERS AND EMPLOYEES OF THE U.S. SENATE, UNDER AUTHORITY OF SEC. 22, P.L. 95-384—22 U.S.C. 1754(b), COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY, FOR TRAVEL FROM APR. 1 TO JUNE 30, 1986
